The Association of Southeast Asian Nations (ASEAN) was established on 8 August 1967. The Member States of the Association are Brunei Darussalam, Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, Singapore, Thailand and Viet Nam.

The ASEAN Secretariat is based in Jakarta, Indonesia.

General Information on ASEAN appears online at the ASEAN Website: www.asean.org.

All text is produced by William Angliss Institute of TAFE for the ASEAN Project on “Toolbox Development for Front Office, Food and Beverage Services and Food Production Divisions”.

This publication is supported by the Australian Government’s aid program through the ASEAN-Australia Development Cooperation Program Phase II (AADCP II).

Competency Based Training (CBT) and assessment – An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational safety and health requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for participant diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant centred learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning

- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants
- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /group exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)

Principle of Competency Based Assessment

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative assessment tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: DESIGN AND ESTABLISH A TRAINING SYSTEM		NOMINAL HOURS: 100
UNIT NUMBER: D2.TRD.CL8.05		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to design and establish a training system within a workplace context.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Determine the features of a workplace training system 1.1 Identify key <i>operational features</i> and <i>constraints of the workplace training system</i> 1.2 <i>Research enterprise requirements</i> in relation to the workplace training system 1.3 Identify the <i>legal and other requirements</i> that apply to the establishment and operation of the workplace training system 1.4 Document and <i>verify identified operational features and constraints</i> of the workplace training system 1.5 <i>Establish and maintain relationships</i> with <i>key stakeholders</i> 1.6 Identify the <i>resources available</i> to support the identified workplace training system requirements		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that seek to establish and operate their own workplace-based training system within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation <i>Operational features</i> may include: • Purpose of the training and relevant outcomes • Scope of the training system • Establishing minimum requirements for competencies and certification of trainers and/or assessors, where appropriate • Record keeping system requirements including procedures and policies, and the development of supporting documentation

Element 2: Align workplace training needs with required resources 2.1 Match <i>human resources</i> to identified workplace training needs 2.2 Match <i>physical resources</i> to identified workplace training needs 2.3 Match <i>financial resources</i> to identified workplace training needs 2.4 Identify <i>external funding sources</i> for the workplace training system 2.5 Prepare a <i>budget</i> for the workplace training system 2.6 Obtain <i>management commitment</i> to the workplace training system 2.7 Identify <i>sources of provision</i> for workplace training materials and delivery Element 3: Develop workplace training system documents 3.1 Develop training <i>policies and procedures</i> to support implementation and operation of the workplace training system	• Training context requirements including procedures to match identified competencies with designated training • Characteristics of training participants • Allowable adjustments to training methods for participants including language, literacy and numeracy • Legislated requirements of the host country, in relation to employment, workplace safety, workplace licensing requirements and equal opportunity, where applicable • Arrangements, where applicable, for recognition of competencies including requirements to enable in-house training provision to be recognised by external training and other industry bodies • Location of training including in-house and external provision • Partnership arrangements • Review and evaluation processes • Allocation of fees and costs, where applicable • Promotion of the training system to participants and potential users:
---	--

3.2 Identify <i>record keeping requirements</i> within the identified workplace training system 3.3 Produce <i>operational training system forms</i> to support and record workplace training delivery Element 4: Establish procedures for the review of the workplace training system 4.1 Identify the <i>elements of the workplace training system to be reviewed</i> 4.2 Determine the <i>frequency for reviewing</i> identified elements within the workplace training system 4.3 Allocate <i>responsibility for implementing identified reviews</i> of the workplace training system 4.4 Describe the <i>procedures to be used in the review of the workplace training system</i> 4.5 Document approved procedures for review of the workplace training system 4.6 Obtain management commitment to implement required changes to the workplace training system Element 5: Prepare to implement the workplace training system 5.1 Develop an <i>implementation plan for the training system</i> 5.2 Prepare <i>trainers and assessors</i> in accordance with identified need	<i>Constraints of the workplace training system</i> may include: • Time available for training including the location of time within the operational context and staffing rosters of the business • Relative cost implications including cost-benefit-analysis of not undertaking training, opportunity costs, identified potential returns on investment in training, direct and indirect costs that apply • Budgetary considerations including cash flow concerns, total cost, available funds and the potential for external grants to supplement internal funding • Geographical issues including identification of the impact of distance from external providers on the capacity to deliver/provide required training • Resources issues, such as evaluation of existing supporting resources including programs and materials and the need to acquire additional resources to underpin training delivery • Availability of appropriate staff including qualified trainers, staff with relevant expertise, staff with aspirations to become involved in training, external trainers.
--	--

5.3 <i>Prepare training programs to provide identified training</i> 5.4 <i>Obtain resources to support training delivery</i> 5.5 <i>Recruit participants for training</i> Element 6: Establish quality assurance procedures for the workplace training system 6.1 <i>Establish a quality assurance group</i> 6.2 <i>Document draft verification processes that the quality assurance group will undertake</i> 6.3 <i>Trial the draft quality assurance procedures</i> 6.4 <i>Advise trainers in relation to established and confirmed quality assurance procedures</i>	<i>Research enterprise requirements may include:</i> • Undertaking qualitative and quantitative research • Undertaking a situation analysis to determine the Strengths, Weaknesses, Opportunities and Threats (SWOT analysis) that apply • Analysing market trends • Identifying licensing requirements • Reviewing job descriptions and other similar internal documents • Meeting with other organisations that have an established and effective training system • Consulting with clients and potential clients • Reviewing the outcomes of previous organisational training needs analyses (TNAS) and skills audit reports • Reading industry or other research reports to identify trends, new developments, technological changes, organisation work changes and global developments. <i>Legal and other requirements may include:</i> • An absence of legal requirements for organisations that intend to operate as an unrecognised training provider • Compliance with licensing requirements including user requirements relating to third party training systems, materials and products • Compliance with training requirements contained in relevant employment contracts • Requirements set by professional industry bodies in relation to the initial training of employees and the maintenance of skill and knowledge levels and standards. <i>Verify identified operational features and constraints may include:</i> • Consulting with key stakeholders.
--	---

	<i>Establish and maintain relationships</i> may include: • Conducting structured interviews • Holding regular and scheduled team meetings • Using focus groups • Designing and applying questionnaires • Capitalising on informal and social interactions – including networking opportunities. <i>Key stakeholders</i> may include: • Industry, professional and trade associations and bodies • Qualified trainers and assessors • Team leaders, supervisors and managers • Training participants and employees – past and present • Technical experts • Union representatives • Consultative committees within the business • Relevant industry training providers and associated training agencies • Conducting workshops • Using electronic communication. <i>Resources available</i> refers to: • Human resources • Physical resources • Financial resources.
--	--

	<i>Human resources:</i> • Trainers • Assessors • Support/office staff. <i>Physical resources refers to:</i> • Training materials • Consumables • Equipment necessary for training delivery. <i>Financial resources refers to:</i> • Funds for trainers • Training delivery and assessment • Travel and accommodation, where applicable • Training materials and equipment • Back-filling of staff who are attending training • Payment for staff who are attending training out-of-hours • Money to supplement remuneration when nominated competencies have been achieved. <i>External funding sources may include:</i> • Other departments within the same organisation • Head office • Sub-agencies • Suppliers, providers, carriers or destination operators • Government agencies
--	--

	• One-off grants available to support targeted training • On-going subsidies available to encourage the uptake of apprenticeships and traineeships • Occasional funding made available through industry bodies. <i>Budget may include:</i> • Development costs including costs involved in establishing training facilities and a training infrastructure, training trainers and assessors, obtaining resources • Implementation costs including staffing costs, and consumables • Maintenance costs including costs associated with updating training content, reviewing training delivery, introducing training in accordance with emerging need, delivering refresher training. <i>Management commitment must include:</i> • Financial commitment to the initiative • Preparedness to speak in support of training within the organisation and encourage staff participation • Willingness to promote staff based on competency • Willingness to promote trained staff from within the organisation as opposed to recruiting new staff to fill positions • Consideration of a reward and recognition scheme. <i>Sources of provision may include:</i> • Existing informal training unit within the organisation or workplace • Outsourcing including the use of private and public registered training providers, and consideration of the organisational culture costs associated with using external providers as opposed to internal delivery
--	---

	• Commercially available training products and materials including customised products available on a fee-for-service basis • Product suppliers • Industry peak bodies • Government agencies. <i>Policies and procedures may relate to:</i> • The purpose(s) of training • A framework for the provision of training and assessment • Continuous improvement • Industrial relations issues • Eligibility for training • Criteria for determining competency • Transparency in all matters relating to training and assessment • Complaints, appeals and grievances processes • Roles and responsibilities of training staff • Commitment to quality and consistency in training provision • Training administration and record keeping requirements • Validation of training content including reviews and revisions, evaluations and audits • Applicable timelines for commencement and completion of designated training. <i>Record keeping requirements</i> can be electronic or paper-based and may include: • Compliance with internal organisational requirements • Ease of tracking participant progress in training and individual assessment results including recording the issuing of statements and/or certificates, as appropriate
--	---

- Recording attendance at training sessions
- Ease of use including requirements relating to updating, storing, retrieving, archiving and administering the records
- Confidentiality and privacy requirements
- Security of the records within the system
- Indicating money spent on training-related activities including requisitions, order forms and wage costs
- Compliance with quality assurance requirements, where applicable.

Operational training system forms may include:

- Application forms
- Time-table pro formas
- Training evaluation forms
- Training rolls
- Internal audit forms
- Training information including training topic and course descriptions.

Elements of the workplace training system to be reviewed may include:

- Policies and procedures
- Forms and documentation
- Training delivery
- Content of the training courses
- Training resources
- Assessment practices
- Available infrastructure to support training

	• Training outcomes including evaluation of results and identification of problem areas • Benefits delivered to the organisation as a result of training being undertaken. <i>Frequency for reviewing may include:</i> • At the completion of individual units • At the completion of courses • When participants complete identified training • At a designated time, such as every six months, or annually • Undertaking reviews when there are workplace changes that necessitate such a review including introduction of new equipment, changes to work practices, newly imposed legislated or other compliance requirements • In response to workplace accidents, wastage, near misses, identified risk, legal action or other situations that can be effectively addressed by changes to training. <i>Responsibility for implementing identified reviews may include:</i> • Trainers • Assessors • Support staff • Management. <i>Procedures to be used in the review of the workplace training system may include:</i> • Analysis of materials and resources • Comparisons of training content with current workplace practices and equipment used • Analysis of participant evaluation forms • Interviews with current and past participants
--	---

	• Evaluating improvements to identified workplace criteria including reduction in wastage and accidents, improvements in productivity and service levels • Observation of trainers and training practices • Analysis of training-related feedback including complaints, grievances, awards received • Meeting with key stakeholders to determine their level of satisfaction with training provision. <i>Implementation plan for the workplace training system</i> may include strategies that relate to: • Introduction and promotion of the training system • Development of an implementation action plan including identification of timelines, targets, funding, underpinning resources and responsibilities • Establishment of the training environment within the workplace, where necessary. <i>Prepare trainers and assessors</i> may include: • Identifying internal personnel with the qualifications, experience, ability or potential to function as trainers and assessors • Confirming availability of identified personnel and the ability of the organisation to release them from other duties to undertake training and assessing roles • Engaging external fully-qualified and appropriately experienced staff where there is no viable in-house option • Providing the necessary training for identified staff including consideration of accredited training and assessment credentials, and/or in-house alternatives. <i>Prepare training programs</i> may include: • Ensuring training matches identified competency requirements where these exist including the development of competency standards where they do not exist • Identifying training need for individual participants • Designing the program including sequencing of content, time allocations, identification of competencies combined into training units/modules, selecting learning activities, determining assessment to be undertaken.
--	--

	<i>Resources to support training delivery</i> may include: • Notes, manuals and literature including commercially available materials and materials produced in-house • Videos, DVDs and computer-based e-learning materials • Posters • Equipment • Consumables • Exercises, drills, practice sheets, case studies, projects and assignments. <i>Recruit participants</i> may include: • Inviting workers to participate in the training • Mandating participation in training including identification of individual competencies that are required by nominated individuals • Holding information sessions • Seeking input from supervisors about individual training needs for their staff • Reviewing existing certificates, qualifications, licenses of staff to identify the need for initial and/or refresher training • Notifying staff in advance regarding their obligation to attend training including identification of locations, times, duration and training topic/content. <i>Establish a quality assurance group</i> may include: • Identifying participants • Explaining the role of quality assurance within the training system • Allocating responsibilities to group members • Providing training in the application of quality assurance procedures
--	--

	• Supplying necessary support to allow the effective functioning of the quality assurance group • Seeking external assistance with quality assurance requirements. <i>Document draft verification processes</i> may include: • Seeking input from key stakeholders • Utilising existing processes from external third party providers • Generating enterprise specific processes in accordance with identified workplace need • Validating the quality assurance processes and confirming their applicability to individual workplace need • Supplying members of the quality assurance group with copies of the established processes • Notifying other key stakeholders, as appropriate. <i>Trial the draft quality assurance procedures</i> may include: • Evaluating fairness provisions for access and participation in training • Testing efficiency of the system • Testing effectiveness of the system • Revising draft quality assurance procedures as necessary on the basis of feedback and trial implementation. <i>Quality assurance procedures</i> may include: • Conduct of regular evaluations, reviews and audits • Mandatory professional development requirements for trainers and assessors • Sampling and evaluation of training staff competencies including training-related competencies and workplace operational competencies • Modifications to the training system based on evaluations, reviews and audits • Promotion of networking amongst trainers and assessors.
--	---

	Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Knowledge of enterprise policies and procedures in regard to training and assessment • Knowledge of principles of training and assessment • Knowledge of host country legislation and requirements in relation to provision of accredited and non-accredited vocational training including equal opportunity and relevant industrial relations legislation • Knowledge of quality assurance principles and practices • Ability to identify training needs and develop complementary training materials including training programs and resources • Ability to use planning, research, communication, negotiation, evaluation, analytical and influencing skills • Knowledge of the legislated and enterprise requirements in relation to privacy and confidentiality • Knowledge of continuous improvement techniques • Knowledge of the benefits and costs that attach to the provision of in-house training. Linkages To Other Units • Develop and implement a business plan • Produce documents, reports and worksheets on a computer • Maintain a paper-based filing and retrieval system • Manage and implement small projects • Plan and establish systems and procedures • Develop and implement operational policies
--	---

- Evaluate the effectiveness of an assessment system
- Manage an assessment system for training outcomes
- Monitor and evaluate the effectiveness of training outcomes
- Plan and implement a series of training events
- Prepare and deliver training sessions
- Recruit and select staff
- Roster staff
- Manage contractual agreements/commitments
- Analyse competency requirements
- Develop assessment tools and procedures
- Implement, monitor and evaluate a training and development program
- Plan and promote training courses
- Review training outcomes
- Prepare and monitor budgets.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of host enterprise policies and procedures in regard to workplace training and assessment
- Demonstrated ability to design and prepare comprehensive and viable implementation plan(s) for a workplace training system for a real or simulated organisation including:
 - Identification of key operational features and constraints including scope and purpose of the training system
 - Identification of the key stakeholders

	▪ Identification of the human, financial and physical resources required to establish and maintain the system ▪ Identification of potential external funding sources, and sources of training delivery and materials ▪ Written policies and procedures to underpin effective implementation of the system ▪ Identification of training forms required including at least two sample documents ▪ Identification of the requirements to be applied to review the training system ▪ Identification of training to be delivered including specification of a sample range of competencies and programs ▪ Identification of training resources necessary to support the delivery of an identified training program/unit ▪ Identification of procedures to encourage staff participation in training ▪ Written quality assurance procedures applicable to the training system. Context of Assessment This unit may be assessed on or off the job: • Assessment should include practical demonstration of designing and establishing a training system either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individual's work area or area of responsibility. Resource Implications Training and assessment to include access to a real or simulated workplace and training materials; and access to workplace standards, procedures, policies, guidelines, tools and equipment.
--	--

Assessment Methods

The following methods may be used to assess competency for this unit:

- Observation of practical candidate performance
- Analysis of a portfolio of documents produced by the candidate
- Evaluation of the practicality of implementing the plans provided by the candidate
- Case studies
- Oral and written questions
- Third party reports completed by a supervisor
- Project and assignment work.

Key Competencies in this Unit

Level 1 = competence to undertake tasks effectively

Level 2 = competence to manage tasks

Level 3 = competence to use concepts for evaluating

Key Competencies	Level	Examples
Collecting, organising and analysing information	3	Determine structure of the training system to be implemented
Communicating ideas and information	2	Inform trainers and assessors in relation to training requirements
Planning and organising activities	3	Determine actions to identify training system requirements
Working with others and in teams	2	Liaise with key stakeholders to establish and maintain the training system

	Using mathematical ideas and techniques	3	Evaluate outcomes of the training system
	Solving problems	2	Obtain resources to enable implementation of the training system
	Using technology	2	Use software programs to manage the operation of the training system

Notes and PowerPoint slides

Slide

DESIGN AND ESTABLISH A TRAINING SYSTEM

D2.TRD.CL8.05

Slide 1

Slide No	Trainer Notes
1.	Trainer welcomes students to class.

