Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

'Pass Competent' (PC)

'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: OPERATE TOURS IN REMOTE AREAS		NOMINAL HOURS: 80
UNIT NUMBER: D2.TTO.CL4.15		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to conduct a day tour or extended tour of any style in a remote area		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Prepare for the remote area tour 1.1 Obtain <i>information on destination</i> for the tour to be conducted 1.2 Confirm <i>standard equipment and supplies</i> for the tour 1.3 Obtain <i>necessary supplies and equipment</i> to support the tour 1.4 <i>Notify required people</i> 1.5 Confirm supplies and equipment ready for the tour Element 2: Advise customers regarding the remote area tour 2.1 Provide <i>verbal information</i> about the tour 2.2 Supply <i>printed information</i> 2.3 <i>Stress the need for environmental and cultural sensitivity</i>		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to the conduct of tours in remote areas within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation <i>Information on destination</i> may be related to: • Local information • Weather conditions • Maps • Routes and road conditions • Facilities that exist in the area • Local emergency and other contacts, including names, numbers, locations • Local customs

Element 3: Apply safety and survival techniques on the remote area tour 3.1 <i>Navigate the tour route</i> 3.2 <i>Monitor safety of tour members</i> 3.3 <i>Monitor the condition of tour vehicles, where applicable</i> 3.4 <i>Monitor environmental conditions</i> 3.5 <i>Respond to emergency situations</i> 3.6 <i>Operate communication equipment</i> Element 4: Address issues arising on the remote area tour 4.1 <i>Explain extraordinary conditions to tour members</i> 4.2 <i>Present viable options for addressing issues arising</i> 4.3 <i>Select alternative course of action</i>	• Local regulations and conditions of entry • Permits and authorisations required. <i>Standard equipment and supplies</i> may include: • Vehicles • Food and drinks • Accommodation requirements, including tents, sleeping requirements • Cooking and food related equipment/terrain • Navigation equipment • Communication equipment • Equipment related to specific anticipated activities • First aid kit. <i>Obtain necessary supplies and equipment</i> is related to: • Acquiring resources to support activities unique to the tour • Acquiring resources to replace items deemed insufficient, inappropriate or unsafe • Knowing what supplies or equipment are available at remote destinations. <i>Notify required people</i> may include: • Staff • Local communities • Relevant authorities. <i>Provide verbal information</i> should relate to: • Explaining the tour to the tour group highlighting: ▪ Anticipated dangers and related safety requirements and protocols
---	--

	▪ Emergency procedures • Re-confirming itinerary • Re-confirming scheduled activities • Advising of relevant and/or non-negotiable timelines and deadlines • Encouraging participation. <i>Printed information</i> may include: • Maps • Itineraries • Fact sheets • Emergency advice • Contact details • Required level of fitness to undertake tour activities. <i>Stress the need for environmental and cultural sensitivity</i> may include: • Environmental awareness, including specific factors relating to the tour regarding: ▪ Flora and fauna ▪ The landscape ▪ Buildings and property • Local customs in the area and the need for cultural sensitivity and respect for locals. <i>Navigate the tour</i> may include: • Using maps • Using global positioning systems (GPS), including hand-held and in-vehicle systems • Using compass
--	---

	• Following designated roads • Using local knowledge. <i>Monitor safety of tour members may include:</i> • Regular meetings to advise of potential dangers • Checking ongoing progress of individual tour members in terms of personal ability • Overseeing activities, including evaluating each activity for safety prior to undertaking the activity, pre-activity briefings, demonstration, practice and monitoring during activities • Seeking feedback from tour members regarding their progress • Contacting authorities for safety related advice and updates • Administering basic first aid as required • De-briefing with tour members after activities to identify possible issues. <i>Monitor the condition of tour vehicles may include:</i> • Conducting daily safety checks, including visual and operating inspections • Providing regular and scheduled preventative maintenance • Checking the operational safety of tour vehicles after engagement with harsh conditions, or after extended usage • Safety inspections of the interior of the vehicle. <i>Environmental conditions will include:</i> • Weather-related, including weather conditions in other geographic areas that have the capacity to impact on the tour, temperature, amount of available light • Human, including the presence of people who may pose a threat • Physical factors, including the condition of the ground, buildings and facilities.
--	--

