Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

Suggested Assessment Methods

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

Alternative Assessment Methods

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

Selection of Assessment Methods

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

Assessing Competency

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

Pass Competent (PC)

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

Not Yet Competent' (NYC)

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

Regional Qualifications Framework and Skills Recognition System

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

Recognition of Prior Learning (RPL)

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

Code of Practice for Assessors

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

Instructions and Checklist for Assessors

Instructions

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

Preparation

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

Briefing Checklist

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

Checklist for Assessors

Prior to the assessment I have:	Tick (✓)	Remarks
Ensured the candidate is informed about the venue and schedule of assessment.		
Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP).		
Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.		
Identified and accommodated any special needs of the candidate.		
Checked the set-up and resources for the assessment.		
During the assessment I have:		
Introduced myself and confirmed identities of candidates.		
Put candidates at ease by being friendly and helpful.		
Explained to candidates the purpose, context and benefits of the assessment.		
Ensured candidates understood the assessment process and all attendant procedures.		
Provided candidates with an overview of performance criteria to be assessed.		
Explained the results reporting procedure.		
Encouraged candidates to seek clarifications if in doubt.		
Asked candidates for feedback on the assessment.		
Explained legal, safety and ethical issues, if applicable.		
After the assessment I have:		
Ensured candidate is given constructive feedback.		
Completed and signed the assessment record.		
Thanked candidate for participating in the assessment.		

Instructions for Recording Competency

Specifications for Recording Competency

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

Instructions for Different Assessment Methods

Specifications for Work Project Assessment

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
 - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
 - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):
 "At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.
 These work projects are part of the formal assessment for the unit of competency titled X:
- You are required to complete these activities:
 - Using the 'X' method of assessment*
 - At 'X' location*
 - You will have 'X time period' for this assessment*
 - You are required to compile information in a format that you feel is appropriate to the assessment
 - Do you have any questions about this assessment?"
- Commence Work Project assessment:
 - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
 - Participants complete work projects in the most appropriate format
 - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Oral Question Assessment

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
 - Enter Student name
 - Enter Assessor name
 - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):
"These oral questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.

We have 60 minutes for this assessment.

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
 - Complete Assessment Record for the Oral Questioning by:
 - a) Ticking PC or NYC, as appropriate
 - b) Entering ‘Remarks’ as required
 - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Written Question Assessment

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

Specifications for Observation Checklist

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

Specifications for Third Party Statement

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
 - Pass Competent = Yes
 - Not Yet Competent = No
 - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

Competency standard

UNIT TITLE: PLAN AND PROMOTE TRAINING COURSES		NOMINAL HOURS: 50
UNIT NUMBER: D2.TRD.CL8.06		
UNIT DESCRIPTOR: This unit deals with skills and knowledge required to identify competencies necessary to meet workplace training needs and promote training within a workplace context		
ELEMENTS AND PERFORMANCE CRITERIA		UNIT VARIABLE AND ASSESSMENT GUIDE
Element 1: Define the parameters of the workplace training course 1.1 Identify the <i>purpose of the workplace training course</i> 1.2 Identify the <i>focus of the workplace training course</i> 1.3 Identify <i>competency standards or other specifications</i> on which the workplace training course is to be based 1.4 Determine the <i>goals and requirements of the workplace training course</i> 1.5 Determine the <i>scope and breadth</i> of the workplace training course 1.6 Identify <i>target group users</i> of the workplace training program and their <i>characteristics</i> 1.7 Identify <i>supplementary sources of information</i> to support the workplace training course		Unit Variables The Unit Variables provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. This unit applies to all industry sectors that utilise formal and informal workplace training provision within the labour divisions of the hotel and travel industries and may include: 1. Travel Agencies 2. Tour Operation <i>Workplace training course</i> may include: • Competencies and/or criteria to be achieved as a result of completing the training • Specific training outcomes derived from the competencies/criteria for each training segment/unit of the training course • An overview of the training content to be covered in each segment/unit and the overall course • Training resources, training materials and training activities for each segment/unit of the training course

1.8 Identify <i>training environment requirements</i> for the workplace training course 1.9 Identify <i>operational resource requirements</i> for the workplace training course Element 2: Generate options for designing the workplace training course 2.1 Utilise <i>training strategy documentation</i> to guide workplace training course development 2.2 Determine the <i>competency/educational profile of the target user group</i> 2.3 Determine the <i>learning styles</i> of the target workplace trainee group 2.4 Identify existing <i>training resources and training materials</i> that can be applied to the workplace training course 2.5 Generate <i>options for the workplace training course content</i> in collaboration with <i>relevant others</i> 2.6 Consider <i>operational issues</i> in regard to workplace training course provision 2.7 Integrate the <i>principles of adult training</i> into the workplace training course 2.8 Select the most appropriate options	• Number and duration of training sessions required, including identification of overall timelines • Delivery methods for each training segment/unit of the training course • Occupational health, safety and welfare issues to be covered • Identification of assessment points to measure trainee progress throughout the training course • Assessment modes and methods and tools to be used to collect evidence of competency, where assessment is required. <i>Purpose of the workplace training course</i> may include: • Developing vocational competency and skills • Developing generic skills • Developing language, literacy and numeracy • Developing general education • Supplementing content to part of a training strategy • Achieving organisational change • Supporting organisational skill development • Developing teams • Complying with legislated, licensing and/or registration requirements • Meeting occupational health, safety and welfare requirements • Meeting funding body requirements. <i>Focus of the workplace training course</i> may be: • Formal and informal training delivery including short-term professional development, skills up-grading as a result of new equipment, processes, product specifications and/or legal imperatives
---	---

Element 3: Promote the workplace training course 3.1 <i>Share information</i> regarding development of the workplace training course with key stakeholders, as required 3.2 <i>Advertise</i> the impending conduct of the workplace training course 3.3 <i>Encourage target group user participation</i> in the workplace training course 3.4 <i>Monitor promotional activities</i>	• A subset of a training strategy • A short course or vocational program • A structured long-term professional development program • A workplace training program • Part of apprenticeship and/or traineeship training delivery by an external provider • A short-term development program developed by a workplace coach • A short-term induction program. <i>Competency standards</i> may include: • Accredited competency standards developed by the host country training system • International competency standards • Competency standards developed by the host enterprise to meet individual workplace need. <i>Other specifications</i> may include: • Internal and external curriculum specifications • Product specifications • Organisational work requirements and specified training needs • Workplace induction necessities • Language, literacy and numeracy development needs of staff • Regulatory and/or licensing demands. <i>Goals and requirements of the workplace training course</i> may include: • Identification of staff to be trained • Identification of numbers to be trained • Identification of qualifications, credentials and licenses to be issued • Identification of objectives and goals as deemed appropriate and relevant by the host enterprise
---	--

