

TRAINING REGULATIONS

FOOD PRODUCTION (BREAD AND PATISSERIE) NC II

TOURISM SECTOR (HOTEL AND RESTAURANT)

TECHNICAL EDUCATION AND SKILLS DEVELOPMENT AUTHORITY
East Service Road, South Luzon Expressway (SLEX), Fort Bonifacio, Taguig City, Metro Manila

*Technical Education and Skills Development Act of 1994
(Republic Act No. 7796)*

Section 22, “Establishment and Administration of the National Trade Skills Standards” of the RA 7796 known as the TESDA Act mandates TESDA to establish national occupational skill standards. The Authority shall develop and implement a certification and accreditation program in which private industry group and trade associations are accredited to conduct approved trade tests, and the local government units to promote such trade testing activities in their respective areas in accordance with the guidelines to be set by the Authority.

The Training Regulations (TR) serves as basis for:

1. Development of curriculum and assessment tools
2. Registration and delivery of training programs; and
3. Establishment of competency assessment and certification arrangements.

Each TR has four sections:

- | | |
|-----------|---|
| Section 1 | Definition of Qualification - describes the qualification and defines the competencies that comprise the qualification. |
| Section 2 | The Competency Standards was revised to include the Required Knowledge and Required Skills per element. These fields explicitly state the required knowledge and skills for competent performance of a unit of competency in an informed and effective manner. These also emphasize the application of knowledge and skills to situations where understanding is converted into a workplace outcome. |
| Section 3 | Training Arrangements – contain the information and requirements which serve as bases for training providers in designing and delivering competency-based curriculum for the qualification. The revisions to Section 3 entail identifying the Learning Activities leading to achievement of the identified Learning Outcome. |
| Section 4 | Assessment and Certification Arrangements - describe the policies governing assessment and certification procedures for the qualification. |

TRAINING REGULATIONS FOR

FOOD PRODUCTION (BREAD AND PATISSERIE) NC II

SECTION 1 FOOD PRODUCTION (BREAD AND PATISSERIE) NC II QUALIFICATION

The **FOOD PRODUCTION (BREAD AND PATISSERIE) NC II** Qualification consists of competencies that a person must achieve to be able to clean equipment , tools and utensils and prepare, portion and present pastries, breads and other dessert items to guests in food production operations.

This Qualification is packaged from the competency map of the **Tourism Sector** as shown in Annex A.

The Units of Competency comprising this Qualification include the following:

CODE NO. BASIC COMPETENCIES

400311210	Participate in workplace communication
400311211	Work in a team environment
400311212	Solve/address general workplace problems
400311213	Develop career and life decisions
400311214	Contribute to workplace innovation
400311215	Present relevant information
400311216	Practice occupational safety and health policies and procedures
400311217	Exercise efficient and effective sustainable practices in the workplace
400311218	Practice entrepreneurial skills in the workplace

CODE NO. COMMON COMPETENCIES

TRS311201	Develop and update industry knowledge
TRS311202	Observe workplace hygiene procedures
TRS311203	Perform computer operations
TRS311204	Perform workplace and safety practices
TRS311205	Provide effective customer service

CODE NO. CORE COMPETENCIES

TRS751301	Clean and maintain kitchen premises, equipment and tools
TRS751302	Organize and prepare food and service for bakery and pastry production
TRS751303	Prepare and present bakery products
TRS751304	Prepare and present basic pastry products
TRS751305	Prepare and present basic hot, cold and frozen desserts
TRS751306	Prepare and present gateaux, tortes and cakes
TRS751307	Prepare and present petits fours
TRS751308	Prepare chocolate and produce chocolate products
TRS751309	Present desserts

A person who has achieved this Qualification is competent to be a:

- ☐ Kitchen Hand
- ☐ Commis - Pastry
- ☐ Baker

SECTION 2 COMPETENCY STANDARDS

This section details the contents of the basic, common and core units of competency required in **FOOD PRODUCTION (BREAD AND PATISSERIE) NC II**.

BASIC COMPETENCIES

UNIT OF COMPETENCY : PARTICIPATE IN WORKPLACE COMMUNICATION

UNIT CODE : 400311210

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes required to gather, interpret and convey information in response to workplace requirements.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Obtain and convey workplace information	1.1 Specific and relevant information is accessed from appropriate sources 1.2 Effective questioning, active listening and speaking skills are used to gather and convey information 1.3 Appropriate medium is used to transfer information and ideas 1.4 Appropriate non-verbal communication is used 1.5 Appropriate lines of communication with supervisors and colleagues are identified and followed 1.6 Defined workplace procedures for the location and storage of information are used	1.1 Effective verbal and nonverbal communication 1.2 Different modes of communication 1.3 Medium of communication in the workplace 1.4 Organizational policies 1.5 Communication procedures and systems 1.6 Lines of Communication 1.7 Technology relevant to the enterprise and the individual's work responsibilities 1.8 Workplace etiquette	1.1 Following simple spoken language 1.2 Performing routine workplace duties following simple written notices 1.3 Participating in workplace meetings and discussions 1.4 Preparing work-related documents 1.5 Estimating, calculating and recording routine workplace measures 1.6 Relating/ Interacting with people of various levels in the workplace 1.7 Gathering and providing basic information in response to workplace requirements 1.8 Basic business writing skills 1.9 Interpersonal skills in the workplace 2.0 Active-listening skills

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	1.7 Personal interaction is carried out clearly and concisely		
2. Perform duties following workplace instructions	2.1 Written notices and instructions are read and interpreted in accordance with organizational guidelines 2.2 Routine written instruction are followed based on established procedures 2.3 Feedback is given to workplace supervisor based instructions/ information received 2.4 Workplace interactions are conducted in a courteous manner 2.5 Where necessary, clarifications about routine workplace procedures and matters concerning conditions of employment are sought and asked from appropriate sources 2.6 Meetings outcomes are interpreted and implemented	2.1 Effective verbal and non-verbal communication 2.2 Different modes of communication 2.3 Medium of communication in the workplace 2.4 Organizational/ Workplace policies 2.5 Communication procedures and systems 2.6 Lines of communication 2.7 Technology relevant to the enterprise and the individual's work responsibilities 2.8 Effective questioning techniques (clarifying and probing) 2.9 Workplace etiquette	2.1 Following simple spoken instructions 2.2 Performing routine workplace duties following simple written notices 2.3 Participating in workplace meetings and discussions 2.4 Completing work-related documents 2.5 Estimating, calculating and recording routine workplace measures 2.6 Relating/ Responding to people of various levels in the workplace 2.7 Gathering and providing information in response to workplace requirements 2.8 Basic questioning/querying 2.9 Skills in reading for information 2.10 Skills in locating

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Complete relevant work-related documents	3.1 Range of forms relating to conditions of employment are completed accurately and legibly 3.2 Workplace data is recorded on standard workplace forms and documents 3.3 Errors in recording information on forms/ documents are identified and acted upon 3.4 Reporting requirements to supervisor are completed according to organizational guidelines	3.1 Effective verbal and non-verbal communication 3.2 Different modes of communication 3.3 Workplace forms and documents 3.4 Organizational/ Workplace policies 3.5 Communication procedures and systems 3.6 Technology relevant to the enterprise and the individual's work responsibilities	3.1 Completing work-related documents 3.2 Applying operations of addition, subtraction, division and multiplication 3.3 Gathering and providing information in response to workplace requirements 3.4 Effective record keeping skills

RANGE OF VARIABLES

VARIABLE	RANGE
1. Appropriate sources	May include: 1.1. Team members 1.2. Supervisor/Department Head 1.3. Suppliers 1.4. Trade personnel 1.5. Local government 1.6. Industry bodies
2. Medium	May include: 2.1. Memorandum 2.2. Circular 2.3. Notice 2.4. Information dissemination 2.5. Follow-up or verbal instructions 2.6. Face-to-face communication 2.7. Electronic media (disk files, cyberspace)
3. Storage	May include: 3.1. Manual filing system 3.2. Computer-based filing system
4. Workplace interactions	May include: 4.1. Face-to-face 4.2. Telephone 4.3. Electronic and two-way radio 4.4. Written including electronic means, memos, instruction and forms 4.5. Non-verbal including gestures, signals, signs and diagrams
5. Forms	May include: 5.1. HR/Personnel forms, telephone message forms, safety reports

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1. Prepared written communication following standard format of the organization 1.2. Accessed information using workplace communication equipment/systems 1.3. Made use of relevant terms as an aid to transfer information effectively 1.4. Conveyed information effectively adopting formal or informal communication
2. Resource Implications	The following resources should be provided: 2.1. Fax machine 2.2. Telephone 2.3. Notebook 2.4. Writing materials 2.5. Computer with Internet connection
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1. Demonstration with oral questioning 3.2. Interview 3.3. Written test 3.4. Third-party report
4. Context for Assessment	4.1. Competency may be assessed individually in the actual workplace or through an accredited institution

UNIT OF COMPETENCY: WORK IN A TEAM ENVIRONMENT**UNIT CODE : 400311211****UNIT DESCRIPTOR :** This unit covers the skills, knowledge and attitudes to identify one's roles and responsibilities as a member of a team.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Describe team role and scope	1.1 The role and objective of the team is identified from available sources of information 1.2 Team parameters, reporting relationships and responsibilities are identified from team discussions and appropriate external sources	1.1 Group structure 1.2 Group development 1.3 Sources of information	1.1 Communicating with others, appropriately consistent with the culture of the workplace 1.2 Developing ways in improving work structure and performing respective roles in the group or organization
2. Identify one's role and responsibility within a team	2.1 Individual roles and responsibilities within the team environment are identified 2.2 Roles and objectives of the team is identified from available sources of information 2.3 Team parameters, reporting relationships and responsibilities are identified based on team discussions and appropriate external sources	2.1 Team roles and objectives 2.2 Team structure and parameters 2.3 Team development 2.4 Sources of information	2.1 Communicating with others, appropriately consistent with the culture of the workplace 2.2 Developing ways in improving work structure and performing respective roles in the group or organization

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Work as a team member	3.1 Effective and appropriate forms of communications are used and interactions undertaken with team members based on company practices. 3.2 Effective and appropriate contributions made to complement team activities and objectives, based on workplace context 3.3 Protocols in reporting are observed based on standard company practices. 3.4 Contribute to the development of team work plans based on an understanding of team's role and objectives	3.1 Communication Process 3.2 Workplace communication protocol 3.3 Team planning and decision making 3.4 Team thinking 3.5 Team roles 3.6 Process of team development 3.7 Workplace context	3.1 Communicating appropriately, consistent with the culture of the workplace 3.2 Interacting effectively with others 3.3 Deciding as an individual and as a group using group think strategies and techniques 3.4 Contributing to Resolution of issues and concerns

RANGE OF VARIABLES

VARIABLE	RANGE
1. Role and objective of team	May include: 1.1. Work activities in a team environment with enterprise or specific sector 1.2. Limited discretion, initiative and judgement maybe demonstrated on the job, either individually or in a team environment
2. Sources of information	May include: 2.1. Standard operating and/or other workplace procedures 2.2. Job procedures 2.3. Machine/equipment manufacturer's specifications and instructions 2.4. Organizational or external personnel 2.5. Client/supplier instructions 2.6. Quality standards 2.7. OHS and environmental standards
3. Workplace context	May include: 3.1. Work procedures and practices 3.2. Conditions of work environments 3.3. Legislation and industrial agreements 3.4. Standard work practice including the storage, safe handling and disposal of chemicals 3.5. Safety, environmental, housekeeping and quality guidelines

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1. Worked in a team to complete workplace activity 1.2. Worked effectively with others 1.3. Conveyed information in written or oral form 1.4. Selected and used appropriate workplace language 1.5. Followed designated work plan for the job
2. Resource Implications	The following resources should be provided: 2.1. Access to relevant workplace or appropriately simulated environment where assessment can take place 2.2. Materials relevant to the proposed activity or tasks
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1. Role play involving the participation of individual member to the attainment of organizational goal 3.3. Case studies and scenarios as a basis for discussion of issues and strategies in teamwork 3.4. Socio-drama and socio-metric methods 3.5. Sensitivity techniques 3.6. Written Test
4. Context for Assessment	4.1. Competency may be assessed in workplace or in a simulated workplace setting 4.2. Assessment shall be observed while task are being undertaken whether individually or in group

UNIT OF COMPETENCY : SOLVE/ADDRESS GENERAL WORKPLACE PROBLEMS

UNIT CODE : 400311212

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes required to apply problem-solving techniques to determine the origin of problems and plan for their resolution. It also includes addressing procedural problems through documentation, and referral.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Identify routine problems	1.1 Routine problems or procedural problem areas are identified 1.2 Problems to be investigated are defined and determined 1.3 Current conditions of the problem are identified and documented	1.1 Current industry hardware and software products and services 1.2 Industry maintenance, service and helpdesk practices, processes and procedures 1.3 Industry standard diagnostic tools 1.4 Malfunctions and resolutions	1.1 Identifying current industry hardware and software products and services 1.2 Identifying current industry maintenance, services and helpdesk practices, processes and procedures. 1.3 Identifying current industry standard diagnostic tools 1.4 Describing common malfunctions and resolutions. 1.5 Determining the root cause of a routine malfunction

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Look for solutions to routine problems	2.1 Potential solutions to problem are identified 2.2 Recommendations about possible solutions are developed, documented , ranked and presented to appropriate person for decision	2.1 Current industry hardware and software products and services 2.2 Industry service and helpdesk practices, processes and procedures 2.3 Operating systems 2.4 Industry standard diagnostic tools 2.5 Malfunctions and resolutions. 2.6 Root cause analysis	2.1 Identifying current industry hardware and software products and services 2.2 Identifying services and helpdesk practices, processes and procedures. 2.3 Identifying operating system 2.4 Identifying current industry standard diagnostic tools 2.5 Describing common malfunctions and resolutions. 2.6 Determining the root cause of a routine malfunction
3. Recommend solutions to problems	3.1 Implementation of solutions are planned 3.2 Evaluation of implemented solutions are planned 3.3 Recommended solutions are documented and submit to appropriate person for confirmation	3.1 Standard procedures 3.2 Documentation produce	3.1 Producing documentation that recommends solutions to problems 3.2 Following established procedures

RANGE OF VARIABLES

VARIABLE	RANGE
1. Problems/Procedural Problem	May include: 1.1 Routine/non – routine processes and quality problems 1.2 Equipment selection, availability and failure 1.3 Teamwork and work allocation problem 1.4 Safety and emergency situations and incidents 1.5 Work-related problems outside of own work area
2. Appropriate person	May include: 2.1 Supervisor or manager 2.2 Peers/work colleagues 2.3 Other members of the organization
3. Document	May include: 3.1 Electronic mail 3.2 Briefing notes 3.3 Written report 3.4 Evaluation report
4. Plan	May include: 4.1 Priority requirements 4.2 Co-ordination and feedback requirements 4.3 Safety requirements 4.4 Risk assessment 4.5 Environmental requirements

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Determined the root cause of a routine problem 1.2 Identified solutions to procedural problems. 1.3 Produced documentation that recommends solutions to problems. 1.4 Followed established procedures. 1.5 Referred unresolved problems to support persons.
2. Resource Implications	2.1. Assessment will require access to a workplace over an extended period, or a suitable method of gathering evidence of operating ability over a range of situations.
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Case Formulation 3.2 Life Narrative Inquiry 3.3 Standardized test The unit will be assessed in a holistic manner as is practical and may be integrated with the assessment of other relevant units of competency. Assessment will occur over a range of situations, which will include disruptions to normal, smooth operation. Simulation may be required to allow for timely assessment of parts of this unit of competency. Simulation should be based on the actual workplace and will include walk through of the relevant competency components.
4. Context for Assessment	4.1 Competency may be assessed individually in the actual workplace or simulation environment in TESDA accredited institutions.