	<i>Respond to emergency situations</i> may include: • Implementing the requirements of established emergency and contingency plans • Responding to issues arising for which no emergency plans have been established • Seeking the assistance of authorities • Placing the safety of life above the security of equipment • Implementing evacuation and retrieval plans. <i>Operate communication equipment</i> may include: • On-board two-way radio • Hand-held communications equipment. <i>Extraordinary conditions</i> may include: • Extreme weather conditions • Unanticipated ground, environmental or other factors • Factors affecting individual members of the tour group • Vehicle breakdowns • Unexpected conditions and limitations imposed by authorities or local communities • Results of emergency situations that have been successfully dealt with but which have resulted in extraordinary conditions. <i>Viable options</i> may include: • Disciplining tour group members • Adjusting the length of the itinerary • Adjusting activities scheduled in the itinerary, including removal of activities and replacement of scheduled activities with alternatives • Incorporating extra rest periods, meal breaks and free time
--	---

- Revising seating, sleeping and other arrangements to accommodate interpersonal issues
- Changing the intended destinations, sites and tour locations
- Cancelling the tour.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Enterprise policies and procedures in regard to preparations prior to conducting a remote tour, on tour practices and post tour debriefings
- Principles of tour guiding, emergency procedures and first aid
- Ability to use survival and safety techniques
- Knowledge of touring equipment and tour vehicles
- General knowledge and ability in relation to vehicle and equipment maintenance
- Knowledge and ability in relation to navigation
- Ability to deliver basic first aid
- Ability to use communication, negotiation, leadership and group management skills.

Linkages To Other Units

- Work as a tour guide
- Allocate tour resources
- Conduct pre-departure checks
- Coordinate and operate a day-tour (or short excursions)
- Lead tour groups in a responsible manner
- Establish and maintain safe touring conditions
- Manage and facilitate an extended tour experience
- Manage and execute a detailed tour itinerary

- Manage operational risk
- Set up and operate a camp site
- Implement occupational health and safety procedures
- Follow safety and security procedures.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of host enterprise policies and procedures in regard to preparations prior to conducting a remote tour, on tour practices and post tour debriefings
- Demonstrated ability to prepare for the operation of a nominated tour in a remote area for a nominated group for a given itinerary, including identification of necessary equipment and supplies, and identification of relevant people who must be notified about the tour and the nature of the notification that must occur
- Demonstrated ability to provide verbal and printed safety, cultural and destination advice and information to tour group members in relation to a nominated remote tour
- Demonstrated ability to respond effectively to nominated emergency situations and issues arising on a designated remote area tour with a nominated group.

Context of Assessment

This unit may be assessed on or off the job:

- Assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge
- Assessment must relate to the individual's work area or area of responsibility.

Resource Implications

Training and assessment to include access to a real or simulated workplace; and access to workplace standards, procedures, policies, guidelines, tools and equipment.

	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Role plays • Practical demonstrations • Feedback from tour group participants • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work • Simulations. Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	1	Collect information relevant to the tour and the destinations
	Communicating ideas and information	1	Provide verbal and printed information to tour group members
	Planning and organising activities	2	Plan responses to emergency situations
	Working with others and in teams	2	Monitor tour group activities and safety
	Using mathematical ideas and techniques	1	Calculate resources required for a tour

	Solving problems	3	Design solutions for issues arising during the tour
	Using technology	1	Operate communication and other tour equipment

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Operate tours in remote areas D2.TTO.CL4.15
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. What is a remote tour? What activities are associated with a remote tour?	☐	☐
2. What are examples of human resources required for a remote tour?	☐	☐

Questions	Response	
	PC	NYC
3. What are the considerations when obtaining resources for a remote tour?	☐	☐
4. Why it is important to communicate with stakeholders during the planning of a remote tour?	☐	☐
5. How can you check the readiness of resources prior to a tour?	☐	☐

