# Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

## ***Suggested Assessment Methods***

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

## ***Alternative Assessment Methods***

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

### ***Selection of Assessment Methods***

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

### ***Assessing Competency***

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

#### **Pass Competent (PC)**

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

#### **Not Yet Competent' (NYC)**

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

### ***Regional Qualifications Framework and Skills Recognition System***

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region

### ***Recognition of Prior Learning (RPL)***

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

### ***Code of Practice for Assessors***

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

## ***Instructions and Checklist for Assessors***

### **Instructions**

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

### **Preparation**

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

### **Briefing Checklist**

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

**Checklist for Assessors**

| Prior to the assessment I have:                                                                                                                                                                        | Tick (✓) | Remarks |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|---------|
| Ensured the candidate is informed about the venue and schedule of assessment.                                                                                                                          |          |         |
| Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP). |          |         |
| Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.                                                    |          |         |
| Identified and accommodated any special needs of the candidate.                                                                                                                                        |          |         |
| Checked the set-up and resources for the assessment.                                                                                                                                                   |          |         |
| <b>During the assessment I have:</b>                                                                                                                                                                   |          |         |
| Introduced myself and confirmed identities of candidates.                                                                                                                                              |          |         |
| Put candidates at ease by being friendly and helpful.                                                                                                                                                  |          |         |
| Explained to candidates the purpose, context and benefits of the assessment.                                                                                                                           |          |         |
| Ensured candidates understood the assessment process and all attendant procedures.                                                                                                                     |          |         |
| Provided candidates with an overview of performance criteria to be assessed.                                                                                                                           |          |         |
| Explained the results reporting procedure.                                                                                                                                                             |          |         |
| Encouraged candidates to seek clarifications if in doubt.                                                                                                                                              |          |         |
| Asked candidates for feedback on the assessment.                                                                                                                                                       |          |         |
| Explained legal, safety and ethical issues, if applicable.                                                                                                                                             |          |         |
| <b>After the assessment I have:</b>                                                                                                                                                                    |          |         |
| Ensured candidate is given constructive feedback.                                                                                                                                                      |          |         |
| Completed and signed the assessment record.                                                                                                                                                            |          |         |
| Thanked candidate for participating in the assessment.                                                                                                                                                 |          |         |

## ***Instructions for Recording Competency***

### **Specifications for Recording Competency**

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

## ***Instructions for Different Assessment Methods***

### **Specifications for Work Project Assessment**

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
  - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
  - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):  
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.  
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
    - Using the 'X' method of assessment*
    - At 'X' location*
    - You will have 'X time period' for this assessment*
  - You are required to compile information in a format that you feel is appropriate to the assessment
  - Do you have any questions about this assessment?"
- Commence Work Project assessment:
  - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
  - Participants complete work projects in the most appropriate format
  - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### ***Specifications for Oral Question Assessment***

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
  - Enter Student name
  - Enter Assessor name
  - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):  
*"These oral questions are part of the formal assessment for the unit of competency titled X.*

*There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.*

*We have 60 minutes for this assessment.*

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?"
- Commence Oral Questioning assessment:
  - Complete Assessment Record for the Oral Questioning by:
    - a) Ticking PC or NYC, as appropriate
    - b) Entering 'Remarks' as required
    - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### **Specifications for Written Question Assessment**

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of 'Written Questions' for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):

"These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?"
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### ***Specifications for Observation Checklist***

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

### ***Specifications for Third Party Statement***

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
  - Pass Competent = Yes
  - Not Yet Competent = No
  - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

## Competency standard

| <b>UNIT TITLE:</b> FOLLOW SAFETY AND SECURITY PROCEDURES                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |  | <b>NOMINAL HOURS:</b> 30                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| <b>Assessor name</b>      |                                                                                                                                                                                                                                                                                                                                           |
| <b>Location/venue</b>     |                                                                                                                                                                                                                                                                                                                                           |
| <b>Unit of competency</b> | Follow safety and security procedures<br>D2.TCC.CL1.04                                                                                                                                                                                                                                                                                    |
| <b>Instructions</b>       | <ol style="list-style-type: none"> <li>1. Ask student questions from the attached list to confirm knowledge, as necessary</li> <li>2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC')</li> <li>3. Write short-form student answer in the space provided for each question.</li> </ol> |

