Competency Based Training (CBT) and assessment – An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of Competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational health and safety requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of Competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning Approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in Learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for Participant Diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant Centred Learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning

- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants
- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active Learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training Strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of Training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/Tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group Discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role Play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation Games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /Group Exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case Study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field Visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group Presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice Sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)

Principle of Competency Based Assessment

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in Assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment Objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of Assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative Assessment Tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC).

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: PREPARE VEGETABLES, EGGS AND FARINACEOUS DISHES		NOMINAL HOURS: 50
UNIT NUMBER: D1.HCC.CL2.18		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by cooks and chefs to prepare, present on menus and store a range of vegetables, fruits, egg and farinaceous dishes in a commercial environment		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Prepare and cook vegetable and fruit menu items 1.1 Select vegetables and fruits according to <i>availability</i> 1.2 <i>Prepare</i> and/or <i>cook</i> a variety of vegetable and fruit menu items 1.3 Identify and prepare appropriate <i>sauces, garnish and accompaniments</i> as per the menu item 1.4 <i>Present</i> vegetable and fruit menu items Element 2: Prepare and cook egg based menu items 2.1 Prepare, use and/or cook a variety of egg menu items 2.2 Identify and prepare appropriate sauces, garnishes and accompaniments as per the menu item 2.3 Present egg menu items		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment This unit applies to all industry sectors that prepare vegetables, eggs and farinaceous dishes within the labour divisions of the hotel and travel industries and may include: 1. Food Production <i>Availability</i> may be related to: • Seasonal availability • Storage capacity • Menu styles • Quality, quantity • Cultural varieties <i>Prepare</i> should relate to: • Cleaning, peeling, cutting of ingredients • Portioning, minimising wastage

Element 3: Prepare and cook farinaceous menu items 3.1 Select farinaceous items according to availability 3.2 Prepare and/or cook a variety of farinaceous menu items 3.3 Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item 3.4 Present farinaceous menu items Element 4: Store vegetable, fruit, egg and farinaceous items 4.1 Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous menu items correctly 4.2 Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products appropriately in correct containers 4.3 Label fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products correctly 4.4 Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products in <i>correct conditions</i> to maintain freshness and quality	• Standard recipes • Varieties of the product • Properties of the products • Prepared and/or pre-finished products. <i>Cook could include:</i> • Braising • Stewing • Poaching • Boiling, simmering • Steaming, atmospheric and/or pressure • Roasting, pot roasting • Baking • Grilling • Deep and shallow frying • Wrapped food, including vine, banana leaf, paper, bark, paper bag • Microwave. <i>Sauces, garnishes and accompaniments may include:</i> • Specialty flavours • Cultural flavours • Vegetables, fruit, herbs, flowers • Colour and flavour blends • Cultural flavours • Glazing
---	---

- Coating
- Flowers and leaves
- Pastry
- Sauces, sweet/savoury
- Dietary and cultural styles/flavours.

Present should include:

- Colour
- Height
- Service and storage temperature
- Classical and cultural
- Neatly and attractively
- Planning location
- Service and storage temperature
- Ceramics
- Glass
- Crystal
- Mirrors
- Trays
- Classical and cultural aspect
- Neatly and attractively
- Ease of service.

	<i>Store may include:</i> • Cool room temperature • Cool room placement • Length of time in cool storage • Length of time in freezer storage • Appropriate process followed, such as cryovac, ice packed • Storage containers before assembly • Storage containers after assembly • Dietary and cultural styles/flavours • Labelled • Freshness, quality and presentation • Temperature and humidity. <i>Label must include:</i> • Date • Item name • Handler's name • Time, temperature, storage. <i>Correct conditions should include:</i> • Temperature and humidity • Stock rotation • Reporting faults • Changing containers.
--	---

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Knowledge of correct cookery method is demonstrated for all vegetable, eggs and farinaceous dishes
- Ability to identify food products by sight, taste and consistency
- Ability to match ingredient quality to intended final product/use
- Ability to clean and maintain food working and storage areas
- Knowledge of general occupational health and safety procedures in the workplace
- Knowledge of the relevant legislation in relation to food handling, food storage, chemical storage and general premises food safety
- Ability to demonstrate safe equipment/utensils practical skills.

