The Association of Southeast Asian Nations (ASEAN) was established on 8 August 1967. The Member States of the Association are Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, Singapore, Thailand and Viet Nam.

The ASEAN Secretariat is based in Jakarta, Indonesia.

General Information on ASEAN appears online at the ASEAN Website: www.asean.org.

All text is produced by William Angliss Institute of TAFE for the ASEAN Project on "Toolbox Development for Front Office, Food and Beverage Services and Food Production Divisions".

This publication is supported by the Australian Government's aid program through the ASEAN-Australia Development Cooperation Program Phase II (AADCP II).

Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: DESIGN AND ESTABLISH A TRAINING SYSTEM		NOMINAL HOURS: 100
UNIT NUMBER: D2.TRD.CL8.05		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to design and establish a training system within a workplace context.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Determine the features of a workplace training system 1.1 Identify key <i>operational features</i> and <i>constraints of the workplace training system</i> 1.2 <i>Research enterprise requirements</i> in relation to the workplace training system 1.3 Identify the <i>legal and other requirements</i> that apply to the establishment and operation of the workplace training system 1.4 Document and <i>verify identified operational features and constraints</i> of the workplace training system 1.5 <i>Establish and maintain relationships</i> with <i>key stakeholders</i> 1.6 Identify the <i>resources available</i> to support the identified workplace training system requirements		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that seek to establish and operate their own workplace-based training system within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation <i>Operational features</i> may include: • Purpose of the training and relevant outcomes • Scope of the training system • Establishing minimum requirements for competencies and certification of trainers and/or assessors, where appropriate • Record keeping system requirements including procedures and policies, and the development of supporting documentation

Element 2: Align workplace training needs with required resources 2.1 Match <i>human resources</i> to identified workplace training needs 2.2 Match <i>physical resources</i> to identified workplace training needs 2.3 Match <i>financial resources</i> to identified workplace training needs 2.4 Identify <i>external funding sources</i> for the workplace training system 2.5 Prepare a <i>budget</i> for the workplace training system 2.6 Obtain <i>management commitment</i> to the workplace training system 2.7 Identify <i>sources of provision</i> for workplace training materials and delivery	• Training context requirements including procedures to match identified competencies with designated training • Characteristics of training participants • Allowable adjustments to training methods for participants including language, literacy and numeracy • Legislated requirements of the host country, in relation to employment, workplace safety, workplace licensing requirements and equal opportunity, where applicable • Arrangements, where applicable, for recognition of competencies including requirements to enable in-house training provision to be recognised by external training and other industry bodies • Location of training including in-house and external provision • Partnership arrangements • Review and evaluation processes • Allocation of fees and costs, where applicable • Promotion of the training system to participants and potential users:
Element 3: Develop workplace training system documents 3.1 Develop training <i>policies and procedures</i> to support implementation and operation of the workplace training system 3.2 Identify <i>record keeping requirements</i> within the identified workplace training system 3.3 Produce <i>operational training system forms</i> to support and record workplace training delivery	<i>Constraints of the workplace training system</i> may include: • Time available for training including the location of time within the operational context and staffing rosters of the business • Relative cost implications including cost-benefit-analysis of not undertaking training, opportunity costs, identified potential returns on investment in training, direct and indirect costs that apply • Budgetary considerations including cash flow concerns, total cost, available funds and the potential for external grants to supplement internal funding • Geographical issues including identification of the impact of distance from external providers on the capacity to deliver/provide required training

Element 4: Establish procedures for the review of the workplace training system 4.1 Identify the <i>elements of the workplace training system to be reviewed</i> 4.2 Determine the <i>frequency for reviewing</i> identified elements within the workplace training system 4.3 Allocate <i>responsibility for implementing identified reviews</i> of the workplace training system 4.4 Describe the <i>procedures to be used in the review of the workplace training system</i> 4.5 Document approved procedures for review of the workplace training system 4.6 Obtain management commitment to implement required changes to the workplace training system Element 5: Prepare to implement the workplace training system 5.1 Develop an <i>implementation plan for the training system</i> 5.2 <i>Prepare trainers and assessors in accordance with identified need Prepare training programs</i> to provide identified training 5.3 Obtain <i>resources to support training delivery</i>	- Resources issues, such as evaluation of existing supporting resources including programs and materials and the need to acquire additional resources to underpin training delivery - Availability of appropriate staff including qualified trainers, staff with relevant expertise, staff with aspirations to become involved in training, external trainers. <i>Research enterprise requirements</i> may include: - Undertaking qualitative and quantitative research - Undertaking a situation analysis to determine the Strengths, Weaknesses, Opportunities and Threats (SWOT analysis) that apply - Analysing market trends - Identifying licensing requirements - Reviewing job descriptions and other similar internal documents - Meeting with other organisations that have an established and effective training system - Consulting with clients and potential clients - Reviewing the outcomes of previous organisational training needs analyses (TNAS) and skills audit reports - Reading industry or other research reports to identify trends, new developments, technological changes, organisation work changes and global developments. <i>Legal and other requirements</i> may include: - An absence of legal requirements for organisations that intend to operate as an unrecognised training provider - Compliance with licensing requirements including user requirements relating to third party training systems, materials and products - Compliance with training requirements contained in relevant employment contracts - Requirements set by professional industry bodies in relation to the initial training of employees and the maintenance of skill and knowledge levels and standards.
---	---

5.4 <i>Recruit participants for training</i> Element 6: Establish quality assurance procedures for the workplace training system 6.1 <i>Establish a quality assurance group</i> 6.2 <i>Document draft verification processes that the quality assurance group will undertake</i> 6.3 <i>Trial the draft quality assurance procedures</i> 5.5 <i>Advise trainers in relation to established and confirmed quality assurance procedures</i>	<i>Verify identified operational features and constraints</i> may include: • Consulting with key stakeholders. <i>Establish and maintain relationships</i> may include: • Conducting structured interviews • Holding regular and scheduled team meetings • Using focus groups • Designing and applying questionnaires • Capitalising on informal and social interactions – including networking opportunities. <i>Key stakeholders</i> may include: • Industry, professional and trade associations and bodies • Qualified trainers and assessors • Team leaders, supervisors and managers • Training participants and employees – past and present • Technical experts • Union representatives • Consultative committees within the business • Relevant industry training providers and associated training agencies • Conducting workshops • Using electronic communication. <i>Resources available</i> refers to: • Human resources • Physical resources
---	---

	• Financial resources. <i>Human resources:</i> • Trainers • Assessors • Support/office staff. <i>Physical resources refers to:</i> • Training materials • Consumables • Equipment necessary for training delivery. <i>Financial resources refers to:</i> • Funds for trainers • Training delivery and assessment • Travel and accommodation, where applicable • Training materials and equipment • Back-filling of staff who are attending training • Payment for staff who are attending training out-of-hours • Money to supplement remuneration when nominated competencies have been achieved. <i>External funding sources may include:</i> • Other departments within the same organisation • Head office • Sub-agencies • Suppliers, providers, carriers or destination operators
--	--

	• Government agencies • One-off grants available to support targeted training • On-going subsidies available to encourage the uptake of apprenticeships and traineeships • Occasional funding made available through industry bodies. <i>Budget may include:</i> • Development costs including costs involved in establishing training facilities and a training infrastructure, training trainers and assessors, obtaining resources • Implementation costs including staffing costs, and consumables • Maintenance costs including costs associated with updating training content, reviewing training delivery, introducing training in accordance with emerging need, delivering refresher training. <i>Management commitment must include:</i> • Financial commitment to the initiative • Preparedness to speak in support of training within the organisation and encourage staff participation • Willingness to promote staff based on competency • Willingness to promote trained staff from within the organisation as opposed to recruiting new staff to fill positions • Consideration of a reward and recognition scheme. <i>Sources of provision may include:</i> • Existing informal training unit within the organisation or workplace • Outsourcing including the use of private and public registered training providers, and consideration of the organisational culture costs associated with using external providers as opposed to internal delivery
--	--

