Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
 ■ You are required to complete these activities:
 a) *Using the 'X' method of assessment*
 b) *At 'X' location*
 c) *You will have 'X time period' for this assessment*
 ■ You are required to compile information in a format that you feel is appropriate to the assessment
 ■ Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: ESTABLISH AND MAINTAIN SAFE TOURING CONDITIONS		NOMINAL HOURS: 60
UNIT NUMBER: D2.TTG.CL3.10		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to establish and maintain safe conditions while on tour.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Plan the tour 1.1 Determine the <i>risks</i> associated with the <i>tour</i> 1.2 <i>Prepare plans</i> to address identified tour risks 1.3 <i>Undertake pre-departure activities</i> to optimise safe touring conditions Element 2: Inform tour members on safety issues 2.1 <i>Train staff</i> in safety requirements 2.2 <i>Brief tour customers</i> 2.3 <i>Demonstrate safety practices</i> to address identified risks 2.4 Distribute safety <i>equipment</i> Element 3: Establish safe conditions 3.1 <i>Ensure equipment and vehicles are safe</i>		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to establishing and maintaining safe conditions while on tour and applies to staff within the labour divisions of the hotel and travel industries and may include: 1. Tour Operation <i>Risks</i> may be related to: • Equipment and resources required • Route • Activities and specific itinerary requirements, including timing factors and potential service delivery issues • Group size and composition • Environmental factors • Time of day • Seasonal factors

3.2 <i>Prepare for the safe conduct of tour activities</i> Element 4: Monitor safety during the tour 4.1 <i>Check the safety of tour inclusions prior to engagement</i> 4.2 <i>Monitor tour conditions</i> 4.3 <i>Observe customer behaviour</i> 4.4 <i>Provide assistance and advice where necessary to maintain safety</i> Element 5: Deal with safety issues 5.1 <i>Deal with unexpected events</i> 5.2 <i>Deal with emergencies</i> 5.3 <i>Provide basic first aid procedures</i>	• Customer special needs • Language and mobility considerations. <i>Tour may include:</i> • Half and full day tours • Extended tours • Site based tours, including general sightseeing tours and walking tours • Special interest tours, including cultural, educational, historic, city, rural, remote area and aerial tours • Water-based tours, including boating and cruise programs • Land based tours, including four-wheel drive tours, eco-tours, adventure and recreational tours. <i>Prepare plans</i> will include the preparation and validation of written documents designed to guide action in the event of an emergency. <i>Undertake pre-departure activities</i> may include: • Checking equipment • Providing maintenance to equipment • Purchasing additional/necessary equipment • Researching the tour route, activities, locations, providers and other issues • Talking to people with experience of the intended tour route, activities, locations, providers and other issues • Liaising with staff.
---	--

	<i>Train staff</i> should include: • Providing theory-based and practical training • Assessing staff • Ensuring competency before staff are allowed to accompany the tour • Recording the training and assessment that has been undertaken in order to demonstrate compliance with 'due diligence' requirements. <i>Brief tour customers</i> should relate to: • Providing hard copy safety information • Advising customers of the need to be responsible for their own actions • Identifying and explaining the matters that have been identified as presenting a safety risk • Urging customers to be cautious • Urging customers to monitor the activities of other customers • Explaining the emergency plans that exist • Notifying customers of the role of staff when an emergency or incident arises. <i>Demonstrate safety practices</i> may relate to the demonstration of safety practice prior to tour departure and to demonstrations during the tour prior to engagement with nominated activities, and may include: • Showing customers the actions, techniques and procedures to follow in order to avoid danger • Showing customers the actions, techniques and procedures to follow when they get into a dangerous or unsafe situation • Demonstrating the use of safety equipment, including personal protective equipment and clothing
--	---

	• Assisting customers with implementing identified safety practices • Verifying and recording that customers can follow required safety procedures. <i>Safety equipment</i> will relate to specific identified risks and will vary depending on the nature of the activity and./or location but will include: • Personal protective equipment • Personal protective clothing. <i>Ensure equipment and vehicles are safe</i> may include: • Checking vehicles prior to departure and on a regular basis throughout the tour • Checking equipment and resources prior to departure and on a regular basis throughout the tour • Discarding and replacing unsafe items, including tagging items as 'unsafe' • Performing recommended service where necessary to return items to a safe condition • Using checklists to record inspections, maintenance and repairs that have been undertaken. <i>Prepare for the safe conduct of tour activities</i> may include: • Liaising with tour staff to prepare equipment and resources to support safety • Re-capping previous safety advice relevant to the upcoming activity, location or topic that gives rise to risk • Setting up and/or preparing safety equipment for use by customers • Establishing a safe environment for the conduct of activities • Providing additional and/or top-up and remedial training or demonstrations to customers.
--	---

