# Competency Based Assessment (CBA) – An Introduction for Assessors

Assessment is the process of identifying a participant's current knowledge, skills and attitudes sets against all elements of competency within a unit of competency.

## ***Suggested Assessment Methods***

For each unit of competency a number of assessment tools have been identified including:

- Work Projects
- Oral Questions
- Written Questions
- Third Party Statements
- Observation Checklists.

Instructions and Evidence Recording Sheets have been identified in this Assessment Manual for use by Assessors.

## ***Alternative Assessment Methods***

Whilst the above mentioned assessment methods are suggested assessment methods, the assessor may use an alternate method of assessment taking into account:

- a) The nature of the unit
- b) The strengths of participants
- c) The number of participants in the class
- d) Time required to complete assessments
- e) Time dedicated to assessment
- f) Equipment and resources required.

Alternate assessment methods include:

- Practical demonstrations
- Practical demonstrations in simulated work conditions
- Problem solving
- Portfolios of evidence
- Critical incident reports
- Journals
- Oral presentations
- Interviews
- Videos
- Visuals/slides/audiotapes

- Case studies
- Log books
- Projects and Role plays
- Group projects
- Recognition of Prior Learning.

Whilst there is no specific instruction or evidence collection documents for all the alternative assessment methods, assessors can record competency in the 'Other' section within the 'Competency Recording Sheet'.

### ***Selection of Assessment Methods***

Each assessor will determine the combination of Assessment Methods to be used to determine Competency for each Competency Unit on a student by student basis.

'Sufficient' evidence to support the 'Pass Competent'/'Not Yet Competent' decision must be captured.

In practice this means a minimum of 2 – 3 Assessment Methods for each candidate for each Competency Element is suggested.

At least one method should provide evidence of practical demonstration of competence.

The following assessment methods deemed to provide evidence of practical demonstration of competence include:

- Practical Work Projects
- Third Party Statement
- Observation Checklist.

### ***Assessing Competency***

Competency based assessment does not award grades, but simply identifies if the participant has the knowledge, skills and attitudes to undertake the required task to the specified standard.

Therefore, when assessing competency, an assessor has two possible results that can be awarded:

- 'Pass Competent' (PC)
- 'Not Yet Competent' (NYC).

#### **Pass Competent (PC)**

If the participant is able to successfully answer or demonstrate what is required, to the expected standards of the performance criteria, they will be deemed as 'Pass Competent' (PC).

The assessor will award a 'Pass Competent' (PC) if they feel the participant has the necessary knowledge, skills and attitudes in all assessment tasks for a unit.

#### **Not Yet Competent' (NYC)**

If the participant is unable to answer or demonstrate competency to the desired standard, they will be deemed to be 'Not Yet Competent' (NYC).

This does not mean the participant will need to complete all the assessment tasks again. The focus will be on the specific assessment tasks that were not performed to the expected standards.

The participant may be required to:

- a) Undertake further training or instruction
- b) Undertake the assessment task again until they are deemed to be 'Pass Competent'.

### ***Regional Qualifications Framework and Skills Recognition System***

The 'Regional Qualifications Framework and Skills Recognition System', also known as the 'RQFSRS' is the overriding educational framework for the ASEAN region.

The purpose of this framework is to provide:

- A standardised teaching and assessment framework
- Mutual recognition of participant achievement across the ASEAN region. This includes achievement in individual Units of Competency or qualifications as a whole.

The role of the 'RQFSRS' is to provide, ensure and maintain 'quality assurance' across all countries and educational providers across the ASEAN region.

### ***Recognition of Prior Learning (RPL)***

Recognition of Prior Learning is the process that gives current industry professionals who do not have a formal qualification, the opportunity to benchmark their extensive skills and experience against the standards set out in each unit of competency/subject.

This process is a learning and assessment pathway which encompasses:

- Recognition of Current Competencies (RCC)
- Skills auditing
- Gap analysis and training
- Credit transfer.

### ***Code of Practice for Assessors***

This Code of Practice provides:

- Assessors with direction on the standard of practice expected of them
- Candidates with assurance of the standards of practice expected of assessors
- Employers with assurance of the standards maintained in the conduct of assessment.

The Code detailed below is based on the International Code of Ethics and Practice (The National Council for Measurement in Education [NCME]):

- The differing needs and requirements of the person being assessed, the local enterprise and/or industry are identified and handled with sensitivity
- Potential forms of conflict of interest in the assessment process and/or outcomes are identified and appropriate referrals are made, if necessary
- All forms of harassment are avoided throughout the planning, conducting, reviewing and reporting of the assessment outcomes

- The rights of the candidate are protected during and after the assessment
- Personal and interpersonal factors that are not relevant to the assessment of competency must not influence the assessment outcomes
- The candidate is made aware of rights and process of appeal
- Evidence that is gathered during the assessment is verified for validity, reliability, authenticity, sufficiency and currency
- Assessment decisions are based on available evidence that can be produced and verified by another assessor
- Assessments are conducted within the boundaries of the assessment system policies and procedures
- Formal agreement is obtained from both the candidate and the assessor that the assessment was carried out in accordance with agreed procedures
- The candidate is informed of all assessment reporting processes prior to the assessment
- The candidate is informed of all known potential consequences of decisions arising from an assessment, prior to the assessment
- Confidentiality is maintained regarding assessment results
- The assessment results are used consistently with the purposes explained to the candidate
- Opportunities are created for technical assistance in planning, conducting and reviewing assessment procedures and outcomes.