| Questions                                                                                                                 | Response                 |                          |
|---------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                           | PC                       | NYC                      |
| 1. Describe the safety and security requirements imposed by legislation in your workplace context.                        | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Give me three examples of host enterprise safety and security policies and procedures you are required to comply with. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                | Response                 |                          |
|--------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                          | PC                       | NYC                      |
| 3. Identify three workplace resources available to support required safety and security procedures.                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Tell me of two consequences of failing to follow safety and security procedures as imposed by law or by the employer. | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Describe your individual scope of authority and responsibility in relation to safety and security.                    | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                    | Response                 |                          |
|------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                              | PC                       | NYC                      |
| 6. Explain how you might acquire safety and security information relevant to tour, trip or event about to be undertaken.     | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Demonstrate how you would provide safety and security information to customers about to undertake a trip/tour.            | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Explain what is involved in following designated safety and security checks at your workplace prior to departing on tour. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                         | Response                 |                          |
|-------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                   | PC                       | NYC                      |
| 9. Describe three required safety and security control procedures you implement on tour.                          | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. Give me two examples of action you have taken to address identified risks and security breaches on tour.      | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Describe an instance where you have investigated suspicious persons and/or abnormal situations while on tour. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                                            | Response                 |                          |
|------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                                      | PC                       | NYC                      |
| 12. When on tour, who might you seek assistance from to help address a safety and security issue?                                                    | <input type="checkbox"/> | <input type="checkbox"/> |
| 13. Give me an example of how you reported a serious risk, hazard or security breach when on tour.                                                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 14. What documentation needs to be completed to record safety and security action undertaken when on tour and what information needs to be recorded? | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                             | Response                 |                          |
|-----------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                       | PC                       | NYC                      |
| 15. Describe one situation where you identified and assessed an emergency situation when on tour.                     | <input type="checkbox"/> | <input type="checkbox"/> |
| 16. Describe factors you would take into account when determining action to take in response to emergency situations. | <input type="checkbox"/> | <input type="checkbox"/> |
| 17. Identify an emergency situation and describe the emergency response procedures you might implement in response.   | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                               | Response                 |                          |
|-----------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                         | PC                       | NYC                      |
| 18. Illustrate a situation where you have/might seek assistance to facilitate response to emergency situations from relevant personnel. | <input type="checkbox"/> | <input type="checkbox"/> |
| 19. What details/information do you need to cover when recording action undertaken in response to emergency situations?                 | <input type="checkbox"/> | <input type="checkbox"/> |
| 20. Describe two safety or security issues you have identified and brought to management's attention.                                   | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                                           | Response                 |                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                                     | PC                       | NYC                      |
| 21. Describe how you might raise a safety or security issue with management.                                                                        | <input type="checkbox"/> | <input type="checkbox"/> |
| 22. Describe a safety or security issue you have identified and explain the recommendations you would make for effectively addressing/resolving it. | <input type="checkbox"/> | <input type="checkbox"/> |

# Written questions

Follow safety and security procedures – D2.TCC.CL1.04

**Student Name:** \_\_\_\_\_

Answer all the following questions and submit to your Trainer.

1. Identify two sources of legislated safety and security requirements with which travel/tour businesses must comply.

---

---

2. List three ways to identify legislated obligations with which an organisation needs to comply.

---

---

---

---

3. What three penalties commonly apply if organisations fail to comply with legislated obligations?

---

---

---

---

4. What are the two primary objectives of the common law Duty of Care imposed on all businesses?

---

---

---

---

5. Give three reasons organisations prepare safety and security protocols.

---

---

---

6. Define 'risk management' identifying its component elements.

---

---

---

---

---

---

---

7. Define 'PPE' and give six examples of same.

---

---

---

---

---

---

---

8. What are the six levels in the Hierarchy of Control from most effective to least effective?

---

---

---

---

---

---

9. Name four topics which may be the focus for host enterprise safety and security procedures.

---

---

---

---

10. Name six options/strategies which could be used to provide training to employees in the use of resources to support safety and security procedures.

---

---

---

---

11. What are the two types of plans commonly prepared to guide employees when addressing required safety and security procedures?

---

---

12. Identify four examples of equipment and systems (other than PPE) which may be used to support required safety and security procedures.

---

---

---

---

13. Give three reasons it is important for employees to know the potential consequences of not implementing/adhering to required organisational safety and security procedures.

---

---

---

---

14. Give six possible negative outcomes of failing to follow required safety and security procedures.

---

---

---

---

---

---

---

15. Define/explain the concept of 'scope of authority'.

---

---

---

---

16. List four reasons employees should know their personal scope of authority.

---

---

---

---

17. Name three ways to identify/clarify one's own personal scope of authority.

---

---

---

---

18. Give three generic examples of what may be included in an individual's scope of authority.

---

---

---

---

19. Identify four reasons why you must know or acquire necessary safety and security information relating to an upcoming trip, tour or event.

---

---

---

---

---

20. Describe four ways an employee might obtain required information for an upcoming trip, tour or event.

---

---

---

---

---

---

---

---

21. Identify four examples of 'relevant' safety and security information which might be required for an upcoming tour, trip or event.

