Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Answers to written questions

Develop, implement and evaluate sponsorship plans – D2.TCS.CL5.12

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. What is sponsorship?

“A business agreement between two parties; the sponsor provides money, goods, services or know-how. In exchange, the sponsored party (individual, event or organisation) offers rights and associations that the sponsor utilizes commercially”

2. What are budget notes?

They are explanatory information which provides further information and background to budget items. They function to tell the reader how the figures listed in the budget were arrived at. They explain the thinking of the person(s) who set the budget at the outset, and present the rationale behind the budget decisions/figures that were finally utilised.

3. Identify three criteria that could influence the decision to engage or not engage in sponsorship activities.

Many answers possible; refer to the relevant section in Performance criteria 1.3 - "It is important to determine the parameters for selecting certain sponsorship activities which could include:"

4. Why should alternatives to sponsorship participation be considered?

Because there could be more viable and cost effective alternatives such as: modifying existing products and services, developing new products and services, increasing Public Relations activities, increasing existing advertising and marketing strategies or [other appropriate responses].

5. List five stakeholders from your organisation who could be included in the sponsorship activity.

Staff, owners, customers and clients, government and industry bodies, suppliers, service providers, local community

6. Why is it important to develop internal forms and systems to track the type and volume of resources used in sponsorship activities?

Establishing protocols for monitoring sponsorship activities enables the organisation to track the progress of the activity and to document different aspects of the activity management which in turn can assist in future sponsorship activities.

7. Describe three issues in the management process that can affect evaluation results?

- Vanity – the selection of measures that make management look good
- Provincialism – keeping within organizational or industry boundaries when new measures are needed
- Narcissism – measuring from one's own point of view, not that of the customer
- Laziness – assuming one knows what to measure without giving it thought
- Pettiness – measuring a small subset of what should be measured
- Inanity – measuring without thought of how measurement or actions based on it will influence the organization
- Frivolity – not being serious about measuring.

8. What is brand awareness?

Brand awareness - the extent and ease to which customers recall and recognise the brand and can identify the products and services with which it is associated.

9. Describe three ways an existing product or service may be modified to align with sponsorship activities.

Making changes to destinations, inclusions, promotions, timing, duration, accommodation type and style, and travel options.

10. Why is important to state the reasons why a sponsorship application may be refused?

If you give the sponsorship partner a valid reason for declining – i.e. budget reasons, schedule conflict, etc. — it will be easier for them to empathise and to take “no” for an answer without putting you on their blacklist.

11. What is a "hierarchical" sponsorship package?

Where sponsorship is based upon the amount paid; the more the organisation pays, the more rights and benefits they get. For example, Principal Sponsor, Major Sponsor, Minor Sponsor, Official Supplier or Gold, Silver, Bronze sponsors. There may be more than one sponsor in each level, such as, 2 Gold, 4 Silver and 8 Bronze sponsors.

12. What is a "level playing field package"?

Where each sponsor is given equal rights and benefits; there is usually only one sponsor per category and the payment for the right to sponsor is dependent upon the competition for that category.

13. Provide three examples of products or services that your organisation could provide for sponsorship activities.

Any appropriate response relevant to their organisation

14. Identify three different levels of sponsorship packages.

Gold, Silver, Bronze or Major, Principal, Major, Minor

15. Identify three organisational expectations resulting from sponsorship activity engagement.

Increased sales, increased advertising, increased customers, [any other acceptable response]

16. What does "zero input" mean in terms of sponsorship activity involvement?

Where the sponsorship organisers conduct the entire event or activity by themselves; the organisation may just provide space or use of facilities.

17. Why should information about the sponsorship activity be shared with the organisation's stakeholders and partners?

Because they may want to participate as well; this may lead to a more successful event and more marketing opportunities for the organisation.

18. Why is it important to confirm details of sponsorship commitments and contributions?

Confirming the details of sponsorship activities helps to ensure that the organisation achieves all of the benefits outlined in the agreement for participation and that both parties deliver on all the contracted activities listed in the sponsorship contract and add value to the relationship through working together in the activity itself.