## ***Instructions and Checklist for Assessors***

### **Instructions**

General instructions for the assessment:

- Assessment should be conducted at a scheduled time that has been notified to the candidate
- Facilitators must ensure participants are made aware of the need to complete assessments and attend assessment sessions
- If a participant is unable to attend a scheduled session, they must make arrangements with the Assessor to undertake the assessment at an alternative time
- At the end of the assessment the Assessor must give feedback and advise the participant on their PC/NYC status
- Complete the relevant documentation and submit to the appropriate department.

### **Preparation**

- Gain familiarity with the Unit of Competency, Elements of Competency and the Performance Criteria expected
- Study details assessment documentation and requirements
- Brief candidate regarding all assessment criteria and requirements.

### **Briefing Checklist**

- Begin the assessment by implementing the following checklist and then invite the candidate to proceed with assessment.

**Checklist for Assessors**

| Prior to the assessment I have:                                                                                                                                                                        | Tick (✓) | Remarks |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|---------|
| Ensured the candidate is informed about the venue and schedule of assessment.                                                                                                                          |          |         |
| Received current copies of the performance criteria to be assessed, assessment plan, evidence gathering plan, assessment checklist, appeal form and the company's standard operating procedures (SOP). |          |         |
| Reviewed the performance criteria and evidence plan to ensure I clearly understood the instructions and the requirements of the assessment process.                                                    |          |         |
| Identified and accommodated any special needs of the candidate.                                                                                                                                        |          |         |
| Checked the set-up and resources for the assessment.                                                                                                                                                   |          |         |
| <b>During the assessment I have:</b>                                                                                                                                                                   |          |         |
| Introduced myself and confirmed identities of candidates.                                                                                                                                              |          |         |
| Put candidates at ease by being friendly and helpful.                                                                                                                                                  |          |         |
| Explained to candidates the purpose, context and benefits of the assessment.                                                                                                                           |          |         |
| Ensured candidates understood the assessment process and all attendant procedures.                                                                                                                     |          |         |
| Provided candidates with an overview of performance criteria to be assessed.                                                                                                                           |          |         |
| Explained the results reporting procedure.                                                                                                                                                             |          |         |
| Encouraged candidates to seek clarifications if in doubt.                                                                                                                                              |          |         |
| Asked candidates for feedback on the assessment.                                                                                                                                                       |          |         |
| Explained legal, safety and ethical issues, if applicable.                                                                                                                                             |          |         |
| <b>After the assessment I have:</b>                                                                                                                                                                    |          |         |
| Ensured candidate is given constructive feedback.                                                                                                                                                      |          |         |
| Completed and signed the assessment record.                                                                                                                                                            |          |         |
| Thanked candidate for participating in the assessment.                                                                                                                                                 |          |         |

## ***Instructions for Recording Competency***

### **Specifications for Recording Competency**

The following specifications apply to the preparation of Evidence Gathering Plans:

- A Competency Recording Sheet must be prepared for each candidate to ensure and demonstrate all Performance Criteria and Competency Elements are appropriately assessed. This Sheet indicates how the Assessor will gather evidence during their assessment of each candidate
- This Competency Recording Sheet is located at the end of the Assessment Plan
- It is the overriding document to record competency
- The Assessor may vary the Competency Recording Sheet to accommodate practical and individual candidate and/or workplace needs
- Assessor must place a tick (✓) in the 'Assessment Method' columns to identify the methods of assessment to be used for each candidate
- Multiple Competency Elements/Performance Criteria may be assessed at the one time, where appropriate
- The assessor and participant should sign and date the Competency Recording Sheet, when all forms of evidence and assessment have been completed
- The assessor may provide and feedback or clarify questions which the participant may have in regards to the assessment grade or findings
- All documents used to capture evidence must be retained, and attached to the Competency Recording Sheet for each candidate for each Competency Unit.

## ***Instructions for Different Assessment Methods***

### **Specifications for Work Project Assessment**

These guidelines concern the use of work projects.

The work projects identified in the Training Manuals involve a range of tasks, to be performed at the discretion of the Assessor.

Work project tasks can be completed through any form of assessment as identified in the Trainer and Trainee Manuals and stated at the start of this section.

Assessors should follow these guidelines:

- Review the Work Projects at the end of each 'Element of Competency' in the Trainee Manual to ensure you understand the content and what is expected
- Prepare sufficient resources for the completion of work activities including:
  - Time – whether in scheduled delivery hours or suggested time participants to spend outside of class hours
  - Resources – this may involve technical equipment, computer, internet access, stationery and other supplementary materials and documents
- Prepare assessment location (if done in class) making it conducive to assessment
- Explain Work Projects assessment to candidate, at the start of each Element of Competency. This ensures that participants are aware of what is expected and can collate information as delivery takes place

- Assessors can use the following phrase as a guide (where an 'X' is identified, please input appropriate information):  

"At the end of each Element of Competency there are Work Projects which must be completed. These projects require different tasks that must be completed.

These work projects are part of the formal assessment for the unit of competency titled X:

  - You are required to complete these activities:
    - Using the 'X' method of assessment*
    - At 'X' location*
    - You will have 'X time period' for this assessment*
  - You are required to compile information in a format that you feel is appropriate to the assessment
  - Do you have any questions about this assessment?"
- Commence Work Project assessment:
  - The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
  - Participants complete work projects in the most appropriate format
  - Participants must submit Work Project evidence to the assessor before the scheduled due date
- Assessor must assess the participant's evidence against the competency standards specified in each Element of Competency and their own understanding. The assessor can determine if the participant has provided evidence to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### ***Specifications for Oral Question Assessment***

These guidelines concern the use of oral questioning.