Questions	Response	
	PC	NYC
6. What tasks do you need to perform when demonstrating tour activities?	☐	☐
7. What are examples of emergency information that should be given to tour members?	☐	☐
8. Why is it important to address environmental and cultural sensitivities when conducting remote tours?	☐	☐

Questions	Response	
	PC	NYC
9. What are three essential navigational tools to use when conducting a remote tour?	☐	☐
10. What does the term 'Duty of Care' mean?	☐	☐
11. Why is it important to monitor the condition of tour vehicles?	☐	☐

Questions	Response	
	PC	NYC
12. What are methods that can be used to gather information regarding environmental considerations?	☐	☐
13. Describe one type of medical emergency that may take place during a remote tour. How would you handle this emergency if you were a tour guide?	☐	☐
14. Why is it important to ensure that communication equipment has been tested prior to use?	☐	☐

Questions	Response	
	PC	NYC
15. How can you predict the potential for extra-ordinary conditions?	☐	☐
16. What are key considerations when identifying viable options to respond to extra-ordinary conditions?	☐	☐
17. What is the purpose of developing 'contingency plans'?	☐	☐

Written questions

Operate tours in remote areas – D2.TTO.CL4.15

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. What are types of tour information you would collect as a tour guide before organising a tour?

2. What are examples of destination information you can collect?

3. What are examples of internal documents that are needed to conduct a tour?

4. What are examples of physical resources needed for remote tours?

5. What are activities associated with obtaining resources for a remote tour?

6. What permits are required to conduct remote tours and activities in your region?

7. What are three examples of stakeholders that need to be informed or involved in developing of a tour?

8. For one of the stakeholders identified in Question 7, identify information that needs to be shared or collected from that stakeholder.

9. What would you want to verify when checking readiness of general resources prior to a tour?

10. What would you want to verify when checking readiness of tour personnel prior to a tour?

11. What information should be communicated when giving an introduction of a remote tour?

12. What information needs to be communicated to tour members when explaining activities?

13. What is the purpose of distributing printed information to tour members?

14. What are four examples of printed material that may be given to tour members?

15. What are examples of environmental and cultural topics that can be raised during a remote tour?

16. What are strategies that can be implemented to improve environmental and cultural sensitivity?

17. Why is the use of navigation so critical during a remote tour?

18. What are types of navigational tools used in a remote tour?

19. What are activities a tour guide to help ensure the health and safety of tours?

20. How can you supervise the safety of tour members?

21. What are activities associated with monitoring tour vehicles?

22. Why is it important for vehicles to be clean? Explain two ways you can clean the interior or exterior of tour vehicles.

23. What are examples of weather-related factors that have the capacity to impact on the tour?

24. What are examples of human factors that have the capacity to impact on the tour?

25. What are three types of emergencies that may occur during a tour?

26. What are examples of emergency equipment that should be included in a remote tour?

27. What are two types of communication equipment that are used during a remote tour?

28. What are two examples of negative extra-ordinary conditions that can impact on a tour?

29. Explain how you would handle the two negative extra-ordinary conditions you identified in Question 28.

30. What are steps in handling extra-ordinary conditions?

Answers to written questions

Operate tours in remote areas – D2.TTO.CL4.15

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. What are types of tour information you would collect as a tour guide before organising a tour?

- Customer information
- Itinerary information
- Specific requirements relating to destinations
- Supplier information
- Special request notes
- Travel documentation
- Operational tour information
- Promotional materials.

2. What are examples of destination information you can collect?

- General destination information
- Statistical information
- Currency
- Maps
- Travel guides
- Events
- Languages
- Safety
- Government information
- Time zones
- Communications
- Local community information
- Amenities and services
- Attractions
- Activities
- History

- Geographical features
- Local customs and culture
- Climate.

