Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: MINIMISE THEFT		NOMINAL HOURS: 60
UNIT NUMBER: D2.TGA.CL6.05		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to minimise internal and external theft.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Define the theft risks facing the organisation 1.1 Identify <i>internal theft opportunities</i> 1.2 Identify <i>personnel who may be involved in internal theft</i> 1.3 Identify <i>external theft opportunities</i> 1.4 Identify <i>personnel who may be involved in external theft</i> 1.5 Identify <i>on tour theft threats</i> Element 2: Establish theft minimisation protocols 2.1 Research information relating to theft minimisation 2.2 Review existing theft minimisation protocols 2.3 Identify <i>security systems and equipment</i> to assist with identified theft minimisation needs		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to limiting and responding to the theft of property and cash by customers, employees and members of the public within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation <i>Internal theft opportunities</i> relates to theft by staff and may include theft of: • Cash including making of false claims for reimbursement of expenses • Tickets and vouchers including conversion for private gain • Assets including furniture, fixtures, fittings, utilities, vehicle use and sundry property items being converted for personal use within and outside working hours • Stock including food, beverage and touring supplies • Business data including use of data for personal gain, or on-selling/provision to others

2.4 <i>Generate organisational theft policy</i> 2.5 <i>Prepare theft-minimisation procedures</i> 2.6 <i>Ensure compliance with imposed requirements</i> 2.7 <i>Produce documentation to support theft minimisation protocols</i> 2.8 <i>Trial and revise theft minimisation protocols</i> 2.9 <i>Communicate theft minimisation protocols and requirements to staff</i> Element 3: Utilise established internal and external theft minimisation protocols 3.1 <i>Initiate and apply identified theft minimisation protocols</i> in accordance with established procedures and plans 3.2 Engage the services of loss prevention officers 3.3 Install and activate security systems and anti-theft equipment in accordance with identified requirements 3.4 <i>Provide for special access and entry provisions</i> 3.5 <i>Verify and validate all cash and stock transactions</i> 3.6 <i>Observe people</i> to identify suspicious behaviour 3.7 <i>Take action</i> where theft is observed or believed to be occurring	• Identity including organisational identity and the identity of clients. <i>Personnel who may be involved in internal theft</i> may include: • All staff within the agency including casual, part-time, full-time and voluntary workers • Staff from sub-agencies and associated offices. <i>External theft opportunities</i> relates to theft by persons other than staff and may include theft of: • Cash • Tickets and vouchers • Assets • Stock. <i>Personnel who may be involved in external theft</i> may include: • Customers and clients including tour group members • Visitors • Sales representatives • Contractors • Suppliers • Vendors • Members of the public. <i>On tour theft threats</i> should relate to any situations that expose the organisation and/or tour/travel clients to the risk of theft and may include: • Theft of organisational assets, goods and supplies • Theft of client belongings including cash, valuables, documentation, such as licenses, passports, credit cards and tickets.
---	---

Element 4: Provide theft minimisation advice and services to customers 4.1 Develop <i>information for customers in relation to protecting them against theft while travelling/on tour</i> 4.2 Disseminate <i>customer theft minimisation advice</i> 4.3 Provide hosting and escorting services to customers on tour 4.4 Provide on tour safe-keeping facilities for tour group members Element 5: Monitor theft-related issues 5.1 Investigate <i>instances where theft has occurred</i> 5.2 Take legal action in response to identified theft events 5.3 Identify <i>changes to operations</i> that affect theft potential 5.4 Seek <i>feedback</i> on security and theft issues 5.5 Review theft minimisation policy and procedures 5.6 Amend <i>theft minimisation protocols</i>, as required	<i>Research information</i> may include: • Undertaking internet research • Networking with other organisations in the industry • Engaging the services of professional security organisations • Reviewing and analysing workplace instances of theft, including attempts at theft • Contacting local police. <i>Security systems and equipment</i> may include: • Alarm systems • Video surveillance • Mirrors • Locks and the use of secure areas including display units and the use of barriers. <i>Generate organisational theft policy</i> may include: • Preparing written policy • Determining responsibility for theft management • Identifying tolerance, if any, for identified instances of theft including clear identification of what staff are entitled to use free-of-charge and/or as part of the acceptable standards of operation of the business • Proscribing the courses of action to be taken when theft is identified including treatment of offenders, identification of internal persons to be notified and external bodies to be contacted • Specifying documentation to be completed to support the policy and related procedures • Allocating budget for implementation of identified security and anti-theft measures • Identifying date for implementation of the policy
--	---

	• Setting dates for the review of the policy • Providing for version control of the policy to allow updates to be made and tracked • Integrating theft policy into standard policy manual. <i>Theft-minimisation procedures</i> may relate to: • All stages of the ‘control cycle’ as it applies to the products and services provided by the organisation, purchasing, receiving, storage, issuing, production and service • Implementation of the 3Ds concept: deter people from offending; deny people access to the product; delay those who are intent on stealing • Security of the premises, including the physical security of the building and procedures in the event of armed hold-up • Security of organisational assets while on tour • Security of customer property while on tour • Cash handling, processing of transactions and the on-premises security of cash • Document and data security • Key security • Access to areas within the premises including physical locations and paper-based and electronic files • Security of stock • Security of organisational assets • The use of security systems and equipment. <i>Imposed requirements</i> may include: • Legislation of the host country including privacy, confidentiality, and apprehension requirements • Industry codes of practice
--	--

- Best practice procedures
- Accepted industry standards
- Internal reporting procedures.