UNIT OF COMPETENCY : DEVELOP CAREER AND LIFE DECISIONS**UNIT CODE : 400311213****UNIT DESCRIPTOR :** This unit covers the knowledge, skills, and attitudes in managing one's emotions, developing reflective practice, and boosting self-confidence and developing self-regulation.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Manage one's emotion	1.1 Self-management strategies are identified 1.2 Skills to work independently and to show initiative, to be conscientious, and persevering in the face of setbacks and frustrations are developed 1.3 Techniques for effectively handling negative emotions and unpleasant situation in the workplace are examined	1.1 Self-management strategies that assist in regulating behavior and achieving personal and learning goals (e.g. Nine self-management strategies according to Robert Kelley) 1.2 Enablers and barriers in achieving personal and career goals 1.3 Techniques in handling negative emotions and unpleasant situation in the workplace such as frustration, anger, worry, anxiety, etc.	1.1 Managing properly one's emotions and recognizing situations that cannot be changed and accept them and remain professional 1.2 Developing self-discipline, working independently and showing initiative to achieve personal and career goals 1.3 Showing confidence, and resilience in the face of setbacks and frustrations and other negative emotions and unpleasant situations in the workplace

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Develop reflective practice	2.1 Personal strengths and achievements, based on self-assessment strategies and teacher feedback are contemplated 2.2 Progress when seeking and responding to feedback from teachers to assist them in consolidating strengths, addressing weaknesses and fulfilling their potential are monitored 2.3 Outcomes of personal and academic challenges by reflecting on previous problem solving and decision making strategies and feedback from peers and teachers are predicted	2.1 Basic SWOT analysis 2.2 Strategies to improve one's attitude in the workplace 2.3 Gibbs' Reflective Cycle/Model (Description, Feelings, Evaluation, Analysis, Conclusion, and Action plan)	2.1 Using the basic SWOT analysis as self-assessment strategy 2.2 Developing reflective practice through realization of limitations, likes/dislikes; through showing of self-confidence 2.3 Demonstrating self-acceptance and being able to accept challenges
3. Boost self-confidence and develop self-regulation	3.1 Efforts for continuous self-improvement are demonstrated 3.2 Counter-productive tendencies at work are eliminated 3.3 Positive outlook in life are maintained.	3.1 Four components of self-regulation based on Self-Regulation Theory (SRT) 3.2 Personality development concepts 3.3 Self-help concepts (e. g., 7 Habits by Stephen Covey, transactional analysis, psycho-spiritual concepts)	3.1 Performing effective communication skills – reading, writing, conversing skills 3.2 Showing affective skills – flexibility, adaptability, etc. 3.3 Self-assessment for determining one's strengths and weaknesses

RANGE OF VARIABLES

VARIABLE	RANGE
1. Self-management strategies	May include: 1.1 Seeking assistance in the form of job coaching or mentoring 1.2 Continuing dialogue to tackle workplace grievances 1.3 Collective negotiation/bargaining for better working conditions 1.4 Share your goals to improve with a trusted co-worker or supervisor 1.5 Make a negativity log of every instance when you catch yourself complaining to others 1.6 Make lists and schedules for necessary activities
2. Unpleasant situation	May include: 2.1 Job burn-out 2.2 Drug dependence 2.3 Sulking

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Express emotions appropriately 1.2 Work independently and show initiative 1.3 Consistently demonstrate self-confidence and self-discipline
2. Resource Implications	The following resources should be provided: 2.1. Access to workplace and resource s 2.2. Case studies
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1. Demonstration or simulation with oral questioning 3.2. Case problems involving work improvement and sustainability issues 3.3. Third-party report
4. Context for Assessment	4.1. Competency assessment may occur in workplace or any appropriately simulated environment

UNIT OF COMPETENCY : CONTRIBUTE TO WORKPLACE INNOVATION

UNIT CODE : 400311214

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes required to make a pro-active and positive contribution to workplace innovation.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Identify opportunities to do things better	1.1 <i>Opportunities for improvement</i> are identified proactively in own area of work. 1.2 <i>Information</i> are gathered and reviewed which may be relevant to ideas and which might assist in gaining support for idea.	1.1 Roles of individuals in suggesting and making improvements. 1.2 Positive impacts and challenges in innovation. 1.3 Types of changes and responsibility. 1.4 Seven habits of highly effective people.	1.1 Identifying opportunities to improve and to do things better. Involvement. 1.2 Identifying the positive impacts and the challenges of change and innovation. 1.3 Identifying examples of the types of changes that are within and outside own scope of responsibility
2. Discuss and develop ideas with others	2.1 <i>People who could provide input</i> to ideas for improvements are identified. 2.2 Ways of approaching people to begin sharing ideas are selected. 2.3 Meeting is set with relevant people. 2.4 Ideas for follow up are review and selected based on feedback. 2.5 <i>Critical inquiry method</i> is used to discuss and develop ideas with others.	2.1 Roles of individuals in suggesting and making improvements. 2.2 Positive impacts and challenges in innovation. 2.3 Types of changes and responsibility. 2.4 Seven habits of highly effective people.	2.1 Identifying opportunities to improve and to do things better. Involvement. 2.2 Identifying the positive impacts and the challenges of change and innovation. 2.3 Providing examples of the types of changes that are within and outside own scope of responsibility 2.4 Communicating ideas for change through small group discussions and meetings.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Integrate ideas for change in the workplace	3.1 Critical inquiry method is used to integrate different ideas for change of key people. 3.2 Summarizing, analyzing and generalizing skills are used to extract salient points in the pool of ideas. 3.3 Reporting skills are likewise used to communicate results. 3.4 Current Issues and concerns on the systems, processes and procedures, as well as the need for simple innovative practices are identified.	3.1 Roles of individuals in suggesting and making improvements. 3.2 Positive impacts and challenges in innovation. 3.3 Types of changes and responsibility. 3.4 Seven habits of highly effective people. 3.5 Basic research skills.	3.1 Identifying opportunities to improve and to do things better. Involvement. 3.2 Identifying the positive impacts and the challenges of change and innovation. 3.3 Providing examples of the types of changes that are within and outside own scope of responsibility. 3.4 Communicating ideas for change through small group discussions and meetings. 3.5 Demonstrating skills in analysis and interpretation of data.

RANGE OF VARIABLES

VARIABLE	RANGE
1. Opportunities for improvement	May include: 1.1 Systems. 1.2 Processes. 1.3 Procedures. 1.4 Protocols. 1.5 Codes. 1.6 Practices.
2. Information	May include: 2.1 Workplace communication problems. 2.2 Performance evaluation results. 2.3 Team dynamics issues and concerns. 2.4 Challenges on return of investment 2.5 New tools, processes and procedures. 2.6 New people in the organization.
3. People who could provide input	May include: 3.1 Leaders. 3.2 Managers. 3.3 Specialists. 3.4 Associates. 3.5 Researchers. 3.6 Supervisors. 3.7 Staff. 3.8 Consultants (external) 3.9 People outside the organization in the same field or similar expertise/industry. 3.10 Clients
4. Critical inquiry method	May include: 4.1 Preparation. 4.2 Discussion. 4.3 Clarification of goals. 4.4 Negotiate towards a Win-Win outcome. 4.5 Agreement. 4.6 Implementation of a course of action. 4.7 Effective verbal communication. See our pages: Verbal Communication and Effective Speaking. 4.8 Listening. 4.9 Reducing misunderstandings is a key part of effective negotiation. 4.10 Rapport Building. 4.11 Problem Solving. 4.12 Decision Making. 4.13 Assertiveness. 4.14 Dealing with Difficult Situations.

5. Reporting skills	May include: 5.1 Data management. 5.2 Coding. 5.3 Data analysis and interpretation. 5.4 Coherent writing. 5.5 Speaking.
---------------------	---

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Identified opportunities to do things better. 1.2 Discussed and developed ideas with others on how to contribute to workplace innovation. 1.3 Integrated ideas for change in the workplace. 1.4 Analyzed and reported rooms for innovation and learning in the workplace.
2. Resource Implications	The following resources should be provided: 2.1 Pens, papers and writing implements. 2.2 Cartolina. 2.3 Manila papers.
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Psychological and behavioral Interviews. 3.2 Performance Evaluation. 3.3 Life Narrative Inquiry. 3.4 Review of portfolios of evidence and third-party workplace reports of on-the-job performance. 3.5 Sensitivity analysis. 3.6 Organizational analysis. 3.7 Standardized assessment of character strengths and virtues applied.
4. Context for Assessment	4.1 Competency may be assessed individually in the actual workplace or simulation environment in TESDA accredited institutions.

UNIT OF COMPETENCY : PRESENT RELEVANT INFORMATION

UNIT CODE : 400311215

UNIT DESCRIPTOR : This unit of covers the knowledge, skills and attitudes required to present data/information appropriately.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Gather data/information	1.1 Evidence, facts and information are collected 1.2 Evaluation, terms of reference and conditions are reviewed to determine whether data/information falls within project scope	1.1 Organisational protocols 1.2 Confidentiality 1.3 Accuracy 1.4 Business mathematics and statistics 1.5 Data analysis techniques/procedures 1.6 Reporting requirements to a range of audiences 1.7 Legislation, policy and procedures relating to the conduct of evaluations 1.8 Organisational values, ethics and codes of conduct	1.1 Describing organisational protocols relating to client liaison 1.2 Protecting confidentiality 1.3 Describing accuracy 1.4 Computing business mathematics and statistics 1.5 Describing data analysis techniques/procedures 1.6 Reporting requirements to a range of audiences 1.7 Stating legislation, policy and procedures relating to the conduct of evaluations 1.8 Stating organisational values, ethics and codes of conduct
2. Assess gathered data/information	2.1 Validity of data/information is assessed 2.2 Analysis techniques are applied to assess data/information. 2.3 Trends and anomalies are identified 2.4 Data analysis techniques and procedures are documented 2.5 Recommendations are made on	2.1 Business mathematics and statistics 2.2 Data analysis techniques/procedures 2.3 Reporting requirements to a range of audiences 2.4 Legislation, policy and procedures relating to the conduct of evaluations 2.5 Organisational values, ethics and	2.1 Computing business mathematics and statistics 2.2 Describing data analysis techniques/procedures 2.3 Reporting requirements to a range of audiences 2.4 Stating legislation, policy and procedures relating to the

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	areas of possible improvement.	codes of conduct	conduct of evaluations 2.5 Stating organisational values, ethics and codes of conduct
3. Record and present information	3.1 Studied data/information are recorded. 3.2 Recommendations are analysed for action to ensure they are compatible with the project's scope and terms of reference. 3.3 Interim and final reports are analysed and outcomes are compared to the criteria established at the outset. 3.4 Findings are presented to stakeholders.	3.1 Data analysis techniques/procedures 3.2 Reporting requirements to a range of audiences 3.3 Legislation, policy and procedures relating to the conduct of evaluations 3.4 Organisational values, ethics and codes of conduct	3.1 Describing data analysis techniques/procedures 3.2 Reporting requirements to a range of audiences 3.3 Stating legislation, policy and procedures relating to the conduct of evaluations 3.4 Stating organisational values, ethics and codes of conduct practices

RANGE OF VARIABLES

VARIABLE	RANGE
1. Data analysis techniques	May include: 1.1. Domain analysis 1.2. Content analysis 1.3. Comparison technique

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Determine data / information 1.2 Studied and applied gathered data/information 1.3 Recorded and studied studies data/information These aspects may be best assessed using a range of scenarios what ifs as a stimulus with a walk through forming part of the response. These assessment activities should include a range of problems, including new, unusual and improbable situations that may have happened.
2. Resource Implications	Specific resources for assessment 2.1. Evidence of competent performance should be obtained by observing an individual in an information management role within the workplace or operational or simulated environment.
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1. Written Test 3.2. Interview 3.3. Portfolio The unit will be assessed in a holistic manner as is practical and may be integrated with the assessment of other relevant units of competency. Assessment will occur over a range of situations, which will include disruptions to normal, smooth operation. Simulation may be required to allow for timely assessment of parts of this unit of competency. Simulation should be based on the actual workplace and will include walk through of the relevant competency components.
4. Context for Assessment	4.1. In all workplace, it may be appropriate to assess this unit concurrently with relevant teamwork or operation units.