Linkages To Other Units

- Comply with workplace hygiene procedures
- Implement occupational health and safety procedures
- Work effectively with colleagues and customers
- Maintain strategies for safe food storage
- Prepare and store food
- Present and display food products
- Apply basic techniques of commercial cookery.

Critical Aspects of Assessment

Evidence of the following is essential:

- Knowledge of the classifications and characteristics of vegetables, fruits, eggs and farinaceous items
- Demonstrate safe and hygienic handling of products

	• Demonstrate appropriate portion control • Demonstrate complimentary presentation, garnishing and techniques • Ability to prepare a variety of vegetable, egg and farinaceous items from different recipes, including cultural cuisines using the cooking methods within industry realistic timeframes and constraints • Demonstrate correct knife skills, use of equipment and utensils. Context of Assessment This unit may be assessed on or off the job: • Assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individuals work area or area of responsibility • Demonstration of skills on more than one occasion • Preparation and display of various vegetable, fruit, egg and farinaceous products items within typical workplace conditions and timeframes. Resource Implications Training and assessment must include access and use to a fully equipped commercial kitchen, use of real ingredients and service equipment; and access to workplace standards, procedures, policies, guidelines, tools and equipment. Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work • Sampling of dishes prepared by the student.
--	---

	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	2	Determine requirements of standard recipes and/or menus; collect equipment, commodities and ingredients; read menus, recipes and task sheets; select and obtain commodities; organise ingredients and task sheets
	Communicating ideas and information	2	Share information with other kitchen, floor service staff; read recipes, menus, instructions and orders
	Planning and organising activities	2	Work within time constraints in a logical sequence; plan logical and efficient sequencing and timing of tasks
	Working with others and in teams	2	Work cooperatively with other team members
	Using mathematical ideas and techniques	2	Calculate portions, weigh and measure quantities against standard recipes and/or menu requirements
	Solving problems	1	Identify and correct problems in the preparation and production of products, such as ingredient quality and equipment failure
	Using technology	1	Use mechanical kitchen equipment, including weighing equipment

Notes and PowerPoint slides

Slide

PREPARE VEGETABLES, EGGS AND FARINACEOUS DISHES

D1.HCC.CL2.18

Slide 1

Slide No	Trainer Notes
1.	• Welcome students to the class • Discuss with students your bone fide to lecture on this subject • Discuss your qualifications in the culinary fields of cooking and teaching background.

Slide

Prepare vegetables, eggs and farinaceous

Assessment for this Unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer or supervisor

Slide 2

Slide No	Trainer Notes
2.	Trainer to advise • Trainer advises students that assessment for this unit may take several forms all of which are aimed at verifying they have achieved competency for the unit as required • Trainer indicates to students the methods of assessment that will be applied to them for this unit.

Slide

Prepare vegetables, eggs and farinaceous

This unit comprises four elements:

- 1 Prepare and cook vegetable and fruit menu items
- 2 Produce and cook egg based menu items
- 3 Prepare and cook farinaceous menu items
- 4 Store vegetable, fruit, egg and farinaceous items

Slide 3

Slide No	Trainer Notes
3.	Trainer to advise Trainer advises students this unit comprises four elements, as listed on the slide explaining: • Each Element comprises a number of Performance Criteria which will be identified throughout the class and explained in detail • Students can obtain more detail from their Trainee Manual • The course presents advice and information but where their workplace requirements differ to what is presented, the workplace practices and standards must be observed.

Slide

Prepare vegetables, eggs and farinaceous

Element 1: Prepare and cook vegetable and fruit menu items

- Select vegetables and fruits according to availability
- Prepare and cook a variety of vegetable and fruit menu items
- Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item
- Present vegetable and fruit menu items

Slide 4

Slide No	Trainer Notes
4.	Trainer to advise • Trainer to relate performance criteria to element 1 • Performance criteria is the process by which the students training match the learning element • The element is the skill • To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency • The trainer should relate how the performance criteria is related to the element • To be able to prepare vegetable eggs and farinaceous dishes the students must be able to • Prepare and cook vegetable and fruit menu items: ▪ Select vegetables and fruits according to availability ▪ Prepare and cook a variety of vegetable and fruit menu items ▪ Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item ▪ Present vegetable and fruit menu items.