	• Commercially available training products and materials including customised products available on a fee-for-service basis • Product suppliers • Industry peak bodies • Government agencies. <i>Policies and procedures may relate to:</i> • The purpose(s) of training • A framework for the provision of training and assessment • Continuous improvement • Industrial relations issues • Eligibility for training • Criteria for determining competency • Transparency in all matters relating to training and assessment • Complaints, appeals and grievances processes • Roles and responsibilities of training staff • Commitment to quality and consistency in training provision • Training administration and record keeping requirements • Validation of training content including reviews and revisions, evaluations and audits • Applicable timelines for commencement and completion of designated training. <i>Record keeping requirements</i> can be electronic or paper-based and may include: • Compliance with internal organisational requirements • Ease of tracking participant progress in training and individual assessment results including recording the issuing of statements and/or certificates, as appropriate • Recording attendance at training sessions
--	--

	• Ease of use including requirements relating to updating, storing, retrieving, archiving and administering the records • Confidentiality and privacy requirements • Security of the records within the system • Indicating money spent on training-related activities including requisitions, order forms and wage costs • Compliance with quality assurance requirements, where applicable. <i>Operational training system forms may include:</i> • Application forms • Time-table pro formas • Training evaluation forms • Training rolls • Internal audit forms • Training information including training topic and course descriptions. <i>Elements of the workplace training system to be reviewed may include:</i> • Policies and procedures • Forms and documentation • Training delivery • Content of the training courses • Training resources • Assessment practices • Available infrastructure to support training • Training outcomes including evaluation of results and identification of problem areas
--	--

	• Benefits delivered to the organisation as a result of training being undertaken. <i>Frequency for reviewing may include:</i> • At the completion of individual units • At the completion of courses • When participants complete identified training • At a designated time, such as every six months, or annually • Undertaking reviews when there are workplace changes that necessitate such a review including introduction of new equipment, changes to work practices, newly imposed legislated or other compliance requirements • In response to workplace accidents, wastage, near misses, identified risk, legal action or other situations that can be effectively addressed by changes to training. <i>Responsibility for implementing identified reviews may include:</i> • Trainers • Assessors • Support staff • Management. <i>Procedures to be used in the review of the workplace training system may include:</i> • Analysis of materials and resources • Comparisons of training content with current workplace practices and equipment used • Analysis of participant evaluation forms • Interviews with current and past participants • Evaluating improvements to identified workplace criteria including reduction in wastage and accidents, improvements in productivity and service levels
--	--

	• Observation of trainers and training practices • Analysis of training-related feedback including complaints, grievances, awards received • Meeting with key stakeholders to determine their level of satisfaction with training provision. <i>Implementation plan for the workplace training system</i> may include strategies that relate to: • Introduction and promotion of the training system • Development of an implementation action plan including identification of timelines, targets, funding, underpinning resources and responsibilities • Establishment of the training environment within the workplace, where necessary. <i>Prepare trainers and assessors</i> may include: • Identifying internal personnel with the qualifications, experience, ability or potential to function as trainers and assessors • Confirming availability of identified personnel and the ability of the organisation to release them from other duties to undertake training and assessing roles • Engaging external fully-qualified and appropriately experienced staff where there is no viable in-house option • Providing the necessary training for identified staff including consideration of accredited training and assessment credentials, and/or in-house alternatives. <i>Prepare training programs</i> may include: • Ensuring training matches identified competency requirements where these exist including the development of competency standards where they do not exist • Identifying training need for individual participants • Designing the program including sequencing of content, time allocations, identification of competencies combined into training units/modules, selecting learning activities, determining assessment to be undertaken.
--	--

	<i>Resources to support training delivery</i> may include: • Notes, manuals and literature including commercially available materials and materials produced in-house • Videos, DVDs and computer-based e-learning materials • Posters • Equipment • Consumables • Exercises, drills, practice sheets, case studies, projects and assignments. <i>Recruit participants</i> may include: • Inviting workers to participate in the training • Mandating participation in training including identification of individual competencies that are required by nominated individuals • Holding information sessions • Seeking input from supervisors about individual training needs for their staff • Reviewing existing certificates, qualifications, licenses of staff to identify the need for initial and/or refresher training • Notifying staff in advance regarding their obligation to attend training including identification of locations, times, duration and training topic/content. <i>Establish a quality assurance group</i> may include: • Identifying participants • Explaining the role of quality assurance within the training system • Allocating responsibilities to group members • Providing training in the application of quality assurance procedures
--	--

	• Supplying necessary support to allow the effective functioning of the quality assurance group • Seeking external assistance with quality assurance requirements. <i>Document draft verification processes may include:</i> • Seeking input from key stakeholders • Utilising existing processes from external third party providers • Generating enterprise specific processes in accordance with identified workplace need • Validating the quality assurance processes and confirming their applicability to individual workplace need • Supplying members of the quality assurance group with copies of the established processes • Notifying other key stakeholders, as appropriate. <i>Trial the draft quality assurance procedures may include:</i> • Evaluating fairness provisions for access and participation in training • Testing efficiency of the system • Testing effectiveness of the system • Revising draft quality assurance procedures as necessary on the basis of feedback and trial implementation. <i>Quality assurance procedures may include:</i> • Conduct of regular evaluations, reviews and audits • Mandatory professional development requirements for trainers and assessors • Sampling and evaluation of training staff competencies including training-related competencies and workplace operational competencies
--	---

- Modifications to the training system based on evaluations, reviews and audits
- Promotion of networking amongst trainers and assessors.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Knowledge of enterprise policies and procedures in regard to training and assessment
- Knowledge of principles of training and assessment
- Knowledge of host country legislation and requirements in relation to provision of accredited and non-accredited vocational training including equal opportunity and relevant industrial relations legislation
- Knowledge of quality assurance principles and practices
- Ability to identify training needs and develop complementary training materials including training programs and resources
- Ability to use planning, research, communication, negotiation, evaluation, analytical and influencing skills
- Knowledge of the legislated and enterprise requirements in relation to privacy and confidentiality
- Knowledge of continuous improvement techniques
- Knowledge of the benefits and costs that attach to the provision of in-house training.

Linkages To Other Units

- Develop and implement a business plan
- Produce documents, reports and worksheets on a computer
- Maintain a paper-based filing and retrieval system
- Manage and implement small projects
- Plan and establish systems and procedures

	• Develop and implement operational policies • Evaluate the effectiveness of an assessment system • Manage an assessment system for training outcomes • Monitor and evaluate the effectiveness of training outcomes • Plan and implement a series of training events • Prepare and deliver training sessions • Recruit and select staff • Roster staff • Manage contractual agreements/commitments • Analyse competency requirements • Develop assessment tools and procedures • Implement, monitor and evaluate a training and development program • Plan and promote training courses • Review training outcomes • Prepare and monitor budgets. Critical Aspects of Assessment Evidence of the following is essential: • Understanding of host enterprise policies and procedures in regard to workplace training and assessment • Demonstrated ability to design and prepare comprehensive and viable implementation plan(s) for a workplace training system for a real or simulated organisation including: ▪ Identification of key operational features and constraints including scope and purpose of the training system ▪ Identification of the key stakeholders
--	--

- Identification of the human, financial and physical resources required to establish and maintain the system
- Identification of potential external funding sources, and sources of training delivery and materials
- Written policies and procedures to underpin effective implementation of the system
- Identification of training forms required including at least two sample documents
- Identification of the requirements to be applied to review the training system
- Identification of training to be delivered including specification of a sample range of competencies and programs
- Identification of training resources necessary to support the delivery of an identified training program/unit
- Identification of procedures to encourage staff participation in training
- Written quality assurance procedures applicable to the training system.

