Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: CREATE PROMOTIONAL DISPLAY STAND		NOMINAL HOURS: 40
UNIT NUMBER: D2.TTA.CL2.10		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by general tourism and hospitality staff to create a promotional display to advertise products and/or services.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Describe display stand requirements 1.1 Identify <i>display stand objectives</i> and <i>contexts</i> 1.2 Identify <i>audience</i> 1.3 Identify <i>operational requirements, information and constraints</i> 1.4 Identify <i>resources available</i> to support display stand development and creation Element 2: Plan display stand 2.1 Liaise with <i>relevant personnel</i> to establish plan for display stand 2.2 <i>Develop display ideas</i> 2.3 Prepare <i>display plan</i> 2.4 <i>Source and obtain materials</i> to construct, dress or support the maintenance of the display stand		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to the creation by staff, of a promotional display to advertise products and/or services, within the labour divisions of the hotel and travel industries and may include: 1. Food and Beverage Service 2. Food Production 3. Travel Agencies 4. Tour Operation Display stand objectives may be related to: • Reinforcing/continuing promotion of an existing product or service • Introducing a new product or service, or range of products or services, to the marketplace including alterations to existing products and services • Offering tasting or sampling of a product • Meeting direct competition

Element 3: Create display stand 3.1 <i>Construct the display stand</i> 3.2 <i>Dress the display stand</i> 3.3 <i>Apply established display techniques</i> 3.4 <i>Use display materials</i> 3.5 <i>Verify display stand meets identified operational requirements, information and constraints</i> Element 4: Use display stand 4.1 <i>Staff the display stand as required</i> 4.2 <i>Provide customer service during display</i> 4.3 <i>Follow-up sales opportunities after initial contact</i> Element 5: Maintain display stand 5.1 <i>Keep display stand clean and tidy</i> 5.2 <i>Replenish products and materials as necessary</i> 5.3 <i>Review and alter display stand as required</i>	• Resurrecting flagging sales • Supporting a promotion or sale • Building a larger customer database • Filling a vacant space in the workplace <i>Contexts may include:</i> • Temporary or permanent displays/stands • Trade/consumer show • A stand at a meeting, or conference, or other event • In-house promotion including office spaces and public, operational areas • Window display • Shopping centre promotion. <i>Audience may be related to:</i> • New customers • Existing customers • Targeted customers • Private individuals • Businesses. <i>Operational requirements, information and constraints should include:</i> • Location and site including size limitations and requirements, presence of obstacles and other items that have to be considered, and requirements to transport materials • Timing and duration including dates and specific hours, where applicable • Requirements regarding staffing of display stand, if applicable • Budget and physical resources
---	---

	• Type of surface on which display is to be created • Utilities including electricity, water, waste management, where applicable • Access to the area in which the display stand is to be constructed • Identification of products and/or services to be displayed • Consumables for the display stand including need for demonstrations and sampling, as necessary • Signage, branding and compliance with sponsor or specific host or other organisational requirements • Internal and external regulations that apply to the display stand • Limitations imposed by the nature/characteristics of the product or service being displayed including limitations relating to displaying and/or offering food and beverages • Safety • Security • Compliance with legal requirements • Requirement to support and extend the image and/or reputation of the host enterprise and/or products/services on display. <i>Resources available</i> may include: • Staff to assist in developing and creating the display stand including internal staff and professional expertise from outside the organisation • Funds to enable purchase of materials and other resources • Product to stock the display stand including brochures, samples, actual items and products • Fixtures and fittings to construct the display stand which may include: ▪ Furniture
--	--

	▪ Collateral materials ▪ Scissors ▪ Adhesives including Velcro, pins, string, line ▪ Audio-visual systems including sound and lighting, and information technology systems and hardware ▪ Decorations and props • Time including time release of internal staff • Experience and records of previous displays/stands including feedback from staff, suppliers, and customers. <i>Relevant personnel</i> may include: • Managers and supervisors • Colleagues • Marketing personnel • External professionals including display and merchandising experts • Suppliers and support agencies and organisations • Customers • Authorities. <i>Develop display ideas</i> may include: • Using creative thinking techniques to generate ideas and concepts • Referring to previous experience and existing display techniques • Assessing display possibilities against required display criteria as set by host enterprise and/or allied businesses • Testing, seeking feedback on, and modifying initial display ideas.
--	---

	<i>Display plan</i> should include: • Theme of the display stand • Rationale for the theme • Graphic representation of the intended display • List of required resources • Cost of the proposal • Indication of colour, décor and overall presentation • Identification of direction of traffic/pedestrian movement • Other relevant issues specific to the project. <i>Source and obtain materials</i> may include: • Borrowing from other departments, head office, industry contacts, suppliers and other bodies and organisations • Re-cycling and re-using previously used materials • Determining dummy materials that may be appropriate in lieu of bona fide products • Purchasing items. <i>Construct the display stand</i> may include: • Engaging professionals to develop requirements for the display stand • Transporting materials to the site • Building and/or assembling display stand components • Complying with site or venue regulations in relation to display stand construction.
--	--