**UNIT OF COMPETENCY : PRACTICE OCCUPATIONAL SAFETY AND HEALTH
POLICIES AND PROCEDURES**

UNIT CODE : 400311216

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes required to identify OSH compliance requirements, prepare OSH requirements for compliance, perform tasks in accordance with relevant OSH policies and procedures

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Identify OSH compliance requirements	1.1 Relevant OSH requirements, regulations, policies and procedures are identified in accordance with workplace policies and procedures 1.2 OSH activity non-conformities are conveyed to appropriate personnel 1.3 OSH preventive and control requirements are identified in accordance with OSH work policies and procedures	1.1. OSH preventive and control requirements 1.2. Hierarchy of Controls 1.3. Hazard Prevention and Control 1.4. General OSH principles 1.5. Work standards and procedures 1.6. Safe handling procedures of tools, equipment and materials 1.7. Standard emergency plan and procedures in the workplace	1.1. Communication skills 1.2. Interpersonal skills 1.3. Critical thinking skills 1.4. Observation skills

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Prepare OSH requirements for compliance	2.1 OSH work activity material, tools and equipment requirements are identified in accordance with workplace policies and procedures 2.2. Required OSH materials, tools and equipment are acquired in accordance with workplace policies and procedures 2.3. Required OSH materials, tools and equipment are arranged/ placed in accordance with OSH work standards	2.1. Resources necessary to execute hierarchy of controls 2.2. General OSH principles 2.3. Work standards and procedures 2.4. Safe handling procedures of tools, equipment and materials 2.5. Different OSH control measures	2.1. Communication skills 2.2. Estimation skills 2.3. Interpersonal skills 2.4. Critical thinking skills 2.5. Observation skills 2.6. Material, tool and equipment identification skills
3. Perform tasks in accordance with relevant OSH policies and procedures	3.1 Relevant OSH work procedures are identified in accordance with workplace policies and procedures 3.2 Work Activities are executed in accordance with OSH work standards 3.3 Non-compliance work activities are reported to <i>appropriate personnel</i>	3.1. OSH work standards 3.2. Industry related work activities 3.3. General OSH principles 3.4. OSH Violations Non-compliance work activities	3.1 Communication skills 3.3 Interpersonal skills 3.4 Troubleshooting skills 3.5 Critical thinking skills 3.6 Observation skills

RANGE OF VARIABLES

VARIABLE	RANGE
1. OSH Requirements, Regulations, Policies and Procedures	May include: 1.1 Clean Air Act 1.2 Building code 1.3 National Electrical and Fire Safety Codes 1.4 Waste management statutes and rules 1.5 Permit to Operate 1.6 Philippine Occupational Safety and Health Standards 1.7 Department Order No. 13 (Construction Safety and Health) 1.8 ECC regulations
2. Appropriate Personnel	May include: 2.1 Manager 2.2 Safety Officer 2.3 EHS Offices 2.4 Supervisors 2.5 Team Leaders 2.6 Administrators 2.7 Stakeholders 2.8 Government Official 2.9 Key Personnel 2.10 Specialists 2.11 Himself
3. OSH Preventive and Control Requirements	May include: 3.1 Resources needed for removing hazard effectively 3.2 Resources needed for substitution or replacement 3.3 Resources needed to establishing engineering controls 3.4 Resources needed for enforcing administrative controls 3.5 Personal Protective equipment
4. Non OSH-Compliance Work Activities	May include non-compliance or observance of the following safety measures: 4.1 Violations that may lead to serious physical harm or death 4.2 Fall Protection 4.3 Hazard Communication 4.4 Respiratory Protection 4.5 Power Industrial Trucks 4.6 Lockout/Tag-out 4.7 Working at heights (use of ladder, scaffolding) 4.8 Electrical Wiring Methods 4.9 Machine Guarding 4.10 Electrical General Requirements 4.11 Asbestos work requirements 4.12 Excavations work requirements

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1. Convey OSH work non-conformities to appropriate personnel 1.2. Identify OSH preventive and control requirements in accordance with OSH work policies and procedures 1.3. Identify OSH work activity material, tools and equipment requirements in accordance with workplace policies and procedures 1.4. Arrange/Place required OSH materials, tools and equipment in accordance with OSH work standards 1.5. Execute work activities in accordance with OSH work standards 1.6. Report OSH activity non-compliance work activities to appropriate personnel
2. Resource Implications	The following resources should be provided: 2.1 Facilities, materials tools and equipment necessary for the activity
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation/Demonstration with oral questioning 3.2 Third party report
4. Context for Assessment	4.1 Competency may be assessed in the work place or in a simulated work place setting

UNIT OF COMPETENCY : **EXERCISE EFFICIENT AND EFFECTIVE SUSTAINABLE PRACTICES IN THE WORKPLACE**

UNIT CODE : **400311217**

UNIT DESCRIPTOR : This unit covers knowledge, skills and attitude to identify the efficiency and effectiveness of resource utilization, determine causes of inefficiency and/or ineffectiveness of resource utilization and Convey inefficient and ineffective environmental practices

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Identify the efficiency and effectiveness of resource utilization	1.1 Required resource utilization in the workplace is measured using appropriate techniques 1.2 Data are recorded in accordance with workplace protocol 1.3 Recorded data are compared to determine the efficiency and effectiveness of resource utilization according to established <i>environmental work procedures</i>	1.1. Importance of Environmental Literacy 1.2. Environmental Work Procedures 1.3. Waste Minimization 1.4. Efficient Energy Consumptions	1.1 Recording Skills 1.2 Writing Skills 1.3 Innovation Skills
2. Determine causes of inefficiency and/or ineffectiveness of resource utilization	2.1 Potential causes of inefficiency and/or ineffectiveness are listed 2.2 Causes of inefficiency and/or ineffectiveness are identified through deductive reasoning 2.3 Identified causes of inefficiency and/or ineffectiveness are validated thru established environmental procedures	2.1 Causes of environmental inefficiencies and ineffectiveness	2.1 Deductive Reasoning Skills 2.2 Critical thinking 2.3 Problem Solving 2.4 Observation Skills

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Convey inefficient and ineffective environmental practices	3.1 Efficiency and effectiveness of resource utilization are reported to <i>appropriate personnel</i> 3.2 Concerns related resource utilization are discussed with appropriate personnel 3.3 Feedback on information/ concerns raised are clarified with appropriate personnel	3.1 Appropriate Personnel to address the environmental hazards 3.2 Environmental corrective actions	3.1 Written and Oral Communication Skills 3.2 Critical thinking 3.3 Problem Solving 3.4 Observation Skills 3.5 Practice Environmental Awareness

RANGE OF VARIABLES

VARIABLE	RANGE
1. Environmental Work Procedures	May include: 1.1 Utilization of Energy, Water, Fuel Procedures 1.2 Waster Segregation Procedures 1.3 Waste Disposal and Reuse Procedures 1.4 Waste Collection Procedures 1.5 Usage of Hazardous Materials Procedures 1.6 Chemical Application Procedures 1.7 Labeling Procedures
2. Appropriate Personnel	May include: 2.1 Manager 2.2 Safety Officer 2.3 EHS Offices 2.4 Supervisors 2.5 Team Leaders 2.6 Administrators 2.7 Stakeholders 2.8 Government Official 2.9 Key Personnel 2.10 Specialists 2.11 Himself

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1. Measured required resource utilization in the workplace using appropriate techniques 1.2. Recorded data in accordance with workplace protocol 1.3. Identified causes of inefficiency and/or ineffectiveness through deductive reasoning 1.4. Validate the identified causes of inefficiency and/or ineffectiveness thru established environmental procedures 1.5. Report efficiency and effectiveness of resource utilization to appropriate personnel 1.6. Clarify feedback on information/concerns raised with appropriate personnel
2. Resource Implications	The following resources should be provided: 2.1 Workplace 2.2 Tools, materials and equipment relevant to the tasks 2.3 PPE 2.4 Manuals and references
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Demonstration 3.2 Oral questioning 3.3 Written examination
4. Context for Assessment	4.1 Competency assessment may occur in workplace or any appropriately simulated environment 4.2 Assessment shall be observed while task are being undertaken whether individually or in-group

UNIT OF COMPETENCY : PRACTICE ENTREPRENEURIAL SKILLS IN THE WORKPLACE

UNIT CODE : 400311218

UNIT DESCRIPTOR : This unit covers the outcomes required to apply entrepreneurial workplace best practices and implement cost-effective operations

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Apply entrepreneurial workplace best practices	1.1 Good practices relating to workplace operations are observed and selected following workplace policy. 1.2 Quality procedures and practices are complied with according to workplace requirements. 1.3 Cost-conscious habits in resource utilization are applied based on industry standards.	1.1 Workplace best practices, policies and criteria 1.2 Resource utilization 1.3 Ways in fostering entrepreneurial attitudes: • Patience • Honesty • Quality-consciousness • Safety-consciousness • Resourcefulness	1.1 Communication skills 1.2 Complying with quality procedures
2. Communicate entrepreneurial workplace best practices	2.1 Observed Good practices relating to workplace operations are communicated to appropriate person . 2.2 Observed quality procedures and practices are communicated to appropriate person 2.3 Cost-conscious habits in resource utilization are communicated based on industry standards.	2.1 Workplace best practices, policies and criteria 2.2 Resource utilization 2.3 Ways in fostering entrepreneurial attitudes: • Patience • Honesty • Quality-consciousness • Safety-consciousness • Resourcefulness	2.1 Communication skills 2.2 Complying with quality procedures 2.3 Following workplace communication protocol

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Implement cost-effective operations	3.1 Preservation and optimization of workplace resources is implemented in accordance with enterprise policy 3.2 Judicious use of workplace tools, equipment and materials are observed according to manual and work requirements. 3.3 Constructive contributions to office operations are made according to enterprise requirements. 3.4 Ability to work within one's allotted time and finances is sustained.	3.1 Optimization of workplace resources 3.2 5S procedures and concepts 3.3 Criteria for cost-effectiveness 3.4 Workplace productivity 3.5 Impact of entrepreneurial mindset to workplace productivity 3.6 Ways in fostering entrepreneurial attitudes: • Quality-consciousness • Safety-consciousness	3.1 Implementing preservation and optimizing workplace resources 3.2 Observing judicious use of workplace tools, equipment and materials 3.3 Making constructive contributions to office operations 3.4 Sustaining ability to work within allotted time and finances

RANGE OF VARIABLES

VARIABLE	RANGE
1. Good practices	May include: 1.1 Economy in use of resources 1.2 Documentation of quality practices
2. Resources utilization	May include: 2.1 Consumption/ use of consumables 2.2 Use/Maintenance of assigned equipment and furniture 2.3 Optimum use of allotted /available time

EVIDENCE GUIDE

1. Critical aspects of competency	Assessment requires evidence that the candidate: 1.1 Demonstrated ability to identify and sustain cost-effective activities in the workplace 1.2 Demonstrated ability to practice entrepreneurial knowledge, skills and attitudes in the workplace.
2. Resource Implications	The following resources should be provided: 2.1 Simulated or actual workplace 2.2 Tools, materials and supplies needed to demonstrate the required tasks 2.3 References and manuals 2.3.1 Enterprise procedures manuals 2.3.2 Company quality policy
3. Methods of Assessment	Competency in this unit should be assessed through: 3.1 Interview 3.2 Third-party report
4. Context of Assessment	4.1 Competency may be assessed in workplace or in a simulated workplace setting 4.2 Assessment shall be observed while tasks are being undertaken whether individually or in-group

COMMON COMPETENCIES

UNIT OF COMPETENCY : DEVELOP AND UPDATE INDUSTRY KNOWLEDGE

UNIT CODE : TRS311201

UNIT DESCRIPTOR : This unit of competency deals with the knowledge, skills required to access, increase and update industry knowledge. It includes seek information on the industry and update industry knowledge.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Seek information on the industry	1.1 Sources of information on the industry are correctly identified and accessed 1.2 Information to assist effective work performance is obtained in line with job requirements 1.3 Specific information on sector of work is accessed and updated 1.4 Industry information is correctly applied to day-to-day work activities	1.1 Overview of quality assurance in the industry 1.2 Role of individual staff members 1.3 Industry information sources	1.1 Ready skills needed to access industry information 1.2 Basic competency skills needed to access the internet
2. Update industry knowledge	2.1 Informal and/or formal research is used to update general knowledge of the industry 2.2 Updated knowledge is shared with customers and colleagues as appropriate and incorporated into day-to-day working activities	2.1 Role of individual staff members 2.2 Industry information sources	2.1 Time management 2.2 Ready skills needed to access industry information

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Develop and update local knowledge	3.1 Local knowledge is developed to assist queries on local/national tourism industry 3.2 Local knowledge is updated using <i>informal and/or formal research</i> 3.3 Contact with local communities is maintained	3.1 Role of individual staff members 3.2 Industry information sources	3.1 Time management 3.2 Ready skills needed to access industry information
4. Promote products and services to customer	4.1 <i>Promotional initiatives</i> are described that maybe used to promote products and services 4.2 Selling skills are applied according to customer needs	4.1 Promotional initiatives	4.1 Applying selling skills

RANGE OF VARIABLES

VARIABLE	RANGE
1. Information sources	May include: 1.1 Media 1.2 Reference books 1.3 Libraries 1.4 Unions 1.5 Industry associations 1.6 Industry journals 1.7 Internet 1.8 Personal observation and experience
2. Information to assist effective work performance	May include: 2.1 Different sectors of the industry and the services available in each sector 2.2 Relationship between tourism and hospitality 2.3 Relationship between the industry and other industries 2.4 Industry working conditions 2.5 Legislation that affects the industry • Liquor • Health and safety • Hygiene • Gaming • Workers compensation • Consumer protection • Duty of care • Building regulations 2.6 Trade unions 2.7 Environmental issues and requirements 2.8 Industrial relations issues and major organizations 2.9 Career opportunities within the industry 2.10 Work ethic required to work in the industry and industry expectations of staff 2.11 Quality assurance
3. Informal and formal research	May include: 3.1 Discussions with colleagues, management and customers 3.2 Reading internal enterprise material about products and services 3.3 Familiarity with customer comments including complaints 3.4 Reading and researching product data and information

VARIABLE	RANGE
	3.5 Conducting internal testing to determine quality and differentials 3.6 General media research 3.7 Developing and analyzing responses to questionnaires 3.8 Reading surveys and ratings
4. Promotional initiatives	May include: 4.1 Media campaigns 4.2 Internal promotions, including static displays, demonstrations, tastings, videos, competitions, packages, events

EVIDENCE GUIDE

1. Critical aspects of competency	Assessment requires evidence that the candidate: 1.1 Knew key sources of information on the industry 1.2 Updated industry knowledge 1.3 Accessed and used industry information 1.4 Developed and updated local knowledge 1.5 Promoted products and services
2. Resource implications	The following resources should be provided: 2.1 Sources of information on the industry 2.2 Industry knowledge
3. Methods of assessment	Competency in this unit may be assessed through: 3.1 Interview/questions 3.2 Practical demonstration 3.3 Portfolio of industry information related to trainee's work
4. Context for assessment	4.1 Competency assessment may occur in workplace or any appropriately simulated environment. 4.2 Assessment may be performed on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence.