Assessors should follow these guidelines.

- Prepare Assessment Record for Oral Questioning. One record for each candidate:
  - Enter Student name
  - Enter Assessor name
  - Enter Location
- Familiarise self with Questions to be asked
- Prepare assessment location (table and chairs) making it conducive to assessment
- Explain Oral Questioning assessment to candidate, using the following phrase as a guide (where a 'X' is identified, please input appropriate information):  

*"These oral questions are part of the formal assessment for the unit of competency titled X.*

*There are X questions and you are required to answer all of them to the best of your ability and I will record whether or not you have answered correctly.*

*We have 60 minutes for this assessment.*

- I will give you feedback at the end of the assessment
- Do you have any questions about this assessment?”
- Commence Oral Questioning assessment:
  - Complete Assessment Record for the Oral Questioning by:
    - a) Ticking PC or NYC, as appropriate
    - b) Entering ‘Remarks’ as required
    - c) Completing Oral Questioning within 60 minutes
- Complete Oral Questioning and provide feedback to candidate
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### **Specifications for Written Question Assessment**

These guidelines concern the use of written questioning.

Assessors should follow these guidelines:

- Familiarise self with Questions and Answers provided
- Print and distribute copies of ‘Written Questions’ for participants. Ideally this should take place with adequate time for participants to answer all questions before the expected due date
- Explain Written Questioning assessment to candidate, using the following phrase as a guide (where a ‘X’ is identified, please input appropriate information):

“These written questions are part of the formal assessment for the unit of competency titled X.

There are X questions and you are required to answer all of them to the best of your ability.

You may refer to your subject materials, however where possible try to utilise your existing knowledge when answering questions.

Where you are unsure of questions, please ask the Assessor for further instruction. This may be answering the question orally or asking the assessor to redefine the question.

We have X time for this assessment:

- The due date for completion of this assessment is X
- On this date you must forward the completed questions to the assessor by X time on the date of X
- Do you have any questions about this assessment?”
- The assessor may give time for participants to review the questions at this time to ensure they understand the nature of the questions. The assessor may need to clarify questions
- Participants may record written answers (where possible)
- Participants must submit the written answers to the assessor before the scheduled due date

- Assessor must assess the participant's written answers against the model answers provided as a guide, or their own understanding. The assessor can determine if the participant has answered the questions to a 'competent' standard
- Transcribe results/details to Competency Recording Sheet
- Forward/file assessment record.

### ***Specifications for Observation Checklist***

These specifications apply to the use of the Observation Checklist in determining competency for candidates.

Only an approved assessor is authorised to complete the Observation Checklist.

The assessor is required to observe the participant, ideally in a simulated environment or their practical workplace setting and record their performance (or otherwise) of the competencies listed on the Observation Checklist for the Competency Unit.

To complete the Observation Checklist the Assessor must:

- Insert name of candidate
- Insert assessor name
- Insert identify of location where observations are being undertaken
- Insert date/s of observations – may be single date or multiple dates
- Place a tick in either the 'Yes' or 'No' box for each listed Performance Criteria to indicate the candidate has demonstrated/not demonstrated that skill
- Provide written (and verbal) feedback to candidate – as/if appropriate
- Sign and date the form
- Present form to candidate for them to sign and date
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Observation Checklist.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the participant.

### ***Specifications for Third Party Statement***

These specifications relate to the use of a relevant workplace person to assist in determining competency for candidates.

The Third Party Statement is to be supplied by the assessor to a person in the workplace who supervises and/or works closely with the participant.

This may be their Supervisor, the venue manager, the Department Manager or similar.

The Third Party Statement asks the Supervisor to record what they believe to be the competencies of the participant based on their workplace experience of the participant. This experience may be gained through observation of their workplace performance, feedback from others, inspection of candidate's work etc.

A meeting must take place between the Assessor and the Third Party to explain and demonstrate the use of the Third Party Statement.

To complete the Third Party Verification Statement the Assessor must:

- Insert candidate name
- Insert name and contact details of the Third Party
- Tick the box to indicate the relationship of the Third Party to the candidate
- Present the partially completed form to the Third Party for them to finalise
- Collect the completed form from the Third Party
- Transcribe results/details to Competency Recording Sheet for candidate
- Forward/file Third Party Statement.

The Third Party must:

- Record their belief regarding candidate ability/competency as either:
  - Pass Competent = Yes
  - Not Yet Competent = No
  - Unsure about whether candidate is competent or not = Not Sure
- Meet briefly with the assessor to discuss and/or clarify the form.

This source of evidence combines with other forms of assessment to assist in determining the 'Pass Competent' or 'Not Yet Competent' decision for the candidate.

A separate Third Party Statement is required for each Competency Unit undertaken by the candidate.

# Competency standard

- Cleaning chairs and other seating arrangements
- Picking up litter
- Cleaning up spills
- Returning the areas to original or improved condition to the greatest extent possible
- Disposing of rubbish and litter in an environmentally-sensitive manner
- Conducting a final visual inspection
- Confirming with site owners, where applicable, that the areas have been cleaned to their satisfaction.

*Disassemble food related equipment* may include:

- Ensuring component parts are cleaned and sanitised as part of the disassembling process
- Observing appropriate manual handling techniques
- Maintaining the hygiene of cleaned and sanitised items after their cleaning and disassembly.

