Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes
- Case Studies

- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes
- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal

- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

	Tick (✓)	Remarks
Prior to the assessment I have:		
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for recording competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for different assessment methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
 ▪ You are required to complete these activities:
 a) *Using the 'X' method of assessment*
 b) *At 'X' location*
 c) *You will have 'X time period' for this assessment*
 ▪ You are required to compile information in a format that you feel is appropriate to the assessment
 ▪ Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment

- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.
There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.
We have 60 minutes for this assessment.
 - I will give you feedback at the end of the assessment
 - Do you have any questions about this assessment?"
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering 'Remarks' as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of 'Written Questions' for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):

"These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?"

- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date
- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency Standard

UNIT TITLE: MANAGE AN ASSESSMENT SYSTEM FOR TRAINING OUTCOMES		NOMINAL HOURS: 40
UNIT NUMBER: D1.HRD.CL9.08 D1.HHR.CL8.06		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to manage an assessment system for employees within a work context		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Communicate the assessment system 1.1 Define the <i>purpose of the assessment system</i> 1.2 Document and circulate <i>assessment system features and procedures</i> to relevant stakeholders 1.3 Establish <i>procedures for keeping relevant stakeholders informed about key features of the assessment system</i> Element 2: Provide support for enterprise assessors 2.1 Verify assessors meet <i>required competency standards</i> 2.2 Identify <i>required training for assessors</i> 2.3 Provide for <i>moderation of assessments</i> 2.4 <i>Provide feedback to assessors</i> on their performance 2.5 Facilitate networking amongst assessors		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that undertake staff training activities within the labour divisions of the hotel and travel industries and may include: 1. Front Office 2. Housekeeping 3. Food and Beverage Service 4. Food Production <i>Purpose of the assessment system</i> may include: • Recognising current competencies • Identifying training needs of staff • Maintaining workplace skill levels • Diagnosing employee workplace performance • Classifying workers in relation to remuneration levels

Element 3: Manage the assessment record keeping system	
3.1 Identify and develop the <i>internal records required to support the assessment system</i>	- Assisting in confirming staff competencies in relation to proposed promotion and/or job re-location - Issuing internal certificates/awards - Confirming progress in learning.
3.2 Describe the requirements for completing the assessment records	<i>Assessment system features and procedures</i> may be related to:
3.3 File the assessment records	Establishing minimum requirements for competencies and certification of assessors
3.4 Review and up-date the assessment record keeping system	Record keeping system requirements, including procedures and policies, and the development of supporting documentation
Element 4: Maintain quality assurance procedures	Timing and duration arrangements for assessments, including need to integrate assessment with operational issues while maintaining the flexibility and integrity of the internal training and assessment system
4.1 Define <i>quality assurance procedures for the assessment system</i>	Allowable adjustments to assessments for participants, including language, literacy and innumeracy requirements and the inclusion of candidate assistants
4.2 Undertake internal audits of the assessment system	Access and equity considerations
4.3 Use the results of quality assurance audits to improve the assessment system	Legislated requirements of the host country in relation to employment, workplace safety, workplace licensing requirements and equal opportunity, where applicable
4.4 Review the applicability of the existing quality assurance procedures to the dynamic nature of the assessment system	Arrangements for recognition of competencies gained via other training providers
Element 5: Report on the contribution made by the assessment system to enterprise training and performance	Location of assessments, including in-house and external assessment, where applicable
5.1 Identify the outcomes that the assessment system has produced	Review and evaluation processes for assessment procedures
5.2 Review the assessment system	Enterprise policies and procedures related to assessment, including grievances, re-assessment and the relationship between competency and remuneration.
5.3 Make recommendations for change to the assessment system	<i>Relevant stakeholders</i> may include:
5.4 Produce and circulate a report	Trainers and assessors, including external trainers and assessors, where applicable
	Team leaders, supervisors, managers and business owners
	Training and assessment coordinators, where applicable