UNIT OF COMPETENCY : OBSERVE WORKPLACE HYGIENE PROCEDURES**UNIT CODE : TRS311202****UNIT DESCRIPTOR :** This unit of competency deals with the knowledge, skills and attitudes in observing workplace hygiene procedures. It includes following hygiene procedures and identifying and preventing hygiene risks.

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Follow hygiene procedures	1.1 Workplace hygiene procedures are implemented in line with enterprise and legal requirements 1.2 Handling and storage of items are undertaken in line with enterprise and legal requirements	1.1 Typical hygiene and control procedures in the hospitality and tourism industries 1.2 Overview of legislation and regulation in relation to food handling, personal and general hygiene 1.3 Knowledge on factors which contribute to workplace hygiene problems 1.4 General hazards in handling of food, linen and laundry and garbage, including major causes of contamination and cross-infection	1.1 Ability to follow correct procedures and instructions 1.2 Ability to handle operating tools/equipment 1.3 Application to hygiene principles

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Identify and prevent hygiene risks	2.1 Potential hygiene risks are identified in line with enterprise procedures 2.2 Action to minimize and remove risks are taken within scope of individual responsibility of enterprise/legal requirements 2.3 Hygiene risks beyond the control of individual staff members are reported to the appropriate person for follow up	2.1 Typical hygiene and control procedures in the hospitality and tourism industries 2.2 Overview of legislation and regulation in relation to food handling, personal and general hygiene 2.3 Knowledge on factors which contribute to workplace hygiene problems 2.4 General hazards in handling of food, linen and laundry and garbage, including major causes of contamination and cross-infection 2.5 Sources of and reasons for food poisoning	2.1 Ability to follow correct procedures and instructions 2.2 Application to hygiene principles

RAGE OF VARIABLES

VARIABLE	RANGE
1. Hygiene procedures	May include: 1.1 Safe and hygienic handling of food and beverage 1.2 Regular hand washing 1.3 Correct food storage 1.4 Appropriate and clean clothing 1.5 Avoidance of cross-contamination 1.6 Safe handling disposal of linen and laundry 1.7 Appropriate handling and disposal of garbage 1.8 Cleaning and sanitizing procedures 1.9 Personal hygiene 1.10 Proper grooming
2. Hygiene risk	May include: 2.1 Bacterial and other contamination arising from poor handling of food 2.2 Inappropriate storage of foods 2.3 Storage at incorrect temperatures 2.4 Foods left uncovered 2.5 Poor personal hygiene practices 2.6 Poor work practices 2.6.1 Cleaning 2.6.2 Housekeeping 2.6.3 Food handling 2.6.4 Vermin 2.6.5 airborne dust 2.7 Cross-contamination through cleaning inappropriate cleaning practices 2.8 Inappropriate handling of potentially infectious linen 2.9 Contaminated wastes such as blood and body secretions 2.10 Disposal of garbage and contaminated or potentially contaminated wastes
3. Minimizing or removing risk	May include: 3.1 Auditing staff skills and providing training 3.2 Ensuring policies and procedures are followed strictly 3.3 Audits or incidents with follow up actions

EVIDENCE GUIDE

1. Critical aspects of competency	Assessment requires evidence that the candidate: 1.1 Followed hygiene procedures 1.2 Identified and responded to hygiene risk 1.3 Practiced personal grooming and hygiene
2. Resource implications	The following resources should be provided: 2.1 Hygiene procedures, actual or simulated workplace, products used in hotel/restaurant /tourism workplace
3. Methods of assessment	Competency in this unit may be assessed through: 3.1 Written examination 3.2 Practical demonstration
4. Context for assessment	4.1 Competency assessment may occur in workplace or any appropriately simulated environment. 4.2 Assessment may be performed on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence.

UNIT OF COMPETENCY: PERFORM COMPUTER OPERATIONS

UNIT CODE : **TRS311203**

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitudes and values needed to perform computer operations which includes inputting, accessing, producing and transferring data using the appropriate hardware and software

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Plan and prepare for task to be undertaken	1.1 Requirements of task are determined 1.2 Appropriate hardware and software is selected according to task assigned and required outcome 1.3 Task is planned to ensure OH & S guidelines and procedures are followed	1.1 Basic ergonomics of keyboard and computer use 1.2 Main types of computers and basic features of different operating systems 1.3 Main parts of a computer 1.4 Storage devices and basic categories of memory 1.5 Relevant types of software 1.6 General security 1.7 Viruses 1.8 OH & S principles and responsibilities 1.9 Calculating computer capacity	1.1 Reading skills required to interpret work instruction 1.2 Communication skills
2. Input data into computer	2.1 Data are entered into the computer using appropriate program/application in accordance with company procedures 2.2 Accuracy of information is checked and information is saved in accordance with standard operating procedures 2.3 Inputted data are stored in storage media according to requirements	2.1 Storage devices and basic categories of memory 2.2 Relevant types of software 2.3 General security 2.4 Viruses 2.5 OH & S principles and responsibilities 2.6 Calculating computer capacity	2.1 Reading skills required to interpret work instruction 2.2 Communication skills

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	2.4 Work is performed within <i>ergonomic guidelines</i>		
3. Access information using computer	3.1 Correct program/application is selected based on job requirements 3.2 Program/application containing the information required is accessed according to company procedures 3.3 <i>Desktop icons</i> are correctly selected, opened and closed for navigation purposes 3.4 Keyboard techniques are carried out in line with OH & S requirements for safe use of keyboards	3.1 Relevant types of software 3.2 OH & S principles and responsibilities 3.3 Calculating computer capacity	3.1 Reading skills required to interpret work instruction 3.2 Communication skills
4. Produce/output data using computer system	4.1 Entered data are processed using appropriate software commands 4.2 Data are printed out as required using computer hardware/peripheral devices in accordance with standard operating procedures 4.3 Files and data are transferred between compatible systems using computer software, hardware/peripheral devices in accordance with standard operating procedures	4.1 Relevant types of software 4.2 General security 4.3 Viruses 4.4 OH & S principles and responsibilities 4.5 Calculating computer capacity	4.1 Reading skills required to interpret work instruction 4.2 Communication skills

ELEMENTS	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
5. Maintain computer equipment and systems	5.1 Systems for cleaning, minor <i>maintenance</i> and replacement of consumables are implemented 5.2 Procedures for ensuring security of data, including regular back-ups and virus checks are implemented in accordance with standard operating procedures 5.3 Basic file maintenance procedures are implemented in line with the standard operating procedures	5.1 General security 5.2 Viruses 5.3 OH & S principles and responsibilities 5.4 Calculating computer capacity 5.5 Maintenance procedures for computer	5.1 Applying maintenance procedures

RANGE OF VARIABLES

VARIABLE	RANGE
1. Hardware and peripheral devices	May include: 1.1. Personal computers 1.2. Networked systems 1.3. Communication equipment 1.4. Printers 1.5. Scanners 1.6. Keyboard 1.7. Mouse
2. Software	May include: 2.1. Word processing packages 2.2. Data base packages 2.3. Internet 2.4. Spreadsheets
3. OH & S guidelines	May include: 3.1. OHS guidelines 3.2. Enterprise procedures
4. Storage media	May include: 4.1. Diskettes 4.2. CDs 4.3. Zip disks 4.4. Hard disk drives, local and remote
5. Ergonomic guidelines	May include: 5.1. Types of equipment used 5.2. Appropriate furniture 5.3. Seating posture 5.4. Lifting posture 5.5. Visual display unit screen brightness

VARIABLE	RANGE
6. Desktop icons	May include: 6.1. Directories/folders 6.2. Files 6.3. Network devices 6.4. Recycle bin
7. Maintenance	May include: 7.1. Creating more space in the hard disk 7.2. Reviewing programs 7.3. Deleting unwanted files 7.4. Backing up files 7.5. Checking hard drive for errors 7.6. Using up to date anti-virus programs 7.7. Cleaning dust from internal and external surfaces

EVIDENCE GUIDE

1. Critical aspect of competency	Assessment requires evidence that the candidate: 1.1. Selected and used hardware components correctly and according to the task requirement 1.2. Identified and explain the functions of both hardware and software used, their general features and capabilities 1.3. Produced accurate and complete data in accordance with the requirements 1.4. Used appropriate devices and procedures to transfer files/data accurately 1.5. Maintained computer system
2. Resource implications	The following resources should be provided: 2.1. Computer hardware with peripherals 2.2. Appropriate software
3. Methods of assessment	Competency in this unit may be assessed through: 3.1. Observation 3.2. Questioning 3.3. Practical demonstration
4. Context for assessment	4.1. Competency assessment may occur in workplace or any appropriately simulated environment. 4.2. Assessment may be performed on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence.

UNIT OF COMPETENCY: PERFORM WORKPLACE AND SAFETY PRACTICES

UNIT CODE : TRS311204

UNIT DESCRIPTOR : This unit of competency deals with the knowledge, skills and attitudes in following health, safety and security practices. It includes dealing with emergency situations and maintaining safe personal presentation standards.

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Follow workplace procedures for health, safety and security practices	1.1 Correct health, safety and security procedures are followed in line with legislation, regulations and enterprise procedures 1.2 Breaches of health, safety and security procedures are identified and reported in line with enterprise procedure 1.3 Suspicious behavior or unusual occurrence are reported in line with enterprise procedure	1.1 Communication 1.1.1 Interactive communication with others 1.1.2 Interpersonal skills 1.1.3 Good working attitude 1.1.4 Ability to work quietly; with cooperation; patience, carefulness, cleanliness and aesthetic values 1.1.5 Ability to focus on task at hand 1.2 Systems, Processes and Operations 1.2.1 Workplace health, safety and security procedures 1.2.2 Emergency procedures 1.2.3 Personal presentation 1.3 Safety Practices 1.3.1 Proper disposal of garbage 1.3.2 Practice safety measures 1.3.3 5S Implementation	1.1 Ability to make decision 1.2 Time management 1.3 Ability to offer alternative steps 1.4 Care in handling and operating equipment

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Perform child protection duties relevant to the tourism industry	2.1 Issue of sexual exploitation of children is identified 2.2 National, regional and international actions are described to prevent the sexual exploitation of children 2.3 Actions that can be taken in the workplace are described to protect children from sexual exploitation	2.1 Child protection duties relevant to tourism industry 2.1.1 Rules, regulations, policies and laws	2.1 Ability to make decision 2.2 Time management 2.3 Ability to use observation and monitoring techniques
3. Observe and monitor people	3.1 Areas and people who require observation and monitoring is prepared 3.2 Observation and monitoring activities are implemented 3.3 Apprehension of offenders are determined 3.4 Offenders are arrested according to enterprise procedures 3.5 Administrative responsibilities are fulfilled	3.1 Observation and monitoring techniques	2.1 Ability to make decision 2.2 Time management 2.3 Ability to use observation and monitoring techniques
4. Deal with emergency situations	4.1 <i>Emergency</i> and potential emergency situations are recognized and appropriate action are taken within individual's scope of responsibility 4.2 Emergency procedures are followed in line with enterprise procedures 4.3 Assistance is sought from colleagues to resolve or respond to emergency situations 4.4 Details of emergency	2.1 Systems, Processes and Operations 2.1.1 Workplace health, safety and security procedures 2.1.2 Emergency procedures 2.1.3 Personal presentation 2.2 Safety Practices 2.2.1 Practice safety measures 2.2.2 5S Implementation	2.1 Ability to make decision 2.2 Time management 2.3 Ability to offer alternative steps 2.4 Applying emergency procedures

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	situations are reported in line with enterprise procedures		
5. Maintain safe personal presentation standards	5.1 Safe personal standards are identified and followed in line with enterprise requirements	5.1 Personal presentation 5.2 Safety Practices 3.2.1 Practice safety measures 3.2.2 5S Implementation	5.1 Following safe personal standards
6. Maintain a safe and secure workplace	6.1 Workplace health, safety and security responsibilities are identified 6.2 Framework to maintain workplace health, safety and security are maintained 6.3 Procedures for identifying and assessing health, safety and security hazards and risks are implemented 6.4 Injuries, illnesses and incidents are investigated 6.5 Organization's health, safety and security effectiveness are evaluated	6.1 Workplace health, safety and security procedures	6.1 Ability to make decision 6.2 Ability to use observation and monitoring techniques

RANGE OF VARIABLES

VARIABLE	RANGE
1. Health, safety and security procedures	May include: 1.1 Use of personal protective clothing and equipment 1.2 Safe posture including sitting, standing, bending 1.3 Manual handling including lifting, transferring 1.4 Safe work techniques including knives and equipment, handling hot surfaces, computers and electronic equipment 1.5 Safe handling of chemicals, poisons and dangerous materials 1.6 Ergonomically sound furniture and work stations 1.7 Emergency fire and accident 1.8 Hazard identification and control 1.9 Security of documents, cash, equipment, people 1.10 Key control systems
2. Breaches of procedure	May include: 2.1 Loss of keys 2.2 Strange or suspicious persons 2.3 Broken or malfunctioning equipment 2.4 Loss of property, goods or materials 2.5 Damaged property or fittings 2.6 Lack of suitable signage when required 2.7 Lack of training on health and safety issues 2.8 Unsafe work practices
3. Emergency	May include: 3.1 Personal injuries 3.2 Fire 3.3 Electrocution 3.4 Natural calamity i.e. earthquake/flood 3.5 Criminal acts i.e. robbery

EVIDENCE GUIDE

1. Critical aspects of competency	Assessment requires evidence that the candidate: 1.1 Complied with industry practices and procedures 1.2 Used interactive communication with others 1.3 Complied with workplace safety, security and hygiene practices 1.4 Identified faults & problems and the necessary corrective action 1.5 Demonstrated ability to perform child production duties relevant to the tourism industry 1.6 Demonstrated ability to prepare for observation and monitoring activities relevant to designated situations 1.7 Promoted public relation among others 1.8 Complied with quality standards 1.9 Responded to emergency situations in line with enterprise guidelines 1.10 Complied with proper dress code
2. Resource implications	The following resources should be provided: 2.1 Procedures Manual on safety, security, health and emergency 2.2 Availability of tools, equipment, supplies and materials
3. Methods of assessment	Competency in this unit may be assessed through: 3.1 Written examination 3.2 Practical demonstration 3.3 Interview
4. Context for assessment	4.1 Competency assessment may occur in workplace or any appropriately simulated environment. 4.2 Assessment may be performed on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence.