	<i>Check the safety of tour inclusions</i> must include: • Determining if the intended activity should go ahead or be modified or cancelled in line with human, physical and environmental conditions that apply at the time • Verifying that customers are prepared and able to safely undertake the activities. <i>Tour conditions</i> relate to: • Time of day, including 'day of the week' considerations, where applicable • Weather conditions, such as wind, rain, heat, visibility and including weather events, such as flooding in other areas that may impact on the current location • State and condition of customers, including previous observed/demonstrated abilities and capacities to undertake activities • Amount of available natural or artificial light • Geographical and physical environment, including condition of the ground, the need to travel on uneven or dangerous terrain, rating of climbs/descents, flow rate and depth of water • Fire • Closed roads and facilities • Advice received from locals in relation to local conditions, including local events and activities. <i>Observe customer behaviour</i> may include: • Monitoring customers to ensure compliance with safety requirements • Identifying instances where customers require assistance • Modifying activities on the basis of observed behaviours.
--	--

	<i>Unexpected events</i> should include planning for contingencies, as far as practicable, so that contingency plans can be put into effect when required. The nature of unexpected events will depend on the tour types and the specifics of individual routes and activities, but may include: • Systems failure, including technical and equipment failure • Injury, accident or death • Adverse weather conditions, including the impact of adverse weather conditions in a near-by or associated area • Inappropriate customer behaviour • Unpredictable animal behaviour • Cultural considerations • Sudden closures, or change of access • Closures of sites and unannounced restricted access to traditional areas • Reassessment of customer wants, needs and/or preferences while on tour. <i>Deal with emergencies</i> may include: • Implementing contingency and/or emergency plans • Notifying authorities and/or emergency services to obtain assistance • Maintaining communication with customers to notify them of action to be taken in response to the emergency • Optimising the safety of customers, including placing the safety of people above the protection of assets • Assuming authority, taking charge and issuing directives to customers • Taking action to minimise the adverse impact of the emergency on the conduct, and customer enjoyment of, the tour
--	---

- Apologising for the event
- Adhering to host enterprise policies and procedures in regard to not admitting liability and not promising recompense, including referring customers to management, head office or to duty supervisor on arrival back at the departure point, where applicable.

Basic first aid procedures may include treatment for:

- Heat exhaustion and heat stroke
- Hypothermia
- Simple fractures
- Burns and scalds
- Cuts and abrasions
- Bites and stings
- Heart attack.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Enterprise policies and procedures in regard to preparing for safe tour operations and the responses to emergency situations
- Principles of bush craft and survival techniques
- Principles of risk identification, analysis and control
- Ability to apply basic first aid
- Ability to use safety equipment and clothing
- Ability to use on tour communication equipment
- Knowledge of equipment and resources required for tours.

	Linkages To Other Units • Work as a tour guide • Conduct pre-departure checks • Lead tour groups in a responsible manner • Manage and facilitate an extended tour experience • Provide arrival and departure assistance • Develop and update tourism industry knowledge • Maintain tourism vehicles in safe and clean operational condition • Operate and maintain a 4-WD vehicle in safe working condition • Operate tours in remote areas • Implement occupational health and safety procedures • Follow safety and security procedures. Critical Aspects of Assessment Evidence of the following is essential: • Understanding of host enterprise policies and procedures in regard to preparing for safe tour operations and the responses to emergency situations • Demonstrated ability to identify the potential risks for a nominated tour itinerary, prepare appropriate plans to address these risks and develop a checklist to guide pre-departure safety inspections prior to departure of that tour • Demonstrated ability to verbally brief and provide suitable demonstrations for tour group members to prepare them to safely participate in nominated tour activities • Demonstrated ability to inspect nominated equipment and resources and identify any safety-related issues with those items
--	--

- Demonstrated ability to prepare resources, equipment and the environment in order to enable the safe undertaking of a nominated tour-related activity
- Demonstrated ability to effectively monitor and manage the safety of tour group members while participating in a nominated tour
- Demonstrated ability to respond effectively to maintain the safety of tour group members when faced with nominated, simulated emergency situations.

Context of Assessment

Assessment must ensure:

- Actual or simulated tour environment for the demonstration of practical safety-related skills.

Resource Implications

- Training and assessment must include a real or simulated tour with actual people and actual resources and equipment. Note: emergency and/or unexpected events may be simulated.

Assessment Methods

The following methods may be used to assess competency for this unit:

- Observation of practical candidate performance
- Portfolio of documents such as plans and checklists that relate to tour group safety
- Oral and written questions
- Third party reports completed by a supervisor
- Project and assignment work.

