Competency Based Training (CBT) and assessment an introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of Competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational safety and health requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of Competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning Approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in Learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for Participant Diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant Centred Learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning

- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants
- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active Learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training Strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of Training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/Tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group Discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic, is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role Play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorise and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energising and it helps the reserved and less literate to express their feelings.

Simulation Games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /Group Exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case Study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalise the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field Visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group Presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice Sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)**Principle of Competency Based Assessment**

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor, who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in Assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment Objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of Assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative Assessment Tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

UNIT TITLE: CONVERSE IN ENGLISH AT A BASIC OPERATIONAL LEVEL		NOMINAL HOURS: 120
UNIT NUMBER: D1.LAN.CL10.01		
UNIT DESCRIPTOR: This unit deals with the skills and knowledge required to converse orally in English in the workplace at a basic operational level.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Participate in simple conversations on familiar topics with work colleagues 1.1 Use and respond appropriately to <i>opening comments</i> 1.2 Comment on <i>familiar topics</i> 1.3 Talk about a past event 1.4 Use <i>closing remarks</i> appropriately to end the conversation Element 2: Respond to simple verbal instructions or requests 2.1 <i>Confirm understanding</i> of supervisor's instructions or requests 2.2 Request <i>repetition or clarification</i> of instructions or requests Element 3: Make simple requests 3.1 Use <i>polite forms</i> to make simple requests 3.2 Thank the person responding to your request 3.3 Acknowledge the person who cannot respond to your request		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies where conversing in English at a basic operational level is required within the labour divisions of the hotel and travel industries and may include: 1. Front Office 2. Housekeeping 3. Food and Beverage Service 4. Food Production 5. Travel Agencies 6. Tour Operation <i>Opening comments</i> may include: • How are you? • How did your shift go? • Is there anything I need to know? • You should be aware.

Element 4: Describe routine procedures 4.1 Explain a <i>sequence</i> of events in carrying out a routine job 4.2 Describe <i>exceptions</i> to routine procedures 4.3 <i>Make suggestions</i> on how to improve routine procedures Element 5: Express likes, dislikes and preferences 5.1 Talk about likes and dislikes of familiar topics and situations 5.2 Discuss preferences and give reasons Element 6: Identify different forms of expression in English 6.1 Construct a <i>formal sentence</i> 6.2 Identify indicators of <i>informal expressions in English</i> 6.3 Differentiate between ‘<i>open-ended</i>’ and ‘<i>closed</i>’ questions	Familiar topics may include: • Giving directions • Providing advice on the best places to shop, eat, hear music, view art, etc • Providing advice about a customer’s special needs • Providing information • Referring a customer complaint to a supervisor. <i>Closing remarks</i> may include: • I hope you enjoy your stay/tour • Goodbye and I hope we see you again soon • Thank you for staying at...; Please enjoy your tour. <i>Confirm understanding</i> of supervisor’s information or requests may include: • So you want me to ...? • I understand you would like me to ... <i>Ways to seek repetition or clarification</i> may include: • Asking the person to repeat themselves, e.g. ▪ Would you mind saying that again? ▪ Sorry I didn’t catch that ▪ Sorry I missed that ▪ Can you go over that again? Can you say that again please? • Seeking clarification, e.g. ▪ What should I do when I finish that? ▪ You would like me to swap shifts with you?
--	--

Polite forms used for making requests may include:

- I wonder if you would do my afternoon shift for me tomorrow?
- Would it be possible to swap shifts?
- Could I change shifts because I have to ...?

Sequence markers may include:

- First
- Then
- After that
- Next
- At the end
- Finally.

Exceptions to routine procedures may include:

- Sometimes ...happens.
- Occasionally, I ...
- When ... happens, I usually ...but this doesn't happen very often.

Ways to make suggestions may include:

- Why don't I check that for you?
- I think it would be a good idea if ...
- How about ...?
- Let's ...
- I think it would be a good idea if you ...