UNIT OF COMPETENCY: PROVIDE EFFECTIVE CUSTOMER SERVICE**UNIT CODE : TRS311205**

UNIT DESCRIPTOR : This unit of competency deals with the knowledge, skills and attitudes in providing effective customer service. It includes greeting customer, identifying customer needs, delivering service to customer, handling queries through telephone, fax machine, internet and email and handling complaints, evaluation and recommendation.

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Greet customer	1.1 Customers are greeted in line with enterprise procedure 1.2 Verbal and non-verbal communications are appropriate to the given situation 1.3 Non-verbal communication of customer is observed responding to customer 1.4 Sensitivity to cultural and social differences is demonstrated	1.1 Communication 1.1.1 Interactive communication with others 1.1.2 Interpersonal skills/ social graces with sincerity 1.2 Attitude 1.2.1 Attentive, patient and cordial 1.2.2 Eye-to-eye contact 1.2.3 Maintain teamwork and cooperation 1.3 Theory 1.3.1 Interview techniques 1.3.2 Communication process 1.3.3 Communication barriers	1.1 Effective communication skills 1.2 Non-verbal communication - body language 1.3 Good time management 1.4 Ability to work calmly and unobtrusively effectively
2. Identify customer needs	2.1 Appropriate interpersonal skills are used to ensure that customer needs are accurately identified 2.2 Customer needs are assessed for urgency so that priority for service delivery can be identified 2.3 Customers are provided with information	2.1 Communication 2.1.1 Interactive communication with others 2.1.2 Interpersonal skills/ social graces with sincerity 2.2 Safety Practices 2.2.1 Safe work practices 2.2.2 Personal hygiene 2.3 Attitude 2.3.1 Attentive, patient and cordial 2.3.2 Eye-to-eye contact 2.3.3 Maintain teamwork and cooperation	2.1 Effective communication skills 2.2 Non-verbal communication - body language 2.3 Good time management 2.4 Ability to work calmly and unobtrusively effectively

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	2.4 Personal limitation in addressing customer needs is identified and where appropriate, assistance is sought from supervisor	2.4 Theory 2.4.1 Selling/upselling techniques 2.4.2 Interview techniques 2.4.3 Conflict resolution 2.4.4 Communication process 2.4.5 Communication barriers	
3. Deliver service to customer	3.1 Customer needs are promptly attended to in line with <i>enterprise procedure</i> 3.2 Appropriate rapport is maintained with customer to enable high quality service delivery 3.3 Opportunity to enhance the quality of service and products are taken wherever possible	3.1 Communication 3.1.1 Interactive communication with others 3.1.2 Interpersonal skills/social graces with sincerity 3.2 Safety Practices 3.2.1 Safe work practices 3.2.2 Personal hygiene 3.3 Attitude 3.3.1 Attentive, patient and cordial 3.3.2 Eye-to-eye contact 3.3.3 Maintain teamwork and cooperation 3.4 Theory 3.4.1 Selling/upselling techniques 3.4.2 Interview techniques 3.4.3 Conflict resolution 3.4.4 Communication process 3.4.5 Communication Barriers	3.1 Effective communication skills 3.2 Non-verbal communication - body language 3.3 Good time management 3.4 Ability to work calmly and unobtrusively effectively

ELEMENTS	PERFORMANCE CRITERIA <i>Bold and italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
4. Handle queries through use of common business tools and technology	4.1 Use telephone, computer, fax machine, internet efficiently to determine customer requirements 4.2 Queries/ information are recorded in line with enterprise procedure 4.3 Queries are acted upon promptly and correctly in line with enterprise procedure	4.1 Communication 4.1.1 Interactive communication with others 4.1.2 Interpersonal skills/ social graces with sincerity 4.2 Attitude 4.2.1 Attentive, patient and cordial 4.2.2 Maintain teamwork and cooperation 4.3 Theory 4.3.1 Interview techniques 4.3.2 Communication process 4.3.3 Communication barriers	4.1 Effective communication skills 4.2 Non-verbal communication - body language 4.3 Good time management 4.4 Ability to work calmly and unobtrusively effectively
5. Handle complaints, evaluation and recommendations	5.1 Guests are greeted with a smile and eye-to-eye contact 5.2 Responsibility for resolving the complaint is taken within limit of responsibility 5.3 Nature and details of complaint are established and agreed with the customer 5.4 Threats to personal safety are identified and managed to personal safety of customers or colleagues and appropriate assistance is organized 5.5 Appropriate action is taken to resolve the complaint to the customer's satisfaction wherever possible 5.6 Conflict situations are resolved within scope of individual responsibility by applying effective communication skills and according to enterprise policy	5.1 Communication 5.1.1 Interactive communication with others 5.1.2 Interpersonal skills/ social graces with sincerity 5.2 Attitude 5.2.1 Attentive, patient and cordial 5.2.2 Eye-to-eye contact 5.2.3 Maintain teamwork and cooperation 5.3 Theory 5.3.1 Interview techniques 5.3.2 Conflict resolution 5.3.3 Communication process 5.3.4 Communication barriers	5.1 Effective communication skills 5.2 Non-verbal communication - body language 5.3 Good time management 5.4 Ability to work calmly and unobtrusively effectively 5.5 Proper way of handling complaints

RANGE OF VARIABLES

VARIABLE	RANGE
1. Customers	May include: 1.1 Internal 1.2 External
2. Non-verbal communication	May include: 2.1 Body language 2.2 Dress and accessories 2.3 Gestures and mannerisms 2.4 Voice tonality and volume 2.5 Use of space 2.6 Culturally specific communication customs and practices
3. Cultural and social differences	May include: 3.1 Modes of greeting, farewelling and conversation 3.2 Body language/use of body gestures 3.3 Formality of language
4. Interpersonal skills	May include: 4.1 Interactive communication 4.2 Public relation 4.3 Good working attitude 4.4 Sincerity 4.5 Pleasant disposition 4.6 Effective communication skills
5. Customer and colleagues needs	May include: 5.1 Those with a disability 5.2 Those with special cultural or language needs 5.3 Unaccompanied children 5.4 Parents with young children 5.5 Pregnant women 5.6 Single women
6. Enterprise procedure	May include: 6.1 Modes of greeting and farewelling 6.2 Addressing the person by name 6.3 Time-lapse before a response 6.4 Style manual requirements 6.5 Standard letters and proformas
7. Business tools and technology	May include: 7.1 Telephone 7.2 Fax machine 7.3 Computer equipment 7.4 Internet, email

VARIABLE	RANGE
8. Complaint	May include: 8.1 Level of service 8.2 Product standards 8.3 Processes 8.4 Information given 8.5 Charges and fees
9. Threats to personal safety	May include: 9.1 Violent customers 9.2 Drug and alcohol affected customers 9.3 Customers fighting amongst themselves

EVIDENCE GUIDE

1. Critical aspects of competency	Assessment requires evidence that the candidate: 1.1 Complied with industry practices and procedures 1.2 Used interactive communication with others 1.3 Complied with occupational, health and safety practices 1.4 Promoted public relation among others 1.5 Complied with service manual standards 1.6 Demonstrated familiarity with company facilities, products and services 1.7 Demonstrated ability to work effectively with others 1.8 Applied company rules and standards 1.9 Applied telephone ethics 1.10 Applied correct procedure in using telephone, fax machine, internet 1.11 Handled customer complaints within limit of individual responsibility
2. Resource implications	The following resources should be provided: 2.1 Availability of telephone, fax machine, internet, etc. 2.2 Availability of data on projects and services; tariff and rates, promotional activities in place etc. 2.3 Availability of office supplies
3. Methods of assessment	Competency in this unit may be assessed through: 3.1 Written examination 3.2 Practical demonstration
4. Context for assessment	4.1 Competency assessment may occur in workplace or any appropriately simulated environment. 4.2 Assessment may be performed on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence.

CORE COMPETENCIES

UNIT OF COMPETENCY : **CLEAN AND MAINTAIN KITCHEN PREMISES, EQUIPMENT AND TOOLS**

UNIT CODE : **TRS751301**

UNIT DESCRIPTOR : This unit covers the knowledge, skills and attitude involved in cleaning, sanitizing, and maintaining food preparation areas, storage areas, and equipment in commercial kitchens. It requires the ability to work safely and to use resources efficiently to reduce negative environmental impacts.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Clean, sanitize and store equipment	1.1 Appropriate <i>cleaning tools, supplies and chemicals</i> , including green cleaning chemicals, and clean potable water are selected and used for cleaning and/or sanitizing kitchen <i>equipment</i> , utensils, and <i>working surfaces</i> 1.2 Cleaning procedures are implemented in accordance with enterprise requirements 1.3 Equipment and/or utensils are cleaned and/or sanitized safely using clean/potable water and according to manufacturer's instructions 1.4 Clean and sanitized equipment and utensils are stored or stacked safely in the designated place 1.5 Cleaning equipment and supplies are used safely in accordance with manufacturer's instructions 1.6 Cleaning and	1.1 Occupational health and safety (OHS) responsibilities 1.2 Different equipment, utensils and working surfaces that requires periodic cleaning. 1.3 Use of Materials Safety Data Sheet (MSDS) 1.4 Proper cleaning procedures and standards for different tools and equipment 1.5 Use of Work Instruction or Job Safety Analysis Sheets 1.6 Different types of cleaning and sanitizing methods, as well as chemical used and their proper use. 1.7 Proper storage of tools, utensils and equipment. 1.8 Different cleaning equipment supplies and their use. 1.9 Identifying cleaning and sanitizing needs for different tools and equipment	1.1 Organizational skills to schedule cleaning. 1.2 Communication skills to read, comprehend and interpret workplace documents, diagram, safety data sheets (SDS) and product instructions for cleaning agents and chemicals 1.3 Oral communication skills to explain cleaning procedures. 1.4 Learning skills to locate key information in cleaning and procedures manuals. 1.5 Time management skills to address productivity 1.6 Numeracy skills to calculate dilutions and ratios of chemicals and other cleaning products 1.7 Computer literacy to use forms, manuals and fill up forms or reports for recording 1.8 Technical skills to clean and sanitize equipment.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	sanitizing needs that arises during routines are identified and addressed 1.7 Cleaning equipment are assembled and disassembled safely 1.8 Emergency first aid procedures are followed in the event of a cleaning-related incident or accident	1.10 Proper assembling and disassembling of different cleaning equipment. 1.11 Basic first aid procedures for chemical or cleaning related incidents	
2. Clean and sanitize premises	2.1 Cleaning schedules are followed based on enterprise procedures 2.2 Chemicals and equipment for cleaning and/or sanitizing are properly labelled, used correctly and safely, and stored securely after use. 2.3 Work areas are cleaned and/or sanitized without causing damage to health or property	2.1 Proper use of cleaning schedules. 2.2 Proper labelling, correct and safe use, and secure storage of chemicals and equipment for cleaning and sanitizing 2.3 Common work areas in the kitchen that require cleaning and their proper maintenance.	2.1 Organizational skills to organize cleaning and use resources efficiently. 2.2 Communication skills to read, comprehend and interpret workplace documents, diagram, safety data sheets (SDS) and product instructions for cleaning agents and chemicals 2.3 Oral communication skills to discuss and demonstrate operational approaches to cleaning and sanitizing 2.4 Numeracy skills to calculate dilutions and ratios of chemicals and other cleaning products 2.5 Learning skills to locate key information in cleaning schedules and procedures manuals. 2.6 Time management skills to address productivity 2.7 Computer literacy to use forms, manuals and fill up forms or reports for recording 2.8 Technical skills to clean and sanitize premises.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms</i> are elaborated in the Range of Variables	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Dispose of waste	3.1 Internal wastes are sorted and disposed according to sanitary regulations, enterprise practices and standard procedures 3.2 Cleaning chemicals are disposed safely according to standard procedures 3.3 Waste disposal areas are maintained and cleaned in a sanitary condition	3.1 Types of internal wastes 3.2 Proper waste disposal for different types of wastes and proper waste segregation 3.3 Responsible disposal procedures of cleaning and sanitizing chemicals. 3.4 Proper cleaning procedures for waste disposal areas	3.1 Technical skills to plan waste disposal and use cleaning resources efficiently. 3.2 Communication skills to read, comprehend and interpret workplace documents, diagram, safety data sheets (SDS) and product instructions for cleaning agents and chemicals 3.3 Oral communication skills to report risk factors, providing specific information regarding waste and discussing approach to treatment. 3.4 Learning skills to locate key information in cleaning schedules and procedures manuals. 3.5 Time management skills to address productivity 3.6 Computer literacy to use forms, manuals and fill up forms or reports for recording