Slide

Prepare vegetables, eggs and farinaceous

Select vegetables and fruits due to availability

Vegetables and fruits:

- ◉ Available all year
- ◉ Seasonal:
 - Available for part of year
- ◉ Fresh produce selection is guided by the above

Slide 5

Slide No	Trainer Notes
5.	Trainer to advise • Catering establishments need to be aware of the availability of produce to be able to offer the BEST that the market place has to offer; to their customers • Is the establishment selling to tourist market and supplying western style foods from foreign countries • Supplying local foods in local dishes to both local and foreign customers • Some vegetables are available all year round • Some are seasonal • Some local, some from other parts of the country and the rest will have to be imported by land, air or sea.

Slide

Prepare vegetables, eggs and farinaceous

Select vegetables and fruits due to availability

Fruits and Vegetables

Can be:

- Fresh
- Frozen
- Dried
- Canned

Slide 6

Slide No	Trainer Notes
6.	Trainer to advise • Alternatives can be found from other medium rather than fresh • What does the enterprise wish to use • All fresh • All canned • All frozen • Most establishments will have a mixture • Fresh that is supplemented with frozen followed by canned and dried depending on the dish and the preference of the enterprise management and chef.

Slide

Prepare vegetables, eggs and farinaceous

Prepare and cook a variety of vegetable and fruit menu items

Vegetables can be:

- Boiled
- Steamed
- Braised
- Baked
- Deep fried
- Microwaved

Slide 7

Slide No	Trainer Notes
7.	Trainer to advise • Root vegetables can be boiled roasted or baked • Leafy vegetables are best quickly blanched then served • Other vegetables are best cooked gently in water until texture is at a state that makes them palatable as per recipe requirements.

Slide

Prepare vegetables, eggs and farinaceous

Prepare and cook a variety of vegetable and fruit menu items

Fruits can be:

- Poached
- Stewed
- Baked
- Deep fried
- Microwaved

Slide 8

Slide No	Trainer Notes
8.	Trainer to advise • Fruits can be eaten raw or cooked • Many fruits require minimal cooking • Soft fruits are best eaten fresh • Hard fruits like apples and quinces need to be cooked and may require sweetening agent added to improve flavour: sugar • Spices can be used to enhance flavours • Deep frying allows for textural variety in dish with flavour from cooking method and keeping flavour of fruit in original state; Apple fritters with ice cream • Fruits that are baked in pastry have to be cooked before going into the pastry shell • Fruits contain much water and hard structural cell that needs to be softened before • Water leaching out of the fruit will make the party soggy and spoil the product.

Slide

Prepare vegetables, eggs and farinaceous

Identify and prepare appropriate sauces, garnishes and accompaniments as per menu items

- Classical dishes will have classical sauces
- Sauces for French cuisine dishes are butter based
- Melted butter added while hot
- Some are milk based starch thickened with butter added for flavour and richness
- Some are acidic egg yolk mixtures emulsified with melted butter

(continued)

Slide 9

Slide No	Trainer Notes
9.	Trainer to advise • Sauces can be technically complicated or simple • This is defined by the dish that is being prepared.

Slide

Prepare vegetables, eggs and farinaceous

Identify and prepare appropriate sauces, garnishes and accompaniments as per menu items

Simple Example of sauce:

- Potato and carrots maybe boiled or steamed
- Tossed in hot butter and served with garnish of herb

Complex example of sauce:

- Asparagus steamed or quickly blanched
- Plated and topped with Sauce Hollandaise

Slide 10

Slide No	Trainer Notes
10.	Trainer to advise • Classical dishes will have classical sauces • Modern dishes will have tasty sauces that are uncomplicated • Sauces can be simple • Garnishes should be simple and easy to prepare.

Slide

Prepare vegetables, eggs and farinaceous

Present vegetable and fruit menu items

- Simple presentation is best
- Diversity of colour on plate
- Freshest is best
- Contrast of mouthfeel
- Starch based: potato, pumpkin, yam, sweet potato
- Leaf based: spinach, brussels sprouts
- Stem based: beans, peas
- Root vegetables: carrots

Slide 11

Slide No	Trainer Notes
11.	Trainer to advise • Keep presentations simple • Use colour to best advantage • Keep it simple • Keep it interesting.

