Answers to Written Questions	33
Observation Checklist	39
Third Party Statement	43
Competency Recording Sheet	45

Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes
- Case Studies
- Log books

- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes
- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency

- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

	Tick (✓)	Remarks
Prior to the assessment I have:		
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - a) *Using the 'X' method of assessment*
 - b) *At 'X' location*
 - c) *You will have 'X time period' for this assessment*
- You are required to compile information in a format that you feel is appropriate to the assessment
- Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment

- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.
There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.
We have 60 minutes for this assessment.
 - I will give you feedback at the end of the assessment
 - Do you have any questions about this assessment?"
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering 'Remarks' as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of 'Written Questions' for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):

"These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?"

- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date
- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency Standard

UNIT TITLE: PREPARE AND PRODUCE YEAST GOODS		NOMINAL HOURS: 30
UNIT NUMBER: D1.HPA.CL4.09		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by cooks, chefs and patissiers to prepare, produce, display and store a range of high quality yeast goods in commercial food production environments		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Prepare and bake yeast goods 1.1 Select required <i>commodities</i> according to recipe and production requirements 1.2 Prepare a <i>variety of yeast goods</i> to desired <i>product characteristics</i> 1.3 Produce a variety of yeast goods according to standard recipes and enterprise standards 1.4 Use appropriate <i>equipment</i> to prepare and bake yeast goods 1.5 Use correct <i>techniques</i> to produce yeast goods to enterprise standards 1.6 Bake yeast goods to <i>enterprise requirements and standards</i> 1.7 Select correct <i>oven conditions</i> for baking yeast goods		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment This unit applies to all industry sectors that are responsible for preparing, producing, displaying and storing yeast goods within the labour divisions of the hotel and travel industries and may include: 1. Food Production <i>Commodities</i> may include: • Flours • Sugars • Fruits • Nuts • Eggs • Milk

Element 2: Decorate and present/display yeast goods 2.1 Prepare a variety of <i>fillings and coating/icing and decorations</i> for yeast goods 2.2 Decorate yeast goods using fillings and coating/icing and decorations according to standard recipes and/or enterprise standards and/or customer requests 2.3 Present/display yeast goods to enterprise standards using appropriate <i>service equipment</i> Element 3: Store yeast goods 3.1 Store at <i>correct temperature and conditions of storage</i> 3.2 Maintain maximum eating quality, appearance and freshness	• Cream • Gelatine • Flavourings and essences • Chocolate • Fats • Yeast • Water. <i>Variety of yeast goods</i> should include: • Basic bread dough, including white, whole meal, whole grain and rye • Basic shapes, including rolls, loaves and knots • Yeast raised pastries, such as danish, croissant, brioche, babas and savarins • Specific yeast goods for cultural feasts and celebrations • Health and diet specific items, including gluten free and fat free. Product characteristics is related to: • Colour • Consistency and texture • Moisture content • Mouth feel and eating properties • Appearance. <i>Equipment</i> may include: • Ovens
---	--

- Trays
- Racks
- Bowls
- Mixing machine
- Scales
- Rings, tins and moulds
- Fridge and freezer
- Blenders
- Dough break
- Rolling pin
- Piping bags and nozzles
- Wooden spoons
- Cutters.

Techniques should include:

- Beating
- Whisking
- Folding
- Rolling
- Laminating
- Creaming
- Kneading
- Incorporating fat.

	<i>Enterprise requirements and standards</i> should relate to: • Scale to correct weight • Colour • Consistency • Texture • Moisture • Mouth feel • Appearance • Saleability. <i>Oven conditions</i> may be related to: • Colour • Shape • Crust structure • Temperature • Rack position • Cooking times • Moisture. <i>Fillings, and coating/icing and decorations</i> may include: • Fruits • Biscuits • Chocolate • Flowers and leaves
--	--

- Herbs
- Croquant
- Creams
- Glazes
- Icings
- Icing sugar or chocolate powder
- Fruit sauces
- Nuts and dried fruits
- Jams
- Mousses
- Custards.

Service equipment may include:

- Ceramics
- Glass
- Crystal
- Mirrors
- Trays
- Croquant stands
- Chocolate stands
- Display cabinets.