Slide

Design and establish a training system

This Unit comprises six Elements:

- Determine the features of a workplace training system
- Align workplace training needs with required resources
- Develop workplace training system documents
- Establish procedures for the review of the workplace training system
- Prepare to implement the workplace training system
- Establish quality assurance procedures for the workplace training system

Slide 2

Slide No	Trainer Notes
2.	Trainer advises trainees this Unit comprises six Elements, as listed on the slide explaining: ● Each Element comprises a number of Performance Criteria which will be identified throughout the class and explained in detail ● Trainees can obtain more detail from their Trainee Manual ● At times the course presents advice and information about various protocols but where their workplace requirements differ to what is presented, the workplace practices and standards, as well as policies and procedures must be observed.

Slide

Assessment

Assessment for this unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer/supervisor

Slide 3

Slide No	Trainer Notes
3.	Trainer advises trainees that assessment for this Unit may take several forms, all of which are aimed at verifying they have achieved competency for the Unit as required. Trainer indicates to trainees the methods of assessment that will be applied to them for this Unit.

Slide

Element 1 – Determine the features of a workplace training system

Performance Criteria for this Element are:

- Identify key operational features and constraints of the workplace training system
 - Research enterprise requirements in relation to the workplace training system
 - Identify the legal and other requirements that apply to the establishment and operation of the workplace training system

(Continued)

Slide 4

Slide No	Trainer Notes
4.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide.

Slide

Element 1 – Determine the features of a workplace training system

- Document and verify identified operational features and constraints of the workplace training system
- Establish and maintain relationships with key stakeholders
- Identify the resources available to support the identified workplace training system requirements

Slide 5

Slide No	Trainer Notes
5.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • What experience do you have with workplace training systems? • Where were the systems? • What did they deliver? Who to? • How effective were they? • Were they recognised/accredited or not? • Who were the personnel involved in operating the system? • What parameters did the system operate within?

Slide

Identify key operational features and constraints of workplace training system

Points to note when working to determine the features of/for a workplace training which is to be established:

- Use a team approach
- Be prepared to work in a difficult and fraught environment
- Document everything

Slide 6

Slide No	Trainer Notes
6.	Trainer observes when working to determine the features of/for a workplace training which is to be established it is worth noting the following points: • Use a team approach – there should be a group of people who undertake the research and investigations required. It is not recommended that one person does all the work in this regard. A team approach: ▪ Allows the workload to be shared ▪ Gives the opportunity for ideas and information to be debated and ‘tested’ by others in the group ▪ Decreases the time line needed for the overall research and development phase • Be prepared to work in a difficult and fraught environment – when researching information to use as the basis for determining the features of a new workplace training system to be established, there will often be: ▪ Changes over time in the opinions, ideas, needs, wants and preferences of the stakeholders ▪ Changes in the operational parameters within which the system is expected to function

	▪ Conflict between stakeholders regarding which of various options available (such as, but not limited to, structural issue, delivery methodologies, operational protocols, content) should be selected as the one/s which will be used/applied in the final manifestation of the system ▪ Situations where decisions have to be made but there appears to be insufficient information to make a genuinely informed decision ▪ Confusion over a diverse range of very important topics • Document everything – in relation to: ▪ Information obtained ▪ Decisions made and reasons for same ▪ Actions/research undertaken.
--	---

Slide

Identify key operational features and constraints of workplace training system

Stakeholders in the development process will vary depending on:

- Size and structure of the organisation
- Whether the system is to be recognised/accredited or not
- Partnership arrangements which exist between the business and other businesses

Slide 7

Slide No	Trainer Notes
7.	Trainer notes stakeholders in the design and establishment of a workplace training system will vary depending on: • Company size and structure • Whether or not the organisation wants to be a recognised training provider or not • Partnership arrangements and working agreements which exist between the organisation and other businesses.

Slide

Identify key operational features and constraints of workplace training system

Key stakeholders may include:

- Business owners
- Board of Management
- Industry bodies
- Trainers and assessors
- Team leaders/supervisors

(Points continued in TM)

Slide 8

Slide No	Trainer Notes
8.	Trainer explains in overview key stakeholders may include: • Business owners • The Board of Management within the organisation • Industry, professional and trade associations and bodies • Qualified trainers and assessors • Team leaders, supervisors and managers Trainer continues from points in TM • Training participants and employees – past and present • Technical experts • Union representatives • Consultative committees within the business • Relevant industry training providers and associated training agencies. Classroom Activity – Guest Speaker/s Trainer arranges for people identified above to attend and: • Discuss their experiences, roles and responsibilities with workplace training systems • Give advice for design and implementation of workplace training systems.

Slide

Identify key operational features and constraints of workplace training system

Possible operational features:

- Purpose of and identified outcomes for the system
- Scope of training
- Minimum requirements for trainers and assessors
- Record keeping requirements

(Points continued in TM)

Slide 9

Slide No	Trainer Notes
9.	Trainer notes: • The initial starting point for the development of any workplace training system must be the canvassing and consideration of all the operational features the system is expected to function within • Operational features may include: ▪ Purpose of and identified outcomes for the training ▪ Scope of the training system ▪ Minimum requirements for training system staff ▪ Record keeping requirements. Continue working through TM points and discuss each as necessary.

Slide

Identify key operational features and constraints of workplace training system

Purpose of and identified outcomes for the training – issues may include/relate to:

- Desire for increased productivity
- Need for identification and development of new products and services
- Need for identification of existing products and services which can be improved
- Talent pool available to the business

(Points continued in TM)

Slide 10

Slide No	Trainer Notes
10.	Trainer discusses: Purpose of and identified outcomes for the training The purpose of and identified outcomes for the training will directly relate to the primary reasons the organisation has decided to establish its own training system and will likely embrace diverse factors. Work through each of the bullet points listed in TM explaining any terminology and checking for trainee understanding along the way. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.serviceskills.com.au/becoming-a-registered-training-organisation - Becoming a registered training organisation

Slide

Identify key operational features and constraints of workplace training system

Scope of the training system – issues may include/relate to:

- Training orientation to be used by the business
- Sites the training system will operate from
- Physical location of training to be conducted in the workplace

(Points continued in TM)

Slide 11

Slide No	Trainer Notes
11.	Trainer discusses: Scope of the training system Scope of the training system can force the organisation to determine matters such as: • Training orientation to be used by the business – with reference to whether or not the enterprise elects to follow the principles of: ▪ CBT ▪ CBA ▪ Face-to-face training and/or assessment ▪ Online training and/or assessment • Sites the training system will operate from – with traditional options including: ▪ Operating out of one/single business premises ▪ Running multiple training sites at different locations/branches/offices ▪ Using a national site/training facility ▪ Training through a network of international sites in different countries so local in-country businesses can be serviced

- Physical location of training to be conducted in the workplace – with reference to, for example:
 - On-the-job training – undertaken physically at each work station with no formal training room
 - Off-the-job – where the training occurs in the workplace but takes place in a training room set aside for the purpose of training delivery and assessment purposes
 - Off-site training – where the training may be provided by, and in the rooms of:
 - A registered/accredited provider
 - An industry body
 - A non-accredited third party provider – such as a carrier or supplier with whom the organisation does business.

Continue working through TM points and discuss each as necessary.

Slide

Identify key operational features and constraints of workplace training system

Minimum requirements for training system staff – issues may include/relate to:

- Establishing minimum requirements for competencies and certification of trainers
- Establishing minimum requirements for competencies and certification of assessors
- Calculating number of training staff required

(Points continued in TM)

Slide 12

Slide No	Trainer Notes
12.	Trainer discusses: Minimum requirements for training system staff Minimum requirements for training system staff must address: • Establishing minimum requirements for competencies and certification of trainers • Establishing minimum requirements for competencies and certification of assessors • Calculating number of training staff required. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.rtosupport.com.au/rto-support-services/prospective-rtos - Prospective RTOs: thinking of becoming an RTO?

Slide

Identify key operational features and constraints of workplace training system

Record keeping requirements – issues may include/relate to:

- Integration of training records with other internal documentation
- Identification of statistics/information required to assist with operational and financial decision making
- Determination of record keeping demands of authorities

(Points continued in TM)

Slide 13

Slide No	Trainer Notes
13.	Trainer discusses: Record keeping requirements Considerations in this regard must centre on the following: • Integration of the generation and maintenance of training records with other internal documentation • Identification of statistics and other information required from the records to assist with operational and financial decision making regarding implementation of the training system • Determination of externally-imposed record keeping demands made by government authorities – if the organisation is a registered/accredited training organisation • Continue working through points in TM discussing as necessary. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.serviceskills.com.au/becoming-a-registered-training-organisation - Becoming a registered training organisation

Slide

Identify key operational features and constraints of workplace training system

Characteristics of training participants – issues may include/relate to:

- History of learners
- Identification of individual differences that may affect training delivery
- Allowable adjustments to training assessment

Slide 14

Slide No	Trainer Notes
14.	Trainer discusses: Characteristics of training participants Characteristics of training participants may include: ● History of learners – with reference to: ▪ Length of service with organisation ▪ Details of type and nature of previous engagement with training ▪ Outcomes/results of previous training ● Identification of individual differences that may affect training delivery – such as issues relating to: ▪ Known or likely language, literacy and numeracy needs of learners ▪ The anticipated or known cultural factors and educational background ▪ Gender and age of learners ▪ Physical abilities and/or disabilities which are expected/need to be accommodated ▪ Workplace experience with the training topics ▪ Preferred learning styles ▪ Work, family, social and out-of-work commitments ▪ Motivation learners are known or expected to have to undertake training

- | | |
|--|---|
| | <ul style="list-style-type: none">• Allowable adjustments to training assessment – to accommodate:<ul style="list-style-type: none">▪ Use of aides to assist special needs employees▪ Language issues▪ Literacy and/or numeracy problems. |
|--|---|

Slide

Identify key operational features and constraints of workplace training system

Legislated requirements – issues may include/relate to:

- Legal obligations imposed by all countries where the organisation operates its training system
- Industrial relations and employment-related issues
- Compliance-related responsibilities
- Compulsory equal opportunity requirements

Slide 15

Slide No	Trainer Notes
15.	Trainer discusses: Legislated requirements Legislated requirements can relate to: • Legal obligations imposed by all countries where the organisation operates its training system • Industrial relations and employment-related issues as they affect training provision by the employer • Responsibilities relating to: ▪ Compliance with workplace safety ▪ Need to train employees in workplace safety ▪ Mandated workplace licensing requirements • Compulsory equal opportunity requirements – in terms of: ▪ Providing access to training for all employees ▪ Accommodating social justice programs ▪ Opening the potential for merit-based advancement/promotion to all workers.

Slide

Identify key operational features and constraints of workplace training system

Allocation of fees and costs – issues may include/relate to:

- Legal requirements prohibiting organisations from charging for work-related training
- Business opportunities provided by capacity to act as a training provider for others
- Identification of possible funding options for vocational training and assessment

(Points continued in TM)

Slide 16

Slide No	Trainer Notes
16.	Trainer discusses: Allocation of fees and costs Allocation of fees and costs commonly requires attention be paid to: • Legal requirements applying to organisations prohibiting them for charging for training which is specifically work-related • Business opportunities provided by the capacity of the organisation to act as a training provider for other businesses and/or for individuals wanting to obtain industry skills, knowledge and/or (if appropriate) certification and qualifications • Identification of possible funding options for vocational training and assessment from government and non-government sources • Work through remaining bullet points as needed. Complete classroom activities below. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.asqa.gov.au/vet-registration/understand-the-requirements-for-registration/understand-the-requirements-for-registration.html - Understand the requirements for registration.

Slide

Identify key operational features and constraints of workplace training system

Review and evaluation – issues may include/relate to:

- Standard periodic reporting procedures
- Topics which need to be the focus for review and evaluation
- Methodology for gaining user-feedback

(Points continued in TM)

Slide 17

Slide No	Trainer Notes
17.	Trainer discusses: Review and evaluation Work through the bullet points in the TM and discuss each as required. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://vanguardvisions.com.au/six-steps-to-successfully-implementing-workplace-online-training/ - Six steps to successfully implementing workplace online training

Slide

Identify key operational features and constraints of workplace training system

Promotion of the training system – issues may include/relate to:

- Establishment of a formal and distinct 'Training' department
- Creation of a range of strategies designed to proactively contact potential learners
- Identification and selling of the benefits

(Points continued in TM)

Slide 18

Slide No	Trainer Notes
18.	Trainer discusses: Promotion of the training system Work through each of the bullet points listed in TM explaining any terminology and checking for trainee understanding along the way.

Slide

Identify key operational features and constraints of workplace training system

- Constraints
- Background
- Examples

Slide 19

Slide No	Trainer Notes
19.	Trainer introduces background information regarding constraints which may impact the system and also discusses examples with the group. Continue working through points in TM seeking any relevant knowledge or experience trainees may wish to share Visit websites listed on next slide as time allows.

Slide No	Trainer Notes
21.	Visit websites at trainer discretion to provide examples for trainees

Slide

Research enterprise requirements in relation to the workplace training system

Research should involve:

- Conducting 'qualitative' research to generate 'soft' data
- Performing 'quantitative' research to generate 'hard' data
- Doing 'secondary' research
- Undertaking 'primary' research

Slide 22

Slide No	Trainer Notes
22.	Trainer explains research undertaken should include doing qualitative and quantitative research and secondary and primary research Classroom Activity – Handouts Trainer distributes and discusses: • Examples of qualitative and quantitative research/data • Examples of secondary and primary research/data.

Slide

Research enterprise requirements in relation to the workplace training system

SWOT analysis:

- Looks at Strengths, Weaknesses, Opportunities and Threats
- Is a fundamental pre-requisite for any organisation-related research
- Also known as:
 - Situational analysis
 - Situation analysis
 - SWOT matrix

Slide 23

Slide No	Trainer Notes
23.	Trainer introduces SWOT analysis stating: ● A SWOT analysis is the process of gathering together information/data on both the internal and external environments of the organisation to determine the strengths, weaknesses, opportunities that are present as well as the threats relating to the situation being considered – in this case, the establishment of a workplace training system ● A SWOT analysis is a fundamental pre-requisite for any research to help determine the situation being considered ● A SWOT analysis may also be known as: ▪ A Situational analysis ▪ A Situation analysis ▪ A SWOT matrix. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.mindtools.com/pages/article/newTMC_05.htm - SWOT analysis.

Slide

Research enterprise requirements in relation to the workplace training system

Internal factors – factors within the organisation:

- Strengths
- Weaknesses

External factors – factors outside the organisation:

- Opportunities
- Threats

Slide 24

Slide No	Trainer Notes
24.	Trainer continues discussing SWOT analysis: Internal factors The internal factors in a SWOT analysis are the factors present within the organisation. • They are the 'Strengths' and 'Weaknesses' of the entity • What is a strength for one business may well be a weakness for another. For example: ▪ One business may have loads of cash reserved to fund the establishment of a training system, while another could be cash-poor ▪ One organisation may have a detailed knowledge of the formal in-country vocational training system while another operator knows little/nothing in this regard • To an extent these factors are controllable as the organisations have the power to impact them – they can (for example) take action to raise more money or obtain additional resources and work to gain more experience regarding their national training system.

External factors

External factors are those which exist outside the business. They are divided into:

- Opportunities – which are factors which can be exploited or taken advantage of in relation to the establishment of the training system
- Threats – which represent things which might prejudice, jeopardise or otherwise negatively influence the establishment of the training system
- Some threats cannot be effectively addressed
- External factors are regarded as being uncontrollable in that the business/entity undertaking the research is unable to (significantly) impact the relevant factors.

Classroom Activity – Internet research

Trainer supervises internet research and subsequent classroom discussion by visiting:

<http://smallbusiness.chron.com/swot-analysis-diversity-training-1850.html> - SWOT analysis on diversity training

Slide

Research enterprise requirements in relation to the workplace training system

Other options for researching organisational-specific factors and the organisational environment are:

- SLEPT
- PESTEL
- STEEPLE

Slide 25

Slide No	Trainer Notes
25.	Trainer identifies other approaches to research/investigate organisation-specific factors and the organisational environment: • SLEPT analysis involves consideration of: ▪ Social factors ▪ Legal factors ▪ Economic factors ▪ Political factors ▪ Technological factors • PESTEL analysis is the same as SLEPT but with the addition of 'Environmental' factors • STEEPLE analysis adds consideration of Ethics. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://pestleanalysis.com/ - PESTLE analysis http://www.slideshare.net/lconner/steeple - STEEPLE analysis

Slide

Research enterprise requirements in relation to the workplace training system

- Analysing market trends
- Identifying licensing requirements
- Reviewing job-related documentation

Slide 26

Slide No	Trainer Notes
26.	Trainer introduces context of analysis of market trends as part of the research process and highlights key points listed within the TM notes Work through licensing requirements and consider what is required in your local region. Discuss the notes listed for reviewing job related documentation and complete the following activities Classroom Activity – Handouts Trainer distributes and discusses examples of job descriptions and job specifications. Classroom Activity – Internet research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.businessballs.com/jobdescription.htm - Job descriptions http://humanresources.about.com/od/glossary/g/job_specification.htm - Job specification http://www.managementstudyguide.com/job-description-specification.htm - Job description and job specification

Slide

Research enterprise requirements in relation to the workplace training system

Meeting with others as part of the research process – may involve:

- Talking to trainers/assessors who work in training systems at other organisations
- Speaking with others who operate their own workplace training systems
- Consulting with past students/learners
- Researching prospective learners

Slide 28

Slide No	Trainer Notes
28.	Trainer notes meeting with others as part of the research process may involve: • Talking to trainers and assessors who work within workplace training systems at other organisations • Speaking with management at businesses who operate their own workplace training systems • Consulting with past students/learners – who have trained: ▪ Within the organisation ▪ With/at other providers • Researching prospective learners who are expected to use the workplace training system – to: ▪ Identify their needs, wants and preferences ▪ Gain an insight into other/previous work-related training they have undertaken.

