Competency Based Training (CBT) and assessment – An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of Competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational safety and health requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of Competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning Approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in Learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for Participant Diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant Centred Learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning

- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants
- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active Learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training Strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of Training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/Tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group Discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role Play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation Games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /Group Exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case Study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field Visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group Presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice Sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)

Principle of Competency Based Assessment

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in Assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment Objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of Assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative Assessment Tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC)
- Pass Competent (PC).

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: MAINTAIN A PAPER-BASED FILING AND RETRIEVAL SYSTEM		NOMINAL HOURS: 20
UNIT NUMBER: D1.HGE.CL7.03 D1.HGA.CL6.03		
UNIT DESCRIPTOR: This unit deals with the skills and knowledge required maintain a paper-based filing and retrieval system in a range of settings within the hotel industries.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Maintain information systems 1.1 Maintain information and filing systems in accordance with organisational requirements 1.2 Identify, remove and/or relocate inactive or dead files in accordance with organisational requirements 1.3 Establish and assemble new files in accordance with organisational requirements 1.4 Update reference and index systems in accordance with organisational requirements Element 2: Retrieve files in response to information requests 2.1 Locate specified files/records within designated timelines 2.2 Retrieve relevant file 2.3 Record movements of documentation according to enterprise policies and procedures 2.4 Follow security and confidentiality procedures		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to maintain a paper based filing and retrieval system within the labour divisions of the hotel and travel industries and may include: 1. Food and Beverage Service 2. Food Production 3. Front Office 4. Housekeeping <i>Information may include:</i> • Correspondence, such as faxes, memos, letters, email and other documents • Computer databases, such as library catalogue, customer records • Sales records, including monthly forecasts, targets achieved

Element 3: Maintain existing recording and filing systems 3.1 Maintain recording and filing systems according to enterprise policies and procedures 3.2 Allocate new documents to designated category 3.3 Monitor the issue and return of documents to ensure the integrity of the system is maintained 3.4 <i>Archive</i>, remove and update documents to ensure appropriate space available for current records 3.5 Identify and locate required files and dispatch to nominated person or section within designated time limits 3.6 Monitor and record file and document movements 3.7 Maintain documents in good condition and in correct location 3.8 Separate <i>confidential files</i> from general files, with access available to nominated personnel only 3.9 Monitor security system to ensure issued files are traceable at all times	• Forms, including insurance forms, membership forms • Invoices, such as from suppliers, to debtors • Personnel records, including personal details, salary rates • Information on training needs • Marketing reports/plans/budgets • Financial figures • Production targets. <i>Organisational requirements</i> may include: • Security and confidentiality requirements • Legal and organisational policy/guidelines and requirements • Management and accountability channels • Code of Conduct/code of ethics • Procedures for updating records • Information protocols. <i>Inactive or dead files</i> may include: • Completed projects/events • Old clients • Paid accounts • Ex employees. <i>Reference and index systems</i> may relate to: • Alphabetic • Numeric • Alpha-numeric
---	---

- Topic
- Subject.

Record movements may include:

- Updating file register
- Updating records management system
- Temporary or permanent transfer of records.

Security and confidentiality procedures may include:

- Access authority
- Lockable files/cabinets
- Confidentiality.

Archive may refer to:

- Handling completed/closed files in accordance with the organisation's policy, procedure and system
- Storing confidential files in an internal/external repository
- Being able to retrieve archived files from storage, when required.

Confidential files may include:

- Staff personnel files
- Commercial in confidence.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Ability to maintain record management systems and processes
- Ability to file data and documents systematically
- Ability to review files for relevance and updating records management system accordingly.

	Linkages To Other Units • Plan and establish systems and procedures • Access and retrieve computer based data • Perform clerical procedures • Plan and establish systems and procedures. Critical Aspects of Assessment Evidence of the following is essential: • Demonstrated understanding of organisation's records management system and ability to apply knowledge of organisational policies and procedures relating to the safe storage and retrieval of paper-based files • Demonstrated ability to use established filing methods to store and retrieve paper-based files • Demonstrated ability to establish new files and archive relevant files. Context of Assessment This unit may be assessed on or off the job: • Assessment must relate to the individual's work area, job role and area of responsibility • Assessment activities that require that candidate to store and retrieve files • Assessment activities that require the candidate to apply a knowledge of established records management systems and processes. Resource Implications Training and assessment to include access to a real or simulated workplace that provides the candidate with an opportunity to demonstrate application of knowledge of records management systems; and access to workplace standards, procedures, policies, guidelines, tools and records management systems.
--	---

Assessment Methods

The following methods may be used to assess competency for this unit:

- Case studies
- Observation of practical candidate performance
- Oral and written questions
- Portfolio evidence
- Problem solving
- Third party reports completed by a supervisor
- Project and assignment work.

