Competency Based Training (CBT) and assessment - An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of Competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational health and safety requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of Competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning Approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in Learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for Participant Diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant Centred Learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning
- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants

- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active Learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training Strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of Training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/Tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group Discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role Play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation Games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /Group Exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case Study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field Visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group Presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice Sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)

Principle of Competency Based Assessment

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in Assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment Objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of Assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative Assessment Tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: PREPARE HOT, COLD AND FROZEN DESSERT		NOMINAL HOURS: 55
UNIT NUMBER: D1.HCC.CL2.14		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by cooks, chefs and patissiers to prepare, produce and store a range of high quality hot, cold and frozen desserts in commercial food production environments		
ELEMENTS AND PERFORMANCE CRITERIA	UNIT VARIABLE AND ASSESSMENT GUIDE	
Element 1: Prepare and produce a range of hot, cold and frozen desserts 1.1 Select required <i>commodities</i> according to recipe and production requirements 1.2 Prepare a variety of <i>hot desserts</i> according to standard recipes and enterprise standards 1.3 Prepare a range of <i>cold desserts</i> according to standard recipes and enterprise standards 1.4 Prepare a range of <i>frozen desserts</i> according to standard recipes and enterprise standards 1.5 Use appropriate <i>equipment</i> to prepare hot, cold and frozen desserts 1.6 Use correct <i>techniques</i> to produce hot, cold and frozen desserts to enterprise standards 1.7 Produce hot, cold and frozen desserts to <i>enterprise requirements and standards</i> 1.8 Select <i>correct cooking conditions</i> for hot, cold and frozen desserts	Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that are responsible for preparing and producing a range of hot, cold and frozen desserts the sauces and garnishes required to compliment the desserts and storing a variety of desserts within the labour divisions of the hotel and travel industries and may include: 1. Food Production. <i>Commodities</i> may include: • Flours • Sugars • Fruits • Nuts • Eggs • Milk • Cream	

Element 2: Prepare and store sweet sauces 2.1 Select required commodities according to recipe and production requirements 2.2 Prepare and produce a range of sweet sauces to enterprise requirements and standards 2.3 <i>Store sweet sauces</i> for use in a service period or for use at another occasion Element 3: Prepare accompaniments, garnishes and decorations 3.1 <i>Plan accompaniments, garnishes and decorations</i> for desserts 3.2 Prepare accompaniments, garnishes and decorations for desserts Element 4: Store hot, cold and frozen desserts 4.1 <i>Store</i> desserts at appropriate temperature and conditions to maintain quality, freshness and customer appeal 4.2 Pack down desserts to ensure taste, appearance and textures are maintained	• Gelatin • Flavourings and essences • Chocolate. Hot desserts may include: • Soufflés • puddings • Pies • Custards • Rice • Crepes • Omelets • Fritters • Fruits. <i>Cold desserts</i> may include: • Tarts • Flans • Soufflés • Bavarois • Mousses • Fruits • Charlottes • Crème caramel.
---	--

	Frozen desserts may include: • Ice creams • Parfaits • Coupes • Bombes • Sorbets • Gelati • Fruits. <i>Equipment</i> may include: • Ovens • Trays • Racks • Bowls • Mixing machine • Scales • Rings, tins and moulds • Fridge and freezer • Ice cream machine • Blenders. <i>Techniques</i> should include: • Beating • Whisking • Folding.
--	--

	Enterprise requirements and standards should relate to: • Scale to correct weight • Colour • Consistency • Texture • Moisture • Mouth feel • Appearance • Sale ability. Correct cooking conditions may include: • Oven temperature • Moisture • Size and shape of trays and moulds • Racking • Times • Refrigerator and/or freezer temperature. Store sweet sauces may relate to: • Keeping at correct hot, cold or frozen temperature • Retaining texture, consistency, flavour • Keeping away from strong odours • Using appropriate containers • Labelling correctly.
--	---