	• Budget parameters • Time-related details including start and finish times/dates and course duration • Expected changes to service delivery, production processes and items produced • Level of multi-skilling to be achieved • Amount of funding to be earned from funding bodies. <i>Scope and breadth</i> may include: • Number of competencies to be achieved • Work areas and/or tasks and workplace activities to which the training course applies • Definition of the subject or technical knowledge and/or theory to be trained • Specification of organisational training needs to be addressed • Definition of staff eligibility for the training course • Description of factors that limit or restrict access to the training course. <i>Target group users</i> may include: • Existing employees undertaking on-going skills enhancement • New employees • Apprentices and trainees • Individuals training in new skills as part of a staff appraisal process, professional development program or other internal mandatory training requirement • Staff seeking to change careers • Staff being groomed for higher level duties • Staff seeking to engage in personal growth • Trainees with a disability • Staff needing to meet compliance obligations.
--	--

	<i>Characteristics</i> may include: • Level and breadth of work experiences • Level and breadth of formal education • Skill/competency profile • Socio-economic background, age, gender, range of abilities and disabilities • Cultural background and needs arising • Specific needs including physical and psychological • Motivation for training • Language, literacy and numeracy needs • Available time to commit to training including definition of times and days • Preferred learning styles. <i>Supplementary sources of information</i> may include: • Job descriptions • Employee records • Results of performance appraisals • Employee resumés submitted on application for employment • Results of surveys • Personal observation of employee performance • Government and industry body publications • Evaluation of internal documentation including complaints received, safety records, departmental performance reports, material and resource usage, productivity records. <i>Training environment requirements</i> may include: • Actual workplace setting
--	--

	• Simulated context • Training or meeting room • Off-site venue • Online/e-training training • Community setting • Home-based. <i>Operational resource requirements may include:</i> • Staffing needs including trainers, assessors, technical and support staff, and staff to back-fill those who are undertaking training • Guest speakers • Training materials and resources • Equipment and technology • Funding • Time • Train-the-trainer courses. <i>Training strategy documentation may include:</i> • Training strategies described in accredited course documentation • Internal documents describing workplace-appropriate training strategies specific to nominated training topics • Evaluations conducted on previous training courses. <i>Competency/educational profile of the target user group may include:</i> • Previous qualifications • Highest level of qualification attained
--	--

	• Date(s) of previous training • How the training was undertaken including e-training, formal off-the-job training, home-based private study • Identification of the organisation that conducted the training • Duration of training • Input from the human resource department • Reference to designated work activities and tasks • Motivation to undertake training. <i>Learning styles</i> may include: • Auditory • Kinesthetic • Left brain, right brain • Global, analytical • Theoretical • Activist • Pragmatist • Reflective. <i>Training resources</i> may include: • Trainee manuals, user guides, trainee guides and similar • Trainer/facilitator guides • Sample training courses • Work specific case studies • Professional development resources
--	--

	• Assessment resources • Commercially available resources to support identified need • In-house organisational resources • Competency standards • Videos, CDs, DVDs and audio tapes • Record and log books • Manufacturer's guides/instructions. <i>Training materials</i> may include: • Handouts • Worksheets and work books • Prepared case studies, task sheets, activity sheets, and information sheets • Prepared presentations, overheads, PowerPoint presentations, scenarios, projects and assignments • Workplace-based documentation, operating procedures and specifications. <i>Options for the workplace training course content</i> may include: • Following the design approach of the training strategy • Organising the training course around discrete segments, units or criteria requirements • Integrating training segments within the training course • Focusing the content on knowledge and/or skill acquisition • Focusing the content on activities/experiences as the basis for training • Listing training activities, training materials, and training resources that could be used for content development • Adhering to content matter presented in similar training courses operated by other organisations
--	---

	• Complying with externally imposed mandatory content requirements • Ensuring alignment with business plans and strategic plans • Meeting identified individual staff need including existing and projected. <i>Relevant others</i> may include: • Colleagues • Trainers and facilitators • Industry contacts • Suppliers and vendors • Human resource personnel • End-users and customers • Subject specialists • Language, literacy and numeracy specialists. <i>Operational issues</i> may include: • Costs, such as: ▪ Venue hire and/or training room establishment ▪ Technology and equipment ▪ Purchase of materials and resources ▪ Photocopying and support including secretarial support ▪ Staffing costs for trainers, facilitators, assessors ▪ Use of external consultants • Logistics, such as: ▪ When and where the training is required ▪ Communication needs
--	---

	▪ Staff availability ▪ Availability of equipment specifically for training purposes as opposed to production/service purposes ▪ Timeframes such as start, finish and duration, and the integration of the training course with workplace demands. <i>Principles of adult training</i> may include: • The need for adults to be self-directed • Adults have a range of life experiences requiring training to be connected to experience for it to be meaningful • The need for adults to know why they are doing the specific training • The need for training needs to be trainee-centred to engage trainees • The need for the trainee experience to support increasing trainee independence • Emphasis on experimental and participative training • The use of modelling • The training process should reflect individual; circumstance. <i>Share information</i> may include: • Conducting meetings • Holding information sessions • Providing hard copy information, disseminating information electronically • Speaking at organisational events and functions. <i>Advertise</i> may include: • Internal promotion • Mention on the organisational website and/or intranet • Staff newsletters
--	---

	• Mentions at staff meetings and briefings. <i>Encourage target group user participation</i> may include: • Motivating staff to participate • Explaining the workplace benefits of undertaking the course • Recommending participation • Engaging management support for the training course • Identifying the personal benefits that are involved. <i>Monitor promotional activities</i> may include: • Determining the need for more and/or different promotional activities • Tracking registration and expressions of interest in undertaking the training course • Determining if more time is needed for promotion before training course commencement. Assessment Guide The following skills and knowledge must be assessed as part of this unit: • Enterprise policies and procedures in regard to training and assessment • Principles of training and assessment • Knowledge of identified training need for the organisation that is to form the basis of the training course content • Knowledge of host country requirements in relation to provision of vocational training including equal opportunity and relevant industrial relations legislation • Knowledge of quality assurance principles and practices • Ability to use planning, research, communication, negotiation, evaluation, analytical and influencing skills • Knowledge of the legislated and enterprise requirements in relation to privacy and confidentiality
--	--