Key Competencies in this Unit

Level 1 = competence to undertake tasks effectively

Level 2 = competence to manage tasks

Level 3 = competence to use concepts for evaluating

Key Competencies	Level	Examples
Collecting, organising and analysing information	1	Gather and sort files for storage
Communicating ideas and information	1	Explain records management processes to other team members
Planning and organising activities	1	Plan filing storage and retrieval activities
Working with others and in teams	1	Provide team members with required files in a timely fashion

	Using mathematical ideas and techniques	1	Use on numeric index system
	Solving problems	2	Identifying missing files and tracking information
	Using technology	1	Using technology to record file movements

Subject Elements

This unit comprises three Elements:

- Maintain information systems
- Retrieve files in response to information requests
- Maintain existing recording and filing systems

Slide 2

Slide No	Trainer Notes
2.	Trainer advises this Unit comprises three Elements, as listed on the slide explaining: • Each Element comprises a number of Performance Criteria which will be identified throughout the class and explained in detail • Trainees can obtain more detail from their Trainee Manual • At times the course presents advice and information about various protocols but where their workplace requirements differ to what is presented, the workplace practices and standards, as well as policies and procedures must be observed.

Slide

Assessment

Assessment for this unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from supervisor

Slide 3

Slide No	Trainer Notes
3.	Trainer advises that assessment for this Unit may take several forms all of which are aimed at verifying they have achieved competency for the Unit as required. Trainer indicates the methods of assessment that will be applied to them for this Unit.

Slide

Organisational requirements

Importance of having organisational requirements

Given that many of these documents are not only of a sensitive nature, but need to be stored in a logical and easy to locate manner, each organisation is likely to have a number of requirements that must be followed when handling them:

- What types of requirements do organisations have?

Slide 14

Slide No

Trainer Notes

14.

Class Activity – Questions

- Discuss the question in the slide.

Slide

Organisational requirements

Types of organisational requirements

- Security and confidentiality requirements
- Legal and organizational policy, guidelines and requirements
- Management and accountability channels
- Code of Conduct, Code of Ethics
- Procedures for updating records
- Information protocols

Slide 15

Slide No	Trainer Notes
15.	Class Activity – Discussion • Discuss the requirements • Identify what some potential policies or procedures that may be established to protect hard copy information.

Slide

Organisational requirements

Types of organisational requirements

- Who has responsibility for producing and handling documents
- Who has authority for authorising documents and signing them prior to despatch
- Filing and storing copies of documents
- Identification of (blank and pro forma) documents that need to be prepared on a regular basis

Slide 16

Slide No	Trainer Notes
16.	Class Activity – Discussion • Discuss the requirements • Identify what some potential policies or procedures that may be established to protect hard copy information.

Slide

Handle inactive or dead files

Types of inactive or dead files

Inactive or dead files may include:

- Completed projects or events
- Old clients
- Paid accounts
- Ex employee information

Slide 17

Slide No	Trainer Notes
17.	Class Activity – Discussion • When are they considered to be 'inactive' or 'dead'? • What is done with these files?

Slide

Handle inactive or dead files

Handling inactive or dead files

How should you:

- Remove files
- Destroy files

Establish and assemble files

Solicit input from users

When establishing and assembling new files it is important that the end user understands:

- How files will be filed
- Methods of identifying files
- Where they will be located
- How they can be accessed

Slide 19

Slide No	Trainer Notes
19.	Class Activity – Questions • Why is it important to ask others for input when setting up new files? • Who should you ask?

Slide

Establish and assemble files

Establishing file categories

To make a filing system more effective it is essential to group files into 'categories'. A category is a group or a collection of files or documents that belong together.

- What are examples of categories for different departments within a hotel?
- What are sub-categories with these?

Slide 20

Slide No	Trainer Notes
20.	Class Activity – Group activity • Get audience to list different categories and sub-categories for different positions in different hospitality departments.