Context of Assessment

This unit may be assessed on or off the job:

- Assessment should include practical demonstration of designing and establishing a training system either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge
- Assessment must relate to the individual's work area or area of responsibility.

Resource Implications

Training and assessment to include access to a real or simulated workplace and training materials; and access to workplace standards, procedures, policies, guidelines, tools and equipment.

	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Analysis of a portfolio of documents produced by the candidate • Evaluation of the practicality of implementing the plans provided by the candidate • Case studies • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work.		
	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	3	Determine structure of the training system to be implemented
	Communicating ideas and information	2	Inform trainers and assessors in relation to training requirements
	Planning and organising activities	3	Determine actions to identify training system requirements
	Working with others and in teams	2	Liaise with key stakeholders to establish and maintain the training system

	Using mathematical ideas and techniques	3	Evaluate outcomes of the training system
	Solving problems	2	Obtain resources to enable implementation of the training system
	Using technology	2	Use software programs to manage the operation of the training system

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Design and establish a training system D2.TRD.CL8.05
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. Explain a situation where you have identified the key operational features and constraints of a workplace training system.	☐	☐
2. Tell me of a situation when you researched enterprise requirements in relation to the workplace training system.	☐	☐

Questions	Response	
	PC	NYC
3. Use an example to illustrate the legal and other requirements that applied to the establishment and operation of a workplace training system.	☐	☐
4. Give me an example of what you did in an actual workplace to document and verify identified operational features and constraints of the workplace training system.	☐	☐
5. In a situation where you determined the features of a workplace training system what did you do to establish and maintain relationships with key stakeholders?	☐	☐

Questions	Response	
	PC	NYC
6. Illustrate with reference to an example what you did to identify the resources available to support the requirements of an identified workplace training system.	☐	☐
7. What was involved in documenting the identified features and requirements of a workplace training system you developed?	☐	☐
8. Describe what you did to verify with key stakeholders the features and requirements of a workplace training system you developed.	☐	☐

Questions	Response	
	PC	NYC
9. Use an example to illustrate how you matched human, physical and financial resources to identified workplace training needs for a training system you developed.	☐	☐
10. Explain how you identified external funding sources for the workplace training system you developed.	☐	☐
11. Tell me what you did to prepare a budget for a workplace training system you developed.	☐	☐

Questions	Response	
	PC	NYC
12. What did you do to obtain management commitment to the workplace training system you developed?	☐	☐
13. Name a workplace training system you developed and tell me how you identified sources of provision for workplace training materials and delivery for that system.	☐	☐
14. Describe a situation where you produced training policies and procedures to support implementation and operation of a workplace training system you developed.	☐	☐

Questions	Response	
	PC	NYC
15. How did you identify the record keeping requirements within a workplace training system you developed?	☐	☐
16. Describe what you did to develop operational training system forms to support and record a workplace training delivery you developed.	☐	☐
17. How did you determine the focus, frequency, roles and responsibilities for reviewing the workplace training system you developed?	☐	☐

Questions	Response	
	PC	NYC
18. How have you described and documented procedures to be used in the review process of a workplace training system you developed?	☐	☐
19. What was involved in obtaining management commitment to implement required changes to a workplace training system you developed and reviewed?	☐	☐
20. How did you develop an implementation plan for a workplace training system you developed? What was in it?	☐	☐

21. Use an example to describe what you did to prepare trainers/assessors and programs ready to implement workplace training to meet identified need within a workplace training system you developed.	☐	☐
22. For the example used in your answer to the previous question what did you to obtain resources to support training delivery and to recruit participants for training?	☐	☐
23. Explain what you did to establish a QA group for a workplace training system you developed.	☐	☐
24. Describe what you did to draft and trial relevant QA procedures for a workplace training system you developed.	☐	☐

25. In relation to the answer to the last question how did you advise trainers in relation to established and confirmed quality assurance procedures?

Written questions

Design and establish a training system – D2.TRD.CL8.05

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. Name six operational features which will help determine the features of a workplace training system.

2. Give six examples of operational constraints which may impact the design and establishment of a workplace training system.

3. What type of analysis might be applied to identify/determine internal factors impacting the design and establishment of a workplace training system?

4. What factors does a STEEPLE analysis address?

5. List four considerations which may be taken into account when analysing market trends as part of the process of researching requirements for a workplace training system.

6. Describe four activities which may be involved in reviewing job-related documentation as part of the process of researching requirements for a workplace training system.

7. List the three primary methods to apply when seeking to identify the legal and other requirements which apply to the establishment and operation of the workplace training system.

8. Describe four practical aspects in the process of verifying the identified operational features and constraints of a proposed workplace training system.

9. Give four reasons it is necessary and important to document all the agreed features and constraints applying to the design of a proposed workplace training system.

10. Identify six possible stakeholders in the design and establishment of a workplace training system.

11. List six techniques which should be used to establish and maintain relationships with stakeholders when developing a workplace training system.

12. Identify six examples of human resources that may be required to operate a workplace training system.

13. List four examples of training and assessment resources which may be required to support operation of a workplace training system.

14. Describe four considerations when making decisions to match human resources to identified workplace training needs.

15. What are the three generic classifications of physical resources required to support a workplace training system?

16. Describe four considerations when making decisions to match physical resources to identified workplace training needs.

17. Describe four considerations when making decisions to match financial resources to identified workplace training needs.

18. List six possible sources for external funding to enable/support the operation of a workplace training system.

19. Name six topics which need to be taken into account when initially preparing budgets for the proposal to establish a workplace training system.

20. Identify the three main classifications of costs which must be considered when establishing expenditure budgets for a proposed workplace training system.

21. Name four considerations and activities inherent in obtaining management commitment to implementation and operation of a workplace training system.

22. List six possible sources for the provision of workplace training and/or assessment materials.

23. Identify six characteristics of workplace policies.

24. Identify six characteristics of workplace procedures.

25. Name and identify the contents of one policy commonly used in relation to the operation of a workplace training system.

26. Name four standard record keeping requirements in relation to a workplace training system.

27. List four reasons a workplace training system needs to maintain training/assessment-related records.

28. List six ways a workplace training system can **acquire** required training and assessment records and forms.

29. Name twelve (12) records and/or forms which may need to be established and/or maintained in a workplace training system.

30. Name six reasons a workplace training system needs to be reviewed.

31. Identify six elements which might be addressed when reviewing a workplace training system.

32. List six options for the timing of reviews to a workplace training system.

33. Identify four classifications of persons from **within** the organisation who may have responsibilities allocated to them in relation to reviews of the workplace training system.

34. Identify four classifications of persons from **outside** the organisation who may be involved in relation to reviews of a workplace training system.

35. Give two ways those who have responsibilities allocated to them for the review of a workplace training system may be notified of their role/responsibilities.

36. When evaluating training and assessment items as part of a review of a training system, identify four aspects which should be considered/addressed.