	• Knowledge of continuous improvement techniques • Knowledge of the benefits and costs that attach to the provision of in-house training. Linkages To Other Units • Maintain a paper-based filing and retrieval system • Manage and implement small projects • Evaluate the effectiveness of an assessment system • Manage an assessment system for training outcomes • Monitor and evaluate the effectiveness of training outcomes • Plan and implement a series of training events • Prepare and deliver training sessions • Analyse competency requirements • Develop assessment tools and procedures • Plan and promote training courses • Review training outcomes • Prepare and monitor budgets • Design and establish a training system • Implement, monitor and evaluate a training and development program. Critical Aspects of Assessment Evidence of the following is essential: • Understanding of host enterprise policies and procedures in regard to training and assessment • Demonstrated ability to define the parameters of a nominated workplace training course in a given real or simulated context, including identification of:
--	---

	▪ Purpose of the training course ▪ Focus of the training course ▪ Competency standards or other criteria that will be used within the training course ▪ Goals of the training course ▪ Scope and breadth of the training course ▪ Target group users and their characteristics ▪ Supplementary sources of information available to support the planning and implementation process ▪ Training environment requirements for the training course ▪ Operational resource requirements for the training course • Demonstrated ability to design and present hard copy evidence of the development of an effective and comprehensive workplace training course to meet the nominated training needs for a group of identified trainees, including: ▪ Identification of delivery strategies and training activities ▪ Identification of assessment methods ▪ Suggestions for the internal promotion of the training course. Context of Assessment This unit may be assessed on or off the job: • Assessment should include practical demonstration of planning and promoting training courses either in the workplace or through a simulation activity, supported by a range of methods to assess underpinning knowledge • Assessment must relate to the individual's work area or area of responsibility.
--	--

	Resource Implications Training and assessment to include access to a real or simulated workplace; and access to workplace standards, procedures, policies, guidelines, tools and equipment.		
	Assessment Methods The following methods may be used to assess competency for this unit: • Observation of practical candidate performance • Analysis of portfolio of documents prepared by the candidate including copies of training courses and promotional material • Case studies • Projects • Oral and written questions • Third party reports completed by a supervisor • Project and assignment work.		
	Key Competencies in this Unit <i>Level 1 = competence to undertake tasks effectively</i> <i>Level 2 = competence to manage tasks</i> <i>Level 3 = competence to use concepts for evaluating</i>		
	Key Competencies	Level	Examples
	Collecting, organising and analysing information	3	Compile information to determine individual trainee needs and preferred learning styles
	Communicating ideas and information	3	Share information with key stakeholders

	Planning and organising activities	2	Schedule training
	Working with others and in teams	2	Liaise with trainees and trainers
	Using mathematical ideas and techniques	2	Calculate resource requirements
	Solving problems	2	Resolve lack of resource issues
	Using technology	1	Use software to produce necessary training and assessment materials

Oral questions

Student name	
Assessor name	
Location/venue	
Unit of competency	Plan and promote training courses D2.TRD.CL8.06
Instructions	1. Ask student questions from the attached list to confirm knowledge, as necessary 2. Place tick in boxes to reflect student achievement (Pass Competent 'PC' or Not Yet Competent 'NYC') 3. Write short-form student answer in the space provided for each question.

Questions	Response	
	PC	NYC
1. Tell me how you have identified purpose, focus and competency standards in a workplace training course.	☐	☐
2. Explain how you have determined goals, requirements, scope and breadth for a workplace training course.	☐	☐

Questions	Response	
	PC	NYC
3. Use an example to describe how you have identified target group users and their characteristics for a workplace training program.	☐	☐
4. How have you identified supplementary sources of information to support a workplace training course?	☐	☐
5. Give me an example of how you have identified training environment and operational resource requirements for a workplace training course.	☐	☐

Questions	Response	
	PC	NYC
6. Give an example of training strategy documentation you have used and/or generated to guide workplace training course development.	☐	☐
7. Tell me the how you determined the competency/educational profile of the target user group and their learning styles when designing/planning a workplace training course.	☐	☐
8. For a workplace training course you have planned tell me how you identified the training resources and materials that existed.	☐	☐

Questions	Response	
	PC	NYC
9. Use an example to illustrate how you generated options for workplace training course content in collaboration with relevant others.	☐	☐
10. Describe a situation where you have considered operational issues in regard to the provision of a workplace training course.	☐	☐
11. Use an example to show how you integrated the principles of adult training into a workplace training course you have developed.	☐	☐

Questions	Response	
	PC	NYC
12. Name a workplace training course you have planned and explain how you generated options for delivery and how you decided on the most effective option to implement.	☐	☐
13. Describe for me how you have shared information with key stakeholders about workplace training you have developed to promote engagement with the course.	☐	☐
14. With reference to an example describe how you have advertised an upcoming workplace training course and encouraged target user groups to participate.	☐	☐

Questions	Response	
	PC	NYC
15. For the example used in your answer to the previous questions explain how you monitored the promotional activities you undertook to advertise the training.	☐	☐

Written questions

Plan and promote training courses – D2.TRD.CL8.06

Student Name: _____

Answer all the following questions and submit to your Trainer.

1. Define 'workplace training' differentiating between 'accredited' and 'non-accredited' training.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

2. Identify four topics which can combine to produce the context for workplace training within an organisation.

3. List four ways of identifying the purpose of training for individual workplaces and specific points in time.

4. Nominate six possible purposes of workplace training.

5. Describe four factors which produce variations in the orientations of organisations to workplace training.

6. Differentiate between 'formal' and 'informal' training.

7. What is a 'training strategy'?

8. What are 'soft skills'?

9. Give four possible reasons why PD might be required in a workplace.

10. In your own words describe what is a workplace competency standard?

11. What are the two standard ways to identify competencies and specifications which need to be used in workplace training?

12. Give an example of a competency standard.

13. Give four examples of possible 'goals and requirements' for workplace training courses.

14. Identify six factors which may combine to produce the 'scope and breadth' of required workplace training.

15. Give four approaches which can be used to identify learner cohorts for workplace training.

16. Give six examples of target groups that workplaces may determine for their training courses.

17. Give six examples of characteristics which can distinguish between different user groups for workplace training.

18. Name six approaches which may be used to identify supplementary sources of information for workplace training courses.