---

---

---

---

---

---

---

---

22. Describe five ways a tour guide/leader might provide safety and security information to tour group members.

---

---

---

---

---

23. Give five examples of representative safety and security checks which may need to be made on tour.

---

---

---

---

---

---

---

---

---

24. Name four underpinning keys to enable effective adherence to required safety and security controls.

---

---

---

---

25. "Actions of the tour leader are always on public show": discuss in relation to safety/security controls while on tour.

---

---

---

---

26. Name four control protocols basics which form the basis for implementing primary control safety and security procedures while on tour.

---

---

---

---

---

---

---

---

27. Identify and describe four possible actions which might be taken as a response to routine identified risk and security breaches.

---

---

---

---

---

---

---

---

28. What are the three keys presented in the notes for identifying suspicious persons and/or abnormal situations?

---

---

---

---

---

---

---

---

29. List three tell-tale signs/indicators of suspicious persons.

---

---

---

---

---

---

---

---

30. Give four examples of potential 'abnormal situations'.

---

---

---

---

31. Identify four generic actions to respond to suspicious persons and/or abnormal situations.

---

---

---

---

---

---

32. Name four organisations from which a tour leader might seek assistance when addressing safety and security needs.

---

---

---

---

33. Apart from formal 'organisations' from who else might a tour leader seek assistance when faced with a safety and security need?

---

---

34. Give four examples of serious risks, hazards and/or security breaches which a tour leader would need to report.

---

---

---

---

35. List three ways reports of serious risks, hazards and/or security breaches may be made by a tour leader.

---

---

---

36. Identify four generic inclusions which should be made when reporting serious risks, hazards and/or security breaches.

---

---

---

---

37. Identify four documents that may need to be completed to record safety/security action taken when on tour.

---

---

---

38. Give four reasons action taken to address safety/security action taken when on tour needs to be documented.

---

---

---

---

39. Identify six examples of emergency situations which might arise during, and impact upon, a trip, tour or event.

---

---

---

---

---

---

40. Describe three factors which need to be addressed when assessing an emergency situation.

---

---

---

---

---

---

---

41. Describe four generic actions which might be taken on tour to respond to an emergency situation.

---

---

---

---

---

---

42. List four critical pre-requisites to bear in mind regarding implementation of established emergency procedures.

---

---

---

---

43. Identify one example of an emergency which may be encountered when on tour and describe the emergency response procedures which may apply.

---

---

---

---

---

---

---

---

44. Identify another example of an emergency which may be encountered when on tour and describe the emergency response procedures which may apply.

---

---

---

---

---

---

---

---

45. Identify six options for obtaining assistance when on tour to facilitate responses to an emergency situation.

---

---

---

---

---

---

46. What are the two methods used for completing reports to record action taken in response emergency situations?

---

---

47. Identify four generic considerations when completing reports to record action taken in response emergency situations.

---

---

---

---

---

48. What are the four aims of de-briefing sessions following action taken to address an emergency situation?

---

---

---

---

---

49. Give four reasons it is important to identify safety/security issues requiring attention.

---

---

---

---

50. List four generic areas/topics to which attention may need to be paid when investigating safety and security issues.

---

---

---

---

---

51. List six ways to identify safety and security issues requiring attention.

---

---

---

---

---

---

---

---

52. Name the three ways issues with safety and security issues may be raised with management.

---

---

---

---

53. Identify four key points to address when making recommendations to management to address identified safety and security issues.

---

---

---

---

---

---

# Answers to written questions

Follow safety and security procedures –D2.TCC.CL1.04

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

**1. Identify two sources of legislated safety and security requirements with which travel/tour businesses must comply.**

- Acts of Parliament
- Subsidiary Regulations provided for under certain Acts
- Compulsory 'Codes of Practice' provided for under Acts and/or Regulations.

**2. List three ways to identify legislated obligations with which an organisation needs to comply.**

- Contacting local agencies and authorities with responsibility for health, safety and welfare issues – either in person, via telephone or using the Internet
- Speaking to peak industry bodies – who always have a good understanding of what is required and often have specialist legal advisers to assist in this regard'
- Communicating with management and/or trainers of the organisation – who will know what is required and can give specific advice
- Talking to other operators – and asking for their help, advice and guidance
- Using the services of a professional legal adviser.

**3. What three penalties commonly apply if organisations fail to comply with legislated obligations?**

- Fines – monetary penalties
- Orders – legally binding directives ordering the business to do (or not do/refrain from doing) nominated things
- Gaol – for the responsible person: such as the person responsible for the offence or a nominated person who legislation nominated as having ultimate responsibility, such as senior management or the owner
- Combination of the above – any or all of the above may be the consequences.