Slide

Identify legal and other requirements that apply to the workplace training system

- Identifying requirements
- Examples of requirements
 - Training systems operating as an unrecognised training provider

29

Slide No	Trainer Notes
29.	Trainer explains the primary methods to apply when seeking to identify the legal and other requirements which apply to the establishment and operation of the workplace training system include: Continue working through TM points and discuss each as necessary. Classroom Activity – Guest Speaker Trainer arranges for representative of national Training Authority to attend and: ● Discuss requirements for establishing a registered/recognised/accredited workplace training system ● Provide Training Authority materials/documentation to advise and assist with making an application to become a registered workplace training system.

Slide

Identify legal and other requirements that apply to the workplace training system

- Examples of requirements
 - Training systems operating a recognised training provider
 - Other possible obligations

30

Slide No	Trainer Notes
30.	Trainer indicates if the organisation chooses to operate an recognised system this means: • This means they will be authorised to deliver and assess accredited courses/qualifications: ▪ Established/available under the qualifications framework that exists in the country ▪ In the competency disciplines/industry sectors they have been approved to deliver in (according to their Scope of Registration) ▪ The Scope of Registration is the list of qualifications a recognised training has been approved by the government to deliver – the organisation may only deliver qualifications which are on their Scope of Registration • There will be a range of compliance obligations imposed by the relevant government body and the legislation which governs implementation of vocational training ▪ These requirements may be <i>similar</i> between countries but individual differences are to be expected. Classroom Activity – Handout Trainer distributes and discusses sample Scope of Registration for a workplace provider.

Slide

Identify legal and other requirements that apply to the workplace training system

It is critical to understand:

- Legislated requirements are mandatory
- Failure to comply can mean:
- Initial registration will be denied
- Current registration may be terminated

Slide 31

Slide No	Trainer Notes
31.	Trainer states: • It is critical to understand these requirements are mandatory – they are not optional, and they are not offered as ‘suggestions’ • If requirements are not complied with/adhered to: ▪ Initial registration may be disallowed for new applicants ▪ Current registered providers may have their registration terminated.

Slide

Identify legal and other requirements that apply to the workplace training system

Mandatory requirements must be complied with to:

- Establish and maintain a high-level basic standard across all providers
- Ensure quality and consistency in accredited training
- Facilitate management of vocational training/assessment, record keeping and issuing of certification
- Give confidence in accredited vocational training and assessment

Slide 32

Slide No	Trainer Notes
32.	Trainer indicates requirements must be complied with in order to: • Establish and maintain a high-level basic standard across all providers • Ensure quality and consistency in the provision of accredited training • Facilitate the management and control of vocational training and assessment, record keeping and issuing of certification • Give students and industry confidence in the quality, content and delivery of accredited vocational training and assessment. Classroom Activity – Handout Trainer distributes and discusses application form to be completed by applicants who want to establish a recognised workplace training system. Classroom Activity – Guest Speaker Trainer arranges for representative from national Training Authority to attend and discuss application requirements for registering a workplace training system as a recognised provider.

Slide

Identify legal and other requirements that apply to the workplace training system

There may also be other obligations – such as need to:

- Comply with training requirements in employment contracts
- Deliver contracted training and assessment services to other businesses/personnel
- Meet internal requirements which exceed minimum, externally-imposed obligations

Slide 33

Slide No	Trainer Notes
33.	Trainer indicates it is always possible a workplace training system may be required to also comply with other obligations – for example there may be a need to: • Comply with training requirements contained in relevant employment contracts • Meet standards or specified requirements set by professional industry bodies in relation to: ▪ The initial training of employees ▪ The maintenance of skill and knowledge levels and standards • Deliver training and assessment services to other businesses/personnel – to meet obligations imposed by contracts or other non-binding 'working agreements' which have been negotiated with other organisations • Observe the standards prescribed by internal training-related policies which oblige the organisation to deliver certain services and/or achieve nominated outcomes over-and-above those which may be legislated or provided for under any other form of obligation.

Slide

Document and verify identified operational features and constraints

Verification seeks to:

- Confirm all features/constraints have been identified
- Check each identified issue has been assessed
- Validate data, research, findings and conclusions
- Authenticate detail of information which is dubious, unclear or ambiguous
- Gain agreement about information obtained

Slide 34

Slide No	Trainer Notes
34.	Trainer discusses verifying identified issues stating: ● Once operational features and constraints likely to impact the design and operation of a workplace training system have been identified, the issues need to be verified before the proposal goes any further ● It is important to bear in mind this process necessitates the spending of a large amount of time and it is vital this step is not forgotten in the rush to proceed/get the system in place. Trainer indicates process seeks to: ● Confirm all relevant features and constraints have been identified – and nothing vital or obvious has been forgotten or over-looked ● Check each identified issue has been assessed – and its potential impact or influence has been correctly analysed ● Validate data, research, findings and conclusions reached – as a result of the research process ● Authenticate the detail of any information which remains dubious, unclear or ambiguous – so there is clarity of understanding about all pertinent aspects of the proposal/situation ● Gain agreement from stakeholders about information obtained – so the analysis of the features and constraints can be approved/ratified by those who know the proposal and have a stake in its success/operation.

Slide

Document and verify identified operational features and constraints

Practical aspects of verifying issues:

- Meeting with the research team
- Consulting with key stakeholders
- Re-calculating figures
- Running a final cost-benefit analysis
- Ensuring completeness of facts and figures
- Comparing proposed course of action with what others have done
- Obtaining final approval

Slide 35

Slide No	Trainer Notes
35.	Trainer lists practical aspects of verifying the issues: • Meeting with the research team – to: Continue working through TM points and discuss each as necessary.

Slide

Document and verify identified operational features and constraints

Reasons to document:

- Give firm reference point
- Prove research was done
- Demonstrate 'due diligence'

(Points continued in TM)

Slide 36

Slide No	Trainer Notes
36.	Trainer presents need to document things: • Have discussion about why it is necessary to document features and constraints of the workplace training system and how you would go about doing this to provide evidence about the training.

Slide

Establish and maintain relationships with key stakeholders

- The research phase when designing a workplace training system begins a set of relationships with key stakeholders
- Stakeholders

Slide 37

Slide No	Trainer Notes
37.	To alter delivery method at this point, have trainees close their manual and brainstorm the next section. • Brainstorm in groups the stakeholders in a training system • Brainstorm techniques to establish and maintain relationships with those stakeholders • Have groups present their thoughts then compare against manual notes.

Slide

Identify resources available to support identified workplace training requirements

General classification of resources:

- Human resources
- Physical resources
- Financial resources

Slide 38

Slide No	Trainer Notes
38.	Trainer identifies resources required to support the design and implementation of a workplace training system fall into three categories: • Human resources • Physical resources • Financial resources.

Slide

Identify resources available to support identified workplace training requirements

Human resources = staff to support the system:

- Trainers
- Assessors
- Guest speakers

(Points continued in TM)

Slide 39

Slide No	Trainer Notes
39.	Trainer discusses: Human resources Human resources in this regard refers to staff required to operate the system. These may include: • Trainers • Assessors • Guest speakers Trainer continues to identify human resources: • External professionals/consultants who may be required to assist with training provision or assessment tasks • Course developers • Resource writers • Administration support – to: ▪ Maintain required records ▪ Undertake traditional office-related functions.

Classroom Activity – Guest Speaker/s

Trainer arranges for people identified on the slide to attend and:

- Discuss their role/contribution

Slide

Identify resources available to support identified workplace training requirements

Physical resources include:

- Training delivery equipment
- Training and assessment resources

Slide 40

Slide No	Trainer Notes
40.	Trainer discusses: Physical resources Physical resources may include: • Training delivery equipment – such as a training room with associated training equipment • Training and assessment resources – which are the materials used to help with delivery of training and conduct of assessments. Classroom Activity (1) – Class Exercise/s Trainer asks class to: • Identify examples of training delivery equipment – answers may include: ▪ Desks/tables and chairs; Computers (personal computers and/or laptops) with software appropriate to the needs of the training; Data projectors; Laser pointers; Overhead projector; Screens (for projection of images); White boards (standard or electric); Printers; Photocopier; TV monitor; DVD player/video machine; Easels for flip charts

- Identify examples of training and assessment resources – answers may include:
 - Notes and handouts; Texts, manuals and reference books; Exercise books; Rolls/attendance registers; Consumables – such as paper, general stationery, chalk, whiteboard markers, disks; Assessment items – tests, checklist, question sheets, exercise sheets, case studies, work projects.

Classroom Activity (2) – Sample Items

Trainer presents samples of identified physical resources to class for their consideration and discussion, demonstrating use of items as necessary.

Slide

Identify resources available to support identified workplace training requirements

Financial resources = funding, which may be:

- Internally-based
- Received from outside the organisation

Slide 41

Slide No	Trainer Notes
41.	Trainer discusses: Financial resources Financial resources in this regard refers to the funding available to be spent on training and assessment activities. Financial resources may be: Internally based – in the form of: • Budgets for training and assessment ▪ Cash from administration ▪ Fees paid by students/learners ▪ In the form of 'product' (or items) as opposed to the money needed to buy those things • Externally based – in the form of: ▪ Co-contributions from partners ▪ Donations from providers, suppliers, carriers or other industry bodies ▪ Grants ▪ Subsidies.

Classroom Activity – Guest Speaker

Trainer arranges for official from local Training Authority to attend and:

- Discuss funding options/support for workplace training systems
- Explain how to apply
- Detail terms and conditions which apply
- Differentiate between grants and subsidies.

Slide

Identify resources available to support identified workplace training requirements

Ways to determine availability of resources:

- Talking with management
- Speaking with Finance department
- Contacting industry bodies

(Continued)

Slide 42

Slide No	Trainer Notes
42.	Trainer describes how to determine availability of resources: ● Talking with management – to identify: ▪ What they are prepared to spend/authorise ▪ When it will be available ▪ How it can be accessed ● Speaking with the Finance Department/Head office – to identify: ▪ What has been allocated/budgeted for the purposes of training and assessment ▪ Requirements for spending same – such as need for quotations for amounts over a certain value, requirement to purchase from preferred suppliers, limits on individual spending ceilings/limits ● Contacting industry bodies and organisations which represent the industry – to identify if they have: ▪ Grants or subsidies available ▪ Resources which can be borrowed or used. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.serviceskills.com.au/rtos/support-materials - Support materials https://shop.tafesa.edu.au/LOR/Home.aspx - TAFEshop training resources

Slide

Identify resources available to support identified workplace training requirements

- Discussing options with Training Authority
- Asking others for help/donations

Slide 43

Slide No	Trainer Notes
43.	Trainer continues to describe how to determine availability of resources: • Discussing resourcing of training with government agencies – to determine if they have: ▪ Grants ▪ Subsidies ▪ Taxation concessions ▪ Special schemes to support vocational and/or workplace training • Asking third parties for assistance – in relation to possibilities such as: ▪ Donations of product and/or equipment ▪ Discounts for training-related purchases ▪ Loans of equipment and items ▪ Providing guest speakers and other training-specific expertise. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.tourismtraining.com.au/contact/contact.html - Tourism Training Australia http://www.tesaustralia.com/article.aspx?storyCode=6278198 – Travel, tourism and leisure teaching resources http://www.tourism.australia.com/contact-us/student-resources.aspx - Student resources: Tourism Australia

- | | |
|--|--|
| | <ul style="list-style-type: none">• Ensure all work projects have been completed and handed into trainer ensuring cover page details are attached for assessment tracking• Review the summary page for Element 1 to confirm what has been completed for this element. |
|--|--|

Slide

Element 2 – Align workplace training needs with required resources

Performance Criteria for this Element are:

- Match human resources to identified workplace training needs
- Match physical resources to identified workplace training needs
- Match financial resources to identified workplace training needs

(Continued)

Slide 44

Slide No	Trainer Notes
44.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide.

Slide

Element 2 – Align workplace training needs with required resources

- Identify external funding sources for the workplace training system
- Prepare a budget for the workplace training system
- Obtain management commitment to the workplace training system
- Identify sources of provision for workplace training materials and delivery

Slide 45

Slide No	Trainer Notes
45.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • Why is there a need to align resources with need? • How can this be achieved? • What is a budget and what is its role in relation to workplace training? • What options are there for obtaining and/or generating training and assessment resources?

Slide

Match human resources to identified workplace training needs

- Human resources need to be allocated to training and assessment needs to enable required outcomes/targets to be achieved
- Overall perspective on resource allocation
- Staffing considerations

Slide 46

Slide No	Trainer Notes
46.	Have a group discussion about allocating human resources, having a suitably qualified and experienced person, delivery schedule, availability and so on. Refer to the TM notes and encourage input from trainees. Classroom Activity – Guest Speaker Trainer arranges for Training Manager from a workplace training system to attend and: • Discuss staffing for workplace systems • Identify requirements for same • Provide advice in relation to staffing.

Slide

Match physical resources to identified workplace training needs

Physical resources can be classified as:

- Training materials
- Consumables
- Equipment for training delivery

Slide 47

Slide No	Trainer Notes
47.	Brainstorm what comes to mind with these three topics. • Consider access to items • Safety • Availability – do they need to be ordered/printed/replaced?

Slide

Match financial resources to identified workplace training needs

Considerations regarding financial resources – need to address:

- Funds to pay trainers and assessors
- Money to back-fill staff who attend training
- Payment for staff who attend training out-of-hours

(Continued in TM)

Slide 48

Slide No	Trainer Notes
48.	Discuss financial resources and training needs. What needs to be paid and accounted for Classroom Activity – Guest Speaker Trainer arranges for Finance Manager from a relevant business to attend and: • Discuss allocation of funds to the workplace training system • Provide sample budget and related financial documentation • Give advice regarding funding allocation.

Slide

Identify external funding sources for the workplace training system

Potential external funding sources:

- Other departments in the organisation
- Head office
- Sub-agencies
- Suppliers, providers, carriers or destination operators
- Government agencies
- Occasional funding from industry bodies
- Learners

Slide 49

Slide No	Trainer Notes
49.	Trainer identifies potential external funding sources: • Other departments within the organisation • Head office • Sub-agencies • Suppliers, providers, carriers or destination operators • Government agencies • Occasional funding made available through industry bodies • Learners.

Slide

Prepare a budget for the workplace training system

Matters to address when preparing budgets:

- Access other/overall budgets and plans for the business
- Name likely or known income sources
- Determine classification of expenditure budgets

(Continued in TM)

Slide 50

Slide No	Trainer Notes
50.	Trainer explains issues to address when considering budgets for a workplace training systems will depend on the accounting system being used by the organisation as well as related accounting issues highlighting the following is an indicative list of topics which need to be taken into account when initially preparing budgets for the proposal: • Access overall budgets and plans for the business – so the budgets for the training system can be put into a proper context against all other organisational budgets/financial obligations and goals • Name likely or known income sources which have been identified as part of the research process – which will require development of revenue budgets • Determine classification of expenditure budgets – to address expected costs for the initiative Continue working through TM points and discuss each as necessary. Classroom Activity – Guest Speaker Trainer arranges for Financial Manager of relevant business to attend and: • Discuss budget negotiations for training budget • Explain allocations of funds • Provide sample budget documents • Give advice for training budgets.

	Classroom Activity – Handouts
--	--------------------------------------

	Trainer distributes and discusses sample budget manuals, and copies of budget lines and codes.
--	--

Slide

Prepare a budget for the workplace training system

Considerations relating to expenditure budgets:

- Development costs
- Implementation costs
- Maintenance costs

Slide 51

Slide No	Trainer Notes
51.	Trainer illustrates general considerations relating to expenditure budgets noting there must be consideration of: • Development costs – in terms of costs involved in: ▪ Establishing training facilities and physical resources ▪ Creating the training infrastructure within the organisation ▪ Training and preparing personnel to operate as trainers and assessors ▪ Obtaining training resources and materials. Classroom Activity – Handout Trainer distributes and discusses sample reward and recognition scheme attaching to a workplace training system.