	<i>Dress the display stand</i> may include: • Using appropriate cultural, local and industry artefacts • Using props • Complying with the requirements of the approved display plan • Ensuring neatness and appropriate visual presentation of display stand. <i>Established display techniques</i> may relate to: • Matching display to the nature and characteristics of the products/service being displayed • Complying with requirements of the approved display plan • Incorporating the standard 'triangular shape/pyramid effect' into the display • Ensuring the flow of the display • Incorporating appropriate signage and merchandising and/or advertising tickets • Creating appropriate eye-lines and lines-of-sight • Keeping displays tight • Maintaining a simple, tidy and uncluttered appearance • Ensuring product integrity. <i>Display materials</i> may include: • Fabric including appropriate selection of type and colour • Flags including pennants and banners • Signs including price tickets • Printed materials including product descriptions, brochures, pamphlets, flyers and information literature • Three-dimensional products including boxes, props and items
--	---

	• Free-standing display options • Product samples • Give-away materials and products including food and beverages. <i>Staff the display stand</i> may include: • Selecting appropriate numbers of staff for display stand duty • Ensuring suitable and comprehensive staff knowledge in relation to products and services on display • Ensuring appropriate personal presentation • Making provision for staff belongings and refreshments during the display • Conducting training for staff • Arranging times and staff rosters • Back-filling the staff who are on roster for the display stand. <i>Provide customer service</i> may include: • Providing information on products and services • Conducting demonstrations • Offering samples • Encouraging customer participation, interest and interaction • Distributing materials and literature • Sourcing products and information for customers • Responding to queries and complaints • Making sales and processing transactions • Soliciting feedback
--	---

	• Recording customer and potential customer details • Making arrangements for follow-up service provision. <i>Follow-up sales opportunities</i> may include making contact with customers as arranged which may involve: • Telephoning • Making personal visits • E-mailing information • Forwarding materials and information • Providing required information • Adding customer details to Customer Management Systems • Liaising with colleagues, suppliers and others, as required. <i>Clean and tidy</i> may relate to: • Cleaning mess made by customers • Removing damaged, dirty or torn signs, price tags and advertising tickets • Removing cartons, used containers and packaging • Undertaking scheduled cleaning tasks. <i>Replenish products and materials</i> may include: • Replacing materials used by staff or taken by customers • Rotating stock on display in accordance with demands of display plan • Changing signage and pricing tickets to reflect changes to stock on display • Review and alter display stand may include: • Responding to emerging issues in the area where the display stand is located
--	--

- Responding to customer feedback including responses to negative and positive feedback
- Amending display in accordance with demands of display plan
- Making changes to display stand based on customer visitation and usage
- Altering environmental conditions as required including heating, sound, lighting, audio-visual support, access and provision of refreshments, where appropriate
- Inspecting display and surrounding area to identify safety, security and other issues that require attention
- Identifying aspects of the display stand that are, or are not working as intended including recording of these events for current attention and to factor into future displays/stands.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Enterprise policies and procedures in regard to displays/stands and advertising and promotion
- Principles of display
- Ability to use display techniques
- Industry contexts in which displays/stands are used
- Display materials and resources
- Support industries and organisations for display stand development and construction.

Linkages To Other Units

- Implement occupational health and safety procedures
- Maintain hospitality industry knowledge
- Develop and maintain food and beverage product knowledge
- Provide advice to patrons on food and beverage services

	• Maintain quality customer/guest service • Gather and present product information • Roster staff • Develop and update tourism industry knowledge • Promote products and services to customers • Establish and maintain a safe and secure workplace • Prepare and deliver a presentation • Develop, manage and evaluate local marketing strategies • Promote tourism products and services • Develop a marketing strategy and coordinate sales activities. Critical Aspects of Assessment Evidence of the following is essential: • Understanding of events and situations in which a display stand can be effectively used • Demonstrated ability to prepare an effective display plan to achieve designated objectives and comply with nominated requirements and constraints • Demonstrated ability to construct and dress a display stand for a nominated event/location and audience that complies with an approved display plan and achieves stated objectives • Demonstrated ability to operate, staff, maintain and provide effective customer service for a nominated display stand at a designated venue/location. Context of Assessment Assessment must ensure: • Actual or simulated workplace application of activities to create an actual display stand.
--	---

	Resource Implications Training and assessment must include use of real products, resources, facilities, materials, services and products to support the construction and operation of a real display stand in an actual or simulated industry setting.		
	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Portfolio of material in relation to the planning, development, construction and operation of a display stand • Case studies • Role plays • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work.		
	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	2	Decide the objectives for the display stand
	Communicating ideas and information	2	Brief external providers/professionals and internal staff