**4. What are the two primary objectives of the common law Duty of Care imposed on all businesses?**

- Create and maintain a workplace that does not pose a risk to people (staff, members of the public, customers)
- Take action to avoid causing foreseeable harm to people.

**5. Give three reasons organisations prepare safety and security protocols.**

- Comply with legislated requirements – in order to avoid penalties and create/maintain the image of being a good corporate citizen
- Reduce the likelihood of accidents and injury – accidents and injury can result in:
  - Decreased customer satisfaction
  - Reduced levels of return and/or repeat business
  - Increased incidence of legal action
  - Damage to equipment and vehicles
  - Damage to the public image and reputation of the business
- Enable consistent and standardised dealing with/handling of common problems, situations and circumstances – so customers experience consistency in the quality of goods and services they receive and their overall experience more closely aligns with what is advertised and
- Increase efficiency and effectiveness of operational activities – so the business and all processes run more smoothly
- Reflect the unique nature of organisations – while numerous safety and security issues are generic, many workplaces are unique so the detail of protocols will be developed to address these particular requirements
- Facilitate staff training in required practices – so all staff receive the necessary training to enable compliance with stated requirements as opposed to delivering training in an ad hoc manner
- Demonstrate good corporate governance – so management can prove they have taken all due care to ensure the safe and secure operation of business activities.

**6. Define 'risk management' identifying its component elements.**

Risk can be seen as any hazard or source of danger with the potential to adversely impact on the operation and/or outcomes of a business which prevent it achieving its identified goals and objectives.

Risk management is the term used to describe the activities and practices the business undertakes to address those hazards or sources of danger.

These include the following activities:

- Identifying risk
- Evaluating and analysing risk against relevant criteria
- Developing controls in a risk management plan to address identified risk via a risk management plan
- Monitoring the implementation of the individually prepared risk management plan
- Monitoring the internal and external environments for new and changing risk on an ongoing basis throughout the life of the business
- Reviewing the practices of risk management and its context.

**7. Define 'PPE' and give six examples of same.**

PPE = Personal Protective Equipment and clothing.

- Protective glasses, goggles, eye wear or visors/face shields
- Clothing – such as long-sleeved shirts and long trousers, aprons and overalls, hi-visibility clothing
- Helmets, hats and/or caps
- Guards (padded protection) for body parts – elbow guards, knee pads, groin protectors
- Harnesses
- Gloves, gauntlets and other palm and/or finger protection
- Footwear – such as special purpose shoes or steel-capped boots
- Hearing protection – such as ear plugs and/or ear muffs
- Respiratory protection – such as filters, breathing apparatus
- Sunscreen and insect repellent.

**8. What are the six levels in the Hierarchy of Control from most effective to least effective?**

1. Elimination – the most effective option: involves getting rid of the threat/risk
2. Substitution – the second most acceptable method involves replacing the hazardous process/procedure or product with a less hazardous one
3. Isolation – means removing people from the threat or moving the danger away from people to a safe distance, or erecting/using a protective barrier/shield of some kind
4. Engineering controls – requires changing/making physical alterations to the workplace, site or processes to:
  - Minimise the generation of risk
  - Suppress or contain the risk
  - Limit the risk in should an event occur
5. Administrative controls – requiring (for example) the business to:
  - Restrict access to an area or activity
  - Provide assistive technology or equipment to help with required activities/work
  - Train staff as appropriate
  - Develop necessary protocols
6. Personal protective clothing and equipment.

- 9. Name four topics which may be the focus for host enterprise safety and security procedures.**
- PPE
  - Safe work techniques
  - Customer pre-requisites
  - Emergency procedures
  - Dealing with death
  - Personal safety and security
  - Pre-departure checks
  - Pre-activity checks
  - Catering for disabled customers
  - Recommendation/promotion of travel insurance
  - Obtaining necessary permissions
  - Communicating with media after an event/incident
  - Ethical operation of the business.
- 10. Name six options/strategies which could be used to provide training to employees in the use of resources to support safety and security procedures.**
- Demonstration
  - Drill/practice
  - Role plays
  - Case studies
  - Practical exercises
  - Explanations
  - Discussions.
- 11. What are the two types of plans commonly prepared to guide employees when addressing required safety and security procedures?**
- Emergency management plans – see section 1.2 and Element 3
  - Contingency plans – see below.

**12. Identify four examples of equipment and systems (other than PPE) which may be used to support required safety and security procedures.**

- Lockable display cases and (portable, metal) containers
- Security mirrors
- Safes
- RFID
- EAS
- CCTV
- Motion detectors
- Sensor pads
- Lockable doors and windows
- Key card and key pad access protocols.