Documentation to support theft minimisation protocols may include:

- Cash handling and transaction forms including forms for refunds, exchanges, voids and similar other events
- Inspection checklists
- Recording forms to be used in the event that a theft event occurs
- Theft reports
- Forms to track stock and stock movement including requisitions, stock take sheets, bin cards, transfer sheets, damaged goods, tickets and vouchers incorrectly completed and voided/invalidated.

Trial and revise theft minimisation protocols may include:

- Planning the introduction of identified theft minimisation protocols
- Advising staff in relation the trial
- Testing the systems and equipment under real working conditions
- Planning for simulated theft events
- Recording the outcomes of the trial
- Evaluating the detection and prevention outcomes achieved
- Revising the intended theft minimisation protocols on the basis of evidence obtained during the trial.

Communicate theft minimisation protocols may include:

- Providing training

	• Conducting demonstrations • Advising and explaining the protocols • Integrating new and/or revised anti-theft measures into existing in-house training and/or induction programs • Providing hard copy instructions and directions • Conducting simulated exercises. <i>Initiate and apply identified theft minimisation protocols</i> may address on-site and on tour procedures and may include: • Following the established enterprise practices and procedures • Completing required documentation • Monitoring security systems and devices • Implementing identified theft minimisation procedures for cash, cash handling and transactions • Implementing identified theft minimisation procedures for tickets and vouchers • Implementing identified theft minimisation procedures for the control of keys • Implementing identified theft minimisation procedures relating to organisational assets • Implementing identified theft minimisation procedures relating to stock and supplies • Implementing identified theft minimisation procedures for the protection of business data • Implementing identified theft minimisation procedures relating to identify theft. <i>Provide for special access and entry provisions</i> may include: • Nominating authorised access times for specified areas • Establishing password protected access to information and files • Restricting staff and public access to nominated areas
--	--

	• Allocating keys to locked areas. <i>Verify and validate all cash and stock transactions</i> may include: • Checking documentation • Conducting stock takes • Matching cash to transactions and related documentation • Investigating variances. <i>Observe people</i> relates to the monitoring of staff and members of the public and may include: • Monitoring of surveillance equipment • Personal observations • Making personal contact with all people who enter the premises. <i>Take action</i> may include: • Implementing the requirements of the established plans and procedures • Notifying the identified persons or organisations • Intervening to limit loss • Presenting a physical presence, where safe to do so • Verbally advising persons of suspicions and/or observations • Capturing evidence • Conducting bag searches • Apprehending offenders. <i>Information for customers in relation to protecting them against theft</i> may relate to: • Advice about areas of business to avoid
--	--

	• Advice in relation to the carrying of cash on their person, including the use of cash belts • Advice in relation to using in-room and in-house safety deposit facilities at venues • Advice in relation to packing of cases • Advice in relation to contact details of authorities in different countries • Advice in relation to known scams • Advice in relation to items targeted by thieves at various destinations • Advice in relation to action to take in the event of becoming a victim of theft • Advice in relation to travel insurance. <i>Disseminate customer theft minimisation advice may include:</i> • Providing hard copy information sheets to customers • Presenting advice online • Verbally advising customers. <i>Investigate instances where theft has occurred may include:</i> • Identifying the circumstances of the event • Identifying the people and items involved • Describing how the theft occurred • Identifying how the theft could have been prevented • Determining the effect of the theft on the organisation • Including external assistance in considering the event • Identifying the cost associated with taking action to prevent future similar thefts. <i>Identify changes to operations may include:</i> • Identifying changes to business layout
--	--

- Identifying new processes that introduce theft potential
- Identifying new products or services that introduce theft potential
- Identifying staff changes that may introduce theft potential
- Identifying new locations including destinations that introduce theft potential
- Identifying new suppliers, partners or activities that introduce theft potential.

Feedback can be solicited from staff, customers or external service providers and may include:

- Verbal feedback
- Written feedback
- Photographic or moving image evidence.