	Planning and organising activities	2	Develop display plan
	Working with others and in teams	1	Liaise with others to create the display stand
	Using mathematical ideas and techniques	1	Determine display spaces and load weights of displays and shelving; calculate costs
	Solving problems	2	Overcome site display limitations and resource constraints
	Using technology	1	Use Internet to research display ideas; use equipment to create physical display stand

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Create promotional display stand D2.TTA.CL2.10
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. How might you determine the objectives and context for a display stand?	☐	☐
2. What is 'the audience' for a display stand and why is it important to know who they are when planning a display stand?	☐	☐

Questions	Response	
	PC	NYC
3. Give three examples of possible operational requirements and three examples of possible operational constraints which may apply to the planning and/or use of a display stand.	☐	☐
4. Identify ten examples of resources which may be required to support display stand development and creation.	☐	☐
5. List three categories of 'relevant personnel' it may be necessary to liaise with to establish a plan for a display stand.	☐	☐

Questions	Response	
	PC	NYC
6. Explain how you might go about developing display ideas for a display stand.	☐	☐
7. Explain the role of a 'display plan' identifying the information it contains.	☐	☐
8. What activities might be involved in sourcing and obtaining materials to dress or support a display stand?	☐	☐

Questions	Response	
	PC	NYC
9. What factors need to be considered when constructing a display stand?	☐	☐
10. What is meant by 'dressing a display stand'?	☐	☐
11. Identify and describe three established display techniques for use on display stands.	☐	☐

Questions	Response	
	PC	NYC
12. Identify three display materials that can be used on a display stand and describe how each might be used.	☐	☐
13. How can you verify a display stand you have created meets identified operational requirements, information and constraints?	☐	☐
14. What factors might you consider when deciding how to staff a display stand?	☐	☐

Questions	Response	
	PC	NYC
15. Give three examples of 'customer service' which might be provided during the life of a display stand.	☐	☐
16. Describe three activities which might be involved in following-up sales opportunities after initial contact has been at a display stand.	☐	☐
17. What action would you need to take to keep a display stand clean and tidy?	☐	☐

Questions	Response	
	PC	NYC
18. Why is it necessary to replenish products and materials on a display stand and when might this occur?	☐	☐
19. What is involved in reviewing a display stand at the end of its operational life and why should the review take place?	☐	☐

Written questions

Create promotional display stand – D2.TTA.CL2.10

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. In relation to display stands differentiate between 'objective' and 'context'.

2. Identify five possible objectives for a display stand.

3. List five classifications of people (or organisations) you should communicate with to identify the objectives and context for a display stand.

4. What is a 'Project brief'?

5. Why is it important to know the 'audience' for a display stand?

6. Define 'demographic profile'.

7. What are identified in the notes as the 'two keys' in identifying the products to be featured on a display stand?

8. In relation to display stands, what is a 'Product List' and what information should it contain?

9. List five essential operational requirements which need to be taken into account when planning, creating and operating a display stand.

10. Give eight examples of possible 'external regulations' which can apply when creating and operating a display stand at a remote location.

11. Give three examples of how 'time' can be a constraint on a display stand.

12. What are the four generic resources required to create a display stand?

13. What is a display stand 'toolbox' and what items should it contain?

14. List five classifications of persons you might talk with to discuss display options and plans for display stand.

15. Describe five types of assistance which can be provided by external professional display/merchandising organisations.

16. Identify four benefits of using an external consultant/organisation when planning a display stand.

17. What are the two main limitations in relation to using external consultants and organisations when planning a display stand?

18. List four standard methods for generating ideas for a display stand.

19. Identify three 'creative thinking' techniques which might be used to generate ideas for a display stand.

20. List four situational factors which will impact on the development of a display plan.

21. List five elements which should be contained in a display plan for display stand.

22. Why is it important to use a display plan for a display stand?

23. Complete the following adage: 'If you fail to plan ...'

24. Why is it necessary for those creating display stands to realise the importance of 'the first precious seconds'?

25. Is 'size' or 'placement' of a display stand seen as most important?

26. Give three examples of 'high-traffic' areas for a display stand.

27. What is the immediate impression the use of a prop at a display stand should create?

28. Explain the statement in relation to display stands that 'the product must always be the hero with integrity'.

29. List three points to consider when acquiring materials to construct dress or support the maintenance of display stands.

30. Identify five possible sources of resources for display stands.

31. List six fundamental requirements when constructing a display stand.

32. List six generic health, safety and welfare obligations employees are under when at work.

33. Give four common causes of workplace accidents when staff are constructing display stands.

34. What are the two guidelines which have emerged for manual handling in terms of safe lifting?

35. What is meant by 'dressing a display stand'?

36. Answer 'True' or 'False' to the following statement: 'To attach posters used on a display stand the preferred method is to use adhesive tape over the *front* of a poster to stick the poster to the wall/backdrop'.

37. What should be done with hats and caps used on a display stand to enhance their appearance?

38. Describe and draw two examples of 'asymmetrical' application of the 'pyramid effect' when displaying items on a display stand.