	A formal sentence refers to: • Written or verbal language that is grammatically correct and uses the correct tense consistently within the same sentence or paragraph • A sentence using modals, such as would, could. Informal expressions in English refers to: • Written or verbal language that may not be grammatically correct and/or may contain colloquialisms, or expletives, or slang words. An '<i>open-ended</i>' question refers to: • A question that is phrased to obtain a full answer e.g. 'where would you like to go?' A '<i>closed</i>' question refers to: • A question that forces a choice e.g. a 'yes' or 'no' answer. Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Ability to distinguish formal and informal expressions in English • Ability to initiate conversations • Ability to respond to opening conversation remarks • Ability to keep a conversation going on familiar topics • Ability to talk about past events using sequence markers and correct tense • Ability to close a conversation politely • Ability to ask pertinent questions to clarify instructions and requests • Ability to make polite requests • Ability to explain routine work procedures • Ability to make suggestions • Ability to discuss likes, dislikes and preferences.
--	--

Linkages To Other Units

This unit may link to other ASEAN competency standards including:

- Communicate in English on a telephone
- Communicate on the telephone
- Read and write English at a basic operational level
- Respond to instructions given in English
- Write a short message in English.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of the differences between formal and informal English
- Demonstrated ability to use polite forms
- Demonstrated ability to participate in day to day casual conversations
- Demonstrated ability to use correct 'open' and 'closed' question forms; this includes the use of auxiliary verbs and questions
- Demonstrated ability to make polite requests; this includes the correct use of modals, such as would and could
- Demonstrated ability to explain routine procedures; this includes the correct use of sequence markers such as first, then, etc. and the use of adverbs to describe exceptions to routine procedures such as: usually, sometimes, often, occasionally
- Demonstrated ability to make suggestions; this includes the correct use of modals, such as could and would
- Demonstrated ability to express likes, dislikes and preferences; this includes the correct use of verb forms.

	Context of Assessment Assessment must ensure: Actual or simulated workplace application of situations where people converse at a basic operational level in the workplace.		
	Resource implications Training and assessment must ensure there is access to suitably qualified English as a second language (ESL) teachers.		
	Assessment Methods The following methods may be used to assess competency for this unit: - Observation of practical candidate performance - Interviews - Role plays - Oral and written questions.		
	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating and reshaping tasks</i>		
	Key Competencies	Level	Examples
	Collecting, organizing and analysing information	1	Talk about familiar topics such as work routines, sport, the weather, current events
	Communicating ideas and information	1	Participate in short casual conversations on familiar topics
	Planning and organizing activities	1	Discuss routine work procedures

	Working with others and in teams	1	Express likes, dislikes and preferences
	Using mathematical ideas and techniques	1	Talk about time required to complete work tasks
	Solving problems	1	Make suggestions
	Using technology	1	Use a computer or photocopier

Converse in English at a basic operational level

This Unit comprises six Elements:

- Participate in simple conversations on familiar topics with work colleagues
- Respond to simple verbal instructions or requests
- Make simple requests
- Describe routine procedures
- Express likes, dislikes and preferences
- Identify different forms of expression in English.

Slide 2

2.	Trainer advises students this Unit comprises six Elements, as listed on the slide explaining: • Each element comprises a number of Performance Criteria which will be identified throughout the class and explained in detail • Students can obtain more detail from their Trainee Manual • The course presents advice and information but where their workplace requirements differ to what is presented, the workplace practices and standards must be observed.

Slide

Assessment

Assessment for this Unit may include

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer/supervisor.

Slide 3

Participate in simple conversations on familiar topics with work colleagues

Performance Criteria for this Element are:

- 1.1 Use and respond appropriately to *opening comments*
- 1.2 Comment on *familiar* topics
- 1.3 Talk about a past event
- 1.4 Use closing remarks appropriately to end the conversation

Slide 4

4.	Trainer identifies the Performance Criteria for this Element, as listed on the slide. Class Activity – General discussion Trainer leads a general class discussion on conversations in the workplace, asking questions such as: • How often do you talk to colleagues at work? • What are some ways that you can start a conversation? • What kinds of things do you typically talk about? • Do you talk about very formal topics or topics that you know well? • What are some 'familiar' topics? • How do we talk about events that happened before now? When you are finished talking, how do you end the conversation?

