Competency Based Training (CBT) and assessment – An introduction for trainers

Competency

Competency refers to the ability to perform particular tasks and duties to the standard of performance expected in the workplace.

Competency requires the application of specified knowledge, skills and attitudes relevant to effective participation, consistently over time and in the workplace environment.

The essential skills and knowledge are either identified separately or combined.

Knowledge identifies what a person needs to know to perform the work in an informed and effective manner.

Skills describe the application of knowledge to situations where understanding is converted into a workplace outcome.

Attitude describes the founding reasons behind the need for certain knowledge or why skills are performed in a specified manner.

Competency covers all aspects of workplace performance and involves:

- Performing individual tasks
- Managing a range of different tasks
- Responding to contingencies or breakdowns
- Dealing with the responsibilities of the workplace
- Working with others.

Unit of competency

Like with any training qualification or program, a range of subject topics are identified that focus on the ability in a certain work area, responsibility or function.

Each manual focuses on a specific unit of competency that applies in the hospitality workplace.

In this manual a unit of competency is identified as a 'unit'.

Each unit of competency identifies a discrete workplace requirement and includes:

- Knowledge and skills that underpin competency
- Language, literacy and numeracy
- Occupational safety and health requirements.

Each unit of competency must be adhered to in training and assessment to ensure consistency of outcomes.

Element of competency

An element of competency describes the essential outcomes within a unit of competency.

The elements of competency are the basic building blocks of the unit of competency. They describe in terms of outcomes the significant functions and tasks that make up the competency.

In this manual elements of competency are identified as an 'element'.

Performance criteria

Performance criteria indicate the standard of performance that is required to demonstrate achievement within an element of competency. The standards reflect identified industry skill needs.

Performance criteria will be made up of certain specified skills, knowledge and attitudes.

Learning

For the purpose of this manual learning incorporates two key activities:

- Training
- Assessment.

Both of these activities will be discussed in detail in this introduction.

Today training and assessment can be delivered in a variety of ways. It may be provided to participants:

- On-the-job – in the workplace
- Off-the-job – at an educational institution or dedicated training environment
- As a combination of these two options.

No longer is it necessary for learners to be absent from the workplace for long periods of time in order to obtain recognised and accredited qualifications.

Learning approaches

This manual will identify two avenues to facilitate learning:

Competency Based Training (CBT)

This is the strategy of developing a participant's competency.

Educational institutions utilise a range of training strategies to ensure that participants are able to gain the knowledge and skills required for successful:

- Completion of the training program or qualification
- Implementation in the workplace.

The strategies selected should be chosen based on suitability and the learning styles of participants.

Competency Based Assessment (CBA)

This is the strategy of assessing competency of a participant.

Educational institutions utilise a range of assessment strategies to ensure that participants are assessed in a manner that demonstrates validity, fairness, reliability, flexibility and fairness of assessment processes.

Flexibility in learning

It is important to note that flexibility in training and assessment strategies is required to meet the needs of participants who may have learning difficulties. The strategies used will vary, taking into account the needs of individual participants with learning difficulties. However they will be applied in a manner which does not discriminate against the participant or the participant body as a whole.

Catering for participant diversity

Participants have diverse backgrounds, needs and interests. When planning training and assessment activities to cater for individual differences, trainers and assessors should:

- Consider individuals' experiences, learning styles and interests
- Develop questions and activities that are aimed at different levels of ability
- Modify the expectations for some participants
- Provide opportunities for a variety of forms of participation, such as individual, pair and small group activities
- Assess participants based on individual progress and outcomes.

The diversity among participants also provides a good reason for building up a learning community in which participants support each other's learning.

Participant centred learning

This involves taking into account structuring training and assessment that:

- *Builds on strengths* – Training environments need to demonstrate the many positive features of local participants (such as the attribution of academic success to effort, and the social nature of achievement motivation) and of their trainers (such as a strong emphasis on subject disciplines and moral responsibility). These strengths and uniqueness of local participants and trainers should be acknowledged and treasured
- *Acknowledges prior knowledge and experience* – The learning activities should be planned with participants' prior knowledge and experience in mind
- *Understands learning objectives* – Each learning activity should have clear learning objectives and participants should be informed of them at the outset. Trainers should also be clear about the purpose of assignments and explain their significance to participants
- *Teaches for understanding* – The pedagogies chosen should aim at enabling participants to act and think flexibly with what they know
- *Teaches for independent learning* – Generic skills and reflection should be nurtured through learning activities in appropriate contexts of the curriculum. Participants should be encouraged to take responsibility for their own learning
- *Enhances motivation* – Learning is most effective when participants are motivated. Various strategies should be used to arouse the interest of participants

- *Makes effective use of resources* – A variety of teaching resources can be employed as tools for learning
- *Maximises engagement* – In conducting learning activities, it is important for the minds of participants to be actively engaged
- *Aligns assessment with learning and teaching* – Feedback and assessment should be an integral part of learning and teaching
- *Caters for learner diversity* – Trainers should be aware that participants have different characteristics and strengths and try to nurture these rather than impose a standard set of expectations.

Active learning

The goal of nurturing independent learning in participants does not imply that they always have to work in isolation or solely in a classroom. On the contrary, the construction of knowledge in tourism and hospitality studies can often best be carried out in collaboration with others in the field. Sharing experiences, insights and views on issues of common concern, and working together to collect information through conducting investigative studies in the field (active learning) can contribute a lot to their eventual success.

Active learning has an important part to play in fostering a sense of community in the class. First, to operate successfully, a learning community requires an ethos of acceptance and a sense of trust among participants, and between them and their trainers. Trainers can help to foster acceptance and trust through encouragement and personal example, and by allowing participants to take risks as they explore and articulate their views, however immature these may appear to be. Participants also come to realise that their classmates (and their trainers) are partners in learning and solving.

Trainers can also encourage cooperative learning by designing appropriate group learning tasks, which include, for example, collecting background information, conducting small-scale surveys, or producing media presentations on certain issues and themes. Participants need to be reminded that, while they should work towards successful completion of the field tasks, developing positive peer relationships in the process is an important objective of all group work.

Competency Based Training (CBT)

Principle of Competency Based Training

Competency based training is aimed at developing the knowledge, skills and attitudes of participants, through a variety of training tools.

Training strategies

The aims of this curriculum are to enable participants to:

- Undertake a variety of subject courses that are relevant to industry in the current environment
- Learn current industry skills, information and trends relevant to industry
- Learn through a range of practical and theoretical approaches
- Be able to identify, explore and solve issues in a productive manner

- Be able to become confident, equipped and flexible managers of the future
- Be 'job ready' and a valuable employee in the industry upon graduation of any qualification level.

To ensure participants are able to gain the knowledge and skills required to meet competency in each unit of competency in the qualification, a range of training delivery modes are used.

Types of training

In choosing learning and teaching strategies, trainers should take into account the practical, complex and multi-disciplinary nature of the subject area, as well as their participant's prior knowledge, learning styles and abilities.

Training outcomes can be attained by utilising one or more delivery methods:

Lecture/tutorial

This is a common method of training involving transfer of information from the trainer to the participants. It is an effective approach to introduce new concepts or information to the learners and also to build upon the existing knowledge. The listener is expected to reflect on the subject and seek clarifications on the doubts.

Demonstration

Demonstration is a very effective training method that involves a trainer showing a participant how to perform a task or activity. Through a visual demonstration, trainers may also explain reasoning behind certain actions or provide supplementary information to help facilitate understanding.

Group discussions

Brainstorming in which all the members in a group express their ideas, views and opinions on a given topic. It is a free flow and exchange of knowledge among the participants and the trainer. The discussion is carried out by the group on the basis of their own experience, perceptions and values. This will facilitate acquiring new knowledge. When everybody is expected to participate in the group discussion, even the introverted persons will also get stimulated and try to articulate their feelings.

The ideas that emerge in the discussions should be noted down and presentations are to be made by the groups. Sometimes consensus needs to be arrived at on a given topic. Group discussions are to be held under the moderation of a leader guided by the trainer. Group discussion technique triggers thinking process, encourages interactions and enhances communication skills.

Role play

This is a common and very effective method of bringing into the classroom real life situations, which may not otherwise be possible. Participants are made to enact a particular role so as to give a real feel of the roles they may be called upon to play. This enables participants to understand the behaviour of others as well as their own emotions and feelings. The instructor must brief the role players on what is expected of them. The role player may either be given a ready-made script, which they can memorize and enact, or they may be required to develop their own scripts around a given situation. This technique is extremely useful in understanding creative selling techniques and human relations. It can be entertaining and energizing and it helps the reserved and less literate to express their feelings.

Simulation games

When trainees need to become aware of something that they have not been conscious of, simulations can be a useful mechanism. Simulation games are a method based on "here and now" experience shared by all the participants. The games focus on the participation of the trainees and their willingness to share their ideas with others. A "near real life" situation is created providing an opportunity to which they apply themselves by adopting certain behaviour. They then experience the impact of their behaviour on the situation. It is carried out to generate responses and reactions based on the real feelings of the participants, which are subsequently analysed by the trainer.

While use of simulation games can result in very effective learning, it needs considerable trainer competence to analyse the situations.

Individual /group exercises

Exercises are often introduced to find out how much the participant has assimilated. This method involves imparting instructions to participants on a particular subject through use of written exercises. In the group exercises, the entire class is divided into small groups, and members are asked to collaborate to arrive at a consensus or solution to a problem.

Case study

This is a training method that enables the trainer and the participant to experience a real life situation. It may be on account of events in the past or situations in the present, in which there may be one or more problems to be solved and decisions to be taken. The basic objective of a case study is to help participants diagnose, analyse and/or solve a particular problem and to make them internalize the critical inputs delivered in the training. Questions are generally given at the end of the case study to direct the participants and to stimulate their thinking towards possible solutions. Studies may be presented in written or verbal form.

Field visit

This involves a carefully planned visit or tour to a place of learning or interest. The idea is to give first-hand knowledge by personal observation of field situations, and to relate theory with practice. The emphasis is on observing, exploring, asking questions and understanding. The trainer should remember to brief the participants about what they should observe and about the customs and norms that need to be respected.

Group presentation

The participants are asked to work in groups and produce the results and findings of their group work to the members of another sub-group. By this method participants get a good picture of each other's views and perceptions on the topic and they are able to compare them with their own point of view. The pooling and sharing of findings enriches the discussion and learning process.

Practice sessions

This method is of paramount importance for skills training. Participants are provided with an opportunity to practice in a controlled situation what they have learnt. It could be real life or through a make-believe situation.

Games

This is a group process and includes those methods that involve usually fun-based activity, aimed at conveying feelings and experiences, which are everyday in nature, and applying them within the game being played. A game has set rules and regulations, and may or may not include a competitive element. After the game is played, it is essential that the participants be debriefed and their lessons and experiences consolidated by the trainer.

Research

Trainers may require learners to undertake research activities, including online research, to gather information or further understanding about a specific subject area.

Competency Based Assessment (CBA)**Principle of Competency Based Assessment**

Competency based assessment is aimed at compiling a list of evidence that shows that a person is competent in a particular unit of competency.

Competencies are gained through a multitude of ways including:

- Training and development programs
- Formal education
- Life experience
- Apprenticeships
- On-the-job experience
- Self-help programs.

All of these together contribute to job competence in a person. Ultimately, assessors and participants work together, through the 'collection of evidence' in determining overall competence.