19. Describe three options for benefits for sponsorship activities.

- Naming rights
- Hospitality
- Signage and banners
- Tickets/seats/attendance
- Access to staff, celebrities and officials
- Participation by staff in advertisement
- Media appearances by staff/management
- Product placement
- Logos and sponsor name on uniforms, tickets, programmes, marketing materials
- Exclusivity.

20. Outline three increased opportunities that could be negotiated with sponsorship organisers.

- Exclusivity for future events
- Increased signage, advertising and media exposure
- Reduced cash contributions
- Part-payment for facility and equipment use
- Major sponsor package
- Increased benefits and access for staff and customers
- Discounts and promotional rates for other products and services.

21. Why is it important to use a formal written contract for sponsorship activity engagement?

To ensure everyone is clear about their commitments and obligations:

- So everyone knows exactly what the other party is thinking, what they want and what they have agreed to provide – something in writing is just a lot more convenient and provides a lot more surety about what was intended when the deal was made/negotiations occurred
- In order for management and legal advisors to have something to scrutinise and approve or make suggestions about in relation to amendments which may need to be considered/made
- To have a permanent copy of the arrangements which were made – so it can be referred to throughout the life of the contract to:
 - Guide action
 - Enable monitoring of performance
 - Clarify issues arising
- Because a written contract tends to encourage both parties to properly and fully discharge their obligations because they know there is a greater potential for the other party to take legal action if they fail to do so.

22. Why should verbal contracts be avoided?

Because they are open to misinterpretation and can lead to confusion and added costs and issues.

23. List three items of information that may need to be shared with staff regarding sponsorship activity participation.

- Make general staff aware of what is being planned, when and why
- Ensure the event is diarised into all internal registers and reservation sheets/books – to avoid embarrassing double-booking of the venue
- Roster sufficient staff to enable/support the event
- Arrange the required physical resources for the event
- Issue appropriate invitations

- Place advertisements about the event where and where deemed necessary
- Organise the venue and services to be provided – in some cases:
 - The organisers may want to hold the event when other events are occurring
 - You will need to ensure there are no other events being held at the time which will place undue strain on the resources of the organisation
- Ensuring staff, management, and other key personnel are available on the day to meet the event organisers and be available to the media – it is vital:
 - All these people receive sufficient advance notification of your need for them to attend – so they can make appropriate arrangements
 - You meet with all these individuals/groups and inform them of what is required of them in regard to participating in the event – in some cases there can be a need to hold ‘training sessions’ to optimise their engagement with the event organisers and the media
- Advising staff of personnel involved in the sponsorship arrangement
- Explaining the possible impact of the sponsorship agreement on traditional workloads
- Explaining revised or new policies and procedures to support the sponsorship
- Encouraging commitment to the sponsorship
- Highlighting benefits that may flow to staff from involvement in the sponsorship, such as attending events, and meeting celebrities.

24. Why is it important for staff to smile and be friendly during sponsorship events?

In order to promote the organisation effectively

25. What may need to be checked in terms of contracted obligations during sponsorship activities?

- Providing resources as identified in the contract, including products, services and other advice, assistance and information
- Ensuring relevant quantities are provided
- Ensuring supply dates are complied with
- Checking spaces are organised and set-up as agreed
- Communicating with event organisers that agreed actions are being administered as per the contract conditions
- Providing mechanisms for staff and participants to be able to advise of any issues with their ability to complete tasks as required.

26. What needs to be monitored when visiting sponsorship activity events or sites?

Product placement, equipment use, advertising material, staff resources, organiser, input, OH&S, [and other relevant responses]

27. What influences the type of data required for recording sponsorship activity engagement?

The expected and documented KPIs or returns

28. Describe three types of documentation that could record sponsorship activities to provide evidence of outcome achievement.

Media articles, media advertising, periodic reports, feedback sheets, market research data.