RANGE OF VARIABLES

VARIABLE	Range
1. Cleaning Tools, Supplies and Chemicals	May include: 1.1. Cleaning tools 1.1.1 Mops and brushes 1.1.2 Buckets 1.1.3 Personal Protective Equipment such as face masks, gloves, hairnets, safety shoes, etc. 1.1.4 Warning signs including MSDS and Information posters 1.1.5 Garbage receptacles 1.1.6 Water heater/boiler 1.1.7 Electrically powered equipment (vacuum cleaners, scrubbing machines) 1.2. Cleaning Supplies 1.1.1 Paper Towels 1.1.2 Scrubbing Sponges 1.1.3 Scouring pads 1.1.4 Cleaning cloths 1.3. Cleaning Chemicals 1.3.1. General detergent 1.3.2. Dishwasher detergent 1.3.3. Floor detergents 1.3.4. Drain cleaner 1.3.5. Bleach 1.3.6. Oven cleaner 1.3.7. Sanitizers
2. Equipment	May include: 2.1 Kitchen utensils 2.2 Pots, pans, dishes 2.3 Food storage Containers 2.4 Chopping boards 2.5 Garbage bins 2.6 Stoves, ovens, grills and microwaves
3. Working Surfaces	May include: 3.1 Shelves 3.2 Benches and working surfaces 3.3 Ovens, stoves, cooking equipment and appliances 3.4 Cold storage equipment 3.5 Store rooms and cupboards
4. Work areas	May include: 4.1 Floor 4.2 Walls 4.3 Ceilings 4.4 Sinks and food disposal units 4.5 Drains, in floors, including moist areas (for verification wet or moist) 4.6 Exhaust fans and filters 4.7 Air conditioning outlets 4.8 Light covers 4.9 Garbage storage room 4.10 Stock receiving areas

VARIABLE	Range
	4.11 Grease traps
5. Internal wastes	May include: 5.1 Food waste 5.2 Liquid waste 5.3 Chemical waste 5.4 Used fats/oils 5.5 Food wrapping, including containers, cartons, plastics, plastic materials, bottles, jars, and glass, cans, aluminum-based products, recyclable materials, paper and cardboard

EVIDENCE GUIDE

1. Critical Aspects of Competency	Assessment requires evidence that the candidate: 1.1 Cleaned and sanitized work areas in accordance with food safety and occupational health and safety regulations 1.2 Disposed wastes according to sanitary regulations, enterprise practices and standard procedures 1.3 Cleaned and sanitized large and small equipment/utensils commonly found in a commercial/institutional kitchen 1.4 Demonstrated sanitizing procedures and techniques 1.5 Followed workplace safety practices and hygienic procedures 1.6 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to fully equipped commercial/institutional kitchen and storage areas 2.2 Access to relevant cleaning materials and equipment for kitchen areas 2.3 Access to actual workplace standards, procedures, policies, and guidelines, tools and equipment
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Direct observation of the candidate while cleaning a kitchen 3.2 Written or oral questions to test knowledge of candidate's on cleaning materials and equipment and issues 3.3 Interview to gain insight on discipline practiced 3.4 Project and assignment work 3.5 Review portfolios of evidence (such as certifications or its equivalent) and third-party workplace reports of on-the-job performance by the candidate
4. Context for Assessment	4.1 Competency maybe assessed in actual workplace or at the designated TESDA accredited Assessment Center

UNIT OF COMPETENCY : ORGANIZE AND PREPARE FOOD AND SERVICE FOR BAKERY AND PASTRY PRODUCTION

UNIT CODE : TRS751302

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, and undertake duties to support the production of bakery and pastry products in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Organize and prepare equipment and utensils for use	1.1 Tools and equipment used in mise-en-place and production of bakery products and pastries are identified. 1.2 Tools and equipment that are environmentally friendly are selected and assembled for bakery and pastry production 1.3 Tools and equipment to perform mise-en-place tasks are used.	1.1 Identification of tools and equipment, including: 1.1.1 Functions 1.1.2 Description and specifications 1.2 Tools and equipment selection, including: 1.2.1 Cleaning 1.2.2 Choice of correct type and size 1.2.3 Assembly 1.3 Correct Use of Equipment 1.3.1 Proper use 1.3.2 Operation 1.3.2 Safety and Maintenance	1.1 Technical skills to apply food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of pastry and bakery products and work within time constraints in a logical sequence 1.5 Literacy skills to read and interpret manufacturers instruction for equipment. 1.6 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
			1.7 Problem-solving skills to work around equipment malfunctions and/or breakdowns
2 Organize and prepare ingredients for bakery and pastry production	2.1 Ingredients and sustainable ingredients, that may be used for mise-en-place tasks of bakery and pastry products, and their availability are identified. 2.2 Ingredients for required mise-en-place tasks are selected and assembled according to establishment type/style, recipe and production requirements 2.3 Ingredients are prepared in accordance with identified need. 2.4 Appropriate purchasing, receiving, and storing procedures are established and correctly observed. 2.5 Trimmings and wastage are minimized through appropriate preparation and handling. 2.6 Conditions of ingredients are ensured to maintain the freshness and quality.	2.1 Commodity knowledge, including: 2.1.1 Quality indications of ingredients for bakery products 2.1.2 Properties of ingredients used and their interaction and changes during processing to produce required characteristics 2.1.3 Ingredient substitution 2.1.4 Different market forms 2.1.5 Seasonality and availability of ingredients 2.2 Selection and Assembly of ingredients, including: 2.2.1 Menu referencing 2.2.2 Standard Recipes 2.2.3 Quality and Safety Assurance 2.2.4 Documentation 2.3 Preparation techniques for different ingredients, including: 2.3.1 Accurate measuring techniques for different ingredients. 2.3.2 Cutting, Slicing, Juicing	2.1 Technical skills to apply: - Food safety, sanitation and hygiene skills and practices particularly in preparing ingredients. - Corrective steps to ensure quality control 2.2 Social skills to work cooperatively with other team members 2.3 Communication skills to share information with other kitchen and floor service staff. 2.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of pastry and bakery products and work within time constraints in a logical sequence 2.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine, and perform use of mathematical formulas to compute food grade additives 2.6 Literacy skills to read and interpret food preparation lists, standard recipes, standard procedures, date codes and stock

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		2.3.3 Sifting, Combining and Mixing 2.3.4 Toasting, Rehydrating, Aging and Macerating 2.3.5 Specific culinary and technical terminologies related to bakery and pastry preparation 2.4 Purchasing, receiving and storage procedures for different ingredients. 2.5 Waste minimization techniques, including suitable alternative uses, where appropriate, such as for trimmings. 2.6 Safety and Quality assurance including: 2.6.1 Hygienic handling of food. 2.6.2 Prevention of cross-contamination 2.6.3 Proper storage of food 2.6.4 Sanitary thawing condition for frozen food and ingredients	rotation labels, and write notes on recipe requirements and calculation. 2.7 Initiative and enterprise skills to minimize wastage. 2.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 2.9 Problem-solving skills to: ▪ Ensure and control quality ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance ▪ Overcome or work around shortages of raw materials

RANGE OF VARIABLES

VARIABLE	RANGE
1. Tools and equipment	May Include: 1.1 Pots and Pans for Stovetop Cooking 1.1.1 Sauce Pot or Pan 1.1.2 Sauté or Frying Pan 1.1.3 Omelet/Crêpe Pan. 1.1.4 Bain-Marie/Double Boiler. 1.1.5 Steamer 1.2 Pans for Oven Cooking 1.2.1 Roasting Pan 1.2.2 Bake Pan 1.2.3 Sheet Pan or Bun Pan 1.2.4 Soufflé Dish 1.2.5 Timbale Mold 1.2.6 Cake Pans 1.2.7 Springform Pans 1.2.8 Tart Pans 1.2.9 Pie Pans 1.2.10 Loaf Pans 1.2.11 Muffin Tins 1.2.12 Tube Pans 1.2.13 Baguette Pan 1.2.14 Barquette/Boat Pans 1.2.15 Brioche/Ensaimada Molds 1.2.16 Cake Rings 1.2.17 Perforated Tray 1.3 Cooking Hand Tools 1.3.1 Spoons: Solid, Slotted and Perforated 1.3.2 Wooden Spoon 1.3.3 Silicone Spatula 1.3.4 Grill Spatula 1.3.5 Tongs 1.4 Sieves and Strainers 1.4.1 Strainer 1.4.2 Sifter 1.4.3 Skimmer 1.4.4 Drum Sieve or Tamis 1.4.5 Food Mill/Mouli 1.4.6 Ricer 1.5 Measuring Devices 1.5.1 Scales 1.5.1.1 Spring Balance Scale 1.5.1.2 The Baker's Balance Scale or Balance-Beam Scale 1.5.1.3 Digital Scales 1.5.2 Volume Measures 1.5.2.1 Nested Measuring Cups 1.5.2.2 Liquid Measuring Cups and Measuring Pitchers 1.5.2.3 Measuring Spoons 1.5.3 Ladles

5. Sustainable ingredients	Refers to ingredients that are produced and transported in a way that help to: 5.1 Limit global warming 5.2 Protect biodiversity and ecosystems 5.3 Respect natural resources and living world 5.4 Ensure fair and sufficient compensation as well as decent working conditions
6. Availability	May include: 6.1 Seasonal 6.2 Cultural 6.3 Supplier 6.4 Price 6.5 Demand
7. Mise-en-place tasks	May include: 7.1 Preparing, cleaning, washing and sanitizing of raw materials 7.2 Opening of containers, such as jars, tins, cartons, packages and removal of items ready for use 7.3 Trimming, peeling, juicing, cutting, slicing, chopping, dicing, crushing and skinning 7.4 Weighing and portioning of ingredients 7.5 Sifting, combining and mixing 7.6 Preparing basic items, including garnishes, syrups, egg foams and simple sauces 7.7 Thawing of frozen product 7.8 Pre-cooking and par-cooking items for later completion 7.9 Storing prepared items ready for use.

VARIABLE	RANGE
8. Select and assemble the ingredients	May include: 8.1 Reference to menus being presented, bookings received and service style being offered 8.2 Establishment requirements in relation to standard recipes, house preferences, signature dishes and recipe cards 8.3 Matching type and quality of ingredient selected to intended use of the item 8.4 Ensuring the safety of all foodstuffs selected 8.5 Ensuring quantity of ingredients assembled matches identified/expected trading demand 8.6 Protecting the integrity and food safety of items selected until mise-en-place tasks commence 8.7 Safely transporting, and storing, foods to the mise-en-place area 8.8 Completing necessary internal documentation to reflect stock use.
9. Establishment type/style	May include: 9.1 Hotels 9.2 Restaurants 9.3 Brasseries 9.4 Bistro 9.5 Café 9.6 Coffee shop 9.7 Patisserie, pastry shop 9.8 Commercial or industrial catering operations 9.9 Function venues.
10. Prepare ingredients	Must reflect the tasks identified in mise-en-place tasks (above) and include: 10.1 Preparing items that conform with identified need 10.2 Safe food handling practices 10.3 Techniques unique to the host enterprise or host country required to prepare specialist cuisine 10.4 Timely preparation to meet workflow requirements of the enterprise and support operational cooking and food preparation demands 10.5 Waste minimization

EVIDENCE GUIDE

1. Critical Aspects of Competency	Assessment requires evidence that the candidate: 1.1 Organized and prepared equipment and utensils for use. 1.2 Organized and prepared ingredients for bakery and pastry production 1.3 Applied safe and accurate measuring, cutting and preparation techniques 1.4 Performed 'mise-en-place' 1.5 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.6 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen 2.2 Access to actual workplace standards, procedures, policies, and guidelines 2.3 Use of a variety of ingredients, including specialty and sustainable ingredients, to prepare mise-en-place for bakery and pastry products.
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Direct observation of the candidate while preparing a variety of specialty dishes 3.2 Sampling of dishes prepared by the candidate 3.3 Written or oral questions to test candidate's knowledge on preparing various specialty dishes and safety issues 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third-party workplace reports of on-the-job performance by the candidate
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment shall be observed while tasks are being undertaken whether individually or in a group

UNIT OF COMPETENCY : PREPARE AND PRESENT BAKERY PRODUCTS

UNIT CODE : TRS751303

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, display and store a range of high quality bakery products in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Prepare and produce a variety of bakery products and fillings.	1.1 Required ingredients are selected according to recipe and production requirements 1.2 A variety of bakery products are produced and shaped to desired product characteristics 1.3 A variety of bakery products are produced using correct techniques according to standard recipes and enterprise standards 1.4 Appropriate equipment are used to prepare and bake bakery products 1.5 Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. 1.6 Bakery products are prepared in a logical manner and within industry realistic	1.1 Ingredient selection for production 1.2 Varieties and characteristics of bakery products, including: 1.2.1 Historical and cultural aspects of bakery products and their role on the menu and the industry. 1.2.2 Classical and modern, size, shape, structure and assembly, according to industry and enterprise standards 1.2.3 Quality characteristics of bakery products, including classical, modern/ contemporary and culturally specific. 1.3 Principles and techniques in the production of bakery products, including: 1.3.1 Production Planning, including: 1.3.2 Principles of Baker's percentage and	1.1 Technical skills to apply: - Basic baking and pastry production skills to produce safe and wholesome variety of bakery products that meet industry standards. - Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of bakery products and work within time constraints in a

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	time frame 1.7 Portion control is applied to minimize wastage. 1.8 Bakery products are baked to enterprise requirements and standards 1.9 Correct oven conditions are selected for baking bakery products 1.10 A variety of fillings, coatings/icing and decorations are prepared for bakery products	Recipe quantification 1.3.3 Calculation of Required Dough Temperature 1.3.4 Dough Yield Calculation 1.3.5 Ratio of ingredients required to produce a balanced formula. 1.3.6 Processes of fermentation and dough development 1.3.7 Properties and requirements of yeast and control of yeast action 1.3.8 Stages of Yeast Dough Production 1.4 Common tools and equipment for bakery products. 1.5 Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products 1.6 Bakery production planning and scheduling, including following job sheets and work plans. 1.7 Principles of portion control including techniques in achieving standard yields, weights and sizes 1.8 Maintaining enterprise stands, including: 1.8.1 Standard size and weight per serving 1.8.2 Standard	logical sequence 1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		ingredient mix and make-up 1.8.3 Influence of correct portion control, yields, weights and sizes on the profitability of an establishment 1.9 Correct oven condition when baking bakery products 1.10 Varieties and characteristics of fillings, coatings/icing and decorations for bakery products	
2. Decorate and present/display bakery products	2.1 Bakery products are decorated using coating, icing, and decorations to according to standard recipes and/or enterprise standards and/or customer requests 2.2 Bakery products are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	2.1 Principles of decorating bakery products, including: 2.1.1 Complimentary coating, fillings and icings. 2.1.2 Decorative techniques and rules for decorating and garnishing. 2.1.3 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 2.2 Types of service equipment appropriate for presenting/ displaying bakery products.	2.1 Artistic skills in decorating bakery products. including fillings, coatings and garnishes 2.2 Creative and artistic skills in preparation, decoration and display of bakery products 2.3 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.4 Social skills to work cooperatively with other team members 2.5 Communication skills to share information with other kitchen and floor service staff. 2.6 Planning and organizational skills to complete decoration and presentation of bakery products within time constraints in a logical sequence

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
			2.7 Initiative and enterprise skills to minimize wastage. 2.8 Problem-solving skills to ensure and control quality
3. Store bakery products	3.1 Bakery products are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness 3.2 Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. 3.3 Economic viability of preparation and holding quantities are ensured.	3.1 Principles of storage of bakery products, including: 3.1.1 Labelling requirements for storing food 3.1.2 Optimal storage conditions for different bakery products and optimizing shelf life. 3.1.3 Shelf life of different bakery products 3.1.4 Techniques in maintaining maximum eating quality, appearance and freshness. 3.2 Packaging and storage options for bakery products, including: 3.2.1 Suitable containers for storage 3.2.2 Appropriate packaging options and eco-friendly packaging 3.2.3 Food production planning and proper calculation of food for future use	3.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing bakery products, and corrective steps to ensure quality control 3.2 Social skills to work cooperatively with other team members 3.3 Communication skills to share information with other kitchen and floor service staff. 3.4 Literacy skills to write date codes and stock rotation labels 3.5 Problem-solving skills to choose appropriate packaging options to ensure and control quality in storage.