This evidence can be collected:

- Using different formats
- Using different people
- Collected over a period of time.

The assessor who is ideally someone with considerable experience in the area being assessed, reviews the evidence and verifies the person as being competent or not.

Flexibility in assessment

Whilst allocated assessment tools have been identified for this subject, all attempts are made to determine competency and suitable alternate assessment tools may be used, according to the requirements of the participant.

The assessment needs to be equitable for all participants, taking into account their cultural and linguistic needs.

Competency must be proven regardless of:

- Language
- Delivery Method
- Assessment Method.

Assessment objectives

The assessment tools used for subjects are designed to determine competency against the 'elements of competency' and their associated 'performance criteria'.

The assessment tools are used to identify sufficient:

- a) Knowledge, including underpinning knowledge
- b) Skills
- c) Attitudes

Assessment tools are activities that trainees are required to undertake to prove participant competency in this subject.

All assessments must be completed satisfactorily for participants to obtain competence in this subject. There are no exceptions to this requirement, however, it is possible that in some cases several assessment items may be combined and assessed together.

Types of assessment

Allocated Assessment Tools

There are a number of assessment tools that are used to determine competency in this subject:

- Work projects
- Written questions
- Oral questions
- Third Party Report
- Observation Checklist.

Instructions on how assessors should conduct these assessment methods are explained in the Assessment Manuals.

Alternative assessment tools

Whilst this subject has identified assessment tools, as indicated above, this does not restrict the assessor from using different assessment methods to measure the competency of a participant.

Evidence is simply proof that the assessor gathers to show participants can actually do what they are required to do.

Whilst there is a distinct requirement for participants to demonstrate competency, there are many and diverse sources of evidence available to the assessor.

Ongoing performance at work, as verified by a supervisor or physical evidence, can count towards assessment. Additionally, the assessor can talk to customers or work colleagues to gather evidence about performance.

A range of assessment methods to assess competency include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals: slides, audio tapes
- Case studies
- Log books
- Projects
- Role plays
- Group projects
- Group discussions
- Examinations.

Recognition of Prior Learning

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

Also known as a Skills Recognition Audit (SRA), this process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Assessing competency

As mentioned, assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency. Traditionally in education, grades or marks were given to participants, dependent on how many questions the participant successfully answered in an assessment tool.

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- Pass Competent (PC)
- Not Yet Competent (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Competency standard

UNIT TITLE: ASSESS AND PLAN TOURISM OPPORTUNITIES FOR LOCAL COMMUNITIES		NOMINAL HOURS: 50
UNIT NUMBER: D2.TCS.CL5.02		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to consult with relevant stakeholders to determine and prepare plans that will provide tourism opportunities for local communities that are mutually acceptable to the local communities, authorities and the business operator.		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Research local tourism opportunities 1.1 Consult with the local community to obtain their involvement and input 1.2 Identify possible tourism opportunities for local communities 1.3 Identify research needs for the local communities 1.4 Conduct research on general tourism trends and data 1.5 Conduct research on the local area and communities Element 2: Interpret research results 2.1 Analyse the information collected from all sources 2.2 Identify impacts of the research		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to organisations that are involved in the delivery of tours and travel to local communities within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation Consult with the local community may include: • Arranging and conducting meetings with local authorities, key stakeholders, industry bodies and local communities • Actively seeking input from stakeholders, including advertising and promoting the meetings and their purpose • Seeking advice in relation to potential tourism-related opportunities • Recording input from contributors

2.3 <i>Communicate research results to stakeholders</i> 2.4 <i>Use research results and feedback to guide future actions</i> 2.5 <i>Confirm tourism opportunities to be pursued with the local communities and other relevant stakeholders</i> Element 3: Prepare formal draft plans 3.1 <i>Seek assistance from external experts and relevant personnel</i> 3.2 <i>Ensure draft plans reflect community interests and concerns</i> 3.3 <i>Ensure plans reflect the business plans and direction of the host enterprise</i> 3.4 <i>Identify training needs and training delivery methodologies</i> 3.5 <i>Identify physical infrastructure needs for the local communities and the host enterprise</i> 3.6 <i>Identify resources that need to be supplied to the local communities to facilitate implementation of plans</i> 3.7 <i>Incorporate the environmental, social, cultural and economic interests of the local communities into the plans</i> 3.8 <i>Ensure plans are culturally and environmentally sensitive</i>	• Explaining the potential advantages and disadvantages, impacts, of tourism opportunities on the society, culture and economy of the local communities: ▪ Advantages may include: ▪ Economic benefits to local community ▪ Improved local facilities ▪ Employment opportunities ▪ Cultural benefits including cultural preservation ▪ Visitor education ▪ Greater understanding between host and visitor cultures ▪ Disadvantages may include: ▪ Trivialisation of culture ▪ Effect on social structures and lifestyles ▪ Environmental damage ▪ Loss of privacy ▪ Exposure to the dangers accompanying any influx of tourists ▪ Reduced ability to use and/or enjoy traditional facilities and locations. <i>Possible tourism opportunities may include:</i> • Tourism retailing operations • Tour operations • Accommodation development • Visits to the community by invited external tour operators • Community involvement in providing staff for external operations • Community involvement in training related to the final plans.
---	---

3.9 Maintain ongoing communication and consultation throughout the planning process 3.10 Develop a clear <i>strategic and tactical focus</i> for plans that are made Element 4: Present draft plans 4.1 <i>Submit plans for consideration</i> by the local communities and other relevant key stakeholders 4.2 Amend plans on the basis of feedback received 4.3 Re-present revised plans for approval	<i>Conduct research</i> may include: • Questionnaires and surveys • Interviews, including face-to-face and telephone • Focus groups • Electronic counters, where applicable • Desktop research. <i>Identify research needs</i> may be related to: • Considering the current business focus of the local communities • Integrating the tourism possibilities within the existing or planned organisational business direction and operational goals • Agreeing on the aims of the research with key stakeholders and the local communities • Setting timelines and allocating responsibilities and resources for the research • Determining the research sources that will be used. <i>General tourism trends and data</i> should include: • Existing data available from government and peak industry sources, including fee-for-service data and material that is freely available • Conducting primary and secondary research • Considering quantitative and qualitative, hard and soft data • Arrival and spending patterns • Stay and visitation patterns • Identification of previous marketing activities focused on the local communities, including identification of the relative success or failure of those initiatives, and the reasons for that • Activity and usage patterns and levels historically and currently applicable to the local communities
--	---

	• Investigating initiatives for the local communities already being planned or implemented by others • Studying similar initiatives in similar locations, where applicable. <i>Conduct research on the local area and communities</i> should relate to: • Generating additional input and information to supplement findings of initial community and other meetings • Offering alternatives and making suggestions • Seeking identification of preferences from the local communities, including identification of why these preferences are preferred • Recording the reservations of local communities in relation to introducing tourism opportunities into their communities • Providing additional explanations, as required • Cataloguing existing facilities within the local community • Determining the skill levels of existing local communities, including identification of the number of potential workers available to participate in final plans. <i>Analyse the information collected</i> may include: • Classifying the statistical and other data collected • Verifying the research data • Quantifying the research data • Manipulating the research data, including the generation of trends, percentages and ratios as appropriate to the identified and/or emerging opportunities • Producing a report on the research, including the production of summaries and recommendations. <i>Impacts of the research</i> should relate to: • Social impacts
--	--

	• Environmental impacts • Economic impacts • Cultural impacts. <i>Communicate research results</i> may include: • Presenting copies of the research data and research report to key stakeholders • Presenting the report and its findings and speaking to the report at local community meetings • Presenting the research data/report to external stakeholders, including the wider community, businesses, tourism bodies and organisations, government authorities, funding sources and media • Seeking and recording feedback on the research from local communities and external stakeholders. <i>Use research results and feedback</i> may include: • Initial development of draft plans, where no existing draft plans already exist • Modification to existing draft plans • Integration of research data into existing or newly generated plans • Ensuring alignment between identified local community needs, wants and preferences and the direction to be taken • Notifying local communities as to how their input is being reflected in the emerging plans • Seeking confirmation that action to date is accommodating the stated needs, wants and preferences of the local communities. <i>Confirm tourism opportunities to be pursued</i> may include: • Holding meetings with stakeholders to explain the options that have been identified, or have evolved as a result of the research and consultation • Explaining relative merits and disadvantages on options, where applicable
--	---

	• Re-presenting research data to explain and/or support anticipated courses of action • Encouraging debate and feedback from all stakeholders • Ensuring information provided to the local communities and key stakeholders is factual, complete and unbiased • Inviting stakeholders to speak on possibilities raised and data presented • Obtaining support from local communities and key stakeholders to pursue nominated courses of action • Receiving, acknowledging and accepting feedback that indicates proposed courses of action are not acceptable to the local communities and key stakeholders • Revising proposals on the basis of negative responses and/or feedback received in order to generate more acceptable courses of action. <i>Assistance from external experts and relevant personnel may include:</i> • Key people from within the local communities • Financial experts • Planning experts • Government officers and agencies • Managers from the host organisation where the head office is a remote office • Environmental experts • Social demographers. <i>Business plans and direction of the host enterprise may relate to:</i> • Availability of funding • Timing of initiatives to fit with other established plans • Staffing numbers and expertise • Availability of physical resources to support the plans, including vehicles
--	--

- Integration of plans with existing products and services being advertised and offered
- Short-term and long-term business objectives.

Identify training needs may include:

- Undertaking a training needs analysis with selected members of the local communities
- Assessing internal staff abilities and expertise to deliver the identified courses of action
- Organising demonstrations and tests to assess competency of local communities
- Checking credentials of members of the local communities.

Training delivery methodologies may include:

- Engaging the services of professional training providers
- Using host organisational staff to deliver on-the-job training
- Evaluation of the potential usefulness of alternative training options, including online delivery, correspondence education, or shared training with identified partners.

Physical infrastructure needs may include:

- Buildings and facilities that need to be erected to support the initiative
- Alterations and/or additions that may need to be made to existing facilities
- Obtaining provisional approval from authorities relating to permits and authorisations to proceed
- Tracks, roads, parking areas and traffic movement controls and facilities, including vehicular and pedestrian traffic
- Assessment of the purchase of suitable on-site vehicles to transport tourists/visitors
- Ensuring the physical infrastructure requirements identified as being necessary for the proposal will supplement the local communities and not negatively impact on the amenity of the destination or the communities enjoyment and/or use of their environment
- Ensuring minimal environmental impact.

	<i>Resources that need to be supplied to the local communities may include:</i> • Cash or other forms of financial recompense or payment • Training • Health care and medical services • Access to and/or the provision of nominated facilities, services or goods • Safety and security requisites • Employment opportunities • Equipment to enable full and appropriate participation by the local communities in the initiative. <i>Strategic and tactical focus may include:</i> • Application of a Strengths, Weakness, Opportunities and Threats (SWOT) analysis to provide the basis for functional/operational plans • Identification of how the host organisation can achieve identified outcomes, while optimising the outcomes for the local communities and protecting the initiative against competition • Generating mission and goals for the project(s), including identification of the relevant values that attach to the initiative • Clarifying priorities for the project • Establishing criteria for measurement of the success of the initiative • Establishing criteria for monitoring the implementation of the initiative • Specific written plans to guide the implementation of the identified facets of the initiative • Describing the relationship between the host organisation, local communities and key stakeholders during the implementation phase • Establishment of an effective communication structure for the project
--	---

- Creation of relevant supporting accounting structures to assist in the allocation and control of identified funds and resources
- Establishment of individual roles, responsibilities and scopes of authority for those who will be involved in the implementation of the project.

