EARLY CHILDHOOD CARE AND DEVELOPMENT SERVICES NC III

SOCIAL AND OTHER COMMUNITY DEVELOPMENT SERVICES SECTOR

TECHNICAL EDUCATION AND SKILLS DEVELOPMENT AUTHORITY

Technical Education and Skills Development Act of 1994 (Republic Act No. 7796)

Section 22, "Establishment and Administration of the National Trade Skills Standards" of the RA 7796 known as the TESDA Act mandates TESDA to establish national occupational skill standards. The Authority shall develop and implement a certification and accreditation program in which private industry group and trade associations are accredited to conduct approved trade tests, and the local government units to promote such trade testing activities in their respective areas in accordance with the guidelines to be set by the Authority.

The Training Regulations (TR) serve as basis for the:

1. Competency assessment and certification;
2. Registration and delivery of training programs; and
3. Development of curriculum and assessment instruments.

Each TR has four sections:

Section 1 **Definition of Qualification** - describes the qualification and defines the competencies that comprise the qualification.

Section 2 **Competency Standards** - was revised to include the Required Knowledge and Required Skills per element. These fields explicitly state the required knowledge and skills for competent performance of a unit of competency in an informed and effective manner. These also emphasize the application of knowledge and skills to situations where understanding is converted into a workplace outcome.

Section 3 **Training Arrangements** - contain the information and requirements which serve as bases for training providers in designing and delivering competency-based curriculum for the qualification. The revisions to Section 3 entail identifying the Learning Activities leading to achievement of the identified Learning Outcome.

Section 4 **Assessment and Certification Arrangements** - describe the policies governing assessment and certification procedures for the qualification.

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1. Examined specific workplace challenges. 1.2. Analyzed the causes of specific workplace challenges. 1.3. Formulated resolutions to specific workplace challenges. 1.4. Implemented action plans and communicated results on specific workplace challenges.
2. Resource Implications	2.1. Assessment will require access to an operating plant over an extended period of time, or a suitable method of gathering evidence of operating ability over a range of situations. A bank of scenarios / case studies / what ifs will be required as well as bank of questions which will be used to probe the reason behind the observable action.
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1. Observation 3.2. Case Formulation 3.3. Life Narrative Inquiry 3.4. Standardized test The unit will be assessed in a holistic manner as is practical and may be integrated with the assessment of other relevant units of competency. Assessment will occur over a range of situations, which will include disruptions to normal, smooth operation. Simulation may be required to allow for timely assessment of parts of this unit of competency. Simulation should be based on the actual workplace and will include walk through of the relevant competency components. These assessment activities should include a range of problems, including new, unusual and improbable situations that may have happened.
4. Context for Assessment	In all workplace, it may be appropriate to assess this unit concurrently with relevant teamwork or operation units.

UNIT OF COMPETENCY : USE INFORMATION SYSTEMATICALLY

UNIT CODE : 400311324

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes required to use technical information systems, apply information technology (IT) systems and edit, format and check information.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Use technical information	1.1. Information are collated and organized into a suitable form for reference and use 1.2. Stored information are classified so that it can be quickly identified and retrieved when needed 1.3. Guidance are advised and offered to people who need to find and use information	1.1. Application in collating information 1.2. Procedures for inputting, maintaining and archiving information 1.3. Guidance to people who need to find and use information 1.4. Organize information 1.5. classify stored information for identification and retrieval 1.6. Operate the technical information system by using agreed procedures	1.1. Collating information 1.2. Operating appropriate and valid procedures for inputting, maintaining and archiving information 1.3. Advising and offering guidance to people who need to find and use information 1.4. Organizing information into a suitable form for reference and use 1.5. Classifying stored information for identification and retrieval 1.6. Operating the technical information system by using agreed procedures