Slide

Establish and assemble files

Forming categories

Some easy to follow suggestions include:

- Sort all your documents out into piles that you think belong together
- Give each pile a category name
- Make a list of categories
- Look at your list critically

Slide 21

Slide No	Trainer Notes
21.	Class Activity – Group activity Get audience to list different categories for different positions in different hospitality departments.

Slide

Establish and assemble files

Filing procedure

- Step 1: Receiving the document
- Step 2: Action
- Step 3: Follow up
- Step 4: Collecting Documents to be filed
- Step 5: Filing

Slide 22

Slide No

Trainer Notes

22.

Class Activity – Discussion

- Discuss this procedure.

Slide

Establish and assemble files

Guidelines

- Have easily identifiable files and folders
- File documents immediately
- Have consistency amongst filing systems

Slide 23

Slide No	Trainer Notes
23.	Class Activity – Discussion • What other guidelines would you have to make filing of documents easier?

Slide

Update reference and index systems

Role of the reference and index systems

Implementing a reference and index system enables you to file and then readily access paper-based documents:

- What reference and index systems can you use?

Slide 24

Slide No	Trainer Notes
24.	Class Activity – Discussion • Discuss different types of systems.

Slide

Update reference and index systems

Types of reference and index systems

Reference and index systems may relate to:

- Alphabetic
- Numeric
- Alpha-numeric
- Topic
- Subject

Slide 25

Slide No	Trainer Notes
25.	Class Activity – Discussion Discuss different types of systems.

Slide

Update reference and index systems

Types of reference and index systems

Reference and index systems may relate to:

- Alphabetic
- Numeric
- Alpha-numeric
- Topic
- Subject

Slide 26

Slide No

Trainer Notes

26.

Class Activity – Discussion

- Discuss different types of systems.

Slide

Element 2:

Retrieve files in response to information requests

Slide 27

Slide No	Trainer Notes
27.	Introduce topic. Class Activity – General Discussion Ask general questions: • What actions are required when retrieving files from appropriate storage locations?

Slide

Retrieve files in response to information requests

Performance Criteria for this Element are:

- Locate specified files or records within designated timelines
- Retrieve relevant file
- Record movements of documentation according to enterprise policies and procedures
- Follow security and confidentiality procedures

Slide 28

Slide No

Trainer Notes

28.

Trainer identifies the Performance Criteria for this Element, as listed on the slide.

Slide

Locate files within timelines

Locating files

One of the main priorities of using a filing system is to ensure that files and documents can be:

- Located
- Identified
- Retrieved in a timely and efficient manner

Slide 29

Slide No	Trainer Notes
29.	Class Activity – Discussion • Discuss these points.

Slide

Types of files

Types of hospitality files and documents

- Guest mail
- Customer records
- Incoming and outgoing correspondence
- Files
- Letters
- Facsimiles (faxes)

Slide 30

Slide No

Trainer Notes

30.

Class Activity – Discussion & Show examples

- Discuss these files, their uses, who uses them
- Show examples.

Slide

Types of files

Types of hospitality files and documents

- Memos
- Reports
- Menus
- Banquet orders
- Financial records
- Invoices
- Receipts

Slide 31

Slide No	Trainer Notes
31.	Class Activity – Discussion & Show examples • Discuss these files, their uses, who uses them • Show examples.

Slide

Types of systems

Types of paper based filing systems

- Filing cabinets
- Flat Boxes
- Lever arches
- Suspension folders
- Shelving
- Other

Slide 32

Slide No

Trainer Notes

32.

Class Activity – Discussion

- Provide examples of each
- Filing cabinets: 3-drawer, 4-drawer, 2-drawer
- Flat Boxes: Flat box file, horizontal plan file
- Lever arches: Binder
- Suspension folders: Hanging files
- Shelving: Lateral cabinets, compactus
- Other: Trolley, spike file, rotary file, concertina file.

Slide

Retrieve relevant file

Importance of documenting file retrieval

Once the specific file has been found, it is time to retrieve it. In many cases files have been kept for a specific reason.

It is therefore important that if files are removed for whatever reason, that:

- There is a written record of this removal
- Files are returned

Slide 33

Slide No	Trainer Notes
33.	Class Activity – Discussion • Why is this important?