Amend theft minimisation protocols may include:

- Upgrading security equipment and systems
- Providing additional security and/or surveillance equipment
- Modifying internal systems and documentation
- Introducing new or revised practices
- Engaging the services of security professionals.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Enterprise policies and procedures in regard to security and theft minimisation
- Knowledge of host country legislation in relation to theft and the detection and apprehension of offenders
- Knowledge of security services, equipment, systems and personnel available to assist in theft minimisation

- Ability to undertake research and prepare written policies, plans and procedures
- Principles of cash handling, stock control, key control, data management, ticket security and general property security
- Ability to use theft identification techniques including analysis of sales and stock data.

Linkages To Other Units

- Access and retrieve computer-based data
- Develop and update local knowledge
- Implement occupational health and safety procedures
- Manage and resolve conflict situations
- Produce documents, reports and worksheets on a computer
- Plan and establish systems and procedures
- Develop and implement operational policies
- Manage financial performance within a budget
- Manage legal requirements for business compliance
- Develop and supervise operational approaches
- Manage physical assets and infrastructure
- Manage stock purchases and inventory
- Develop and update tourism industry knowledge
- Process a financial sale transaction
- Maintain the safety of premises and property
- Establish and maintain a safe and secure workplace
- Escort, carry and store valuable items

- Follow safety and security procedures
- Manage operational risk
- Observe and monitor people.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of host enterprise policies and procedures in regard to security and theft minimisation
- Demonstrated ability to define the internal and external theft risks facing a real or simulated industry organisation and to develop effective and viable theft minimisation protocols to address the identified risks
- Demonstrated ability to identify and legally and effectively respond to at least three simulated instances of theft in a nominated industry situation
- Demonstrated ability to prepare written theft minimisation advice suitable for provision to tour group members in relation to at least two nominated tourism/travel destinations
- Demonstrated ability to identify possible changes that could be made to existing security and theft minimisation protocols in response to a nominated instance of theft at a given organisation.

Context of Assessment

This unit may be assessed on or off the job

- Assessment should include practical demonstration either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge
- Assessment must relate to the individual's work area or area of responsibility.

Resource Implications

Training and assessment to include access to a real or simulated workplace; and access to workplace standards, procedures, policies, guidelines, tools and equipment.

	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance in a real or simulated workplace • Analysis of documentation produced and/or amended, including plans, policies and procedures, checklists and other forms • Case studies • Role plays • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work. Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>
--	--

	Key Competencies	Level	Examples
	Collecting, organising and analysing information	1	Compiling internal information relating to past theft events
	Communicating ideas and information	2	Producing theft minimisation advice sheets for tour group members and travellers; explaining the implementation of theft minimisation procedures
	Planning and organising activities	2	Scheduling the implementation of theft minimisation systems and procedures
	Working with others and in teams	2	Liaising with external providers to identify and determine appropriate theft minimisation techniques and systems
	Using mathematical ideas and techniques	1	Calculating losses from theft
	Solving problems	3	Determining the security systems, equipment and protocols to be established or revised following a theft event
	Using technology	2	Using security systems and surveillance equipment

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Minimise theft D2.TGA.CL6.05
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. Identify five internal theft opportunities you are aware of in an industry business.	☐	☐
2. For the examples given in the answer you gave to the previous question, who were the people involved in the theft and how did the theft occur?	☐	☐

Questions	Response	
	PC	NYC
3. Give three examples of external theft which may impact an industry operator.	☐	☐
4. For the responses you provided in the answer to the previous question who were the people involved in the theft events and how did they happen?	☐	☐
5. Tell me about three on tour instances of theft explaining what happened and who was involved.	☐	☐

Questions	Response	
	PC	NYC
6. What could you do to obtain useful information to form the basis of establishing effective theft minimisation protocols?	☐	☐
7. What would you do to review existing theft minimisation protocols in a business?	☐	☐
8. Identify three examples of security systems and equipment which can be used to assist with theft minimisation explaining the role of each item.	☐	☐

Questions	Response	
	PC	NYC
9. Explain what you believe to be the contents of an effective theft minimisation policy for an industry business.	☐	☐
10. What is involved in prepare theft minimisation procures? Give an example of three such procedures.	☐	☐
11. What externally imposed requirements might theft minimisation protocols need to accommodate and how could you identify what these are?	☐	☐

Questions	Response	
	PC	NYC
12. What documents need to be produced by a business to support its theft minimisation protocols?	☐	☐
13. Identify one theft minimisation protocol and explain how you would trial its implementation.	☐	☐
14. Describe two ways the theft minimisation protocols for an organisation might be communicated to employees.	☐	☐

Questions	Response	
	PC	NYC
15. What are the pre-requisites for the initiation and implementation of theft minimisation protocols for a business?	☐	☐
16. What is the role of a Loss Prevention Officer?	☐	☐
17. Explain how security systems and anti-theft equipment can support the implementation of theft minimisation in a business.	☐	☐