Slide

Obtain management commitment to the workplace training system

Considerations and activities include:

- Demonstrate the benefits
- Highlighting disadvantages of not proceeding
- Considering a reward and recognition system
- Making a formal presentation
- Gaining agreement for practical support
- Receiving advice from management

Slide 52

Slide No	Trainer Notes
52.	Trainer identifies considerations and activities inherent in obtaining management commitment to implementation and operation of a workplace training system include: Continue working through TM points and discuss each as necessary.

Slide

Identify sources of provision for workplace training materials and delivery

Possible sources:

- Existing informal training unit within the organisation or workplace
- Outsourcing
- Product suppliers
- Service providers
- Industry peak bodies

Slide 53

Slide No	Trainer Notes
53.	Trainer identifies sources of provision may include: ● Existing informal training unit within the organisation or workplace – it is possible: ▪ The organisation operated an effective informal training branch before the decision to introduce a more formal system was made ▪ This informal system nonetheless purchased, produced or otherwise acquired some extremely relevant and effective training materials which can continue to be used in the new, formal system ● Outsourcing – which may: ▪ Include use of materials which have been developed by and are being used by other private and/or public registered training providers ▪ Involve purchasing commercially available training products and materials – which can include: ▪ Customised products available on a fee-for-service basis, produced specifically to meet the individual training requirements of specific workplaces ▪ Consideration of using 'off the shelf', generic, pre-prepared materials as opposed to developing organisation-specific customised materials or those which have been produced in-house ▪ Where materials are obtained from other sources there can be a need to: ▪ Review the potential relevance of materials – to ensure they are actually meeting identified need and are if not workplace-specific at least industry-specific

- Be sensitive to culture cost associated with using materials/resources not produced by the business and seeming to have to rely on outside sources for expertise in this regard.

Classroom Activity – Guest Speaker

Trainer arranges for representative from vocational training resource provider to attend and:

- Explain and show examples of resources they have available
- Detail prices and ordering requirements
- Describe protocols and costs for customising materials
- Provide catalogues and samples.

Trainer continues to identify sources of provision :

- Product suppliers – who may be prepared to:
 - Donate samples of materials they have developed and use in their business
 - Contribute examples of items they have accumulated over time
 - Lend materials for short-term periods or on long-term or permanent loan
 - Share materials they use or have access to
 - Offer materials in exchange for purchases made by the organisation
- Service providers – who may be willing to:
 - Allow their staff to assist with resource development for the workplace
 - Let their staff visit and show/demonstrate use of relevant materials
 - Contribute in ways identified for 'Product suppliers' immediately above
- Industry peak bodies – who may have:
 - A range of generic training materials available for loan or purchase
 - Materials contributed to them by other industry organisations for use/distribution as training resources
 - A library/resource centre of materials and resources.

Classroom Activity – Guest Speakers

Trainer arranges for representatives from organisations listed on the slide to attend and:

- Discuss the resources they can provide to workplace training systems
- Provide examples of same
- Explain how workplaces can requests these items.

Slide

Identify sources of provision for workplace training materials and delivery

- Government agencies
- Training institutions
- Other workplaces

Slide 54

Slide No	Trainer Notes
54.	Trainer continues to identify sources of provision : • Government agencies – who will often: ▪ Be able to supply copies of legislation, regulations and mandatory Codes ▪ Donate a range of handout materials, posters, charts and reports ▪ Be able to identify other sources which could be followed up to determine if they have/are able to contribute required materials • Training institutions – who may be prepared to: ▪ Share physical resources ▪ Grant access to electronic resources ▪ Suggest avenues to pursue ▪ Offer materials in exchange for access to some aspect of the workplace training or assessment being provided in the workplace • Other workplaces – this relates to approaching similar/relevant other businesses with a view to: ▪ Identifying if they have training materials they are willing to share ▪ Determining if they are amenable to sharing costs for purchasing certain resources which can be jointly used

- Negotiating a mutually-beneficial arrangement where both parties develop and then share nominated materials for training which is conducted at both workplaces.

Classroom Activity – Guest Speakers

Trainer arranges for representatives from organisations listed on the slide to attend and:

- Discuss the resources they can provide to workplace training systems
- Provide examples of same
- Explain how workplaces can requests these items.
- Ensure all work projects have been completed and handed into trainer ensuring cover page details are attached for assessment tracking
- Review the summary page for Element 2 to confirm what has been completed for this element.

Slide

Element 3 – Develop workplace training system documents

Performance Criteria for this Element are:

- Develop training policies and procedures to support implementation and operation of the workplace training system
- Identify record keeping requirements within the identified workplace training system
- Produce operational training system forms to support and record workplace training delivery

Slide 55

Slide No	Trainer Notes
55.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • What documents might be required? • Why are they needed? • What is the difference between a 'policy' and a 'procedure'?

Slide

Develop training policies and procedures

Factors determining policies and procedures to be produced include:

- Whether the workplace training system is to be:
- A recognised training provider
- A non-recognised/non-accredited provider

(Continued)

Slide 56

Slide No	Trainer Notes
56.	Trainer identifies factors determining the policies and procedures to be developed include: • Whether or not the training system is a recognised training provider or a non-recognised one – in that: ▪ Recognised training providers will: – Traditionally require more policies and procedures than non-recognised providers – Usually be <i>required</i> to create policies and/or procedures to address topics identified by the Training Authority – that is, it is compulsory for the workplace training system to produce certain policies and procedures as specified by the Training Authority in order (for example) to meet quality-related issues – The workplace training system may, of course, develop other policies and procedures <i>in addition to the mandated ones</i> but they must at least generate the <i>required</i> ones – Normally have to submit compulsory draft policies and procedures to the Training Authority for their approval – as part of the process of applying for registration as an approved/recognised provider

- | | |
|--|--|
| | <ul style="list-style-type: none">• Non-recognised/accredited training providers:<ul style="list-style-type: none">▪ Are under no obligation to develop any training/assessment-related policies and procedures▪ Can prepare policies and procedures to suit whatever they deem to be important from their point of view. |
|--|--|

Slide

Develop training policies and procedures

- Breadth and depth of policies and procedures existing in other areas of the organisation
- Previous experience of the organisation with policies and procedures

Slide 57

Slide No	Trainer Notes
57.	Trainer continues to identify factors determining the policies and procedures to be developed: ● The breadth and depth of policies and procedures existing in the organisation to address non-training issues ▪ Some organisations rely heavily on policies and procedures and some do not ▪ Larger organisations (with multiple outlets, departments and employees) often use the more structured approach of policies and procedures than smaller businesses ▪ Commonly: – Extensive policies and procedures for other <i>operational issues</i> elsewhere in the organisation will also mean extensive policies and procedures for training and assessment – Few policies and procedures elsewhere in the business will mean few for training/assessment ● Previous experience of the organisation with policies and procedures – for example: ▪ Some businesses have protocols in place for developing, reviewing, updating and revising policies and procedures – so they are more able/willing to generate policies and procedures for any other topic ▪ Some businesses despite their effort at developing and trying to use policies and procedures have found their implementation to be difficult to apply, hard to enforce and of little or no resulting benefit.

Slide

Develop training policies and procedures

It is important to note:

- Some organisations prepare separate documents for policies and procedures
- Some organisations combine the two
- There is a link between policies and procedures but they are different

Slide 58

Slide No	Trainer Notes
58.	Trainer mentions: ● Some organisations: ▪ Prepare a separate document for policies and a separate one for procedures – other organisations may combine their policy and procedures into one document ▪ Do not distinguish/differentiate between 'policies' and 'procedures' – they use the term 'policies and procedures' generically to refer to a combination of required protocols ● While there is a direct link/relationship between policies and procedures it is important to understand the distinction between the two. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.industrialrelations.nsw.gov.au/oirwww/Employment_info/Managing_employees/Workplace_policies_and_procedures.page - Workplace policies and procedures

Slide

Develop training policies and procedures

Characteristics of policies – they:

- Represent the thinking/philosophy of the business
- Define the position of the organisation on issues which are covered by the policy
- Are developed before procedures
- State intention/expectations of the organisation and staff
- Are the rules the organisation seeks to operate by
- Give consistency in the way the organisation operates

Slide 59

Slide No

Trainer Notes

59.

Trainer explains policies have the following characteristics - they:

- Represent the thinking/philosophy of the business
- Define the position of the organisation on issues which are covered by the policy
- Are developed before procedures.

Classroom Activity – Handouts

Trainer distributes and discusses sample policies for workplace training systems.

Trainer continues to list characteristics of policies – they:

- State the intention and expectations of the organisation and staff in relation to the subject that is the title of the policy – they indicate:
 - What the organisation wants to achieve
 - How the organisation will act in given situations, if/when they arise
- Are the rules the organisation seeks to operate by
- Give consistency in the way the organisation operates.

Classroom Activity – Guest Speaker

Trainer arranges for relevant business to attend and:

- Discuss formulation of policies and procedures
- Provide samples of same
- Explain roles of policies and procedures.

Slide

Develop training policies and procedures

- Contain a statement explaining the reason the policy has been prepared
- Provide guidance to employees about what the organisation wants
- Identify responsibilities for taking action to achieve the desired outcomes
- Prescribe timing considerations relevant to the issue

(Points continued in TM)

Slide 60

Slide No	Trainer Notes
60.	Trainer continues to list characteristics of policies – they: ● Contain a statement explaining the reason the policy has been prepared ● Provide guidance to employees about what the organisation wants – and how they should act to help achieve that outcome ● Identify responsibilities for taking action to achieve the desired outcomes. Trainer continues to list characteristics of policies – they: ● Prescribe timing considerations relevant to the issue ● Resolve anticipated problems in relation to the policy topic ● Identify documentation to be used or completed in relation to the topic ● Contain information on legal and regulatory requirements the organisation must meet. Classroom Activity – Individual Exercise Trainer asks students to develop draft policies on nominated industry-relevant topics.

Slide

Develop training policies and procedures

Characteristics of procedures – they:

- Flow from policies – and it is possible there can be multiple different procedures linked to the one policy
- Enable organisational plans and policies to be implemented
- Nominate whose responsibility it is to take the actions set out in the procedures

(Continued)

Slide 61

Slide No	Trainer Notes
61.	Trainer explains procedures have the following characteristics - they: • Flow from policies – and it is possible there can be multiple different procedures linked to the one policy • Enable organisational plans and policies to be implemented • Nominate whose responsibility it is to take the actions set out in the procedures. Classroom Activity – Handouts Trainer distributes and discusses sample procedures for workplace training systems.

Slide

Develop training policies and procedures

- Explain action to take to enable the intentions of policies to be attained
- Describe action to be taken in given situations/circumstances
- May contain steps in a process in sequential order
- Give consistency to action
- Avoid confusion of roles and responsibilities
- Help prevent operational mistakes

Slide 62

Slide No	Trainer Notes
62.	Trainer continues to list characteristics of procedures – they: • Explain action to take to enable the intentions of policies to be attained • Describe action to be taken in given situations/circumstances • May contain steps in a process in sequential order. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://work.chron.com/workplace-training-policy-11928.html - Workplace training policy

Slide

Develop training policies and procedures

- Format and content
- Organisational requirements for policies and procedures may be set out in a **Style Guide**
- Internal options
- External options

Slide 63

Slide No	Trainer Notes
63.	Trainer discusses format and content noting there is no universally accepted format for policies and procedures: Internal options Organisations may have/generate a Style Guide which they use to govern/assist those who need to write internal policies and procedures. These Style Guides will/may contain information on topics such as: • Purpose of the Style Guide • Principles of and differentiation between policies and procedures • Styles of policies and procedures – in terms of: ▪ Criteria for developing policies and procedures – addressing, for example: – Rationalisation of policies and procedures – to help avoid an excessive number of policies and procedures and to streamline their approach – Version control information. Classroom Activity – Handout Trainer distributes and discusses example of Style Guide used by organisation to guide preparation of policies and procedures.

	External options • Where the organisation has elected to become a registered/accredited training provider the Training Authority may: ▪ Provide model policies and procedures – for the organisation to use or adapt ▪ Supply templates – which can be used as the basis for developing policies and procedures • In most cases, organisations will prepare their training and assessment policies and procedures using the same format as the other policies and procedures they have developed. Classroom Activity – Handouts Trainer distributes and discusses sample 'policies and procedures' documentation from national Training Authority.
--	--

Slide

Develop training policies and procedures

Standard content of policies:

- Name/title of the policy
- Purpose of the policy
- Scope of the policy

(Continued)

Slide 64

Slide No	Trainer Notes
64.	Trainer identifies standard content of policies: • Name/title of the policy • Purpose of the policy – explaining why the policy has been developed • Scope of the policy – identifying who the policy applies to/who is bound by it • Date the policy applies – the date the policy becomes/became effective • Legislative authority – specifying statutes which govern implementation of the policy • Policy statement/s – statement/s indicating • Responsibilities for action – giving names/titles of those with specific responsibility under the policy in areas such as, for example: ▪ Compliance ▪ Monitoring ▪ Review ▪ Record management ▪ Reporting • Consequences of non-compliance • Definitions – in relation to policy-specific terms • Version control information.

Slide

Develop training policies and procedures

Procedures:

- Content will depend on the topic/activity for which they are prepared
- May be written in the form of:
- Checklists and Lists with bullet/dot points
- Written steps
- Flow charts and Process charts
- Procedural lists

Slide 65

Slide No	Trainer Notes
65.	Trainer presents more information on procedures stating: ● Content of procedures will depend on the topic/activity for which they are being produced ● Procedures may be produced in the form of: ▪ Checklists ▪ List with bullet points/dot points ▪ Written steps for a task ▪ Flowcharts ▪ Process charts ▪ Procedural lists. Classroom Activity (1) – Handouts Trainer distributes and discusses sample procedures as identified on the slide. Classroom Activity (2) – Individual Exercise Trainer asks students to develop draft procedures on nominated industry-relevant topics.

Slide

Develop training policies and procedures

Policies for workplace training systems may include:

- Purpose of training
- Framework for the provision of training and assessment
- Continuous improvement
- Industrial relations issues
- Eligibility for training
- Criteria for determining competency

(Continued)

Slide 66

Slide No	Trainer Notes
66.	Trainer identifies possible topics for policies for workplace training systems: • Discuss points listed in TM ensuring trainees are following and understanding content • Have sample workplace policies available for viewing. Trainees may have relevant knowledge or experience to share. Classroom Activity – Handouts Trainer distributes and discusses sample workplace training system policies as identified on the slide.

Slide

Develop training policies and procedures

In addition a very wide range of other policies may be generated if deemed necessary; for example:

- Codes of Conduct
- Risk management
- Education quality
- Alcohol, drugs and smoking
- Reward and recognition
- Copyright

(Continued in TM)

Slide 67

Slide No	Trainer Notes
67.	Trainer identify other possible policies for workplace training systems: • Search websites on next slide. Classroom Activity – Handouts Trainer distributes and discusses sample workplace training system policies as identified on the slide.

Slide

Develop training policies and procedures

Websites

- <http://work.chron.com/workplace-training-policy-11928.html> - Workplace training policy
- http://www.industrialrelations.nsw.gov.au/oirwww/Employment_info/Managing_employees/Workplace_policies_and_procedures.page - Workplace policies and procedures

68

Slide No	Trainer Notes
68.	View the websites and discuss as needed.

Slide

Identify record keeping requirements

Standard record keeping requirements:

- Must be user-friendly
- Must meet confidentiality standards

(Continued)

Slide 69

Slide No	Trainer Notes
69.	Trainer presents standard record keeping requirements: • They must be user-friendly/easy to use – in terms of: ▪ Initial creation/establishment ▪ Ready access ▪ Updating information and data ▪ Storing and/or filing ▪ Retrieval of information when required ▪ Archiving for future reference ▪ Administering the records • They must meet confidentiality standards – by: ▪ Optimising privacy ▪ Protecting personal and organisational information and data. Classroom Activity – Guest Speaker Trainer arranges for representative from national Training Authority and: • Provide samples of records which need to be established by recognised workplace training systems • Explain reasons these records need to be maintained • Discusses protocols for keeping records.

Slide

Identify record keeping requirements

- Must be securely kept
- May need to be retained for a nominated time
- May be soft and/or hard copy

Slide 70

Slide No	Trainer Notes
70.	Trainer continues to present standard record keeping requirements: • They must be maintained in a secure manner – which may require: ▪ Protocols for issuing/releasing records and/information ▪ Security of the records within the system – including protection from physical damage and/or electronic loss • They may have to be retained for a nominated period of time – to comply with internal protocols and/or external legislated requirements • They may be electronic or paper-based – or a combination of the two ▪ Trainers and assessors may use/maintain paper-based records when working which are later converted/transcribed to electronic format ▪ Some records that have to be completed for national training authorities may be available in an online format.