	Accompaniments, garnishes and decorations may include: • Fruits • Biscuits • Chocolate • Flowers and leaves • Herbs • Croquant • Creams. <i>Store relates to:</i> • Cool room temperature • Cool room placement • Length of time in cool storage • Freezer temperature • Length of time in freezer storage. Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Knowledge of the quality characteristics of hot, cold and frozen desserts, including classical, modern/contemporary and culturally specific • Knowledge of the appropriate quality indicators, such as taste, texture, structure, shape and size to industry and/or enterprise standards • Knowledge of the principles of the production of hot, cold and frozen desserts • Demonstrated ability to safely and hygienically handle products • Knowledge of commodities
--	--

	• Knowledge of the historical and cultural aspects of hot, cold and frozen desserts and the menu • Ability to handle and store hot, cold and frozen deserts. Linkages To Other Units • Comply with workplace hygiene procedures • Implement occupational health and safety procedures • Prepare and store food • Work effectively with colleagues and customers • Maintain strategies for safe food • Present desserts • Present and display food products • Apply basic techniques of commercial cookery • Other food units as appropriate, pastry, cakes, yeast goods, desserts, buffet and food service. Critical Aspects of Assessment Evidence of the following is essential: • Knowledge of the characteristics of hot, cold and frozen desserts, decorations, garnishes and sauces, classical and modern, size, shape, structure and assembly according to industry and enterprise standards • Demonstration of commodity knowledge, including quality aspects • Safe and hygienic handling of products • Knowledge of appropriate portion control • Knowledge of specific terminology related to hot, cold and frozen desserts • Demonstrated ability to prepare a variety of hot, cold and frozen desserts
--	--

	• Demonstration of creative artistic skills in preparation and decoration of hot, cold and frozen desserts • Demonstrated ability to prepare and store a range of hot, cold and frozen desserts, decorations, garnishes and sauces to industry and enterprise standards. Context of Assessment This unit may be assessed on or off the job • Assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individuals work area or area of responsibility • Preparation, decoration and display of hot, cold and frozen desserts within typical workplace conditions and timeframes. Resource Implications Training and assessment must include access and use to a fully equipped commercial kitchen; and use of real ingredients and service equipment; and access to workplace standards, procedures, policies, guidelines, tools and equipment. Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work • Sampling of dishes prepared by the student.
--	--

	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	2	Determine requirements of standard recipes and/or menu requirements; collect equipment, commodities and ingredients; select and obtain commodities; organise ingredients and task sheets
	Communicating ideas and information	1	Share information with other kitchen and floor service staff; read recipes, menus and instructions and orders
	Planning and organising activities	2	Complete preparation, <i>mise-en-place</i> ; plan and organise the preparation of hot, cold and frozen desserts; work within time constraints in a logical sequence
	Working with others and in teams	1	Work cooperatively with other team members
	Using mathematical ideas and techniques	1	Calculate quantities and portions against standard recipes and/or menu requirements
	Solving problems	1	Identify and correct problems in the preparation and production of hot, cold and frozen desserts, such as ingredient quality
	Using technology	1	Use mechanical kitchen equipment including weighing equipment

1.	Trainer to welcome students to class
----	--------------------------------------

Slide

Prepare hot, cold and frozen dessert

Assessment for this Unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer/supervisor

Slide 2

Slide No	Trainer Notes
2.	Trainer advises students that assessment for this Unit may take several forms all of which are aimed at verifying they have achieved competency for the Unit as required. Trainer indicates to students the methods of assessment that will be applied to them for this Unit.

Slide

Prepare hot, cold and frozen dessert

This Unit comprises four Elements

1. Prepare and produce a range of hot, cold and frozen desserts
2. Prepare and store sweet sauces
3. Prepare accompaniments, garnishes and decorations
4. Store hot cold and frozen desserts

Slide 3

Slide No	Trainer Notes
3.	Trainer advises students this Unit comprises four Elements, as listed on the slide explaining: • Each Element comprises a number of Performance Criteria which will be identified throughout the class and explained in detail • Students can obtain more detail from their Trainee Manual • The course presents advice and information but where their workplace requirements differ to what is presented, the workplace practices and standards must be observed.