**13. Give three reasons it is important for employees to know the potential consequences of not implementing/adhering to required organisational safety and security procedures.**

- Be able to explain them to other staff
- Be able to describe and demonstrate them to customers
- Motivate them to work in the way required by the business
- Enhance job satisfaction and promote a personal feeling of workplace and job-related pride in performance
- Avoid the negative consequences described below.

**14. Give six possible negative outcomes of failing to follow required safety and security procedures.**

- Need for the business to make insurance claims
- Need for staff to assist customers make insurance claims of their travel and/or other personal insurance
- Loss and/or damage to physical items
- Personal impact – in terms of injury may be caused; Illness may result; Death
- Legal action
- Damage to host enterprise – in terms of Reputation, Image, Reduced levels of sales, Decreased return and referral business
- Decreased profit – as a result of money needing to be spent on legal action, repairs, replacement and other mitigating action
- Disciplinary action
- Job loss.

**15. Define/explain the concept of 'scope of authority'.**

It is the authority given to a person (by virtue of their job position/role within the organisation) to take action on behalf of the business without having to talk to anyone else in the workplace for the purpose of obtaining their input or permission in order to make a decision or take other action which is binding on the employer.

In effect, this scope refers to delegated authority given to a worker by their employer to take unilateral action.

**16. List four reasons employees should know their personal scope of authority.**

- Ensure they act in a way expected by the employer
- Perform tasks and responsibilities as directed by the organisation
- Not exceed authority invested in them by the business
- Integrate their actions and decisions with others in the workplace
- Give them confidence and surety in their work activities
- Discharge their work obligations
- Know their limits – so they are aware:
  - When they cannot make a decision and/or take unilateral action
  - When they need to refer a matter to a super-ordinate
  - When they need to involve others in the issue.

**17. Name three ways to identify/clarify one's own personal scope of authority.**

- As part of their Induction and Orientation into the business/their job
- Through formal internal training which focuses on this topic
- Through discussions and explanations with supervisors and managers
- By reading formal workplace documents which prescribe the specific requirements attaching to individual roles/positions.

**18. Give three generic examples of what may be included in an individual's scope of authority.**

Ability to act in an emergency:

- On behalf of the organisation
- In the best interests of the customers/tour group members.

Levels of individual legal liability and responsibility – this should highlight:

- Employers have vicarious liability for the actions of their staff
- Employees are responsible for their actions
- Customers/tour group members and the authorities can take legal action against both the employer and the employee.

Guidelines for triggering action within scope of authority – which:

- Describe circumstances/reference points where the permissions granted under individual scopes:
  - Are applicable
  - Do not apply and the matter needs to be referred to others/a nominated person (supervisor, manager or owner).

Authority for employees to act on behalf of the host enterprise – in terms of:

- Giving examples of what is allowable
- Providing examples of decisions and actions which are not authorised.

Identification of operational parameters – which may relate to:

- Authority to act only in relation to certain classifications of customers – meaning other categories (such as VIPs, high-value, regular) customers must be referred
- Limits about the amount of money which may be spent
- Restrictions on decisions which have the potential to impact on other staff or areas of operation.

Identification of issues where referral to management is required – for example:

- In situations where actual injury, harm, damage or loss has occurred
- In circumstances where the authorities and/or the media have become involved
- Where staff have been assaulted or threatened
- If customers have threatened to involve authorities, the media or take legal action
- In disputes/complaints where customers have demanded to 'speak to the manager.

**19. Identify four reasons why you must know or acquire necessary safety and security information relating to an upcoming trip, tour or event.**

To:

- Discharge Duty of Care obligations – because this information is/should be central to the ultimate decision about whether the tour, trip or event takes place at all, or ‘as planned’
- Comply with standard internal organisational protocols – this is a standard requirement in all businesses
- Be able to share this knowledge with other tour, trip or event staff
- Determine whether or not the tour, trip or event should:
  - Proceed as planned – according to the advertised/planned itinerary
  - Be delayed – for a period of time
  - Be deferred or postponed – to a later date
  - Be cancelled altogether
  - Have substitute inclusions/activities made to the itinerary
  - Be modified in some other appropriate but relatively minor way
- Identify the relevant knowledge which needs to be shared with tour group members/customers
- Share relevant knowledge with tour group members/customers – including generation of appropriate handouts
- Make sure they have the required PPE to match requirements based on the relevant knowledge
- Integrate relevant knowledge into other knowledge and other plans.

**20. Describe four ways an employee might obtain required information for an upcoming trip, tour or event.**

- Telephoning attractions and destinations
- Monitoring the local environment
- Conducting online research
- Accessing internal/network databases
- Speaking with other staff
- Chatting with returned tour group members
- Talking with more senior employees
- Reading promotional and advertising material
- Personally visiting the countries, destinations and attractions and experiencing first-hand the events, activities and inclusions.