Submit plans for consideration should relate to:

- Formal presentation of professionally prepared plans to relevant stakeholders, including local communities and external stakeholders
- Explanation of all plans, including strategies and tactics, projected outcomes, resource allocation and internal structures contained within the plans
- Identification of new issues arising that were identified as part of the formal planning process that may impact on the local communities
- Soliciting and recording feedback from stakeholders
- Defending positions taken by the host organisation and justifying those positions to stakeholders by identifying how those stances result in a mutually beneficial outcome
- Discussion of the implementation phase of the project(s).

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- Knowledge of the enterprise's policies and procedures in regard to interaction with and the provision of support for local communities, including policies in relation to environmental sustainability and respect for local communities
- Knowledge of the host enterprise business and other short and long-term plans
- Knowledge regarding the financial and other resources available to support local tourism opportunities
- Principles of research and the development of plans
- Ability to use communication techniques, including negotiation and consultation techniques

	• Knowledge of the local communities, including identification of key stakeholders and an appreciation of the social, economic and cultural issues facing them • An understanding of the potential positive and negative impacts of change on the local communities • Knowledge of minimal impact operations and sustainability issues • General knowledge of local and international trends in tourism, including visitation patterns and emerging activities and destinations preferred by tourists. Linkages To Other Units • Develop and update local knowledge • Manage and resolve conflict situations • Establish and maintain a business relationship • Develop and implement a business plan • Develop new products and services • Manage and implement small projects • Plan, manage and conduct meetings • Manage legal requirements for business compliance • Develop and update tourism industry knowledge • Demonstrate/observe respect for indigenous cultures • Plan, trial and implement minimal impact operations • Monitor tourism operations • Construct and apply tourism product research • Create, implement and evaluate strategic product initiatives • Develop and monitor culturally appropriate tourism activity
--	---

- Develop host community awareness programs
- Develop, implement and evaluate regional tourism plans.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of host enterprise policies and procedures in regard to interaction with and the provision of support for local communities, including policies in relation to environmental sustainability and respect for local communities
- Demonstrated ability to research and consult with a nominated local community to identify potentially viable tourism opportunities that are available to them, gain their support for one opportunity/initiative and prepare a full and effective set of strategic and tactical plans that will theoretically enable the implementation of the identified opportunity/initiative
- Demonstrated ability to arrange and conduct a meeting with an identified local community to capture their input, advice and concerns in relation to possible tourism opportunities that face them.

Context of Assessment

Assessment must ensure:

- Actual or simulated local community and workplace application of research, consultation and planning skills.

Resource Implications

Training and assessment must include involvement with a real local community and the integration of the development of plans within a stated real or simulated host enterprise operational environment that has existing business plans; and access to workplace standards, procedures, policies, guidelines, tools and equipment.

	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Interviews with people who have participated in the research, consultative and planning process • Physical documents produced as part of the project, including research material, research reports, plans and other documentation produced or obtained as part of the research and planning process • Role plays • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work.		
	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	3	Conduct research on the tourism possibilities available to the local communities
	Communicating ideas and information	1	Explain plans, expected outcomes and possible disadvantages to local communities

	Planning and organising activities	3	Prepare strategic and tactical plans to present to local communities and other stakeholders
	Working with others and in teams	2	Manage others who are undertaking research and/or organising meetings with local communities
	Using mathematical ideas and techniques	3	Evaluate statistical data obtained during the research process
	Solving problems	2	Negotiate solutions to planning and implementation problems
	Using technology	1	Use the internet to research material; use software to assist in project planning

Notes and PowerPoint slides

Slide

ASSESS AND PLAN TOURISM OPPORTUNITIES FOR LOCAL COMMUNITIES

D2.TCS.CL5.02

Slide 1

Slide No	Trainer Notes
1.	Trainer to introduce the unit

Slide

Assess and plan tourism opportunities for local communities

Introduction:

Slide 2

Slide No	Trainer Notes
2.	Session introduction • Trainer to greet the trainees and introduce himself or herself • Explain the unit is looking at the skills and knowledge required to consult with relevant stakeholders to determine and prepare plans that will provide tourism opportunities mutually acceptable to the local communities, authorities and the business operator • Explain to the trainees they are expected to actively participate in the learning process: from giving examples to complete research and participate during class work and activities.

Slide

Assess and plan tourism opportunities for local communities

Assessment for this unit may include:

- Oral questions
- Written questions
- Work projects
- Workplace observation of practical skills
- Practical exercises
- Formal report from employer/supervisor

Slide 3

Slide No	Trainer Notes
3.	Trainer advises trainees that assessment for this Unit may take several forms, all of which are aimed at verifying they have achieved competency for the Unit as required. Trainer indicates to trainees the methods of assessment that will be applied to them for this Unit.

Slide

Assess and plan tourism opportunities for local communities

This unit has 4 elements

Slide 4

Slide No	Trainer Notes
4.	Trainer to list all elements, explain to the trainees some topics, contents will be common to a few elements. The trainer should also explain that the process involves on going communication and feedback solicitation from the local communities and all other identified stakeholders.

Slide

Element 1 Research local tourism opportunities

This element has 5 criteria

Consult with the local community to obtain their involvement and input

Identify possible tourism opportunities for local communities

Identify research needs for the local communities

Conduct research on general tourism trends and data

Conduct research on the local area and communities

Slide 5

Slide No	Trainer Notes
5.	Trainer identifies for trainees the Performance Criteria for this Element, as listed on the slide.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Community consultation is key to obtain involvement and input. It is critical to:

- First identify all parties, stakeholders
- Then organise and publicise the consultation process
- Followed by seeking feedback
- And record input

Slide 6

Slide No	Trainer Notes
6.	Trainer to explain the importance of following those steps in the correct order and explain that the communication process will be key to numerous steps to follow when assessing and planning tourism opportunities for local communities.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Local tourism businesses:
 - Tourism operators:
 - Hotel, accommodation venues
 - Food and beverage venues
 - Attractions

Slide 7

Slide No	Trainer Notes
7.	Trainer to explain the importance of identifying all stakeholders, explain that some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Tour operators and travel agencies
- Support transport services:
 - Taxis
 - Buses companies
 - Car rentals

Slide 8

Slide No	Trainer Notes
8.	Trainer to explain some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

● Local businesses:

- Real estate agents
- Supermarkets, grocers
- Pharmacies
- Banks
- Petrol stations

Slide 9

Slide No	Trainer Notes
9.	Trainer to explain some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders. Class activity Trainer and trainees to brainstorm which stakeholders will have more importance than others and why.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Communities organisations, groups:
 - Elders
 - Traditional communities on ancestral lands
 - Extended families in urban or rural settings
 - Local groups

Slide 10

Slide No	Trainer Notes
10.	Trainer to explain some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders. Class activity Trainer to ask trainees to give examples of local groups such as sports groups, salvation army etc.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Other community influencers:
 - Doctor, chemist, pharmacist
 - Fire, Police
 - Extended families in urban or rural settings
 - Trade unions
 - Others

Slide 11

Slide No	Trainer Notes
11.	Trainer to explain some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders. Class activity Trainer and trainees to identify stakeholders of local communities relevant to their region.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Local authorities:

- Lord mayor
- Local council
- Others

Slide 12

Slide No	Trainer Notes
12.	Trainer to explain some of the stakeholders will have more say in the process than others, some will have their lives changed by any tourism development. Trainer to list stakeholders. Class activity Trainer and trainees to identify local examples of local authorities relevant to their region.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

First identify all parties, stakeholders:

- Official government travel and tourism authorities
- Travel and tourism industry associations
- The media

Slide 13

Slide No	Trainer Notes
13.	Class activity Referring to the 3 points on the slide, trainer to slip the trainees into 3 groups. Each group to be allocated one of the 3 stakeholders and find out local (city, town, regional) information on such as: • Name • Location • Number of members • Precise role and influence within the local communities.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

How to conduct community consultation will be guided by:

- Nature of the stakeholders
- Communication medium they prefer

Slide 14

Slide No	Trainer Notes
14.	Trainer to clearly stress the importance of determining which communication medium will be effective for which type of stakeholders. For example: government authorities are familiar with electronic communication whether some local regional communities will respond better to face to face, more personalised dialogue. Class activity Trainer to organise groups of 3 or 4 trainees, allocate one of the stakeholders to each group and one of local regional communities. Trainees to research which communication medium they think would be preferred, explained why and share findings with the class.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

How to communicate:

- Be clear on the purpose of the meeting
- Be honest
- Communicate in a timely manner
- Advertising and promoting the meeting with enough lead time for all the interested parties to make arrangements to attend

Slide 15

Slide No	Trainer Notes
15.	Trainer to explain the importance of the points on the slide and remind the trainees about the importance of clear and honest communication to ensure the success of the plan. Trainer to contextualise the point to the country, region, city or town and give precise example of what is considered as timely manner and lead time.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

How to communicate

Organise meetings, workshops and seminars:

- In a neutral location
- Easy to access
- At a convenient time for most concerned stakeholders

Slide 16

Slide No	Trainer Notes
16.	After going through the 3 points, trainer to explain their importance: Neutral location: all stakeholders must feel safe to express their opinion (they might not if the meeting takes place at one of the stakeholders headquarters such as the office of the host organisation). Easy to access: if too far to go, some stakeholders might not want to make the effort to go. Convenient time: this means a time when most stakeholders are available.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

In order to 'set the scene', when starting the consultation process, the following topics must be clearly presented, explained and opened for discussion:

- Potential advantages
- Potential disadvantages
- Advice seeking

Slide 17

Slide No	Trainer Notes
17.	Trainer to explain the 3 points are the stepping stones to the beginning of the consultation process.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Potential advantages:

- Economic benefits to local community
- Improved local facilities
- Employment opportunities
- Cultural benefits including cultural preservation
- Visitors education
- Greater understanding between host and visitor cultures

Slide 18

Slide No	Trainer Notes
----------	---------------

18.	Trainer to go through the points and emphasize that they are potential advantages as we are at the very beginning of the process, that some of the points might apply, some might not.
-----	---

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Potential disadvantages:

- Trivialisation of culture
- Effect on social structures and lifestyles
- Environmental damage
- Loss of privacy
- Exposure to the dangers accompanying any influx of tourists
- Reduced ability to use and/or enjoy traditional facilities and locations

Slide 19

Slide No	Trainer Notes
19.	Trainer to stress the potential disadvantages in the same way as the potential advantages.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Actively seek advice in relation to potential tourism related opportunities

The local community knowledge of:

- The area
- The facilities , infrastructure already in place
- The type of visitors they already have, if applicable
- The weather pattern, seasons
- The local events
- General common local attitude towards tourism

Slide 20

Slide No	Trainer Notes
20.	Trainer to clarify the significance of seeking advice from the local communities as they have an inside knowledge and understanding of the present local 'landscape', how things are etc.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Actively seek advice in relation to potential tourism related opportunities

Provides them with a recent and in depth understanding of any potential local tourism opportunities from developing a local festival into a regional one to opening a large coastal resort.