	<i>Correct temperature and conditions of storage may relate to:</i> • Away from strong odours • Appropriate containers • Labelling • Cool room temperature • Cool room placement • Length of time in cool storage • Freezer temperature • Length of time in freezer storage. Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Knowledge of the quality characteristics of yeast goods, including classical, modern/contemporary and culturally specific • Knowledge of the appropriate quality indicators, including taste, texture, structure, shape and size made to industry and/or enterprise standards • Knowledge of the principles of the production of yeast goods • Ability to maintain hygiene and food safety requirements • Knowledge of commodities • Knowledge of the historical and cultural aspects of yeast goods and their role on the menu and in the industry. Linkages To Other Units • Comply with workplace hygiene procedures • Implement occupational health and safety procedures
--	---

- Prepare and store food
- Work effectively with colleagues and customers
- Maintain strategies for safe food
- Present and display food products
- Apply basic techniques of commercial cookery.

Critical Aspects of Assessment

Evidence of the following is essential:

- Knowledge of the varieties and characteristics of yeast goods classifications, including classical and modern, size, shape, structure and assembly according to industry and enterprise standards
- Demonstration of commodity knowledge, including quality aspects
- Demonstrated ability to safely and hygienically handle products
- Knowledge of specific terminology related to yeast goods
- Demonstrated ability to prepare a variety of yeast goods from at least four different recipes and cultural backgrounds
- Demonstration of creative and artistic skills in preparation, decoration and display of yeast goods
- Demonstrated ability to store a range of yeast goods to industry and enterprise standards
- Knowledge of appropriate portion control.

Context of Assessment

This unit may be assessed on or off the job:

- Assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge
- Assessment must relate to the individual's work area or area of responsibility

- Demonstration of skills on more than one occasion
- Preparation, decoration and display of yeast goods within typical workplace conditions and timeframes.

Resource Implications

Training and assessment must include access and use of a fully equipped commercial kitchen, use of real ingredients and service equipment; and access to workplace standards, procedures, policies, guidelines, tools and equipment.

Assessment Methods

The following methods may be used to assess competency for this unit:

- Observation of practical candidate performance
- Oral and written questions
- Third party reports completed by a supervisor
- Project and assignment work
- Sampling of dishes prepared by the student.

Key Competencies in this Unit

Level 1 = competence to undertake tasks effectively

Level 2 = competence to manage tasks

Level 3 = competence to use concepts for evaluating

Key Competencies	Level	Examples
Collecting, organising and analysing information	1	Determine requirements of standard recipes and/or menu requirements; collect equipment, commodities and ingredients; select and obtain commodities, organise ingredients and task sheets

	Communicating ideas and information	1	Share information with other kitchen and floor service staff; read recipes, menus, instructions and orders
	Planning and organising activities	1	Complete preparation (mise-en-place) and organise for the production of yeast goods; work within time constraints in a logical sequence
	Working with others and in teams	1	Work cooperatively with other team members
	Using mathematical ideas and techniques	1	Calculate quantities and portions against standard recipes and/or menu requirements
	Solving problems	2	Identify and correct problems in the preparation and production of yeast goods such as ingredient quality and use of equipment; deal with minor problems such as failure of cakes to rise, batter too moist, overcooking and dough too soft or dry
	Using technology	1	Use mechanical kitchen equipment, including weighing equipment

Oral Questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Prepare and produce yeast goods D1.HPA.CL4.09
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. How would you determine the type and quantity of ingredients necessary for the production of a yeast goods item?	☐	☐
2. Identify two yeast goods (one bread and one pastry) and describe acceptable and unacceptable product characteristics for each.	☐	☐

Questions	Response	
	PC	NYC
3. Nominate one bread dough and one pastry and describe the production process for each.	☐	☐
4. Identify one yeast product not already named and identify the equipment used to produce it explaining the role/function of each item I the production process.	☐	☐
5. For the yeast product identified in your answer to the previous question, what techniques would you use to produce that item?	☐	☐

Questions	Response	
	PC	NYC
6. Which enterprise requirements and standards may apply to the baking of yeast goods?	☐	☐
7. Describe how temperature and rack position as well as shape and/or moisture of a yeast good product in the oven may impact on colour and crust structure of the finished product.	☐	☐
8. Nominate one filling and one decoration for yeast goods and describe how each is produced	☐	☐

Questions	Response	
	PC	NYC
9. Tell me about one situation where you have decorated yeast goods to customer/enterprise need. What were the decoration requirements? What did you do to ensure you met these requirements?	☐	☐
10. Describe possible enterprise standards for the display of yeast goods to optimise sales and appearance	☐	☐
11. Describe the conditions which should apply to the storage of yeast goods	☐	☐

Questions	Response	
	PC	NYC
12. What can be done to optimise quality, appearance and freshness of yeast goods stored on the premises for future use?	☐	☐

Written Questions

Prepare and produce yeast goods – D1.HPA.CL4.09

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. Name four basic ingredients in dough making.