5.5 <i>Revise the existing assessment system on the basis of responses to the report</i>	• Candidates, including a representative sample of past candidates and existing learners • Technical experts, relative to specialist areas in which assessments are conducted. <i>Procedures for keeping relevant stakeholders informed about key features of the assessment system may include:</i> • Regular scheduled meetings specific to assessment issues, including the use of special meetings as the need dictates • Standing agenda item at all staff meetings regarding assessment issues • Preparation of a dedicated newsletter, either paper-based or electronic format • Development of an internal network of assessors. <i>Required competency standards may be related to:</i> • Externally imposed accredited competency standards as required by training providers and other relevant agencies, where relevant • Internally described competencies, which may or may not include formal assessor qualifications • Currency of qualifications • Relevance of industry experience to the areas being assessed. <i>Required training for assessors may include:</i> • Externally provided accredited training, including initial assessor training and identified additional training, where relevant • Provision of refresher training for assessors who have been identified as requiring such training • Providing gap training for assessors on the basis of identified need • Provision of job-specific training to enable assessors to assess areas with which they are not familiar.
--	--

	<i>Moderation of assessments</i> could relate to: • Analysing results of assessments with a view to identifying issues that require attention • Developing a standard assessment matrix against which to conduct assessments • Confirming the material that will be counted as evidence for the purpose of making a decision regarding candidate competency • Confirming the operation of internal assessments against external requirements • Evaluating assessment methods and tools • Modifying existing assessment arrangements on the basis of valid conclusions reached as a result of the moderation process. <i>Provide feedback to assessors</i> may include: • Analysing their assessments, including results and materials/tools as part of the assessment process • Developing feedback instruments for candidates to complete following assessments • Providing observation sessions while assessors conduct assessments • Identifying specific foci for evaluation and feedback • Encouraging self-evaluation as part of the feedback process • Recognising effort and positive outcomes • Supporting assessors where feedback identifies negative outcomes. <i>Internal records required to support the assessment system</i> may include: • Personal information relating to candidates • Evidence that required training has been delivered prior to assessment being attempted • Assessment tools and assessment items • Copies of relevant training curricula/training plans • Training rolls
--	--

- Evidence captured as part of the assessment process
 - Documentation used to record the resources used and costs involved as part of the assessment process.
- Describe the requirements for completing the assessment records may include:*
- Explaining record keeping requirements to assessors
 - Providing examples of acceptable records
 - Monitoring the compilation of records completed by assessors on an on-going basis
 - Highlighting applicable time-related issues that apply to the completion, collection and forwarding of assessment records, including forwarding to internal locations
 - Defining the security and confidentiality arrangements that assessors must comply with.
- File the assessment records may include:*
- Creating a dedicated filing system for assessment records, such as paper-based, electronic or a combination of both
 - Complying with external requirements relating to filing of assessment records
 - Maintaining security and confidentiality of assessment records
 - Enabling easy access to existing records
 - Enabling easy up-dating of records and files
 - Integrating assessment records with training records in keeping with identified internal requirements
 - Establishing processes to enable validation of assessment records.
- Quality assurance procedures for the assessment system may include:*
- Identification of relevant documentation
 - Establishment of relevant benchmarks
 - Identification of appropriate 'best practice' as it applies to the enterprise, including any externally imposed 'best practice' requirements

	• Nomination of relevant timeframes, including timelines for remitting results, forwarding documentation, undertaking reviews, conducting audits • Identification of specific quality assurance procedures that apply to assessments, including development of a formal quality assurance section dedicated to assessment and training, where appropriate • Communication to assessors of the quality assurance requirements, including training relevant to the implementation of identified procedures. <i>Undertake internal audits of the assessment system may include:</i> • Scheduling audits • Defining the topics that will be addressed at each audit, including the possibility of cyclical audits and full audits • Training staff in undertaking audits • Allocating resources for the conduct of audits • Designing and/or obtaining necessary documentation to record audit information/data • Capturing audit information • Ensuring captured data allows satisfactory analysis and evaluation of identified topics/areas, including the gathering of supplementary information as necessary. <i>Use the results of quality assurance audits must include:</i> • Ensuring recommendations for change are based on hard evidence • Applying audit results to all aspects of the assessment system, including documentation and record keeping, assessment methods and tools, assessors, timing and duration of assessments, locations used for assessments • Revising written policies and procedures to reflect changes, including confirming changes with management, and advising trainers and assessors as appropriate in relation to the changes.
--	---