Classroom Activity – Internet Research

Trainer supervises internet research and subsequent classroom discussion by visiting:

http://www.transformingtraining.com.au/storage/Records%20Management%20Policy_procedures.pdf – Records Management Policy/procedures (Transforming Training RTO)

<http://www.records.nsw.gov.au/recordkeeping/advice/designing-implementing-and-managing-systems/dirks-manual/introducing-the-dirks-methodology> - Introducing the DIRKS methodology

<http://www.records.nsw.gov.au/recordkeeping/advice/information-security/how-records-management-techniques-and-skills-can-contribute-to-information-security-objectives> - How records management techniques and skills can contribute to information security objectives

Slide

Identify record keeping requirements

Reasons/need to keep records:

- Compliance with internal policies
- Compliance with external obligations
- Recording attendance
- Tracking participant progress
- Indicating money spent
- Providing data for analysis

Slide 71

Slide No	Trainer Notes
71.	Trainer gives reasons for keeping records (Refer to TM notes) ● Compliance with internal organisational requirements – as specified under: ● Compliance with externally-imposed requirements – as stipulated by: ● Recording attendance – with reference to: Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.asqa.gov.au/verve/_resources/General_direction_Retaining_student_assessment.pdf - General direction: retention requirements for completed student assessment items http://www.asqa.gov.au/faqs/frequently-asked-questions.html#data-and-reporting-requirements – FAQs: Data and reporting http://www.asqa.gov.au/users-guide-to-the-standards-for-registered-training-organisations-2015/about-the-standards-for-rtos/standard-eight/clauses/clauses-8.1--8.2.html - Provide requested information to ASQA’. Trainer continues to give reasons for keeping records: ● Tracking participant progress – in terms of: ● Indicating money spent – on training-related activities such as: ● Providing objective data for system analysis – in terms of: Classroom Activity – Excursion

	Trainer arranges visit to industry organisation with a workplace training system so students can: • View facilities • Talk to staff • Observe training and assessment practices • Obtain sample documentation.
--	---

Slide

Produce operational training system forms

Training system records and forms may be:

- Acquired
- or**
- Generated

Slide 72

Slide No	Trainer Notes
72.	Trainer notes training records and forms may be obtained in one of two ways: • They may be acquired • They may be generated.

Slide

Produce operational training system forms

Options for acquisition of documentation:

- Obtaining items from Training Authority
- Asking network of contacts for samples
- Seeking help from industry bodies

(Continued)

Slide 73

Slide No	Trainer Notes
73.	Trainer discusses acquisition of forms stating this refers to obtaining documents which have already been developed by someone else and identifying new workplace training systems may acquire required training and assessment documents in several ways – such as: ● Obtaining standard forms or templates from the national Training Authority – these are often available as online downloads or in hard copy versions ● Asking people in personal network of contacts for sample documents ● Seeking input from industry bodies and associations. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.asqa.gov.au/forms.html - Australian Government: ASQA – forms and guides http://www.det.act.gov.au/_data/assets/pdf_file/0006/456351/Guide-1.pdf - Training Package assessment materials kit

Slide

Produce operational training system forms

- Buying from commercial providers
- Asking other workplace training systems for samples
- Searching online

Slide 74

Slide No	Trainer Notes
74.	Trainer continues to discuss how to acquire copies of existing forms and records: • Purchasing <i>pro forma</i> documents from commercial providers who specialise in supplying business documentation and records • Asking other workplaces for samples of their records • Asking recognised training institutions for copies of records they use • Searching online using searches targeted by individual record/document name. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.ezyhr.com.au/training_logs.html?gclid=Ci2ZgtvRxMMCFY4svQodJCMA7w – Commercial website: ezyHR http://www.kzsoftware.com/products/training-manager/?gclid=CJSD5ffRxMMCFY8kvQodhxlATw Commercial website: Kaizen Software Solutions – training records database

Slide

Produce operational training system forms

Generating records/forms may necessitate:

- Creating new records/forms from scratch
- Modifying existing documents to suit specific workplace/system need

Slide 75

Slide No	Trainer Notes
75.	Trainer explains generating records/forms refers to: • Creating new records from scratch • Modifying existing/model records in order meet individual need.

Slide

Produce operational training system forms

Documents which may be required:

- Only develop documents which need to be developed – do not 're-invent the wheel'
- Identify purpose/need/use for document at the start
- Follow standard document development protocols – draft, trial, revise
- Application forms
- Time table pro formas
- Training evaluation forms

(Continued)

Slide 76

Slide No	Trainer Notes
76.	Trainer indicates the importance of files and documents being kept centrally located so all trainers have access and you do not re-invent the wheel! Trainer identifies the names of forms/records which may be required: ● Application forms – to enable/record: ▪ Registrations of interest for training ▪ Requests for assessment ● Time-table <i>pro formas</i> – showing scheduled delivery dates and times ● Training evaluation forms – designed to evaluate: ▪ Training content ▪ Training delivery methods ▪ Training resources ▪ Trainers. Classroom Activity – Handouts Trainer distributes and discusses sample documents as identified on this slide and the continued list in TM.

Slide

Produce operational training system forms

- Applications and details of Complaints, Grievances and Appeals
- Fees paid
- Trainer and assessor qualifications

(Continued)

Slide 77

Slide No	Trainer Notes
77.	Trainer continues to present names of forms/records which may be required: • Completed applications made in relation to Complaints, Grievances and/or Appeals • Fees paid – by those who pay to learn or be assessed • Qualifications of trainers and assessors Classroom Activity (1) – Handouts Trainer distributes and discusses sample documents as identified on the slide. Classroom Activity (2) – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.waseantourism.com/ - Training resources and competency standards for ASEAN https://www.jjkellertraining.com/TrainingResources/1812/OSHA - Training records: going beyond the class sign-in sheet http://www.training.nsw.gov.au/forms_documents/apprenticeships_traineeships/supervising_your_app_trainee.pdf - Supervising your apprentice or trainee (with special attention to the section 'What records do I need to keep?')

Slide

Produce operational training system forms

- Agendas and minutes of meetings
- Employee training and assessment-related suggestions
- Logbooks and workbooks of learners
- Registration documents required by Training Authority

Slide 78

Slide No	Trainer Notes
78.	Trainer continues to present names of forms/records which may be required: • Agendas and Minutes of staff meetings • Employee suggestions – in relation to training delivery and/or future courses • Logbooks and workbooks – completed by learners • Registration documents of the organisation as an accredited/recognised training provider, where applicable – as required by the relevant Training Authority. Classroom Activity (1) – Handouts Trainer distributes and discusses sample documents as identified on the slide. Classroom Activity (2) – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: https://www.business.qld.gov.au/business/employing/employee-rights-awards-entitlements/obligation-as-employer/legal-training-obligations - Legal obligations when training staff http://www.training.qld.gov.au/resources/training-organisations/pdf/guide-training-plan-record.pdf - Guide to training plans and training records. • Ensure all work projects have been completed and handed into trainer ensuring cover page details are attached for assessment tracking • Review the summary page for Element 3 to confirm what has been completed for this element.

Slide

Element 4 – Establish procedures for review of workplace training system

Performance Criteria for this Element are:

- Identify the elements of the workplace training system to be reviewed
- Determine the frequency for reviewing identified elements within the workplace training system
- Allocate responsibility for implementing identified reviews of the workplace training system

(Continued)

Slide 79

Slide No	Trainer Notes
79.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide.

Slide

Element 4 – Establish procedures for review of workplace training system

- Describe the procedures to be used in the review of the workplace training system
- Document approved procedures for review of the workplace training system
- Obtain management commitment to implement required changes to the workplace training system

Slide 80

Slide No	Trainer Notes
80.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • Why do reviews of workplace training systems need to occur? • Who undertakes the reviews? • When are they done? • What is the process?

Slide

Identify the elements of the workplace training system to be reviewed

Reasons to review:

- Meet external compliance requirements
- Conform to internal policy requirements
- Determine if training and assessment being conducted is meeting intended and/or actual workplace need

(Points continued in TM)

Slide 81

Slide No	Trainer Notes
81.	Trainer identifies reasons to review: • Meet compliance requirements imposed by the national Training Authority • Conform to internal review requirements contained in relevant policies • Determine whether or not training and assessment being conducted is meeting intended and/or actual workplace need. Continue working through TM points and discuss each as necessary.

Slide

Identify the elements of the workplace training system to be reviewed

Elements to review:

- Policies and procedures
- Forms and documentation
- Training delivery
- Assessment provision
- Available infrastructure to supplement/support training
- Training outcomes
- Benefits received/achieved
- Costs incurred

Slide 82

Slide No	Trainer Notes
82.	Trainer identifies elements to review and discusses each with as much detail as required. Classroom Activity – Guest Speaker Trainer arranges for Training Manager or relevant other person from a workplace training system to attend and: • Discuss review of the system • Explain frequency/timing of reviews • Describe processes • Identify personnel involved • Provide sample documentation.

Slide

Determine the frequency for reviewing identified elements

Options for reviews:

- At the completion of individual units
- At the completion of courses
- When participants complete identified training
- In a cyclical manner
- At a designated time
- Following significant workplace change
- In response to workplace events

Slide 83

Slide No	Trainer Notes
83.	Trainer identifies options for review: ● At the completion of individual units ● At the completion of courses ● When participants complete identified training ● In a cyclical manner ● At a designated time ● Following significant workplace change ● In response to workplace events.

Slide

Determine the frequency for reviewing identified elements

'At the completion of individual units':

- 'Units' may mean:
 - Competency standard/s
 - An amalgamation of training objectives on related topics

Slide 84

Slide No	Trainer Notes
84.	Trainer discusses: At the completion of individual units 'Units' may refer to: ● A competency standard – which is sometimes referred to as a unit ● An amalgamation of training objectives on related topics which were bundled together in a logical entity.

Slide

Determine the frequency for reviewing identified elements

Reviewing at the completion of individual units:

- May be too time consuming
- May be too expensive
- May be unnecessary
- Allows regular analysis of training delivered

Slide 85

Slide No	Trainer Notes
85.	Trainer notes reviewing at the completion of individual units: • May be excessively expensive and time consuming – especially if it is apparent the training is proving effective • Allows regular analysis of all training delivered by the organisation – so immediate remedial action can be taken where required.

Slide

Determine the frequency for reviewing identified elements

These reviews will take place when learners:

- Finish a qualification
- Complete course of training as described by the organisation

Slide 86

Slide No	Trainer Notes
86.	Trainer discusses: At the completion of courses These reviews will take place when learners: • Finish a qualification – meaning a formal/recognised certificate • Complete a course of training – as described by the organisation, for example a group of nominated units/competencies.

Slide

Determine the frequency for reviewing identified elements

Reviewing at the completion of courses:

- Provides a more holistic picture
- Takes less time/effort than reviewing after every unit
- Enables a larger pool of evidence for the review
- Allows remedial action to be taken if required prior to the commencement of the next course

Slide 87

Slide No	Trainer Notes
87.	Trainer notes reviewing at the completion of courses: ● Provides a more holistic picture ● Takes less time and effort than reviewing after every unit ● Enables a larger pool of evidence and feedback to be used as the basis for the review/evaluation ● Allows remedial action to be taken if required prior to the commencement of the next course.

Slide

Determine the frequency for reviewing identified elements

'Identified training' is usually short-term training provided to:

- Meet individual staff need
- Address emerging needs of a group
- Address identified training gaps

Slide 88

Slide No	Trainer Notes
88.	Trainer discusses: When participants complete identified training 'Identified training' is usually short-term training provided specifically to: • Meet individual staff need – as identified as a result of internal performance management/appraisals • Address identified/emerging workplace needs for a group of employees • Address training gaps – as identified by TNAs.

Slide

Determine the frequency for reviewing identified elements

Reviewing at the completion of identified training:

- Can be very expensive and time consuming
- May be regarded as excessive
- Can become irritating to those who are involved
- Greatly assists in ensuring training is properly targeted as required

Slide 89

Slide No	Trainer Notes
89.	Trainer notes reviewing at the completion of identified training: • Can be extremely time consuming – as theoretically every employee may require this type of training on potentially an on-going basis • Greatly assist in ensuring such training is properly targeted to individual need integrated with over-arching organisational goals and constraints.

Slide

Determine the frequency for reviewing identified elements

Reviewing in a cyclical manner:

- Reviews (only) nominated elements at pre-determined times
- Aims to ensure all elements are reviewed at least once, say, every 12 months
- Reduces time and cost
- Makes sure all identified are nonetheless covered within a given timeframe

Slide 90

Slide No	Trainer Notes
90.	Trainer discusses: In a cyclical manner This review option: ● Reviews nominated elements at pre-determined dates/times – as opposed to reviewing <i>all</i> elements at every review ● Means all required elements will have been reviewed (at least once) by the end of the cycle – with the cycle commonly being 12 months ● Reduces time and cost – compared to more regular reviews and/or reviewing all elements every time ● Makes sure all necessary elements are reviewed within the given timeframe – so the gap between identification of issues and their resolution is not excessive.

Slide

Determine the frequency for reviewing identified elements

'Reviewing at a designated time' means reviewing at a planned time, such as:

- Every six months
- Annually
- Other identified period
- Reviewing at designated time/s:
 - Enables better planning
 - May result in incomplete evidence being captured
 - May mean important issues are not identified soon enough

Slide 91

Slide No	Trainer Notes
91.	Trainer discusses: At a designated time This means the review occurs at a planned time – such as: ● Every six months ● Annually. Trainer notes reviewing at a designated time: ● Enables better planning for the process – because the 'date' is always known well in advance ● May result is incomplete evidence being captured – as reviews will often occur while training is still being delivered ● May mean important issues are not identified in a timely fashion – and problems are allowed to continue for an unacceptable period.

Slide

Determine the frequency for reviewing identified elements

'Following significant workplace change' may mean:

- After introduction of new equipment or work practices
- Following changes to workplace layout
- When jobs are re-designed
- As a consequence of legislated or other compliance requirements

Slide 92

Slide No	Trainer Notes
92.	Trainer discusses: Following significant workplace change Reviews following significant workplace change may take place: • After the introduction of new equipment • When changes are made to work practices • If there are substantial alterations to workplace layout • Where jobs are re-designed • As a consequence of newly imposed legislated or other compliance requirements.

Slide

Determine the frequency for reviewing identified elements

Reviews after significant workplace change:

- Are necessary to maintain compliance
- Often needed to maintain workplace competency
- Must integrate new training content with other training content
- Will help to optimise and up-date worker skills and knowledge

Slide 93

Slide No	Trainer Notes
93.	Trainer notes reviewing following significant workplace change: • Are necessary to ensure compliance issues are ensured • Are needed to maintain workforce competency with new systems, equipment and technology • Must be undertaken to integrate new/revised training content with other training content • Will optimise and update worker skills.

Slide

Determine the frequency for reviewing identified elements

Reviews in response to workplace events' may occur after:

- Workplace accidents
- Identified unacceptable outcomes
- Near misses
- Identification of new/different risk
- Legal action

Slide 94

Slide No	Trainer Notes
94.	Trainer discusses: In response to workplace events Reviews in response to workplace events may take place following: • Workplace accidents – where someone is injured and/or property is damaged • Identified unacceptable wastage • Near misses – where an incident occurred but no actual injury or damage resulted • Identification of risk which must be addressed • Legal action – being threatened or taken by authorities, other businesses or customers.

Slide

Determine the frequency for reviewing identified elements

Reviewing in response to workplace events:

- Allows targetting of causal factors
- Facilitates identification and integration of preventative action into standard training
- Helps demonstrate Duty of Care

Slide 95

Slide No	Trainer Notes
95.	Trainer notes reviewing in response to workplace events: • Allows targeted focus on causal factors • Facilitates identification and integration of preventative action into standard training delivery • Helps demonstrate the organisation is discharging its Duty of Care obligations.

Slide

Allocate responsibility for implementing identified reviews

Factors influencing who will be involved/have responsibilities:

- Size of business and workforce
- Number of staff being trained
- Diversity of qualifications/courses being offered
- If system is recognised or non-recognised
- Workload of those providing training and assessment-related contributions
- Finances available
- Compliance obligations imposed on the system

Slide 96

Slide No	Trainer Notes
96.	Trainer identified personnel who may be involved will vary between organisations/workplaces based on factors such as: • Size of the business and its workforce • Numbers of staff undertaking training and number of units, courses or qualifications being provided • Whether the system is a recognised training provider or an unrecognised one. Trainer continues to identify factors influencing who will be involved: • Training and assessment-related workload of those engaged with the system • Finance available to support the process • Compliance obligations imposed on the system.

Slide

Allocate responsibility for implementing identified reviews

- People who may be involved
- People from within the organisation
- People from outside the organisation

Slide 97

Slide No

Trainer Notes

97.

Trainer identifies people from within and outside the organisation who may be involved:

- Discuss how you would obtain from these people.

Slide

Allocate responsibility for implementing identified reviews

Notification of those with responsibilities:

- Must occur for all internal personnel
- Will be provided for under legislation or other agreements for officials and external representatives of funding/resources

Slide 98

Slide No	Trainer Notes
98.	Trainer provides overview of notification to be provided to those with responsibilities for reviews stating: • Internal staff and those from outside the organisation who are not officials or designated representatives of resource providers will need to be notified of their role in the review process • Officials or designated representatives of resource providers will undertake their review based on: ▪ Compliance obligations imposed by law ▪ Terms and conditions attaching to: – Contracts and agreements – Funding.