37. When analysing training content as part of a review of a training system, identify four aspects which should be considered/addressed.

38. When analysing operational data as part of a review of a training system, identify three activities which may be required.

39. What are the three actions inherent in undertaking 'observation' as part of a review of a training system?

40. Give four reasons procedures to be used in the review process must be documented.

41. List three options for sharing approved review procedures for the workplace training system with those who need to implement them.

42. Detail three points which will need to be considered in relation to gaining management approval to implement changes to a workplace training system.

43. Describe three activities which may need to be undertaken in order to obtain management approval and commitment to implement changes to a workplace training system.

44. List reasons a formal, written implementation plan should be developed to introduce a workplace training system into a workplace.

45. Nominate one objective which might be contained in an implementation plan to initiate a workplace training system and detail the activities/requirements which may need to be addressed.

46. Give four reasons trainers and assessors must be prepared in accordance with identified need as part of an implementation plan to initiate a workplace training system.

47. Detail four items which may be part of the activities required to prepare trainers and assessors for their roles in a workplace training system.

48. List four factors which provide the basis for developing effective workplace training programs.

49. Identify six activities involved in preparing training programs.

50. Name six considerations which need to be taken into account when selecting training methods/strategies.

51. Identify six options for training delivery methods.

52. What are the four CBA recognised 'Principles of Assessment'?

53. What are the four CBA required 'Rules of Evidence'?

54. Identify two options for assessing workplace skills.

55. Name four important considerations when obtaining resources for training.

56. Give six options for acquiring training resources.

57. Identify four activities which may be involved in the recruitment of participants/employees for the workplace training system.

58. What are the three principles of an effective Quality Management System?

59. Identify four activities involved in establishing a Quality Management group.

60. Name six positions that may be part of the Quality Management group for an organisation with a training system that is not recognised or accredited.

61. Identify four roles of the Quality Management group for a workplace training system.

62. Identify and detail the contents of one quality assurance verification process.

63. Identify six practical activities involved in preparing draft quality assurance procedures.

64. Identify six activities involved in trialling draft quality assurance procedures.

65. Name six reasons there is a need to advise trainers and assessors regarding QA processes that will be used in a workplace training system.

66. Describe three ways to advise trainers and assessors regarding established and confirmed QA/QMS processes to be used in a workplace training system.

Answers to written questions

Design and establish a training system – D2.TRD.CL8.05

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

- 1. Name six operational features which will help determine the features of a workplace training system.**
 - Purpose of and identified outcomes for the training
 - Scope of the training system
 - Minimum requirements for training system staff
 - Record keeping requirements
 - Characteristics of training participants
 - Legislated requirements
 - Allocation of fees and costs
 - Review and evaluation processes
 - Promotion of the training system.
- 2. Give six examples of operational constraints which may impact the design and establishment of a workplace training system.**
 - Time available for training
 - Budgetary considerations
 - Ancillary cost constraints
 - Geographical issues
 - Physical resources limits
 - Availability of appropriate staff
 - Unrealistic management expectations.
- 3. What type of analysis might be applied to identify/determine internal factors impacting the design and establishment of a workplace training system?**
 - Qualitative and quantitative
 - SWOT
 - SLEPT
 - PESTEL
 - STEEPLE.

4. What factors does a STEEPLE analysis address?

- Social factors
- Technological factors
- Economic factors
- Environmental factors
- Political factors
- Legal factors
- Ethical factors.

5. List four considerations which may be taken into account when analysing market trends as part of the process of researching requirements for a workplace training system.

- Looking at the employment market to try to identify areas/jobs where there is a lack of suitably qualified and experienced staff
- Reviewing the employment/unemployment rates for the catchment area from which employees are traditionally sourced
- Determining the roles and positions that ATOs/RTOs are currently providing suitable and sufficient training for – and for which, therefore, there is less need to provide workplace training
- Attempting to predict the future
- Considering the changing nature of relevant issues.

6. Describe four activities which may be involved in reviewing job-related documentation as part of the process of researching requirements for a workplace training system.

- Observing work undertaken in the workplace and updating job descriptions and specifications to reflect what is actually taking place – to ensure they are relevant to current need
- Producing job descriptions and specifications for positions where none exist and there appears to be a need for workplace training
- Reading and becoming conversant with all the requirements as they apply to the positions for which training is required
- Reviewing staff performance appraisal reports produced by management/supervisors
- Reading 'Requests for Training' received from management and employees
- Reading descriptions and other similar internal documents
- Reviewing the outcomes of previous organisational work-related analyses and which have been previously undertaken – these may include:
 - TNAs
 - Skills audit reports

- Analysing the content of current any training content being provided to workers – whether delivered by the organisation or by a third party provider in order to determine its applicability/relevance.

7. List the three primary methods to apply when seeking to identify the legal and other requirements which apply to the establishment and operation of the workplace training system.

- Talk to people who operate their own workplace training system – to learn from their experience and obtain tips and advice from them.
- Meet with government officials who represent the vocational training sector of the country
- Read all the materials provided by the government officials who represent the vocational training sector of the country.

8. Describe four practical aspects in the process of verifying the identified operational features and constraints of a proposed workplace training system.

- Meeting with the research team
- Consulting with key stakeholders
- Re-calculating figures – which will relate to:
 - Costs
 - Budgets
 - ROI
 - Investment of time
 - Resource acquisition and development
- Running a last cost-benefit analysis of the intended proposal – to:
 - Demonstrate the modelling for the final proposal
 - Finalise due diligence requirements
- Ensuring completeness of facts and information
- Comparing proposed course of action with actions taken by other similar business – to:
 - Prove the worth and value of the proposal
 - Corroborate the planned decision
- Getting final approval from key stakeholders and management/business owners – in terms of them 'signing off' they agree with the identified features and constraints which have been documented.

9. Give four reasons it is necessary and important to document all the agreed features and constraints applying to the design of a proposed workplace training system.

- There is a firm and definite reference point for future use – as opposed to relying on personal memories and recollections of events, promises, data and so on
- There is a record (or proof) of work/research that has been undertaken – to justify the time and expense spent on this phase of the project
- Due diligence can be demonstrated – as an integral part of the design and development stage
- The information can be quickly and efficiently shared – between those who need to view the material
- Rationales behind decisions made can be understood at a later time – if the need to re-visit/analyse previous reasons for arriving at certain conclusions
- Copies of documents, reports, statistics, forms and other paperwork captured as part of the research process can be placed on record/filed for future use – such as in activities including:
 - Making applications for registration
 - Preparing business cases, proposals and plans
 - Establishing management and administration structures for the initiative
 - Developing required operational protocols.

10. Identify six possible stakeholders in the design and establishment of a workplace training system.

- Business owners
- The Board of Management within the organisation
- Industry, professional and trade associations and bodies
- Qualified trainers and assessors
- Team leaders, supervisors and managers
- Training participants and employees – past and present
- Technical experts
- Union representatives
- Consultative committees within the business
- Relevant industry training providers and associated training agencies.

11. List six techniques which should be used to establish and maintain relationships with stakeholders when developing a workplace training system.

- Demonstrate a positive attitude and willingness towards stakeholders
- Request meetings
- Follow up requests for meetings with face-to-face contact
- Get to know each person/organisation
- Plan for the contacts
- Work in an ethical manner
- Communicate effectively when liaising/meeting
- Assist them in whatever way the organisation is able – as well as seeking to simply benefit from the relationship.
- Asking stakeholders to participate in a range of meetings and activities designed to produce information and advice relevant to the design and development of the training system
- Thank them for what they do
- Keep in contact.

