Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
 ■ You are required to complete these activities:
 a) *Using the 'X' method of assessment*
 b) *At 'X' location*
 c) *You will have 'X time period' for this assessment*
 ■ You are required to compile information in a format that you feel is appropriate to the assessment
 ■ Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: PLAN AND ESTABLISH SYSTEMS AND PROCEDURES		NOMINAL HOURS: 50
UNIT NUMBER: D1.HGE.CL7.07 D1.HGA.CL6.01 D2.TGA.CL6.08		
UNIT DESCRIPTOR: This unit deals with the skills and knowledge required to plan and establish systems and procedures in a range of settings		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1. Plan and develop systems and procedures 1.1 Identify the need for enterprise <i>systems and procedures</i> , and clarify enterprise requirements by monitoring the workplace and consulting with colleagues and customers on an ongoing basis 1.2 Identify problem areas and take prompt action to identify possible responses 1.3 Develop or revise systems and procedures using appropriate <i>consultative processes</i> 1.4 Consider immediate operational needs and <i>enterprise goals</i> , and <i>capabilities and resources</i> , when developing or revising systems and procedures 1.5 Identify any relevant <i>legal and ethical constraints</i>		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to planning and establishing systems and procedures within the labour divisions of the hotel and travel industries and may include: 1. Front Office 2. Housekeeping 3. Food and Beverage Service 4. Food Production 5. Travel Agencies 6. Tour Operation <i>Systems and procedures</i> may include: • Customer service procedures • Bar or restaurant procedures

Element 2. Establish systems and procedures 2.1 Provide advance notice of new systems and procedures to <i>colleagues</i> 2.2 Introduce systems and procedures to the workplace in a manner that causes minimum disruption to customers and colleagues 2.3 Provide training and support to colleagues as required Element 3. Review systems and procedures 3.1 Monitor the <i>efficiency and effectiveness</i> of systems and procedures 3.2 Seek suggestions for improvements to systems and procedures from <i>colleagues</i> at all levels 3.3 Make adjustments to systems and procedures where necessary	• Kitchen systems and procedures including food safety • Housekeeping systems • Office administration systems • Reservations procedures • Cleaning and maintenance procedures • Quality assurance procedures • Security procedures • Stock control systems and procedures • Occupational health, safety and welfare procedures. <i>Consultative processes</i> may involve: • Other employees and supervisors • Customers and suppliers • Management and union representatives • Industrial relations and occupational health, safety and welfare specialists • Other professional or technical staff, contractors and maintenance personnel. <i>Enterprise goals</i> may relate to: • Key Performance Indicators (KPIs) • Strategic objectives • Price • Market and sales indicators • Brand value • Quality standards and criteria • Performance benchmarks.
--	---

	<i>Capabilities and resources</i> may include • Human resources • Financial resources • Equipment capacity • Staff skill levels • Hours of operation • Communication capabilities. <i>Legal and ethical constraints</i> may include • Legislation • Regulation • Codes of practice • Cultural expectations and influences • Social responsibilities, e.g. Protection of children, environmental issues. <i>Colleagues</i> may include: • Supervisors and managers • Human resources staff • Co-workers • Workplace trainers • Specialist staff. <i>Efficiency and effectiveness</i> may relate to: • Performance based criteria • Cost and time related factors • Noting significant positives and negatives to the system.
--	--

	Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Knowledge of typical systems and procedures related to operational area • In-depth technical knowledge of the area in which systems/procedures are to be introduced • In-depth knowledge of the context or enterprise, including policy and goals, budgets, personnel, communication channels • Knowledge of the legislative framework within which the enterprise must operate. Linkages To Other Units • Monitor workplace operations • Lead and manage people • Maintain quality customer/guest service • Manage and implement small projects • Use common business tools and technology • Work effectively with colleagues and customers. Critical Aspects of Assessment Evidence of the following is essential: • Demonstrated ability to accurately identify workplace systems and procedural needs • Demonstrated ability to develop and implement appropriate systems/procedures within a specific travel and hotel industry environment • Demonstrated ability to develop or review systems and procedures related to a particular enterprise or work context • Demonstrated ability to solve an identified problem in a given system or procedure.
--	---

Context of Assessment

This unit may be assessed on or off the job:

- Assessment should include practical demonstration of the completion of project or work activities that required the candidate to plan and establish systems and procedures for a specific business purpose
- Assessment must relate to the individual's work area, job role and area of responsibility
- Assessment must include project or work activities that allow the candidate to respond to multiple and varying workplace situations and demonstrate an ability to plan and establish systems and procedures within a hotel and travel industry context.