Slide

Allocate responsibility for implementing identified reviews

Notification/communication options:

- Distributing hard and/or soft copy advice
- Verbally explaining requirements
- Providing internal training

Slide 99

Slide No	Trainer Notes
99.	Trainer advises notification can occur by: ● Distributing a hard or soft copy plan or list to individuals – detailing: ▪ The specific tasks/duties each person is required to undertake ▪ Others involved in the same process ▪ Timing requirements – when actions can/must start and time/date by which they must be completed ▪ Time allowance for undertaking required action ▪ Resources available to support the identified/required actions ▪ Authority to take designated action ● Verbally explaining requirements – with reference to: ▪ Using group meetings, one-on-one discussions and/or formal presentations ▪ Detailing rationale/s for the review ▪ Highlighting importance of the process ▪ Stressing need to capture reliable and verifiable objective information to use as the basis for review-based decisions ▪ Answering questions and concerns

- Providing relevant internal training – comprising:
 - Demonstrations of activities required
 - Role plays
 - Practice and drill.

Classroom Activity – Demonstration and Practice

Trainer demonstrates how to communicate review responsibilities to personnel and provides opportunity for students to do the same.

Slide

Describe the procedures to be used in the review

Procedures may include:

- Analysis of materials and resources
- Analysis of training content
- Analysis of participant evaluation forms
- Interviews
- Analysis of operational data
- Observation
- Analysis of feedback received
- Meeting with stakeholders

Slide 100

Slide No	Trainer Notes
100.	Trainer indicates procedures which may be used in reviews of the workplace training system may include: • Analysis of materials and resources • Analysis of training content • Analysis of participant evaluation forms • Interviews • Analysis of operational data • Observation • Analysis of feedback received • Meeting with stakeholders.

Slide

Describe the procedures to be used in the review

'Analysis of materials and resources' – requires:

- Gathering, reading and evaluating training and assessment items – to determine:
 - Currency; Sufficiency; Clarity; Relevance, Utility
 - Compliance with special need
- Evaluating systems, equipment and technology – with reference to:
 - Access and safety
 - All issues mentioned for 'training and assessment items' above

Slide 101

Slide No	Trainer Notes
101.	Trainer indicates procedures which may be used in reviews of the workplace training system may include: Analysis of materials and resources This will require: ● Gathering together, reading and evaluating training and assessment items to determine: ▪ Currency; Sufficiency; Clarity; Extent to which they meet individual and/or special needs; Relevancy to actual/required workplace practice; Utility ● Evaluating physical equipment, systems and technology used to deliver training and assessment activities – to determine: ▪ Access to these resources when they are required; Safety; All factors identified under 'training and assessment items' immediately above. Classroom Activity – Exercise Trainer provides class with examples of training materials which are out-of-date and/or intentionally incorrect and asks them to review/up-date them.

Slide

Describe the procedures to be used in the review

'Analysis of training content' – needs to address:

- Comparisons of training content with current workplace practices and equipment used
- Investigations to verify national competency standards (where used) are current versions
- Improvements or changes which may have taken place in the industry with reference to aspects deemed relevant by the organisation

(Continued)

Slide 102

Slide No	Trainer Notes
102.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Analysis of training content Analysis of training content involves reading the training documentation and talking with trainers, assessors, learners and candidates as well as other stakeholders as appropriate to the organisation and the training system. This aspect needs to address: • Comparisons of training content with current workplace practices and equipment used – to verify workplace relevance and applicability • Investigations to verify national competency standards (where used) are current versions – and they have not been superseded by a different version • Improvements or changes which may have taken place in the industry with reference to aspects deemed relevant by the organisation – such as: ▪ Best Practice innovations ▪ Industry benchmarks.

Slide

Describe the procedures to be used in the review

- Amendments made by the organisation in relation to the competency/competencies being reviewed
- Sequencing of content
- Weighting of content

Slide 103

Slide No	Trainer Notes
103.	Trainer continues to discuss analysis of content: • Amendments made by the organisation in relation to the competency/competencies being reviewed – in terms of: ▪ Criteria to be used ▪ Standards to be achieved • Sequencing of content – relating to: ▪ Checking the order in which training topics are delivered ▪ Verifying assessments occur sufficiently after training has occurred • Weighting of content – with reference to: ▪ Ensuring correct proportionality for important topics – and topics of lesser importance ▪ Checking time and resources are allocated according to the priority of content/topics.

Classroom Activity – Guest Speaker

Trainer arranges for Training Manager from a workplace training system to attend and:

- Discuss role of reviews of the system
- Describe procedures used to review the system
- Identify when reviews are conducted
- Give examples of benefits which have flowed from reviews which have been completed.

Slide

Describe the procedures to be used in the review

'Analysis of participant evaluation forms' – these should/may be distributed:

- After each training session
- Following completion of topics or units
- When qualification has been completed

Slide 104

Slide No	Trainer Notes
104.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Analysis of participant evaluation forms It is SOP for trainers in many workplace training systems to provide learners with evaluation forms so they can provide feedback on their thoughts and experiences with the training system. These forms may be distributed to learners for their completion: ● After each training session ● Following completion of each topic or unit ● When a qualification or course has been finalised.

Slide

Describe the procedures to be used in the review

'Analysis of participant evaluation forms' – requires:

- Gathering together and reading all the forms that were completed and returned to the trainer
- Looking for trends in the responses/criticisms and/or suggestions
- Matching the comments/feedback provided to actual delivery

Slide 105

Slide No	Trainer Notes
105.	Trainer continues to discuss analysis of participant evaluation forms: Analysis of participant evaluation forms requires: ● Gathering together and reading all the forms that were completed and returned to the trainer ● Looking for trends in the responses/criticisms and/or suggestions – as opposed to one-off comments ● Matching the comments/feedback provided to actual delivery – as this may apply to: ▪ Individual trainers and their attitudes, skills and training competency ▪ Specific topics, courses or qualifications ▪ Content ▪ Resources and materials ▪ Timing and sequencing ▪ Extent to which training delivered skills and knowledge required by the participants to enable them to perform their allocated workplace duties. Classroom Activity – Exercise Trainer distributes and discusses anonymous batch of participant evaluation forms.

Slide

Describe the procedures to be used in the review

'Interviews' = face-to-face discussion which are a valuable source of information as they:

- Demonstrate reviews actually do occur in relation to the system
- Allow the non-verbal language of interviewees to be factored into contributions
- Encourage those interviewed to raise issues of their own

Slide 106

Slide No	Trainer Notes
106.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Interviews Interviews are face-to-face discussions with stakeholders. There is a view which states many <i>current</i> learners (that is, those still engaged with the training process and yet to be assessed) may be reluctant to provide legitimate negative feedback in this setting as they can believe such a response may jeopardise their assessment outcomes. This said, interviews are a valuable source of review information – as they: • Demonstrate reviews actually do occur in relation to the system – as opposed to simply being talked about • Allow the non-verbal language of interviewees to be factored into contributions – so the experienced interviewer can follow-up on what seems to be an important point • Encourage those interviewed to raise issues of their own – instead of only responding to topics identified by the interviewer.

Slide

Describe the procedures to be used in the review

Interviews may:

- Feature current and past participants
- Involve internal and external stakeholders
- Be conducted one-on-one or in a group
- Use a standard set of questions as the basis for the discussion

Slide 107

Slide No	Trainer Notes
107.	Trainer continues to discuss interviews noting interviews may: • Feature current and past participants • Involve internal and external stakeholders • Be conducted one-on-one or in a group content • Be based on a standard set of questions/issues relating to the specific elements which are to be addressed by the individual review. Classroom Activity – Demonstration and Practical Trainer demonstrates how to conduct an interview as part of a review process and gives students an opportunity to do the same.

Slide

Describe the procedures to be used in the review

'Analysis of operational data' – requires:

- Acquiring base line data
- Obtaining and evaluating information relevant to the specific objectives/elements being considered
- Drawing comparisons

Slide 108

Slide No	Trainer Notes
108.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Analysis of operational data Depending on the identified objectives for the training, the review may necessitate analysis of internal operational information to determine the extent to which those objectives have been achieved. The review of this data requires: • Acquiring base line data – which provides the benchmark against which later data can be compared • Obtaining and evaluating information relevant to the specific objectives/elements being considered – as prescribed for the individual review • Drawing comparisons between: ▪ Progress/achievements made ▪ 'Actual' results as identified by the data and 'projected' outcomes as described in the plans/training proposals.

Slide

Describe the procedures to be used in the review

Analysis of operational data must relate to identified outcomes/objectives for the training – such as:

- Less waste and accidents
- Improvements to productivity and/or service
- Increased sales/profit
- Certification of employees

Slide 109

Slide No	Trainer Notes
109.	Trainer continues to discuss analysis of operational data noting data which may be reviewed will need to reflect the identified objectives/projected outcomes and may relate to issues such as: • Reduction in wastage and accidents • Improvements in productivity and service levels • Increased sales and/or profit margins • Certification/compliance levels of employees.

Slide

Describe the procedures to be used in the review

'Observation' = visual observation of actions – may focus on:

- Trainers
- Assessors
- Workers
- Customers

Slide 110

Slide No	Trainer Notes
110.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Observation Observation refers to visual observation of identified people whose actions are relevant to the elements being addressed by the review. The observation may be focussed on: • Trainers – and their training practices • Assessors – and their assessment practices • Workers – noting their level of competency in the workplace • Customers – noting their reaction/response to being served by staff who have been trained.

Slide

Describe the procedures to be used in the review

Observation may feature:

- Physically watching people
- Using a checklist to record targeted data
- Recording action/s observed for later playback and analysis

Slide 111

Slide No	Trainer Notes
111.	Trainer continues to discuss observation noting it may feature: • Physically watching people – individuals or groups • Using a checklist to record targeted data – as required in relation to the elements being covered by the review • Recording action observed – for later playback and more detailed analysis.

Slide

Describe the procedures to be used in the review

'Analysis of feedback received' – it is important to ensure:

- System proactively solicits feedback
- All feedback received **MUST** be considered
- Stakeholders have a variety of ways to provide feedback
- Contributions are sought from all stakeholders
- Analysis of training-related feedback, including complaints, grievances, awards received

Slide 112

Slide No	Trainer Notes
112.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Analysis of feedback received Feedback provided to the system by those who are using and/or impacted by the system is valuable for all reviews. It is important to ensure: • The system must be proactive in soliciting feedback – the system must never just rely on feedback which is <i>offered</i> to it • All feedback must be considered – not just the positive contributions • Stakeholders are given a variety of feedback options – as opposed to, for example, <i>requiring</i> them to provide formal/written input • Contributions are sought from all stakeholders – as relevant to the nature of the review being conducted/the elements being researched • Analysis of training-related feedback, including complaints, grievances, awards received.

Slide

Describe the procedures to be used in the review

'Meeting with stakeholders' – will require:

- Organising and scheduling the meeting/s
- Providing advance notice of meetings and agenda items
- Recording the contributions made

Slide 113

Slide No	Trainer Notes
113.	Trainer continues to indicate procedures which may be used in reviews of the workplace training system may include: Meeting with stakeholders Meetings with stakeholders for the purposes of review will require: • Organising and scheduling the meeting/s – to ensure all stakeholders attend and are given the opportunity to participate • Providing advance notice – with reference to: ▪ Elements and issues to be addressed ▪ Expectations about contributions the stakeholders will make – for example, that: – Contributions are valid/legitimate – Comments are honest and without bias or malice – Input needs to be able to be justified/supported by evidence • Recording the contributions made – noting relevant remarks which may relate to: ▪ Levels of satisfaction with training and assessment provision ▪ Suggestions and reasons for change/improvements ▪ Identification of who made contributions – because it is often a fact of life the thoughts of certain stakeholders carry more weight/influence than the feedback of others.

Slide

Document approved procedures for review of workplace training system

- The procedures to be used when conducting reviews of the workplace training system must always be documented
- 'Documenting procedures' means putting them in written form
- Need to document the procedures to be used
- Criteria and/or standards which might apply

Slide 114

Slide No	Trainer Notes
114.	Trainer explains 'Documenting the procedures to be used' in the review process means developing them in written form, as opposed to allowing them to: • Discuss the points listed in the TM highlighting key points • Discuss the importance of having evidence of conducting reviews and ensuring training is maintaining currency in the workplace. Classroom Activity – Handouts Trainer distributes and discusses sample procedures for the review of a workplace training system.

Slide

Document approved procedures for review of workplace training system

- Sharing the procedures
- Distributing hard copy information
- Verbally explaining things
- Providing demonstrations/training in implementation of the procedures

Slide 115

Slide No	Trainer Notes
115.	Trainer notes options for sharing approved procedures with those who need to implement them may involve: ● Distributing hard copy information – in the form of: ▪ Checklists ▪ Step-by-step actions ● Verbally advising those involved – with a focus on: ▪ Detailing requirements and describing actions ▪ Explaining acceptable evidence ● Supplementing hard copy and verbal information – with: ▪ Training ▪ Demonstrations ▪ Drills.

Slide

Obtain management commitment to implement required changes

The following need to be considered in relation to gaining management approval to implement changes to a workplace training system:

- Required changes from 'certain sources' (such as the Training Authority) will receive a more positive response
- Those requesting the changes need to fully understand what is required

(Continued)

Slide 116

Slide No	Trainer Notes
116.	Trainer advises the following points will need to be considered in relation to gaining management approval to implement changes to a workplace training system: • Required changes issuing from certain sources will tend receive a more positive response from management – for example: ▪ Findings made as a result of an external audit by Training Authorities – as continued registration as a recognised provider (and potential to receive on-going government support/funding) depend on complying with these demands ▪ Results of a QMS audit (or audit by an industry accreditation body) – in order to maintain the reputation, registration and/or credibility of the business ▪ Key stakeholders always have more influence than non-key stakeholders • Those requesting the changes need to fully understand what is required – because they will/may have to: ▪ Explain them to others ▪ Generate options for solving/implementation ▪ Actually implement the required/approved changes.

Slide

Obtain management commitment to implement required changes

- Management must be given sufficient advance notice of the need for change
- The application for management approval to proceed and the request for them to commit to the required changes needs to be planned

Slide 117

Slide No	Trainer Notes
117.	Trainer continues to presents considerations for gaining management commitment to changes: • Management must be given sufficient advance notice of the need for change – so they can: ▪ Consider the request/requirements ▪ Determine options ▪ Make decisions • The application for management approval to proceed and the request for them to commit to the required changes needs to be planned – time and effort needs to be taken to: ▪ Determine the pitch ▪ Decide timing and location for the request/s ▪ Prepare supporting materials to prove/demonstrate need and/or benefits.

Slide

Obtain management commitment to implement required changes

- Obtaining management approval and commitment
- Provide copies of audit reports together with required changes
- Estimate costs associated with making the changes
- Describe and quantify consequences if the organisation elects not to proceed with making identified changes

(Continued in TM)

Slide 118

Slide No	Trainer Notes
118.	Trainer identifies procedures for obtaining management approval and commitment: • Work through the points in the TM. Classroom Activity – Small Group Exercise Trainer: • Divides class into small groups • Provides each group with proposed changes to a workplace system based on reviews conducted • Asks groups to develop and deliver a presentation to 'management' regarding the proposed changes • Ensure all work projects have been completed and handed into trainer ensuring cover page details are attached for assessment tracking • Review the summary page for Element 4 to confirm what has been completed for this element.

Slide

Element 5 – Prepare to implement the workplace training system

Performance Criteria for this Element are:

- Develop an implementation plan for the training system
- Prepare trainers and assessors in accordance with identified need
- Prepare training programs to provide identified training
- Obtain resources to support training delivery
- Recruit participants for training

Slide 119

Slide No	Trainer Notes
119.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • What is an implementation plan? What might it contain? • Who prepares it? • Why is there a need for one?

Slide

Develop an implementation plan for the training system

- Need for an implementation plan
- Contents of the implementation plan
 - General format/layout
 - Phases
 - Objectives

Slide 120

Slide No	Trainer Notes
120.	Trainer presents reasons for an implementation plan: • Discuss relevant points in order to prepare trainees for activity. Have trainees highlight key points in TM • Encourage trainees to view websites for useful information (trainer should have viewed websites to recommend preferred sites) Classroom– Handout Trainer distributes and discusses sample implementation plan for a workplace training system. Classroom – Handout Trainer distributes and discusses sample Communications Plan. Activity • In small groups trainees are to read the section and begin to implement a training system in a chosen workplace. Trainees will need analyse the information in the TM and layout their plan. The trainer will circulate the room assisting with questions and direction • A time allowance is to be allocated.

Slide

Prepare trainers and assessors in accordance with identified need

- All trainers and assessors who will operate/work in the workplace training system must be prepared in accordance with identified need
- Activities required
- The importance of this step

Slide 121

Slide No	Trainer Notes
121.	Trainer presents reasons to prepare trainers and assessors: ● Have trainees highlight key points to note in TM in preparation for continuation of activity Activity Following on from previous section, trainees (in their groups) will now identify a trainer for their workplace training system (perhaps someone from within the group). ● The trainer needs to meet requirements as listed in TM notes ● How will the group ensure the trainer and assessor are prepared. Review the TM notes and detail actions as a group ● Trainer will circulate the room assisting as needed and answering questions. Classroom Activity – Guest Speaker Trainer arranges for Training Manager in a workplace training system to attend and: ● Discuss their procedures for preparing training and assessors ● Explain how procedures are applied/implemented ● Give advice regarding preparation of trainers and assessors ● Supply copies of relevant documentation.