Slide

Prepare vegetables, eggs and farinaceous

Element 2: Prepare and cook egg based menu items

- 1 Prepare, use and or cook a variety of egg menu items
- 2 Identify and prepare appropriate sauces, garnishes and accompaniments as per the menu item
- 3 Present egg menu items

Slide 12

Slide No	Trainer Notes
12.	Trainer to advise • Trainer to relate performance criteria to element 2 • Performance criteria is the process by which the students training match the learning element • The element is the skill • To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency • The trainer should relate how the performance criteria is related to the element • To be able to Prepare vegetable eggs and farinaceous dishes the students must be able to • Prepare and cook vegetable and fruit menu items: ▪ Select vegetables and fruits according to availability ▪ Prepare and cook a variety of vegetable and fruit menu items ▪ Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item ▪ Present vegetable and fruit menu items.

Slide

Prepare vegetables, eggs and farinaceous

Prepare, use and cook a variety of egg dishes

Breakfast:

- Boiled
- Fried
- Scrambled
- Poached
- Omelets

Slide 13

Slide No	Trainer Notes
13.	Trainer to advise - Eggs used are Egg of the chicken. Other eggs can be used but that is up to the individual - Eggs can be conveniently boiled in the shell. But when placed into cold water at room temperature and cooked until boiling - Too much boiling will cause the dark blue sulphur ring to appear at edge of yolk and spoil the look of the cut boiled egg - All other methods of cooking eggs require them to be removed from the shell. - Care must be taken to exclude any broken bits of shell being allowed to remain in egg while it is cooking - Shell in cooked egg can be dangerous if consumed. Larger pieces getting caught un throat of consumer. Smaller gritty pieces leave a uncomfortably feeling in mouth when ground in teeth. These customers will not be back - Fried and poached are popular ways to serve eggs - Poached being the gentlest way to cook eggs - Classic Eggs Benedict with sauce Hollandaise; gently poached eggs 80°C – 90°C until egg white has set; should be soft but completely white - Fried eggs are faster form of cooking and go well with bacon. Eggs and bacon on toast; popular in western countries as breakfast food

- | | |
|--|--|
| | <ul style="list-style-type: none">• Scrambled eggs requires all egg to be blended until the white and the yolk cannot be distinguished; cooked gently over low heat until coagulation; this gives a soft mouth feel when eating. Overcooking will result in hard well set protein in mouth• Omelettes have several derivations but classic French is cooked quickly in hot buttered pan and folded either side to have cigar shape and turned onto plate with seal folds underneath. Centre of omelettes should be 'bavause'; which means soft moist and slightly runny inside; should be moist mouth feel but set. |
|--|--|

Slide

Prepare vegetables, eggs and farinaceous

Identify and prepare appropriate sauces, garnishes and accompaniments as per menu items

- Classical sauces:
 - Hollandaise over poached eggs
- Basic:
 - Melted butter over omelets
- Adds moisture and richness to taste
- Freshly chopped herbs

Slide 14

Slide No	Trainer Notes
14.	Trainer to advise • Breakfast eggs should be plain, simple, uncomplicated • The more intricate techniques need to be kept for a time when customers have time to sit and wait for proper technique to be carried out • Eggs for breakfast have to be cooked in minimal time especially in establishments that cater for the working people rushing off to begin the days work • More formal breakfast that are for business people have time on their side so more technique can be used but his extra time taken is more costly • Sauces kept to minimum. Very few breakfast egg dishes have complicated sauces, if any • Garnishes are also kept to minimum; freshly chopped herbs, parsley, is the most common.

Slide

Prepare vegetables, eggs and farinaceous

Present egg menu items

Breakfast dishes:

- Poached
- Scrambled
- Omelets

Lunch menu:

- Frittata
- Quiche

Dinner menu:

- Soufflé

Slide 15

Slide No	Trainer Notes
15.	Trainer to advise • Breakfast dishes are served quickly and simply • Lunch menu is again casual but more complex dishes may be offered; frittata; Spanish omelettes; quiche • Frittata can prepare the day before and served cold with salad • Quiche; French open savoury tart uses eggs in milk and cream to carry fillings. • These can be served hot or cold; cold is popular as it can be consumed with ease. Too higher a fat content can require this to be served warm for more palatable enjoyment • Dinner menu may find eggs in béarnaise sauce with beef steak or in dessert soufflé.