39. Identify three guidelines for the positioning of information brochures and signs on a display stand.

40. In relation to the placement of product on a display stand explain the requirement to 'Keep it tight'.

41. List five reasons to use display materials on a display stand.

42. Name two benefits of using 'flags' as display materials on a display stand.

43. What are two 'common traps' for people when using signs on a display stand?

44. List four ways pamphlets can be displayed on a display stand.

45. Identify three ways you can check your display stand meets all operational, informational and applicable constraints.

46. List six issues which are important considerations as part of the process of choosing staff to work on a display stand.

47. List four pre-requisite requirements for staff working on display stands.

48. Identify six generic customer service roles staff who are assigned to display stands can be required to undertake.

49. Differentiate between 'customers' and 'prospects'.

50. Give four reasons why it is important to follow up with prospects after initial contact at a display stand.

51. Identify four examples of follow-up activities which may occur with prospects or customers after initial contact has been made with them at a display stand.

52. Give four reasons it is important to keep a display stand looking clean and tidy.

53. List four topics you must pay attention to in order to ensure a display stand is maintained in a clean and tidy condition.

54. What are the two primary requirements all display stands must attain and retain?

55. Give five examples of minor changes which may be required to display stands while they are operational.

Answers to written questions

Create promotional display stand – D2.TTA.CL2.10

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. In relation to display stands differentiate between ‘objective’ and ‘context’.

A display stand may have:

- Just one objective
- Several related objectives
- Many unrelated objectives.

The context provides the setting and nature of the display stand.

Context explains:

- Where the display stand will be physically located
- The duration/life of the display stand.

2. Identify five possible objectives for a display stand.

- To reinforce/continue promotion of an existing product or service – providing a reminder to existing and potential customers the product or service exists
- To introduce a new product or service to the marketplace – letting people know this new item or product/service range is available, telling them where they can get it, advising what it will do for them and stating how much it costs
- To offer tasting or sampling of a product – educating customers about what a product actually tastes like, what it looks like, what it smells like and getting across some pertinent facts about it
- To notify customers an existing product or service has been revised, altered, updated and/or improved in some way – educating customers about the benefits and features of the new article/service
- To meet direct competition – raising business profile in the marketplace so the organisation is recognised as an attractive and viable alternative to the competition, and explaining why that is so
- To resurrect flagging sales – promoting your products and services, highlighting to potential customers the benefits of dealing with you instead of ‘the opposition’ and generally trying to stimulate extra sales
- To support a promotion or sale – the organisation may be conducting a special promotional activity, or a sale and a display stand may be required to underpin, extend and give a high-profile to the promotion
- To build a larger customer database. This objective is simply designed to capture a mailing (or ‘contact’) list of potential customers who have demonstrated some interest in what (product, service, business) is being promoted

- To fill a vacant space in a workplace or other location. There may be a place in the area/environment which just looks empty and there is a need to make it more attractive, inviting or exciting.

3. List five classifications of people (or organisations) you should communicate with to identify the objectives and context for a display stand.

- Management
- Owners
- Your visual merchandising department
- Your marketing department
- Relevant departmental or product managers
- The sales department
- Frontline, customer contact staff
- Suppliers
- Other outlets in your organisation, including head office personnel and those who may have worked with similar lines.

4. What is a 'Project brief'?

A project brief is a written description of what is required for a display stand in terms of:

- The objective/s for the display stand
- The context/s for the display stand
- Rationale for the display stand.

5. Why is it important to know the 'audience' for a display stand?

It is important to know the audience for a display stand so it can be effectively aimed at the people it is intended to attract.

Identification of the audience will/may impact on the display stand in terms of:

- Ideas used – as the focus/theme for the display stand
- Products used – on or as part of the display stand
- Signage and the language/terms used on the display stand – to provide information
- Materials used – to dress the display stand
- Personnel – used to staff the display stand.

6. Define 'demographic profile'.

Characteristics which describe and differentiate a nominated target market from others.

7. What are identified in the notes as the ‘two keys’ in identifying the products to be featured on a display stand?

The two keys here are to ensure:

- All the necessary products to be promoted are identified – clearly and unambiguously
- Sufficient quantities of the displayed items are in stock – so they can be used in the display, and for sales purposes.

8. In relation to display stands, what is a ‘Product List’ and what information should it contain?

The ‘Product List’ list should cover the following information for all the products (as appropriate to the type of product) to be promoted or featured on the display stand:

- Brand names
- Sizes of goods
- Colour
- Styles
- Model types.

9. List five essential operational requirements which need to be taken into account when planning, creating and operating a display stand.

- Budget
- Dates
- Times
- Staffing
- Consumables
- External regulations.

10. Give eight examples of possible ‘external regulations’ which can apply when creating and operating a display stand at a remote location.