### **Assessment Guide**

The following skills and knowledge must be assessed as part of this unit:

- Enterprise policies and procedures in regard to the provision of camp site catering, safe food handling protocols and the implementation of a food safety program, where applicable
- Principles of nutrition and food energy
- Knowledge of the legislated safe food handling requirements of the host country
- Knowledge and ability to enable compliance with the safe food handling requirements of the host country

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

**Assessment Methods**

The following methods may be used to assess competency for this unit:

- Observation of practical candidate performance
- Analysis of menus
- Evaluation of equipment checklists
- Feedback from tour group members who received the camp site catering
- Taste testing of food and beverage items
- Oral and written questions
- Third party reports completed by a supervisor
- Project and assignment work
- Simulation.

**Key Competencies in this Unit**

*Level 1 = competence to undertake tasks effectively*

*Level 2 = competence to manage tasks*

*Level 3 = competence to use concepts for evaluating*

| Key Competencies                                 | Level | Examples                                                                         |
|--------------------------------------------------|-------|----------------------------------------------------------------------------------|
| Collecting, organising and analysing information | 1     | Identify tour group catering requirements                                        |
| Communicating ideas and information              | 1     | Advise tour group members in relation to food and beverage items being presented |
| Planning and organising activities               | 3     | Develop menus and recipes                                                        |

|  |                                         |   |                                                                    |
|--|-----------------------------------------|---|--------------------------------------------------------------------|
|  | Working with others and in teams        | 1 | Assist with food preparation, production and service activities    |
|  | Using mathematical ideas and techniques | 1 | Calculate quantities for recipes and portion control               |
|  | Solving problems                        | 2 | Overcome supply shortages and make substitutions for planned menus |
|  | Using technology                        | 1 | Operate food equipment                                             |

# Oral questions

|                           |                                                                                                                                                                                                                                                                                                                                           |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Student name</b>       |                                                                                                                                                                                                                                                                                                                                           |

| Questions                                                                                                                  | Response                 |                          |
|----------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                            | PC                       | NYC                      |
| 1. Tell me how you identify tour group requirements for camp site catering and give me four examples.                      | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. Give me an example of a menu you have designed for camp site catering explaining why you chose the selected menu items. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                           | Response                 |                          |
|---------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                     | PC                       | NYC                      |
| 3. What is involved in verifying a camp site menu with management and tour group members?                           | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Tell me the equipment and resources you needed for the menu identified in your answer to Question 2.             | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Describe the activities involved in stowing equipment, resources and supplies for transportation to a camp site. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                            | Response                 |                          |
|----------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                      | PC                       | NYC                      |
| 6. Nominate a tour and describe what was involved in establishing the catering area for that tour/camp.              | <input type="checkbox"/> | <input type="checkbox"/> |
| 7. Give me details of how you store food and beverages at a camp site to preserve food safety and maintain security. | <input type="checkbox"/> | <input type="checkbox"/> |
| 8. Tell me how you might test and/or treat local water to ensure it is safe to drink.                                | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                        | Response                 |                          |
|------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                  | PC                       | NYC                      |
| 9. What factors do you take into account when positioning dining equipment/facilities at a camp site?            | <input type="checkbox"/> | <input type="checkbox"/> |
| 10. What factors do you take into account when positioning cooking/catering equipment/facilities at a camp site? | <input type="checkbox"/> | <input type="checkbox"/> |
| 11. Name two menu items you produce at camp sites and explain the preparation required for each dish.            | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                                           | Response                 |                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                                     | PC                       | NYC                      |
| 12. For the two menu items identified in your answer to the previous question explain the food production techniques applied to make those items.   | <input type="checkbox"/> | <input type="checkbox"/> |
| 13. What is involved in making sure the camp site catering provided actually conforms to advertisements/promises made about the food and beverages? | <input type="checkbox"/> | <input type="checkbox"/> |
| 14. Name a tour and describe what is involved in preparing the dining area for service for that tour/camp.                                          | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                            | Response                 |                          |
|------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                      | PC                       | NYC                      |
| 15. What standards do you apply to the plating of food for camp site catering?                       | <input type="checkbox"/> | <input type="checkbox"/> |
| 16. What food do you display for diners when providing camp site catering and how do you display it? | <input type="checkbox"/> | <input type="checkbox"/> |
| 17. Identify the beverages you serve as part of camp site catering and describe how they are served. | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                                             | Response                 |                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                                       | PC                       | NYC                      |
| 18. How do you replenish food items during service as part of camp site catering food service?                                                        | <input type="checkbox"/> | <input type="checkbox"/> |
| 19. Demonstrate how you establish and maintain a positive relationship with tour group members during the service and clearing of camp site catering. | <input type="checkbox"/> | <input type="checkbox"/> |
| 20. Describe or demonstrate how you might clear plates from tour group members after camp site catering service.                                      | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                            | Response                 |                          |
|----------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                      | PC                       | NYC                      |
| 21. Describe when and how you clear communal food and beverage service points following a camp site service session. | <input type="checkbox"/> | <input type="checkbox"/> |
| 22. Explain what you do to ensure the camp site food production area is kept clean and tidy during service sessions. | <input type="checkbox"/> | <input type="checkbox"/> |
| 23. How do you dispose of plate waste and other unwanted materials during camp site service sessions?                | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                                   | Response                 |                          |
|---------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                             | PC                       | NYC                      |
| 24. After a camp site service session has finished, how do you dispose of kitchen waste and unwanted items?                                 | <input type="checkbox"/> | <input type="checkbox"/> |
| 25. Name two food items of production equipment or utensils and detail how they are cleaned and sanitised after use for camp site catering. | <input type="checkbox"/> | <input type="checkbox"/> |
| 26. Describe what you do to clean and tidy the food production area after a camp site service session.                                      | <input type="checkbox"/> | <input type="checkbox"/> |

| Questions                                                                                                                               | Response                 |                          |
|-----------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------|
|                                                                                                                                         | PC                       | NYC                      |
| 27. Describe how you disassemble two items of food production (or service) equipment ready for transport out of a camp site.            | <input type="checkbox"/> | <input type="checkbox"/> |
| 28. Explain what is involved in breaking camp and stowing food and beverages equipment and resources ready for outbound transportation. | <input type="checkbox"/> | <input type="checkbox"/> |

# Written questions

Provide camp site catering – D2.TTO.CL4.18

**Student Name:** \_\_\_\_\_

Answer all the following questions and submit to your Trainer.