Slide

Responding to opening comments

Opening statements:

- start a conversation
- tell the listener the purpose of the conversation
- give direction on how to continue the conversation.

Slide 5

Slide No	Trainer Notes
5.	Trainer asks students how they approach someone if they want to talk to him/her. Trainer asks what kinds of things they usually say. Trainer calls on one particular student to ask about a conversation they had before class (this requires a little preparation before class). Trainer asks the student what he/she said to start the conversation and how that statement prepared the student to take part in the conversation. Trainer explains to students that opening statements are very important because they: • Start a conversation • Tell the listener the purpose of the conversation • Give direction on how to continue the conversation.

Slide

Responding to opening comments

Understanding and responding appropriately to opening comments is very important at work.

Employees who are able to do this:

- leave a good first impression.
- communicate well with colleagues and customers.

Employees who are NOT able to do this:

- may leave guests confused or upset
- could contribute to miscommunication at work.

Slide 6

Slide No	Trainer Notes
6.	Trainer explains the potential positive and negative consequences of opening statements in a professional setting. Positive consequences include: • Leaving a good first impression • Communicating well with colleagues and customers. Negative consequences include: • Possibly leaving guests confused or upset • Contributing to miscommunication in the workplace.

Responding to opening comments

Starting a conversation can be very stressful, but it can also be very rewarding. Here are some examples of opening statements to help you get started.

Examples:

- How are you?
- How's the weather today?
- How did your shift go?
- Anything new today?

Slide 7

7.	Trainer tells students that starting a conversation can be stressful, but it can also be very rewarding. Trainer asks students why starting a conversation can be rewarding. Trainer explains that being a good conversation starter is a skill. Trainer asks students how this is an important skill at work and in their personal lives. Trainer explains that opening statements help to start a conversation and gives some examples: • How are you? • How's the weather today? • How did your shift go? • Anything new today? Trainer asks students if they can think of any more examples of opening statements. Trainer writes these examples on the board.

Responding to opening comments

Some people get very nervous when starting a conversation. Here are some tips that will help make it easier:

- Research interesting things to talk about
- Relax
- Be prepared to listen
- Avoid complaining or gossip
- Be yourself.

10.	Trainer explains that employees in the service industry will often be required to provide assistance to customers. This includes: • Giving directions • Offering advice • Taking care of a customer's special needs.

Slide

Talking about familiar topics

Giving directions is an everyday occurrence in hospitality. Employees should be familiar with prepositions of location/direction including:

- into/out of
- at the bottom of/at the top of
- in front of/behind
- along
- past.

Slide 11

Slide No	Trainer Notes
11.	Trainer explains that giving directions will be a big part of the students' jobs. Trainer tells students that they should be familiar with prepositions of location/direction including: • Into/out of • At the bottom of/at the top of • In front of/behind • Along • Past. Trainer asks students if they can think of any other words they use to give directions. Trainer instructs students to complete the prepositions of location/direction activity in their Trainee Manual.

Slide

Talking about familiar topics

You must also understand different ways to ask for directions. These include:

- Where is _____?
- How do I get to _____?
- Can you tell me where the _____ is?
- I'm looking for the _____.

Slide 12

Slide No	Trainer Notes
12.	Trainer tells students that they must first understand when someone is asking for directions in order to respond appropriately. Examples of ways to ask for directions include: • Where is _____? • How do I get to _____? • Can you tell me where the _____ is? • I'm looking for the _____. Class Activity – Pair work Trainer instructs students to work in pairs to ask directions to 5 places in their workplace.

Slide

You will also be required to **give advice** to customers using '**should**' and '**ought to**'.

Examples:

- You **should** go to the Acme Restaurant for dinner
- He **ought to** go to the museum today.

Employees must also be able to respond to **customer complaints**. In order to deal with complaints, take the following steps:

- **Apologize**
 - Example: I'm sorry, sir/madam.
- **Attempt to solve the problem**
 - Example: I will look into it immediately.
- **Alert a supervisor**
 - Example: Just one minute, please. I will alert my supervisor.