- Access times
- Working times
- Vehicle access
- Parking
- Materials which can and cannot be used
- Displays to be of ‘good taste’
- Permanent fixtures and fittings
- Display times
- Specific display stand requirements
- Arrangements in relation to utilities

- Floor plans
- Workplace safety and health
- Security
- Noise levels
- Smoking
- Dismantling the display stand
- Cleaning up and waste disposal
- Insurance
- Risk assessment.

11. Give three examples of how ‘time’ can be a constraint on a display stand.

- Not enough time – to prepare and create the display
- Too long a lead time – meaning plans have to be changed numerous times to accommodate the alterations required by those in-charge
- The display can only operate for a limited time and thus will not have ‘sufficient’ exposure
- The display is expected to run too long and will cost an excessive amount of money, or cause unacceptable problems elsewhere in the organisation
- The display must operate at set times, on set days.

12. What are the four generic resources required to create a display stand?

- Human resources
- Financial resources
- Information
- Physical resources.

13. What is a display stand ‘toolbox’ and what items should it contain?

A personal ‘tool box’ of essential items

This box will contain the items regularly used in the creation of display stands such as:

- | | | |
|---|-------------------|----------------------|
| • Box cutters | • Scissors | • Spirit level ruler |
| • Steel ruler | • Glues and tapes | • Pins |
| • String | • Tape measure | • Stapler |
| • Fishing line (also referred to simply as ‘nylon’) | | |

14. List five classifications of persons you might talk with to discuss display options and plans for display stand.

- Managers/supervisors
- The owner of the business
- Colleagues – at your workplace and at others
- Teachers/trainers who you have worked with
- Team leaders in the organisation
- Marketing personnel including visual merchandisers
- Suppliers and manufacturers
- External personnel with display creation expertise.

15. Describe five types of assistance which can be provided by external professional display/merchandising organisations.

- Strategic analysis and review – defining the objectives and goals of the organisation
- Positioning strategies – for various products and services (perhaps at different price ranges)
- Communication strategies – with media and market segments
- Corporate and/or brand creation and development
- Customer profiling services – helping to define and describe your customers
- Promotional planning – development of a calendar of promotional events for an upcoming period
- Market segmentation services – identifying the markets within markets that exist for your business
- Visual merchandising systems – integrated point-of-sale, and other, products
- Naming research and advice – testing of markets to develop suitable names for products and services
- Venue layout – from a merchandising perspective.

16. Identify four benefits of using an external organisation when planning a display stand.

The benefits of using an 'outside expert' are:

- Depth, breadth and diversity of experience within the specific merchandising area. These people will have been trained, gathered experience through their years in the business, and have valuable industry contacts that you could never hope to achieve
- They know the tricks of the trade
- They have up-to-date information about what is working now and what is not
- They rely on market research as the basis for many of their decisions, compared with personal feelings or gut instinct

- They may survey, develop and refine an approach rather than 'just doing it'
- There is a reduced 'worry factor' – when someone else is doing it, it relieves you (or should) of much of the worry: it's their problem!

17. What are the two main limitations in relation to using external consultants and organisations when planning a display stand?

- They charge for what they do and supply
- There are no guarantees.

18. List four basic/standard methods for generating ideas for a display stand.

- Looking at what others are doing – a walk around your local area, while you are visiting other towns/cities or overseas on holidays can reveal some good ideas
- Reading a magazine – if you see something which you think could be used in a display stand, then put it in a scrapbook or file for future reference
- Watching the television – if you see something, make a written note or record the program
- Reading trade literature – industry journals and magazines are useful sources of ideas
- Doing a course – attending a professional course in the practical aspects of displays and merchandising/visual merchandising.

19. Identify three 'creative thinking' techniques which might be used to generate ideas for a display stand.

- Visualisation
- Brainstorming
- Lateral thinking
- Product association.

20. List four situational factors which will impact on the development of a display plan.

- Available space – as determined by the physical size of the site you have purchased/been allocated
- Physical impediments in the area – such as:
 - Walls
 - Entrances and exits
 - Utilities – power, gas, water, waste
 - Pillars
 - Windows
 - Location of public toilets and other facilities
- Expected pedestrian traffic

- Location, availability and connections to:
 - Electricity and gas
 - Water
 - Waste.

21. List five elements which should be contained in a display plan for a display stand.

- Details, description and explanation of the theme of the display
- Rationale for the theme – explaining why the theme has been chosen and (if appropriate) it fits with other promotions/advertising
- Graphic representation of the intended display. This is a sketch/drawing showing materials (furniture, stands, signs, props) to be used, which may also include dimensions of items where space/weight (such as when items have to be suspended or used on a stage) is a factor.

Dimensions and weight of items to be used may also be an issue where items have to be transported to a display stand site

- A list of required resources – to build, dress and operate the display stand
- Cost of the proposal – this must include *all* costs:
 - Planning and development costs including time
 - Building and creation costs of the display stand
 - Operating/running costs for the display stand – including staffing and back-filling costs
 - Ancillary/support costs associated in any way with the project
- An indication of colour, décor and overall presentation
- Other relevant issues specific to the project which may address:
 - Market research findings
 - Input/feedback from key stakeholders
 - Risk management
 - Joint-venture partnerships.