3. What are examples of internal documents that are needed to conduct a tour?

- Log book
- Inspection checklists
- Copies of all documents to be used elsewhere as part of the activity or tour
- Role play scenarios
- Supporting plans, policies and procedures for each activity
- Resource allocation sheets for each type of activity
- Lists of PPE required for individual activities
- All resources to enable implementation of the activity
- 'Tips for Guides' sheets
- Safety tips
- Rules of the game
- Scripted commentary
- Participant checklists
- Maps
- Diagrams
- Photographs
- Guide books
- Binoculars
- Sight cards
- Activity sheets.

4. What are examples of physical resources needed for remote tours?

- Vehicles
- Camping equipment
- Miscellaneous items
- Catering equipment
- Food, beverages and refreshments
- Navigation equipment
- Communication equipment
- First aid kit
- Safety equipment
- Recreational and activity equipment
- Maintenance equipment
- Handouts
- Materials and aids
- Activities
- Keys.

5. What are activities associated with obtaining resources for a remote tour?

- Identifying required resources
- Ensuring information relating to items is correct
- Ensuring sufficient numbers of items are obtained
- Knowing what supplies or equipment are available at remote destinations
- Identify methods to obtain resources - including purchase, hire, borrow etc.
- Identifying suitable suppliers
- Identifying individual prices and total costs
- Negotiating purchase process
- Acquiring resources to support activities unique to the tour
- Acquiring resources to replace items deemed insufficient, inappropriate or unsafe.

6. What permits are required to conduct remote tours and activities in your region?

Answers will vary depending on location.

7. What are three examples of stakeholders that need to be informed or involved in developing of a tour?

- Management
- Administration
- Tour staff
- Other staff
- Local communities
- Tour operator employees
- Third party providers, joint venture partner and agencies
- Local and independent guides
- Designated contacts at destinations and suppliers
- Land owners and land managers
- Local tourism agency, bureau or government agency
- Subject matter experts
- Cultural advisers
- Technical advisors and experts
- Environmental educators
- Interpretive consultants.

8. For one of the stakeholders identified in Question 7, identify information that needs to be shared or collected from that stakeholder.

Answers will vary.

- 9. What would you want to verify when checking readiness of general resources prior to a tour?**
- Required resources are available
 - Sufficient resources
 - The available resources are safe to use
 - Resources are ready to be used or distributed to tour group members
 - The security of resources to be used and those which are to be left on the tour vehicle
 - Equipment and items provided by third party providers are safe and suitable for the activity to be conducted.
- 10. What would you want to verify when checking readiness of tour personnel prior to a tour?**
- All tour staff understand their role and responsibilities in relation to the tour
 - Staff are ready to start the tour
 - Members of the local community are ready to play their part
 - They understand their role in checking and using resources.
- 11. What information should be communicated when giving an introduction of a remote tour?**
- Introduce tour guides themselves to the group
 - Name the group as part of the talk
 - Identify the site or tour area
 - Explain the type of tour
 - Provide an overview of what the tour will cover
 - Introduce any personnel who will be part of the tour.
- 12. What information needs to be communicated to tour members when explaining activities?**
- Provide a welcome
 - Outlining activity
 - Rules
 - Equipment to be used
 - Duration of activity
 - Tasks associated with activity.

13. What is the purpose of distributing printed information to tour members?

- Read to gain background knowledge about the tour and activities
- Use to engage in a practical way with the tour or activities
- Understand instructions, directions, tips, advice and suggestions to optimise engagement with and enjoyment from tour and activities.

14. What are four examples of printed material that may be given to tour members?

- Tour information book
- Itineraries
- Rooming Lists
- Contact details of tour members
- Permits
- Authorisation Letters
- Visas
- Travel documents
- Vouchers & tickets
- Maps
- Itineraries
- Background information about locations
- Rules and regulations
- Permanent ('take home') copy of the scripted commentary provided by the Tour Guide
- Fact sheets
- Contact details
- Notes and handouts
- Information sheets and brochures
- Name tags
- Safety tips
- Rules of activities
- Diagrams
- Photographs
- Sight cards
- Activity sheets
- Exercise sheets
- Question sheets
- Score cards.