19. Give six reasons it is important to identify supplementary sources of information for workplace training courses.

20. Provide six examples of supplementary sources of information for workplace training courses.

21. Give three benefits of using the actual workplace setting for training.

22. In relation to settings for workplace training, what is a 'simulated context'?

23. Give four possibilities which may be termed 'off-site venues' for the purposes of workplace training.

24. List four possible benefits of online training.

25. List six points to take into account when considering training resources required for workplace training courses.

26. List four points to take into account when considering staffing provision for workplace training.

27. Name four possible funding considerations related to the provision of workplace training.

28. List three vital considerations which must be taken into account when designing workplace training courses.

29. Give four examples of training strategy documentation which may be used to help with the design of workplace training courses.

30. Give three reasons there is a need to determine the competency/educational profile of the potential learners for workplace training courses.

31. Identify six topics which should be the focus of attention and research when determining the competency/educational profile of target user groups for workplace training.

32. Differentiate between the visual, auditory and kinesthetic learning styles.

33. Briefly explain the 'hemispheric dominance' learning style theory.

34. Name the four learning styles identified by Honey and Mumford and describe two of these.

35. Give four reasons those designing training courses may want to identify existing training resources and materials.

36. Give four examples of training resources.

37. Give four examples of training materials.

38. Identify four 'relevant others' who may need to be involved in generating content for workplace training courses.

39. Give four options for workplace training course content.

40. Name four operational issues linked to costs which need to be considered in relation to the provision of workplace training.

41. Give four logistical issues which need to be addressed as part of workplace-based training delivery.

42. What are the four basic principles of adult learning identified by Malcolm Knowles?

43. Describe four practical ways the principles of adult learning as identified by Knowles can be applied to workplace training.

44. Describe four standard requirements which need to be observed in relation to the selection of the most appropriate option for workplace training.

45. What is the 'basic division' described in the notes in relation to workplace training delivery options?

46. Identify and briefly describe four training delivery options which may be used to provide workplace training.

47. List eight stakeholders who may need to be given information about the development of workplace training courses.

48. Identify four options for sharing information about the development of workplace training courses with stakeholders.

49. Give four reasons workplaces have a need to advertise upcoming workplace training courses to employees.

50. Name four ways an organisation might communicate information about training courses with stakeholders.

51. Identify four activities which could/should be used to optimise worker engagement with workplace training courses.

52. Give three reasons promotional activities designed to encourage staff to participate in workplace training should be monitored.

53. What are the three basic ways to monitor promotional activities relating to upcoming workplace training courses?

Answers to written questions

Plan and promote training courses – D2.TRD.CL8.06

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. Define 'workplace training' differentiating between 'accredited' and 'non-accredited' training.

Answer should address:

- Workplace training is training delivered in the workplace
- It may be accredited training or non-accredited training
- Accredited training is training recognised by a formal vocational system in the country that results in the awarding of a recognised qualification or Statement of Attainment
- Non-accredited training means the training is not recognised by training authorities of the country system but it does not mean the training is (necessarily) any less valuable, effective or beneficial
- Note: where non-accredited training is provided in the workplace there is no compulsion for it to be assessed (although it often is), as is the case for accredited training where all training must be assessed in order for qualifications to be issued
- Workplace training not/does not include vocational training delivered at a training institution for use in a workplace.

2. Identify four topics which can combine to produce the context for workplace training within an organisation.

- Competencies and/or criteria to be achieved as a result of completing the training
- Specific training outcomes
- An overview of the training content
- Resources needed for training and assessment
- Training sessions required
- Delivery methods for each training segment/unit of the training course
- Training priorities
- Safety issues to be covered
- Identification of assessment points.

3. List four ways of identifying the purpose of training for individual workplaces and specific points in time.

- Talking to management
- Speaking with individual employees
- Reading the outcomes/reports generated as a result of any TNAs
- Analysing the CVs of staff
- Looking at the plans and targets/objectives for the organisation.

4. Nominate six possible purposes of workplace training.

- Developing vocational competency and skills
- Developing generic skills (such as communication, problem-solving, creativity)
- Developing language, literacy and numeracy skills
- Developing general education
- Supplementing content
- Achieving organisational change
- Supporting organisational skill development
- Developing teams
- Ensuring compliance
- Meeting occupational health, safety and welfare requirements
- Meeting funding body requirements.

5. Describe four factors which produce variations in the orientations of organisations to workplace training.

- Size of the organisation and numbers of staff requiring training
- Previous experience of the organisation with workplace training
- Entry level of staff who join the organisation
- Lack of suitable training from external providers
- Current need.

6. Differentiate between 'formal' and 'informal' training.

- Formal training – this is 'intentional' training
- It is traditionally structured and systemised
- All workplace training is formal training but not all learning that takes place in the workplace necessarily occurs as a result of formal training
- Informal training delivery – this is training that is unstructured and not systemised but is nonetheless intentional
- Note informal training is not the same as informal learning. Informal learning is learning which occurs by-the-way as an unintended consequence of doing something else – such as listening to a conversation, watching a person or reading an article
- Informal training delivery can include discussions with management and colleagues, mentoring, attendance at and participation in spontaneous events.

7. What is a 'training strategy'?

A training strategy:

- Is the 'plan of action' the organisation has for its training
- Sets out what the organisation wants to achieve and how it intends to achieve it.

8. What are 'soft skills'?

These are interpersonal skills such as those associated with:

- Interacting with people
- Communicating with others
- Decision making
- Problem solving.

9. Give four possible reasons why PD might be required in a workplace.

- Multi-skill/cross-skill one employee or a group employees – to allow them to work in other areas of the business
- Respond to identified need – as a result of internal research/staff activity such as TNA, skills analysis, skills audit or workplace performance management initiative
- Accommodate management training for operational staff – as part of internal HR practice to promote from within the organisation and accommodate the need for succession planning
- Help individuals acquire a professional qualification
- Give employees the organisation has identified for advancement with training and/or other opportunities to grow, acquire relevant skills and knowledge and learn about the internal operations of the business.

10. In your own words describe what is a workplace competency standard?

Answer should address:

- Are formally documented standards that specify how staff should perform their allocated work function/tasks
- Are descriptions of the skills and knowledge required to perform a task or activity at the level of a required standard as prescribed by the organisation or body that develops the competency standard
- They are outcome-based in that they describe what the employee will be able to do.