Questions	Response	
	PC	NYC
18. How would you control access to back-of-house areas in a business operation and why is such control necessary?	☐	☐
19. Describe the protocols which may be used to ensure ticket sales in a business are conducted legitimately and both tickets sold and payment received can be tracked and validated.	☐	☐
20. Give three examples of what you would describe as suspicious customer behaviour and explain how you might become aware of such behaviour.	☐	☐

Questions	Response	
	PC	NYC
21. You believe a customer has taken an item off a display and put it in their pocket without paying for it: describe how you might respond to this situation.	☐	☐
22. Explain five pieces of advice you would give to customers to help them protect themselves against theft while travelling/on tour.	☐	☐
23. How and when might you provide information to customers regarding theft minimisation while they are on tour?	☐	☐

Questions	Response	
	PC	NYC
24. What duties will a person who is hosting/escorting a tour need to discharge?	☐	☐
25. What options are available for customers for the safe-keeping of customer valuables while they are travelling/on tour?	☐	☐
26. A theft of cash from a tour group member's room has occurred while they are on tour: what investigation into this would you undertake?	☐	☐

Questions	Response	
	PC	NYC
27. What legal action might be taken against a person who stole from a business and what criteria might be needed to trigger such a response?	☐	☐
28. Give two examples of changes to operations which might impact theft potential.	☐	☐
29. Detail three ways a business might seek feedback on security and theft issues.	☐	☐

Questions	Response	
	PC	NYC
30. What would you do if asked to review an existing theft minimisation policy or procedure?	☐	☐
31. Give an example of how a theft minimisation protocol might be revised explaining the possible need for the change.	☐	☐

Written questions

Minimise theft – D2.TGA.CL6.05

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. Give five generic examples of items which are subject to internal theft.

2. Identify five classifications of people who may be involved in internal theft.

3. Give five examples of business 'assets' which are may be subject to external theft.

4. Identify five classifications of people who may be involved in external theft.

5. What are the two general classifications of theft threats which are present when 'on tour'?

6. Give three examples of activities involved in 'networking with other organisations in the industry' when researching information related to theft minimisation.

7. List three services you may ask external professional security organisations to undertake when researching information related to theft minimisation.

8. What are the three primary phases/steps to undertake when reviewing theft minimisation protocols?

9. Briefly explain the '3D Approach' to theft minimisation.

10. List five examples of security systems and/or equipment which can be used to secure items and prevent or deter theft.

11. List the 10 considerations involved in developing organisational theft policy.

12. What are the seven component parts of the 'full control cycle' which all need to be addressed by relevant theft minimisation procedures?

13. Give three examples of externally imposed obligations which may need to be accommodated when developing theft minimisation protocols.

14. Give three generic examples of documentation necessary to support implementation of theft minimisation protocols.

15. What five steps are generally required to trial theft minimisation protocols?

16. What should be used as the basis for making revisions to theft minimisation protocols following trials?

17. Describe four ways an organisation may communicate theft minimisation protocols to staff.

18. Identify five keys in ensuring established enterprise theft minimisation practices and procedures are implemented as required.

19. Describe the role of a Loss Prevention Officer.

20. How does the role of Static Guard differ to that of an LPO in relation to loss minimisation?

21. Identify three systems and/or items of equipment which may be used to protect stock/items from theft where a clear line-of-sight cannot be maintained.

22. Describe five keys in installing and activating security systems and anti-theft devices.

23. What three things does 'control' refer to when 'controlling access and entry' to an organisation or area?

24. Give four examples of special access and entry provisions which may be developed to control access to an organisation or area.

25. What are the four keys in verifying and validating cash and stock transactions?

26. Give four reasons it is necessary to investigate variances when verifying and validating cash and stock transactions.

27. Give four examples of actions you might take to monitor customers in a business in order to identify suspicious behaviour.

28. Identify four examples of customer behaviour which would be 'suspicious'.

29. Answer 'True' or 'False' to the following statement: "If you suspect someone has stolen an item from the organisation you should make a citizen's arrest and detain the person."

30. Give four generic examples of the advice which should be given to customers to protect them against theft when travelling/on tour.

31. What are the two commonly used ways to disseminate theft minimisation information to customers?

32. List six activities which may be included in the role/responsibility of a tour host/escort.

33. Describe four activities you may undertake to optimise the safety/protection of property of tour group members while on tour.

34. Name four activities which need to be undertaken when investigating a theft event.

35. Give three reasons legal action is not always taken in response to an identified theft from the business.

36. Name three generic topics which need to be considered when identifying changes to operations that effect theft potential.

37. Name the three primary ways of obtaining feedback about safety and security issues.

38. Identify the two occasions when theft minimisation policies and procedures should be reviewed.

39. Describe three examples of possible action which may follow a review of theft minimisation protocols.

Answers to written questions

Minimise theft – D2.TGA.CL6.05

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. Give five generic examples of items which are subject to internal theft.