Resource Implications

Training and assessment to include access to a real or simulated workplace that provides the candidate with an opportunity to develop, implement and review systems and procedures; and access to workplace standards, procedures, policies, guidelines, tools, computer equipment and relevant software.

Assessment Methods

The following methods may be used to assess competency for this unit:

- Case studies
- Observation of practical candidate performance
- Oral and written questions
- Portfolio evidence
- Problem solving
- Third party reports completed by a supervisor
- Project and assignment work.

	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	2	Research technical information to develop or review systems and procedures and seek feedback from others on existing systems and procedures; analyse feedback, facts and opinions on existing or proposed systems and procedures
	Communicating ideas and information	2	Present systems and procedures to team members
	Planning and organising activities	3	Plan and organise systems and procedures for an enterprise; plan and organise a review of systems and procedures
	Working with others and in teams	2	Identify customer and colleague needs; relate effectively to individuals and groups
	Using mathematical ideas and techniques	0	
	Solving problems	2	Examine and identify problems or potential problems in proposed or existing systems and procedures
	Using technology	1	Use a computer to develop plans and systems

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Plan and establish systems and procedures D1.HGE.CL7.07 D1.HGA.CL6.01 D2.TGA.CL6.08
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. Why is it important to have systems and procedures in an organisation?	☐	☐
2. Why is it important to identify problem areas relating to systems and procedures? How can you identify these problems?	☐	☐

Questions	Response	
	PC	NYC
3. Why is it important to involve stakeholders when developing or revising systems and procedures?	☐	☐
4. What organisational capabilities and resources must be considered when developing or revising systems and procedures?	☐	☐
5. Why is it important to identify any relevant legal and ethical constraints when developing or revising systems and procedures?	☐	☐

Questions	Response	
	PC	NYC
6. What topics should be discussed when notifying staff of new or revised systems and procedures?	☐	☐
7. What must be considered when actually implementing new or revised systems and procedures?	☐	☐
8. What is the purpose of a 'Learning & Development Action Plan'? What information is included in this plan?	☐	☐

Questions	Response	
	PC	NYC
9. Why is it important to monitor the success of systems and procedures in the workplace? When should this be done?	☐	☐
10. Why should the aim of continuous improvement be a priority for all managers?	☐	☐
11. Why is it important to adjust procedures and systems?	☐	☐

Written questions

Plan and establish systems and procedures – D1.HGE.CL7.07 D1.HGA.CL6.01
D2.TGA.CL6.08

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. What is the definition of a system?

2. What is the definition of a procedure?

3. What are examples of procedures in a hospitality or tourism organisation?

4. What is the purpose of reviewing workplace systems or procedures?

5. What are steps in establishing system and procedural requirements?

6. What are examples of stakeholders that should be involved in the development or revision of systems and procedures?

7. What are common ways to generate ideas to develop or revise systems and procedures?

8. What are practicality considerations when deciding which ideas to implement to improve systems or procedures?

9. What are organisational strategies and plans that must be considered when developing or revising systems and procedures?

10. What are operational requirements that must be considered when developing or revising systems and procedures?

11. What are types of legal requirements to be considered when developing or revising systems and procedures?

12. What are types of ethical requirements to be considered when developing or revising systems and procedures?

13. What are types of environmental requirements to be considered when developing or revising systems and procedures?

14. What methods of communication can be used to notify staff of new or revised systems and procedures?

15. What are methods that can be used to communicate continuous improvement processes?

16. What are examples of steps/activities associated with implementing new systems or procedures?

17. How can you identify learning & development opportunities?

18. What are examples of learning & development initiatives?

19. What areas of operations should be monitored on a regular basis?

20. What are steps in monitoring work operations?

21. What methods can be used to monitor work operations?

22. What are the objectives of undertaking continuous improvement?

23. How can you encourage staff to be involved in the continuous improvement process?

24. What are operational considerations when adjusting systems and procedures?

25. What are staffing considerations when adjusting systems and procedures?

Answers to written questions

Plan and establish systems and procedures – D1.HGE.CL7.07 D1.HGA.CL6.01
D2.TGA.CL6.08

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. What is the definition of a system?

