Competency Based Training (CBT) and assessment – An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of Competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational health and safety requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of Competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning Approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in Learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for Participant Diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant Centred Learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning

- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants
- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active Learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training Strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of Training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/Tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group Discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role Play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation Games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /Group Exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case Study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field Visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group Presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice Sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)

Principle of Competency Based Assessment

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in Assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment Objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of Assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative Assessment Tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: PRESENT AND DISPLAY FOOD PRODUCTS		NOMINAL HOURS: 30
UNIT NUMBER: D1.HCC.CL2.19		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required by cooks and chefs to present and display a range of food products in commercial food operations		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Prepare garnishes and accompaniments 1.1 Identify <i>menu items</i> that require <i>garnishes and/or accompaniments</i> 1.2 Prepare various garnish and/or accompaniments 1.3 Set up for service Element 2: Plate and present foods 2.1 Portion food items to enterprise standards 2.2 Provide sufficient and appropriate <i>service equipment and service platforms</i> 2.3 Plate and display food items to <i>menu style</i> 2.4 Present food <i>neatly and attractively</i> Element 3: Store garnishes and accompaniments 3.1 Store items correctly 3.2 Store products appropriately in correct containers		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment This unit applies to all industry sectors that present and display food products within the labour divisions of the hotel and travel industries and may include: - Food Production <i>Menu items</i> should include: - Garnishes and accompaniments to complement standard recipes - Vegetables, fruits, herbs, flowers - Service styles, such as a la carte, buffet, banqueting, breakfast - Suitable alternative garnishes and accompaniments Garnishes and accompaniments may include: - Vegetables, fruit, herbs, flowers - Colour and flavour blends - Cultural flavours

3.3 <i>Label</i> products correctly 3.4 <i>Store</i> items in <i>correct conditions</i> to maintain freshness and quality	• Glazing • Coating • Flowers and leaves • Pastry • Sauces, sweet/savoury • Dietary and cultural styles/flavours • Sauces or dressings. <i>Prepare</i> should be related to: • Cleaning, peeling, cutting of ingredients • Holding and storage temperatures • Menu service style • Portioning, wastage • Standard recipes. <i>Set up for service</i> may be related to: • Quantities for service operation • Containers for service operation • Holding and storage temperatures • Service stations set up to meet menu style and enterprise requirements • Back up to enterprise requirements. <i>Portion</i> should relate to: • Enterprise weights, quantities • Utilise wastage, off cuts
---	--

	• Rotate stock to avoid wastage and first in first out (F.I.F.O) • Serving equipment. Service equipment and service platforms should include: • Section set up, including tongs, spoons, gloves, squeeze bottles • Service equipment, including stainless bowls, trays, containers, chopping boards, knives • Service platforms, including plates, bowls, platters, baskets. <i>Menu style</i> should relate to: • A la carte • Buffet • Banquet • Hot or cold displays • Open displays • Service periods such as breakfast, lunch, dinner, supper. Neatly and attractively should include: • Colour • Height • Texture • Equipment • Classical and cultural • Clean plates, bowls, platters, baskets • Drips, spills, arrangement.
--	--

	<i>Store may include:</i> • Cool room temperature • Cool room placement • Length of time in cool storage • Length of time in freezer storage • Appropriate process followed, cryovac, ice packed • Storage containers before assembly • Storage containers after assembly • Dietary and cultural styles/flavours • Labelled • Freshness, quality and presentation • Temperature and humidity. <i>Label must include:</i> • Date • Item name • Handler's name • Time, temperature, storage. <i>Correct conditions should include:</i> • Temperature and humidity • Stock rotation • Reporting faults • Changing containers.
--	---

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Knowledge of correct presentation is demonstrated for all dishes and platters
- Ability to identify food products by sight, taste and consistency
- Ability to match garnish to intended final dish/use
- Ability to clean and maintain food working and storage areas
- Ability to demonstrate safe knife handling skills, including the ability to turn vegetables and cuts to industry and enterprise standards to meet garnishing requirements
- Overview of the relevant legislation in relation to food handling, food storage, chemical storage and general premises food safety
- Cleaning and sanitising chemicals, techniques and protocols.

Linkages To Other Units

- Maintain strategies for safe food storage
- Implement occupational health and safety procedures
- Prepare and store food in a safe and hygienic manner
- Apply basic techniques of commercial cookery
- Prepare and store food.