11. What are the two standard ways to identify competencies and specifications which need to be used in workplace training?

- Talking to people – such as:
 - Management – at different levels across all departments
 - Partners
 - Stakeholders
 - Employees served by other employees within the business
 - Government officers who have industry responsibilities
- Reading relevant documents – such as:
 - Operating Manuals
 - SOPs
 - Agreements/contracts with partners and stakeholders
 - Public statements (Mission; Vision; Core Values) of the organisation
 - Advertisements and materials promoting the products and services of the organisation.

12. Give an example of a competency standard.

No model answer.

13. Give four examples of possible 'goals and requirements' for workplace training courses.

- Identification of staff to be trained
- Identification of numbers to be trained
- Identification of training outcomes
- Identification host enterprise requirements
- Budget parameters
- Time-related details
- Expected changes to the operation of the business
- Level of multi-skilling to be achieved
- Amount of funding to be earned.

14. Identify six factors which may combine to produce the 'scope and breadth' of required workplace training.

- Competencies to be achieved
- Work areas – to which courses apply
- Definition of the content to be provided
- Specification of organisational training needs to be addressed
- Details of organisational orientation to workplace training
- Definition of staff eligibility to participate in training courses
- Description of factors that limit or restrict access to the training course.

15. Give four approaches which can be used to identify learner cohorts for workplace training.

- Analysing requests for training
- Evaluating TNAs and skills analyses and audits
- Processing internal plans and operational imperatives
- Re-visiting initial reasons the organisation had for engaging with workplace training
- Using the formal structure of the organisation as a basis for the exercise
- Examining guidelines which may be attached to external funding received.

16. Give six examples of target groups that workplaces may determine for their training courses.

- Existing employees
- New employees
- Formalised training sanctioned and managed by the Training Authority
- Individuals training in new skills
- Staff seeking to change careers
- Staff being groomed for higher level duties
- Staff seeking to engage in personal growth
- Discharging legislated requirements.

17. Give six examples of characteristics which can distinguish between different user groups for workplace training.

- Level and breadth of work experiences
- Level and breadth of formal education
- Skill/competency profile
- Socio-economic background
- Cultural issues
- Specific needs of workers
- Motivation for training
- Basic operational needs
- Available time to commit to training
- Preferred learning styles of the workers.

18. Name six approaches which may be used to identify supplementary sources of information for workplace training courses.

- Talk to management – to find out what they know about and what they want to be covered
- Use personal industry knowledge and experience – as the basis for deciding what should be addressed
- Talk to existing workplace trainers and mentors – to see what they use, have and/or believe needs to be used
- Talk to other people in the organisation – supervisors, senior workers, those who hold key positions
- Talk to officers/inspectors government agencies and authorities – with responsibilities for the industry to see what is available from them to assist with training
- Talk to industry peak bodies – to obtain information and/or resources they have to support workplace training
- Obtain and read relevant legislation – as this is *a/ways* an essential supplementary source to identified workplace content
- Observe workplace practices – to identify the sources/resources they use and or access as part of their normal working day
- Reading responses to internal communications –such as:
 - Surveys on training
 - Questions about training needs and resources
 - Requests for materials to be used as part of training
- Evaluating internal documentation – see below under ‘Examples of supplementary sources’.

19. Give six reasons it is important to identify supplementary sources of information for workplace training courses.

- Give a realistic context for the training
- Provide additional detail, information and content
- Serve to impart relevance to content
- Assist trainers in their planning and preparation
- Help meet compliance and other mandatory obligations
- Demonstrate a professional approach to the initiative
- Personalise training delivery to needs of user groups and/or individuals
- Meet requirements of any partners or other stakeholders with an interest in training provision.

20. Provide six examples of supplementary sources of information for workplace training courses.

- Job descriptions and job specifications
- Employee records – showing:
 - Previous experience and qualifications of learners
 - Employee résumés submitted upon application for employment
- Results of/reports from workplace performance appraisals – conducted by management/HR with the workers of the business
- Government and industry body publications – as relevant to:
 - The industry sector and/or business of the organisation
 - Compliance
 - Codes of Practice
 - Industry advice and alerts
- Internal documentation – including:
 - Complaints received
 - Safety records
 - Departmental performance reports
 - Material and resource usage
 - Productivity records
 - Business plans, departmental plans and day-to-day plans
- Training resources and materials prepared by other organisations such as:
 - Other businesses/workplace training systems
 - Accredited training providers
 - Commercial providers of training materials.

21. Give three benefits of using the actual workplace setting for training.

- Training is 100% workplace-based – using actual workplace equipment and implementing organisational policies and procedures
- All the required resources/equipment are available – equipment, systems, technology, information, databases, forms and documentation, computer access
- Training may be able to be delivered during rostered working hours for the learners – as opposed to having to organise and fund training sessions, back-filling and the cost of trainers and/or opportunity cost of slower business (or lost sales) due to reduced staffing numbers.

22. In relation to settings for workplace training, what is a 'simulated context'?

A simulated context can be seen as:

- A role play conducted in the actual workplace setting – either after hours, or during business when there is an opportunity to do so without damaging service levels
- A room/area (such as the training room, an office, the Board Room, or some other suitable space) which is set-up as a mock setting in which practice, demonstrations and role plays can be conducted in a realistic workplace-like environment.

23. Give four possibilities which may be termed 'off-site venues' for the purposes of workplace training.

- Training delivered at an approved training institute – which may be the case where employees are undertaking recognised apprenticeships or traineeships
- Training provided by a partner or organisation the workplace does business with – for example:
 - Carriers might require staff to attend training at their office/s to showcase/train workers in the operation of a new system, or to explain/give information about an initiative they have introduced
 - Tour Operators may invite employees to attend and participate in a tour – in order to gain first-hand experience they can use when advising customers and making sales
- Excursions or field trips to other offices, businesses, venues, destinations or agencies – to:
 - View their operations
 - Speak to staff
 - Capture information and documentation for use at the home organisation
 - Create networks and professional relationships
- Training provided by government authorities and agencies – to inform staff about new and/or changed legislation that impacts the operation of the business and raises new/changed compliance requirements
- Training delivered by industry bodies – who represent the interests of the industry to the government, the public and the media.