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Apply information technology (IT)	2.1. Technical information system is operated using agreed procedures 2.2. Appropriate and valid procedures are operated for inputting, maintaining and archiving information 2.3. Software required are utilized to execute the project activities 2.4. Information and data obtained are handled, edited, formatted and checked from a range of internal and external sources 2.5. Information are extracted, entered, and processed to produce the outputs required by customers 2.6. Own skills and understanding are shared to help others 2.7. Specified security measures are implemented to protect the confidentiality and integrity of project data held in IT systems	2.1. Attributes and limitations of available software tools 2.2. Procedures and work instructions for the use of IT 2.3. Operational requirements for IT systems 2.4. Sources and flow paths of data 2.5. Security systems and measures that can be used 2.6. Extract data and format reports 2.7. Methods of entering and processing information 2.8. WWW enabled applications	2.1. Identifying attributes and limitations of available software tools 2.2. Using procedures and work instructions for the use of IT 2.3. Describing operational requirements for IT systems 2.4. Identifying sources and flow paths of data 2.5. Determining security systems and measures that can be used 2.6. Extracting data and format reports 2.7. Describing methods of entering and processing information 2.8. Using WWW applications

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Edit, format and check information	3.1 Basic editing techniques are used 3.2 Accuracy of documents are checked 3.3 Editing and formatting tools and techniques are used for more complex documents 3.4 Proof reading techniques is used to check that documents look professional	3.1 Basic file-handling techniques 3.2 Techniques in checking documents 3.3 Techniques in editing and formatting 3.4 Proof reading techniques	3.1 Using basic file-handling techniques is used for the software 3.2 Using different techniques in checking documents 3.3 Applying editing and formatting techniques 3.4 Applying proof reading techniques

SECTION 3 TRAINING ARRANGEMENTS

These guidelines are set to provide the Technical and Vocational Education and Training (TVET) providers with information and other important requirements to consider when designing training programs for **EARLY CHILDHOOD CARE AND DEVELOPMENT SERVICES NC III**.

3.1 CURRICULUM DESIGN

TESDA shall provide the training on the development of competency-based curricula to enable training providers develop their own curricula with the components mentioned below.

Delivery of knowledge requirements for the basic, common and core units of competency specifically in the areas of mathematics, science/technology, communication/language and other academic subjects shall be contextualized. To this end, TVET providers shall develop a Contextual Learning Matrix (CLM) to accompany the curricula.

Course Title: **EARLY CHILDHOOD CARE AND DEVELOPMENT SERVICES** NC Level **NC III**

Nominal Training Duration:

40	Hours (Basic Competencies)
18	Hours (Common Competencies)
160	Hours (Core Competencies)
80	Hours Supervised Industry Learning (SIL)
298	TOTAL HOURS

Course Description:

This course is designed to equip learners with the knowledge, practical skills, and attitudes necessary to manage center operation, assess children's progress and development, and implement the Early Childhood Care and Development (ECCD) curriculum in alignment with the National Early Learning Curriculum (NELC). It outlines the foundational knowledge and skills required for early childhood program service providers working with young children aged 3–4 years in center-based public or private

settings. The course also supports the qualifications for service providers catering to children aged 0–2 years, following industry standards such as the Infant and Toddler Early Development (ITED) Program.

Programs for children under three years old are guided by key resources, including Learning Resource Package 2, which specifies Standards and Competencies for Domains for 0–4 Years Old, and Learning Resource Package 3, which provides a Suggested Calendar of Activities for Parent Mentors of Infants and Toddlers.

Upon completion of the course, the learners are expected to demonstrate the above- mentioned competencies to be employed. To obtain this, all units prescribed for this qualification must be achieved.

3.2 TRAINING DELIVERY

1. **The delivery of training shall adhere to the design of the curriculum. Delivery shall be guided by the principles of competency-based TVET.**
 - a. Course design is based on competency standards set by the industry or recognized industry sector; (Learning system is driven by competencies written to industry standards)
 - b. Training delivery is learner-centered and should accommodate individualized and self-paced learning strategies;
 - c. Training can be done on an actual workplace setting, simulation of a workplace and/or through adoption of modern technology.
 - d. Assessment is based in the collection of evidence of the performance of work to the industry required standards;
 - e. Assessment of competency takes the trainee's knowledge and attitude into account but requires evidence of actual performance of the competency as the primary source of evidence.
 - f. Training program allows for recognition of prior learning (RPL) or current competencies;
 - g. Training completion is based on satisfactory performance of all specified competencies.
2. **The competency-based TVET system recognizes various types of delivery modes, both on-and off-the-job as long as the learning is driven by the competency standards specified by the industry. The following training modalities and their variations/components may be adopted singly or in combination with other modalities when designing and delivering training programs:**