- Cash
- Tickets and vouchers
- Assets and physical resources
- Stock
- Business data
- Identity.

2. Identify five classifications of people who may be involved in internal theft.

- Managers
- Supervisors
- Retail sales staff
- Travel consultants
- Accounting staff
- Receptionists
- Security staff/guards
- Cleaners.

3. Give five examples of business ‘assets’ which are may be subject to external theft.

- Physical fixtures and fittings of the business – office equipment, industry/association plates, furniture, signage, communications equipment, systems hardware
- Information – such as business identity data, security and other operating and/or access codes, customer database information, confidential business details, private information on customers and organisations with whom the agency does business
- Stock – this covers items such as:
 - Food and beverages provided by the business
 - Promotional items
 - Merchandise – which can include but is certainly not limited to clothing (hats, caps, T-shirts), pens, pencils, diaries, travel bags, luggage tags, ticket wallets
 - Travel books and videos/DVDs.

- 4. Identify five classifications of people who may be involved in external theft.**
 - Customers, clients or tour group members
 - Friends and family of the above
 - Children
 - Visitors and members of the public
 - Sales reps
 - Contractors
 - Suppliers and vendors.
- 5. What are the two general classifications of theft threats which are present when 'on tour'?**
 - Theft of organisational assets
 - Theft of client belongings.
- 6. Give three examples of activities involved in 'networking with other organisations in the industry' when researching information related to theft minimisation.**
 - Joining industry groups
 - Reading industry journals and magazines
 - Attending industry events, conferences, seminars and similar
 - Being a regular participant in meetings.
- 7. List three services you may ask external professional security organisations to undertake when researching information related to theft minimisation.**
 - Analyse and evaluate the threats faced by the business
 - Benefit from their experience with other similar businesses in the industry
 - Obtain relevant resources to assist with theft prevention and detection
 - Use their staff to help deter theft and identify thieves.
- 8. What are the three primary phases/steps to undertake when reviewing theft minimisation protocols?**
 - Obtaining, reading and analysing relevant documents
 - Speaking with relevant people
 - Determining common issues and/or topics of concern which emerge.

9. Briefly explain the '3D Approach' to theft minimisation.

3D means the business will develop and implement systems and procedures intended to:

- Deter people from offending
- Deny them access to the product
- Delay them if they are intent on stealing the product

10. List five examples of security systems and/or equipment which can be used to secure items and prevent or deter theft

- Surveillance devices/CCTV
- Mirrors
- EAS
- Physical barriers
- Display cases
- Alarms
- Safes
- Physical barriers
- Locks
- Cables, chains and cords.

11. List the 10 considerations involved in developing organisational theft policy

- Develop a *written* policy
- Integrating research findings into the development of policy
- Determining responsibility for theft management
- Identifying tolerance, if any, for identified instances of theft
- Describing and explaining the courses of action to be taken when theft is identified
- Specifying documentation to be completed to support the policy and related procedures
- Allocating budget to support theft minimisation activity within the business
- Identifying relevant dates relating to the policy
- Providing for version control of the policy
- Integrating theft policy/policies into standard operating procedures for the business.

12. What are the seven component parts of the 'full control cycle' which all need to be addressed by relevant theft minimisation procedures?

- Purchasing
- Receival
- Storage
- Issuing
- Production
- Service
- Sales.

13. Give three examples of externally imposed obligations which may need to be accommodated when developing theft minimisation protocols

- Legislation
- COPs
- Best Practice
- Industry standards
- Contractual requirements.

14. Give three generic examples of documentation necessary to support implementation of theft minimisation protocols

- Cash handling and transaction forms
- Inspection checklists
- Recording forms and theft reports
- Forms to support and track stock and stock movement.

15. What five steps are generally required to trial theft minimisation protocols?

- Planning for identified/potential theft events
- Planning the introduction of identified theft minimisation protocols
- Advising staff in relation the trial
- Testing the systems and equipment under real working conditions
- Recording the outcomes of the trial.

16. What should be used as the basis for making revisions to theft minimisation protocols following trials?

Evidence captured during the trial process/period.

17. Describe four ways an organisation may communicate theft minimisation protocols to staff.

- Integrating new and/or revised anti-theft measures into existing in-house training and/or induction programs
- Providing training
- Conducting demonstrations
- Providing new and/or revised hard copy support material
- Conducting mock exercises.

18. Identify five keys in ensuring established enterprise theft minimisation practices and procedures are implemented as required.

- Learning what the required practices and procedures are
- Participating in formal training
- Taking part in drills and practical exercises
- Learning where relevant workplace references are located
- Talking about requirements at staff meetings and briefings
- Helping review these practices and procedures on a regular basis.