Slide 21

Slide No	Trainer Notes
21.	Trainer to explain that, as this is the first step, it is paramount to provide information about the potential tourism opportunities that is: • Recent • Thorough • Clear • Factual • Easy to understand.

Slide

E1 Research local tourism opportunities

1.1 Consult with the local community to obtain involvement and input

Record all input by all contributors

- All data gathered needs to be recorded straightaway in order to be used for the assessing phase of the project
- The following means can be use:
 - Written and/or recorded formal meetings notes
 - Informal notes from meetings, chats with residents and key local representatives kept in hard or soft copy
 - Comments on host organisation website if applicable

Slide 22

Slide No	Trainer Notes
22.	Trainer to go through the points on the slide, explaining the importance of recording all the information gathered from all contributors in order to move forward. Class activity Trainer and trainees to brainstorm all potential means of data recording available nowadays.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The type and scope of the opportunities will vary depending.

The country, region and location, targeted area:

- The stage of tourism development
- The region, location accessibility
- The size of the local area targeted

Slide 23

Slide No	Trainer Notes
23.	Trainer to introduce this next step and explain the variations possible as listed above. Trainer to contextualise examples according to the country, region the training is taking place.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The opportunities might include:

- Expansion of tourism retailing operations and tour operations:
 - Retail travel agent able to promote and sell from tours to accommodation and events and using a
 - Tour wholesaler website, brochure to book the holiday in turn using an
 - Inbound tour operator to book separate element of the tour itinerary from accommodation to tour who then contacts
 - Local tour operator to book the services directly

Slide 24

Slide No	Trainer Notes
24.	Trainer to explain the next point is about possible tourism opportunities and illustrate the retailing and tour operations chain with: • The information on the slide • The local, regional information at hand: local travel agent, wholesaler site etc.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The opportunities might include:

- Accommodation development:
 - Launching an advertising a national campaign to promote the numerous bed and breakfast of a seaside coastal resort
 - Planning the develop a large coastal resort
 - Developing ecotourism lodge next to a national park
 - Inviting external tour operators

Slide 25

Slide No	Trainer Notes
25.	The next potential opportunity is about accommodation development. Class activity: internet research After going through the points on the slide, trainer to ask the trainees to: • Complete some internet research • Choose, in their opinion, which accommodation development would present a possible tourism opportunities for their local communities and explain why. Findings to be shared and discussed.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The opportunities might include:

- Invite external tour operators with the opportunity to use their:
 - Experience
 - Market knowledge
 - Emerging trends, wants and preferences

Slide 26

Slide No	Trainer Notes
26.	Trainer to explain this step need to be handled with tact and diplomacy with the local communities, so they do not perceive it as an outsider telling them what to do but as an opportunity to consult with an organisation with the latest market needs information.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The opportunities might include:

- Direct community involvement:
 - Providing local staff for external tourism operations ranging from direct operations such as:
 - On going employment of staff working in a destination park, museum, resort
 - Part time, casual employment of staff working on events, festivals
 - Flow on impact staff employed to build roads, hotels, transportation

Slide 27

Slide No	Trainer Notes
27.	Trainer to remind trainees people are the lifeblood of the tourism industry and tourism opportunities might include direct communities involvement such as the points listed on the slide and the next.

Slide

E1 Research local tourism opportunities

1.2 Identify possible tourism opportunities for local communities

The opportunities might include:

- Direct community involvement
- Being actively involved in the training phase training for the tourism industry related to the final plans by:
 - Providing and or supporting the training delivery required for the pre opening and opening of a 5 star resort

Slide 28

Slide No	Trainer Notes
----------	---------------

28.	Class activity After sharing the information and example on the slide with the trainees, trainer to brainstorm with the trainees training opportunities that may apply to their own local communities in regards to tourism opportunities.
-----	---

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

The host organisation needs to identify:

- Present community business focus that may range from:
 - Minimum tourism infrastructure such as camping grounds
 - Single tourism focus activities being an annual festival or a weekly arts and craft Sunday morning market
 - Potential tourism opportunities identified as a result of the first round of consultation

Slide 29

Slide No	Trainer Notes
29.	Trainer to introduce how to identify research needs by starting with the present community tourism business. After going through the points on the slide, trainer to give trainees local examples relevant to their own city, town and or region.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

The process needs to cover:

- Research and identification of products and services gaps
- Research existing local market size and market share
- Research competitors performance
- Research what the actual customers' needs are

Slide 30

Slide No	Trainer Notes
30.	Trainer to cover the 7 points on the 2 slides and explain that the information gathered as a result of the research is crucial to inform the assessment and choice of tourism opportunities relevant to the chosen local communities. Trainer to clearly explain each point.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

The research process needs to cover:

- Research products and service to meet those needs
- Research and evaluate potential for future sustainable developments
- Research new and innovative approaches

Slide 31

Slide No	Trainer Notes
31.	Class activity: Trainer to: • Choose a couple of local communities relevant to the country, region, city where the training is taking place • Divide the class in 7 groups, each group to be allocated one local community and research information to illustrate one of the 7 topics • Findings to be shared with the rest of the class • Benefits of the research findings to be discussed.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Integration of the tourism possibilities within the existing framework, organisational business directions and operational plans.

For the host community, in relation to:

- National, regional, local existing tourism plan, if applicable
- Local government, council operational plan, if applicable

Slide 32

Slide No	Trainer Notes
32.	Trainer to explain the meaning of integration: incorporation of the existing framework. This will enable the host community to take advantage of any existing tourism plan, and/or local government plan.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Integration of the tourism possibilities within the existing framework, organisational business directions and operational plans.

For the host organisation, in relation to:

- Own operation and business plans
- Own other projects and research being conducted at the same time

Slide 33

Slide No	Trainer Notes
33.	Trainer to emphasize the importance of taking into account for the host organisation assessing and planning the tourism opportunities: • Own operation • Own existing business plans • Own existing other projects and research.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Project management considerations: the research aims and methods needs to be clearly determined in order to lead to a positive outcome for all concerned parties.

Slide 34

Slide No	Trainer Notes
----------	---------------

34.

The next step in the research needs identification stage is to work out project management considerations taking into account all concerned parties as illustrated in the next slides.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Determining which sources of research will be used such as:

- Seeking views and opinions from stakeholders
- Which may require:
 - Holding consultation sessions/meetings
 - Actively soliciting feedback
 - Conducting competitions to elicit ideas

Slide 35

Slide No	Trainer Notes
35.	Trainer to explain to trainees that an important consideration into drafting any plan is to get a consensus on which sources of research will be used and there are a range of option available such as: • Consultation and meetings (trainer can also refer to how to hold those meetings as previously covered) • Soliciting feedback: soliciting feedback involves being proactive and putting in place strategies to approach stakeholders in order to gain the feedback • Depending on the average local community age and socio economic status, competition will be a valid research tool.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Determining which sources of research will be used such as:

Generating public discussion – involving:

- Media presence
- Social media interactions
- Appearances of key persons at meetings and public presentations
- Development and circulation of materials (handouts, media releases, social media posts) to provide information for discussion

Slide 36

Slide No	Trainer Notes
36.	In regards to generating public discussion, trainer to go through points listed on the slide and organise the following: Class debate Trainer to divide the class into 4 groups and allocate one point to a group. Group to: • Present the allocated point • Prepare a strong argument why it should be selected as a source of research. Trainer and trainees to discuss the findings and the merits of each of the points, when and how they should be used.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Investigating the history of the local people/community in relation to tourism and its impacts by:

- Conducting desktop research
- Talking to identified key personnel – such as elders and designated community representatives

Slide 37

Slide No	Trainer Notes
37.	Trainer to emphasis the importance of knowing and understanding the local people/community history in relation to all tourism matters such as their tourism development stage. This can be achieved by: • Internet research • Face to face contact, meetings, consultation by talking to selected active community members. Class activity Trainees to come up with examples of local key personnel who, in their opinion, would be familiar with any previous and or ongoing tourism venture, initiative.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

- Setting realistic timelines by ensuring that the required deadline for completing the identified research needs is remains viable and realistic
- Preparing professionally written plans

Slide 38

Slide No	Trainer Notes
38.	Trainer to remind trainees that any plan must follow some specific parameters and that: • Realistic timelines • Professionally written plans are a must to ensure the success of the initiative.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

- Preparing professionally written plans including:
 - Detailed tasks, activities
 - Setting realistic timelines for:
 - Research stage
 - Results interpretation stage
 - Formal draft plans preparation
 - Plans presentation

Slide 39

Slide No	Trainer Notes
39.	Trainer to explain that the points on the slide are part of effective project management and need to be completed in the correct order and that realistic timelines ensure that there is enough time to: • Research and collect the information • Interpret it in regards to the potential tourism opportunities identified • Prepare the draft plans • Present the draft plans to all concerned stakeholders.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Clearly allocate:

- Responsibilities
- Resources required

Making sure that the research is being conducted by experienced and trustworthy staff.

Slide 40

Slide No	Trainer Notes
40.	Following onto to the previous slide, trainer to again emphasis the importance of clarity in the process and making sure all concerned parties know: • Who does what • What resources (financial, human) are available to use • The last point can be considered as instrumental to the success of the plan as it deals with the importance of the people involved in the research and how it is highly recommended they are experienced and trustworthy so the process, its findings are not distorted to suit specific interest/s.

Slide

E1 Research local tourism opportunities

1.3 Identify research needs for the local communities

Most importantly:

- Agree on the aim of the research with local communities and stakeholders as discussed during the initial consultation stage

Slide 41

Slide No	Trainer Notes
41.	To conclude this criteria, trainer to remind trainees that, all parties - the chosen local communities and stakeholders - need to agree on the aim of the research to ensure the success of the initiative.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Research can be conducted via various mediums depending on the type of research and the information being researched. It might include:

- Questionnaires and surveys
- Conducting interviews:
 - With groups and communities: face-to-face or telephone
 - With individuals: face to face or telephone
- Focus groups
- Electronic counters, where applicable
- Desktop research
- Observing people and actions

Slide 42

Slide No	Trainer Notes
42.	Research on general tourism data and trends need to be conducted to better inform all stakeholders and provide a broader 'picture' and various research mediums can be used such as listed on this slide and the next.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

General trends and data

They can be obtained from various sources and cover numerous topics and should include:

- Existing data, also called secondary research data as it already exists from databases, free to use data sources from government and peak industry sources such as, in Australia:
 - Tourism Australia

Slide 43

Slide No	Trainer Notes
43.	Class activity Trainer and trainees to research and identify free to use data sources in the county, region, city where the training is taking place.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

General trends and data:

- Internal and external business reports
- Findings of research which has already been undertaken
- Internet
- Media articles
- Anecdotal evidence provided by people

Slide 44

Slide No	Trainer Notes
----------	---------------

44.	Trainer to go through the points listed and explain that the researchers have all those sources at their disposal and need to be choose which ones will provide them with the most accurate, up to date and useful information. This will depend on the type of opportunity considered: simple increase in the visitors numbers for a national park to developing a new tourism venture.
-----	--

44.	Trainer to go through the points listed and explain that the researchers have all those sources at their disposal and need to be choose which ones will provide them with the most accurate, up to date and useful information. This will depend on the type of opportunity considered: simple increase in the visitors numbers for a national park to developing a new tourism venture.
-----	--

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Primary data

- When the secondary data has been read and analysed there is very often a need to obtain primary research data
- Primary research data is generated to fill gaps in the knowledge which exist after the secondary research data has been read and analysed. It is new, freshly-generated data
- Primary research data may be captured through the:
 - Meetings
 - Seminars
 - Workshops
 - Interviews conducted by the host enterprise

Slide 45

Slide No	Trainer Notes
45.	Trainer to explain that after the collection of secondary data just covered, the next 5 slides cover generic, important information about: • Primary data • Qualitative data • Quantitative data.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Qualitative data

- Qualitative data is also known as 'soft' data
- It captures information about:
 - Feelings and opinions
 - Reasons people do what they do
 - Reasons people do not do certain things

Slide 46

Slide No	Trainer Notes
----------	---------------

46.