A system is an arrangement or combination of interrelated and interdependent things or parts that form a whole.

2. What is the definition of a procedure?

A procedure refers to a series of ordered steps that are used to get a job done or to solve a problem.

3. What are examples of procedures in a hospitality or tourism organisation?

- Customer service procedures
- Bar or restaurant procedures
- Reservations procedures
- Cleaning and maintenance procedures
- Quality assurance procedures
- Security procedures
- Stock control systems and procedures
- Occupational health, safety and welfare procedures.

4. What is the purpose of reviewing workplace systems or procedures?

- Cut out unnecessary steps
- Avoid duplication of effort
- Reduce the time that some tasks take
- Avoid workplace accidents through bad practices
- Come up with a more effective work layout
- Reduce costs through use of too many materials
- Solve problems that reduce effectiveness and efficiency.

5. What are steps in establishing system and procedural requirements?

- Clarify the purpose of the work
- Understand the environment
- Create an environment of continuous improvement
- Consult your customers.

6. **What are examples of stakeholders that should be involved in the development or revision of systems and procedures?**
 - Other employees and supervisors
 - Customers and suppliers
 - Management and union representatives
 - Industrial relations and occupational health, safety and welfare specialists
 - Other professional or technical staff, contractors and maintenance personnel.
7. **What are common ways to generate ideas to develop or revise systems and procedures?**
 - Talking to colleagues and supervisors
 - Looking at what happens in other venues
 - Contacting industry peak bodies
 - Reading industry literature
 - Conduct internet research
 - Using creative thinking techniques
 - Gathering information from different work areas.
8. **What are practicality considerations when deciding which ideas to implement to improve systems or procedures?**
 - Impact on other existing house protocols, policies and procedures
 - Impact on layout
 - Staff ability
 - Expected revenue
 - Cost
 - Impact on service delivery.
9. **What are *organisational strategies and plans* that must be considered when developing or revising systems and procedures?**
 - Mission statement
 - Corporate goals
 - Operational plans
 - Business Plans.

10. What are *operational requirements* that must be considered when developing or revising systems and procedures?

- Business and performance plans
- Policies
- Procedures
- Practices
- Confidentiality and security requirements
- Legal and organisational requirements
- Occupational Health and Safety (OHS)
- Quality and Continuous Improvement (CI).

11. What are types of *legal* requirements to be considered when developing or revising systems and procedures?

- Laws
- Consumer protection issues
- Duty of care
- Equal employment opportunity
- Workplace relations
- Privacy.

12. What are types of *ethical* requirements to be considered when developing or revising systems and procedures?

- Confidentiality
- Commission levels
- Overbooking
- Pricing
- Familiarisations.

13. What are types of *environmental* requirements to be considered when developing or revising systems and procedures?

- Sustainable development
- Protection of natural and man-made resources from inappropriate and insensitive development, poor planning and lack of zone management
- Maintaining the cultural, social aspects and historical character of the community
- Managing the implications of climate change
- Ensuring sustainable, co-ordinated management and development of resources
- Managing threats to biodiversity and natural resources

- Managing the increased generation of waste
- Dealing with growing energy consumption and rising greenhouse gas emissions
- Decreasing the environmental impact of tourism travel
- Minimising the environmental impact of tourism related development
- Improving energy efficiency, waste management and water conservation and
- Dealing with traffic congestion and damage to roads and other infrastructure
- Resources conservation
- Recycling.

14. What methods of communication can be used to notify staff of new or revised systems and procedures?

- Formal meetings or briefings
- E-mail
- Intranet
- Newsletters and internal bulletins
- Memos
- Other communication devices.