**21. Identify four examples of ‘relevant’ safety and security information which might be required for an upcoming tour, trip or event.**

- Familiarisation with equipment, facilities and venues to be used
- Details of expected weather – and details of past recent weather
- Identification of emergency services and support available in the event of trouble
- Identification of communication systems to be used (or which are available to be used) in the event of trouble
- Understanding information relevant to the countries and areas to be visited
- Identifying local authorities
- Identifying potential risks for each event/trip – including:
  - Environmental risks:
  - Physical risks
  - Social risks
  - Cultural risks
  - Travel risks
  - Operational risks.

**22. Describe five ways a tour guide/leader might provide safety and security information to tour group members.**

- Distributing safety and security information – this is usually done through:
  - Using handouts/information sheets
  - Screening a video/DVD
  - Referring customers to signs and/or posters
  - Making reference to, using and/or showing actual examples
  - Supporting information provided with verbal explanations and demonstrations
- Verbally discussing terms and conditions
- Advising customers of their personal duty of care responsibility
- Emphasising if employees ask/direct tour group members to do/refrain from doing something:
  - They are doing this for the individual’s safety
  - They have the right to action necessary to protect the safety of the individual and the group as the need to do so dictates
- Demonstrating safety and security practices
- Encouraging and answering questions from customers relating to safety and security.

**23. Give five examples of representative safety and security checks which may need to be made on tour.**

- Monitoring of customers and their actions
- Performing regular and ongoing checks
- Monitoring weather and other environmental conditions
- Patrolling perimeters
- Inspecting vehicles
- Investigating and/or responding as required.

**24. Name four underpinning keys to enable effective adherence to required safety and security controls.**

- Written policies, procedures, plans and other protocols
- Training to explain requirements
- Practice to enable implementation of practices
- Constant vigilance – tour guides/leaders must maintain ‘situational awareness’ by:
  - Observing what is taking place
  - Listening to what is happening/being said
  - Monitoring the environment
  - Predicting possible problems, threats and difficulties
- Taking action when the need to do so arises – it is never acceptable to identify a problem, issue, threat, danger, unacceptable situation and ignore it.

**25. "Actions of the tour leader are always on public show": discuss in relation to safety/security controls while on tour.**

If:

- The tour guide/leader takes action on an unacceptable issue this automatically sends a message to all other tour group members it is unacceptable
- The tour guide/leader does not take action on an issue this automatically sends a message to all other tour group members it is acceptable.

**26. Name four control protocols basics which form the basis for implementing primary control safety and security procedures while on tour.**

- Know the starting information
- Conduct a comprehensive pre-departure briefing
- Walk the talk
- Start the tour/trip on time
- Keep groups together
- Oversee activities and direct actions
- Provide personal protective clothing and equipment
- Adhere to local safety and security guidelines
- Comply with prepared plans for safety and security control.

**27. Identify and describe four possible actions which might be taken as a response to routine identified risk and security breaches.**

- Notifying/advising tour group members of the situation
- Optimising safety and security of customers and employees on an ongoing basis
- Limiting/controlling actions of customers
- Changing the itinerary
- Liaising with local personnel or authorities.

**28. What are the three keys presented in the notes for identifying suspicious persons and/or abnormal situations?**

- Common sense
- Ongoing monitoring of the environment and vicinity – ‘situational awareness’
- Experience – with the location/situation.

**29. List three tell-tale signs/indicators of suspicious persons.**

- People aimlessly floating around, or loitering in an area without belonging to the group/tour and seemingly without any good reason
- People who look anxious or nervous, especially when observed/noticed, spoken to or when they have their presence acknowledged/noted
- People found in areas where they have no right to be
- People who look out of place.

**30. Give four examples of potential 'abnormal situations'.**

- Doors, windows, vehicles, rooms and luggage/bags which are unlocked or open when they should be locked or closed
- Missing items – including stock, materials, property, resources, equipment
- Items which are in the wrong place/have been re-located without a reason for them being there
- Damage to property and/or equipment
- Settings on equipment which have been altered/tampered with
- Unexplained occurrences
- Any circumstances reported to tour guides/leaders by members of the tour group which they deem to be strange/out of the ordinary
- Circumstances which are significantly different to expectations:
  - Based on advertised conditions
  - Based on previous experience with the same location. Situation or activity.

**31. Identify four generic actions to respond to suspicious persons and/or abnormal situations.**

- Use common sense
- Act – never ignore a situation but always avoid over-reacting
- Never take action which will pose a threat/danger to self or the tour group – never try to be a hero
- Think before acting:
  - Take a moment to plan what is to be done
  - Act – as opposed to re-acting
  - Develop a 'plan' which is safe and logical – ensure the plan/action to take is appropriate to the nature (likelihood and consequence) of the issue/threat
  - Do nothing which will make the situation worse – a standard requirement is to 'do no more damage than has already occurred'
- Take notes and/or photographs – if safe/practical to do so, to capture evidence
- Notify and involve relevant others – appropriate persons to advise/include may be:
  - Security staff
  - Local authorities
  - Any other staff member.