RANGE OF VARIABLES

VARIABLE	RANGE
1. Ingredients	May include: 1.1 Flours and Starches 1.2 Gelling Agents and Gums 1.3 Sugar and Sweeteners 1.4 Fats and Oils 1.5 Milk and Dairy Products 1.6 Fruits and Vegetables 1.7 Nuts and Seeds 1.8 Flavorings and Colors 1.9 Chocolate 1.10 Leavening agents 1.11 Water 1.12 Food Preservatives
2. Variety of bakery products	May include: 2.1 Lean Yeast Dough 2.1.1 Fine grain breads 2.1.1.1 Pullman-style loaves 2.1.1.2 White Bread 2.1.1.3 Wheat Bread 2.1.1.4 Rye Bread 2.1.1.5 Bagel 2.1.1.6 Bialys 2.1.2 Coarsely grained or peasant style bread 2.1.2.1 Pumpernickel 2.1.2.2 Sourdough 2.1.2.3 Pain de Campagne 2.1.2.4 Multigrain Bread 2.1.2.5 Ciabatta 2.1.2.6 Pain Francese 2.1.3 Rolls 2.1.3.1 Hard Rolls 2.1.3.2 Soft Rolls 2.1.3.3 Submarine or Hoagie 2.1.4 Flatbreads 2.1.4.1 Focaccia 2.1.4.2 Pita 2.1.4.3 Ciabatta 2.1.4.4 Lavash\lavosh 2.1.4.5 Pizza Dough 2.1.4.6 Pide 2.1.4.7 Naan 2.1.5 Wraps 2.1.5.1 Plain or flavored wraps 2.1.5.2 Wheat tortillas, and 2.1.5.3 Similar flexible flatbreads 2.2 Enriched Yeast Dough 2.2.1 Non-Laminated Enriched Yeast Dough 2.2.1.1 Sweet Yeast Dough 2.2.1.2 Pain au Lait

VARIABLE	RANGE
	2.2.1.3 Challah 2.2.1.4 Brioche 2.2.1.5 Kouglopps 2.2.1.6 Baba and Savarins 2.2.2 Laminated Enriched Yeast Dough 2.2.2.1 Croissant 2.2.2.2 Danish 2.2.2.3 Laminated Brioche 2.3 Specific yeast goods for cultural feasts and celebrations 2.4 Health and diet specific items, e.g. Gluten free, fat free
3. Produce	Refers to: 3.1 Scaling of ingredients 3.2 Mixing/Kneading 3.3 Bulk or Primary Fermentation 3.4 Folding/Degassing 3.5 Scaling/Dividing of Dough 3.6 Rounding/Pre-shaping 3.7 Benching/Resting 3.8 Make-Up/Shaping and/or Panning 3.9 Proofing or Final Fermentation 3.10 Baking 3.11 Cooling 3.12 Storage
4. Shaped	May include: 4.1 Knots 4.1.1 Single Knot 4.1.2 Double Knot 4.1.3 Figure Eight 4.1.4 Square Knot 4.1.5 Butter Twist 4.2 Rolls 4.2.1 Parker House 4.2.2 Twin Roll 4.2.3 Butter Roll 4.2.4 Frankfurter Roll 4.2.5 Spiral Roll 4.2.6 Clover Leaf Roll 4.2.7 Pan Roll 4.2.8 Snowflake Roll 4.2.9 Hamburger Roll 4.2.10 Poppyseed Roll 4.2.11 Maryland Roll 4.2.12 Vienna Roll 4.2.13 Vienna Bridge Roll 4.2.14 Kaiser Roll 4.2.15 Crescent Roll 4.2.16 French Roll 4.2.17 Water Roll 4.2.18 French Roll 4.2.19 Club Roll

VARIABLE	RANGE
	4.3 Loaves 4.3.1 Boule (Round) 4.3.2 Boulot (Oval) 4.3.3 Batard (Log) 4.4 Braids 4.5 Classical Shapes 4.5.1 Baguette 4.5.2 Ficelle 4.5.3 Fougasse 4.5.4 Ciabatta 4.5.5 Epi 4.5.6 Pistolets 4.5.7 Grissini/Bread Sticks 4.5.8 Tordu 4.5.9 Charleston 4.5.10 Vivarais 4.5.11 Fendu 4.5.12 Tabatiere 4.5.13 Auvergnat 4.5.14 Fleur 4.5.15 Pain d'Aix 4.5.16 Couronne Bordelaise 4.5.17 Fer a Cheval
5. Product characteristics	Related to: 5.1 Appearance 5.2 Color 5.3 Consistency 5.4 Crumb structure 5.5 Moisture content 5.6 Shape 5.7 Taste 5.8 Texture, mouth feel and eating properties
6. Equipment	May include: 6.1 Blenders 6.2 Bowls 6.3 Cutters 6.4 Dough break 6.5 Fridge, freezer 6.6 Mixing machine 6.7 Ovens 6.8 Piping bags and nozzles 6.9 Racks 6.10 Rings, tins, moulds 6.11 Rolling pin 6.12 Scales 6.13 Trays 6.14 Wooden spoons 6.15 Dough Sheeter

VARIABLE	RANGE
7. Techniques	Should include: 7.1 Scaling ingredients 7.2 Chilling ingredients and work surfaces 7.3 Preparing and using types of yeast 7.3.1 Fresh Yeast 7.3.2 Active Dry Yeast 7.3.3 Instant Yeast 7.4 Preparing and using pre-ferments 7.4.1 Poolish 7.4.2 Sponge 7.4.3 Biga 7.4.4 Pâte Fermentée 7.4.5 Sourdough and Levain 7.5 Mixing Techniques: 7.5.1 Beating 7.5.2 Whisking 7.5.3 Folding 7.5.4 Rolling 7.5.5 Creaming 7.5.6 Kneading 7.5.7 Stirring 7.6 Dough Making Methods 7.6.1 Direct Dough Method 7.6.2 Pre-Fermentation Method 7.6.2.1 Old Dough Method 7.6.2.2 Sponge and Dough Method 7.6.2.3 Sourdough Starter Method 7.7 Dough Making Methods 7.7.1 Straight Dough Method 7.7.2 Preferment-and-Dough Method 7.7.3 Mechanized Mixing Methods 7.7.3.1 Short Mix Method 7.7.3.2 Intensive Mix Method 7.7.3.3 Improved Mix Method 7.8 Laminating 7.9 Incorporating fat. 7.10 Make up 7.11 Proofing and/or Retarding 7.12 Selecting and preparing appropriate moulds 7.13 Cutting, shaping, moulding and panning 7.14 Glazing 7.14.1 Egg Wash 7.14.1.1 Whole egg and Water 7.14.1.2 Whole egg and Milk 7.14.1.3 Egg white and Water 7.14.1.4 Egg yolk and Cream or Milk 7.14.2 Milk or Cream 7.14.3 Salted Water 7.14.4 Honey 7.14.5 Olive Oil 7.14.6 Slurry (Cornstarch and Water) 7.14.7 Soy Powder and Water

VARIABLE	RANGE
	7.14.8Flour 7.15 Scoring 7.16 Baking 7.17 Preparing and using appropriate fillings and pre-bake finishes and decorations 7.18 Altitude Adjustments
8. Enterprise requirements and standards	Should relate to: 8.1 Scale to correct weight 8.2 Color 8.3 Consistency 8.4 Texture 8.5 Moisture 8.6 Mouth feel 8.7 Appearance 8.8 Salability
9. Oven conditions	May be related to: 9.1 Color 9.2 Shape 9.3 Crust structure 9.4 Temperature 9.5 Rack position 9.6 Cooking times 9.7 Moisture
10.Fillings and coatings/icing	May include: 10.1 Fruits 10.2 Chocolate 10.3 Creams such as wine cream and cheese cream 10.4 Glazes 10.5 Icings 10.6 Fruit sauces 10.7 Nuts and dried fruits 10.8 Jams 10.9 Mousses 10.10 Custards 10.11 Jellies 10.12 Meringue 10.13 Ganache 10.14 Savory fillings such as bacon, ham and cheese 10.15 Ready-made and pre-mixed
11.Decorations	May include: 11.1 Fresh, preserved or crystallized fruits 11.2 Biscuits 11.3 Chocolate 11.4 Flowers and leaves 11.5 Herbs 11.6 Croquant 11.7 Creams 11.8 Glazes 11.9 Icing sugar 11.10 Cocoa powder

VARIABLE	RANGE
	11.11 Fruit sauces 11.12 Nuts, seeds, and dried fruits 11.13 Jams 11.14 Meringue 11.15 Ganache 11.16 Flavored and colored sugar
12. Service equipment	May include: 12.1 Baskets 12.2 Ceramics 12.3 Glass 12.4 Crystal 12.5 Mirrors 12.6 Trays 12.7 Croquant stands 12.8 Sugar work stands 12.9 Chocolate stands 12.10 Display cabinets
13. Properly labeled	May include: 13.1 Date (expiry, cooking date) 13.2 Item name 13.3 Handler name 13.4 Time 13.5 Portion (weights, yield) 13.6 Purpose 13.7 Nature (half cooked, puree etc.)
14. Correct temperature and conditions of storage	May relate to: 14.1 Consideration of temperature, light and air exposure 14.2 Away from strong odors 14.3 Appropriate containers 14.4 Labelling 14.5 Cool room temperature 14.6 Cool room placement 14.7 Length of time in cool storage 14.8 Freezer temperature 14.9 Length of time in freezer storage. 14.10 Use of airtight containers 14.11 display cabinets, including temperature-controlled cabinets to cool or warm
15. Packaging options	May include but are not limited to: 15.1 Polystyrene foam 15.2 Plastic cling wrap 15.3 Bopp films 15.4 Cellophane wrap 15.5 Glassine wrap 15.6 Wax Paper 15.7 Tins 15.8 Cardboard boxes or CBB 15.9 Paper bags 15.10 Polyethylene Bags 15.11 Aluminum foils 15.12 Display boxes

VARIABLE	RANGE
	15.13 Shrink wrap 15.14 Tube packaging 15.15 Plastic or foil containers 15.16 Metal or plastic trays.
16.Eco-friendly packaging	May refer to packaging that are produced to improve ecological and environmental impacts using the following methods: 16.1 Lightweighting 16.2 Recycled materials 16.3 Biodegradable plastics 16.4 Post-consumer recycled materials 16.5 Natural packaging 16.6 Reusable materials

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Prepared and produced a wide variety of bakery products from all categories 1.2 Decorated and presented of a range bakery products consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.3 Stored and packaged bakery products at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.4 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.5 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of bakery products within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PREPARE AND PRESENT BASIC PASTRY PRODUCTS

UNIT CODE : TRS751304

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, produce, display and store a range of high quality pastries in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Prepare and produce pastries and fillings	1.1 Required ingredients are selected according to recipe and production requirements 1.2 A variety of pastries are prepared to desired product characteristics 1.3 A variety of pastries are produced using correct techniques according to standard recipes and enterprise standards 1.4 Appropriate equipment are used to prepare and bake pastries. 1.5 Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. 1.6 Pastry products are prepared in a logical manner and within industry realistic time frame	1.1 Ingredient selection for production 1.2 Varieties and characteristics of pastry products, including: 1.2.1 Historical and cultural aspects of pastry products and their role on the menu and the industry. 1.2.2 Classical and modern, size, shape, structure and assembly, according to industry and enterprise standards 1.2.3 Quality characteristics of products, including classical, modern/ contemporary and culturally specific. 1.3 Principles and techniques in the production of pastry products, including: 1.3.1 Production Planning, including principles of Baker's percentage and	1.1 Technical skills to apply: ▪ Basic baking and pastry production skills to produce safe and wholesome variety of pastry products that meet industry standards. ▪ Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of pastry products and work within time constraints in a