15. What are examples of environmental and cultural topics that can be raised during a remote tour?

- Flora, including types, history, concentrations, growth patterns, threats, seasonal influences, preservation and conservation issues
- History and heritage of the general area with attention to special items or areas of interest
- The general natural environment
- The built environment, including its impact on the eco-system
- Individual species
- Specific geographic locations and landmarks
- Feedback from customers and co-workers suggesting topics for activities
- Initiatives recommended by local authorities and local communities
- Topics of general community interest.

16. What are strategies that can be implemented to improve environmental and cultural sensitivity?

- Encouraging community engagement
- Gaining agreement from the community about the nature and implementation of remote tours
- Obtaining necessary authorisations and permissions
- Designing strategies and procedures that will balance economic viability with cultural appropriateness and environmental preservation
- Creates and implements environmentally sustainable practices
- Developing codes of practice
- Preparing implementation plans for remote tours with the local community and environment in mind
- Training staff
- Ensuring sustainable appropriateness of all operational activities
- Identifying appropriate behaviour to ensure the local environment is respected
- Supports local environmental issues
- Enhancing the overall community
- Ensuring operational activities do not impact negatively on the environment or local community
- Investing or supporting local community initiatives
- Consideration of restricting access
- Limitations on the size of visiting groups
- Complying with bans
- Integrating ecological best practice.

17. Why is the use of navigation so critical during a remote tour?

Answers will vary.

18. What are types of navigational tools used in remote tours?

- Maps
- Global positioning systems (GPS), including hand-held and in-vehicle systems
- Online maps
- Compass
- Following designated roads
- Using dedicated walking tracks
- Following designated signs
- Using local knowledge
- Using landmarks
- Using satellite phones.

19. What are activities a tour guide to help ensure the health and safety of tours?

- Explain potential hazards and dangers to tour group members
- Identify action to take to address and manage risks
- Never assume tour group members know of risks and dangers
- Prevent access to unauthorised or dangerous situations and environments
- Modify, halt or divert a tour whenever dangerous situations occur
- Distribute and demonstrate safety equipment and clothing
- Check seat belts, harnesses and restraints
- Monitor personal belongings
- Check their comfort levels and respond appropriately if they are tired, too hot, or unwell
- Give safety and security the time and priority it deserves
- Take action to address any unsafe situation
- Always be willing to call for assistance from other staff, security or the authorities.

20. How can you supervise the safety of tour members?

- Supervise movement and activities
- Regular meetings to advise of potential dangers
- Providing advance warning and information of up-coming activities and destinations
- Monitor weather conditions
- Directing tour group members to locations
- Leading tour group members to activities and locations
- Checking ongoing progress of individual tour members in terms of personal ability
- Taking action to minimise unscheduled tour group member activities that jeopardise safety
- Taking action to encourage tour group compliance with requirements
- Monitoring the duration of movements and activities to determine remedial action to be taken.
- Counting number of tour members
- Following procedures for locating lost or late tour group members
- Overseeing activities, including evaluating each activity for safety
- Seeking feedback from tour members regarding their progress
- Contacting authorities for safety related advice and updates
- Administering basic first aid as required
- De-briefing with tour members after activities to identify possible.

21. What are activities associated with monitoring tour vehicles?

- Conducting daily safety checks, including visual and operating inspections
- Providing regular and scheduled preventative maintenance
- Checking the operational safety of tour vehicles after engagement with harsh conditions, or after extended usage
- Safety inspections of the interior of the vehicle.

22. Why is it important for vehicles to be clean? Explain two ways you can clean the interior or exterior of tour vehicles.

To promote clean, presentable, hygienic and professional appearance

Clean vehicle interior

- Remove loose debris
- Clean floor
- Clean upholstery
- Clean door jambs and steps
- Clean interiors
- Clean windows and glass
- Clean steering wheel, dashboard, vehicle controls and consoles.

Clean vehicle exterior

- Use pressure washer, where necessary
- Clean wheels
- Clean vehicle body panels and exterior components
- Clean windows and mirrors
- Polish chrome and fittings
- Apply tyre black.