	<i>Identify the outcomes that the assessment system has produced</i> may relate to: - Aligning outcomes with identified purposes of the assessment system - Quantifying the benefits that the assessment system has brought to the enterprise, including identification of competencies attained, certificates issued, examples of flexibility and options that assessment has provided to the business. <i>Review the assessment system</i> may include: - Comparing actual outcomes with identified key performance indicators established for the assessment system, where applicable - Reviewing performance of assessors - Reviewing effectiveness of assessment tools and methods - Detailing the expenses that were incurred in implementing the assessment system - Reviewing complaints and grievances lodged by candidates - Quantifying and evaluating the number of reassessments required - Integrating qualitative feedback from assessors and candidates on the operation of the assessment system. <i>Make recommendations for change</i> may include: - Continuing with the existing assessment system, including implementation of minor modifications to accommodate identified issues - Expanding the existing assessment system - Reducing the scope of the existing assessment system - Winding up the existing assessment system, including movement to total assessment service provision by external providers. <i>Revise the existing assessment system</i> may include: - Revising assessment-related policies and procedures - Revising assessment tools
--	---

- Revising assessors used
- Revising assessment times and locations
- Communicating changes to the assessment system to relevant stakeholders, including the provision of training, as appropriate.

Assessment Guide

The following skills and knowledge must be assessed as part of this unit:

- The enterprise's policies and procedures in regard to training and assessment
- Principles of vocational training and assessment with special reference to competency based training and competency based assessment
- Ability to use design, development, review and evaluation/analysis techniques
- Ability to apply quality assurance techniques, strategies and methodology
- Knowledge of competency standards relevant to the enterprise, including accredited competency standards and internal standards and competencies
- Ability to solicit feedback
- Ability to establish and maintain an effective record keeping system.

Linkages To Other Units

- Evaluate the effectiveness of an assessment system
- Maintain a paper-based filing and retrieval system
- Manage and implement small projects
- Implement, monitor and evaluate a training and development program
- Monitor and evaluate the effectiveness of training outcomes
- Plan and implement a series of training events
- Prepare and deliver training sessions
- Analyse competency requirements

- Develop assessment tools and procedures
- Plan and promote training courses
- Review training outcomes
- Prepare and monitor budgets
- Design and establish a training system
- Prepare and deliver a presentation
- Design, prepare and present various types of reports.

Critical Aspects of Assessment

Evidence of the following is essential:

- Understanding of host enterprise policies and procedures in regard to training and assessment
- Demonstrated ability to identify the purpose(s), features and procedures for a nominated assessment system
- Demonstrated ability to generate effective procedures to enable communication of key features of a nominated assessment system with relevant stakeholders
- Demonstrated ability to provide support for assessors in a nominated workplace context, including:
 - Verifying assessors meet stated competency requirements
 - Identifying whether training assessors may need to attain required assessor competencies
 - Arranging and supervising an identified moderation session of the candidate's choosing
 - Providing verbal feedback to one assessor on their work-related assessment performance
- Demonstrated ability to identify and develop appropriate, effective and comprehensive internal assessment records for a nominated workplace context, including:

	▪ Description of how assessors would be advised on how to complete and maintain such records ▪ Description of the filing system to be used by assessors to store such records • Demonstrated ability to identify and apply quality assurance procedures to a nominated workplace assessment system • Demonstrated ability to prepare a comprehensive report that outlines the contribution that a nominated workplace assessment system has made to enterprise training and overall business performance. Context of Assessment This unit may be assessed on or off the job • Assessment should include practical demonstration of managing an assessment system for training outcomes either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individual's work area or area of responsibility. Resource Implications Training and assessment to include access to a real or simulated workplace; access to workplace standards, procedures, policies, guidelines, tools and equipment. Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Oral and written questions • Portfolio evidence, including copies of assessment and training policies and procedures, assessment tools, assessment records, feedback forms relating to assessment, samples of evidence captured, reports and recommendations on the assessment system • Third party reports completed by a supervisor • Project and assignment work.
--	---