Slide

Prepare vegetables, eggs and farinaceous

Element 3: Prepare and cook farinaceous menu items

- 1 Select farinaceous items according to availability
- 2 Prepare and cook a variety of farinaceous menu items
- 3 Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item
- 4 Present farinaceous menu items

Slide 16

Slide No	Trainer Notes
16.	Trainer to advise • Trainer to relate performance criteria to element 3 • Performance criteria is the process by which the students training match the learning element • The element is the skill • To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency • The trainer should relate how the performance criteria is related to the element • To be able to Prepare vegetable eggs and farinaceous dishes the students must be able to • Prepare and cook farinaceous menu items: ▪ Select farinaceous items according to availability ▪ Prepare and cook a variety of farinaceous menu items ▪ Identify and prepare appropriate sauces, garnish and accompaniments as per the menu item ▪ Present farinaceous menu items.

Slide

Prepare vegetables, eggs and farinaceous

Select farinaceous items according to menu items

Every menu in every country contain farinaceous:

- Rice
- Pasta
- Noodles
- Lentils
- Breads
- Root vegetables

Slide 17

Slide No

Trainer Notes

17.

Trainer to advise

- Farinaceous means starch. Every person consumes starch in their meals
- The body converts the starch that we consume into sugars and that fuels the body and allows it to function
- Starch is in many foods and preparation of these foods give variety to the diet and choice to the consumer
- To make the starch edible it must be cooked with or in water
- Starch is cooked by applying heat to liquid
- As the liquid heats the starch absorbs the moisture and expands fully to become edible for humans
- In bread this is already completed in the mixing and baking process so it can be consumed as it is
- Products like rice and lentils need to be cooked to make it palatable and edible. Cooked in aromatic liquids make them more appealing and flavoursome to consume
- Noodles and pasta are a manufactured product that will have to be cooked before consumption. Like bread if it was unbaked

- | | |
|--|---|
| | <ul style="list-style-type: none">• Pasta and noodles need to be cooked in water until they have reached the stage of doneness required by the dishes cuisine. Some are firm to the tooth and some are well cooked until they are soft to the tooth• Root vegetables like potato, pumpkin and yams are also cooked to the cuisine requirements but these can be dry cooked due to the high liquid content already in the vegetable. Dry cooking is roasting or baking. |
|--|---|

Slide

Prepare vegetables, eggs and farinaceous

Identify and prepare appropriate sauces, garnishes and accompaniments as per menu items

Sauces:

- Highly flavoured spicy:
 - Curry base for lentils
- Simple single flavours:
 - Béchamel base with cheese for mornay
- Flavour
- Moisture adding

Slide 18

Slide No	Trainer Notes
18.	Trainer to advise • Starchy farinaceous products can be dry to eat on their own. Draws the moisture from the mouth as they are eaten so they are best served with a sauce to add moisture and make consumption more enjoyable • Lentils tend to be cooked in spicy or flavoursome liquids that have spices and some other aromatics like onion garlic and herbs added • Flavour bases can be manufactured and added to water that lentils will be cooked in until they are deemed cooked. Some are cooked firm while some lentils fall apart quickly to thicken the water. These are then served as a side accompaniment to main protein or as main meal for non meat eating societies • Béchamel is a savoury white sauce, milk thickened with starch and enriched with addition of butter. This is further flavoured with cheese to enhance desirability and sometimes a spice like nutmeg • This sauce is used in many western vegetable dishes. It can be poured over roasted root vegetables and glazed in hot under hot grill to gratin the top surface • Classic noodles dish is: Macaroni and cheese. A staple for working class people that needed to fill up growing children and hard working men on a low money budget • Sometimes served as a side accompaniment for diets that do not have potatoes and main sauce of starch • All sauces need to be flavoursome and do add moisture to enhance the mouth feel of what people are consuming

- Garnishes can be chopped herbs.

Slide

Prepare vegetables, eggs and farinaceous

Present farinaceous menu items

- Potatoes:
 - Roasted, mashed, deep fried
- Pasta noodles
- Lentils and legumes

Slide 19

Slide No	Trainer Notes
19.	Trainer to advise • Farinaceous elements or menu items can be individual serving or accompaniments to main protein menu item • All will need to be presented or served with a sauce; the sauce will be the main flavour for the farinaceous item • Farinaceous menu items do not necessarily have much flavour, that some from sauces with which they are served • Root vegetables like potato need added moisture to enrich the flavour. Ask Students • They eating noodles without sauce flavour is bland • Try eating rice without sauce bland • Lentils and chickpeas may have interesting textures but flavour is mild.