Slide

Retrieve relevant file

Ensuring files are not lost

File Out Book:

- A file-out book is simply a book in which we write
- Who borrowed the file or document
- Name of the file or document
- When they borrowed it
- When they returned it

Slide 34

Slide No

Trainer Notes

34.

Class Activity – Discussion

- Why is a file out book important?
- What other information should be recorded in it?
- Who should have control of this book?

Slide

Retrieve relevant file

Ensuring files are not lost

File Out Card

File-out cards are used in a filing cabinet. They are the same size as the files and are put in the place of the file, which has been borrowed:

- Who borrowed the file or document
- Name of the file or document
- When they borrowed it
- When they returned it

Slide 35

Slide No	Trainer Notes
35.	Class Activity – Discussion • Why is a file out card important? • What other information should be recorded in it? • Who should have control of this book?

Slide

Record document movements

Benefits of recording movement of documents

This helps to identify:

- Who has the physical document
- Who issues or authorised the movement of the document
- Where the document is currently located

Slide 36

Slide No

Trainer Notes

36.

Class Activity – Discussion

- Discuss these benefits.

Slide

Record document movements

Types of document movements

There are endless types of movements involving documents including:

- Recording incoming or outgoing documents
- Filing including electronic filing of correspondence
- Mailing
- Photocopying
- Faxing
- Emailing
- Binding
- Distribution

Slide 37

Slide No	Trainer Notes
37.	Class Activity – Discussion • Discuss these regular movements • Who normally makes them? • What is involved?

Slide

Record document movements

Ways to record movements

Ways to record movements may include:

- Updating file register
- Updating records management system
- Temporary or permanent transfer of records

Slide 38

Slide No

Trainer Notes

38.

Class Activity – Discussion

- What other ways can you record movements?

Slide

Record document movements

Benefits of recording document movements

- Establishes a transparent record of who has the document and where it has gone
- Requires authorisation to receive documents
- Easy to see who has received and had the opportunity to read documents
- Records the time and date in which a specific person has physically received a document

Slide 39

Slide No	Trainer Notes
39.	Class Activity – Discussion • What other benefits are there?

Slide

Follow security and confidentiality procedures

Need for security and confidentiality

- Many hard copy files and documents contain information of a sensitive and confidential nature
- It is essential that this information is protected in a manner that ensures that only authorised persons have access to them

Slide 40

Slide No

Trainer Notes

40.

Class Activity – Discussion

- What are examples of confidential files?
- How can you maintain security and confidentiality?

Slide

Follow security and confidentiality procedures

Types of confidential and sensitive information

Information that may be considered confidential or sensitive may include:

- Personal information relating to both personnel and guests
- Credit card information
- Salary and benefits entitled to personnel
- Personnel performance appraisal information

Slide 41

Slide No	Trainer Notes
41.	Class Activity – Discussion • What do you do with this information? • How can you protect it?

Slide

Follow security and confidentiality procedures

Types of confidential and sensitive information

- Complaints
- Claims of harassment or discrimination
- Financial information
- Strategic information
- Notes left by clients at a conference
- Notes left by guests in hotel rooms

Slide 42

Slide No

Trainer Notes

42.

Class Activity – Discussion

- What do you do with this information?
- How can you protect it?

Slide

Follow security and confidentiality procedures

Importance of security

Security of documents on file is important and must be ensured to:

- Protect the confidential nature of business documents
- Provide back-up information in the case of computer crash
- Provide hard copy evidence

Slide 43

Slide No	Trainer Notes
----------	---------------

43.

Class Activity – Discussion

- Why is this important?

Slide

Follow security and confidentiality procedures

Types of security and confidentiality procedures

Security and confidentiality procedures may include:

- Access authority
- Lockable files or cabinets
- Confidentiality

Slide 44

Slide No

Trainer Notes

44.

Class Activity – Discussion

- Discuss these measures.

Slide

Element 3:

Maintain existing recording and filing systems

Slide 45

Slide No	Trainer Notes
45.	Introduce topic. Class Activity – General Discussion Ask general questions: When a business has large volumes of hard copy files, how can you maintain these systems?