Key Competencies in this Unit

Level 1 = competence to undertake tasks effectively

Level 2 = competence to manage tasks

Level 3 = competence to use concepts for evaluating

Key Competencies	Level	Examples
Collecting, organising and analysing information	3	Gather data to use to evaluate and report on the effectiveness and operation of the assessment system
Communicating ideas and information	2	Provide direction, advice and training to assessors
Planning and organising activities	2	Schedule meetings, audits and reviews
Working with others and in teams	2	Liaise with candidates, assessors and trainers to optimise the operation of the assessment system
Using mathematical ideas and techniques	1	Manipulate data captured regarding the implementation of the assessment system
Solving problems	2	Revise assessment policies, procedures and documentation on the basis of audits and feedback
Using technology	1	Use computer software to store assessment files and manipulate assessment-related data

9. Name two ways networks can be developed.

Formal meetings, noticeboards, seminars, workshops, conferences, email.

10. What are three things that might be included in a candidate information record?

Name, address, qualifications, dates of training, assessor name, location of assessment.

11. Besides information, what is important to remember about the storage of records?

Privacy and confidentiality.

12. What are three ways to inform assessors on how to complete assessment records?

Demonstrations, written guidelines, meetings, online tutorials and templates.

13. What should an assessment system be able to do? List three things.

Be easy to access, update records easily, private and confidential, meet external and internal needs.

14. Describe the stages of a review cycle.

15. What do quality assurance procedures do?

Quality Assurance procedures or continuous improvement is about applying good business practices to ensure the best outcomes for our clients, namely: students, staff, industry and the community.

16. What 5 areas of an assessment system should be monitored?

- Assessment systems
- Assessment processes
- Assessment methods and tools
- Assessment evidence
- Assessment judgements.

17. What three strategies can be used to identify ways to improve an assessment system?

Reviewing, evaluating and moderating (comparing).

18. Who should be involved in a review of an assessment system?

All relevant stakeholders.

19. Identify three outcomes from an assessment system.

- Whether the assessment system has been effective in achieving the desired outcomes of the system as a whole
- The benefits that the assessment system has brought to the organisation by noting the new skills attained, the amount of certificates issued, the increased opportunities and performance that the system has provided to the enterprise
- Increased professional development opportunities that have occurred due to the implementation of the assessment system
- Whether there were some areas of strength within the organisation that had not previously been acknowledged
- Increased staff engagement, productivity or workplace satisfaction.

20. What are three evaluation questions that could be applied to employers in a review of an assessment system?

- Has the assessment process had a positive impact on your organisation?
- Were supervisors able to use the assessment tools effectively?
- Did the assessment tools provide your organisation with useful information about your employees/trainees/apprentices?
- Does the evidence meet the standards you would require of your employees?
- Were the judgements made about the participants' competencies consistent with your knowledge of these employees/trainees/apprentices?

21. Identify three recommendations for improving an assessment system.

- Whether to continue with the existing assessment system with minor alterations or to cease with the current system in favour of an external provider administering an assessment system
- Making recommendations relating to staff resources, training, payment, costs, assessment content or administration procedures
- Expanding the existing system or reducing the scope of the existing assessment system
- Recommending changes to location and timing of the assessment system.

22. What is an executive summary?

An executive summary is usually a one page summary of the entire report. It should be no longer than 5% - 10% of the report length. It outlines why the report was developed, what the report is about, how it was developed, the most significant findings or results of the review, and any analysis, conclusions or recommendations. Many stakeholders will only read this section so it is extremely important.

23. Identify three parts of an evaluation report.

Introduction, main body, recommendations, methods, conclusions, feedback and data.

24. Who should receive a copy of the report?

All relevant stakeholders.

25. Identify three possible revisions to an assessment system.

- Revising policies and procedures relating to the assessment system
- Altering the assessment tools to make them more relevant and appropriate
- Revising the assessors that have been used which may mean increasing or decreasing numbers, choosing assessors with different skill sets and experience, or providing more training for current assessors
- Revising the assessment times and locations to suit organisational needs
- Communicating any changes that have been made to the assessment system and making sure that all relevant stakeholders are informed of these changes or updates.