22. Why is it important to use a display plan for a display stand?

The importance (and intention) of this plan is to provide a blueprint for construction of the display and to demonstrate (or prove) the display will achieve the desired result(s).

23. Complete the following adage: ‘If you fail to plan ...’

You plan to fail.

24. Why is it necessary for those creating display stands to realise the importance of ‘the first precious seconds’?

It emphasises the fact there are only, literally, *only seconds* available to attract people’s attention, hold it and feed it to get them interested enough to take the next step of moving to the display.

25. Is ‘size’ or ‘placement’ of a display stand seen as most important?

Placement.

26. Give three examples of ‘high-traffic’ areas for a display stand.

- Near doors and entrance ways
- Near service counters
- Near cash registers
- In established walkways – for example, between the door and the service counter; between the entrance door off the street and the elevators
- Near toilets
- Near telephones
- Near points where customers place their orders and/or make payments.

27. What is the immediate impression the use of a prop at a display stand should create?

Look at me. Look at me!

28. Explain the statement in relation to display stands that ‘the product must always be the hero with integrity’.

This means the image and reputation of the product or service being displayed must not be sullied by the devices used to display it.

The idea is to complement and balance the product, not to dominate it or to detract from it in any way.

29. List three points to consider when acquiring materials to construct, dress or support the maintenance of display stands.

- Make sure the resources selected and used are:
 - Of good quality
 - Support the focus of the display
 - Provide the necessary integrity and image for the product and your organisation
- Realise you will require resources/materials to assist in three stages in the life of a display stand:
 - The construction stage – where the physical display stand is built/created
 - The dressing stage – where the display stand is ‘made ready’

- The operational/active stage of the display stand – where items are needed to:
 - Replenish items which are used or given away
 - Replace items which become worn, torn or otherwise unacceptable
- Attention should always be paid to the potential to re-use or re-cycle any resources obtained, especially if they have to be purchased. This helps reduce costs for future display stands and helps create a growing pool of physical resources for future display stands
- Never be afraid to ask others to contribute. Many are willing to help but they often will not *offer* but will respond positively if asked. Consider making requests to:
 - Other businesses
 - Suppliers
 - Partners
 - Government agencies
 - Other departments
 - Head office
 - Industry contacts
 - Industry bodies
- Start to source the materials you need immediately. As soon as you identify 'required resources' for a display stand you should begin searching for them/sourcing them.

30. Identify five possible sources of resources for display stands.

- Head office
- Suppliers
- Manufacturers
- Support industries
- Other sites/outlets in your chain/organisation
- Other businesses in your shopping precinct/local area with whom you can undertake some sort of cross-promotion/joint-promotion
- Professional display organisations
- Individual staff members. Many staff have great resources at home they may be prepared to lend you
- Your storeroom – you will be surprised what can be tucked away in backroom storage areas.

31. List six fundamental requirements when constructing a display stand.

- Prepare a plan – avoid creating any display stand without a plan
- Always contrast the display stand in accordance with the display plan which has been created. If changes have to be made, make sure they are approved as required/necessary
- Adhere to the budget – make sure you do not overspend
- Respect all constraints, restrictions and limitations which apply as there can be legal ramifications, or a range of possible other negative consequences for failing to do so
- Maintain a sense of decency. Let other people be controversial and contentious
- Make sure the product or service being promoted remains the 'hero with integrity' – never detract from what it is you are promoting
- Strive for high visibility – the display stand has to demand attention
- See the display stand through the eyes of the customer/target market you are trying to attract rather than looking at it through your own eyes or the eyes of the organisation you work for
- Make safety a priority.

32. List six generic health, safety and welfare obligations employees are under when at work.

- Work in a way which ensures their personal safety and the safety of others (including colleagues and/or customers. Staff must accept a level of responsibility for safety)
- Use safety equipment ('personal protective equipment and clothing') which is provided to them in accordance with the manufacturer's instructions
- Use all safety equipment when and where required and in a correct manner
- Follow all legislated health, safety and welfare regulations as prescribed
- Report accidents, near-misses, injuries or illness to the appropriate person
- Report any equipment in need of repair and not use any equipment identified as being unsafe
- Not interfere or get in the way of a person who is trying to assist another in need
- Cooperate with the employer in their attempts to optimise workplace health, safety and welfare
- Act professionally and responsibly at all times
- Enforce health, safety and welfare requirements on others in the workplace when they notice the requirements are not being complied with
- Inform the employer of any breaches of health, safety and welfare regulations and/or site or organisation-specific requirements
- Ensure a hygienic and safe environment in accordance with the individual's responsibility and authority.

33. Give four common causes of workplace accidents when staff are constructing display stands.

- Untrained staff
- Faulty, incorrect or unstable equipment
- Careless staff
- Inappropriate working spaces
- Obstructions over exits
- Items incorrectly stored
- Horseplay by staff when doing their work.