Critical Aspects of Assessment

Evidence of the following is essential:

- Knowledge of the classifications and presentation of garnishes and accompaniments, including terminology
- Demonstrate safe and hygienic handling of all food products
- Demonstrate ability to apply appropriate portion control and wastage
- Demonstrate safe knife skills and other associated equipment
- Demonstrated ability to actual preparation of garnishes and accompaniments.

	Context of Assessment This unit may be assessed on or off the job: • assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individual's work area or area of responsibility • Demonstration of skills on more than one occasion • Preparation, prepare and display various items within typical workplace conditions and timeframes. Resource Implications Training and assessment must include access and use of a fully equipped commercial kitchen, use of real ingredients and service equipment; and access to workplace standards, procedures, policies, guidelines, tools and equipment. Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work • Sampling of dishes prepared by the student. Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>
--	--

	Key Competencies	Level	Examples
	Collecting, organising and analysing information	1	Determine requirements of standard recipes and/or menus; collect equipment, commodities and ingredients; read menus, recipes and task sheets; select and obtain commodities; organise ingredients and task sheets
	Communicating ideas and information	1	Share information with other kitchen, floor service staff; read recipes, menus, instructions and orders
	Planning and organising activities	2	Work within time constraints in a logical sequence; plan logical and efficient sequencing and timing of tasks
	Working with others and in teams	1	Work cooperatively with other team members
	Using mathematical ideas and techniques	1	Calculate portions, weigh and measure quantities against standard recipes and/or menu requirements
	Solving problems	1	Identify and correct problems in the preparing and producing of products, such as ingredient quality and equipment failure
	Using technology	1	Use mechanical kitchen equipment, including weighing equipment

Notes and PowerPoint slides

Slide

PRESENT AND DISPLAY FOOD PRODUCTS

D1.HCC.CL2.19

Slide 1

Slide No	Trainer Notes
1.	Trainer welcomes trainees and informs them that the subject matter that will be covered is food presentation and display of food products.

Slide

Present and display food products

This unit comprises 3 elements:

- 1 Prepare garnishes and accompaniments
- 2 Plate and present foods
- 3 Store garnishes and accompaniments

Slide 2

Slide No	Trainer Notes
2.	Trainer advises students that this unit comprises 3 elements as listed on slide explaining: • Each element comprises several performance criteria • Students can obtain more information from the Trainee Manual • The course presents advice and information but, where their workplace requirements differ to what is presented, the workplace standards and practices must be observed.

Slide

Assessments

Assessments for this unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer or supervisor

Slide 3

Slide No	Trainer Notes
3.	• Trainer advises students that assessment for this unit may take several forms, all of which are aimed at verifying that they have achieved competency for the unit as required • Trainer indicates to students the methods of assessment that will be applied to them for this particular unit.

Slide

1. Prepare garnishes & accompaniments

Performance criteria:

- 1.1 Identify menu items that require garnishes and/or accompaniments
- 1.2 Prepare various garnish and/or accompaniments
- 1.3 Set up for service

Slide 4

Slide No	Trainer Notes
4.	Trainer explains each performance criteria for this element to students as listed on slide.

Slide

Present and display food products

Terminology:

- Read through the glossary of terms
- Which terms are you familiar with?
- Highlight these terms

Slide 5

Slide No	Trainer Notes
5.	Trainer to take students through glossary of terms in Trainee Manual. Activity Students to highlight any terms that they are familiar with.

Slide

Food presentation

Why is food presentation important?

- Considerations for business
- Critical aspect of the customers dining experience
- Correct presentation techniques allow the food to be displayed to its best potential

Slide 6

Slide No	Trainer Notes
6.	• Trainer to discuss food presentation and quality • Impact of good/bad presentation on the customer • Basics of food presentation.

Slide

Menu items that require garnishes or accompaniments

Garnish:

- An edible food item used to make the dish look more attractive
- Served *on* or *in* the actual dish
- May be integral to the dish or simply used as a decoration

Accompaniment:

- A food item used to compliment the flavour or to add texture to a menu item
- Served *aside* from the main component

Slide 7

Slide No	Trainer Notes
7.	• Trainer to discuss/define the differences between a 'garnish' and an 'accompaniment' • Trainer may give examples.