	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	2	Capture information to assist in risk identification
	Communicating ideas and information	2	Share safety requirements with staff
	Planning and organising activities	3	Prepare emergency plans
	Working with others and in teams	1	Liaise with customers to address safety-related issues
	Using mathematical ideas and techniques	1	Calculate statistics to use in the event of an accident or other emergency
	Solving problems	3	Respond to unexpected events in such a way that maintains customer safety
	Using technology	1	Use communication systems and personal protective equipment

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Establish and maintain safe touring conditions D2.TTG.CL3.10
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. When planning a tour give me an example of what you do to determine the risks associated with the tour.	☐	☐
2. Give me an example of a plan you have prepared to address an identified risk for a tour: what was the tour and the risk? What risk management controls did you develop?	☐	☐

Questions	Response	
	PC	NYC
3. Identify and describe a tour you have led and describe the pre-departure activities you took to optimise safe touring conditions for that tour.	☐	☐
4. Tell me about training you have undertaken to ensure tour staff fully understands safety requirements for touring.	☐	☐
5. Demonstrate how you brief customers about tour safety issues prior to tour departure.	☐	☐

Questions	Response	
	PC	NYC
6. Give me two examples of how you demonstrate safety practices to address identified risks for a tour: what do you do and why?	☐	☐
7. Describe a situation where you have distributed safety equipment to tour group members: what was the tour and activity? How and when was the gear distributed? What else did you do when distributing it?	☐	☐
8. Identify a tour vehicle and describe what you do to ensure it is safe for touring.	☐	☐

Questions	Response	
	PC	NYC
9. What are your SOPs for ensuring tour activities are conducted safely? Illustrate with reference to two activities.	☐	☐
10. Name two tour inclusions and describe what you do for each to ensure their safety prior to engaging with them.	☐	☐
11. With reference to tours you have conducted describe what you do to monitor tour conditions on an ongoing basis to ensure tour safety?	☐	☐

Questions	Response	
	PC	NYC
12. Tell me what you do to observe customer behaviour as part of ensuring safety of tour group members: when have you had to intervene on the basis of this observation, why and what did you do?	☐	☐
13. Give me two examples of where you have provided assistance and advice to tour group members to maintain safety.	☐	☐
14. Describe an unexpected safety-related event you have dealt with on tour: what happened and what did you do?	☐	☐

Questions	Response	
	PC	NYC
15. Tell me about a tour emergency you have dealt with: what happened, why and how did you respond?	☐	☐
16. Describe a situation on tour where you have had to provide basic first aid to a tour group member.	☐	☐

Written questions

Establish and maintain safe touring conditions – D2.TTG.CL3.10

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. List three types of tours you might be involved with.

2. List two specific risk categories associated categories with a tour.

3. Give a specific example for each risk category listed.

4. What are the four tasks to be completed when preparing plans to address identified tour risks?

5. What is the most commonly used tool to prepare plans?
- _____
- _____
- _____
- _____
6. What must you check as part of pre departure activities that must be undertaken to optimise safe touring conditions? Give two examples.
- _____
- _____
- _____
- _____
7. List the four steps staff training should include.
- _____
- _____
- _____
8. Give one example of safety training staff must undertake prior to a tour.
- _____
- _____
- _____
- _____
9. How do you ensure all staff are fully aware of every risk associated with a tour they will conduct?
- _____
- _____
- _____
- _____

10. Why is briefing customers on safety issues important?

11. How can you disseminate the safety issues information?

12. List one safety precaution and or practice you must demonstrate for a city tour and one for a water based tour.

13. Give one example when safety equipment is distributed at the beginning of the tour and one example when safety equipment is distributed just prior to a specific activity taking place.

14. What SOP do you follow to ensure equipment and vehicles are safe prior to the beginning of the tour?

15. List three steps you must follow to prepare for the safe conduct of tour activities.

16. List three different factors that can impact on safety inclusions you need to check prior to engagement

17. Give two examples of unexpected conditions that will result in a change of tour itinerary.

18. What steps would you follow if a tour member is behaving in an unsafe manner?

19. What document provides you guidance to provide assistance and advice when required?

20. Give two examples of unexpected events.

21. Explain their potential consequences for conduct of the tour.

22. Give two examples of emergency situations.

23. List the three most important steps to follow in case of an emergency.

24. When approaching a potential injured or unconscious person to administer first aid, it is recommended to use DRABC, please explain what each letter stands for.

25. What details should be included when reporting an on tour incident?

Answers to written questions

Establish and maintain safe touring conditions – D2.TTG.CL3.10

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. List three types of tours you might be involved with

- Half day, full day, extended tour
- Site based tour
- Water based tour.

2. List two specific risk categories associated with a tour

- Human factors
- Environmental factors.