Slide

Prepare hot, cold and frozen dessert

Element 1: Prepare and produce a range of hot, cold and frozen desserts

- Select required commodities according to recipe and production requirements
- Prepare a variety of hot desserts according to standard recipes and enterprise standards
- Prepare a range of cold desserts according to standard recipes and enterprise standards
- Prepare a range of frozen desserts according to standard recipes and enterprise standards

Cont'

The trainer should relate how the performance criteria is related to the element To be able to prepare hot, cold and frozen desserts the students must be able to Prepare and produce a range of hot, cold and frozen desserts The students must be able to: • Select required <i>commodities</i> according to recipe and production requirements • Prepare a variety of <i>hot desserts</i> according to standard recipes and enterprise standards • Prepare a range of <i>cold desserts</i> according to standard recipes and enterprise standards • Prepare a range of <i>frozen desserts</i> according to standard recipes and enterprise standards.

Slide

Prepare hot, cold and frozen dessert

Element 1: Prepare and produce a range of hot, cold and frozen desserts

- Use appropriate equipment to prepare hot, cold and frozen desserts
- Use correct techniques to produce hot, cold and frozen desserts to enterprise standards
- Produce hot, cold and frozen desserts to enterprise requirements and standards
- Select correct cooking conditions for hot, cold and frozen desserts

5

Slide No	Trainer Notes
5.	Trainer to discuss: Performance criteria relating to Element 1 The element is the skill To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency. The trainer should relate how the performance criteria is related to the element To be able to prepare hot, cold and frozen desserts the students must be able to Prepare and produce a range of hot, cold and frozen desserts The students must be able to: ● Use appropriate equipment to prepare hot, cold and frozen desserts ● Use correct techniques to produce hot, cold and frozen desserts to enterprise standards ● Produce hot, cold and frozen desserts to enterprise requirements and standards ● Select correct cooking conditions for hot, cold and frozen desserts.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Select commodities required:

- ◉ Sugar
- ◉ Cream
- ◉ Eggs
- ◉ Milk
- ◉ Wine
- ◉ Fruit
- ◉ Nuts
- ◉ Butter or fats

Slide 6

Slide No	Trainer Notes
6.	Trainer to discuss: Sugar Caster sugar is the best to use here for its ability to dissolve. Other sugars can be used to add interest. Cream Thickened cream is most versatile here. It can be whipped, boiled, has better mouthfeel. Fruit Fresh fruits, canned and frozen fruits Nuts Any nuts can be used, whole sliced nibbed slivered ground Sponge, Cake, Meringue, Japonaise Collection of these are required not make desserts, not flour, fat sugar Fats These will be either solid or liquid. Many desserts are deep fried so oil for deep frying becomes a commodity even though it might not be in recipe.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Select commodities required:

- Sponge
- Cake
- Meringue
- Shortbread
- Flavourings

Slide 7

Slide No	Trainer Notes
7.	Trainer to discuss: At this stage the pastrycook does not look for flour sugar eggs to make bases for desserts , they look for commodities like sponge, cake meringue products How can this products be 'value added' to produce 'a grand finale' that will excite the customer.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Select commodities required:

● Setting agents:

- Gelatine
- Agar agar
- Vegetable gums
- Starches

Slide 8

Slide No	Trainer Notes
8.	Trainer to discuss: Setting agents Most cream based desserts will have cream and the cream will have a setting agent to hold shape. The desserts will have been aerated so the setting agent so the setting agent is imperative to hold shape. Gelatin The most common setting agent found in desserts, not just cream desserts. Derived from animal hides and bones it has been the most common gelling or setting agent in European style desserts for many years. Agar agar Derived from seaweed and very strong setting agent. Popular in Asian recipes. Vegetable gums Derived from seaweed and other vegetable sources. Becoming more available to the market as new style recipes and techniques are developed for the culinary market. Gels and spherification powders in avante garde cookery are becoming more mainstream.

Starches

Cooked starches from vegetable matter like wheat, rice and maize.

Used as powders and when cooked they will hold liquids in suspension.

Care must be taken with wheat starches as some people are 'gluten intolerant' and other starches must be used.