15. What are methods that can be used to communicate continuous improvement processes?

- In on-the-job and in-house training
- During induction and orientation of new staff
- At relevant meetings
- In the staff operating manual
- Talking to staff in a one-on-one or group settings
- Erecting posters in the workplace.

16. What are examples of steps/activities associated with implementing new systems or procedures?

- Involve colleagues in change process
- Consider predictable consequences of introducing new systems and procedures
- Provide reason for change
- Trial new systems or changes
- Provide information
- Choose a suitable time
- Provide an incentive or compensation to customers
- Build in a review.

17. How can you identify learning & development opportunities?

- New employees joining the business
- A request from a staff member
- Personal observation of staff practice
- Customer complaint
- Workplace errors
- Changes in workplace equipment
- Changes in procedures
- Changes in legal requirements
- Training Needs Analysis Form.

18. What are examples of learning & development initiatives?

- Coaching
- Training programs
- Research Activities
- Visitations
- Discussions
- Project Work
- Mentoring
- Counselling.

19. What areas of operations should be monitored on a regular basis?

- The procedures or systems
- The workflow
- Gaps or overlaps in service provision
- The workload of staff
- The time it takes to do a task or job
- Job design
- Level of customer satisfaction.

20. What are steps in monitoring work operations?

- Work out what needs to be monitored
- Decide on methods or measures to use
- Compare what is happening with what should be happening
- Take appropriate action.

21. What methods can be used to monitor work operations?

- Observation
- Statistical and written reports
- Surveys
- Checklists
- Flowcharts
- Benchmarking.

22. What are the objectives of undertaking continuous improvement?

- Reducing or eliminating waste
- Shortening response times
- Simplifying work processes
- Enhancing customer service
- Improving product and service quality
- Removing unnecessary procedures
- Introducing new activities.

23. How can you encourage staff to be involved in the continuous improvement process?

- Making 'improvement/continuous improvement (CI)' a standing topic in every staff meeting
- Raising the question of improvements regularly at staff briefings
- Developing a CI team within your department
- Placing posters around the workplace to encourage staff to 'Think Smarter' or similar
- Providing a 'Suggestion Box'
- Having an open door policy
- Implementing an 'Improvement Award'.

24. What are *operational* considerations when adjusting systems and procedures?

- Products and services provided
- Management positions
- Job titles, descriptions and responsibilities
- Staffing structures
- SOP's
- Policies
- Systems and procedures themselves

- Corporate image
- Pricing structures
- Equipment
- Layout of work area
- Productivity standards
- Training requirements
- Uniform requirements
- Response times
- Service guarantees.

25. What are *staffing* considerations when adjusting systems and procedures?

- Providing education and training service
 - Involving staff in planning and implementing quality improvement
 - Building a spirit of working together towards goals
 - Improved communication channels
 - Promoting open communication and feedback
 - Encouraging and recognising innovation and teamwork
 - Recognising the right of every employee.

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Plan and establish systems and procedures D1.HGE.CL7.07 D1.HGA.CL6.01 D2.TGA.CL6.08
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Plan and develop systems and procedures - Establish systems and procedures - Review systems and procedures - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Plan and develop systems and procedures		
Identify the need for enterprise systems and procedures, and clarify enterprise requirements by monitoring the workplace and consulting with colleagues and customers on an ongoing basis	☐	☐
Identify problem areas and take prompt action to identify possible responses	☐	☐
Develop or revise systems and procedures using appropriate consultative processes	☐	☐
Consider immediate operational needs and enterprise goals, and capabilities and resources, when developing or revising systems and procedures	☐	☐
Identify any relevant legal and ethical constraints	☐	☐

Did the candidate	Yes	No
Element 2: Establish systems and procedures		
Provide advance notice of new systems and procedures to colleagues	☐	☐
Introduce systems and procedures to the workplace in a manner that causes minimum disruption to customers and colleagues	☐	☐
Provide training and support to colleagues as required	☐	☐
Element 3: Review systems and procedures		
Monitor the efficiency and effectiveness of systems and procedures	☐	☐
Seek suggestions for improvements to systems and procedures from colleagues at all levels	☐	☐
Make adjustments to systems and procedures where necessary	☐	☐
Did the student's overall performance meet the standard?	☐	☐