24. List four possible benefits of online training.

- Is cost-effective
- Can be accessed at any time
- Can be accessed from any/most locations
- Can be viewed/accessed over-and-over – as many times as the learner requires
- Is useful for providing information, facts and figures
- Can be used to show diagrams and photographs, charts and schedules, packages and rates, policies and procedures
- May feature videos of activities required.

25. List six points to take into account when considering training resources required for workplace training courses.

- Required resources need to be organised and obtained well in advance – as they are integral to the actual delivery of the training, as planned
- Organisations traditionally have limited budgets for training or are reluctant to spend money on training-related items – so attention must be paid to:
 - Using or acquiring resources which are available free-of-charge – from suppliers, the organisation itself, other businesses the organisation deals with, government agencies, joint-venture partners, carriers and industry bodies
 - Buying and/or preparing resources and materials which can be re-used – in order to minimise costs
- Resources required must comply relate directly to the content of the training to be delivered – and not be irrelevant or off-topic
- Items must reflect or duplicate workplace protocols – and not feature unwanted or irrelevant practices or information
- Items must be up-to-date – the things bought and/or developed for use in training must match/reflect current (or projected future) workplace need/practices
- Resources need to be user-friendly – in that they must be written in a language and style, and at a level that can be understood by the learners
- There is sufficient quantity – to enable all learners to be accommodated as planned

This may require buying multiple numbers of books, acquiring enough equipment to allow all learners to gain practical hands-on experience, photocopying notes for each person

- Items must be safe to use – all training equipment must comply with relevant health and safety legislation and be at the same standard of safety as the items used in the actual workplace.

26. List four points to take into account when considering staffing provision for workplace training.

There can be a need to:

- Organise and/or acquire qualified and experienced trainers and/or assessors
- Conduct internal 'Train the Trainer' courses
- Identify and arrange technical and support staff
- Arrange staff to back-fill those who are undertaking training
- Organise guest speakers to supplement training.

27. Name four possible funding considerations related to the provision of workplace training.

There is always a need to:

- Confirm necessary funding has been authorised by management or administration – to support training delivery
- Identify the protocols for accessing the available funding – so it can be used as required
- Obtain the budget/s for the training program – and ensure an understanding of their contents, layout, terminology, budget lines and the constraints imposed by same
- Determine the reporting procedures required by the organisation – as they apply to accountability and responsibility associated with the budget
- Make sure there is certainty about what the funding can be used for – and what it may not be used for
- Monitor incoming funds from external sources – to ensure they arrive as expected/promised.

28. List three vital considerations which must be taken into account when designing workplace training courses.

- Take into account relevant training strategy documentation as applicable to the nature of the training
- Feature contributions from relevant others
- Factor in feedback and comment from previous workplace training courses.

29. Give four examples of training strategy documentation which may be used to help with the design of workplace training courses.

- Recognised competency standards
- Existing training-related documents
- Service- and/or production-related documents – particularly product and service delivery specifications/criteria or standards
- Statements the organisation has made about training delivery and the strategies which will be followed/implemented
- Policies
- Procedures of the business
- Plans of the business
- Budgets.

30. Give three reasons there is a need to determine the competency/educational profile of the potential learners for workplace training courses.

So that this information:

- Can be factored into the development of the content of the training – such that training covers the material (skills, knowledge and attitudes) required
- Is used to determine the levels at which the training is pitched – in terms of language, literacy and numeracy used in training and assessment materials
- Influences the way training is packaged – that is, structured, prioritised, sequenced and timed for delivery
- Will be factored into overall training – especially the way individual training courses and/or sessions will be delivered/presented to participants and the time spent identifying and legitimising reasons for learners to participate.

31. Identify six topics which should be the focus of attention and research when determining the competency/educational profile of target user groups for workplace training.

- Level of secondary schooling achieved
- Highest level of qualification attained
- Date(s) of previous training
- How training was undertaken
- Identification of the organisation that conducted the training
- Duration of training undertaken by the individuals
- Input from the human resource department
- Reference to 'implied learning' as opposed to certificated learning
- The personal motivation for individuals to undertake training.

32. Differentiate between the visual, auditory and kinesthetic learning styles.

- An auditory learning style – focusing on the learner learning by listening to tapes, people, anecdotal evidence, guest speakers, DVDs and hearing sounds and noises
- A visual learning style – focusing on seeing things, watching work as it is being done, observing demonstrations, looking at things, viewing DVDs or photographs and reading the printed word
- A kinaesthetic learning style – focusing on hands-on work, touching things, getting to grips with actual equipment and items, practical work.

33. Briefly explain the 'hemispheric dominance' learning style theory.

In which there is personal learning style is based on brain functioning.

This model proposes:

- People who are 'left brain' learn better through an analytical approach, featuring a step-by-step approach from beginning to end of a task/competency
- People who are 'right-brain' learn better through gaining an appreciation of the context for a task and then focusing in on the specifics of the job.

34. Name the four learning styles identified by Honey and Mumford and describe two of these.

Activist

Whose attributes are they?

- "... learn by doing ... need to get their hands dirty, to dive in with both feet first. Have an open-minded approach to learning, involving themselves fully and without bias in new experiences."

Theorist

These are learners who:

- "... like to understand the theory behind the actions. They need models, concepts and facts in order to engage in the learning process. Prefer to analyse and synthesise, drawing new information into a systematic and logical 'theory'."

Pragmatist

The pragmatist learner needs:

- "... to be able to see how to put the learning into practice in the real world. Abstract concepts and games are of limited use unless they can see a way to put the ideas into action in their lives. Experimenters, trying out new ideas, theories and techniques to see if they work."

Reflector

The reflector will:

- "... learn by observing and thinking about what happened. They may avoid leaping in and prefer to watch from the sidelines. Prefer to stand back and view experiences from a number of different perspectives, collecting data and taking the time to work towards an appropriate conclusion."

35. Give four reasons those designing training courses may want to identify existing training resources and materials.

- Save time – where existing items can be used ‘as is’
- Save money – by avoiding the purchase of items which are already available
- Ensure consistency – with previous training delivery
- See what was done/delivered before – to obtain a frame of reference
- Provide a basis/guide – for acquiring and/or developing new resources and materials.