Slide

Prepare training programs to provide identified training

'Training programs':

- Courses/qualifications
- Topics/content
- A 'unit' or competency standard
- Short- or –lone-courses
- Recognised/accredited and non-recognised training

Slide 122

Slide No	Trainer Notes
122.	Trainer defines training programs stating they may be seen as: • Courses/qualifications delivered by a provider • Topics/content delivered as part of wider training – for example, certain Elements of recognised competency standards • An individual competency standard/unit or a designated group of competency standards which is less than the requirements for the awarding of a qualification • Short courses or longer-term courses • Recognised/accredited training or non-recognised/accredited training.

Slide

Prepare training programs to provide identified training

It is important to determine how this term is understood in the individual workplace so that:

- There is clarity about its use
- There is no confusion about meaning and what it includes
- Everyone is 'on the same page' regarding what it covers

Slide 123

Slide No	Trainer Notes
123.	Trainer notes it is important to determine how this term is understood in the individual workplace so that: • There is clarity about its use • There is no confusion about what it means and what it includes • All people using the term are referring to the same thing.

Slide

Prepare training programs to provide identified training

Basis for developing training programs:

- Competency standards provided by the relevant Training Authority – where training is to be accredited
- Competencies, standards and criteria identified by the individual workplace – as these may apply to:
- Identified employee need
- Identified organisational need

Slide 124

Slide No	Trainer Notes
124.	Trainer identifies basis for developing training programs: • Competency standards provided by the relevant Training Authority – where the workplace training system is a recognised/accredited training provider • Competencies, standards and criteria identified by the individual workplace – as this may apply to: ▪ The right of recognised/accredited training providers to modify competency standards to suit individual workplace (or industry) need ▪ Non-endorsed elements of accredited training packages • Trainer continues to identify basis for developing training programs: • Identified individual employee need – of learners as determined by, for example: ▪ TNAs ▪ Skills audits and analysis ▪ Compliance-related need ▪ Self-disclosure of need by individual workers ▪ Observations of management and supervisors ▪ Feedback/comments from customers and co-workers

	• Organisational need – as determined with reference to: ▪ Business plans ▪ Strategic targets ▪ Operational imperatives ▪ Identified Opportunities open to the business ▪ Identified Threats facing the business ▪ HR planning requirements.
--	---

Slide

Prepare training programs to provide identified training

- Relationship between training programs and assessment
- Organisation may conduct all its own assessment
- Organisation may out-source assessment
- If system is not accredited, it may not assess at all
- Some organisations believe the person who delivers the training should not be the person who conducts the assessment

Slide 125

Slide No	Trainer Notes
125.	Trainer discusses relationship between training and assessment noting: • The workplace may opt to provide internal assessment for all the training programs delivered by the organisation – covering, as appropriate: ▪ Recognised/accredited training ▪ Non- recognised/accredited training • The organisation may decide to out-source all assessment services – to: ▪ A professional external consultant with appropriate qualifications and experience ▪ A suitable recognised/accredited training provider • Where the system is not a recognised/accredited provider the organisation may elect to conduct no formal assessment for those who have undertaken training – but may use an informal approach featuring, perhaps: ▪ On-the-job observations of performance ▪ Discussions with supervisors and co-workers regarding the competency of the individual • Use different people to provide the training and do the assessment for that training – so there is separation of responsibilities ▪ Some people believe it is unacceptable for the person who conducts the assessment to be the same person who delivered the training ▪ Some people are quite happy to use the same person to undertake both training and assessment for the same training program/content.

Classroom Activity – Guest Speaker

Trainer arranges for workplace Trainer to attend and:

- Discuss their experience with preparing workplace training programs
- Show examples of programs they have developed
- Give advice on how to develop workplace training programs.

Slide

Prepare training programs to provide identified training

- Activities in the process
- Reviewing existing/endorsed competency standards to be used
- Developing new competency standards necessary to meet internal requirements
- Designing the program
- Preparing time-tables
- Developing training plans
- Developing assessment items and plans
- Developing session plans

Slide 126

Slide No	Trainer Notes
126.	Trainer presents activities in preparing training programs referring to notes in TM. Discuss any relevant points in associated with earlier activity conducted in small groups. Classroom Activity – Handouts Trainer distributes and discusses sample documents as identified on the slide.

Slide

Prepare training programs to provide identified training

- Identification of training methods/strategies
- Should reflect any known learning preferences of the learners
- Need to be appropriate to the content
- Must enable delivery to occur within the known parameters

(Continued)

Slide 127

Slide No	Trainer Notes
127.	Trainer highlights important considerations when selecting training methods/strategies: ● Should reflect any known learning preferences of the learners – this is ideally the case but often not possible ● Need to be appropriate to the content of the individual competency standard being presented ● Must enable delivery to occur within the known parameters – especially in relation to budget and time.

Slide

Prepare training programs to provide identified training

- Should introduce diversity into the training and help motivate learners
- Must be able to be accommodate all the learners

(Continued)

Slide 128

Slide No	Trainer Notes
128.	Trainer continues to highlight important considerations when selecting training methods/strategies: • Should address and reflect the known assessment requirements for the competency standard – as discussed with the Assessor/s who will conduct assessments for the content • Should introduce diversity into the training and help motivate learners – to help avoid learner boredom • Must be able to be accommodate all the learners – and not just some/a selected few.

Slide

Prepare training programs to provide identified training

- Have to reflect the availability of supporting physical resources
- Will often be selected to best fit with individual Trainer:
 - Personality
 - Preference for teaching

Slide 129

Slide No	Trainer Notes
129.	Trainer continues to highlight important considerations when selecting training methods/strategies: ● Should address and reflect the known assessment requirements for the competency standard – as discussed with the Assessor/s who will conduct assessments for the content ● Should introduce diversity into the training and help motivate learners – to help avoid learner boredom ● Must be able to be accommodate all the learners – and not just some/a selected few.

Slide

Prepare training programs to provide identified training

- Different training methods can be used when delivering training:
 - Skill
 - Knowledge
 - Attitude

Slide 130

Slide No	Trainer Notes
130.	Trainer notes different methods have different applicability for training of: • Skill • Knowledge • Attitude.

Slide

Prepare training programs to provide identified training

● Training delivery options:

- Demonstration
- Lecture
- Brainstorming
- Role plays
- Case study
- Group discussion
- Questioning
- Excursions/field trips
- Practice/drill

Slide 131

Slide No	Trainer Notes
131.	Trainer identifies the sample training delivery options and explain each. Classroom Activity – Demonstration Trainer provides mini demonstration of the training options identified on the slide.

Slide

Prepare training programs to provide identified training

Assessment:

- Planning of training programs also needs to consider the assessment to be provided
- Evidence is gathered to demonstrate competence in the skills and knowledge required by the units of competency

Slide 132

Slide No	Trainer Notes
132.	Trainer discusses assessment stating: ● Planning of training programs also needs to consider the assessment to be provided ● Evidence is gathered to demonstrate competence in the skills and knowledge required by the units of competency.

Slide

Prepare training programs to provide identified training

In relation to assessment:

- 'Principles of Assessment' must be applied:
 - Fairness
 - Flexibility
 - Validity
 - Reliability

Slide 133

Slide No	Trainer Notes
133.	Trainer presents standard requirements regarding CBA observing it is necessary where CBA is being undertaken that: ● The recognised 'Principles of Assessment' are applied – that is: ▪ Fairness ▪ Flexibility ▪ Validity ▪ Reliability. Classroom Activity (1) – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.asqa.gov.au/users-guide-to-the-standards-for-registered-training-organisations-2015/about-the-standards-for-rtos/standard-one/clauses/clauses-1.8--1.12.html - Users' Guide to the Standards for RTOs 2015 Classroom Activity (2) – Discussion Trainer discusses how the Principles of Assessment can be implemented in a practical way.

Slide

Prepare training programs to provide identified training

'Rules of Evidence' must be followed:

- Validity
- Sufficiency
- Authenticity
- Currency

Slide 134

Slide No	Trainer Notes
134.	Trainer continues to present mandatory requirements for assessment: • The required 'Rules of Evidence' are followed – that is: ▪ Validity ▪ Sufficiency ▪ Authenticity ▪ Currency. Classroom Activity – Guest Speaker Trainer arranges for experienced workplace assessor to attend and: • Discuss their role and experience/s • Demonstrate how they apply Principles of Assessment • Explain how they comply with Rules of Evidence • Provide sample documentation.

Slide

Prepare training programs to provide identified training

Assessment options

- Practical skills may be assessed through:
 - Observation of real work
 - Use of simulations
 - Analysis of 'finished products' (documents, tickets, work produced)

Slide 135

Slide No	Trainer Notes
135.	Trainer lists options for assessing practical skills: ● Real work – observation, using: ▪ Checklists ▪ Projects ▪ Project teams ▪ On-the-job practical tasks ● Simulated work/demonstrations – observation, using: ▪ Checklists ▪ Projects ▪ Assignments ▪ Role Plays ● Analysis/evaluation of finished products, items, documentation – produced by candidates.

Slide

Prepare training programs to provide identified training

Options for assessing knowledge:

- Written questions, exercises, case studies, essays, projects, assignments
- Verbal/oral questions

Slide 136

Slide No	Trainer Notes
136.	Trainer lists options for assessing knowledge: • Written format – such as: ▪ Multiple choice questions ▪ Short answer questions ▪ Assignments ▪ Projects ▪ Essays ▪ True/False questions • Oral format – such as: ▪ Oral questions ▪ Role plays ▪ Interviews ▪ Presentations by the learner ▪ Discussion groups ▪ On- and off-the-job questions.

Slide

Prepare training programs to provide identified training

'Assessment items' (or 'assessment tools'):

- Must be designed to test/measure competency
- Used to collect evidence to make the 'C' or 'NYC' decision
- Can be used on their own, and in combination with others

Slide 137

Slide No	Trainer Notes
137.	Trainer discusses assessment items observing: • To collect evidence 'assessment tools' (also known as 'assessment items') will need to be used • These tools are used to collect and interpret evidence of competence • Assessment tools can be used in combination or by themselves provided that they 'test, measure' the competency.

Slide

Prepare training programs to provide identified training

Assessment items/tools need to reflect the assessment being conducted – for example:

- If doing an 'Interview' a Questionnaire might be used
- If conducting an observation of learner actions, a Checklist could be used
- If watching a demonstration, a Checklist would be suitable
- If asking Oral Questions a sheet listing the questions and able to capture answers would be used

Slide 138

Slide No	Trainer Notes
138.	Trainer notes Assessment tools will reflect the nature of the assessment method/s to be used – for example: • If doing an 'Interview' a Questionnaire might be used • If conducting an observation of learner actions, a Checklist could be used • If watching a demonstration, a Checklist would be suitable • If asking Oral Questions a sheet listing the questions and able to capture answers would be used. Classroom Activity – Handouts and Demonstrations Trainer distributes and discusses examples of assessment items as identified on the slide and demonstrates their use.

Slide

Obtain resources to support training delivery

- Resources
- Generic resources
- Competency-specific resources

Slide 139

Slide No	Trainer Notes
139.	Trainer identifies and discusses resources. Remind trainees not to assume these items will be available. Always double check. You may need to book, order, request or locate from another area or department. Always allow time to prepare your training space adequately.

Slide

Obtain resources to support training delivery

Important considerations when obtaining resources:

- Host country legislation must be obtained
- Everything must be industry-relevant
- Must obtain 'sufficient' quantity
- Must be safe to use
- Must reflect actual/current workplace practice

Slide 140

Slide No	Trainer Notes
140.	Trainer lists important considerations when obtaining resources: • Host country legislation is obtained – where competency standards refer to legislation there is a need to obtain the legislation applicable to the country where the qualification/unit is being delivered • Industry relevance – all forms, documentation, examples and samples must represent what is being used in the industry/organisation • 'Sufficient' resources are available – there will nearly always be some need for learners to share certain resources and this requirement needs to be factored into the session plans which are developed but there will also always some basic minimum number of items which are essential and without which the training cannot take place • All resources are safe to use – this is the single most critical element relating to physical resources used for training • Resources are current – they need to reflect the items used in the industry/organisation the learners are working in.

Slide

Obtain resources to support training delivery

- Resources and training materials – preparation, development and acquisition
- Basic options
 - Generating them from scratch
 - Revising existing materials
 - Using again items which have been previously used
- Essential standards

Slide 141

Slide No

Trainer Notes

141.

Trainer discusses preparation and development of resources noting readying of resources and materials to support training may necessitate:

- Generating them from scratch
- Revising existing materials
- Using again items which have been previously used.

Slide

Obtain resources to support training delivery

Options for acquiring resources:

- Buy them in
- Ask suppliers to donate
- Request loans from industry

(Continued)

Slide 142

Slide No	Trainer Notes
142.	Trainer presents options for acquiring resources: • Purchase them – from professional suppliers of training support materials • Ask suppliers to donate • Request loan of them from industry partners, carriers, or bodies. Classroom Activity – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://www.waseantourism.com/ - ASEAN-Australia Development Cooperation Program Phase II: Repository for resources produced by William Angliss Institute

Slide

Obtain resources to support training delivery

- Conduct excursions/field trips
- Purchase with other training providers to share cost
- Seek government funding

Slide 143

Slide No	Trainer Notes
143.	Trainer presents options for acquiring resources: • Conduct excursions/field trips to workplaces and use what is available at those locations • Share them (and the cost of purchase) – with other training providers and/or organisations that have a workplace training system • Seek government funding for their acquisition. Classroom Activity (1) – Internet Research Trainer supervises internet research and subsequent classroom discussion by visiting: http://corporatetrainingmaterials.com/pages/training_library.asp - Commercial site http://www.futuragroup.com.au - Commercial site http://www.didasko.com/sit12.php - Commercial site. Classroom Activity (2) – Guest Speaker Trainer arranges for representative from training resource provider organisation to attend and: • Show samples of products/resources available • Identify cost/s • Demonstrate use.

Slide

Recruit participants for training

Recruitment activities

- Activities which may be involved in the recruitment of participants/employees for the workplace training system can include:
 - Reviewing existing qualification and competencies of staff to determine need
 - Identifying potential learners
 - Inviting learners to engage with training
 - Identifying and inviting candidates for assessment

(Continued)

Slide 144

Slide No	Trainer Notes
144.	Trainer describes activities involved in recruitment of participants: ● Reviewing existing qualification and competencies of staff – to determine: ▪ Are they current? ▪ Are they relevant? ▪ Are they sufficient? ▪ Are they compliant? ▪ Is refresher and/or update training required? ● Identifying potential learners – on the basis of: ▪ Formal analysis ▪ Requests from employees for training ▪ Management directives ▪ Mandatory requirements established by the organisation for jobs as stated in job descriptions/internal documents ● Inviting learners to training – using: ▪ One-to-one discussions ▪ Explanations of need ▪ Illustration of benefits flowing from and support for training ▪ Scheduling and organising their attendance with their supervisor/manager

	• Identifying and inviting candidates for assessment – where there: ▪ Is need for the system to formally assess worker qualifications ▪ Is facility to embrace RPL and/or RCC ▪ May be revenue to be earned from conducting vocational assessments.
--	--

Slide

Recruit participants for training

- Holding information sessions and 'selling the benefits' of training
- Mandating attendance
- Providing 'sufficient' advance notice of training/assessment

Slide 145

Slide No	Trainer Notes
145.	Trainer continues to describe activities involved in recruitment of participants: ● Holding information sessions – for: ▪ All staff ▪ Targetted groups and individuals ▪ Key stakeholders ▪ Media ▪ Training and business partners ● Mandating attendance/participation – with reference to: ▪ Advising staff that participating in required training is a condition of employment ▪ Explaining all required training is conducted during paid working hours and is provided free-of-charge by the organisation ▪ Identifying timing of training dates and projected duration of training ● Notifying staff in advance – regarding: ▪ Their obligation to attend training ▪ Identification of training venues/locations ▪ Specification of individual training and assessment times ▪ Duration of training/assessment ▪ Training topics/content

	• Ensure all work projects have been completed and handed into trainer ensuring cover page details are attached for assessment tracking • Review the summary page for Element 5 to confirm what has been completed for this element.
--	--

Slide

Element 6 – Establish quality assurance procedures for workplace training system

Performance Criteria for this Element are:

- Establish a quality assurance group
- Document draft verification processes that the quality assurance group will undertake
- Trial the draft quality assurance procedures
- Advise trainers in relation to established and confirmed quality assurance procedures

Slide 146

Slide No	Trainer Notes
146.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide. Class Activity – General Discussion Trainer leads a general class discussion by asking questions such as: • What is QA? What does it mean/entail in relation to workplace training? • What experience do you have with implementation of QA/quality schemes in the workplace? • What are 'verification processes'? Why are they needed? • Why do workplace training systems require QA?