2.1 School/Institution- Based:

- Dual Training System (DTS)/Dualized Training Program (DTP) which contain both in-school and in-industry training or fieldwork components. Details can be referred to the Implementing Rules and Regulations of the DTS Law and the TESDA Guidelines on the DTP.
- Distance learning is a formal education process in which the majority of the instruction occurs when the students and instructor are not in the same place. Distance learning may employ correspondence study, audio, video, computer technologies or other modern technologies that can be used to facilitate learning and formal and non-formal training. Specific guidelines on this mode shall be issued by the TESDA Secretariat.
- Supervised Industry Training (SIT) or on-the-job training (OJT) is an approach in training designed to enhance the knowledge and skills of the trainee through actual experience in the workplace to acquire specific competencies as prescribed in the training regulations. It is imperative that the deployment of trainees in the workplace is adhered to training programs agreed by the institution and enterprise and status and progress of trainees are closely monitored by the training institutions to prevent opportunity for work exploitation.
- The classroom-based or in-center instruction uses of learner-centered methods as well as laboratory or field-work components.

2.2 Enterprise-Based:

- **Formal Apprenticeship** – Training within employment involving a contract between an apprentice and an enterprise on an approved apprenticeable occupation.
- **Informal Apprenticeship** - is based on a training (and working) agreement between an apprentice and a master craftsperson wherein the agreement may be written or oral and the master craftsperson commits to training the apprentice in all the skills relevant to his or her trade over a significant period of time, usually between one and four years, while the apprentice commits to contributing productively to the work of the business. Training is integrated into the production process and apprentices learn by working alongside the experienced craftsperson.
- **Enterprise-based Training** - where training is implemented within the company in accordance with the requirements of the specific company. Specific guidelines on this mode shall be issued by the TESDA Secretariat.

2.3 Community-Based – short term program conducted by non-government organizations (NGOs), LGUs, training centers and other TVET providers which are intended to address the specific needs of a community. Such programs can be conducted in informal settings such as barangay hall, basketball courts, etc. These programs can also be mobile training program (MTP)

3.3 TRAINEE ENTRY REQUIREMENTS

Trainees or students wishing to gain entry in any of these courses should possess the following requirements:

- At least high school graduate (10 years K-10/12 years K-12 Curriculum); **OR** Holder of Alternative Learning Systems (ALS) certificate of completion with grade 10 equivalent; **OR** With at least five (5) years experience and with at least 2 Trainings within the last five (5) years relevant to the field (*Certificate of Employment is required as proof of experience*);
- Basic knowledge on word processing, presentation, and spreadsheet tools is required for creating documents, presentations, and managing data;
- Must have good communication skills; and
- Can perform basic mathematical computation

GLOSSARY OF TERMS

1. Activity plan	This is a plan that details the different learning experiences and materials that will be implemented in a day/week to attain class and individual goals that promote the holistic and optimal development of children through playful learning.
2. Annual report	The annual report is a cumulative documentation or record of the center's activities and initiatives in collaboration with other stakeholders in the community, e.g., parents of the children in the center, ECCD Focal, BNS, BHW, Barangay Captain. These include, but are not limited to, official communication to parents, photos of center activities, attendance list of parents during Parent Effectiveness Seminar, official communication to local executives in the Barangay, city and province, etc.
3. Assessment in early childhood	These are formal (occurs on a set time, day, and place) and informal methods (occur daily throughout the class routine) used to provide information on children's learning, growth and development. These assessments occur in the context of reciprocal communications between teachers and families, and with sensitivity to the cultural contexts in which children are developing. The program uses assessment results to inform decisions about the children in their care, to improve teaching practices, and to drive program improvement. <i>(Source: Adapted from NAEYC Early Learning Program Accreditation Standards and Assessment Items, 2019)</i>
4. Center	This refers to any public or private child development center or learning center.
5. Children's developmental level	Pertains to children's development at each age and stage in the following domains: physical health, well-being and motor development; socio-emotional development; character and values development; cognitive and intellectual development; language development; creative and aesthetic development <i>(Source: NELF by ECCD Council)</i>
6. Children's portfolio	Organized collection of children's work to showcase and document their progress in learning and development. This may include, but are not limited to, their drawings, early writing samples, anecdotal records, checklists, etc.
7. Classroom Management	Refers to activities that the teacher takes to creating and maintaining a learning environment that engages and supports children's learning and development.