36. Give four examples of training resources.

- Trainee manuals, user guides, trainee guides and similar – for learners to use as the hard copy basis for their training
- Trainer/facilitator guides – used by trainers to assist in training delivery
- Sample training courses – conducted by the organisation of other businesses or providers
- Work specific case studies – used in training to focus thinking on a specific work-related topic
- Professional development resources – indicating content covered, duration, and key objectives
- Assessment resources – used by assessors to gather evidence to make a decision about learner progress (and, for CBA, to make the ‘Competent’/‘Not yet Competent’ decision)
- Commercially available resources to support identified need – as produced by training-support organisations
- In-house organisational resources – generated by, say, trainers and/or assessors to reflect specific workplace standards and requirements
- Competency standards – as produced by a Training Authority
- Videos, CDs, DVDs and audio tapes – used during training sessions to support and enhance training provision
- Record and log books – to capture (for example) attendance, individual learner attainment of competency/stated objectives, work completed, feedback from trainers and assessors
- Manufacturer’s guides/instructions – used to provide relevant information for certain training content.

37. Give four examples of training materials.

- Handouts – generated to provide notes on course content, additional detail not provided in generic texts, and/or organisation-specific information: may also be referred to as ‘information sheets’
- Worksheets and work books – content/topic-specific exercises for learners to work through and apply threat learning which may take the form of:
 - Prepared case studies
 - Task sheets
 - Activity sheets
- Prepared presentations used by trainers in the delivery of training sessions – such as:
 - Overheads
 - PowerPoint presentations
 - Role play scenarios
 - Work projects
 - Assignments
- Workplace-based documentation – such as:
 - Policies and standard operating procedures
 - Work and product specifications
 - Quality standards and specifications
 - Schedules and information provided by third parties, carriers, suppliers and bodies/organisations associated with the employer
 - Forms (such as tickets, itineraries, invoices, receipts, letters, advices) and reports (such as management, health and safety, departmental, performance) used within the business.

38. Identify four 'relevant others' who may need to be involved in generating content for workplace training courses.

- Colleagues
- Trainers and facilitators
- Industry contacts
- Suppliers and vendors
- Human resource personnel
- End-users and customers
- Subject specialists
- Language, literacy and numeracy specialists.

39. Give four options for workplace training course content.

- Following the design approach of the training strategy
- Organising the training course around identified and discrete content/topics
- Integrating identified training content within wider training courses
- Focusing the content in accordance with principles of adult learning
- Listing requirements for training delivery
- Ensuring content aligns with internal and external requirements as these apply to individual courses
- Meeting staff need.

40. Name four operational issues linked to costs which need to be considered in relation to the provision of workplace training.

Expenses:

- Inherent in venue hire
- Involved in establishing the training room
- Related to purchase of materials and resources
- For administration support
- Necessary for staffing costs
- Regarding use of external personnel.

41. Give four logistical issues which need to be addressed as part of workplace-based training delivery.

- Fundamental training requirements
- Communication needs
- Staff availability
- Availability of equipment specifically for training purposes as opposed to production/service purposes
- Overall timeframes for training courses.

42. What are the four basic principles of adult learning identified by Malcolm Knowles?

- Adults wish to be self-directing in their learning
- Adults bring a vast wealth of experience to the learning process – their learning must build on this experience
- Adults undertake study to meet needs they have identified
- Adult learning must be relevant to the identified needs.

43. Describe four practical ways the principles of adult learning as identified by Knowles can be applied to workplace training.

Based on Knowles' findings, adult learning:

- Should be 'active' – adults learn by doing, being involved, being active
- Needs to be meaningful and relevant:
 - The training must relate to the learner and what they need to do
 - Training must be important for the person and/or their job or career
 - Training must build on previous/existing knowledge
- Should be holistic:
 - The more senses employed, the more effective learning is likely to be
 - The senses which can be employed include sight, sound, taste, smell and touch
 - Is concerned with first and last impressions:
 - Learners need to feel there is direction and purpose to their training
 - Training sessions will need to be planned and in a logical sequence with clear introductions and conclusions
- Needs to be practised and reinforced:
 - Within the training
 - To develop the skill or knowledge
- Must feature feedback:
 - For the Trainer and the learner
 - To advise the learner whether or not they are on the right track or not
 - Which is constructive and supportive at all times
- Has to be rewarded – the rewards received:
 - Need to match the reasons/motivation for learning
 - Will vary between learners and vary over time.

44. Describe four standard requirements which need to be observed in relation to the selection of the most appropriate option for workplace training.

- Identified courses (topics/content) must be the focus for the training
- Training priorities need to be accommodated
- Time is always an issue
- Cost is always an issue
- Training and practice must be workplace-focussed
- Wherever possible, preferred learner styles should be accommodated
- Mandated obligations must be complied with
- Standard practice is liaising with management regarding proposed options.

45. What is the 'basic division' described in the notes in relation to workplace training delivery options?

- Training delivered in the workplace – which can be seen as:
 - On-the-job training, as well as
 - Off-the-job training
- Training delivered at a remote location – through:
 - Another provider
 - Another organisation.

46. Identify and briefly describe four training delivery options which may be used to provide workplace training.

Answers may include the following but others exist:

Classroom Instructor-led training:

- Blackboard or whiteboard; Overhead projector; Video portion; PowerPoint; Storytelling.

Interactive methods:

- Quizzes; Small group discussions; Case studies; Active summaries; Q&A sessions; Questions cards; Role-playing; Participant control; Demonstrations.

Hands-on Training:

- Cross-training; Demonstrations; Coaching; Apprenticeships; Drills.

Computer-Based Training:

- Text-only; CD-ROM; Multimedia; Virtual reality.

Online or e-learning:

- Web-based training; Tele- or video-conferencing; Audio conferencing; Web meetings, or webinars; Online colleges or universities; Collaborative document preparation; E-mail.

Blended learning

- Which means using more than one training method to train on one subject.

47. List eight stakeholders who may need to be given information about the development of workplace training courses.

- Business owners
- The Board of Management within the organisation
- Employees within the organisation
- Industry, professional and trade associations and bodies
- Trainers and assessors
- Team leaders, supervisors and managers
- Training participants and employees – past and present
- Technical experts
- Union representatives
- Joint-venture partners
- Consultative committees within the business
- Relevant industry training providers and associated training agencies.

48. Identify four options for sharing information about the development of workplace training courses with stakeholders.

- Conducting dedicated meetings and information sessions directed specifically at sharing information – and inviting selected stakeholders to attend
- Attending and speaking at scheduled internal meetings – such as staff briefings, staff meetings, management meetings
- Providing hard copy information to people
- Disseminating information electronically
- Speaking at organisational events and functions
- Including articles in the organisational newsletter
- Loading information on the workplace intranet
- Posting notices on workplace notice boards
- Adding notes to wage envelopes.