Slide

Using the simple past tense

There are two types of verbs in the simple past tense: **regular** and **irregular**.

- Regular
 - These types of verbs always end in **–ed**.
- Irregular
 - No grammar rule. Must remember each verb.

Slide 15

Class Activity – Mingling

Trainer explains the rules to Find Someone Who.

Students must mingle with their classmates to find out what people did in the past. Students should ask questions to each other, and write down one name for every positive answer. Students should not write down a name for negative answers. They should only write down the same name twice (depending on the number of students).

Slide

Ending the conversation

Closing down a conversation is an important part of the communication process.

If not done appropriately, it can be seen as:

- rude
- hurtful.

When ending a professional conversation, you want the other person to think the conversation was enjoyable.

Slide 17

Slide No	Trainer Notes
17.	Trainer describes the importance of ending conversations. If not done appropriately, it can be seen as: • Rude • Hurtful. Trainer tells students that they should make the other person feel as if the conversation was enjoyable.

Slide

Ending the conversation

Two strategies can be used to end conversations appropriately:

- **Give a positive comment**
 - Example: I hope you enjoyed your stay.
- **Outline a summary or plan**
 - Example: I will meet you in the lobby at 8pm.

Slide 18

Slide

Respond to simple verbal instructions or requests

Performance Criteria for this Element are:

- 2.1 *Confirm understanding* of supervisor's instructions or requests
- 2.2 Request *repetition* or *clarification* of instructions or requests.

Slide 19

Slide No	Trainer Notes
19.	Trainer identifies the Performance Criteria for this Element, as listed on the slide. Class Activity – General discussion Trainer leads a general class discussion on responding to instructions and requests, asking questions such as: • What does 'instructions' mean? • What kind of requests do you get at your job? • Is it always easy to understand instructions? • What is the last request you heard at your job? What do you do if you can't understand what your supervisor tells you?

Slide

Confirming that you understand

When a supervisor or manager gives an employee instructions to carry out a task, they expect that it will be done correctly. It is the responsibility of the employee to clarify the instructions or request to ensure no miscommunication of the supervisor's expectations.

When you are given instructions it is important to confirm that you understand them and respond appropriately.

Slide 20

Slide No	Trainer Notes
20.	Trainer describes the importance of fully comprehending instructions or requests, as outlined on the slide. Trainer emphasizes the importance of confirming full comprehension and responding appropriately.

Slide

Confirming that you understand

There are two ways to confirm understanding:

- **Short responses**

- Example: Ok, I understand.

- **Body language**

- Example: Using thumbs up or OK hand gestures.

Slide 21

Slide No	Trainer Notes
21.	Trainer describes two strategies to confirm understanding. • Short responses • Body language. Trainer provides examples of each and asks the students if they can think of any more. Trainer instructs students to guess the meaning of the physical gestures in their Trainee Manual. Class Activity - Gestures Trainer makes four gestures (shake head, thumbs up, palms up, ok sign) and instructs students to write the meaning of the gestures in the Trainee Manual. Class Activity - Listening Trainer reads the instructions below and instructs students to write the instructions in the Trainee Manual. 1. Stand up and raise your hand 2. Write your name on a piece of paper 3. Touch your right foot 4. Point your finger at the Trainer 5. Walk to the door and come back to your seat 6. Don't forget to finish your homework. Trainer then instructs students to work in pairs to give each other these instructions and confirm understanding.

Slide

Requesting repetition or clarification

People often find it difficult to ask for repetition or clarification. However, asking for repetition or clarification will help you:

- **limit mistakes**
- **improve efficiency at work.**

Slide 22

Slide No	Trainer Notes
22.	Trainer introduces this subject by giving students fast, complicated instructions to do something in the class. Trainer observes the students' reaction and makes a note of students that ask him/her to repeat or clarify his instructions. Trainer tells students that people often find it difficult to ask for repetition or clarification, and that this is considered a sign of incompetence in many cultures. Trainer emphasizes the importance of asking for repetition/clarification and states that it will: • Limit mistakes at work • Improve efficiency at work.

Slide

Requesting repetition or clarification

If you can't hear someone well, it is essential that you ask them to **repeat** themselves.