8. Community mapping	This is accomplished to obtain a record of the families within the barangay who have children aged 0-4 years. Included in this mapping is a survey of children needing special assistance, e.g., showing signs of malnourishment, dental carries, etc.
9. Culminating Activity	This is the final event that allows the children to showcase what they learned in a creative and meaningful manner. This activity involves the families and the community.
10. Curriculum Plan	Consists of the learning experiences through which children acquire knowledge, skills, abilities, and understanding. (Source: https://www.naeyc.org/resources/position-statements/dap/planning-curriculum)
11. Developmentally appropriate activities	These are strategies and practices that foster the optimal and holistic development of children using the “strengths-based, play-based approach to joyful learning” considering the cultural, linguistic and ability appropriate for each child” (Source: National Association for the Education of Young Children (NAEYC) https://www.naeyc.org/resources/position-statements/dap/definition)
12. ECCD Curriculum	Refers to the developmentally appropriate educational objectives and practices, programs of activities, organized learning experiences, recommended learning materials and appropriate assessment for children that are implemented by ECCD service providers through community-based ECCD programs. It is anchored on the National Early Learning Framework (NELF) and consists of national program goals and guidelines, instructional objectives, and content outlines that are age-appropriate, individually appropriate and culturally relevant and shall make possible a smooth transition towards the Kindergarten curriculum of the DepED. (Source: EYA 2013 IRR)
13. Inferences	These are tentative conclusions that a CDT/ CDW/ Teacher makes after a series of observations are gathered at various times, throughout the daily routine about individual children. These help in planning activities for specific or a small group of children based on observed skill level, capacity, needs, and interest.
14. Intake interview	Interview to fill-out the needed information in the Child Intake Form (CIF). It includes basic information about the child and her/ his family, medical information, latest

	assessment results and interview notes with the parents/ family.
15. Learning Area	Refers to designated spaces where children engage in varied activities that promote learning and development.
16. Locally available materials	This includes artifacts, natural and unnatural objects available in the immediate surroundings in the community, e.g., pinecones, seashells, textile swatches, etc., that may be used in a variety of ways for instruction, arts and craft, etc.
17. Manipulative materials	These are concrete, hands-on materials that children can explore and play with to enhance their learning and development, e.g., blocks, beads, puzzles, counters, etc.
18. Parent's Handbook	This is a document containing the standard operating procedure of the center. This includes the following, but are not limited to, policies for: separation anxiety of children and how to deal with it, what to do with children who are sick, healthy snacks via the center's feeding program and the need for volunteer parents/ guardians, importance of family involvement and active participation in the center's activities, etc.
19. Referral	The process of establishing clear communication paths among and between parents, child development teachers/ workers, health workers, social workers and specialists (<i>ECCD Council, 2021</i>). A referral is done for children who may not be developing at their desired pace. In the ECCD Checklist, if a child scores below than the expected score on any of the domains the parent/ caregiver and the CDT's/ CDW's immediate supervisor should be informed. These children may need further evaluation, thus, a referral should be made.
20. Special activities	These are activities planned in relation to the class theme and implemented by the CDT/ CDW often in coordination with other stakeholders. Examples of these are: walking trip to a nearby sari sari store, food experience in class (may or may not include heat, e.g., peanut butter ball-making), invite resource person in class to talk about their job and show the children the tools they use in their work (e.g., delivery rider who can be one of the parents of the children), etc.
21. Subthemes	These are more focused or specific ideas or topics that branch out from a theme. For example, for the theme <i>Everything Grows</i> a sample subtheme would be <i>Children grow, Plants grow, and Animals Grow</i> .
22. Themes	These are broad concepts or big ideas that are naturally interesting to children whereby learning is centered

	around. Some examples are, <i>Everything Grows</i> , <i>We Are a Community</i> , etc.