Slide

Menu items that require garnishes or accompaniments

- Study the menu and recipe requirements
- A menu or **standard recipe** will often describe the type of garnish required for each item
- Consider the compatibility of garnishes or accompaniments with the main component of the dish
- Discuss presentation requirements with your Chef

Slide 8

Slide No	Trainer Notes
8.	• Trainer outlines the various considerations for selecting garnishes and accompaniments for a variety of menu items • Outlines and defines a 'standard recipe', its implications and uses • Discusses compatibility of foods, flavours, colours and textures.

Slide

Menu items that require garnishes or accompaniments

- Some garnishes or accompaniments may not be described on the menu or in the recipe
- These may be placed (at the Chef's discretion) as a decoration to enhance the presentation of the dish
- This may include items such as picked herbs, lemon wedges, or fruit garnishes for desserts

Slide 9

Slide No	Trainer Notes
9.	Trainer discusses how some garnishes may not need to be described on the menu. Expectation of certain standard garnish or accompanying items.

Slide

Menu items that require garnishes or accompaniments

Examples of garnish descriptions on the menu include:

- Onion soup served with *cheese crouton (garnish)*
- Steamed fish garnished with *julienne of root vegetables (garnish)*
- Mushroom risotto topped with *shaved Pecorino cheese (garnish)*

Slide 10

Slide No

Trainer Notes

10.

- Trainer provides these examples
- Trainer seeks feedback from students on other (workplace) examples of garnishes described on menus.

Slide

Menu items that require garnishes or accompaniments

Examples of accompaniment descriptions on the menu include:

- Carrot soup served with *sippets (accompaniment)*
- Curries with mixed *sambal (accompaniment)*
- Roast beef with *horseradish relish (accompaniment)*

Slide 11

Slide No	Trainer Notes
11.	• Trainer provides these examples • Trainer seeks feedback from students on other (workplace) examples of accompaniments described on menus.

Slide

Menu items that require garnishes or accompaniments

Other considerations when selecting garnishes or accompaniments include:

- *Type of cuisine*
- *Cultural theme and compatibility*
- *Traditional/classical style*
- *Style of service*

Slide 12

Slide No

Trainer Notes

12.

- Trainer outlines and explains each point in the slide and describes the importance of each consideration
- Examples may include; rice as an accompaniment to most Asian cuisines, potatoes and pasta to European cuisines.

Slide

Menu items that require garnishes or accompaniments

Menu item	Garnish herbs or spices
Fish	Dill, parsley, chives, cilantro (coriander), spring onion
Beef	Parsley, chervil, thyme, oregano
Lamb	Rosemary, mint, parsley, chervil
Chicken	Tarragon, basil, fennel
Desserts	Mint leaves, berries, cinnamon
Soups and stews	Parsley, chervil, chives, cilantro, thyme
Cakes and pastries	Mint leaves, berries, cinnamon, nutmeg

Slide 13

Slide No	Trainer Notes
13.	- Trainer may explain compatibility/incompatibility of flavours, traditional flavour partners to foods - Explain that this list is not comprehensive but gives a good indicator of appropriate garnish herbs/spices - May explain the difference between presenting inappropriate items with certain foods (i.e. rosemary with fish or Asian garnish herbs with traditional European cuisine).

Slide

Preparing garnishes

Garnish:

- Refers to a food item that is used to enhance the overall presentation of the menu item
- Adds colour and texture to the menu item
- Makes the dish more visually appealing to the customer

Slide 14

Slide No

Trainer Notes

14.

Trainer defines a 'garnish' and its uses.

Slide

Preparing garnishes

Garnish:

- May range from simple food items to quite elaborate artistic creations
- May be required for presentation on a plate or for display on a buffet service
- Plate garnishes should be fresh, edible and must compliment the menu item being prepared

Slide 15

Slide No	Trainer Notes
----------	---------------

15.

Trainer defines a 'garnish' and its uses.

Slide

Preparing garnishes

Considerations for *selection* of garnishes:

- The menu item, style and cuisine
- The cost and selling price of the menu item
- Availability, cost and freshness of products used for garnishes
- Equipment required for preparing garnish items
- Standard recipe requirements

Slide 16

Slide No	Trainer Notes
----------	---------------

16.	Trainer outlines how garnishes are selected and consideration for selection.
-----	--

Slide

Preparing garnishes

Considerations for *preparation* of garnishes:

- ◉ Select fresh looking herbs, leafy greens, fruits or vegetables
- ◉ Thoroughly wash any herbs, fruits or vegetables that are to be used
- ◉ Remove any leaves that are dead, withered
- ◉ Beware of items that may have been chewed by insects or show signs of insect activity

Slide 17

Slide No	Trainer Notes
17.	Trainer outlines how garnishes are selected and consideration for selection.