Here are some ways to ask for repetition:

- Can you repeat that, please?
- Would you mind saying that again?
- Sorry, I missed that.

Slide 23

Slide No	Trainer Notes
23.	Trainer instructs students to ask for repetition when they don't hear the speaker well. Trainer provides examples including: • Can you repeat that, please? • Would you mind saying that again? • Sorry, I missed that. Trainer asks the students to think of additional ways to ask for repetition.

Slide

Requesting repetition or clarification

If you didn't fully comprehend instructions or requests, it is essential that you ask for **clarification**.

Here are some ways to ask for clarification:

- You would like me to...?
- Can I make sure I understood correctly?
- So, I should...?

Slide 24

Slide No	Trainer Notes
24.	Trainer instructs the students to ask for clarification when they don't completely understand the instructions. Question Activity

Arrange yourselves in a circle with all the other trainees. I will start the game by giving one person some instructions.

That person can only respond with a question asking for repetition or clarification. Then, that person gives instructions to the trainee on his/her right, who responds with another question. The goal of the game is to go around the circle only responding with questions.

Telephone Activity

Arrange yourselves in a line with all the other trainees. I will start the game by whispering a request to the first person. That person must whisper the same request to the next person in the line without allowing the others to hear it. You may NOT ask for **repetition** or **clarification**, and **the request can only be said once**. When the last person in the line hears the request, he/she says it out loud to the class.

Next, we will repeat the same activity, but every person may **ask for repetition or clarification one time**.

Picture Activity

You have five minutes to draw a simple picture on a piece of paper. It can be a landscape, house or person. When you are finished, sit next to your partner without showing him/her your picture. Give your partner instructions on how to draw your picture on a different sheet of paper. **You may not show, him/her your picture.** You must give very precise instructions in order for your partner to draw the same thing. He/she may ask for **repetition** or **clarification** as needed.

You have five minutes to complete the task. The pair with the most similar drawings wins.

3.2 Thank the person responding to your request

3.3 Acknowledge the person who cannot respond to your request.

Slide 28

Slide No	Trainer Notes
28.	Trainer identifies the Performance Criteria for this Element, as listed on the slide. Class Activity – General discussion Trainer leads a general class discussion on making requests at work, asking questions such as: • Do you ever make requests to your customers? • What kinds of things do you ask them for? • What is the difference between 'rude' and 'polite'? • What are some polite ways to ask for things? • How can you help guests that don't speak your language or English?

Slide

Making requests

Using **polite forms** to make **simple requests** plays an important role in your overall presentation of yourself. When you are polite, you appear gracious, agreeable and pleasant.

Like many other languages, **degrees of politeness** exist in English, and you must understand which one to use depending on the circumstances and the person you are addressing. Also take into account what you are asking for. If it is a big request, it will require more formal language.

Slide 29

Slide No	Trainer Notes
29.	Trainer emphasizes the importance of making polite requests in English, telling the students it can make them seem: • Gracious • Agreeable • Pleasant. Trainer asks students if there is a degree of politeness in their language. Slide

Saying 'Thank You'

Pronunciation of the 'th' sound can be very difficult. It can be made by putting your tongue between your teeth so that the tip of your tongue is touching the tips of your top teeth. You should be able to see your tongue when you say words such as *this*, *the*, and *that*. If you cannot see your tongue, you may be putting your tongue behind your top teeth instead of touching the tips of your top teeth.

- 4.2 Describe *exceptions* to routine procedures
- 4.3 Make *suggestions* on how to improve routine procedures.

Slide 38

Slide No	Trainer Notes
38.	Trainer identifies the Performance Criteria for this Element, as listed on the slide. Class Activity – General discussion Trainer leads a general class discussion on routine procedures, asking questions such as: • What kinds of things do you usually do at work? • Do you ever have to give instructions? • If yes, how do you organize the instructions so people can understand them? • What are adverbs of frequency? Why do we use them? • I want to eat at a nice restaurant tonight. Can you suggest somewhere to go? • Is this the same kind of suggestion you would give at work? How is it different?