Slide

Establish a quality assurance group

Context for quality:

- Quality Management should cover all aspects of the workplace training system
- QM must be planned and on-going
- Aim should be to ensure 'quality' and improve outcomes
- Must be evidence-based

(Continued)

Slide 147

Slide No	Trainer Notes
147.	Trainer discusses context for quality stating it is important to understand: • Quality Management of the workplace training system should extend across all aspects of activities and performance – not just selected aspects • The Quality Management System represents a planned, ongoing process aimed at ensuring quality and improving outcomes for learners, the organisation and stakeholders • The Quality Management System must be evidence-based.

Slide

Establish a quality assurance group

- QM is central to achieving organisational goals
- QM provides the platform for future development
- QM is a key aspect for initial registration and on-going registration as a recognised training provider

Slide 148

Slide No	Trainer Notes
148.	Trainer continues discusses context for quality: • Quality Management will be fundamental to achieving the organisation's mission • Quality Management provides a platform for future development, meeting future workforce needs and maintaining the reputation and operational capacity of the organisation • Quality management is generally a key aspect of initial and ongoing registration requirements for accreditation/recognition by the Training Authority. Classroom Activity – Guest Speaker Trainer arranges for official from national Training Authority to attend and: • Describe quality requirements for initial and on-going registration as a provider • Illustrate how to meet/comply with requirements • Provide sample documentation • Give practical advice on compliance.

Slide

Establish a quality assurance group

QA is one part of an effective QMS built around three principles:

- QA
- CQI
- Quality Leadership

Slide 149

Slide No	Trainer Notes
149.	Trainer notes Quality Assurance is one part of an effective Quality Management System built around three principles: • Quality Assurance – through its Quality Assurance activities the organisation ensures that all training and assessment quality requirements are met • Continuous Quality Improvement – through its Continuous Quality Improvement processes the organisation is systematically reviewing its training and assessment activities and identifying improvements • Quality Leadership – through Quality leadership the organisation is moving beyond compliance and continuous quality improvement to a space where it is aiming to set benchmarks and levels of excellence to which others will aspire.

Slide

Establish a quality assurance group

Activities in establishing a QA group:

- Identifying participants
- Explaining the role of quality management within the training system
- Allocating responsibilities to group members

(Continued in TM)

Slide 150

Slide No	Trainer Notes
150.	Trainer identifies activities in establishing a quality assurance group may include: • Identifying participants – who can make worthwhile contributions to the group (see below) • Explaining the role of quality management within the training system – so there is: ▪ Genuine understanding of the meaning of quality management as it related to training and assessment as opposed to the meaning of quality with respect to other operations of the business ▪ Clear and definite appreciation of the responsibilities which attach to being a member of the group • Allocating responsibilities to group members – in order to: ▪ Share the workload ▪ Ensure all required responsibilities are discharged as required.

Slide

Establish a quality assurance group

Membership of the QA group may be:

- Specified by the Training Authority – where the system is a recognised provider
- Determined by the organisation – where the system is not a recognised provider

Slide 151

Slide No	Trainer Notes
151.	Trainer indicates membership of the group may be: ● Specified by the Training Authority – who may (for example): ▪ Nominate positions in the organisation that must be part of the group – such as the CEO ▪ Stipulate positions which must be filled ▪ Indicate required expertise, experience and/or qualifications of members ▪ Identify the number of people in the group ● Determined by the organisation where the workplace training system is not a recognised training provider – in this case composition of the group may include: ▪ A person who is a full-time Quality Manager – or who has the responsibilities of Quality Manager allocated to them as part of their job description and workplace responsibilities ▪ CEO – or representative ▪ Head/Manager of the Training department ▪ Trainers and assessors ▪ Members of the Board of Management ▪ Representatives from external providers who have contributed to establishing the QMS for the workplace training system.

Classroom Activity – Guest Speaker

Trainer arranges for a QA group member from a workplace training system to attend and:

- Describe their role and responsibilities
- Advise of the roles and responsibilities of others in the group
- Provide sample documentation relating to quality.

Slide

Establish a quality assurance group

Role of the QA group:

- Providing an advisory and leadership role
- Preparing training and assessment plans and goals in relation to the workplace training system quality

(Continued)

Slide 152

Slide No	Trainer Notes
152.	Trainer describes role of the group: • Providing an advisory and leadership role with respect to quality management of training and assessment across the organisation • Preparing training and assessment plans and goals in relation to the workplace training system quality.

Slide

Establish a quality assurance group

- Aligning the quality management of the workplace training system with all relevant strategic themes and goals of the wider organisation
- Overseeing and monitoring training and assessment quality policies and procedures
- Managing quality issues

Slide 153

Slide No	Trainer Notes
153.	Trainer continues to describe role of the group: • Aligning the quality management of the workplace training system with all relevant strategic themes and goals of the wider organisation so there is harmony between all elements of the business • Overseeing and monitoring training and assessment quality policies and procedures • Managing quality issues in relation to the workplace training and assessment system.

Slide

Document draft verification processes that the QA group will undertake

Key Activities for QA:

- Development of communication plans
- Development of training and assessment quality management processes
- Development of audit protocols
- Goals

Slide 154

Slide No	Trainer Notes
154.	Trainer presents Key Activities for QA: <i>Development of communication plans</i> It is necessary to: • Prepare communication plans that outline who is responsible and accountable for managing key quality assurance activities • Identify what is required to demonstrate quality as per: ▪ The standards of the Training Authority – where the workplace system is registered/accredited ▪ Internal organisational standards/criteria – where the system is not registered and/or where the organisation elects to establish requirements in excess of the mandated minimum • Share the plans with relevant stakeholders/those with responsibilities under the plan. <i>Development of training and assessment quality management processes</i> It is necessary to: • Establish training and assessment quality management processes to satisfy internal and/or external requirements • Prepare processes for monitoring implementation of the QMS

- Develop processes for evaluating the QMS
- Share the processes with relevant stakeholders/those who are designated to implement the processes.

Development of audit protocols

It is necessary to:

- Create a suitable and compliant audit schedule
- Prepare tools that will enable the system to systematically review its training and assessment activities
- Share the protocols with relevant stakeholders.

Slide

Document draft verification processes that the QA group will undertake

Key Activities for CQI:

- Develop CQI processes
- Develop risk management regime
- Goals

Slide 155

Slide No	Trainer Notes
155.	Trainer discusses Key Activities for CQI: <i>Develop CQI processes</i> It is necessary to: • Plan processes that provide continuous quality improvement – in relation to: ▪ Operational training activities ▪ Operational assessment activities ▪ Services to support learners and candidates ▪ Training-related research ▪ Practical teaching and learning ▪ Relations with stakeholders ▪ External partnerships and industry engagement • Develop process to enable management of the above. <i>Develop risk management regime</i> It is necessary to prepare a risk management system which; • Identifies training and assessment and workplace training system risks

	• Evaluates risks, consequences and the possible impact of poor quality in respect: ▪ The workplace system's operational activities ▪ Learner and candidate support ▪ Resourcing ▪ Participation in/engagement with the system ▪ Training-related research ▪ Practical teaching and learning ▪ Relations with stakeholders ▪ External partnerships and industry engagement.
--	--

Slide

Document draft verification processes that the QA group will undertake

Key Activities for Quality Leadership:

- Development of new technologies, innovative pedagogies, and academically rigorous and vocationally-relevant curricula
- Industry and stakeholder engagement and partnerships to facilitate innovation and contemporary thought and practice
- Training and assessment staff committed to continuous improvement
- Goals

Slide 156

Slide No	Trainer Notes
156.	Trainer discusses Key Activities for Quality Leadership explaining they may address: • The development of new technologies, innovative pedagogies, and academically rigorous and vocationally-relevant curricula that reflect contemporary discipline-based debate and current and emerging industry needs • Industry and stakeholder engagement and partnerships that will facilitate innovation and contemporary thought and practice • Training and assessment staff committed to the continuous improvement of their educational programs and practice.

Slide

Document draft verification processes that the QA group will undertake

- Considerations and activities
- Objectives
- Options

Slide 157

Slide No	Trainer Notes
157.	Trainer identifies objectives of verification processes: • Capture/generate information on which to make quality-related decisions about the workplace training system • Decide/establish the accuracy of the information captured/generated • Determine the operational effectiveness of the workplace training system in relation to identified quality-specific topics.

Slide

Document draft verification processes that the QA group will undertake

- Establishment activities
- Possible focus for QA procedures
- Practical documentation activities

Slide 158

Slide No	Trainer Notes
158.	Trainer works through points in TM. Trainer states QA procedures may address/include: ● Conduct of regular activities – such as: ▪ Evaluations ▪ Reviews ▪ Audits ● Mandatory professional development requirements – for: ▪ Trainers ▪ Assessors ▪ Resource writers. Trainer continues to discuss and explain points listed in TM asking trainees to highlight key points. Classroom Activity – Handouts Trainer distributes and discusses sample QA procedures as identified on the slide.

Slide

Trial the draft quality assurance procedures

Activities in trialling draft QA procedures:

- Submitting draft processes for pre-trial feedback
- Obtaining initial authorisation to proceed with the trial
- Communicating the draft processes
- Conducting training with staff
- Scheduling the trials
- Implementing the draft process/es

(Continued)

Slide 159

Slide No	Trainer Notes
159.	Trainer presents activities in the trialling of draft quality assurance procedures: • Submitting draft processes to stakeholders for pre-trial feedback – even though a team approach may have been used to develop the draft processes, distributing drafts for pre-trial comment can save lots of time • Obtaining initial authorisation to proceed with the trial – this may be a requirement given implementation of QA processes can cost a significant amount in terms of time and money as well as considerable disruption to standard day-to-day work activities • Communicating the draft processes – to those who have been allocated responsibilities for applying the processes • Trainer continues to present activities in the trialling of draft quality assurance procedures: ▪ Conducting training with staff – so they have base competency with implementing the processes they have been allocated ▪ Scheduling the trials – with aims of: – Accommodating standard operational imperatives of the organisation and the Training department – Ensuring all contributors are paid to participate/engage with the initiative – Integrating the demands of the initiative within the other obligations imposed on respondents – Implementing the draft process – strictly in accordance with the drafted instructions.

Slide

Trial the draft quality assurance procedures

- Involving representatives of national Training Authority and/or the body operating the system in the trials
- Capturing required information
- Noting points which have arisen during the trial
- Reviewing implementation of draft verification processes
- Revising draft quality assurance procedures as necessary

(Continued)

Slide 160

Slide No	Trainer Notes
160.	Trainer continues to present activities in the trialling of draft quality assurance procedures: • Involving representatives of the national Training Authority and/or the body operating the system in the trials – if the training system is recognised and if they are willing to participate • Capturing required information – as prescribed/identified by the individual processes and as provided by respondents or the data/records being assessed • Noting points which have arisen during the trial – which need to be accommodated as part of the review and revision parts of the procedure • Trainer continues to present activities in the trialling of draft quality assurance procedures: • Reviewing implementation of draft verification processes – using: ▪ The data obtained ▪ Feedback provided by respondents ▪ A team approach ▪ Representatives from the national Training Authority and/or the body operating the system • Revising draft quality assurance procedures as necessary – on the basis of feedback and trial implementation.

Slide

Trial the draft quality assurance procedures

- Reviewing implementation of draft verification processes
- Revising draft quality assurance procedures as necessary

(Continued in TM)

Slide 161

Slide No	Trainer Notes
161.	Trainer continues to present activities in the trialling of draft quality assurance procedures: ● Reviewing implementation of draft verification processes – using: ▪ The data obtained ▪ Feedback provided by respondents ▪ A team approach ▪ Representatives from the national Training Authority and/or the body operating the system ● Revising draft quality assurance procedures as necessary – on the basis of feedback and trial implementation.

Slide

Advise trainers in relation to established and confirmed QA procedures

Reasons to advise trainers/assessors – so:

- They understand how their performance will (in part) be evaluated
- They gain greater appreciation of registration/accreditation and compliance requirements
- They know the areas of their work which are subject to targeted analysis/evaluation

(Continued)

Slide 162

Slide No	Trainer Notes
162.	Trainer presents reasons to advise trainers and assessors regarding QA processes that will be used – so: • They understand how their performance will (in part) be evaluated – and this often removes fear, worry and concern about the process • They gain greater appreciation of registration/accreditation and compliance requirements – which helps them better understand the overall system they are working within • They know the areas of their work which are subject to targeted analysis/evaluation – and so they can focus their efforts to ensure these areas receive suitable attention and effort.

Slide

Advise trainers in relation to established and confirmed QA procedures

- The organisation and/or the Training Authority demonstrates openness and transparency
- They can better locate Quality Management in the overall context of the operations of the organisation
- Realise other trainers and assessors are also subject to the same/similar processes

Slide 163

Slide No	Trainer Notes
163.	Trainer continues to present reasons to advise trainers and assessors regarding QA processes that will be used so: • The organisation and/or the Training Authority demonstrates openness and transparency – rather than judging/evaluating them on 'secret' criteria • They can locate Quality Management better – within the overall context of the operations of the organisation and the training system • They realise other trainers and assessors in other workplace training systems are also subject to the same/similar processes – and they are not being targeted or victimised. Classroom Activity – Excursion Trainer arranges excursion to organisation with a workplace training system to: • Meet with and talk to personnel with quality-related responsibilities • Learn of their quality procedures/protocols • Obtain sample documentation • Observe quality verification procedures in action.

Slide

Advise trainers in relation to established and confirmed QA procedures

Ways to provide advice:

- Supplying hard and/or soft copy information
- Providing verbal explanations
- Giving formal training

Slide 164

Slide No	Trainer Notes
164.	Trainer advises ways to advise trainers and assessors regarding established and confirmed QA/QMS processes: ● Provision of copies of relevant documents – these can include: ▪ Policies and procedures ▪ General advice and information ▪ Schedules and time-tables for implementation ▪ Roles and responsibilities ▪ Operational documentation – recording sheets, checklists, questionnaires, interview sheets, product analysis sheets ▪ Copies may/should be hard copy and soft copy versions ● Verbal explanations featuring contributions by the Quality management team/group and representatives from the national Training Authority and/or relevant other bodies – highlighting: ▪ Rationale for implementation ▪ Consequences of failing to implement as required ▪ The development process ▪ Use which will be made of the data/results/findings ▪ Roles and responsibilities ▪ Time allocations ▪ Resources to support/enable implementation

Recommended training equipment

Sample organisation charts for relevant businesses

Business and strategic plans which include references to training and internal training systems

Vocational training legislation of host country

Registration/application requirements for workplace training systems as prescribed by national/local Training Authority – including copies of documentation to be completed to lodge an application for registration

Copy of requirements from local Training Authority for engagement of trainers and assessors to be used under the formal (registered/accredited) vocational training and assessment system

Samples of record keeping documentation – rolls, training records, assessment records, records of issuing certificates and/or Statements of Attainment

Codes of Practices/Conduct for trainers and assessors, and learners and candidates

QA schemes as they apply to workplace training systems including copies of policies, procedures, compliance requirements and supporting documentation

Sample competency standards – endorsed/recognised by Training Authority and as developed by non-accredited providers showing use of outcome based orientation and use of criteria and standards

Samples checklists, flowcharts and other examples of workplace procedures

Templates for preparation of all required operational documentation

Examples of training programs

Sample training plans, assessment plans and session plans

Employment instruments/contracts

Examples of industry benchmarks and Best practice for staff performance

Sample training budgets

Examples of training delivery infrastructure-related resources – tables, chairs, desks, computers, data projector, overhead projector, photocopier, printers, video machines, DVD players, screens and monitors, boards

Examples of training delivery materials – notes, handouts, texts, training manuals, e-learning resources, commercially produced materials, logbooks and workbooks

Consumables required to support training – paper, stationery requisites, chalk, printer/toner cartridges, disks, whiteboard markers, overhead projector pens

Sample assessment items – tests, case studies, questions, third party reports, work projects, practical exercises/demonstrations

Examples of training delivery schedules/time-tables and assessment schedules

Job description and job specifications for industry employees

Job description and job specifications for trainers and assessors

Materials used to promote/advertise training courses/offerings of a workplace training system

Wide range of training-related policies and procedures

Example of organisational Style Guide for preparing policies and procedures

Examples of SWOT and similar analyses, TNAs and skills audits and analyses

Sample industry licences/certification required by government agencies and/or industry bodies for industry workers

Examples of Scopes of Registration for local training providers

Sample Application forms for employees to apply for training and request assessment/s

Examples of internal Training reports

Sample/model learning and assessment strategies

Examples of cost-benefit analyses

Filing systems

Model QMS and QA system

Model Appeals, Complaints and grievances policies/processes

Training evaluation forms

Sample internal audit forms

Sample audits as performed by Training Authority on accredited/registered providers

Examples of applications for grants, funding and/or subsidies to support workplace training

Model requisition forms, purchase orders and maintenance requests

Performance management records

Disciplinary action records

Model training implementation plans

Model procedures governing review of training and assessment materials, resources and protocols.

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Setup Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.