Slide

Preparing garnishes

- Pick herb sprigs of appropriate size so as not to overwhelm the main ingredient
- Peel and trim fruits and vegetables neatly and remove any pips
- Cut fruits and vegetables evenly and uniform in shape and size
- Ensure that the garnish is edible – some fruits, berries, plants and leaves can be bitter or poisonous

Slide 18

Slide No

Trainer Notes

18.

Trainer outlines how garnishes are prepared to quality standards.

Slide

Preparing garnishes

Garnish ingredient	Examples
Fresh herbs	Parsley, chives, chervil, cilantro, dill, basil, mint,
Woody herbs	Fried sage, thyme, rosemary (these are bitter and require cooking)
Edible flowers	Nasturtium, dandelion, zucchini, caper
Edible leaves	Lettuce, spinach, endive, roquette,
Shoots and sprouts	Pea shoots, bean shoots, lotus root,
Vegetables - raw or cooked	Cuts including julienne, brunoise, paysanne, jardinière, noisettes, fried shallots, roasted garlic
Fruits	Segmented citrus, diced, dried, candied
Pastry – short or puff	Fleurons, cases, toppings
Bread	Croutons, sippets
Eggs	Omelette, royale, whole poached or fried
Nuts – whole, toasted, crushed	Coconut, peanuts, walnuts, hazel nuts, almonds
Edible seeds	Poppy, sesame, pumpkin
Chocolate	Shaved, piped filigree, baskets, powder/cocoa
Sugar	Pulled, candy, toffee, praline
Biscuits	Tuille, shortbreads, macaroons

Slide 19

Slide No	Trainer Notes
----------	---------------

19.

Trainer gives overview from table defining different garnish items and categories.

Slide

Preparing garnishes

Some specialist equipment for preparing and presenting garnishes or accompaniments include:

- Shape/pastry cutters
- Parisienne cutters
- Zester/channel cutter
- Peeler
- Mandoline
- Piping bags and nozzles
- Paring and turning knives

20

Slide No	Trainer Notes
20.	Trainer describes selection and use of a variety of equipment used to prepare and shape garnishes.

Slide

Preparing garnishes

Equipment for preparing garnishes:

		
Shape cutters	Pastry cutters	Parisienne cutter
		
Zester	Peeler	Mandoline

21

Slide No	Trainer Notes
----------	---------------

21.

Trainer describes the use of each pictured item.

Slide

Preparing accompaniments

Accompaniments

An accompaniment is used to add to the texture and taste to a menu item:

- Accompaniments should be appropriate and compliment the main food item
- Many accompaniments are traditional to certain styles of cuisine
- Accompaniments may have some cultural significance or may simply have developed as a common, complimentary 'partner' to some foods

Slide 22

Slide No	Trainer Notes
----------	---------------

22.	Trainer defines an 'accompaniment' from the listed points.
-----	--

Slide

Preparing accompaniments

- Some garnishes and accompaniments require preparation following a standard recipe
- These may include items such as biscuits or pastry
- These items must also be of good quality and appearance – therefore you must follow the recipe precisely

Slide 23

Slide No	Trainer Notes
23.	Trainer defines an 'accompaniment' and uses from the listed points.

Slide

Preparing accompaniments

Many accompaniments can be purchased pre- prepared.
These include items such as:

- Soy sauce
- Wasabi
- Mustard
- Ketchup
- Mayonnaise

Slide 24

Slide No

Trainer Notes

24.

Trainer defines prepared accompaniments from the listed points.

Slide

Preparing accompaniments

Other accompaniments may be partially prepared and only require some basic preparation, heating or cooking.

These include items such as:

- Fried shallots
- Toasted nuts
- Chopped chillies
- Sambals
- Specialty breads
- Chocolate and sugar decorations

Slide 25

Slide No	Trainer Notes
25.	Trainer defines prepared accompaniments from the listed points. May discuss cultural or specific cuisines for accompaniments.