12. Identify six examples of human resources that may be required to operate a workplace training system,

- Trainers
- Assessors
- Guest speakers
- External professionals/consultants who may be required to assist with training provision or assessment tasks
- Course developers
- Resource writers
- Administration support – to:
 - Maintain required records
 - Undertake traditional office-related functions.

13. List four examples of training and assessment resources which may be required to support operation of a workplace training system.

- Notes and handouts
- Texts, manuals and reference books
- Exercise books
- Rolls/attendance registers
- Consumables
- Assessment items.

14. Describe four considerations when making decisions to match human resources to identified workplace training needs.

- Specifying the experience and expertise required by those who will be trainers and assessors
- Working out the training and/or assessment qualifications required by those who will be doing the training and assessing
- Determining the ratio of learners to trainers and candidates for assessment to assessors
- Identifying the length of training sessions
- Determining the amount of time (number of hours per week) trainers can spend actually delivering training
- Engaging suitable and sufficient trainers and assessors
- Allowing sufficient lead time
- Ensuring appropriate administration support.

15. What are the three generic classifications of physical resources required to support a workplace training system?

- Training materials – notes, texts, handouts, slides, overhead projection sheets, text books, manuals
- Consumables – paper, chalk, printer/toner cartridges, disks, whiteboard markers, overhead projector pens
- Equipment necessary for training delivery – tables, chairs, desks, data projector, computers, photocopier, printer.

16. Describe four considerations when making decisions to match physical resources to identified workplace training needs.

- These resources must be sufficient in number
- Resources used must reflect actual workplace practice
- All items must be safe to use
- Session plans for each session (training and assessment) should contain:
 - Details of content/what is to be achieved
 - List of the type physical resources required to achieve the planned objective/s
 - Quantities required for every identified resource
- If special needs learners are being trained or assessed there must be resources to meet their individual needs
- It may be possible to acquire physical resources for the purposes of training and/or assessment in other ways other than purchasing them outright.

17. Describe four considerations when making decisions to match financial resources to identified workplace training needs.

- Funds to pay wages for trainers and assessors – who are employed as dedicated trainers and assessors
- Money to back-fill staff who are attending training – to:
 - Enable normal service levels to be maintained
 - Avoid placing extra/undue pressure on staff who do not attend training
- Payments for staff who are attending training out-of-hours – in accordance with:
 - Relevant employment instruments
 - Legislated requirements
 - Agreed/promised arrangements
- Money to pay for travel and accommodation, where applicable – such as:
 - For guest speakers who visit the workplace and provide specialist training and/or assessment services
 - For trainers and assessors to attend vocational seminars and other industry-focussed activities
 - For learners to attend remote sites for the purposes of excursions, external training and/or off-site assessments
- Payment in relation to training materials and equipment – which may involve:
 - Research and development of:
 - Training notes/handouts
 - Assessment items – tests, written exercises, verbal questions, practical demonstration of skill
 - Purchase or other acquisition of resources
 - Up-dating materials to maintain currency and address identified short-comings/deficiencies
- Money to support/enable training delivery and assessment – which can relate to:
 - Payment for consumables
 - Payment for incidentals
 - Money to implement requirements which are imposed by external audits and orders
 - Funds for replacement items where they are damaged through use in training and assessment
 - Need for additional items on the basis of increased demand on the workplace training and assessment system
 - Changes to demands on the system occurring as a result of alterations to legislation, codes to which the organisation subscribes and/or various training-related compliance requirements (for example, Quality Management, moderation) which apply

- Money to supplement additional remuneration to employees – in accordance with promises made when nominated competencies have been achieved.

18. List six possible sources for external funding to enable/support the operation of a workplace training system.

- Other departments within the organisation
- Head office
- Sub-agencies
- Suppliers, providers, carriers or destination operators
- Government agencies
- Occasional funding made available through industry bodies
- Learners.

19. Name six topics which need to be taken into account when initially preparing budgets for the proposal to establish a workplace training system.

- Access overall budgets and plans for the business – so the budgets for the training system can be put into a proper context against all other organisational budgets/financial obligations and goals
- Name likely or known income sources which have been identified as part of the research process – which will require development of revenue budgets
- Determine classification of expenditure budgets – to address expected costs for the initiative
- Use a team to develop draft budgets – comprising members of the research team, management and the Financial/Accounting department
- Obtain quotations and calculate costings for initial acquisition of plant, equipment, technology and physical resources
- Generate budget outcomes and figures which are achievable, accurate and comprehensive
- Integrate workplace training budgets into the suite of budgets already in existence within the business
- Prepare a budget manual – to explain the operations of the budgets
- Identify relevant budget lines and budget codes
- Develop procedures and systems to meet relevant statutory and internal control requirements
- Determine reporting protocols – for capturing and disseminating budget information and related reports
- Develop monitoring protocols and reviewing protocols – for assessing actual performance of budgets against estimated performance
- Explain and describe the operation of budgets to those with responsibility for them/for using them.

20. Identify the three main classifications of costs which must be considered when establishing expenditure budgets for a proposed workplace training system.

- Development costs
- Implementation costs
- Maintenance costs.

21. Name four considerations and activities inherent in obtaining management commitment to implementation and operation of a workplace training system

- Demonstrating to them the benefits which will flow from establishing and operating the system
- Highlighting disadvantages for the business of **not** proceeding with the initiative
- Considering a reward and recognition scheme applying to workers who participate in workplace training
- Making a formal presentation to the management team
- Gaining agreement from management they will support the proposal in practical ways within the organisation – by, for example:
 - Preparedness to speak in support of training within the organisation at various staff meetings
 - Encouraging staff participation with workplace training
 - Willingness to promote staff from within the based on competency gained via workplace training – as opposed to looking outside the organisation for new staff/people to promote
- Receiving advice from management relating to the request for approval – which may be verbal or in writing but will need to include:
 - Approval of and commitment to the initiative
 - Confirmation of their financial commitment to the initiative – stating the resources which will be provided/authorised
 - Statement advising of their commitment to the proposal
 - Directions to middle-level managers/supervisors to support the initiative and take necessary action to facilitate its implementation.

22. List six possible sources for the provision of workplace training and/or assessment materials.

- Existing informal training unit within the organisation or workplace
- Outsourcing
- Product suppliers
- Service providers
- Industry peak bodies
- Government agencies
- Training institutions
- Other workplaces.

23. Identify six characteristics of workplace policies.

- Represent the thinking/philosophy of the business
- Define the position of the organisation on issues which are covered by the policy
- Are developed before procedures
- State the intention and expectations of the organisation and staff in relation to the subject that is the title of the policy – they indicate what the organisation:
 - What the organisation wants to achieve
 - How the organisation will act in given situations, if/when they arise
- Are the rules the organisation seeks to operate by
- Give consistency in the way the organisation operates
- Contain a statement explaining the reason the policy has been prepared
- Provide guidance to employees about what the organisation wants – and how they should act to help achieve that outcome
- Identify responsibilities for taking action to achieve the desired outcomes
- Prescribe timing considerations relevant to the issue
- Resolve anticipated problems in relation to the policy topic
- Identify documentation to be used or completed in relation to the topic
- Contain information on legal and regulatory requirements the organisation must meet.

24. Identify six characteristics of workplace procedures.

- Flow from policies – and it is possible there can be multiple different procedures linked to the one policy
- Enable organisational plans and policies to be implemented
- Nominate whose responsibility it is to take the actions set out in the procedures
- Explain action to take to enable the intentions of policies to be attained
- Describe action to be taken in given situations/circumstances
- May contain steps in a process in sequential order
- Give consistency to action
- Avoid confusion of roles and responsibilities
- Help prevent operational mistakes
- Name documentation that needs to be completed as part of the process
- Identify other internal documents which provide additional information or support in relation to the action being taken.