23. What are examples of weather-related factors that have the capacity to impact on the tour?

- Temperature
- Amount of available light
- Flooding
- Drought
- Rough seas
- Sand storms
- Fires
- Typhoons.

24. What are examples of human factors that have the capacity to impact on the tour?

- Presence of people who may pose a threat
- General political instability due to a recent change of government or impending elections
- Tourists being regularly targeted in relation to theft
- Recent tourist attacks
- Breakout of disease.

25. What are three types of emergencies that may occur during a tour?

- Lost people
- Lost documents including passports
- Lost luggage, phone, laptops, jewellery and other valuables
- Fire
- Medical emergency
- Bomb threat
- Hostage situation
- Robbery
- Difficult customers
- Power failure.

26. What are examples of emergency equipment that should be included in a remote tour?

- First aid kits
- Emergency documentation
- When you have to use the first aid kit
- Fire extinguishers
- Torch lights.

27. What are two types of communication equipment that are used during a remote tour?

- Portable PA systems
- Microphones on PA systems
- Megaphones
- Walkie-talkies/two-way radios
- Slides and transparencies
- Sound and lighting technologies
- Laser pointers
- I-pads, phones, tablets, computers.

28. What are two examples of negative extra-ordinary conditions that can impact on a tour?

- Extreme weather conditions impacting the areas to be visited
- Poor road conditions or unexpected high traffic flows, or vehicle accidents causing delays
- Unanticipated ground, environmental or other factors
- Factors affecting individual members of the tour group
- Vehicle breakdowns
- Unexpected conditions and limitations imposed by authorities or local communities
- Directives from officials not to enter certain areas
- Results of emergency situations that have been successfully dealt with but which have resulted in extraordinary conditions
- Road closures forcing detours
- Unexpected closure of a destination/attraction listed on the itinerary
- Late departure from muster point
- The venue reserved has been double booked and is being used for another purpose and not available for your tour
- Coach breakdown
- Airline strike
- Mechanical failure
- Luggage problems
- Theft
- An unexpected phone call to a tour group member having to leave the tour for personal reasons such as family member emergency
- Inappropriate participant behaviour

- Conflicts between tour members or with tour staff
- Dissatisfied customers
- Illness such as insect bites, allergic reactions, asthma, hay fever, stomach bugs, cuts, burns and sunstroke etc.
- Broken bones and strains
- Equipment failure
- Festivals or community gatherings
- Unpredictable animal behaviour.

29. Explain how you would handle the two negative extra-ordinary conditions you identified in Question 28.

Answers will vary.

30. What are steps in handling extra-ordinary conditions?

- Implementing contingency plans
 - Maintaining communication with customers
 - Taking charge of the situation
 - Being proactive
 - Adhering to host enterprise policies and procedures.

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Operate tours in remote areas D2.TTO.CL4.15
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Prepare for the remote area tour - Advise customers regarding the remote area tour - Apply safety and survival techniques on the remote area tour - Address issues arising on the remote area tour - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Prepare for the remote area tour		
Obtain information on destination for the tour to be conducted	☐	☐
Confirm standard equipment and supplies for the tour	☐	☐
Obtain necessary supplies and equipment to support the tour	☐	☐
Notify required people	☐	☐
Confirm supplies and equipment ready for the tour	☐	☐
Element 2: Advise customers regarding the remote area tour		
Provide verbal information about the tour	☐	☐
Supply printed information	☐	☐
Stress the need for environmental and cultural sensitivity	☐	☐

Did the candidate	Yes	No
Element 3: Apply safety and survival techniques on the remote area tour		
Navigate the tour route	☐	☐
Monitor safety of tour members	☐	☐
Monitor the condition of tour vehicles, where applicable	☐	☐
Monitor environmental conditions	☐	☐
Respond to emergency situations	☐	☐
Operate communication equipment	☐	☐
Element 4: Address issues arising on the remote area tour		
Explain extraordinary conditions to tour members	☐	☐
Present viable options for addressing issues arising	☐	☐
Select alternative course of action	☐	☐
Did the student's overall performance meet the standard?	☐	☐