Slide

Preparing accompaniments

- Accompaniments that require preparation should be made as close to serving time as possible
- Dressings and sauces may be made in advance to allow the combination of flavours to develop
- As with garnishes, food items used for preparing accompaniments must be fresh and of good quality

Slide 26

Slide No	Trainer Notes
----------	---------------

26.	Trainer describes quality points in preparing fresh accompaniments.
-----	---

Slide

Preparing accompaniments

Examples of accompaniments to cuisines:

Cuisine type	Common accompaniments
Japanese	Soy sauce, pickled ginger and wasabi
Italian	Parmesan cheese, vegetable and herb pesto
Indian	Sambals, naan breads, dhal
Mexican	Salsa, guacamole, tortilla, sour cream
Cantonese	Shrimp paste, char siu sauce,
Vietnamese	Nuoc Mam, green banana, bean sprouts

Slide 27

Slide No	Trainer Notes
----------	---------------

27.

Trainer discusses different cuisines and traditional accompaniments using table.

Slide

Setting up for service

- The term 'Service' relates to the period of time in which customers will select, order and consume their meals
- Set up procedures will depend upon the type of menu and service style of the business
- If correctly laid out and 'mise en place' has been properly carried out, the kitchen should function smoothly during the service period

Slide 28

Slide No	Trainer Notes
28.	Describe the term 'service' and how this relates to overall food presentation. Briefly describe types of menus and service styles.

Slide

Setting up for service

Some good practices to follow to help ensure that service is carried out smoothly include:

- Familiarise yourself with menu items and their components
- Have checklists to follow during preparation and leading up to service periods
- Report any potential problems as soon as you notice them
- Participate in kitchen briefings prior to service

Slide 29

Slide No	Trainer Notes
29.	Describe procedures to ensure that service is carried out to minimise mistakes or problems prior to and during service.

Slide

Setting up for service

Calculating quantities of food required for the service period:

- Reviewing guest bookings
- Reviewing historical sales data
- Historical popularity of certain menu items
- Observing current trends in food and cuisine styles
- Seasonal availability of food products

Slide 30

Slide No

Trainer Notes

30.

Discuss the importance of calculating food quantities required for food service. Elaborate on each point in the slide.

Slide

Setting up for service

Setting up stations for food service:

- A 'station' is a section of the kitchen which may service a particular menu course or specific food items.
- A section will require various items/equipment to be available and at hand
- This is to meet the need of the particular service period and expected number of diners

Slide 31

Slide No	Trainer Notes
31.	• Give an overview of the term 'station' • Describe the different stations in a kitchen and how they interact.

Slide

Setting up for service

Items required for service include:

- Cooking vessels such as pots and pans
- Serving equipment such as tongs, spatulas, ladles, trays
- Serving platforms including plates, bowl, trays and platters
- Prepared food items such as steaks, fish, poultry, vegetables
- Accompaniments and garnishes

Slide 32

Slide No	Trainer Notes
32.	• Outline the various considerations for setting up for service using points in slide • Describes why these points are critical to smooth workflow and minimising errors during service periods.

Slide

Setting up for service

The term 'station' may also refer to sections of a **buffet** where particular food items are presented and displayed including:

- Soups
- Appetisers and entrees and salads
- Carvery for roast meats
- Main course wet or dry dishes
- Vegetable dishes
- Desserts including pastries and cakes

Slide 33

Slide No	Trainer Notes
33.	• Define the term 'station' as it relates to the buffet style of service • May draw up an outline of a buffet set up showing patron flow and describing its importance.

Slide

Setting up for service

Equipment required for holding and storage during service periods:

- Bains-marie
- Chafing dishes
- Plate warmers
- Hot boxes
- Cool rooms
- Cold display units
- Soup tureens

Slide 34

Slide No	Trainer Notes
34.	• Give an outline of equipment used for the holding and storage of food items during service • Define which item would suit each service style.

Slide

Setting up for service

Back up food items for service periods:

- Having back up food items prepared is an important consideration for any service period
- This is a common aspect of mise en place
- Ensures that food items will not run out
- Ensures that customers will not be waiting for long periods for items to be prepared

Slide 35

Slide No	Trainer Notes
35.	• From points in slide, define the term 'back up' • Describe the importance in relation to customer service and quality standards.

Slide

Setting up for service

Examples of backing up menu items include:

- Meats such as steaks are cut and portioned:
 - Processed food items such as crumbed foods are prepared
 - Processed meat, poultry and seafood items are available
 - Extra vegetables and other accompaniments such as rice or pasta are par cooked
 - Additional sauces, accompaniments and garnishes

Slide 36

Slide No

Trainer Notes

36.

- Read through the points in slide
- Seek feedback/examples from students.