Slide

Giving instructions

Explaining how to carry out a routine job is a basic English task and can be used on a daily basis in the service industry.

Use sequence markers while giving instructions to indicate an order of the tasks to be performed.

Examples include:

Describing exceptions

In any work situation, unforeseen things occur that make you adjust your plan and disrupt your usual routine. Working in the hospitality industry requires individuals to be flexible and prepared to handle difficult and surprising situations.

You must be able to describe these exceptions in a professional manner and instruct co-workers how to deal with them.

Slide 41

Slide No	Trainer Notes
41.	Trainer explains that surprises often occur in the hospitality industry that force people to change their plans. Trainer stresses the importance of being able to describe these situations. Trainer asks the class for examples.

Slide

Describing exceptions

Use adverbs of frequency to talk about how often certain actions occur.

Examples include:

- always
- often
- sometimes
- never.

Slide 42

Slide No	Trainer Notes
42.	Trainer instructs students to use adverbs of frequency to describe exceptions to routine procedures. Examples include: • Always • Often • Sometimes • Never. Trainer asks students to think of more examples of adverbs of frequency.

Slide

Describing exceptions

Adverbs of frequency should go directly before the verb when constructing a sentence. One exception is the adverb **sometimes**, which can also go at the beginning of a sentence.

Examples:

- I **always** wake up early.
- Mike **never** wants to play tennis.
- **Sometimes** I like to go swimming.

Slide 43

Slide No	Trainer Notes

Class Activity – Pair work Trainer instructs students to write about their typical day using adverbs of frequency in their Trainee Manual.

Slide

Describing exceptions

Use 'How often' to ask about frequency.

Examples:

- **How often** do you watch movies?
- **How often** does he eat apples?
- **How often** do you come here?

Slide 44

44.	Trainer describes how to ask about the frequency of an action using 'How often'. Class Activity – Individual Trainer instructs students to list activities they do at work in their Trainee Manual. Class Activity – Pair work Trainer instructs students to work in pairs and ask each other about the frequency of these activities. Students should write their partner's responses in their Trainee Manual.

Slide

Making suggestions

As a member of the service industry you play a role in that growth and improvement. If you have suggestions on ways to improve routine procedures you should share them.

- What are some problems at your workplace?

Slide 45

Slide No	Trainer Notes
45.	Trainer introduces the topic by describing his/her ideal working environment. Class Activity – Group discussion Trainer asks students to describe their ideal working environment. Trainer explains that students should feel confident about sharing their opinions on ways to improve working conditions. Class Activity Trainer asks students to brainstorm problems with their current workplace and write five of them down in their Trainee Manual.

Slide

Making suggestions

In order to make suggestions in a professional setting, you must have the language skills to express your ideas without being offensive. Use formal or indirect language to accomplish this.

Examples:

- Why don't we...?
- It might be a good idea to...
- We should consider...

Slide 46

Slide No	Trainer Notes
46.	Trainer explains that students must be professional when making suggestions so they are not seen as being rude or pushy. Trainer gives examples of appropriate structures, including: • Why don't we...? • It might be a good idea to... • We should consider... Trainer asks the students to brainstorm other appropriate ways to make suggestions. Class Activity – Individual Trainer instructs the students to use this language to write suggestions to the problems they listed in the first activity. Class Activity – Listening Trainer instructs the students to listen to him/her describe problems (below) and write suggestions to improve them in their Trainee Manual. 1. Employees in the hospitality industry often change jobs. 2. Sometimes hotel staff don't know how to use a computer. 3. It is difficult for many employees to learn English.

What is the difference? • Ok, raise your hand. Who prefers chocolate to vanilla? Oranges to apples? Spring to summer? • Why?

Slide

Likes and dislikes

Expressing your opinion is an important language skill, especially in the workplace. Talking about things you like and dislike is the easiest way to make connections with colleagues and customers, which will improve your professional relationships. You will also use this skill to:

- help customers
- give advice
- relay personal experiences
- make small talk.

Slide 48

Slide

Likes and dislikes

- To talk about your general likes or dislikes, follow this pattern: *like something* or *like doing something*.
- Be careful where you use **very much** or **a lot**. These words should go after the thing that you like.
- When speaking generally, it's best to use **plurals** with **countable nouns**.