1. Give three reasons it is important to identify tour group requirements.

---

---

---

---

---

---

2. Identify six requirements which need to be identified and understood as an integral part of determining camp site catering needs.

---

---

---

---

---

---

---

---

3. What are standard recipes and what information do they contain?

---

---

---

---

---

---

---

4. Identify six factors which need to be taken into account when developing menus for camp site catering for a tour.

---

---

---

---

---

---

---

5. Give two reasons there can be a need to verify menus planned for a tour (prior to providing them) with management.

---

---

---

---

6. Describe two ways of verifying menus planned for a tour with management.

---

---

---

---

7. What are the three basic requirements for planning and preparation for camp site catering?

---

---

---

---

---

---

8. Describe three factors to consider when determining requirements for equipment and resources to support camp site catering.

---

---

---

---

---

9. List four factors to consider when loading/storing food and catering gear for camp site catering.

---

---

---

---

---

10. Describe four activities and considerations involved when establishing the catering area at a camp site.

---

---

---

---

---

---

---

---

11. Provide four security protocols which should be implemented when storing food and beverage items at a camp site.

---

---

---

---

---

---

---

---

12. List four generic safe food handling protocols in relation to food storage at a camp site.

---

---

---

---

---

---

---

---

13. Name four reasons it is important to establish a safe water supply at a camp site.

---

---

---

---

---

---

---

---

14. Describe one way to purify suspect water at a camp site.

---

---

---

---

---

---

---

---

15. Identify six points to observe when positioning catering equipment for camp site catering.

---

---

---

---

---

---

---

16. Identify four points to observe when positioning dining equipment for camp site catering.

---

---

---

---

---

---

17. Describe four points to note/implement when locating cooking and dining utensils and ancillary items at a camp site.

---

---

---

---

---

---

[illegible]

19. Describe four activities possibly involved in *mise en place*.

---

---

---

---

---

---

[illegible]

21. Select and describe three food production/cooking techniques

[illegible]

22. Name one dish suitable for camp site catering and describe the food production techniques necessary to produce this menu item.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page. There are no margins, text, or other markings on the paper.

23. Describe two ways the catering crew for a tour can confirm itinerary requirements.

---

---

---

---

24. Identify four activities which may be required when preparing the dining area for meal service at a camp site.

---

---

---

---

---

---

---

---

25. List four factors to consider when plating meals for service at a camp site.

---

---

---

---

---

---

26. Describe four important service points involved in readying food for self-service when providing camp site catering.

---

---

---

---

---

---

27. List six considerations which need to be observed when serving beverages as part of camp site catering.

---

---

---

---

---

---

---

28. Describe four possible restrictions which may apply to replenishing items as part of the provision of camp site catering.

---

---

---

---

---

---

29. Describe four activities which may be inherent in replenishing items as part of camp site catering provision.

---

---

---

---

---

---

30. Describe six actions which will assist in developing rapport with tour group members when delivering camp site catering.

---

---

---

---

---

---

---

31. List six actions which may be required when clearing meal tables used by tour group members.

---

---

---

---

---

---

---

32. Describe four basic requirements when clearing communal service points from camp site catering locations.

---

---

---

---

---

33. Give four reasons food production and service areas need to be tidied during service.

---

---

---

---

---

34. Describe four activities which may be required when tidying the food production and service area throughout camp site catering service.

---

---

---

---

---

35. Identify four techniques which have proved to be effective for service staff in maintaining and extending a positive relationship with tour group members when clearing food and beverage items.

---

---

---

---

---

36. Name four actions which may be required when disposing of waste and unwanted items during camp site service sessions.

---

---

---

---

---

37. Name four generic activities possibly required when disposing of unwanted items as part of the provision of camp site catering.

---

---

---

---

---

38. Differentiate between 'cleaning' and 'sanitising' food items/equipment.

---

---

---

---

---

39. Present four standard requirements which may need to be applied when cleaning and storing camp site catering F&B equipment and utensils.

---

---

---

---

---

40. Describe six activities which may be required when finalising cleanliness of food production and dining areas at a camp site catering location.

---

---

---

---

---

---

41. Give four protocols which *generally* apply to the disassembly of food-related equipment when bumping out.

---

---

---

---

---

42. List four factors which need to be taken into account when stowing equipment, resources and supplies for transport or later use/bump out.

---

---

---

---

---

# Answers to written questions

Provide camp site catering – D2.TTO.CL4.18

The following are model answers only – Trainers/Assessors must use discretion when determining whether or not an answer provided by a Student is acceptable or not.

1. Give three reasons it is important to identify tour group requirements.
  - Place the tour to be conducted into its true context
  - Optimise likelihood of meeting tour group expectations
  - Accommodate feedback received
  - Discharge legal obligations
  - Identify issues which may be important to individual tours and/or tour groups.
  