25. Name and identify the contents of one policy commonly used in relation to the operation of a workplace training system.

No model answer – answer will depend on the policy selected by the candidate.

26. Name four standard record keeping requirements in relation to a workplace training system.

- They must be user-friendly/easy to use
- They must meet confidentiality standards
- They must be maintained in a secure manner
- They may have to be retained for a nominated period of time
- They may be electronic or paper-based.

27. List four reasons a workplace training system needs to maintain training/assessment-related records.

- Compliance with internal organisational requirements
- Compliance with externally-imposed requirements
- Recording attendance
- Tracking participant progress
- Indicating money spent
- Providing objective data for system analysis.

28. List six ways a workplace training system can acquire required training and assessment records and forms.

- Obtaining standard forms or templates from the national Training Authority – these are often available as online downloads or in hard copy versions
- Asking people in personal network of contacts for sample documents
- Seeking input from industry bodies and associations
- Purchasing pro forma documents from commercial providers who specialise in supplying business documentation and records
- Asking other workplaces for samples of their records
- Asking recognised training institutions for copies of records they use
- Searching online using searches targeted by individual record/document name.

29. Name twelve (12) records and/or forms which may need to be established and/or maintained in a workplace training system.

- Application forms – to enable/record:
 - Registrations of interest for training
 - Requests for assessment
- Time-table *pro formas*
- Training evaluation forms
- Training attendance rolls
- Internal audit forms
- Training information and advice for potential learners
- Learner and candidate profiles
- Competency standards
- Training plans and strategies
- Assessment plans and strategies
- Session plans
- Training materials – notes, handouts, texts, manuals
- Assessment items – tests, questions, case studies, directions for practical assessments
- Budgets
- Requisitions and/or order forms
- Checklists providing evidence health, safety and welfare issues have been addressed as part of the training/assessment process
- Maintenance requests
- Evidence relating to the expenditure of tagged grants or subsidies
- Internal and external audit reports
- Performance management records
- Disciplinary action records
- Completed applications made in relation to Complaints, Grievances and/or Appeals
- Fees paid – by those who pay to learn or be assessed
- Qualifications of trainers and assessors
- Agendas and Minutes of staff meetings
- Employee suggestions in relation to training delivery and/or future courses
- Logbooks and workbooks completed by learners
- Registration documents of the organisation as an accredited/recognised training provider, where applicable as required by the relevant Training Authority.

30. Name six reasons a workplace training system needs to be reviewed.

- Meet compliance requirements imposed by the national Training Authority
- Conform to internal review requirements contained in relevant policies
- Determine whether or not training and assessment being conducted is meeting intended and/or actual workplace need
- Calculate degree of alignment of projections for the system with actual achievements
- Work out changes (improvements, inclusions, deletions) that need to be made to the system
- Analyse the ROI/value-for-money represented by the system
- Identify financial cost of the initiative
- Decide whether or not to continue with the workplace training system – or whether an alternate option represents a better/more preferable choice.

31. Identify six elements which might be addressed when reviewing a workplace training system.

- Policies and procedures
- Forms and documentation
- Training delivery
- Assessment provision
- Available infrastructure to supplement training
- Training outcomes
- Benefits delivered to the organisation as a result of training being undertaken
- Cost of training and assessment provision.

32. List six options for the timing of reviews to a workplace training system.

- At the completion of individual units
- At the completion of courses
- When participants complete identified training
- In a cyclical manner
- At a designated time
- Following significant workplace change
- In response to workplace events.

33. Identify four classifications of persons from within the organisation who may have responsibilities allocated to them in relation to reviews of the workplace training system.

- Trainers
- Assessors
- Support/administration staff
- Learners and candidates – including:
 - Current participants
 - Past/those who have completed training and assessments
- Those who prepare rosters – and:
 - Allocate time for staff to attend training
 - Roster staff to back-fill staff who attend training/assessment
- Senior-level management of the organisation – possibly including the Board of Management and/or representatives (where applicable) from Head Office
- Supervisors of staff who have been trained and assessed
- Co-workers of staff who have been trained and assessed
- Internal customers of those who have been trained and assessed
- Cleaners – who clean, ready and prepare training rooms/areas.

34. Identify four classifications of persons from outside the organisation who may be involved in relation to reviews of a workplace training system.

- Consultants – who are employed specifically to undertake nominated reviews and/or aspects of certain reviews
- Resource writers – who have prepared learning materials and/or assessment items
- Officials – from the Training Authority, where the organisation:
 - Is a registered/recognised training provider
 - Has received funds/grants/subsidies from the government
- Representatives from organisations, bodies or other sources who have provided resources for the system
- Customers – who have been recipients of services provided by staff who have been trained and assessed by the system
- Other businesses the organisation deals with – and who interact with employees who have been trained and assessed by the system.

35. Give two ways those who have responsibilities allocated to them for the review of a workplace training system may be notified of their role/responsibilities.

- Distributing a hard or soft copy plan or list to individuals
- Verbally explaining requirements
- Providing relevant internal training.

36. When evaluating training and assessment items as part of a review of a training system, identify four aspects which should be considered/addressed.

- Currency
- Sufficiency
- Clarity
- Extent to which they meet individual and/or special needs
- Relevancy to actual/required workplace practice
- Utility.

37. When analysing training content as part of a review of a training system, identify four aspects which should be considered/addressed.

- Comparisons of training content with current workplace practices and equipment used – to verify workplace relevance and applicability
- Investigations to verify national competency standards (where used) are current versions – and they have not been superseded by a different version
- Improvements or changes which may have taken place in the industry with reference to aspects deemed relevant by the organisation – such as:
 - Best Practice innovations
 - Industry benchmarks
- Amendments made by the organisation in relation to the competency/competencies being reviewed – in terms of:
 - Criteria to be used
 - Standards to be achieved
- Sequencing of content – relating to:
 - Checking the order in which training topics are delivered
 - Verifying assessments occur sufficiently after training has occurred
- Weighting of content – with reference to:
 - Ensuring correct proportionality for important topics – and topics of lesser importance
 - Checking time and resources are allocated according to the priority of content/topics.

38. When analysing operational data as part of a review of a training system, identify three activities which may be required.

- Acquiring base line data – which provides the benchmark against which later data can be compared
- Obtaining and evaluating information relevant to the specific objectives/elements being considered – as prescribed for the individual review
- Drawing comparisons between:
 - Progress/achievements made
 - 'Actual' results as identified by the data and 'projected' outcomes as described in the plans/training proposals.

39. What are the three actions inherent in undertaking 'observation' as part of a review of a training system?

- Physically watching people – individuals or groups
- Using a checklist to record targeted data – as required in relation to the elements being covered by the review
- Recording action observed – for later playback and more detailed analysis.

40. Give four reasons procedures to be used in the review process must be documented.

- Facilitate communication of the required procedures – with the potentially wide range of participants
- Describe the elements of the system which need to be reviewed – as appropriate to individual reviews
- Ensure there is certainty amongst those who have been allocated responsibilities – about exactly what they are expected to do
- Allow challenges to be made to proposed procedures – and questions asked about the process
- Make sure there is consistency in the action taken – so all participants are 'on the same page' about what is required and what is seeking to be achieved
- Guarantee all required aspects/elements of the review are addressed
- Integrate the diversity of activities which need to be undertaken – so the review represents a cohesive/seamless 'whole'
- Provide proof all required aspects of the review have been addressed – so the review actually addresses all the identified elements for the review.