Trainer to go through points on slide and explain their importance.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Qualitative data seeks to answer “Why?” questions – such as:

- Why do people want to travel to a certain place?
- Why do people hold the opinion they have about tourism and tourists?
- Why would tourism be good or bad for the local community?
- Why would tourists want to come to the area?

Slide 47

Slide No	Trainer Notes
47.	Trainer to go through points on slide and explain their importance.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Quantitative data is also known as 'hard' data

Quantitative data seeks to answer 'quantifiable' questions – such as:

- How often would people travel/have they travelled to a certain place?
- How many days would they spend in a place/how many days have they spent?
- How much money would they spend/have they spent in the areas they visited?
- How many bed nights would be required/have been sold?
- How many crimes involving tourists have been reported?
- What financial costs would attach to proceeding with a tourism initiative?

Slide 48

Slide No	Trainer Notes
48.	Trainer to go through points on slide and explain their importance.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

It captures information about:

- Facts
- Statistics and figures
- Percentages and ratios such as:
 - Tourists, visitors arrival patterns: week ends, week days, holidays?
 - Tourists, visitors spending patterns: how much on average, where?
 - Tourist, visitors stay and visitation patterns: where do they prefer to go, how often?

Slide 49

Slide No	Trainer Notes
49.	Trainer to go through points on slide and explain their importance.

Slide

E1 Research local tourism opportunities

1.4 Conduct research on general tourism data and trends

Desk top research:

- The increasing emergence and importance of:
 - Websites

Slide 50

Slide No	Trainer Notes
50.	Class discussion Trainer to provide trainees with various relevant tourism websites to country where the training is being delivered. Trainees to indicate which type of data the websites cover: primary, secondary, qualitative, quantitative.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

The research on the local area and communities can be divided between:

- Data gathering
- Data clarification
- Data recording

Slide 51

Slide No	Trainer Notes
51.	The final step in researching local tourism opportunities covers specific research on the local area and local communities. Trainer to point out the 3 steps to follow in the correct order to ensure the best outcome possible for all concerned stakeholders.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Using and analysing further the data gathered so far when conducting research on general tourism and during the initial consultation leads to generating additional input and local information such as:

- Local visitors numbers
- Local visitors arrival numbers
- Local visitors spending patterns

Slide 52

Slide No	Trainer Notes
52.	Trainer to expand on the importance of precise local data such as: • Visitors numbers • Arrival numbers • Spending patterns. To help determining the scope of any tourism opportunity.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Using and analysing further the data gathered so far when conducting research on general tourism and during the initial consultation can also lead to offering alternatives and making suggestions.

Slide 53

Slide No	Trainer Notes
53.	Trainer to either use the example from the workbook or his/her own to illustrate this point.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Building from the first step covered : consultation with the local community , the research also needs to identify:

- Local communities preferences such as:
 - Preferred type of tourism:
 - Do they favor building on existing visitors type if they have a base of week end visitors coming for the Sunday morning local arts and craft market: Why? Why not?
 - Do they want to become of 'specific destination' : ecotourism, adventure, arts and craft, local culture: Why? Why not?

Slide 54

Slide No	Trainer Notes
54.	The next point illustrates how to establish: • Which type of tourism the local community would prefer? • Why? Class activity Trainer to ask trainees to consider the town, village where they come from and consider, in their opinion, which type of tourism opportunity would be preferred and why. Trainees to share findings with rest of the class.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Identifying and cataloguing existing local resources is another research component.

This information will be used to get a clear picture of the local area and communities potential needs.

Resources can be:

- Industry based
- Community based

Slide 55

Slide No	Trainer Notes
55.	Trainer to explain that this step is about auditing resources.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Industry based resources can be:

- Local government data bases
- Local tourism associations, other industry bodies data bases and knowledge
- Grants potential
- Sponsorship potential
- Human resources expertise

Slide 56

Slide No	Trainer Notes
56.	Trainer to clarify that this industry based audit covers all type of resources: from data bases to available financing.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data gathering and clarification

Community based resources can be:

- Local individual tourism operators readiness to contribute to the proposed plans
- Local skills profile
- Local infrastructure: extent and condition
- Current destination and community market position

Slide 57

Slide No	Trainer Notes
57.	Trainer to clarify that this community based audit covers all type of resources: from data bases to available financing to infrastructure and destination present market positioning and reputation.

Slide

E1 Research local tourism opportunities

1.5 Conduct research on the local area and communities

Data recording

The final step of this stage is to record the data so it can be interpreted.

Data can be recorded in:

- Hard format
- Soft format

Slide 58

Slide No	Trainer Notes
58.	Trainer to discuss the benefits of each of the 2 choices with the trainees and clarify that both method can be used depending on the how, where the research is being conducted, the availability of technology available where the research is taking place. Trainer to explain that, in most cases, both methods will be used.

Slide

Element 2 Interpret research results

This element has 5 criteria

Analyse the information collected from all sources

Identify impact of the research

Communicate research results to stakeholder

Use research results and feedback to guide future actions

Confirm tourism opportunities to be pursued with the local communities and other relevant stakeholders

Slide 59

Slide No	Trainer Notes
59.	Trainer to introduce the next element and list the criteria part of the element.

Slide

E2 Interpret research results

2.1 Analyse the information collected from all sources

Analysing, working with research data is also referred to as 'manipulating data'.

Activities commonly involved when manipulating data will address:

- Classifying of all collected data whether it is statistical or other and may be assembled around criteria such as:
 - Generating trends, percentage, ratios, monetary terms
 - Data sources
 - Dates

Slide 60

Slide No	Trainer Notes
----------	---------------

60.

Trainer to clarify the slide and explain the importance of 'manipulating data' and what it involves.

Slide

E2 Interpret research results

2.1 Analyse the information collected from all sources

Data verification which can include:

- Making sure the raw data supplied is sufficient according to the pre-determined parameters/requirements of the research
- Evaluating input from stakeholders taking into consideration potential bias that may exist
- Ensuring the data is correctly entered into the appropriate classification
- Clarifying unclear information with those who captured/generated the data – to make sure the facts recorded genuinely reflect the input made by the respondents, and to ignore material and data that is not verifiable
- Following up as required – to collect additional information where insufficient data has been generated, or validating contributions that appear suspect

Slide 61

Slide No	Trainer Notes
61.	Trainer to cover all listed aspects of data verification.

Slide

E2 Interpret research results

2.1 Analyse the information collected from all sources

Data analysis and interpretation to make sense of the information collected and can include

Performing a range of arithmetic, mathematical and statistical calculations and functions with the data can include:

- Creating totals
- Generating ratios and percentages
- Developing tables and other statistical or diagrammatic representations of the information
- Classifying the results of the research
- Quantifying the data
- Identifying trends
- Comparing outcomes/findings

Slide 62

Slide No	Trainer Notes
62.	Trainer to go through list and explain that some points also apply to 'manipulating data' such as identifying trends, percentages, ratios.

Slide

E2 Interpret research results

2.1 Analyse the information collected from all sources

Production of a report on the research including findings and recommendations

These findings and recommendations need to:

- Address the questions posed by the research – they need to shed light on the reasons the research was undertaken in the first place: a viable finding may be that more research needs to be done
- Identify and/or provide evidence to support the SWOT (Strengths, Weaknesses, Opportunities and Threats) analysis components for the topic/s of the research – so a more ‘informed’ platform for action is established. The analysis itself that will be covered in another section

Slide 63

Slide No	Trainer Notes
63.	Trainer explain that the report production is the research ‘final product’ and needs to: • Address the questions posed by the research • Include a SWOT analysis. Include summaries of the research and recommendations for all ease of understanding for all stakeholders.

Slide

E2 Interpret research results

2.1 Analyse the information collected from all sources

Production of a report on the research including findings and recommendations

These findings and recommendations need to:

- Produce a set of conclusions which can be presented to stakeholders – for discussion
- Be written and formulated in such a way they allow or enable informed decisions to be made and suitable action to be taken – to move the initiative forward

Slide 64

Slide No	Trainer Notes
64.	In addition the report needs to also needs to include: • Sets of conclusions for discussion • Be written in a way that is easy to understand for all stakeholders in order to move forward. Class activity: general discussion Trainer to lead a general discussion by asking questions such as: • How do classify statistical data? • How do you verify research data? • How do you quantify research data? • Why do you manipulate data? • What should be included in a report on research findings?

Slide

E2 Interpret research results

2.2 Identify impacts of the research

Economic and social impacts:

- Positive such as:
 - Employment creation
 - Local facilities growth and/or maintenance
- Negative such as:
 - Impact on social structure
 - Increased living costs
 - Tourism dependency as main revenue generator

Slide 65

Slide No	Trainer Notes
65.	The next step in the interpretation stage is to clearly identify the potential impacts of the research at various levels such as: • Economic and social impacts.

Slide

E2 Interpret research results

2.2 Identify impacts of the research

Environmental impacts:

- ⦿ Positive such as:
 - Sustainable practices implementation
 - Preservation of endangered and or threatened site, animal species
- ⦿ Negative such as:
 - Threat to local environment due to stress on infrastructure
 - Increase in traffic, pollution, noise

Slide 66

Slide No	Trainer Notes
66.	Trainer to explain to the trainees that those environmental impacts are becoming more important than before.

Slide

E2 Interpret research results

2.2 Identify impacts of the research

Cultural impacts:

- Positive such as:
 - Overall cultural empowerment
 - Opportunity to share culture
 - Opportunity to preserve culture
- Negative such as:
 - Dilution of culture
 - Culture 'misrepresentation'

Slide 67

Slide No	Trainer Notes
67.	Trainer to explain that topic is very sensitive with the local communities and must be carefully examined and discussed. Class activity Trainer to divide the class in 3 groups, each group is to identify a tourism project/development in any ASEAN country and: • Research one positive and one negative potential • Economic and social impact • Environmental impact • Cultural impact.

Slide

E2 Interpret research results

2.3 Communicate research results to stakeholders

Material presentation should be:

- Put together by a team or committee rather than just one person
- Targeted to all stakeholders which have been identified at the beginning of the research and will include:
 - Local communities
 - Wider communities
 - Tourism bodies and organisations
 - Government authorities: National and Local
 - Potential funding sources
 - Media

Slide 68

Slide No

Trainer Notes

68.

Trainer to remind the trainees about the importance of clear communication and cover the points listed on the slide.