All starches have different strengths so recipe modification may need to be developed.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Prepare a range of Hot Desserts:

- Souffles
- Puddings
- Pies
- Crepes

Slide 9

Slide No	Trainer Notes
9.	Trainer to discuss: Desserts come in many forms, Hot, Cold, Frozen and Room temperature. Some desserts can be sold in several guises. Hot and cold. Frozen or chilled. Warm or frozen??? Yes. Italian Zabaglione. This can be served warm for breakfast or frozen as a dessert. Souffle, baked or chilled , frozen Classic French baked souffle: Served hot and is very fragile, has a small window to be served, within 30 seconds. After this time product quality diminishes. Best profit maker on menu. Minimal ingredients, maximum skill, maximum profit Chilled or frozen is a flavoured and aerated egg and cream dessert engineered to look like a baked souffle. Puddings: Heavy cake style dessert favoured in cold climates as hot desserts are more popular. Generally served with hot sauces or custards. Pies Pastry and fruit desserts can be served hot or cold or room temperature. Popular in most western countries for ease of handling. Most fruits can be used in production Crepes or French pancake. Very thin and fine in texture hence the name crepe, crepinette or caul.

	Classic French dessert. Can be soft or crispy. Normandy crepes are crispy. Can be savoury or sweet dish
--	--

	Pancakes
--	-----------------

	English style is thicker than the French. American flapjack or pancake served for breakfast or dinner.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Prepare a range of Cold Desserts:

- Pies
- Fruit salads
- Pastries
- Mousses
- Bavarois

Slide 10

Slide No

Trainer Notes

10.

Trainer to discuss:

- Fruit pies can be served hot , room temperature or chilled
- Shortbread with fruit filling
- Some fruit tarts with cream patisserie and fruit on top are popular cold desserts
- Summer puddings. Berries encased in stale bread
- Apple strudel can be hot or cold
- Fruit or fruit salads can be simple and easy to prepare
- Flavoured Cream desserts such as bavarois, mousse. Variations are limitless. Need to be kept chilled.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Prepare a range of Frozen Desserts:

- Ice cream
- Sorbets
- Parfaits

Slide 11

Slide No	Trainer Notes
11.	Trainer to discuss: • Variations of these classic desserts are limitless • Deep Fried Ice cream????? Easy to produce, difficult to execute • Sorbets: sugar water and fruit purees • Parfaits: Aerated egg and flavoured cream mixtures frozen to shape then cut per serve. Variations are limitless.

Slide

Prepare and produce a range of hot, cold and frozen desserts

Use Appropriate equipment:

- Blast chillers
- Ice cream machines
- Ovens
- Mixers
- Freezers
- Chillers

Slide 12

Slide No

Trainer Notes

12.

Trainer to discuss:

- Equipment for desserts is similar to general patisserie equipment but the freezer is utilised more for the frozen desserts
- Churning equipment to produce ice creams and sorbets
- Ingredient still need to be mixed
- Product still needs to be baked
- Temperature of product is important
- Freezers for storage of frozen product -18°C
- Freezers for serving frozen desserts -12°C

Refer Students to Work Projects.

Slide

Prepare and produce hot, cold and frozen desserts

Element 2: Prepare and store sweet sauces

- Select required commodities according to recipe and production requirements
- Prepare and produce a range of sweet sauces to enterprise requirements and standards
- Store sweet sauces for use in a service period or for use at another occasion

Slide 13

Slide No	Trainer Notes
13.	Trainer to discuss: Performance criteria that relates to element 2 The element is the skill To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency. The trainer should relate how the performance criteria is related to the element To be able to prepare hot, cold and frozen desserts the students must be able to; Prepare and store sweet sauces • The student must be able to do • Select required commodities according to recipe and production requirements • Prepare and produce a range of sweet sauces to enterprise requirements and standards • Store sweet sauces for use in a service period or for use at another occasion.

Slide

Prepare and store sweet sauces

Select commodities:

- Sugar
- Fruits
- Starches
- Gelling agents
- Spices
- Eggs
- Aromatics

Slide 14

Slide No

Trainer Notes

14.