41. List three options for sharing approved review procedures for the workplace training system with those who need to implement them.

- Distributing hard copy information
- Verbally advising those involved
- Supplementing hard copy and verbal information – with:
 - Training; Demonstrations; Drills.

42. Detail three points which will need to be considered in relation to gaining management approval to implement changes to a workplace training system.

- Required changes issuing from certain sources will tend receive a more positive response from management
- Those requesting the changes need to fully understand what is required
- Management must be given sufficient advance notice of the need for change
- The application for management approval to proceed and the request for them to commit to the required changes needs to be planned.

43. Describe three activities which may need to be undertaken in order to obtain management approval and commitment to implement changes to a workplace training system.

- Provide copies of audit reports together with required changes – to prove the changes which are required
- Estimate costs associated with making the changes
- Describe and quantify consequences if the organisation elects not to proceed with making identified changes – so the potential downside is presented
- Run a cost-benefit analysis in relation to the changes – to show and quantify positive outcomes expected to flow from making the changes
- Make a personal presentation – to management/the Board in order to:
 - Describe the context and situation
 - Explain the proposed changes
 - Respond to questions
- Generate options – for making the required changes in an acceptable manner rather than just focussing on one/obvious approach or choice
- Undertake further research or reviews – to generate/capture more information or more relevant data as identified by management before they feel they are able to grant approval to implement
- Obtain definite authority to proceed
- Identify and/or be advised of resources available to enable required implementation – so the means to implement the changes have been allocated and authorised.

44. List reasons a formal, written implementation plan should be developed to introduce a workplace training system into a workplace.

- Planned workplace change has a greater chance of success – than unplanned changed
- The plan provides the platform for explaining the initiative and its introduction to employees – so they can better understand the initiative
- A written plan facilitates effective sharing of information – so everyone receives the same information
- Planning demonstrates professionalism and shows the initiative has been properly considered, thought through and prepared for
- The plan gives those with responsibilities under the plan details of what they are required to do
- Generating such a plan forces the proposers of the system to properly analyse the implementation of the system – and anticipate problems/difficulties so appropriate action to address and overcome them can be taken
- To ensure necessary resources to enable the implementation of the initiative can be identified – and action taken to obtain what is needed.

45. Nominate one objective which might be contained in an implementation plan to initiate a workplace training system and detail the activities/requirements which may need to be addressed.

- Promotion of the training system
- Development of formal protocols required to support the system
- Preparation of trainers and assessors
- Preparation of training programs
- Acquisition of resources to support training and assessment delivery
- Recruitment of participants
- Registration with the Training Authority as a recognised provider (where applicable)
- Establishment of the training environment within the workplace, where necessary.

46. Give four reasons trainers and assessors must be prepared in accordance with identified need as part of an implementation plan to initiate a workplace training system.

- Meet imposed requirements (where applicable) for trainers and assessors to:
 - Hold nominated vocational training and/or vocational assessment qualifications
 - Have the minimum mandated years of experience or nominated work experience
- Ensure proposed training and assessment program can be delivered – as planned
- Give learners and candidates (and other stakeholders) confidence in the outcomes which will be provided by the system
- Make sure they are aware of all applicable operational imperatives and/or constraints.

47. Detail four items which may be part of the activities required to prepare trainers and assessors for their roles in a workplace training system.

- Identifying suitable internal personnel
- Confirming availability of identified personnel
- Engaging external training and assessment personnel
- Providing the necessary training for identified internal staff
- Providing trainers and assessors with appropriate opportunities.

48. List four factors which provide the basis for developing effective workplace training programs.

- Competency standards provided by the relevant Training Authority – where the workplace training system is a recognised/accredited training provider
- Competencies, standards and criteria identified by the individual workplace
- Identified individual employee need
- Organisational need.

49. Identify six activities involved in preparing training programs.

- Reviewing existing/endorsed competency standards to be used
- Developing new competency standards necessary to meet internal requirements
- Designing the program
- Scheduling/preparing time-tables
- Developing training plans
- Developing assessments, assessment items and/or assessment plans
- Developing session plans

50. Name six considerations which need to be taken into account when selecting training methods/strategies.

- Should reflect any known learning preferences of the learners – this is ideally the case but often not possible
- Need to be appropriate to the content of the individual competency standard being presented
- Must enable delivery to occur within the known parameters – especially in relation to budget and time
- Should address and reflect the known assessment requirements for the competency standard – as discussed with the Assessor/s who will conduct assessments for the content
- Should introduce diversity into the training and help motivate learners – to help avoid learner boredom
- Must be able to be accommodate all the learners – and not just some/a selected few
- Have to reflect the availability of supporting physical resources
- Will often be selected to best fit with individual Trainer:
 - Personality
 - Preference for teaching methods.

51. Identify six options for training delivery methods.

- Demonstration
- Lecture
- Brainstorming
- Role plays
- Case study
- Group discussion
- Questioning
- Excursions/field trips
- Practice/drill.

52. What are the four CBA recognised ‘Principles of Assessment’?

- Fairness
- Flexibility
- Validity
- Reliability.

53. What are the four CBA required 'Rules of Evidence'?

- Validity
- Sufficiency
- Authenticity
- Currency.

54. Identify two options for assessing workplace skills.

- Real work – observation, using:
 - Checklists
 - Projects
 - Project teams
 - On-the-job practical tasks
- Simulated work/demonstrations – observation, using:
 - Checklists
 - Projects
 - Assignments
 - Role Plays
- Analysis/evaluation of finished products, items, documentation – produced by candidates.

55. Name four important considerations when obtaining resources for training.

- Host country legislation is obtained – where competency standards refer to legislation there is a need to obtain the legislation applicable to the country where the qualification/unit is being delivered
- Industry relevance – all forms, documentation, examples and samples must represent what is being used in the industry/organisation.
- 'Sufficient' resources are available – there will nearly always be some need for learners to share certain resources and this requirement needs to be factored into the session plans which are developed but there will also always some basic minimum number of items which are essential and without which the training cannot take place.
- All resources are safe to use – this is the single most critical element relating to physical resources used for training
- Resources are current – they need to reflect the items used in the industry/organisation the learners are working in.

56. Give six options for acquiring training resources.

- Purchase them – from professional suppliers of training support materials
- Ask suppliers to donate
- Request loan of them from industry partners, carriers, or bodies
- Conduct excursions/field trips to workplaces and use what is available at those locations
- Share them (and the cost of purchase) – with other training providers and/or organisations that have a workplace training system
- Seek government funding for their acquisition.

57. Identify four activities which may be involved in the recruitment of participants/employees for the workplace training system.

- Reviewing existing qualification and competencies of staff
- Identifying potential learners
- inviting learners to training
- Identifying and inviting candidates for assessment
- Holding information sessions
- Mandating attendance/participation
- Notifying staff in advance.

58. What are the three principles of an effective Quality Management System?

- Quality Assurance
- Continuous Quality Improvement
- Quality Leadership.

59. Identify four activities involved in establishing a Quality Management group.

- Identifying participants – who can make worthwhile contributions to the group
- Explaining the role of quality management within the training system
- Allocating responsibilities to group members
- Providing relevant training
- Supplying necessary support to allow the effective functioning of the quality group
- Naming the group with an appropriate title
- Seeking external assistance – to advise and/or help with quality-related requirements.