Slide

Maintain existing recording and filing systems

Performance Criteria for this Element are:

- Maintain recording and filing systems according to enterprise policies and procedures
- Allocate new documents to designated category
- Monitor the issue and return of documents to ensure the integrity of the system is maintained

Slide 46

Slide No	Trainer Notes
----------	---------------

46.	Trainer identifies the Performance Criteria for this Element, as listed on the slide.
-----	---

Slide

Maintain existing recording and filing systems

Performance Criteria for this Element are:

- Archive, remove and update documents to ensure appropriate space available for current records
- Identify and locate required files and dispatch to nominated person or section within designated time limits
- Monitor and record file and document movements

Slide 47

Slide No	Trainer Notes
----------	---------------

47.	Trainer identifies the Performance Criteria for this Element, as listed on the slide.
-----	---

Slide

Maintain existing recording and filing systems

Performance Criteria for this Element are:

- Maintain documents in good condition and in correct location
- Separate confidential files from general files, with access available to nominated personnel only
- Monitor security system to ensure issued files are traceable at all times

Slide 48

Slide No

Trainer Notes

48.

Trainer identifies the Performance Criteria for this Element, as listed on the slide.

Slide

Maintain existing recording and filing systems

Maintain systems

- Some documentation is kept on file because the establishment has identified a potential need for it
- It is therefore important to maintain, modify and update whatever reference systems the establishment has decided to keep
- This means ensuring the information contained within reports is current and accurate as much as possible

Slide 49

Slide No	Trainer Notes
49.	Class Activity – Discussion • How can you maintain, modify and update information?

Slide

Maintain existing recording and filing systems

Legally required information

It is also a legal requirement to keep certain files in storage in case an individual needs to be located because of a criminal or civil law action, which may include:

- An insurance claim being lodged
- A theft from the guest's room
- A fire in the hotel

Slide 50

Slide No

Trainer Notes

50.

Class Activity – Discussion

- What other legal information needs to be retained and maintained?

Slide

Maintain existing recording and filing systems

Operational reports

Other documentation that may need to be modified and updated may include:

- Arrival and departure reports
- Revenue reports
- In-house activity reports
- Staff timesheets
- Work claim forms
- Accident reports
- Staff rosters

Slide 51

Slide No	Trainer Notes
51.	Class Activity – Discussion What other operational reports need to be retained and maintained?

Slide

Allocate new documents to designated category

Techniques to organise information

- Alphabetical
- Numerical
- Geographical
- Subject
- Key word
- Chronological
- Colour Coding

Slide 52

Slide No

Trainer Notes

52.

Class Activity – Discussion

- Where would these different techniques be appropriate?

Slide

Monitor the issue and return of documents

- Files are kept in specific locations for the benefit of all staff, to help them conduct day to day activities. It is therefore important that staff has access to these files when required
- If files go missing, not only does this make it inconvenient for other staff seeking information, it may also have serious confidential concerns if lost

Slide 53

Slide No	Trainer Notes
----------	---------------

53.

Class Activity – Discussion

- How can you control this?

Slide

Monitor the issue and return of documents

Management must place a priority to monitor that any files issued have been:

- Returned
- In a complete format

Slide 54

Slide No

Trainer Notes

54.

Class Activity – Discussion

- How can you control this?

Slide

Monitor the issue and return of documents

Check recording systems and files

This can be achieved by ensuring the above mentioned recording systems are:

- Are checked on a regular basis
- Following up outstanding files with relevant persons
- Conducting a 'stock take' of files where possible
- Remind staff of the importance of returning files to original locations

Slide 55

Slide No	Trainer Notes
----------	---------------

55.

Class Activity – Discussion

- Discuss the importance of these points.

Slide

Archive, remove and update documents

Archiving

- Where files or documents pass a certain time such as 12 months after their date, they may be removed and stored in a secure location for a nominated time
- This time is usually 5 to 7 years
- This called 'archiving'

Slide 56

Slide No

Trainer Notes

56.

Activity – Discussion

- Where do files get archived to?

Slide

Archive, remove and update documents

Removing designated inactive files

- Periodically, files may need to be culled or archived
- These files are commonly known as 'inactive files'
- Clearing the inactive files frees up more space for current or active files

Slide 57

Slide No	Trainer Notes
57.	Class Activity – Discussion When is it time to identify and remove files?

Slide

Archive, remove and update documents

Options to remove inactive files

- Physically work through the files and remove anything older than a certain time
- Shred anything that is remotely likely to be personal or confidential in nature
- Documents may need to be archived

Slide 58

Slide No

Trainer Notes

58.