Slide

E2 Interpret research results

2.3 Communicate research results to stakeholders

Presented in:

- Hard copies for:
 - Specific meetings
 - Mail outs
- Electronic format posted on designated websites such as the host organization website

Slide 69

Slide No	Trainer Notes
69.	Trainer to point out to the trainees the topic of hard and soft data has been previously covered but explain the use of the 2 still applies to various situations to reach different stakeholders. Class activity Trainer to use industry contacts and obtain examples of hard and soft copy of initial research data and report related to the research interpretation stage when assessing and planning tourism opportunities for local communities.

Slide

E2 Interpret research results

2.3 Communicate research results to stakeholders

The research findings need to be:

- Prepared and written in a clear and easy language, relevant to the all stakeholders
- Explain the research and its findings
- Provide details, facts, figure, timelines
- Include photographs and interviews with relevant key people

Slide 70

Slide No

Trainer Notes

70.

Trainer go over again the importance of how to present the research findings:

- In a clear, easy to understand language
- With facts, figures, details, pictures to illustrate specific points.

Slide

E2 Interpret research results

2.3 Communicate research results to stakeholders

Feedback:

- Formal feedback:
 - Written feedback
 - Written survey
 - Dedicated website page
 - Formal interviews of key stakeholders
- Informal feedback:
 - Social media comments
 - Comments gathered while having informal chats with stakeholders

Slide 71

Slide No	Trainer Notes
71.	Seeking and recording feedback will service as a base to consolidate the plan and ensure the final version is endorsed by all concerned stakeholders. Trainer to explain to the trainees the difference between formal and informal feedback. Class activity Trainer to ask trainees to think back at or various times they have been asked for feedback and determine which type of feedback it was. Findings to be shared with the class.

Slide

E2 Interpret research results

2.4 Use research results and feedback to guide future actions

Research results and feedback integration

The information collected will now serve as a base for:

- Initial draft plan development or
- Existing draft plans modification, if applicable such as an expansion of a variation of previous tourism development plans
- It needs to be integrated into the formal draft plans under the relevant section

Slide 72

Slide No	Trainer Notes
72.	Trainer to go through the various ways the research results and feedback can be incorporated to guide future actions. Trainer to stress that the information needs to be integrated in the appropriate plan: • Initial or existing depending upon the circumstances • Under the relevant section for ease of understanding.

Slide

E2 Interpret research results

2.4 Use research results and feedback to guide future actions

The draft tourism plan will include:

- An executive summary
- Data presenting the present regional, local tourism background including
- Overall regional framework in regards to existing official tourism plans, existing tourism activities and available infrastructure
- Relevant existing organisational plans and strategies
- Existing level of community resources
- Financial: representing existing funding and tourism revenues
- Human : the people who are living in the area and could be involved in delivering the programs, plans
- Physical: overall infrastructure and specifically related tourism infrastructure
- Cultural resources such as specific local customs, festivals

Slide 73

Slide No	Trainer Notes
73.	Trainer to explain to the trainees that all points listed need to be included in a draft tourism plan. Trainer to go through the points and, when possible, give contextualised examples relevant to the country, region, town where the training is taking place.

Slide

E2 Interpret research results

2.4 Use research results and feedback to guide future actions

The draft plan need to take into consideration the:

- Level and frequency of community consultation obtained so far
- How many of the identified stakeholders have provided feedback: which community groups, key representatives, which industry associations and/or official agencies
- How was the mainly feedback obtained: face to face meeting, on line comments
- Nature of the feedback
- Mainly positive, negative
- Which preferences emerged
- An in depth analysis of the impact of the plans on the community in general covering all potential aspects previously mentioned
- Recommendations in order to move to the draft plans

Slide 74

Slide No	Trainer Notes
----------	---------------

74.

...continued

Trainer to go through the points and, when possible, give contextualised examples relevant to the country, region, town where the training is taking place.

Slide

E2 Interpret research results

2.4 Use research results and feedback to guide future actions

Further community consultation:

- Upon the completion of the draft plans, another round of consultation is to take place to
 - Inform, notify how their input is reflected in the draft/emerging plans
- When presenting the draft plans, make sure that the actions taken so far such as:
 - Data research
 - Consultation
 - Data integration are all aligned to the local community identified needs and values

Slide 75

Slide No	Trainer Notes
75.	Trainer to remind trainees that draft plan are about on going consultation and research findings integration. A draft plan is a working, living, changing document.

Slide

E2 Interpret research results

2.4 Use research results and feedback to guide future actions

Further community consultation:

- Identified needs : more visitors or development of infrastructure to accommodate the existing number of visitors
- Generally expressed and recorded local communities such as:
 - The importance of developing the cultural awareness of the region
 - Ensuring any plan, development is sustainability friendly

Slide 76

Slide No	Trainer Notes
76.	Trainer to remind trainees that further consultation is about taking notes of all stakeholders suggestions, comments, respecting their values. Class activity: Internet research Trainer to arrange, supervise and facilitate discussion on research on the following website in regards to what a tourism plan includes: http://www.scribd.com/doc/111871570/ASEAN-Tourism-Strategic-Plan-2011-2015

Slide

E2 Interpret research results

2.5 Confirm tourism opportunities to be pursued with the local communities and relevant stakeholders

The process needs to include all identified stakeholders from local communities, to authorities and tour operators.

It is recommended to use very similar strategies from the initial consultation step covered in element 1. This will provide the stakeholders a feeling of familiarity and confidence in the consultation process and can include:

- Public meetings and reporting presentation
- Postings on the designated website and social media
- Media releases and interviews if applicable at this stage

Slide 77

Slide No	Trainer Notes
77.	Trainer to revisit the strategies covered in element 1 in regards to communication and explain the reasons why it is recommended to use them again.

Slide

E2 Interpret research results

2.5 Confirm tourism opportunities to be pursued with the local communities and relevant stakeholders

It is important to explain that the options identified in light of research and consultation:

- Represent research data factored in new and emerging information and input – which would simply not have been available at the start of the program
- Mention both positive and potential adverse impacts
- Maintain credibility with the local community

Slide 78

Slide No	Trainer Notes
78.	This last step of interpreting research results reinforces the importance of on going dialogue and clear communication. Trainer to share with the trainees the points listed on the slide.

Slide

E2 Interpret research results

2.5 Confirm tourism opportunities to be pursued with the local communities and relevant stakeholders

- Keep promises made – every host community awareness program will contain a public statement saying action will be taken as/where necessary to revise and adjust programs on the basis of feedback/research data and
- Prove ongoing engagement with the local community and the program in order to obtain support from local communities and stakeholders
- Promotes and encourage a frank and open dialogue for all identified stakeholders to speak and comment on the data researched, interpreted, the opportunities and the possibilities presented

Slide 79

Slide No	Trainer Notes
79.	Trainer to comment on the listed points and their importance in the success of the plan.

Slide

E2 Interpret research results

2.5 Confirm tourism opportunities to be pursued with the local communities and relevant stakeholders

Organise information distribution channels to reach all stakeholders:

- Enough face to face meetings, seminars and workshops
- Enough lead time prior to meetings, seminars, workshops for stakeholders to get organized to attend
- Publicise how, when the information : hard or/and soft copy will be disseminated
- Provide enough time for all stakeholders to provide comments
- Be very clear as to how the local communities input is reflected

Slide 80

Slide No	Trainer Notes
80.	Trainer to remind students on the ongoing nature of this research stage as most of the listed points have already taken place at some point of the consultation process.

Slide

E2 Interpret research results

2.5 Confirm tourism opportunities to be pursued with the local communities and relevant stakeholders

In light of feedback obtained, the following actions and strategies might become part of the formal draft plans:

- Receive, acknowledge and accept feedback indicating the proposed course of action are not acceptable by local communities and key stakeholders
- Obtain support from local communities and key stakeholders to pursue nominated course of action
- Revise proposals based on negative comments to generate more acceptable courses of action

Slide 81

Slide No	Trainer Notes
81.	Trainer to explain how to integrate the latest information research collected.

Slide

Element 3 – Prepare formal draft plans

This element has 10 criteria

Seek assistance from external experts and relevant personnel

Ensure draft plans reflect community interests and concerns

Ensure draft plans reflect the business plans and direction of the host enterprise

Identify training needs and training delivery methodologies

Identify physical infrastructure needs for the local communities and the host enterprise

continued

Slide 82

Slide No	Trainer Notes
82.	Trainer to introduce the 10 specific criteria details of the preparation stage of the formal draft plans.

Slide

Element 3 – Prepare formal draft plans

This element has 10 criteria

Identify resources that need to be supplied to the local communities to facilitate the implementation plans

Incorporate the environmental, social, culture and economic interests of the local communities into the plans

Ensure plans are culturally and environmentally sensitive

Maintain on going communication and consultation throughout the planning process

Develop a clear strategic and tactical focus for plans that are made

Slide 83

Slide No	Trainer Notes
83.	Trainer to introduce the 10 specific criteria details of the preparation stage of the formal draft plans.

Slide

E3 Prepare formal draft plans

3.1 Seek assistance from external experts and relevant personnel

Professional assistance can be obtained by consulting:

- Planning experts
- Environmental experts
- Social demographers
- Financial experts

Slide 84

Slide No	Trainer Notes
84.	Trainer to share with the trainees the importance and benefits of using the services of professional experts when preparing formal draft plans. Class activity Using their manual, trainees to prepare 1 example for each category listed on the slide and share with the class.

Slide

E3 Prepare formal draft plans

3.1 Seek assistance from external experts and relevant personnel

Professional assistance can be obtained by consulting:

- Government officers and agencies
- Key people from local communities

Slide 85

Slide No	Trainer Notes
85.	Trainer to give government agencies and key people from local communities examples relevant to the country, region or and city.

Slide

E3 Prepare formal draft plans

3.2 Ensure draft reflect community interests and concerns

The draft plans need to include:

- ⦿ All initiatives and proposals initially discussed with all previously identified stakeholders
- ⦿ All recorded consensus or opposition to potential tourism opportunities:
 - Which ones
 - Reasons for choice
- ⦿ Are culturally appropriate, respecting the identified communities values
- ⦿ Are environmentally appropriate , respecting the existing 'pristine' conditions as these are now highly sought after
- ⦿ Prevent, as much as possible, 'tourism leakage' by making sure local resources, products are used

Slide 86

Slide No	Trainer Notes
86.	As stated from the beginning, community interests and concerns need to be included in the formal draft plans and might cover all the points listed on the slide.

Slide

E3 Prepare formal draft plans

3.2 Ensure draft reflect community interests and concerns

- Include policies and procedures to guide and regulate the proposed plans such as:
 - Ongoing consultation process
 - Transparency of process by making sure a group of people representing the majority of stakeholders and community such as a committee is in charge of the plan, not a single individual
 - Compliance with recognised national or regional accreditation the draft plans need to include

Slide 87

Slide No	Trainer Notes
87.	Trainer to explain the importance of including in the formal draft plans policies and procedures to be use as guidelines.