2. What is the percentage of sugar found naturally in wheat flour?

3. Yeast can be purchased in differing forms. Name them.

4. Name four things that have an effect on fermentation

5. What are five roles that water plays in dough making?

6. What are the two roles of Dough Improvers?

7. Yeast doughs can have many more ingredients than normal bread dough. In what areas do they add value to the dough?

8. Define yeast goods

9. Name 10 varieties of yeast goods

10. Name 2 yeast goods that can be laminated.

11. What is brioche?

12. What is the ideal finished dough temperature for 'rapid dough method' doughs?

13. Name two methods of dough production suited to yeast goods

14. Why is ferment and dough methods suited to yeast good production?

15. What are 3 effects of dough and ferment process?

16. List 6 steps to producing a consistent product

17. What is a requirement when baking yeast goods to satisfy the customer?

18. Name four points that can define enterprise standards.

19. What is the ideal temperature range to bake yeast goods?

20. Why is this the ideal temperature range to bake yeast goods?

21. Name two glazes suited to yeast goods.

22. Name two fillings used in yeast goods.

23. If using fruit in a filling what do you need to do before to the fruit before using?

24. Why does fruit need starch suspension when used as a filling?

25. How does the use of fillings improve yeast goods?

26. Name four different toppings that can be used with yeast goods

27. When presenting product for sale what is it advisable to do?

28. What is the best temperature to store yeast goods?

29. How do you maintain yeast good to optimise freshness and eating qualities?

Answers to Written Questions

Prepare and produce yeast goods – D1.HPA.CL4.09

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. Name four basic ingredients in dough making

Flour, water, yeast and salt

2. What is the percentage of sugar found naturally in wheat flour?

Approximately 2.5%

3. Yeast can be purchased in differing forms. Name them.

- Compressed
- Dried
- Liquid.

4. Name four things that have an effect on fermentation

- Sugar
- Water
- Yeast quantity
- Dough acidity
- Dough temperature.

5. What are five roles that water plays in dough making?

- Hydrates gluten forming proteins (Gliadin and Glutenin).
- Dissolves and disperses salt and sugars and carries sugars to the yeast which it can only use in liquid form.
- Provides moisture for yeast to grow
- Hydrates dry yeast and disperses both dry and compressed.
- Controls dough temperature.
- Controls dough consistency.
- Wets and swells starch during baking (gelatinisation) - makes it available to analyse enzymes.
- Controls enzyme activity (enzymes are active only in liquid or semi liquid mediums.
- Increases shelf life.
- Contributes to eating qualities.

6. What are the two roles of Dough Improvers

- Gas production
- Gas retention.

7. Yeast doughs can have many more ingredients than normal bread dough. In what areas do they add value to the dough?

- Improve eating qualities
- Add nutritional value
- Add visual appeal
- Improve keeping qualities
- Add and improve flavour

8. Define yeast goods

A yeast good or sweet yeast product would be any dough with more than 5% sugar and increase levels of fat

9. Name 10 varieties of yeast goods

- | | | | |
|---------------|------------------|---------------------|-------------|
| • Baba | • Bienenstich | • Brioche | • Buchty |
| • Chelsea bun | • Cholla | • Colomba di pasqua | • Croissant |
| • Doughnut | • Gugelhof | • Hot Cross buns | • Panettone |
| • Pignoli | • Streuselkuchen | • Stollen | • Savarin |

10. Name 2 yeast goods that can be laminated.

- Croissants
- Danish pastries.

11. What is brioche?

Enriched dough with 50% butter content and large amount of eggs in the formula.

12. What is the ideal finished dough temperature for 'rapid dough method' doughs?

27-29°C

13. Name two methods of dough production suited to yeast goods

Rapid dough or ADD and dough and ferment methods

14. Why is ferment and dough methods suited to yeast good production?

Ferment provides ideal conditions for yeast to multiply before adding the sugar to the dough.

15. What are 3 effects of dough and ferment process?

- Fast fermentation, due to ideal conditions in the ferment
- No improver required
- No need for special equipment
- Improved flavour, colour, volume and texture
- Maturing is natural and takes place by the enzymic activity in the ferment
- Loss of yield, due to moisture loss during fermentation
- More space is required for fermentation in the dough room
- Increased production cost, due to two mixes.