2. Identify six requirements which need to be identified and understood as an integral part of determining camp site catering needs.
  - Available catering crew/staff by number and ability/experience
  - Itinerary and Destinations
  - Types and numbers of meals to be provided
  - Third parties who will be involved/provide parts of the catering
  - Duration of tour
  - Routes to be taken
  - Type/name of tour
  - Transport available for the tour to move equipment, resources and supplies
  - Equipment available for the safe storage of perishable food
  - Number of people who have to be fed
  - Previous history of the group.
  
3. What are standard recipes and what information do they contain?

A standard recipe is a precise record of ingredients, method, serving instructions and cost of a menu item. Several variations on layout/content of a standard recipe but include:

- Name of the dish/menu item
- List of ingredients
- Required quantities of each ingredient
- Specific preparation guidelines
- Garnish and service details
- Portion sizes

- Costs.
4. Identify six factors which need to be taken into account when developing menus for camp site catering for a tour.
    - Budget
    - Climate
    - Timing of meals
    - Types of meals
    - Special needs/requests
    - Nutritional requirements/balance
    - Availability of supplies
    - Beverages required/to be served
    - On-tour transportation available
    - Food storage options and capacity available.
  5. Give two reasons there can be a need to verify menus planned for a tour (prior to providing them) with management.
    - Comply with internal organisational protocols
    - Keep promises made to tour group members
    - Meet customer expectations
    - Discuss arrangements/planned menus with management or administration
    - Check availability of requirements/resources with Stores and/or Purchasing.
  6. Describe two ways of verifying menus planned for a tour with management.
    - Face-to-face meeting with relevant people with appropriate discussions
    - Use of handouts to show menus, recipes, costs and other matters as needed.
    - Use telephone contact to discuss matters
    - Send emails with relevant attachments of menus, recipes, photos of dishes, lists of options for menu items, indication of additional costs to cover special requests.
  7. What are the three basic requirements for planning and preparation for camp site catering?
    - Identifying the type and quantity of physical resources (equipment and utensils) needed to produce and serve the food and beverages
    - Identifying the type and quantity of ingredients needed to prepare and serve all identified menu items and drinks
    - At least two people to do the planning, identification of items and ingredients and perform/check the calculations.

8. Describe three factors to consider when determining requirements for equipment and resources to support camp site catering.
  - Determining facilities and equipment available at the camp site
  - Applying the concept of 'target planning'
  - Factoring in provisions/ingredients available locally
  - Preparing a standard cooking kit.
9. List four factors to consider when loading/storing food and catering gear for camp site catering.
  - Ensuring initial food safety of items prior to packing
  - Stowing food to protect its integrity and safety during transportation
  - Using checklists to ensure all items are packed
  - Stowing in the correct order
  - Taking action to aid identification of contents of storage units and boxes
  - Taking action to minimise foreseeable problems
  - Ensuring the physical security of equipment and supplies
  - Noting (as part of the loading process) supplies and equipment that need to be obtained.
10. Describe four activities and considerations involved when establishing the catering area at a camp site.
  - Determine the layout for all the individual areas and items which comprise total catering provision
  - Assemble equipment
  - Position equipment and items
  - Test equipment
  - Connect power
  - Stow supplies on-site
  - Ensure safe food handling conditions
  - Clean and sanitise equipment and facilities.
11. Provide four security protocols which should be implemented when storing food and beverage items at a camp site.
  - Keep all food and beverages in areas which can be observed and monitored
  - Keep food and beverages in containers which are kept closed and/or locked
  - Have someone in attendance in the catering area at all times
  - Keep doors (where provided) to catering areas closed and locked
  - Make everyone aware stock is being monitored/counted
  - Returning items to their assigned storage area once they have been used.

12. List four generic safe food handling protocols in relation to food storage at a camp site.
  - Use food grade materials to store food that is susceptible to contamination
  - Cover food in storage
  - Rotate stock to ensure it is used in the correct sequence
  - Keep all storage areas and equipment clean
  - Never store food (including packaged food) directly on the floor or the ground
  - Supporting food safety records must be completed
  - Conduct regular visual checks/inspections of food storage areas and the food itself
  - Locate food to facilitate its retrieval in accordance with menu planning/intended use of items
  - Requirements relating to observation of the 'Temperature Danger Zone' and the '2/4 Rule' must be observed and implemented.
13. Name four reasons it is important to establish a safe water supply at a camp site.
  - Discharge Duty of care responsibilities
  - Maintain the reputation of the tour company
  - Avoid being sued for negligence or similar
  - Make sure tour group members do not become ill or die through drinking contaminated water
  - Meet customer expectations
  - Enhance tour group member enjoyment of the tour.
14. Describe one way to purify suspect water at a camp site.
  - Bringing the water to a rolling boil and boiling for five minutes, scoop any scum/detritus off the top – allow to cool, as necessary, prior to use
  - Using water purification tablets – such as iodine, chlorine or halazone and following instructions provided regarding:
    - Method
    - Number of tablets to the amount of water
    - Adding chlorine drops or liquid iodine – following manufacturer instructions
    - Using a commercial water purification system – featuring a combination of activated charcoal filtering plus a chemical (such as iodine).