Slide

2. Plate and present foods

Performance Criteria:

- 2.1 Portion food items to enterprise standards
- 2.2 Provide sufficient and appropriate service equipment and service platforms
- 2.3 Plate and display food items to menu style
- 2.4 Present food neatly and attractively

Slide 37

Slide No	Trainer Notes
37.	Outline to students the second element and its performance criteria.

Slide

Portioning food items

- Portioning and portion control are important aspects of food presentation
- Presentation must be consistent in quantity and size
- Menu items must be uniform in shape and appearance
- Portion sizes or quantities should always be in line with the business policy or standard recipes

Slide 38

Slide No

Trainer Notes

38.

- Define the terms 'portion' and 'portion control'
- Describe the importance of consistency using the points in slide.

Slide

Portioning food items

- Portioning refers to the amount of food allocated to a particular menu item
- This may include several components to a dish or a single serve item
- All dishes of the same type must look the same
- The position of the food components should be the same on all plates
- Good portion control practices allow the kitchen to control its costs

Slide 39

Slide No	Trainer Notes
39.	Describe the impact of portion controlling on: a. Customers b. Costs to business.

Slide

Service equipment and platforms

- These are items that are used in the handling, plating, decorating and display of food items
- This includes items used for individual plating and larger items for displaying food on buffets
- Correct service equipment selection can assist with portion control

Slide 40

Slide No	Trainer Notes
----------	---------------

40.	Overview of service equipment and serving platforms/vessels.
-----	--

Slide

Service equipment and platforms

Examples of service equipment:

Slide 41

Slide No	Trainer Notes
41.	- Describe each piece of equipment and its uses in food service periods - What types of food would these items be used for when serving? - Seek feedback from students on equipment used in their workplace.

Slide

Service equipment and platforms

- Service platforms are items used as a base for food presentation
- Should be in a clean and sanitary condition
- Free of cracks, scratches and chipping
- Must be 'food grade'
- Should not have colours or designs that are 'busy' or have intricate design patterns

Slide 42

Slide No	Trainer Notes
42.	• Define the term 'service platform' • Describe quality points to selecting service platforms using points in slide. Elaborate on these points.

Slide

Service equipment and platforms

Examples of service platforms:

Plates and bowls	
Platters	
Stands	

Slide 43

Slide No	Trainer Notes
----------	---------------

43.

- Describe each item and its particular uses
- The type/style of service that each of these items would be used for
- Reiterate quality standards for selection of equipment.

Slide

Menu styles and plating

Different service styles will usually reflect in how menu items are presented to the customer:

- **A la carte** service involves foods being cooked and plated to order
- **Banqueting** involves pre-cooked foods being plated and served at the same time
- **Buffet service** entails the layout and display of cooked or prepared food items

Slide 44

Slide No	Trainer Notes
44.	• Define each service style in the slide points • Elaborate on each style of service and provide reasons for different service styles (e.g. Banqueting opposed to <i>A la carte</i> for large groups dining at same time, the issues that would be faced with using an <i>a la carte</i> service style).

Slide

Neat and attractive presentation

- Care and attention must be paid when plating to ensure neat and attractive presentation
- During a service period, a senior Chef will usually quality check each and every dish
- Cultural style may impact on how food items are presented

Slide 45

Slide No	Trainer Notes
45.	• Define the importance of 'neatness' and 'attractiveness', particularly from the customers perspective • Give examples of poor plating and presentation • Describe the impact of untidy or unattractive food presentation on diners and the business reputation.

Slide

Neat and attractive presentation

Plating considerations include:

- Eye appeal
- Colour and contrast
- Height and depth
- Temperature of food
- Service and cuisine style
- Classical and innovative arrangement styles

Slide 46

Slide No	Trainer Notes
46.	• Define each point in slide • Give examples of each point and define the importance of all elements being utilised for food presentation.

Slide

Neat and attractive presentation

Slide 47

Slide No	Trainer Notes
47.	Utilise the picture and seek feedback on all elements being met for presentation of this dish.

Slide

Neat and attractive presentation

- Drips and spills must be wiped clean
- Attention must be paid to placement of food items and garnishes
- Poorly plated dishes should be re-plated
- Food handlers gloves should be worn to avoid leaving print marks

Slide 48

Slide No	Trainer Notes
48.	• Define the points in slide • Outline the critical aspects of plating food in relation to quality of presentation • Point out the impact of poorly plated or poorly presented food on the customer's opinion of the business standard • Point out the customers expectation when paying for an expected high quality meal.