Class Activity – Discussion

- What other options exist?

Slide

Archive, remove and update documents

Methods to archive

Archive may refer to:

- Handling completed and closed files in accordance with the organization's policy, procedure and system
- Storing confidential files in an internal or external repository
- Being able to retrieve archived files from storage, when required
- Off-site storage

Slide 59

Slide No	Trainer Notes
----------	---------------

59.

Class Activity – Discussion

- Discuss these options.

Slide

Identify and dispatch documents

Sharing hard copy files with others

- At times personnel within the hospitality organisation will seek information or access to files that may be in your possession
- It is normal procedure for files to be distributed to others

Slide 60

Slide No

Trainer Notes

60.

Class Activity – Discussion

- Discuss these points.

Slide

Identify and dispatch documents

Sharing hard copy files with others

- Each organisation will have their own policies and procedures for transporting hard copy files to other personnel
- When transporting files, the security of the files themselves and the information contained within must be maintained

Slide 61

Slide No	Trainer Notes
61.	Class Activity – Discussion • Discuss these points.

Slide

Identify and dispatch documents

Issuing files to others

When issuing files to others it is important that you ensure:

- These files can easily be identified
- The persons seeking the files have the authority to be given them
- The files are given to them in a timely manner
- They are informed that files must be recorded or signed for
- Files are returned if applicable

Slide 62

Slide No

Trainer Notes

62.

Class Activity – Discussion

- Discuss these points.

Slide

Identify and dispatch documents

Factors to consider when issuing files to others

- Practicality of sending documents
- Urgency of document to be delivered
- Size of documents or files
- Level of confidentiality or security required
- Cost of delivery

Slide 63

Slide No	Trainer Notes
----------	---------------

63.

Class Activity – Discussion

- What other factors need to be taken into account?

Slide

Maintain documents in good condition

Given that hard copy files are in fact physical pieces of information, it is essential that these files are looked after and kept in good working condition as much as possible.

- How can you do this?
- Who is responsible for it?

Slide 64

Slide No	Trainer Notes
64.	Class Activity – Discussion • Discuss the questions in this slide?

Slide

Maintain documents in good condition

Maintaining the filing system

- Keep documents that are waiting to be filed in trays, do not leave them lying about on desks or shelves.
- File documents away at least once a day, or if your organisation is very small you can do it once a week
- Do not put too much in files or folders

Slide 65

Slide No	Trainer Notes
----------	---------------

65.

Class Activity – Discussion

- Discuss these points.

Slide

Maintain documents in good condition

Maintaining the filing system

- Put new covers on old files which get a lot of use and have become worn or torn
- Box files and lever arch files can hold more than simple folders
- Never allow filing drawers or shelves to become too full. Acquire new filing cabinets when necessary

Slide 66

Slide No

Trainer Notes

66.

Class Activity – Discussion

- Discuss these points.

Slide

Maintain documents in good condition

Good housekeeping and safety

At the end of every day you should:

- File all the documents you can
- Put away those you cannot file in filing trays
- Lock up all confidential documents
- Place all waste paper in rubbish bins
- Leave desks tidy

Slide 67

Slide No	Trainer Notes
67.	Class Activity – Discussion • What else can you do to maintain a clean and tidy work area?

Slide

Separate confidential files from general files

Confidentiality

Confidentiality is a set of rules or a promise that limits access or places restrictions on certain types of information:

- What are examples of 'general' files?
- What are examples of 'confidential' files?

Slide 68

Slide No

Trainer Notes

68.

Class Activity – Discussion

- Discuss the questions in this slide.

Slide

Separate confidential files from general files

Types of general files

These files are considered to be 'general' and contain information that helps to clarify and address operational needs including:

- Expected arrivals and departures
- Timing of banqueting activities
- Expected VIP's
- Staff movements
- Updated information or facts
- Explanation of in-house promotions or menus

Slide 69

Slide No	Trainer Notes
69.	Class Activity – Discussion • What are other types of general files for different departments?

Slide

Separate confidential files from general files

Types of confidential files

- Staff personnel files
- Financial information
- Operational information
- Commercial in confidence

Slide 70

Slide No

Trainer Notes

70.

Class Activity – Discussion

- What are examples of files in these categories?