15. Identify six points to observe when positioning catering equipment for camp site catering.
- Work quickly
  - Adhere to (and or adapt as necessary) any pre-prepared plans for catering areas/equipment
  - Place items to support the normal logical and smooth work flow typical of commercial kitchens/venues
  - Physically situate individual items so there is operational efficiency
  - Make sure items are stable and level
  - Protect the equipment once it has been positioned
  - Prepare the items for use.
16. Identify four points to observe when positioning dining equipment for camp site catering.
- Locate the dining area in the best position
  - Establish the dining area
  - Set sufficient tables and chairs
  - Align tables and set-ups with any table plans provided by the group
  - Set-up to support food service style to be provided
  - Set-up beverage service stations as required.
17. Describe four points to note/implement when locating cooking and dining utensils and ancillary items at a camp site.
- Work quickly
  - Handle items with care
  - Observe safe food handing protocols
  - Check items as they are put in place – to:
    - Make sure they are clean – clean/sanitise items as necessary
    - Verify they are safe to use/suitable for use
  - Follow planned set-up arrangements:
    - Catering vehicles are positioned as close as possible to the areas
    - Items are placed in the designated location
    - Items are located in the required sequence – first things first
  - Do not put utensils and ancillary items on the ground.

18. Define *mise en place*.
  - Selecting and assembling the equipment and utensils needed is part of the process known in catering/the kitchen as '*mise en place*'.
  - This is a French term meaning 'to put in place'.
  - *Mise en place* applies to both ingredients and equipment needed for a dish and overall food preparation.
  - *Mise en place* is something to be done for every recipe, every time an item is produced.
19. Describe four activities possibly involved in *mise en place*.
  - Obtaining the necessary items ready for use
  - Putting items together so they are ready to use
  - Gathering together all the ingredients for the dish
  - Unpacking and unwrapping food items so they are ready to use
  - Opening cartons, cans and packages and other containers
  - Washing and cleaning fruit and vegetables
  - Peeling and trimming items
  - Cutting food/ingredients as required.
20. Identify a dish suitable for camp catering and describe the food preparation required for that menu item.
  - No model answer.
21. Select and describe three food production/cooking techniques
  - No model answer.
22. Name one dish suitable for camp site catering and describe the food production techniques necessary to produce this menu item.
  - No model answer.
23. Describe two ways the catering crew for a tour can confirm itinerary requirements.
  - Communicating with head office/the tour operator
  - Speaking with the tour group – usually in the form of the Tour Leader or, in some cases, the catering crew who are currently with that group.

Communication options may be:

  - Via telephone – landline, cell, satellite
  - Two-way radio
  - Email exchanges.

24. Identify four activities which may be required when preparing the dining area for meal service at a camp site.
- Cordon off the area
  - Ensure the cleanliness of the dining and service areas
  - Set-up tables and seating
  - Provide and/or adjust environmental elements to create suitable ambience where/if applicable
  - Provide required service items
  - Notify tour group members.
25. List four factors to consider when plating meals for service at a camp site.
- Check service plates prior to use
  - Adhere to planning tour standards regarding the quantity of food supplied
  - Maintain food safety
  - Position food on plates as required/to provide consistency of appearance
  - Add accompaniments to each plate
  - Wipe plates prior to service
  - Modify standard serve requirements
  - Ensure equality in serve sizes so each person has a meal of the same size unless otherwise requested
  - Match plating with demand.
26. Describe four important service points involved in readying food for self-service when providing camp site catering.
- Ensure all required display/presentations items have been suitably positioned
  - Verify service and display equipment has been prepared for service
  - Position ancillary items ready for use
  - Fill service and display equipment
  - Maintain safe food temperatures
  - Protect food from contamination.

27. List six considerations which need to be observed when serving beverages as part of camp site catering.
- Realise from the viewpoint of food safety that beverages are food
  - Establish communal beverage service points
  - Establish bar areas
  - Prepare and present/provide service requisites
  - Take necessary action to ensure beverages are served at the appropriate temperature
  - Pre-open containers in advance of service sessions as identified by pre-arranged beverage lists/requirements
  - Pre-mix and pre-pour drinks
  - Allocate nominated beverages to individual tables
  - Take drink orders
  - Provide drinks advice
  - Prepare/mix drinks to meet individual need
  - Apply standard drink service protocols
  - Observe responsible service of alcohol practices.
28. Describe four possible restrictions which may apply to replenishing items as part of the provision of camp site catering.
- Only to food provided in food display units at communal service points – and not to direct service to customers ‘at the table’
  - Only to nominated food items
  - Only ‘on request’ – meaning additional items may not be *offered* but can be provided if asked for
  - To a certain maximum limit – there is never/rarely unlimited amounts of food/beverages which can be provided
  - Within set times – meaning there may be a time after which additional items will not be provided.
29. Describe four activities which may be inherent in replenishing items as part of camp site catering provision.
- Monitoring levels of food, beverage and other service requirements
  - Taking action to physically add supplies to service points
  - Advising kitchen staff/catering crew regarding usage
  - Implementing safe food hygiene practices
  - Replacing service and eating utensils – as required
  - Replacing amounts of PC packs and single-use items.

30. Describe six actions which will assist in developing rapport with tour group members when delivering camp site catering.
- Greet customers on their arrival
  - Use their name when talking to them
  - Smile when talking to them/serving them
  - Welcome them to the food area and the meal/service session
  - Individualise the communication
  - Explain food and beverage items
  - Making food and beverage recommendations/suggestions
  - Assist people to be seated
  - Cater for individual need to the best extent possible
  - Show respect for people
  - Communicate with individuals when time exists to do so without adversely impacting service delivery
  - Resolve identified problems within individual scope of authority
  - Refer issues which cannot be successfully resolved to Supervisor so they can take appropriate action.
31. List six actions which may be required when clearing meal tables used by tour group members.
- Talking to diners as part of the clearing process
  - Clearing in a pre-determined manner
  - Removing unused covers and items
  - Following a uniform clearing method for all tables
  - Clearing all used food plates and cutlery from the same side of the diner
  - Not interrupting guests
  - Returning unused food to the service area or kitchen
  - Cleaning up spills
  - Adjusting the cover as required
  - Picking up dropped items
  - Wiping down and sanitising tables
  - Communicating with the kitchen.