Slide

3. Store garnishes & accompaniments

Performance Criteria:

- 3.1 Store items correctly
- 3.2 Store products appropriately in correct containers
- 3.3 Label products correctly
- 3.4 Store items in correct conditions to maintain freshness and quality

Slide 49

Slide No	Trainer Notes
49.	Introduce the performance criteria to the trainees.

Slide

Correct storage

- Prepared foods must be stored in an appropriate vessel and at the correct temperature
- Factors that can affect food quality during storage include:
 - Strong odours from other foods
 - Humidity
 - Excess heat, air

Slide 50

Slide No

Trainer Notes

50.

Ask trainees to suggest what methods might be used to avoid some of these problems.

Slide

Correct storage

- Prepared foods should be well covered or wrapped
- Prepared food should always be stored above raw foods and away from strong smelling foods
- Ideally, prepared foods should be stored for no longer than 24 hours
- Excessive storage time will affect the quality of prepared food items

Slide 51

Slide No	Trainer Notes
51.	• Give an outline of why correct food storage practices are important in relation to quality and hygiene • Read through and elaborate on each point in slide.

Slide

Correct storage

- Refrigerated foods should be subject to low humidity and a temperature of between +1°C to +5° C
- Ideal freezing temperatures are between -15°C to -18°C
- Dry food storage requires foods to be stored in a cool dry area between +18°C to +24°C
- Excess humidity can lead to softening of food texture
- Excessive dryness in storage can lead to staling

Slide 52

Slide No	Trainer Notes
52.	- Briefly describe the 3 main food storage areas - Define foods that may be stored in each area - Give reference to HACCP based food safety programs where storage conditions are outlined.

Slide

Storage containers

- Consider the type of container or packaging medium that is to be used
- Containers, packaging and wrapping materials must be suitable and appropriate to the food item to be stored
- Stainless steel and hard plastics are most commonly used as food storage vessels

Slide 53

Slide No	Trainer Notes
53.	- Give an overview of storage containers used in food businesses - Read through and elaborate on each point in slide - Describe how correct selection impacts on food quality.

Slide

Storage containers

- Glass containers are not recommended for food storage due to the chance of breakage
- Other items used for storage and wrapping of food include; plastic cling film/wrap, aluminium foil and silicon paper
- All storage vessels or items must be 'food grade'
- Storage vessels must be clean, sanitised and in good condition

Slide 54

Slide No	Trainer Notes
54.	• Read through and elaborate on each point in slide • Outline the term 'food grade' and discuss items that may not be suitable for food storage.

Slide

Labeling food items

All prepared foods should be clearly labelled prior to storage.

This practice will assist to:

- Identify potentially contaminated food
- Indicate poor or low quality food
- Identify freshness of prepared food items in storage

Slide 55

Slide No	Trainer Notes
55.	• Outline the requirements for labelling of foods in storage • Read through and elaborate on each point in slide • Give some examples/repercussions of having unlabelled food in storage.

Slide

Labeling food items

Label information should include:

- Name of the item
- Date the item was first stored
- Time the item was first stored
- Temperature – if being process-tested
- Type of storage – chilled, frozen, thawing
- Writing must be legible and the label must be some fixed to the container in some way

Slide 56

Slide No	Trainer Notes
56.	• Read through each point in slide • Give examples of types of labels available for food storage.

Recommended training equipment

- Chefs knives including:
 - Large cooks knife
 - Paring knife
 - Turning knife
 - Filleting knife
 - Palette knife
- Cutting boards
- Peeler
- Zester
- Parisienne and noisette cutters
- Small shape cutters
- Pastry cutters
- Sieves and dredgers
- Squeeze bottles
- Piping bags and nozzles
- Chafing dishes and canned fuel
- Gastronorm type containers and lids
- Bain Marie
- Plate warmers
- Coolrooms and refrigerators
- Freezers
- Hot boxes
- Platters and salvers
- Stainless steel bowls of varying size
- Portion cutting guides
- Ladles
- Measuring spoons, cups and jugs
- Egg slide
- Spatula
- A variety of plates of differing shape and size
- Silicon paper
- Plastic cling wrap
- Aluminium foil

- Plastic disposable containers with lids
- Day dots and food labels
- Butchers string
- Probe thermometer
- Access to ice cubes or crushed ice.

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Set Up Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.