Trainer to discuss:

- All sweet sauces will contain sugar. Even fruits will have some sugar included or added
- Fruit salad (fresh fruit cut to order) is about the only dessert that will not have sugar added. Some people will add sugar syrup to this to keep moist
- Basis of all coulis will be fruit
- Starches are used to thicken sauces
- Gelling agents will be used to stabilise fruits sauces and cream desserts
- Spices- might be used to flavour and may be served in sauce
- Aromatics may be used to flavour but would be removed before sauce is served
- Eggs, used to thicken sauce Anglaise.

Slide

Prepare and store sweet sauces

Prepare and produce a range of sweet sauces to enterprise requirements and standards:

Enterprise requirements or standards

- What is a standard?
- What is a requirement?
- Flavours: natural or artificial
- Coloured: natural or artificial
- Colour: intense or light

Slide 15

Slide No	Trainer Notes
15.	Trainer to discuss: Enterprise standards: Each enterprise will have different standards for different requirement to other enterprises. Standards need to be stated by the enterprise then that level needs to be adhered. Enterprise requirements will also change. Enterprise requirements will relate to size of product and price charged for portion. Some enterprises may cut product into 8 portions, others will cut into 12 portions. Same product different requirements. May relate to shape, round or square. How intense is the colour red in icing.

Slide

Prepare and store sweet sauces

- Store sweet sauces for use in a service period
- Store in clean food safe containers
- Keep separate from older sauces
- Never top up old sauce
- Never put old sauce into new sauce
- Keep in controlled environment

Slide 16

Slide No

Trainer Notes

16.

Trainer to discuss:

Always use clean food safe containers to store prepared sauces.

Never put old sauce into new sauce as any fermentation of sugars or bacterial activity will continue in the new sauce.

Always store sauces in a controlled environment; chilled below 5 degrees Celcius

Slide

Prepare and store sweet sauces

- ◉ Store sweet sauces for another occasion
- ◉ Make sauces in batches
- ◉ Label and date when stored
- ◉ Attach use by date
- ◉ Store in controlled environment:
 - Chilled
 - Frozen

Slide 17

Slide No	Trainer Notes
17.	Trainer to discuss: Sauce tend to be made up in batches and chilled until required. If they are going to be used at a later date then they may need to be chilled for short time period; frozen for long time period of storage. All store products need to be labeled correctly.

Slide

Prepare hot cold and frozen desserts

Element 3: Prepare accompaniments, garnishes and decorations

- Plan accompaniments, garnishes and decorations for desserts
- Prepare accompaniments, garnishes and decorations for desserts

Slide 18

Slide No	Trainer Notes
18.	Trainer to discuss: Performance criteria for element 3 The element is the skill To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency. The trainer should relate how the performance criteria is related to the element To be able to prepare hot, cold and frozen desserts the students must be able to; Prepare accompaniments, garnishes and decorations • Plan accompaniments, garnishes and decorations for desserts • Prepare accompaniments, garnishes and decorations for desserts.

Slide

Prepare hot cold and frozen desserts

- Plan accompaniments, garnishes and decorations
- Stencils
- Shortbread
- Fruits
- Sugar

Slide 19

Slide No	Trainer Notes
19.	Trainer to discuss: Garnishes and decorations Most garnishes are made to decorate the dessert. Small shortbreads or biscotti Chocolate shapes Boiled sugar shapes Garnish can be as simple strawberry cut in half with mint leaf This is popular due to the colour contrast on the plate More elaborate item will take time and skill Look in published books as listed in recommended reading has good references for stencils: The Professional Pastry chef; Author Bo friberg.

Slide

Prepare hot cold and frozen desserts

Prepare accompaniments, garnishes and decorations

Slide 20

Slide No	Trainer Notes
20.	Trainer to discuss: Select a simple recipe and gather as much understanding of the technique required In beginning: keep it simple • More elaborate garnish the more skill required and more time needed. • Keep simple.