32. Describe four basic requirements when clearing communal service points from camp site catering locations.
- Asking people if they want to use the service point again before it is cleared
  - Not clearing/taking down the service points until the correct time
  - Being quick, quiet and careful
  - Returning unused food to the service area or kitchen
  - Cleaning up spills
  - Picking up dropped items
  - Wiping down and sanitising service point surfaces/tables
  - Draining equipment.
33. Give four reasons food production and service areas need to be tidied during service.
- Demonstrate professionalism
  - Build tour group member confidence in the competency of the tour operator
  - Enhance the dining experience
  - Meet customer expectations
  - Optimise food safety
  - Improve the appearance of the areas
  - Increase general safety
  - Facilitate service.
34. Describe four activities which may be required when tidying the food production and service area throughout camp site catering service.
- Cleaning up in-service spills
  - Picking up dropped items
  - Wiping down and sanitising service areas and equipment
  - Removing food debris and other rubbish
  - Maintaining general hygienic conditions in food production and service areas
  - Maintaining an attractive and acceptable visual appearance of the kitchen and service areas
  - Ensuring food production and service takes precedence over non-essential cleaning and tidying duties.

35. Identify four techniques which have proved to be effective for service staff in maintaining and extending a positive relationship with tour group members when clearing food and beverage items.
- Remember the tour, the camp and the meal are being provided for the tour group members
  - Ask permission to clear and clean and to take items
  - Be polite and courteous
  - Communicate with people
  - Share their experience (but not allowing this to dominate the work that needs to be done and not allowing one customer to feel others are receiving preferential treatment)
  - Make relevant offers of help.
36. Name four actions which may be required when disposing of waste and unwanted items during camp site service sessions.
- Remove used/dirty items from tables and/or service points
  - Take damaged items out of service
  - Dispose of all items in an environmentally-sensitive manner
  - Make sure food handlers observe safe food handling protocols when dealing with waste
  - Always be alert to the possible need to remove/clear items.
37. Name four generic activities possibly required when disposing of unwanted items as part of the provision of camp site catering.
- Disposing of all items in an environmentally-sensitive manner
  - Packing/bagging and stowing of rubbish for later disposal
  - Storing food waste under refrigeration
  - Keeping waste which has to be transported off-site separate from food which is also being transported
  - Not feeding left-over food or plate waste to local fauna
  - Separating items to accommodate local waste disposal requirements
  - Not leaving any waste/rubbish on-site/in the local area
  - Securing food waste.
38. Differentiate between 'cleaning' and 'sanitising' food items/equipment.
- Cleaning is the removal of visible dirt and debris (including objectionable odour) – from crockery, cutlery, glasses, equipment, utensils or fixtures and fittings.
  - Sanitation is the killing of microbes using either hot water and/or chemicals.

39. Present four standard requirements which may need to be applied when cleaning and storing camp site catering F&B equipment and utensils.
- A food safety plan/program for the camp should be available/followed
  - Staff used to clean and sanitise equipment and utensils must be properly trained
  - Required chemicals need to be taken as part of standard tour/catering resources
  - All food contact surfaces must be cleaned, when in constant use, at least once every four hours
  - Cleaning low risk areas and equipment before cleaning high risk areas
  - Following SOPs for cleaning
  - Unless items are being transported back to head office for cleaning and sanitation, they need to be cleaned as soon as practicable
  - Store cleaned and sanitised equipment and utensils properly after cleaning to protect them from re-contamination
  - All items need to be cleaned after use.
40. Describe six activities which may be required when finalising cleanliness of food production and dining areas at a camp site catering location.
- Cleaning tables
  - Cleaning chairs and other seating arrangements
  - Picking up litter
  - Cleaning up spills
  - Cleaning the general area
  - Disposing of rubbish and litter
  - Re-positioning camp site items which may have been moved
  - Closing and/or locking entry doors, gates and access points
  - Turning off and/or disconnecting power/water
  - Conducting a final visual inspection
  - Liaising/negotiating with site owners, to finalise payment and other arrangements.
41. Give four protocols which generally apply to the disassembly of food-related equipment when bumping out.
- Items which needed to be assembled for use, generally need to be disassembled when finalising the camp
  - Where possible, equipment is cleaned as it is disassembled
  - All parts from the one unit must be included with that unit – the parts may need to be placed into a designated, tagged bag
  - The correct tools must be used to disassemble units
  - Equipment should be inspected for damage as part of the disassembly process
  - Care should be taken when handling items/equipment at this stage.

- 
42. List four factors which need to be taken into account when stowing equipment, resources and supplies for transport or later use/bump out.
- Equipment is normally loaded for transportation from the camp in the same location and/or vehicle as it was brought to the camp
  - Safe manual handling techniques need to be observed
  - Larger items are usually loaded before smaller items
  - Boxes used to carry equipment in to the camp are used to carry the items out of the camp
  - Loading sheets should be used/completed as part of the process
  - Attention needs to be paid to loading and stowing the equipment safely and securely
  - If possible, stowing should occur during daylight hours and not at night
  - Stowing of food waste to be taken away from the camp site needs to be planned in advance to stow away from food and protect from leakage/damage to waste containers.
-