**32. Name four organisations from which a tour leader might seek assistance when addressing safety and security needs.**

- Fire
- Ambulance
- Police
- Civil defence
- A nominated service provider – local security company
- Head office – or a nominated ‘24/7’ number dedicated to assisting those on tour.

**33. Apart from formal 'organisations' who else might a tour leader seek assistance from when faced with a safety and security need?**

- Tour leader
- Security staff
- Other guides
- Cooks
- Drivers
- Tour assistants.

**34. Give four examples of serious risks, hazards and/or security breaches which a tour leader would need to report.**

- Unsafe, damaged, broken or malfunctioning equipment
- Loss while on tour
- Presence of unauthorised persons (such as people without tickets, banned people, those from another tour/tour company and people who may be intoxicated, troublesome)
- Signs of unauthorised access
- Unsecured facilities
- New tour threats which have arisen/been identified since ‘last time’ the tour was there
- Observed/identified occasions where protocols have been breached or could not be applied ‘as and when intended’
- Situations where there was a need to involve emergency services or an external provider to assist the tour in a problem situation
- Any situation raised by tour group members with tour staff which relates to serious risk, threat or security breach of any kind – and any similar issues raised by partners, carriers, destinations nor other stakeholders.

**35. List three ways reports of serious risks, hazards and/or security breaches may be made by a tour leader.**

- Completing of a designated report – this may require completion of a:
  - Dedicated ‘Breach notification’ report/form
  - ‘End of tour report’
  - ‘Maintenance Request’
- Making a verbal report to a nominated person– which may be done:
  - Face-to-face – during the tour or at end-of-tour
  - Via telephone
  - Using radio
- Submitting an electronic report – such as:
  - An email
  - Online completion/submission of a report/form
- Attending a mandatory end-of-tour de-briefing session – where ‘breaches’ and ‘threats/issues arising’ will always be a standing topic for consideration.

**36. Identify four generic inclusions which should be made when reporting serious risks, hazards and/or security breaches.**

- What are believed to be the facts of the matter
- What happened/did not happen
- The actual or potential consequences
- Known/believed causes or reasons for the situations
- Suggestions for remedying or otherwise addressing the situation.

**37. Identify four documents that may need to be completed to record safety/security action taken when on tour.**

- Security and safety checklists
- Internal daily summaries
- Reports – Breach reports, Safety reports, Security reports, Tour reports
- Maintenance forms
- Hazard identification forms
- Tour and travel logs
- Written statements.

**38. Give four reasons action taken to address safety/security action taken when on tour needs to be documented.**

- Provide a tangible record of the event and what was done/not done
- Facilitate sharing of the information with relevant stakeholders/parties
- Provide a basis for analysis and evaluation of the action taken
- Reduce/eliminate incidence of repeating mistakes/breaches
- Improve the customer/tour group member experience
- Assist with determining whether or not additional action needs to be taken – such as:
  - Revising existing SOPs
  - Creating new SOPs
  - Acquiring new, different or additional resources
  - Initiating more/different training
  - Contacting stakeholders (including tour group members) and (as appropriate) apologising, making reparations, or providing explanations.

**39. Identify six examples of emergency situations which might arise during, and impact upon, a trip, tour or event.**

- Bomb threats, terrorist threats and terrorist activity
- Deranged people
- Motor vehicle, or similar, accidents
- Criminal acts, including assault, robbery, theft
- Natural calamity
- Personal injury and illness
- Loss of food, water, transport and/or communications
- Fire.

**40. Describe three factors which need to be addressed when assessing an emergency situation.**

- The circumstances applying at the time
- Resources available to assist
- Experience with the area and/or emergency type
- Knowledge of the Emergency Action/Management Plan available to deal with the emergency type which has materialised.

**41. Describe four generic actions which might be taken on tour to respond to an emergency situation.**

- Contacting emergency services
- Initiating alarms
- Communicating with tour group members
- Taking immediate protective measures
- Initiating evacuations
- Undertaking first response/first attack activities
- Removing assets, property and belongings out of danger/away from threat
- Seeking feedback from customers
- Following the actions as set out in appropriate pre-prepared emergency management plans and/or contingency plans.