19. Describe the role of a Loss Prevention Officer

Their role also includes identification of internal theft (that is, theft by staff, suppliers, and contractors) as well as by customers who are in the business.

Loss Prevention Officers are 'plain clothes' security people who commonly attend the premises (disguised as customers or as staff at the workplace) and focus on identifying shoplifters or thieves.

They may attend only one or two hours per day on a regular basis, at certain nominated times when theft is anticipated, or at random times.

20. How does the role of Static Guard differ to that of an LPO in relation to loss minimisation?

Static Guard is highly visible and intended to deter theft.

LPO is plain clothes and tasked with catching offenders rather than preventing theft in the first place.

21. Identify three systems and/or items of equipment which may be used to protect stock/items from theft where a clear line-of-sight cannot be maintained

- Surveillance cameras/CCTV
- Electronic tags/EAS
- Alarms,
- Pressure pads and Motion sensors
- Mirrors.

22. Describe five keys in installing and activating security systems and anti-theft devices

- Follow manufacturer/supplier instructions for installation, commissioning and use of the items
- Undertake necessary on-the-job training to ensure competency with use of every item
- Practice with each resource to gain experience and confidence with using items, responding to alarms and alerts and implementing follow-up action
- Be fully aware there is a need to monitor all security systems and anti-theft devices – just having them in place will not necessarily result in a reduction in workplace theft
- Provide required service and maintenance to every system and device
- Know exactly what alerts and alarms (audible and visible) mean, and know exactly what action should be taken in response to each one.

23. What three things does ‘control’ refer to when ‘controlling access and entry’ to an organisation or area?

- Restricting times people may access to areas
- Limiting the persons who are authorised to enter areas
- Governing those who are given permission to enter restricted areas through the implementation of internal controls.

24. Give four examples of special access and entry provisions which may be developed to control access to an organisation or area.

- Nominating authorised access times for specified areas
- Establishing security protocols (such as password protection and use of usernames) to control staff access to information and files
- Restricting staff and public access to nominated areas
- Prohibiting members of the public from entering back-of-house areas
- Posting signage explaining where members of the public (customers and guests) are not authorised/allowed to enter
- Applying approved protocols to enable nominated persons to access normally prohibited areas. Common protocols can include:
 - Recording name and time of entry and departure in a log/register
 - Recording approved ‘proof of identify’ for each person
 - Accompanying all such persons while they are in the business.
 - Allocating keys to locked areas
 - Only releasing keys to authorised staff
 - Requiring keys to be signed ‘out’ – by day/date and time
 - Requiring keys to be signed back ‘in’ – by day/date and time
 - Requiring reason for allocation of keys to be recorded.

- 25. What are the four keys in verifying and validating cash and stock transactions?**
- Checking documentation
 - Conducting stock takes
 - Matching cash to transactions and related documentation
 - Investigating variances.
- 26. Give four reasons it is necessary to investigate variances when verifying and validating cash and stock transactions**
- Confirm a variance exists
 - Identify the amount and type of the variance
 - Determine when and how it occurred
 - Work out the action to take to resolve the situation
 - Enable an internal report to be made regarding the situation.
- 27. Give four examples of actions you might take to monitor customers in a business in order to identify suspicious behaviour.**
- Monitoring of surveillance equipment – which should include:
 - Watching screens connected to CCTV cameras
 - Checking mirrors to view hidden areas
 - Listening for audible alarms – such as sirens
 - Looking for visual alerts produced by security systems
 - Integrating personal observations with data from security systems
 - Assimilating personal experiences with information provided by security systems and surveillance equipment
 - Personal observations – this relates to:
 - Watching people while they are in the business
 - Paying special attention to known thieves
 - Giving more attention to those who do not appear to be ‘doing business’ in the business
 - Noting everyone who enters the workplace
 - Making personal contact with people who enter the premises – in terms of:
 - Welcoming and greeting them
 - Making an offer of assistance
 - Demonstrating to them you know they are in the business
 - Providing excellent customer service.

28. Identify four examples of customer behaviour which would be 'suspicious'.

- The presence of people where they should not be – such as in restricted or back-of-house areas
- Drivers of delivery vehicles who get nervous when you say a vehicle search will be conducted of their vehicle before it is allowed to leave the business
- Any person who has difficulty providing proof of identify or is annoyed at having to provide it when asked to do so
- Workmen at the business in uniforms (or vehicles) not known to you – or attending to undertake some work/job you are unaware of
- Customers who appear anxious simply when you approach them or speak to them
- People who spend a long time in the one place and appear to be doing nothing but looking.

29. Answer 'True' or 'False' to the following statement: "If you suspect someone has stolen an item from the organisation you should make a citizen's arrest and detain the person."

False.