3. Give a specific example of each risk category listed

- Human factor: group size, composition, mobility, special needs, language
- Environmental factors: calendar time of the year, seasonality, festival, religious time

4. What are the four tasks to be completed when preparing plans to address identified tour risks?

- Develop incident procedures
- Develop accident procedures
- Prepare emergency plans
- Validate all documents.

5. What is the most commonly used tool to prepare plans?

Risk Assessment Matrix.

6. What must you check as part of pre departure activities that must be undertaken to optimise safe touring conditions? Give two examples

- Checking of required equipment: vehicles, life jackets
- Checking of itinerary: safe route, safe weather conditions
- Checking of activities: location open and safe for tour members.

7. List the four steps staff training should include

- Theory and practical training
- Assessment
- Checking of training currency prior to tour
- Record of training and refresher.

8. Give one example of safety training staff must undertake prior to a tour

Personnel Protective Equipment: life jacket for water based tour.

9. How do you ensure all staff are fully aware of every risk associated with a tour they will conduct?

- Cover all the safety and security issues during the Pre Tour briefing
- Ensure their training is recent and relevant
- Ensure the chain of command is clear in case of emergency.

10. Why is briefing customers on safety issues important?

- It is critical to ensure tour members understand safety and security risk
- It is part of Duty of Care.

11. How can you disseminate the safety issues information?

Tour briefing, hard copy, via internet or smart phones.

12. List one safety precaution and or practice you must demonstrate for a city tour and one for a water based tour

- City tour: be vigilant while crossing road, wait for the green light and use pedestrian crossing
- Water based tour: how to use life jacket.

13. Give one example when safety equipment is distributed at the beginning of the tour and one example when safety equipment is distributed just prior to a specific activity taking place

- Water based tour: life jacket at the beginning of the tour
- Snorkelling tour: snorkelling equipment.

14. What SOP do you follow to ensure equipment and vehicles are safe prior to the beginning of the tour?

Completion of established, specific check list for each vehicle or piece of equipment

- 15. List three steps you must follow to prepare for the safe conduct of tour activities**
- Liaise with tour staff in preparation of the tour
 - Recap and update all security advice relevant to every activity and location to ensure safe environment
 - Prepare and organise safe equipment to be used by tour members
 - Provide and or reinforce training to ensure all tour members can use required equipment in a safe manner.
- 16. List three different factors that can impact on safety inclusions you need to check prior to engagement**
- Human factors
 - Physical factors
 - Environmental factors.
- 17. Give two examples of unexpected conditions that will result in a change of tour itinerary**
- Road closure
 - Sudden flood.
- 18. What steps would you follow if a tour member is behaving in an unsafe manner?**
- Alert them to the situation
 - Politely request they refrain from doing so.
- 19. What document provides you guidance to provide assistance and advice when required?**
- Standard Operating Procedures of my company
- 20. Give a couple of examples of unexpected events**
- Road closure
 - Worsening weather conditions
 - System failure.
- 21. What potential effects could they have on the tour?**
- Change of itinerary
 - Cancellation of some or all activities.

22. Give a couple of examples of emergency situations

- Fire
- Bomb threat
- Traffic accident.

23. List the three most important steps to follow in case of an emergency

- Stay calm
- Assess the situation quickly
- Take appropriate action.

24. When approaching a potential injured or unconscious person to administer first aid, it is recommended to use DRABC, please explain what each letter stands for

- Danger
- Response
- Airway
- Breathing
- Circulation.

25. What details should be included when reporting an on tour incident?

- Date
 - Place
 - What happened
 - Who was involved
 - How the incident was resolved.
-

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Establish and maintain safe touring conditions D2.TTG.CL3.10
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Plan the tour - Inform tour members on safety issues - Establish safe conditions - Monitor safety during the tour - Deal with safety issues - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Plan the tour		
Determine the risks associated with the tour	☐	☐
Prepare plans to address identified tour risks	☐	☐
Undertake pre-departure activities to optimise safe touring conditions	☐	☐
Element 2: Inform tour members on safety issues		
Train staff in safety requirements	☐	☐
Brief tour customers	☐	☐
Demonstrate safety practices to address identified risks	☐	☐
Distribute safety equipment	☐	☐

Did the candidate	Yes	No
Element 3: Establish safe conditions		
Ensure equipment and vehicles are safe	☐	☐
Prepare for the safe conduct of tour activities	☐	☐
Element 4: Monitor safety during the tour		
Check the safety of tour inclusions prior to engagement	☐	☐
Monitor tour conditions	☐	☐
Observe customer behaviour	☐	☐
Provide assistance and advice where necessary to maintain safety	☐	☐
Element 5: Deal with safety issues		
Deal with unexpected events	☐	☐
Deal with emergencies	☐	☐
Provide basic first aid procedures	☐	☐
Did the student's overall performance meet the standard?	☐	☐