**42. List four critical pre-requisites to bear in mind regarding implementation of established emergency procedures.**

- Always keep these procedures/EMPs close at hand
- Ensure familiarity with the procedures
- Location and the environment will always contribute to determining action to take
- Regardless of how detailed and comprehensive the plans/procedures are they will only ever be able to provide guidelines for action
- Different organisations will have different plans/SOPs
- Saving a life should always take precedence over saving/protecting material items
- No-one should ever be placed in danger
- Get help moving towards the location as soon as possible/immediately.

**43. Identify one example of an emergency which may be encountered when on tour and describe the emergency response procedures which may apply.**

No model answer – response will depend on type of emergency chosen.

**44. Identify another example of an emergency which may be encountered when on tour and describe the emergency response procedures which may apply.**

No model answer – response will depend on type of emergency chosen.

**45. Identify six options for obtaining assistance when on tour to facilitate responses to an emergency situation.**

- Using personal cell phone – or one belonging to a tour group member or member of the public – to place a phone call or send a text message
- Using a landline phone
- Using an emergency telephone
- Using portable radio – or radio in tour vehicle
- Activating an alarm – which may incorporate audio-communication
- Activating an emergency beacon, locator beacon or distress/survival beacon
- Speaking with bystanders/members of the public – and (for example):
  - Asking them to call local authorities
  - Asking to borrow their phone
  - Asking for local contact numbers and/or contact information
- Going to a relevant website
- Sending an email.

**46. What are the two methods used for completing reports to record action taken in response emergency situations?**

- Spoken
- Written.

**47. Identify four generic considerations when completing reports to record action taken in response emergency situations.**

- Answer questions to the best of personal knowledge and ability
- Try to avoid supposition – stick to the facts
- Verbal reports enable quicker follow up to occur
- Inspections of the site are often required – but may not be possible
- Initial verbal reports may require more formal, more detailed follow-up written reports.

**48. What are the four aims of de-briefing sessions following action taken to address an emergency situation?**

- Defining exactly what the emergency situation was
- Identifying the responses taken
- Evaluating the plans and training that were in place
- Evaluating the actions taken by staff and others.

**49. Give four reasons it is important to identify safety/security issues requiring attention.**

- Meet internal organisational protocols
- Comply with legislated requirements requiring maintenance of safety and security for customers, employees and members of the public
- Prevent imminent accident, injury and loss
- Demonstrate engagement to management with their inspection/safety and security protocols
- Address identified problems
- Maintain and/or grow customer satisfaction with the trips/tours and procedures
- Enhance business viability
- Support organisational image and reputation
- Protect against possible legal action for negligence/failure to discharge Duty of Care.

**50. List four generic areas/topics to which attention may need to be paid when investigating safety and security issues.**

- Examples of when safety and security was actually compromised – but no offence, incident or loss resulted
- Instances where there were near-miss incidents
- Occasions where there have been safety and security inadequacies
- Situations in the past that necessitated involvement of, or intervention by, emergency services or similar authorities
- Changes which impact the operation of the business and its tours, trips and travel in relation to:
  - Legislation – of various countries visited
  - Operating protocols of attractions and destinations
  - Introduction of new destinations, activities, inclusions
  - New target markets with special needs and/or reduced/altered levels of capacity and competency
  - Events which have actually given rise previously to Accident, Illness, Death, Damage and/or Loss
  - Complaints received from customers which related to Security concerns and/or Safety issues
  - Instances where negative media exposure occurred.

**51. List six ways to identify safety and security issues requiring attention.**

- Soliciting feedback from tour group members/customers – in written and verbal form, including end-of-tour comments and online feedback
- Analysing any instances where an insurance claim had to be lodged – by a customer or by the organisation
- Examining circumstances where legal action of any kind (civil or criminal) has been launched against the business and/or its employees
- Reviewing documentation completed by tour staff – during and on completion of tours/trips
- Inspections of workplace assets, equipment and facilities – on a regular basis using formal checklists and a team/group of workplace operatives/staff
- Checking implementation of required organisational practices – to ensure they are being complied with as required/expected
- Reading reports from other industry sources and/or relevant authorities – and comparing the findings of these reports with the host organisation to determine potential similar issues
- Using an external consultant with relevant expertise in safety and security – to analyse operations and highlight problem areas and protocols/situations requiring attention.

**52. Name the three ways issues with safety and security issues may be raised with management.**

- Verbal discussion of things with management
- Submission of nominated internal paperwork
- Making of a formal presentation to a designated management group.

**53. Identify four key points to address when making recommendations to management to address identified safety and security issues.**

- Ensuring the solution addresses the cause of the problem
  - Suggesting alternatives to situations which gave rise to identified issues
  - Undertaking another/more detailed risk management procedures
  - Revising standard plans
  - Developing additional and/or amended checklists
  - Providing outcomes of detailed research into suggestions for addressing the issue.
-

# Observation checklist

|                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