Slide

Prepare vegetables, eggs and farinaceous

Element 4: Store vegetable, fruit, egg and farinaceous items

- 1 Store fresh prepared and or cooked vegetable, fruit, egg and farinaceous menu items correctly
- 2 Store fresh prepared and or cooked vegetable, fruit, egg and farinaceous products appropriately in correct containers
- 3 Label fresh prepared and or cooked vegetable, fruit, egg and farinaceous products correctly
- 4 Store fresh prepared and or cooked vegetable, fruit, egg and farinaceous products in correct conditions to maintain freshness and quality

Slide 20

Slide No	Trainer Notes
20.	Trainer to advise • Trainer to relate performance criteria to element 4 • Performance criteria is the process by which the students training match the learning element • The element is the skill • To assess competency in the skill; the performance criteria is used to outline activities that can be used to assess competency • The trainer should relate how the performance criteria is related to the element • To be able to Prepare vegetable eggs and farinaceous dishes the students must be able to • Store vegetable, fruit, egg and farinaceous items: ▪ Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous menu items correctly ▪ Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products appropriately in correct containers ▪ Label fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products correctly ▪ Store fresh prepared and/or cooked vegetable, fruit, egg and farinaceous products in correct conditions to maintain freshness and quality.

Slide

Prepare vegetables, eggs and farinaceous

Store fresh vegetables items

- Clean environment
- Clean containers
- Environment suitable for maximum storage life
- Fresh
- Frozen
- Canned or dried

Slide 21

Slide No	Trainer Notes
21.	Trainer to advise • All fresh vegetables are perishable in a very short time • Root vegetables alike potato, yams and pumpkin need to be stored in a cool environment that needs to be well ventilated. Not refrigerated • Fresh leafy vegetables need to be kept chilled to prolong their life; 3-4 days • Store at less than 5°C, keep covered with plastic to stop from drying the leafy vegetables and help retain moisture • Some vegetables can be stored can be stored well between 7 and 15°C • Best is to store for minimum period by purchasing on a daily basis what is required for the days trading • Canned vegetables need to be stored in environment that will not be detrimental to safe can storage; cool well ventilated dry environment • Frozen vegetables need constant -18°C storage for consistency, when thawed they must be used immediately • Frozen potato (French fries) are placed into deep fryer while still frozen so must be kept that way.

Slide

Prepare vegetables, eggs and farinaceous

Store cooked vegetable items

- Chilled, below 5°C
- Clean containers
- Keep covered
- Date
- Rotate stock on FIFO basis
- Maximum 2 days

Slide 22

Slide No	Trainer Notes
22.	Trainer to advise • Any cooked vegetables needs to be chilled if they are going to be stored • Storage must be at less than 5°C for no more than 2 days • Containers must be clean and in good conditions • Stored vegetables must be labelled correctly • Keep stock rotation up to date.

Slide

Prepare vegetables, eggs and farinaceous

Store cooked farinaceous items

- Chilled, below 5°C
- Clean containers
- Keep covered
- Date
- Rotate stock on FIFO basis
- Maximum 2 days

Slide 23

Slide No	Trainer Notes
23.	Trainer to advise • Any cooked farinaceous products need to be chilled if they are going to be stored • Storage must be at less than 5°C for no more than 2 days • Containers must be clean and in good conditions • Stored product must be labelled correctly • Keep stock rotation up to date.

Slide

Prepare vegetables, eggs and farinaceous

Store fresh farinaceous items

- Chilled, below 5°C
- Clean containers
- Keep covered
- Date
- Rotate stock on FIFO basis
- Maximum 2 days
- Freeze if longer storage is required

Slide 24

Slide No	Trainer Notes
24.	Trainer to advise • Any fresh farinaceous products need to be chilled if they are going to be stored before cooking • Storage must be at less than 5°C for no more than 2 days • Longer exposure may result in oxidation in flour resulting in grey flecks appearing in uncooked flour based product • Containers must be clean and in good conditions • Stored product must be labelled correctly • Keep stock rotation up to date.