49. Give four reasons workplaces have a need to advertise upcoming workplace training courses to employees.

- Let staff know about what is planned
- Give employees advanced notice of when sessions are being held
- Enable staff to make appropriate selections
- Optimise participation
- Motivate individuals to participate
- Seek feedback from potential learners.

50. Name four ways an organisation might communicate information about training courses with stakeholders.

- Listing courses and proposed schedules on the organisational website and/or intranet – under, for example:
 - The ‘New information’ (or similar) section
 - The ‘Training’ pages
- Inserting an article in the staff newsletter – advising basic detail and directing staff to other locations for more detailed information
- Making short presentations at staff meetings and briefings – to identify and describe what is planned
- Posting information on staff notice boards – giving names of courses, dates, times and where to go to get more information
- Talking to target groups of staff – and asking them to pass on the detail to other employees
- Being available to talk about the courses and provide information – when required by individual staff
- Using alternative communication options as deemed appropriate for organisational staff and as/if used for other notifications – such as the use of emails, SMS or social media
- Leaving hard copy information sheets at strategic locations throughout the business for staff to take – these would contain course descriptions and intended delivery dates/times.

51. Identify four activities which could/should be used to optimise worker engagement with workplace training courses.

- Motivating staff to participate by verbally encouraging them to enrol and attend
- Being up-beat and optimistic about the initiatives
- Recommending participation and explaining the workplace benefits of undertaking the course
- Talking from personal experience about the benefits of participating in training/workplace training
- Using/asking other employees who have successfully participated in workplace training to talk about and promote the initiatives
- Engaging management support for the training course – in terms of actions such as:
 - Getting managers to talk at staff meetings – to promote workplace training
 - Having managers issue a written statement – supporting participation in the courses and encouraging staff to attend
 - Making sure management informs supervisors to facilitate staff releases to training.

52. Give three reasons promotional activities designed to encourage staff to participate in workplace training should be monitored.

- Determine their effectiveness – and identify how many staff have enrolled/shown interest
- Decide whether there is a need for more and/or different promotional activities – perhaps the reality is staff are interested in attending but do still not know what is planned based on previous promotional activities
- Make a decision about whether more time is required – to continue the promotion using the techniques/approaches currently being used
- Check the costs of promoting the training are within planned constraints – and have not exceeded budget.

53. What are the three basic ways to monitor promotional activities relating to upcoming workplace training courses?

- Talking to staff and target groups – to determine:
 - Their level of interest and/or potential participation
 - How they became aware of the training courses available
- Counting relevant factors – such as:
 - Number of times internet-based information/pages have been accessed
 - Number of information sheets taken from distribution points
 - Number of requests for information received
- Tracking actual interest – in terms of:
 - Expressions of interest and formal enquiries and questions – related to undertaking the training course
 - Registrations and/or enrolments received.

Observation checklist

Student name	
Assessor name	
Location/venue	
Unit of competency	Plan and promote training courses D2.TRD.CL8.06
Dates of observation	
Instructions	- Over a period of time observe the student completing each of the following tasks: - Define the parameters of the workplace training course - Generate options for designing the workplace training course - Promote the workplace training course - Enter the date on which the tasks were undertaken - Place a tick in the box to show they completed each aspect of the task to the standard expected in the enterprise - Complete the feedback sections of the form, if required.

Did the candidate	Yes	No
Element 1: Define the parameters of the workplace training course		
Identify the purpose of the workplace training course	☐	☐
Identify the focus of the workplace training course	☐	☐
Identify competency standards or other specifications on which the workplace training course is to be based	☐	☐
Determine the goals and requirements of the workplace training course	☐	☐
Determine the scope and breadth of the workplace training course	☐	☐
Identify target group users of the workplace training program and their characteristics	☐	☐
Identify supplementary sources of information to support the workplace training course	☐	☐
Identify training environment requirements for the workplace training course	☐	☐

Did the candidate	Yes	No
Identify operational resource requirements for the workplace training course	☐	☐
Element 2: Generate options for designing the workplace training course		
Utilise training strategy documentation to guide workplace training course development	☐	☐
Determine the competency/educational profile of the target user group	☐	☐
Determine the learning styles of the target workplace trainee group	☐	☐
Identify existing training resources and training materials that can be applied to the workplace training course	☐	☐
Generate options for the workplace training course content in collaboration with relevant others	☐	☐
Consider operational issues in regard to workplace training course provision	☐	☐
Integrate the principles of adult training into the workplace training course	☐	☐
Select the most appropriate options	☐	☐
Element 3: Promote the workplace training course		
Share information regarding development of the workplace training course with key stakeholders, as required	☐	☐
Advertise the impending conduct of the workplace training course	☐	☐
Encourage target group user participation in the workplace training course	☐	☐
Monitor promotional activities	☐	☐
Did the student's overall performance meet the standard?	☐	☐

Third Party Statement

Student name:			
Name of third party:		Contact no:	
Relationship to student:	☐ Employer ☐ Supervisor ☐ Colleague ☐ Other Please specify: _____ <i>Please do not complete the form if you are a relative, close friend or have a conflict of interest]</i>		
Unit of competency:	Plan and promote training courses D2.TRD.CL8.06		
The student is being assessed against industry competency standards and we are seeking your support in the judgement of their competence. Please answer these questions as a record of their performance while working with you. Thank you for your time.			
Do you believe the trainee has demonstrated the following skills? <i>(tick the correct response]</i>	Yes	No	Not sure
Identifies purposes, focus and competency standards or other specifications on for workplace training course	☐	☐	☐
Determines the goals, requirements scope and breadth of the workplace training course	☐	☐	☐
Identifies target group users, sources of information, training environment and operational requirements for workplace training	☐	☐	☐
Uses training strategy documentation to guide workplace training course development	☐	☐	☐
Determines the competency/educational profile of the target user group and the learning styles of the target workplace trainee group	☐	☐	☐
Identifies existing training resources and training materials that can be applied to the workplace training course	☐	☐	☐
Generates options for workplace training in collaboration with others and considers operational issues in training course provision	☐	☐	☐
Integrates principles of adult training into workplace training course and selects most appropriate options	☐	☐	☐
Promotes, advertises and encourages engagement with workplace training	☐	☐	☐