Slide

E3 Prepare formal draft plans

3.2 Ensure draft reflect community interests and concerns

- Includes proposed realistic timelines, deadlines, schedules
- Includes potential contingencies plans

Slide 88

Slide No	Trainer Notes
88.	Trainer to clarify the importance of realistic deadlines, schedules and of including contingency plans.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

Financial matters and considerations:

- Overall cost of producing the draft plans versus availability of funding. The host enterprise needs to know that the project will eventually be beneficial in terms of finance. However some organisations might undertake a project with no positive financial rewards but with the potential of more similar, or bigger financially rewarding projects

Slide 89

Slide No	Trainer Notes
89.	Trainer to remind trainees of the importance of financial matters, considerations in any plan, project.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

Human resources:

- The size of the organisation has a direct impact on the staffing level. The larger the organisation, the more staff they have. However the staff availability and expertise needs to be checked and confirmed before undertaking any such project involving research, consultation and production of professional plans even if there are in a draft format

Slide 90

Slide No	Trainer Notes
90.	Trainer to go through the human resources considerations for the host enterprise and the importance, again, of using the right staff for the right project, preferably with previous experience.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

Physical resources including:

- Office space
- Hardware, software such as a dedicated website for the project on the host organization website, computers, laptops, I pads, mobile phones
- Vehicles to travel to the local destination, if applicable, to go to conduct interviews, meet various business operators, stakeholders

Slide 91

Slide No	Trainer Notes
91.	Another point to take into account covers the physical resources involved with the proposed plans.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

Timing:

- How does the initiative fit with other established plans, projects the host enterprise is already involved with
- Is it feasible to complete the research and subsequent draft plans, consultation phases with other already established plans and deadlines the host enterprise has committed for?

Slide 92

Slide No	Trainer Notes
92.	Timing is another important consideration for the host enterprise. Preparing a formal draft plan is a significant commitment for any organisations on several levels, the time commitment being one of the crucial ones to consider.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

- Potential integration of plans with existing products and services being advertised and offered
- Is the host enterprise already conducting research in the same region for another local community?
- Is the host enterprise already involved in local development plans in the same region?

Slide 93

Slide No	Trainer Notes
93.	Trainer to explain that all the 3 questions listed on the slide must be asked answered. The first one would result in a more efficient and quicker course of action. The second and third questions one might result in either an amalgamation of the 2 researches or a conflict of interest depending on the circumstances.

Slide

E3 Prepare formal draft plans

3.3 Ensure draft reflect business plan and direction of host enterprise

Matters to consider

Most tourism plans span over 5 to 10 years. The host enterprise needs to determine if this time span fits with its own business plan and overall business direction before investing any more time, effort and resources into the project.

Slide 94

Slide No	Trainer Notes
94.	Trainer to explain to the trainees that this consideration needs to be considered at a managerial level.

Slide

E3 Prepare formal draft plans

3.4 Identify training needs and training delivery methodologies

Training needs analysis (TNA):

- A TNA will support the establishment of training methodologies and training plans by establishing who needs training and in which specific areas: from guest customer service to specific food and beverage skills. It can be completed by:
 - Conduct training needs analysis first with selected members of the local communities to get a 'snap shot' of the potential training gaps versus the potential tourism opportunities, development

Slide 95

Slide No	Trainer Notes
95.	Trainer to introduce the trainees to the TNA concept if they are not familiar with it and explain how it will be conducted and the data used.

Slide

E3 Prepare formal draft plans

3.4 Identify training needs and training delivery methodologies

Training needs analysis (TNA):

- Organise demonstrations and tests to assess competency: it is important that those demonstrations and tests are delivered in a non threatening manner, you do not want the local communities members to feel they are being examined, ranked , when this stage is part of the local consultation to determine and prepare plans
- Another step is to check the qualifications and competence of local communities members to match them best with identified training and skills needs
- The host enterprise credentials, abilities and experience also need to be assessed to determine if some of them have expertise required to deliver the identified training needs

Slide 96

Slide No	Trainer Notes
96.	Trainer to introduce the trainees to the TNA concept if they are not familiar with it and explain how it will be conducted and the data used.

Slide

E3 Prepare formal draft plans

3.4 Identify training needs and training delivery methodologies

Training delivery methodologies

Private providers:

- Professional vocational training organisations can prepare workers to undertake tasks and responsibilities as required by the chosen tourism sector

Host organisation training staff:

- Host organisation staff with experience in similar projects can prepare the local community members by delivering on the job training

Slide 97

Slide No	Trainer Notes
97.	Trainer to go over the various training delivery methodologies available and how to choose the most appropriate one.

Slide

E3 Prepare formal draft plans

3.4 Identify training needs and training delivery methodologies

Evaluate other training options such as:

- Alternative training options might be considered due to:
 - Region and/or local communities difficulty to access if in a remote location
 - Maximise the training efficiency and delivery and use
 - On line training, technology permitting
 - Off campus, by organising workbooks for the theory component of the training workbooks
 - A combination of face to face and on line

Slide 98

Slide No	Trainer Notes
----------	---------------

98.

...continued

Taking into account the nature of the training, its location, its length.

Slide

E3 Prepare formal draft plans

3.5 Identify physical infrastructure needs for the local communities and host enterprise

The inventory needs to cover

Building and facilities:

- New buildings and facilities required such as:
 - Potential new coastal resort development including resort itself, supporting infrastructure such as road and sea access

Existing facilities alterations or additions such as:

- Renovation or extension of existing buildings, workshops to offer to local craft men the opportunity to work from a central location easily accessible for visitors, supporting infrastructure such as road access, parking areas, restaurants, toilets
- Identification all relevant buildings or extension permits and authorisations that will be required to proceed and establish the length of time those permits and/or authorisations will take to obtain

Slide 99

Slide No	Trainer Notes
99.	Building from the audit conducted during the research stage, buildings and facilities essential to the formal draft plan development must be conducted and include: • Existing facilities • Potential alterations and or additions of those facilities • New facilities required for the plan implementation.

Slide

E3 Prepare formal draft plans

3.5 Identify physical infrastructure needs for the local communities and host enterprise

Transport will cover

Transport to and within the area to promote and discuss initiatives during the consultation process.

Transport for the implementation phase such as:

- Air traffic, if applicable:
 - Is the size of the closest airport able to service an increase in traffic?

Slide 100

Slide No

Trainer Notes

100.

Trainer to illustrate the point on the slide with an example from the country where the training is being delivered.

Slide

E3 Prepare formal draft plans

3.5 Identify physical infrastructure needs for the local communities and host enterprise

Transport will cover:

- Vehicles access:
 - Are there enough existing regional , local roads or tracks to accommodate an increase in traffic, which conditions are they in, will some maintenance work need to be conducted in, will new roads, tracks have to be opened?
 - Are there enough parking areas for cars, buses, bicycles if applicable

Slide 101

Slide No	Trainer Notes
101.	Class activity After going through the slide, trainer and trainees to match vehicle access with required infrastructure. For example: • Car, buses need roads • Boats need harbor etc.

Slide

E3 Prepare formal draft plans

3.5 Identify physical infrastructure needs for the local communities and host enterprise

Transport will cover transport to and within the area to promote may cover:

- Planes
- Boat, ferry, cruise ships
- Road: coaches, minibuses, taxi services, cars, bicycles

Slide 102

Slide No	Trainer Notes
102.	Class activity After going through the various means of transport, trainer to discuss with trainees the infrastructure required for the various means of transport.

Slide

E3 Prepare formal draft plans

3.5 Identify physical infrastructure needs for the local communities and host enterprise

Physical infrastructure potential impact

At this stage of the draft plans development, it is essential to carefully consider:

- Potential infrastructure development or expansion impact by ensuring that the positives will outweigh the negative
- The local community, local providers need to directly benefit, not a single outside operator
- The environmental impact will be kept to a minimum, leaving the smallest environmental footprint. It is important to note that due to the ever increasing importance of sustainability, being environmentally aware will help with a more positive response to any proposed draft tourism plans

Slide 103

Slide No	Trainer Notes
103.	Trainer to remind the trainees that any plan must carefully consider the potential impacts of tourism development and ensure it benefits the local communities in a positive manner.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Financial resources

As previously mentioned, any potential tourism initiative needs to have the local communities support to succeed. Making a financial contribution to one or more nominated local initiatives as identified by the community will benefit the draft plans approval.

The funding may be available:

- In 'cash' or 'in kind':
 - Cash as in funding money
 - Kind as in provision of staff, physical resources

Slide 104

Slide No	Trainer Notes
104.	To ensure the success of any tourism development initiative, a plan must carefully examine the resources the local communities will require to facilitate the plan implementation. The financial resources need to be considered and can come in various way as listed on the slide.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Financial resources

The funding can come from:

- The individual businesses, groups or organisations proposing the program, project
- Government departments (national, state authorities and bodies) in terms of:
 - Grants, subsidies
 - Assistance and allowance
- Relevant industry associations and/or bodies
- A specific stakeholder, operator with a vested interest and wanting to create a more positive relationship and rapport with the local communities

Slide 105

Slide No	Trainer Notes
105.	Trainer to explain the various ways funding can come from.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Human resources are the people who will be involved in delivering programs, sessions.

It is important to use the 'right people'.

They will provide the local communities with:

- Relevant training, in turn providing
- Employment opportunities

Slide 106

Slide No	Trainer Notes
----------	---------------

106.

Class activity

After going through the information on the slide, trainer to organise the trainees in small groups and ask what they understand by using the 'right people'. Trainer to remind the trainees to use information already covered and available in the manual.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Human and public services

Health care and medical services might be part of formal draft plans if the forecasted tourists, visitors increase level warrants an increase in:

- Numbers of health care practitioners such as doctors, nurses, pharmacists, dentists
- Health care and medical services locations
- Local hospital expansion
- New medical center to be opened

Slide 107

Slide No	Trainer Notes
107.	Trainer to explain that any service expansion need to be carefully considered and remind the trainees about the important of the research conducted and the figures, ratios and numbers forecasted.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Human and public services

Public safety and security is another issue requiring careful consideration. An unfortunate, well known consequence of tourism development is a potential local increase in theft and crime . In light of this knowledge, any draft tourism plan now needs to include a strategy to guarantee the safety and security of the local communities and visitors alike. This can be achieved by:

- Increased number of local police
- Use of outside security contractors at specific times such as:
 - During construction and operational phase of a new coastal resort
 - During identified 'peak season' such as a festival, school holidays

Slide 108

Slide No	Trainer Notes
108.	Trainer to stress that this point needs to be handle in a sensitive manner in light of documented events.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Provision of equipment, facilities, goods, services

Equipment: the equipment the local communities essential to facilitate the tourism plans implementation needs to be identified and a couple of examples are:

- Additional transport such as buses, trains, boats, taxis
- Range of technological equipment required such as mobile phones, beepers, GPS, email, internet capacity and capability

Slide 109

Slide No	Trainer Notes
109.	Trainer to give some examples of potential equipment that might be required.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Provision of equipment, facilities, goods, services

- Facilities, goods and services:
 - Access of all essential facilities, goods and services are also relevant to the tourism plans implementation in order to meet the tourists, visitors needs and expectations and will vary according to the opportunities and tourism development chosen. The facilities, good and services expected by day visitors attending a local cultural festival are vastly different from the facilities, goods and services expected by adventure tourism visitors

Slide 110

Slide No	Trainer Notes
110.	Trainer to explain that different opportunities identified will require different facilities, goods and services.

Slide

E3 Prepare formal draft plans

3.6 Identify resources that need to be supplied to the local communities to facilitate implementation of plans

Provision of equipment, facilities, goods, services

- Facilities, goods and services:
 - **Common facilities**, goods and services might be:
 - Infrastructure from roads to toilets
 - Transport
 - Local health care, medical and security services
 - **Specific facilities**, goods and services might be:
 - Camping infrastructure in regards to national parks

Slide 111

Slide No	Trainer Notes
111.	Trainer to explain to the trainees that the large majority of equipment, facilities, goods and services will go under the: common facilities and benefit most tourism developments, plans.