34. What are the two guidelines which have emerged for manual handling in terms of safe lifting?

- Do not lift weights over 16 kg
- Use a team lift or mechanical aid for anything over 55 kg.

35. What is meant by 'dressing a display stand'?

Dressing the display stand refers to the activities involved in decorating and 'making ready' the display stand.

36. Answer 'True' or 'False' to the following statement: 'To attach posters used on a display stand the preferred method is to use adhesive tape over the *front* of a poster to stick the poster to the wall/backdrop'.

False

37. What should be done with hats and caps used on a display stand to enhance their appearance?

They should be stuffed with padding material.

38. Describe and draw two examples of 'asymmetrical' application of the 'pyramid effect' when displaying items on a display stand.

This is a 'left to right' or 'right to left' triangle:

39. Identify three guidelines for the positioning of information brochures and signs on a display stand.

- They are not hidden from view
- They are not buried too deeply within the display
- They are not physically located out of reach
- Placement at eye-level.

40. In relation to the placement of product on a display stand explain the requirement to 'Keep it tight'.

This means the display stand should keep all the items on the display 'close together', even overlapping.

41. List five reasons to use display materials on a display stand.

- They add interest to the display stand
- They add colour
- They can create – or extend – a theme
- They give variety
- They can attract attention
- They can differentiate one display stand from another
- They can give additional reasons the customer should visit the display stand
- They provide advice and information.

42. Name two benefits of using 'flags' as display materials on a display stand.

- They are usually readily recognisable
- They are reusable.

43. What are two 'common traps' for people when using signs on a display stand?

- To use too many signs which can confuse customers and draw attention away from the product
- To use signs which are inappropriate (in terms of their size and wording) for the display. You must bear in mind signs are unlikely to be read with the same enthusiasm by customers as the enthusiasm you put into them when you created them
- To make signs too wordy, too crowded or too busy. The 'keep it simple principle' must apply to all signs on a display stand.

44. List four ways pamphlets can be displayed on a display stand.

- Pinned at different pages to reveal/present a variety of photos, text or information
- Displayed in a 'fanned out' way
- Rolled up and tied with ribbon to add interest and look 'valuable'
- Set out in a wave formation
- Inserted into free-standing units
- Handed out to customers by personnel staffing the display stand.

45. Identify three ways you can check your display stand meets all operational, informational and applicable constraints.

- Liaising with all relevant stakeholders to identify their issues and concerns which need to be complied with
- Obtaining and reading site regulations where a display stand is to be created at an off-site location
- Ensuring you are aware of the objectives and context for the display stand – which provides central focus and direction
- Creating a display plan for the display stand and providing it to management or site managers for their approval
- Seeking feedback from others including:
 - Management
 - Stakeholders
 - Site managers
 - Customers
- Checking eye-lines and lines-of-sight in relation to the physical positioning of products and signs
- Inspecting and analysing the completed display stand:
 - To ensure conformity with the approved display plan
 - In conjunction with site management (for off-site locations) or business management (for workplace locations) to prove compliance with internal and/or external requirements/constraints
 - To verify safety of display stand
 - To confirm the neatness, cleanliness and general appearance and balance of the display stand.

46. List six issues which are important considerations as part of the process of choosing staff to work on a display stand.

- It is imperative all personnel chosen to staff a display stand are suitable for the work which will be allocated to them. You must do research to ensure all staff chosen for roles have the appropriate knowledge and skills for the task they will be given.

This is vital because staff at a display stand are:

- Very much on public view. They need to appreciate they themselves are as much 'on show' as the products/services they are promoting
- Representing the organisation. Visitors to the display stand will judge the business as much by the appearance and actions of the staff as by the value and attractiveness of the items being promoted
- Different staff may have to be selected to support different product (or service) types in line with their levels of expertise and product knowledge
- All staff used on display stands **must** have:
 - Excellent personal presentation skills covering all aspects such as personal presentation and grooming, uniform and personal hygiene
 - Outstanding interpersonal skills to cope with the questions, comments, feedback and criticisms which commonly accompany public displays
- Rostering staff to work on a display stand must be done in such a way it:
 - Provides backfilling for staff who are taken from their normal duties and allocated to display stand duties
 - Covers all the hours the display stand is required to be staffed including personnel to cover the breaks staff are entitled to have
 - The roster provides enough staff to:
 - Cater for the expected volume of trade, visitors and customers
 - Accommodate all identified activities which the display stand will offer or provide
- There is also a need to obtain 'sufficient' personnel to staff the stand for all the hours it is operational, and
- Strive to grow your pool of staff who are able, and suitable, for use on a variety of display stands.

47. List four pre-requisite requirements for staff working on display stands.

- Attend training if provided for the promotion, so they know what to do and say
- Participate in the briefing so they know their allocated roles and responsibilities
- Check personal appearance before starting work and maintain it throughout the shift
- Work according to the roster for the promotion to ensure the right staff are present at the right times in the right numbers
- Understand everyone who works on a display stand will always be responsible for multiple roles/tasks. There is never a situation where staff only have one job to do and nothing else.