Examples:

- I like eating **apples**.
- I hate **storms**.

Preferences and reasons

There are many ways to express preference in English. Pay attention to the formality of the situation in order to determine which structure is appropriate. In more formal circumstances, use modal verbs.

Examples:

- I **prefer** apples.
- I **would prefer** apples.
- I **would rather** have apples.

Slide 52

Slide No	Trainer Notes
52.	Trainer explains that the ability to state preferences and give opinions is a necessary skill for employees in any profession. Class Activity – Individual Trainer instructs students to use this language to state their preference on a variety of topics in their Trainee Manual. Class Activity Trainer asks students why they prefer certain things and notes how students give reasons.

Slide

Preferences and reasons

After expressing your preferences you must support your statements in a logical, professional manner. A professional opinion without evidence to support it is like a carriage without a horse.

Identify different forms of expression in English

Performance Criteria for this Element are:

Slide

Formal expressions

Formal English is a way of speaking that you use when you don't know the people listening to you very well. You also tend to use it more with people who are higher status and who you want to impress.

In formal English, people usually:

- pronounce words more carefully. For example, in casual speech, people sometimes don't pronounce the "g" sound at the end of words ending in "-ing". In formal speech, people are more careful to pronounce this
- don't use as many contractions (it's, they're, I'm)
- use more modal verbs to show formality.

Slide 55

Slide No	Trainer Notes
55.	Trainer describes when it is appropriate to use formal English. Trainer also illustrates how people often construct formal sentences: • Pronounce words more carefully • Don't use contractions • Use more modal verbs.

Slide

Formal expressions

A modal verb is a type of supporting verb that is used to indicate likelihood, ability, permission, and obligation. Modal verbs give more information about the function of the main verb that follows it.

Modal verbs are different from normal verbs because:

- they don't use an 's' for the third person singular
- they make questions by inversion
- they are followed directly by the infinitive of another verb.

Slide 56

Slide No	Trainer Notes
56.	Trainer explains the grammatical function of modal verbs, noting that modal verbs: • Don't use an 's' for the third person singular • Make a question by inversion • Are followed directly by the infinitive of another verb.

Informal expressions

When and where are informal expressions appropriate?

There are many situations in everyday life where informal English is allowed, even preferred. Some examples include chatting with a co-worker, talking on the phone to a friend, and watching television with your family.

Slide 58

Informal expressions

Informal greetings and responses often include slang that is indicative of the casual situation in which it is used.

These types of phrases should **never be used in a professional setting**, but they can be quite useful when speaking to family, close acquaintances or friends.

Examples:

- How's it going?
- You doing OK?
- What's up?
- Good for you.

Open-ended vs. Closed questions

There are two types of questions in English:

- An **open-ended question** requires an answer greater than a single word or two
- A **closed question** can be answered with a simple "Yes," "No," or other very simple answer.

Understanding what the question calls for can be the difference to having a successful interaction and not.

60.	Trainer explains the difference between open-ended questions and closed questions. • An open-ended question requires an answer greater than a single word or two. • A closed question can be answered with a simple "Yes," "No," or other very simple answer. Trainer emphasizes that understanding the difference is a very important part of communicating in English.

Open-ended vs. Closed questions

Open-ended questions are those that solicit additional information from the enquirer. By definition, they are broad and require more than one or two word responses.

Examples:

- How are you today?
- How was your stay?
- Why did you do this?
- What are you looking for?

Slide 61

Open-ended vs. Closed questions

Closed questions are those that can be answered finitely by either “yes” or “no.” Closed-ended questions can include presuming, probing, or leading questions.

Examples:

- May/Can I help you?
- Can I get you something, sir/madam?
- Could you help me?
- Are you enjoying yourself?

Open-ended vs. Closed questions

Question words can often indicate what information is required.

- Open-ended questions often begin with the words **WHAT, HOW, and WHY**
- Closed questions often begin with the words **WHEN, WHERE, and WHO**
- View question chart in Trainee Manual.