Slide

E3 Prepare formal draft plans
3.7 Incorporate the environmental, social, cultural and economic interests of the local communities into the plans
3.8 Ensure the plans are culturally and environmentally sensitive

Environmental factors and sensitivity

As the environment changes and concern about these changes grows, there is an increasing need to be aware of the impact that businesses have on the environment.

The plans should address how to ensure:

- Minimum environmental impact of tourism related development by using environmentally sensitive and sustainable operation

Slide 112

Slide No	Trainer Notes
112.	Trainer to explain to the trainees that awareness and importance of environmental, social and cultural interests are now considered as central to the success of any tourism as the economic interests of the local communities and to remind the trainees that those topics have been part of the dialogue, discussion since the start of the process. Trainer to go through the points on the next few slides.

Slide

E3 Prepare formal draft plans
3.7 Incorporate the environmental, social, cultural and economic interests of the local communities into the plans
3.8 Ensure the plans are culturally and environmentally sensitive

Environmental factors and sensitivity

As the environment changes and concern about these changes grows, there is an increasing need to be aware of the impact that businesses have on the environment.

The plans should address how to ensure:

Resources are put into the protection of the environment and action is taken in relation to:

- Sustainability
- Conservation
- Animals and plants are protected, particularly endangered ones
- Regeneration, if applicable
- Waste management

Slide 113

Slide No	Trainer Notes
113.	<i>...continued</i> Class activity Trainer to ask trainees complete some research within their country, region, town on environmental issues: • Find if any animals, plants are protected • Discuss the potential impact of their findings in regards to tourism opportunities.

Slide

E3 Prepare formal draft plans
3.7 Incorporate the environmental, social, cultural and economic interests of the local communities into the plans
3.8 Ensure the plans are culturally and environmentally sensitive

Social and economical factors

The plans should address how to ensure, as previously mentioned:

- Economic diversification and general economic benefits to the local community
- Involve local businesses in the overall economic, entrepreneurial and promotional aspects of the potential opportunities initiative/s so they can benefit from what occurs

Slide 114

Slide No	Trainer Notes
----------	---------------

114.	Trainer to recap on social and economical factors.
------	--

Slide

E3 Prepare formal draft plans
3.7 Incorporate the environmental, social, cultural and economic interests of the local communities into the plans
3.8 Ensure the plans are culturally and environmentally sensitive

Cultural factors and sensitivity

The plans should include strategies to ensure, as previously mentioned:

- Heritage is acknowledged and cultural empowerment takes place locals become ambassadors for tourism in their region
- Thus avoiding cultural trivialisation and deterioration is avoided
- Historic sites and buildings are protected and conserved by strict rules and regulations in regards to , for example, maximum numbers of visitors allowed per day in a specific historic site

Slide 115

Slide No	Trainer Notes
115.	Trainer to recap on social and economical factors and, if possible, provide the trainees with local examples of heritage listed buildings, sites.

Slide

E3 Prepare formal draft plans

3.9 Maintain on going consultation throughout the planning process

Regular updates are critical to maintain on going consultation.

They need to include:

- The plan rationale
- Facts and figures
- Previous feedback
- Names of relevant stakeholders, their connection, relationship to the project

Slide 116

Slide No	Trainer Notes
116.	Trainer to recap the points covered under 3.9.

Slide

E3 Prepare formal draft plans

3.9 Maintain on going consultation throughout the planning process

Regular updates are critical to maintain on going consultation

To ensure continuity, it is recommended to follow the same information dissemination channels used since the beginning of the project, taking into account which media was the most successful.

Typical medium can be:

- Public meetings
- Workshops
- Seminars
- Various media such as newspapers, social media, newsletters

Slide 117

Slide No	Trainer Notes
117.	Trainer to recap the points covered under 3.9.

Slide

E3 Prepare formal draft plans

3.10 Develop a clear strategic and tactical focus for plans that are made

To develop a clear strategic and tactical focus, the plan needs to include:

- SWOT analysis
- Host organisation strategies to achieve identified outcomes
- Clear project mission and goals
- Clear priorities with timelines
- Clear measurements criteria:
 - To ensure the success of the initiative
 - To monitor the initiative

Slide 118

Slide No	Trainer Notes
----------	---------------

118.

Trainer to remind the trainees about the importance of the SWOT analysis previously mentioned when analysing the information collected during the research stage.

Slide

E3 Prepare formal draft plans

3.10 Develop a clear strategic and tactical focus for plans that are made

To develop a clear strategic and tactical focus, the plan needs to include:

- Specific written plans to guide the various phase of the implementation
- Establishment of clear communication channels and responsibilities
- Establishment of a relevant accounting structure to support funds and resources allocation

Slide 119

Slide No	Trainer Notes
119.	After covering the points from the slide, trainer to introduce the guest speaker to the trainees. Classroom activity: Guest speaker Trainer to arrange for person involved in preparing formal draft tourism plans to attend and: • Provide sample of program • Describe the writing process taking into account the steps mentioned in this element from ensuring draft reflect community interest ad concerns to ensuring plans reflect the business plans of host enterprise, identifies training needs and delivery methodologies, are sensitive to the local community economical, cultural, social and environmental interests, have a clear strategic and tactical focus • Give tips on maintaining on going communication and consultation during the process.

Slide

Element 4 Present draft plans

This element has 3 criteria

Submit plans for considerations by the local communities and other relevant key stakeholders

Amend plans on the basis of feedback received

Re-present plans revised plans for approval

Slide 120

Slide No	Trainer Notes
----------	---------------

120.	Trainer to introduce this last element and each of the 3 specific criteria details.
------	---

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

The submission phase is aimed to:

- Explain all plans
- Explain host organisation position in regards to recommendations
- Discuss the implementation phase
- Solicit and record feedback

Slide 121

Slide No	Trainer Notes
121.	Trainer to go through the points on the slide and remind the trainees of the importance of the ongoing clear communication and consultation process.

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

- Importance of professionally prepared plans
- They need to include:
 - Executive summary
 - Tasks allocation
 - Resources
 - Responsibilities

Slide 122

Slide No	Trainer Notes
----------	---------------

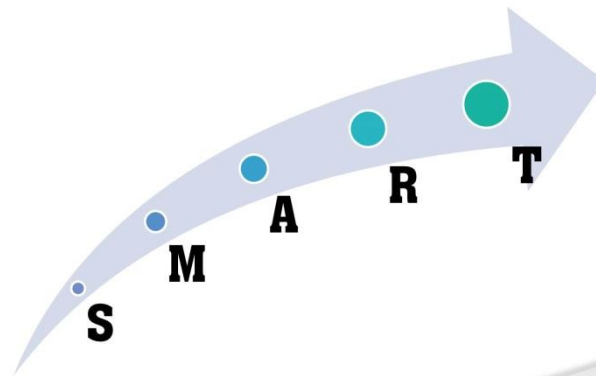

122.	Trainer to go through those points and link them, if possible, to the guest speaker presentation from the previous element.
------	---

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

They need to align the plans objectives to SMART

Slide 123

Slide No	Trainer Notes
----------	---------------

123.

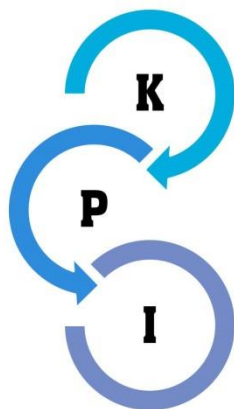

Trainer to work out each letter with the trainees (referring to the manual if required).

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

They need to include KPIs

Slide 124

Slide No	Trainer Notes
----------	---------------

124.	Trainer to work out each letter with the trainees (referring to the manual if required).
------	--

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

The plans need to be submitted to all previously identified stakeholders such as:

- Government departments
- Tourism operators
- Industry associations
- Environment groups
- Local operators
- Local community

Slide 125

Slide No	Trainer Notes
125.	Trainer to ask trainees to complete internet research and name local, regional and/or national associations in the country the training is taking place.

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

- The plans need to be clearly explained
- The host organisation needs to defend the selected proposed tourism opportunities
- New issues identified

Slide 126

Slide No	Trainer Notes
----------	---------------

126.	Trainer to stress the importance of presenting new issues identified as they have the potential to significantly change the direction of the proposed draft plans.
------	--

Slide

E4 Present draft plans

4.1 Submit plans for consideration by the local communities and other relevant key stakeholders

- Implementation phase needs to be discussed
- Feedback needs to be solicited and recorded

Slide 127

Slide No	Trainer Notes
127.	Trainer to insist on the importance of the 2 points on the slide. 1. The implementation phase is when the plan, project become 'real' for most stakeholders and they need to be: • Informed • Ready. Positive about it so that the plan, project become a complete success for all concerned. 2. Feedback is part of the ongoing communication process.

Slide

E4 Present draft plans

4.2 Amend plans on the basis on feedback received

- Critical point: address every issue
- Take positive action in revising the plans

Slide 128

Slide No	Trainer Notes
128.	Trainer to go through the points on the slide, explain their importance. Class activity Trainer to divide the class into 2 groups: • One group to identify at least 2 negative consequences of not addressing every issue raised as part of the latest feedback • One group to identify at least 2 negative consequences of not taking positive action when revising the plans • Groups to present their findings.

Slide

E4 Present draft plans

4.3 Re-present plans for approval

- Official approval:
 - National level
 - State level
 - Local level
- Community approval

Slide 129

Slide No	Trainer Notes
129.	Trainer to explain this is the last step of the process. Class activity Trainer to ask trainee to consult their manual and, from the information previously covered in regards to plans presentation, prepare a list of steps to follow to ensure full dissemination to all concerned stakeholders.

Recommended training equipment

- Computers with Internet access to facilitate research activities and viewing of recommended websites
- Flip charts
- Hard copy samples of proposed plans assessing and planning tourism opportunities for local communities
- Sample Reports on the findings of tourism projects/initiatives
- Sample organisational strategic, business and operational plans relating to tourism and development of tourism activities and markets
- Sample tourism plans, policies and objectives as developed by local tourism bodies, authorities, agencies and/or peak industry organisations
- Annual reports of tourism businesses and local and national tourism bodies and agencies
- Examples of tourism and marketing reports generated by local organisations and/or tourism bodies/authorities
- Sample surveys, feedback sheets
- Examples of Fact Sheets, FAQs

Instructions for Trainers for using PowerPoint – Presenter View

Connect your laptop or computer to your projector equipment as per manufacturers' instructions.

In PowerPoint, on the **Slide Show** menu, click **Set up Show**.

Under Multiple monitors, select the Show Presenter View check box.

In the **Display slide show** on list, click the monitor you want the slide show presentation to appear on.

Source: <http://office.microsoft.com>

Note:

In Presenter View:

You see your notes and have full control of the presentation

Your trainees only see the slide projected on to the screen

More Information

You can obtain more information on how to use PowerPoint from the Microsoft Online Help Centre, available at:

<http://office.microsoft.com/training/training.aspx?AssetID=RC011298761033>

Note Regarding Currency of URLs

Please note that where references have been made to URLs in these training resources trainers will need to verify that the resource or document referred to is still current on the internet. Trainers should endeavour, where possible, to source similar alternative examples of material where it is found that either the website or the document in question is no longer available online.