Everyone who works on a display stand must understand that they are expected to do whatever has to be done whenever it needs to be done.

48. Identify six generic customer service roles staff who are assigned to display stands can be required to undertake.

- Generate interest in the display stand
- Respond to questions, queries and general and/or specific enquiries
- Capture data from visitors/customers
- Conduct demonstrations
- Make and process sales
- Take reservations
- Maintain the display stand
- Monitor customer and visitor activity
- Make arrangements for follow-up service provision.

49. Differentiate between 'customers' and 'prospects'.

Customers are those who have already bought something from you.

They may have:

- Bought while at the display stand
- Bought before the display stand or after it
- Paid a deposit on a booking.

Prospects are those who it is believed may buy from you.

They are commonly people:

- Who have been identified by your staff as having a need which your business is able to fill
- Indicated they are interested in buying from you
- Asked for information about your products and services
- Provided their details so you can contact them
- Made a specific request for information and/or a sales call.

50. Give four reasons why it is important to follow up with prospects after initial contact at a display stand.

- They have demonstrated interest in what you are selling
- They are more likely to purchase than non-prospects
- They will be expecting contact because:
 - They have asked for a follow-up call or visit
 - They have been advised someone will contact them
- They can be excellent sources of referrals
- They optimise return on the investment of time, money and effort compared to cold-calling
- Failing to follow-up as promised or expected will have a negative impact on the reputation of the business in the eyes of the prospect.

51. Identify four examples of follow-up activities which may occur with prospects or customers after initial contact has been made with them at a display stand.

- Telephoning the person or business
- Making personal visits
- E-mailing information
- Forwarding (by mail or courier) materials and information
- Adding customer details to nominated internal CRM/CMS systems or internal database
- Liaising with colleagues, suppliers and others, as required
- Inviting the prospect to your organisation/workplace.

52. Give four reasons it is important to keep a display stand looking clean and tidy.

- The way the display stand looks reflects the business it represents and you must create a positive image and impression
- People judge the business (and the products and services it sells) by the way the display stand looks so if they do not like the way the stand looks they will be disinclined to make a purchase
- To attract people to the display stand customers will not want to engage with, or be seen at a display stand that looks unappealing
- To optimise attainment of the objective/s for the display stand. A dirty, untidy and unattractive display stand will dramatically negatively influence the impact of a display stand
- Comply with internal and/or external requirements relating to the appearance of the display stand
- Meet the opposition. Your competitors will be keeping their display stand clean and tidy
- For personal satisfaction – you do not want to be associated with a display stand which looks sub-standard.

53. List four topics you must pay attention to in order to ensure a display stand is maintained in a clean and tidy condition.

- Rubbish is removed
- Cleaning and dusting is undertaken regularly
- Items are replaced/adjusted as needed
- Unsightly items are removed/replaced
- The display stand itself must be cleaned
- Signage must be replaced when necessary
- Personal appearance of staff.

54. What are the two primary requirements all display stands must attain and retain?

- Retain their visual properties as described/identified in the display plan
- Look 'full' to give the impression the display stand has plenty of stock to service customer needs.

55. Give five examples of minor changes which may be required to display stands while they are operational.

- Changing signage to create 'something different'
 - Changing products
 - Changing props
 - Changing lighting
 - Changing video presentations
 - Changing display styles. This means, for example, a static display *today*, can become an active display *tomorrow* by virtue of having staff at the stand providing:
 - Advice and information
 - Tasting and sampling
 - Demonstrations
 - Soliciting feedback and comments.
-

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Create promotional display stand D2.TTA.CL2.10
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Describe display stand requirements - Plan display stand - Create display stand - Use display stand - Maintain display stand - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Describe display stand requirements		
Identify display stand objectives and contexts	☐	☐
Identify audience	☐	☐
Identify operational requirements, information and constraints	☐	☐
Identify resources available to support display stand development and creation	☐	☐

Did the candidate	Yes	No
Element 2: Plan display stand		
Liaise with relevant personnel to establish plan for display stand	☐	☐
Develop display ideas	☐	☐
Prepare display plan	☐	☐
Source and obtain materials to construct, dress or support the maintenance of the display stand	☐	☐
Element 3: Create display stand		
Construct the display stand	☐	☐
Dress the display stand	☐	☐
Apply established display techniques	☐	☐
Use display materials	☐	☐
Verify display stand meets identified operational requirements, information and constraints	☐	☐
Element 4: Use display stand		
Staff the display stand as required	☐	☐
Provide customer service during display	☐	☐
Follow-up sales opportunities after initial contact	☐	☐
Element 5: Maintain display stand		
Keep display stand clean and tidy	☐	☐
Replenish products and materials as necessary	☐	☐
Review and alter display stand as required	☐	☐