30. Give four generic examples of the advice which should be given to customers to protect them against theft when travelling/on tour

- Advice about areas of business to avoid
- Advice in relation to the carrying of cash on their person
- Advice in relation to using safety deposit facilities at venues
- Advice in relation to packing of cases
- Advice in relation to contact details of authorities in different countries
- Advice in relation to known scams
- Advice in relation to items targeted by thieves at various destinations
- Advice in relation to action to take in the event of becoming a victim of theft
- Advice in relation to travel insurance.

31. What are the two commonly used ways to disseminate theft minimisation information to customers?

- Verbally
- In writing.

32. List six activities which may be included in the role/responsibility of a tour host/escort.

- Accompanying the tour group members at all time they are on tour
- Providing information and commentary
- Facilitating social cohesion of the group
- Avoiding tour group member confusion and uncertainty by providing necessary explanations and clarifications
- Advising of local conditions, customs, laws, rituals and restrictions
- Responding to general travel, tour, transport, scheduling and /or itinerary questions
- Protecting physical property and people
- Monitoring individual and group activity, behaviour and language to ensure compliance with laws and local custom, and to avoid unintended offence
- Giving physical assistance as required – carrying luggage, getting on and off transport
- Registering tour group members at accommodation venues
- Issuing required vouchers, coupons, tickets and other documentation at venues and destinations
- Checking appropriate paperwork is completed by tour group members when they enter and leave countries
- Handling tipping of service staff at meal times and other appropriate occasions
- Dealing with emergency situations and issues arising
- Leading, directing and managing the trip
- Negotiating deals and situations on behalf of the group
- Managing and resolving conflict and dissatisfaction within the group
- Liaising with local operators, officials, contacts and business partners
- Providing on tour safe-keeping facilities for tour group members.

33. Describe four activities you may undertake to optimise the safety/protection of property of tour group members while on tour.

- Brief all tour group members prior to the departure of every tour regarding potential threats and:
 - Advise of preventative measures to take – verbally, via handout and (where necessary) by demonstration
 - Explain preventative measures taken by the tour company on their behalf
 - Urge everyone to monitor their luggage and belongings – and be prepared to take personal responsibility for their own items: explain the limits of what the tour operator/host or escort can do to assist
 - Emphasise the need to place the value of life/personal safety above the value of property – that is, stressing the need to surrender cash or property if threatened or confronted by an assailant: highlight the need for/benefit of travel insurance in this regard
- Continually ask tour group members to check:
 - They have all their bags/luggage
 - They have their passports and tickets
 - They have not forgotten anything
 - Everyone is on board
- Check:
 - All vehicles when alighting to ensure no bags/items are left on board
 - All departure points to make sure tour group members have not left anything behind
 - All departing rooms (accommodation, meals, visits, attractions, activities, shops) to verify no items forgotten
- Advise/urge tour group members to:
 - Use in-house or in-room safe-keeping facilities provided by accommodation venues to store their valuables
 - Name all their items and luggage
 - Minimise the amount of money they carry with them
 - Use travellers' cheques
 - Lock doors to their rooms
 - Leave valuables on board the bus when getting off the bus
 - Keep an eye out for other tour group members
 - Advise you of any suspicious persons or circumstance
- Leave contact with providers so contact can be made with group if lost belongings are identified after group has departed – so arrangements can be made to forward them
- Place guest valuables into on-board safe (where provided) to enhance security when travelling on buses or boats
- Lock the bus/vehicle when leaving it – at all times.

34. Name four activities which need to be undertaken when investigating a theft event.

- Identifying the circumstances of the event
- Identifying the people and items involved
- Identifying how the theft could have been prevented
- Determining the effect of the theft on the organisation
- Including external assistance in considering the event
- Identifying cost of preventing recurrence.

35. Give three reasons legal action is not always taken in response to an identified theft from the business.

- Taking legal action is expensive and there is never any guarantee of success – and there can be times where you win the case but the undertaking still costs the tour operator/company money
- It is often very time consuming to pursue legal action – and becoming involved in such a time-consuming activity adds more expense to a loss event
- Being involved in lengthy legal action can cause ongoing anxiety for staff and business owners – and the potential payout is not worth this distress
- It is often just quicker, easier, simpler and more cost-effective to accept the loss and move forward.

36. Name three generic topics which need to be considered when identifying changes to operations that effect theft potential.

- Identifying changes to business layout
- Identifying new (or revised) processes
- Identifying new products or services that introduce theft potential
- Identifying staff changes that may introduce theft potential
- Identifying new locations, including destinations that introduce theft potential
- Identifying new suppliers or business partners that introduce theft potential.

37. Name the three primary ways of obtaining feedback about safety and security issues.

- Talking to customers/asking for their feedback
- Reading written feedback provided by customers, tour guides and others
- Looking at moving and still (photographic) images.

38. Identify the two occasions when theft minimisation policies and procedures should be reviewed.

- .On a regular basis
- After a theft event/attempt or nominated other incident.