Slide

Prepare vegetables, eggs and farinaceous

Store dry farinaceous items

- Clean containers
- Keep in original packaging until required
- Place left over dry product into sealed container
- Do not leave exposed
- Date
- Rotate stock on FIFO basis

Slide 25

Slide No	Trainer Notes
25.	Trainer to advise • Dry product can be kept stored for long periods of time • Precautions with moisture must be undertaken • Any dry product that get water damaged must be discarded due to risk of mould growth • Keep stored off floors • If packaging is damaged product needs to be de-cantered into secure container to prevent infestation with pests.

Slide

Prepare vegetables, eggs and farinaceous

Store fresh fruit

- Chilled, below 5°C
- Clean containers
- Keep covered
- Date
- Rotate stock on FIFO basis
- Time frame changes for specific fruits

Slide 26

Slide No

Trainer Notes

26.

Trainer to advise

- All fruits need to be stored in secure areas
- Bananas may be stored in at room temperature as can other fruits
- Fresh berries will have a short life if not chilled and mould will grow rapidly
- Dried fruits will keep well if moisture is kept away, so packaging must be secure.

Slide

Prepare vegetables, eggs and farinaceous

Store in appropriate containers

- Clean
- In good repair
- Able to be sealed if required
- Must not cause damage to stored product

Slide 27

Slide No	Trainer Notes
27.	Trainer to advise • Product is stored for one reason • To be used at a later date • If placed into containers that are not clean to begin then the product may as well have been thrown in rubbish and not stored • Containers must be clean and in a good state of repair so pests are not able to enter and moisture cannot enter • Containers must be able to be closed and sealed if required • Closing the containers must not damage the product being stored.

Slide

Prepare vegetables, eggs and farinaceous

Label containers appropriately

- Easily read and definition of product clear
- In common language understood by all
- Name of product
- Date of manufacture
- Use by date

TEST BEFORE :

Slide 28

Slide No

Trainer Notes

28.

Trainer to advise

- Labelling needs to be clear and defined
- Must be legible
- Must include:
 - Name of product
 - Date of manufacture
 - Use by date
 - Person who packed or labelled product
 - Name of manufacturer.

Cookery practical classes: Recommended training equipment

The equipment and kitchen consumables required for the delivery of practical cookery training classes are listed below, in the following categories:

- A Items of equipment which should be available for trainer and student use in the training kitchen.
- B The cleaning equipment and cleaning products which should be available in a cleaning room located adjacent to the kitchen, so that students can clean down to leave the kitchen in “as found” condition at the end of each class or session.
- C Consumables other than foodstuffs which need to be kept in the kitchen and available for everyday use in each class or session.
- D The items required by each student which would make up their own individual use kit of tools and small equipment.

A: Equipment in the training kitchen:	
- Commercial cooking stove 4 burner minimum - Stainless steel workbench - Stainless steel sinks - Dishwasher - Refrigeration - Freezers - Cooking pots, multiple sizes - Lids for pots - Frypan - Woks - Chinois of various sizes - Measuring jugs - Moullis	- Food processors - Ramekins - Sieves for dry ingredients - Deep fryers - Steamers - Weighing scales - Baking trays - Roasting dishes - Chopping boards for preparation - Gas fire lighters, cigarette lighters not recommended - Tongs for handling foods - Spiders for handling deep fried foods
B: Cleaning equipment and consumables:	
- Detergent - Scrubbing brushes - Scourers - Sink plugs - Brooms - Shovel and small brooms	- Floor mops - Mop buckets - Wet and dry vacuums - Detergent - Hand dishwashing detergent - Paper hand towel

C: Consumables (non-food) to be available in the kitchen:

- | | |
|---|---|
| <ul style="list-style-type: none"> • Silicon baking paper • Plain white butchers paper • Greaseproof paper • Aluminium foil | <ul style="list-style-type: none"> • Plastic wrap, clear • Plastic sheeting clear • Product boxes of various required sizes • Doyleys as required |
|---|---|

D: Student equipment kit should include:

- | | |
|--|---|
| <ul style="list-style-type: none"> • Chefs knife 21 cm • Boning knife 15cm • Paring knives 9cm • Sharpening stone • Honing steel 30cm • Pallet knives • Wooden spoons 3 • Whisk 30cm 1 • Vegetable peeler • Pastry brush | <ul style="list-style-type: none"> • Piping bags • Piping tubes, various sizes • Spatula, flexible • Tongs • Digital thermometer • Tea towels 6 • Cutlery set • Scissors • Fine strainer • Carry case for equipment |
|--|---|

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Set Up Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.