Slide

Prepare hot cold and frozen desserts

Element 4: Store Hot, cold and frozen desserts

- Store desserts at appropriate temperature and conditions to maintain quality, freshness and customer appeal
- Pack down desserts to ensure taste, appearance and textures are maintained

Slide 21

Slide No	Trainer Notes
21.	Trainer to discuss: Performance Criteria for Element 4 The element is the skill To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency. The trainer should relate how the performance criteria is related to the element To be able to prepare hot, cold and frozen desserts the students must be able to; Store hot, cold and frozen desserts The student should be able to do • Store desserts at appropriate temperature and conditions to maintain quality, freshness and customer appeal • Pack down desserts to ensure taste, appearance and textures are maintained.

Slide

Store hot cold frozen desserts

- Store desserts at appropriate temperatures
- Store in controlled environment
- Chilled
- Frozen
- Room temperature
- Protected from outside contamination

Slide 22

Slide No	Trainer Notes
22.	Trainer to discuss: All desserts need to be stored in a controlled environment. Controlled environment: • Room temperature: protected form environment; stored in container, covered, wrapped • Chilled: less than 4°C. can only be stored at this temperature maximum 3 days. Then discard, do not freeze. Quality is diminished • Frozen: -18°C for long term storage.

Slide

Store hot cold frozen desserts

- Pack down desserts to ensure taste, appearance and textures are maintained
- Store in secure containers
- Label:
 - Date of manufacture
 - Use by date

Label example:

Storage : Store below 30°C
 Mfg. Date : 20MAY2010
 Exp. Date : 20MAY2015
 Lot No. : 0E894

Slide 23

Slide No	Trainer Notes
23.	Trainer to discuss: • Pack down??? Kitchen slang that means to store product to be used at another time • Store product to be used at another time • Integrity need to be in place • Store produce so it is not damaged.

Patisserie practical classes: Recommended training equipment

The equipment and kitchen consumables required for the delivery of practical patisserie training classes are listed below, in the following categories:

- A Items of equipment which should be available for trainer and student use in the training kitchen.
- B The cleaning equipment and cleaning products which should be available in a cleaning room located adjacent to the kitchen, so that students can clean down to leave the kitchen in “as found” condition at the end of each class or session.
- C Consumables other than foodstuffs which need to be kept in the kitchen and available for everyday use in each class or session.
- D The items required by each student which would make up their own individual use kit of tools and small equipment.

A: Equipment in the training kitchen:	
- Baking ovens - Baking trays - Bakery racks for baking trays - Cooling wires - Proofers - Stainless steel benches or benches with washable surfaces - Stainless steel sinks - Dishwasher - Electronic scales or balance scales - Cake forms, round and square, rectangular - Cooking pots of various sizes - Sugar work kit	- Pie forms - Quiche forms - Measuring jugs - Rolling pins - Food storage containers large and small - Tartlet moulds - Brioche moulds - Pastry docker - Baking paper - Silicon baking sheets - Sieves for dry ingredients - Chocolate tempering kit
B: Cleaning equipment and consumables:	
- Scrubbing brush - Scourers - Sink plugs - Floor brooms - Small brush and shovel - Floor mop	- Mop bucket - Rubbish bins - Detergent - Hand dishwashing detergent - Paper hand towel

C: Consumables (non-food) to be available in the kitchen:

- | | |
|---|---|
| <ul style="list-style-type: none"> • Silicon baking paper • Plain white butchers paper • Greaseproof paper • Aluminium foil | <ul style="list-style-type: none"> • Plastic wrap, clear • Plastic sheeting clear • Product boxes of various required sizes • Doyleys as required |
|---|---|

D: Student equipment kit should include:

- | | |
|--|---|
| <ul style="list-style-type: none"> • Cooks knife • Serrated edge knife for cake cutting • Pastry cutters, round and crinkled • Paring knife • Pastry brushes • Thermometers digital • Dough scrapers, plastic • Bench scrapers, metal • Piping bags, disposable or re-useable • Piping tubes, various sizes • Rubber spatulas • Pastry brushes • Pallet knives of various sizes | <ul style="list-style-type: none"> • Angled Pallet knife • Measuring spoons • Measuring cups • Grater • Zester • Scissors • Carborundum sharpening stone • Balloon whisks of various sizes • Vegetable peeler • Serving spoons, perforated and non perforated • Tongs for handling foods • Marzipan shaping tools |
|--|---|

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Set Up Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.