39. Describe three examples of possible action which may follow a review of theft minimisation protocols

Possible responses might include:

- Upgrading security equipment and systems – which may mean:
 - Installing more modern technology
 - Adding extra items to the existing infrastructure
 - Revising existing policies and procedures to address changed circumstances
 - Creating and disseminating new policies and procedures to address newly identified threats
 - Integrating new protocols into:
 - Organisational induction and orientation
 - Formal internal training
 - Workplace manuals, checklists and other documents
 - Standard workplace practice – by explaining new/revised protocols to staff, scheduling a period for training and implementation, and supporting the changes with necessary time and other resources.
-

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Minimise theft D2.TGA.CL6.05
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Define the theft risks facing the organisation - Establish theft minimisation protocols - Utilise established internal and external theft minimisation protocols - Provide theft minimisation advice and services to customers - Monitor theft-related issues - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Define the theft risks facing the organisation		
Identify internal theft opportunities	☐	☐
Identify personnel who may be involved in internal theft	☐	☐
Identify external theft opportunities	☐	☐
Identify personnel who may be involved in external theft	☐	☐
Identify on tour theft threats	☐	☐

Did the candidate	Yes	No
Element 2: Establish theft minimisation protocols		
Research information relating to theft minimisation	☐	☐
Review existing theft minimisation protocols	☐	☐
Identify security systems and equipment to assist with identified theft minimisation needs	☐	☐
Generate organisational theft policy	☐	☐
Prepare theft-minimisation procedures	☐	☐
Ensure compliance with imposed requirements	☐	☐
Produce documentation to support theft minimisation protocols	☐	☐
Trial and revise theft minimisation protocols	☐	☐
Communicate theft minimisation protocols and requirements to staff	☐	☐
Element 3: Utilise established internal and external theft minimisation protocols		
Initiate and apply identified theft minimisation protocols in accordance with established procedures and plans	☐	☐
Engage the services of loss prevention officers	☐	☐
Install and activate security systems and anti-theft equipment in accordance with identified requirements	☐	☐
Provide for special access and entry provisions	☐	☐
Verify and validate all cash and stock transactions	☐	☐
Observe people to identify suspicious behaviour	☐	☐
Take action where theft is observed or believed to be occurring	☐	☐

Did the candidate	Yes	No
Element 4: Provide theft minimisation advice and services to customers		
Develop information for customers in relation to protecting them against theft while travelling/on tour	☐	☐
Disseminate customer theft minimisation advice	☐	☐
Provide hosting and escorting services to customers on tour	☐	☐
Provide on tour safe-keeping facilities for tour group members	☐	☐
Element 5: Monitor theft-related issues		
Investigate instances where theft has occurred	☐	☐
Take legal action in response to identified theft events	☐	☐
Identify changes to operations that affect theft potential	☐	☐
Seek feedback on security and theft issues	☐	☐
Review theft minimisation policy and procedures	☐	☐
Amend theft minimisation protocols, as required	☐	☐
Did the student's overall performance meet the standard?	☐	☐

Unit of competency:	Minimise theft D2.TGA.CL6.05		
The student is being assessed against industry competency standards and we are seeking your support in the judgement of their competence. Please answer these questions as a record of their performance while working with you. Thank you for your time.			

Do you believe the trainee has demonstrated the following skills? <i>(tick the correct response)</i>	Yes	No	Not sure
Identifies internal, external and on-tour theft opportunities and possible people involved	☐	☐	☐
Develops theft minimisation policies and procedures identifying appropriate security systems and equipment to assist based on research findings and a review of existing protocols	☐	☐	☐
Produces documentation to support established theft minimisation protocols	☐	☐	☐
Trials, revises (if necessary) and communicates theft minimisation protocols	☐	☐	☐
Initiates and applies identified theft minimisation protocols in accordance with established procedures and plans	☐	☐	☐
Engages the services of loss prevention officers	☐	☐	☐
Installs and activates security systems and anti-theft equipment in accordance with identified requirements	☐	☐	☐
Provides for special access and entry provisions	☐	☐	☐
Verifies and validates all cash and stock transactions	☐	☐	☐

Do you believe the trainee has demonstrated the following skills? <i>(tick the correct response)</i>	Yes	No	Not sure
Observes people to identify suspicious behaviour and takes action where theft is observed or believed to be occurring	☐	☐	☐
Develops and disseminates customer theft minimisation advice	☐	☐	☐
Provides hosting and escorting services to customers on tour including provision of on tour safe-keeping facilities	☐	☐	☐
Investigates theft events and takes legal action where appropriate	☐	☐	☐
Identifies changes to operations that affect theft potential	☐	☐	☐
Seeks feedback on security and theft issues	☐	☐	☐
Reviews and where necessary revises theft minimisation protocols	☐	☐	☐