Slide

Staff personnel files

Personnel files

- Current employees in alphabetical order
- Personal information
- Testimonials
- Job applications
- Banking Details
- Medical information

Slide 71

Slide No	Trainer Notes
71.	Class Activity – Discussion & provide examples • Discuss confidential information contained within these files? • Who controls these files? • Who has access to these files?

Slide

Staff personnel files

Staff Procedures

- Personnel Procedures
- Conditions of Employment
- Contract of Employment
- Salary Information
- Induction
- Job descriptions
- Performance Appraisals
- Staff Training
- Leave

Slide 72

Slide No

Trainer Notes

72.

Activity – Discussion & provide examples

- Discuss confidential information contained within these files?
- Who controls these files?
- Who has access to these files?

Slide

Financial information

Types of financial information

- Budget
- Salaries
- Financial Statements
- Petty Cash
- Auditor's Statements
- Tax
- Strategies
- Bank
- Debtors
- Bookkeeping

Slide 73

Slide No	Trainer Notes
73.	Class Activity – Discussion & provide examples • Discuss confidential information contained within these files? • Who controls these files? • Who has access to these files?

Slide

Operational information

Types of operational information

- Arrivals Report, Arrivals List
- Departures Report, Departures List
- No Show Report
- Room Status Report
- Special Requests Report
- Occupancy Forecast Report
- Average Room Rates Report

Slide 74

Slide No

Trainer Notes

74.

Class Activity – Discussion & provide examples

- Discuss confidential information contained within these files?
- Who controls these files?
- Who has access to these files?

Slide

Operational information

Types of operational information

- Multiple or Double Room Occupancy Report
- Guest List by Name Report
- Guest List by Room Report
- Travel Agents' Commission Report
- Special Packages Report
- Market Segment Report
- Rooms Out of Order Report

Slide 75

Slide No	Trainer Notes
75.	Class Activity – Discussion & provide examples • Discuss confidential information contained within these files? • Who controls these files? • Who has access to these files?

Slide

Operational information

Types of operational information

- Daily Room Revenue Summary Report
- Daily Revenue Summary Report
- Weekly Trading Summary Report
- Monthly Trading Summary
- Year-to-Date Report
- In-house Activity Report

Slide 76

Slide No

Trainer Notes

76.

Class Activity – Discussion & provide examples

- Discuss confidential information contained within these files?
- Who controls these files?
- Who has access to these files?

Slide

Commercial in confidence

There are also other types of information that are commonly not for public viewing.

Some of these include, but certainly not limited to:

- Ownership Agreements
- Management Agreements
- Trademark information
- Strategic information
- Contracts
- Recipes
- Business proposals

Slide 77

Slide No	Trainer Notes
77.	Class Activity – Discussion & provide examples • Discuss confidential information contained within these files? • Who controls these files? • Who has access to these files?

Slide

Authorised access

It is important that an authorisation system, including the physical distribution of documents and access to filing cabinets is established.

Security considerations include:

- Keep office doors locked from the inside to protect against entry by unauthorised staff and members of the public
- Don't leave paperwork, documentation and records lying around where they may be visible to others
- Keep 'private' and 'confidential' files locked

Slide 78

Slide No

Trainer Notes

78.

Class Activity – Discussion

- What else can you do to improve authorisation of information?

Slide

Monitor security systems

Methods to trace and secure files

- Check file movement recording documentation
- Follow up with staff deemed to have files at regular intervals to list on a file census form all the files held by that person
- Keep a centralised record of file movements
- Conduct a physical stock take of files in specific locations

Slide 79

Slide No	Trainer Notes
79.	Class Activity – Discussion • What else can you do to trace and secure files?

Slide

Monitor security systems

Methods to trace and secure files

- Issue and sign in important documents at the start and end of shift
- Ask security to conduct locker or bag searches where highly sensitive information is not permitted to leave the premises

Slide 80

Slide No

Trainer Notes

80.

Class Activity – Discussion

- What else can you do to trace and secure files?

Recommended training equipment

- Archiving policies and procedures
- Communication documents used in workplace
- Folders
- Filing cabinet
- Filing systems
- Observation checklists
- Records Management Guidelines
- Standard Operating Procedures (SOP's).

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Set Up Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.

Appendix – ASEAN acronyms

AADCP	ASEAN – Australia Development Cooperation Program.
ACCSTP	ASEAN Common Competency Standards for Tourism Professionals.