16. List 6 steps to producing a consistent product

Consistency in product manufacture is achieved by the following:

- Correct weighing of Ingredients
- Formula balance
- Bakery products are consistent when formula balance is maintained
- Scaling weights accurately
- Mixing the dough/batter the same every time
- Cutting or weighing to correct size
- Moulding to correct shape
- Baking the same every time.

17. What is a requirement when baking yeast good to satisfy the customer?

Everything should look the same.

18. Name four points that can define enterprise standards

- Colour of the product
- Appearance
- Consistency
- Moisture content
- Mouth feel.

19. What is the ideal temperature to bake yeast goods?

180 - 220°C

20. Why is this the ideal temperature range to bake yeast goods?

Dough contains high levels of sugar.

21. Name two glazes suited to yeast goods

- Sugar syrup
- Boiling apricot jam
- Fondant
- Powdered sugar.

22. Name two fillings used in yeast goods

- Crème patisserie
- Fruit fillings
- Nut fillings
- Cheese fillings
- Cream.

23. If using fruit in a filling what do you need to do before to the fruit before using?

The fruit needs to be cooked.

24. Why does fruit need starch suspension when used as a filling?

Adding sugar causing sugar to dissolve and that liquid needs to be contained.

25. How does the use of fillings improve yeast goods?

All fillings used in yeast goods:

- Add flavour
- Add interest
- Add food value.

26. Name four different toppings that can be used with yeast goods

- Glazes
- Frostings
- Gels
- Fruit decors
- Crumbles.

27. When presenting product for sale what is it advisable to do?

Highlight product at its best

28. What is the best temperature to store yeast goods?

Room temperature

29. How do you maintain yeast good to optimise freshness and eating qualities

To maintain the eating quality of bakery items:

- Use as soon as possible
- Cover to protect from environment
- Keep chilled if needed
- Keep dry.

Optimise freshness:

- Bake daily
 - Bake only what you can sell
 - Bake in small batches.
-

Observation Checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Prepare and produce yeast goods D1.HPA.CL4.09
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Prepare and bake yeast goods - Decorate and present/display yeast goods - Store yeast goods - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Prepare and bake yeast goods		
Select required commodities according to recipe and production requirements	☐	☐
Prepare a variety of yeast goods to desired product characteristics	☐	☐
Produce a variety of yeast goods according to standard recipes and enterprise standards	☐	☐
Use appropriate equipment to prepare and bake yeast goods	☐	☐
Use correct techniques to produce yeast goods to enterprise standards	☐	☐
Bake yeast goods to enterprise requirements and standards	☐	☐
Select correct oven conditions for baking yeast goods	☐	☐

Element 2: Decorate and present/display yeast goods		
Prepare a variety of fillings and coating/icing and decorations for yeast goods	☐	☐
Decorate yeast goods using fillings and coating/icing and decorations according to standard recipes and/or enterprise standards and/or customer requests	☐	☐
Present/display yeast goods to enterprise standards using appropriate service equipment	☐	☐
Element 3: Store yeast goods		
Store at correct temperature and conditions of storage	☐	☐
Maintain maximum eating quality, appearance and freshness	☐	☐
Did the student's overall performance meet the standard?	☐	☐

Third Party Statement

Student name:			
Name of third party:		Contact no	
Relationship to student:	☐ Employer ☐ Supervisor ☐ Colleague ☐ Other Please specify: _____ <i>Please do not complete the form if you are a relative, close friend or have a conflict of interest]</i>		
Unit of competency:	Prepare and produce yeast goods D1.HPA.CL4.09		
The student is being assessed against industry competency standards and we are seeking your support in the judgement of their competence. Please answer these questions as a record of their performance while working with you. Thank you for your time.			
Do you believe the trainee has demonstrated the following skills? <i>(tick the correct response]</i>	Yes	No	Not sure
Selects the ingredients for preparation of nominated yeast goods	☐	☐	☐
Prepares required yeast goods to enterprise requirements, customer preference and/or standard recipes as applicable	☐	☐	☐
Uses correct equipment and techniques including correct/appropriate oven conditions to produce saleable yeast goods	☐	☐	☐
Prepares and applies a range of fillings, coating, icings, glazes and decorations for yeast goods as required/appropriate	☐	☐	☐
Presents and displays yeast goods effectively and attractively	☐	☐	☐
Stores yeast goods to minimise waste and optimise quality, appearance and freshness	☐	☐	☐