60. Name six positions that may be part of the Quality Management group for an organisation with a training system that is not recognised or accredited.

- A person who is a full-time Quality Manager – or who has the responsibilities of Quality Manager allocated to them as part of their job description and workplace responsibilities
- CEO – or representative
- Head/Manager of the Training department
- Trainers and assessors
- Members of the Board of Management
- Representatives from external providers who have contributed to establishing the QMS for the workplace training system.

61. Identify four roles of the Quality Management group for a workplace training system.

- Providing an advisory and leadership role with respect to quality management of training and assessment across the organisation
- Preparing training and assessment plans and goals in relation to the workplace training system quality
- Aligning the quality management of the workplace training system with all relevant strategic themes and goals of the wider organisation so there is harmony between all elements of the business
- Overseeing and monitoring training and assessment quality policies and procedures
- Managing quality issues in relation to the workplace training and assessment system.

62. Identify and detail the contents of one quality assurance verification process.

No model answer – contents will depend on the process chosen by the candidate.

63. Identify six practical activities involved in preparing draft quality assurance procedures.

- Use a team approach to generate the processes – using the skills of the QA group/Quality Management group and co-opting others as required
- Use templates and *pro formas* as the basis for documentation – to provide consistency and standardisation
- Write applying clear and direct language which is understood by users – as opposed to preparing ‘academic’ documents
- Obtain sample documentations if possible from other workplace training systems – to use as a model/basis for writing draft processes
- Strive to make the processes user-friendly and not overly complicated or onerous
- Apply version control protocols – to control iterations of teach process
- Determine schedule for the development processes – in relation to:
 - Production of drafts
 - Trialling of drafts
- Allocate responsibilities – for implementing the processes.

64. Identify six activities involved in trialling draft quality assurance procedures.

- Submitting draft processes to stakeholders for pre-trial
- Obtaining initial authorisation to proceed with the trial
- Communicating the draft processes to those with allocated responsibilities
- Conducting training with staff
- Scheduling the trials
- Implementing the draft process strictly in accordance with the drafted instructions
- Involving representatives of the national Training Authority and/or the body operating the system in the trials if system is recognised
- Capturing required information
- Noting points which have arisen during the trial which need to be accommodated as part of the review and revision parts of the procedure
- Reviewing implementation of draft verification processes
- Revising draft quality assurance procedures as necessary on the basis of feedback and trial implementation
- Making submissions for approval of final documents
- Determining operating schedule – for implementation of the processes
- Circulating the final/approved processes – to all stakeholders.

65. Name six reasons there is a need to advise trainers and assessors regarding QA processes that will be used in a workplace training system.

- They understand how their performance will (in part) be evaluated – and this often removes fear, worry and concern about the process
- They gain greater appreciation of registration/accreditation and compliance requirements – which helps them better understand the overall system they are working within
- They know the areas of their work which are subject to targeted analysis/evaluation – and so they can focus their efforts to ensure these areas receive suitable attention and effort
- The organisation and/or the Training Authority demonstrates openness and transparency – rather than judging/evaluating them on ‘secret’ criteria
- They can locate Quality Management better – within the overall context of the operations of the organisation and the training system
- Realise other trainers and assessors in other workplace training systems are also subject to the same/similar processes – and they are not being targeted or victimised.

66. Describe three ways to advise trainers and assessors regarding established and confirmed QA/QMS processes to be used in a workplace training system.

- Provision of copies of relevant documents
 - Verbal explanations featuring contributions by the Quality management team/group and representatives from the national Training Authority and/or relevant other bodies
 - Formal training
-

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Design and establish a training system D2.TRD.CL8.05
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Determine the features of a workplace training system - Align workplace training needs with required resources - Develop workplace training system documents - Establish procedures for the review of the workplace training system - Prepare to implement the workplace training system - Establish quality assurance procedures for the workplace training system - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1:Determine the features of a workplace training system		
Identify key operational features and constraints of the workplace training system	☐	☐
Research enterprise requirements in relation to the workplace training system	☐	☐
Identify the legal and other requirements that apply to the establishment and operation of the workplace training system	☐	☐
Document and verify identified operational features and constraints of the workplace training system	☐	☐
Establish and maintain relationships with key stakeholders	☐	☐
Identify the resources available to support the identified workplace training system requirements	☐	☐

Did the candidate	Yes	No
Element 2: Align workplace training needs with required resources		
Match human resources to identified workplace training needs	☐	☐
Match physical resources to identified workplace training needs	☐	☐
Match financial resources to identified workplace training needs	☐	☐
Identify external funding sources for the workplace training system	☐	☐
Prepare a budget for the workplace training system	☐	☐
Obtain management commitment to the workplace training system	☐	☐
Identify sources of provision for workplace training materials and delivery	☐	☐
Element 3: Develop workplace training system documents		
Develop training policies and procedures to support implementation and operation of the workplace training system	☐	☐
Identify record keeping requirements within the identified workplace training system	☐	☐
Produce operational training system forms to support and record workplace training delivery	☐	☐
Element 4: Establish procedures for the review of the workplace training system		
Identify the elements of the workplace training system to be reviewed	☐	☐
Determine the frequency for reviewing identified elements within the workplace training system	☐	☐
Allocate responsibility for implementing identified reviews of the workplace training system	☐	☐
Describe the procedures to be used in the review of the workplace training system	☐	☐
Document approved procedures for review of the workplace training system	☐	☐
Obtain management commitment to implement required changes to the workplace training system	☐	☐
Element 5: Prepare to implement the workplace training system		
Develop an implementation plan for the training system	☐	☐
Prepare trainers and assessors in accordance with identified need	☐	☐
Prepare training programs to provide identified training	☐	☐
Obtain resources to support training delivery	☐	☐

Did the candidate	Yes	No
Recruit participants for training	☐	☐
Element 6: Establish quality assurance procedures for the workplace training system		
Establish a quality assurance group	☐	☐
Document draft verification processes that the quality assurance group will undertake	☐	☐
Trial the draft quality assurance procedures	☐	☐
Advise trainers in relation to established and confirmed quality assurance procedures	☐	☐
Did the student's overall performance meet the standard?	☐	☐

Feedback to student and trainer/assessor

Third Party Statement

Student name:			
Name of third party:		Contact no:	
Relationship to student:	☐ Employer ☐ Supervisor ☐ Colleague ☐ Other Please specify: _____ Please do not complete the form if you are a relative, close friend or have a conflict of interest]		
Unit of competency:	Design and establish a training system D2.TRD.CL8.05		
The student is being assessed against industry competency standards and we are seeking your support in the judgement of their competence. Please answer these questions as a record of their performance while working with you. Thank you for your time.			
Do you believe the trainee has demonstrated the following skills? (tick the correct response]	Yes	No	Not sure
Researches. Identifies and documents requirements for a workplace training system	☐	☐	☐
Develops relationships with key stakeholders to support implementation of a workplace training system	☐	☐	☐
Matches resources to identified needs of a workplace training system creating a budget and determining possible funding sources and providers of training materials	☐	☐	☐
Develops and produces policies and procedures to support the workplace training system	☐	☐	☐
Develops and produces systems and forms to record workplace training delivery	☐	☐	☐
Identifies focus, frequency and individual roles and responsibilities in relation to the review of the workplace training system	☐	☐	☐
Describes and documents procedures for reviewing the workplace training system	☐	☐	☐
Develops a plan for implementation of the workplace training system preparing personnel and resources required	☐	☐	☐
Establishes, documents, trials and communicates the Quality Assurance system for the workplace training system	☐	☐	☐
