

UNIT TITLE: PREPARE SOUPS		NOMINAL HOURS: 30
UNIT NUMBER: D1.HCC.CL2.16		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by cooks and chefs to prepare a range of high quality soups for various cuisines used in a commercial environment. Note: PREPARE STOCK AND SAUCES must be completed prior to undertaking this unit		
ELEMENTS AND PERFORMANCE CRITERIA	UNIT VARIABLE AND ASSESSMENT GUIDE	
Element 1: Prepare soups as required for dishes on enterprises menus 1.1 Identify soup <i>classifications</i> and standard recipes 1.2 <i>Prepare</i> ingredients appropriate to soup type 1.3 <i>Produce</i> soups to standard enterprise recipes Element 2: Store soups to enterprise requirements 2.1 Follow enterprise <i>cooling</i> procedures for soups 2.2 <i>Store</i> soups appropriately in correct containers 2.3 Label soups correctly 2.4 Ensure appropriate <i>storage</i> equipment conditions are maintained 2.5 Prepare and maintain correct <i>thawing</i> of frozen soups 2.6 Ensure correct storage of soups <i>after service</i>	Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that produce soups within the labour divisions of the hotel and travel industries and may include: 1. Food Production. <i>Classifications</i> of soups should include: • Clear • Broth • Puree • Cream • Veloutes • Bisque • Culturally specific soups. <i>Prepare</i> may be related to: • Vegetables, bones, herbs, spices, flavouring	

Element 3: Reconstitute soups for service 3.1 Follow correct <i>heating</i> of soups to enterprise standards 3.2 Ensure quality of <i>hot holding</i> of soups is to enterprise standards	• Cleaning, peeling, cutting, blanching, browning of ingredients • Portioning, measuring • Usable and non usable wastage • Use of standard recipes. <i>Produce</i> should relate to: • Minimising wastage • Methods of cookery • Use of convenience products • Clarifying • Quantity, quality and clarity • Various cooking times • Thickening agents, including roux, <i>beurre manié</i>, egg yolk, starch, bread • Use of standard and/or cultural recipes. <i>Cooling</i> should relate to: • Enterprise and/or local authority's standards • Time and temperature • Clean, sanitised equipment • Chilling equipment, if available in enterprise. <i>Store</i> in containers may include: • Size to enable safe handling • Type to suite product, such as stainless steel, plastic, glass • Long storage, including Cryovac, buckets
---	--

	• Position in cool storage • Enterprise and local authority's requirements. <i>Label</i> should relate to: • Date of production and/or use by date • Item being stored • Date defrosted if applicable • Reheated, cooled dates • Date of opening product. <i>Storage</i> conditions may include: • Cool room temperature • Cool room placement • Time in cool storage • Freezer temperature • Time in freezer storage. <i>Thawing</i> may relate to: • Defrosting to enterprise and local authority requirements • Handling and cool room placement • Reheating to enterprise and local authority requirements. <i>After service</i> may relate to: • Cooling time temperature • Storage containers • Labelling, including fresh, reheated • Cross contamination, including old stocks of soups versus freshly made soups.
--	--

	<i>Heating</i> should relate to: • Reheating time and temperature. <i>Hot holding</i> may include: • Correct temperature control • Maintaining consistency, temperature, flavour and colour. Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Knowledge of the correct cooking method is demonstrated for production of soups • Ability to identify food products by sight, taste and consistency • Ability to match ingredient quality to intended final product/use • Ability to clean and maintain food working and storage areas • General occupational health and safety procedures in the workplace • Ability to demonstrate practical skills in safe equipment/utensil use • Overview of the relevant legislation in relation to food handling, food storage, chemical storage and general premises food safety. Linkages To Other Units • Comply with workplace hygiene procedures • Implement occupational health and safety procedures • Prepare and store food • Work effectively with colleagues and customers • Maintain strategies for safe food • Present and display food products
--	---

	• Apply basic techniques of commercial cookery • Prepare stock and sauces. Critical Aspects of Assessment Evidence of the following is essential: • Knowledge of the classifications and characteristics of soups and the terminology used • Demonstration of safe and hygienic handling of products • Demonstration of appropriate portion control • Demonstration of complementary presentation using garnishes and techniques • Ability to prepare a variety of soups, from different recipes, inclusive of various different cultural cuisines and using various cooking methods, within realistic timeframes and constraints • Demonstrate correct knife skills, use of equipment and utensils. Context of Assessment Assessment must ensure: • Access to a range of real food ingredients • Commercial food preparation area with relevant equipment • Service and presentation equipment • Demonstration of skills on more than one occasion. Resource Implications Training and assessment must include access to and use of a fully equipped commercial kitchen; use of real ingredients and service equipment; and access to workplace standards, procedures, policies, guidelines, tools and equipment.
--	--

	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work • Sampling of dishes prepared by the student. Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	1	Determine requirements of standard recipes and/or menu requirements; collect equipment, commodities and ingredients
	Communicating ideas and information	1	Share information with other staff, including kitchen and floor service staff; provide information to customers
	Planning and organising activities	1	Complete preparation <i>mise-en-place</i> and organise for the production of soups; work within time constraints in a logical sequence
	Working with others and in teams	1	Work with others cooperatively, including kitchen and floor service staff

	Using mathematical ideas and techniques	1	Calculate quantities and portions against standard recipes and/or menu requirements
	Solving problems	1	Identify and correct problems in the preparation, production and service of soups
	Using technology	1	Use mechanical kitchen equipment