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	1.7 Portion control to minimize wastage is applied. 1.8 Pastries are baked to enterprise requirements and standards 1.9 Correct oven conditions for baking pastries are selected. 1.10 A variety of filings coating, icing, glazes and decorations for pastries are prepared.	Recipe quantification 1.3.2 Ratio of ingredients required to produce a balanced formula. 1.4 Common tools and equipment for pastry products. 1.5 Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products 1.6 Pastry production planning and scheduling, including following job sheets and work plans. 1.7 Principles of portion control including techniques in achieving standard yields, weights and sizes 1.8 Maintaining enterprise stands, including: 1.8.1 Standard size and weight per serving 1.8.2 Standard ingredient mix and make-up 1.8.3 Influence of correct portion control, yields, weights and sizes on the profitability of an establishment 1.9 Correct oven condition when baking pastry products 1.10 Varieties and characteristics of fillings, coatings/icing and	logical sequence 1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		decorations for pastry products	
2. Decorate and present pastries	2.1 Pastries are decorated using coating, icing and decorations according to standard recipes and/or enterprise standards and/or customer requests. 2.2 Pastries are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	2.1 Principles of decorating pastry products, including: 2.1.1 Complimentary coating, fillings and icings. 2.1.2 Decorative techniques and rules for decorating and garnishing. 2.1.3 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 2.2 Types of service equipment appropriate for presenting/ displaying pastry products	2.1 Artistic skills in decorating pastry products. including fillings, coatings and garnishes 2.2 Creative and artistic skills in preparation, decoration and display of pastry products 2.3 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.4 Social skills to work cooperatively with other team members 2.5 Communication skills to share information with other kitchen and floor service staff. 2.6 Planning and organizational skills to complete decoration and presentation of pastry products within time constraints in a logical sequence 2.7 Initiative and enterprise skills to minimize wastage. 2.8 Problem-solving skills to ensure and control quality
3. Store pastries	3.1 Pastries are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality,	3.1 Principles of storage of pastry products, including: 3.1.1 Labelling requirements for storing food 3.1.2 Optimal storage conditions for different pastry products and	3.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing pastry products, and corrective steps to ensure quality control 3.2 Social skills to work cooperatively with other team members

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Prepared and produced a wide variety of paste and pastry products from all categories 1.2 Decorated and presented of a range of paste and pastry products consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.3 Stored and packaged paste and pastry products at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.4 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.5 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of paste and pastry products within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PREPARE AND PRESENT BASIC HOT, COLD AND FROZEN DESSERTS

UNIT CODE : TRS751305

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, produce and store a range of high quality hot, cold and frozen desserts in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Prepare and produce a range of hot, cold and frozen desserts	1.1 Required ingredients are selected according to recipe and production requirements 1.2 A variety of hot, cold and frozen desserts are prepared to desired product characteristics 1.3 A variety of hot, cold and frozen desserts are prepared using correct techniques according to standard recipes and enterprise standards 1.4 Appropriate equipment are used to prepare hot, cold and frozen desserts 1.5 Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. 1.6 Hot, cold and frozen desserts are prepared in a logical manner	1.1 Ingredient selection for production 1.2 Varieties and characteristics of hot, cold, and frozen desserts, including: 1.2.1 Historical and cultural aspects of hot, cold, and frozen desserts and their role on the menu and the industry. 1.2.2 Classical and modern, size, shape, structure and assembly, according to industry and enterprise standards 1.2.3 Quality characteristics of bakery products, including classical, modern/ contemporary and culturally specific. 1.3 Principles and techniques in the production of hot, cold, and frozen desserts, including: 1.3.1 Production Planning, including principles of Baker's	1.1 Technical skills to apply: - Basic baking and pastry production skills to produce safe and wholesome variety of hot, cold, and frozen desserts that meet industry standards. - Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of hot, cold, and frozen desserts and work

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	and within industry realistic time frame 1.7 Portion control is applied to minimize wastage. 1.8 Hot, cold and frozen desserts are produced to enterprise requirements and standards 1.9 Correct cooking conditions for hot, cold and frozen desserts are selected.	percentage and recipe quantification 1.3.2 Ratio of ingredients required to produce a balanced formula. 1.4 Common tools and equipment for hot, cold, and frozen desserts. 1.5 Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products 1.6 Dessert production planning and scheduling, including following job sheets and work plans. 1.7 Principles of portion control including techniques in achieving standard yields, weights and sizes 1.8 Maintaining enterprise stands, including: 1.8.1 Standard size and weight per serving 1.8.2 Standard ingredient mix and make-up 1.8.3 Influence of correct portion control, yields, weights and sizes on the profitability of an establishment 1.9 Correct oven condition when baking hot, cold, and frozen desserts	within time constraints in a logical sequence 1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Prepare and store sweet sauces	2.1 A range of hot and cold sweet sauces are prepared and produced to enterprise requirements and standards 2.2 Thickening agents suitable for sweet sauces are used where appropriate. 2.3 Sweet sauces for use in a service period or for use at another occasion are stored.	2.1 Varieties and characteristics of sweet sauces, including: 2.1.1 Sweet sauces and their role on in composing a plated dessert. 2.1.2 Classical and modern sweet sauces according to industry and enterprise standards 2.1.3 Principles and techniques in producing a variety of sweet sauces. 2.1.4 Quality characteristics of sweet sauces. 2.2 Different thickening agents suitable for sweet sauces. 2.3 Principles of storing sweet sauces, including: 2.3.1 Optimal storage conditions for different sweet sauces 2.3.2 Shelf life of different sweet sauces 2.3.3 Techniques in maintaining maximum eating quality, appearance and freshness.	2.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.2 Social skills to work cooperatively with other team members 2.3 Communication skills to share information with other kitchen and floor service staff. 2.4 Planning and organizational skills to complete preparation of sweet sauces within time constraints in a logical sequence 2.5 Initiative and enterprise skills to minimize wastage. 2.6 Problem-solving skills to ensure and control quality, and adjust consistency of sauces when necessary. 2.7 Literacy skills to write date codes and stock rotation labels
3. Prepare accompaniments, garnishes and decorations	3.1 Filling and coating/icings, accompaniments, garnishes and decorations for desserts are planned 3.2 Accompaniments, garnishes and decorations for	3.1 Common fillings and coatings/icings, accompaniments, garnishes and decorations for hot, cold, and frozen desserts 3.2 Principles of preparing accompaniments,	3.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 3.2 Social skills to work cooperatively with other team members

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	desserts are prepared 3.3 Flavors and textures of garnishes are ensured to complement desserts.	garnishes and decorations for desserts 3.3 Principles of complementing flavors and textures for desserts	3.3 Communication skills to share information with other kitchen and floor service staff. 3.4 Planning and organizational skills to complete preparation of accompaniments, garnishes and decorations for desserts within time constraints in a logical sequence 3.5 Initiative and enterprise skills to minimize wastage. 3.6 Problem-solving skills to ensure and control quality
4 Decorate and present hot, cold and frozen desserts	4.1 Hot, cold and frozen desserts are decorated using accompaniments, garnishes, decorations and sweet sauces according to standard recipes and/or enterprise standards and/or customer requests 4.2 Hot, cold and frozen desserts are presented or displayed to enterprise standards using appropriate service equipment	4.1 Principles of decorating desserts, including: 4.1.1 Decorative techniques and rules for decorating and garnishing. 4.1.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 4.2 Types of service equipment appropriate for presenting/ displaying desserts	4.1 Artistic skills in decorating desserts including fillings, coatings and garnishes 4.2 Creative and artistic skills in preparation, decoration and display of desserts Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 4.3 Social skills to work cooperatively with other team members 4.4 Communication skills to share information with other kitchen and floor service staff. 4.5 Planning and organizational skills to complete decoration and presentation of desserts within time constraints in a logical sequence

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
			4.6 Initiative and enterprise skills to minimize wastage. 4.7 Problem-solving skills to ensure and control quality
5 Store hot, cold and frozen desserts	5.1 Desserts are <i>properly labeled</i> and stored at <i>correct temperature</i> and <i>storage conditions</i> are ensured to maintain maximum eating quality, appearance freshness and customer appeal 5.2 Appropriate <i>packaging options</i> and <i>eco-friendly packaging</i> are selected and used for desserts to ensure taste, appearance and textures are maintained. 5.3 Economic viability of preparation and holding quantities are ensured.	5.1 Principles of storage of hot, cold, and frozen desserts, including: 5.1.1 Labelling requirements for storing food 5.1.2 Optimal storage conditions for different pastry products and optimizing shelf life. 5.1.3 Shelf life of different hot, cold, and frozen desserts 5.1.4 Techniques in maintaining maximum eating quality, appearance and freshness. 5.2 Packaging and storage options for hot, cold, and frozen desserts, including: 5.2.1 Suitable containers for storage 5.2.2 Appropriate packaging options and eco-friendly packaging 5.3 Food production planning and proper calculation of food for future use	5.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing pastry products, and corrective steps to ensure quality control 5.2 Social skills to work cooperatively with other team members 5.3 Communication skills to share information with other kitchen and floor service staff. 5.4 Literacy skills to write date codes and stock rotation labels 5.5 Problem-solving skills to choose appropriate packaging options to ensure and control quality in storage.

RANGE OF VARIABLES

VARIABLE	RANGE
1. Ingredients	May include: 1.1 Flours and Starches 1.2 Gelling Agents and Gums 1.3 Sugar and Sweeteners 1.4 Fats and Oils 1.5 Milk and Dairy Products 1.6 Fruits and Vegetables 1.7 Nuts and Seeds 1.8 Flavorings and Colors 1.9 Chocolate 1.10 Leavening agents 1.11 Water
2. Hot desserts	May include: 2.1 Soufflés 2.2 Puddings 2.2.1 Baked Pudding 2.2.2 Steamed Pudding 2.3 Pies 2.4 Rice/Conde 2.5 Crepes and Pancakes 2.6 Omelettes 2.7 Fritters/Beignets 2.8 Fruit Desserts
3. Cold desserts	May include: 3.1 Custards and Creams 3.1.1 Baked Custards 3.1.1.1 Crème a Flan (Flan Cream) 3.1.1.2 Crème Renversée (Inverted Cream) 3.1.1.3 Crème Caramel (Caramel Cream) 3.1.1.4 Crème Brûlée (Burnt/Caramelized Cream) 3.1.1.5 Pot de Crème (Cream in Pot) 3.1.1.6 Cheesecake 3.1.2 Puddings 3.1.2.1 Blancmange 3.1.2.2 Cream Pudding 3.1.2.3 Panna Cotta 3.1.3 Light-Textured and Contemporary Creams 3.1.3.1 Crème Bavaoise (Bavarian Cream) 3.1.3.2 Syllabub 3.1.3.3 Mousse 3.1.3.4 Cremeux 3.1.3.5 Namelaka 3.1.4 Assembled Custards and Creams 3.1.4.1 Charlotte 3.1.4.2 Fool 3.1.4.3 Terrine

Eco-friendly packaging	May refer to packaging that are produced to improve ecological and environmental impacts using the following methods: 19.1 Lightweighting 19.2 Recycled materials 19.3 Biodegradable plastics 19.4 Post-consumer recycled materials 19.5 Natural packaging 19.6 Reusable materials

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Prepared and produced a wide variety of hot, cold and frozen desserts from all categories 1.2 Prepared and stored sweet sauces as appropriate accompaniment for hot, cold and frozen desserts. 1.3 Planned and prepared accompaniments, garnishes and decorations that complement hot, cold and frozen desserts. 1.4 Decorated and presented of a range of hot, cold and frozen desserts consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.5 Stored and packaged hot, cold and frozen desserts at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.6 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.7 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of hot, cold and frozen desserts within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PREPARE AND PRESENT GATEAUX, TORTES AND CAKES

UNIT CODE : TRS751306

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, produce, display and store a range of high quality gateaux, tortes and cakes in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Prepare and bake sponges and cakes for gateaux, tortes and cakes	1.1 Required ingredients are selected according to recipe and production requirements 1.2 A variety of sponges and cakes for gateaux, tortes and cakes are prepared to desired product characteristics 1.3 A variety of sponges and cakes for gateaux, tortes and cakes are produced using correct techniques according to standard recipes and enterprise standards 1.4 Appropriate equipment are used to prepare and bake for gateaux, tortes and cakes 1.5 Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. 1.6 Sponges and cakes are prepared in a logical manner and within industry realistic time frame 1.7 Portion control is	1.1 Ingredient selection for production 1.2 Varieties and characteristics of sponges and cakes, including: 1.2.1 Historical and cultural aspects of gateaux, cakes and tortes and their role on the menu and the industry. 1.2.2 Classical and modern, size, shape, structure and assembly, according to industry and enterprise standards 1.2.3 Quality characteristics of bakery products, including classical, modern/ contemporary and culturally specific. 1.3 Principles and techniques in the production of sponges and cakes, including: 1.3.1 Production Planning, including principles of Baker's	1.1 Technical skills to apply: ▪ Basic baking and pastry production skills to produce safe and wholesome variety of gateaux, cakes and tortes that meet industry standards. ▪ Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of gateaux, cakes and tortes and work

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	applied to minimize wastage. 1.8 Sponges and cakes for gateaux, tortes and cakes are baked to enterprise requirements and standards 1.9 Correct oven conditions are selected for baking sponges and cakes for gateaux, tortes and cakes 1.10 Sponges and cakes are cooled in conditions that retain optimum freshness and eating characteristics and appearance.	percentage and Recipe quantification 1.3.2 Ratio of ingredients required to produce a balanced formula. 1.4 Common tools and equipment for preparing sponges and cakes. 1.5 Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products 1.6 Cake production planning and scheduling, including following job sheets and work plans. 1.7 Principles of portion control including techniques in achieving standard yields, weights and sizes 1.8 Maintaining enterprise stands, including: 1.8.1 Standard size and weight per serving 1.8.2 Standard ingredient mix and make-up 1.8.3 Influence of correct portion control, yields, weights and sizes on the profitability of an establishment 1.9 Correct oven condition when baking sponges and cakes 1.10 Proper conditions in cooling sponges	within time constraints in a logical sequence 1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		and cakes to retain optimum freshness and eating characteristics and appearance.	
2. Prepare fillings, coatings, icing and decorations	2.1 Select required ingredients according to recipe and production requirements 2.2 A variety of fillings, coatings/icing and decorations are prepared for gateaux, tortes and cakes	2.1 Ingredient selection for production 2.2 Varieties and characteristics of fillings, coatings/icing and decorations for gateaux, tortes and cakes, including: 2.2.1 Fillings, coatings/icing and decorations and their role on in composing a gateaux, tortes and cakes. 2.2.2 Classical and modern fillings, coatings/icing and decorations according to industry and enterprise standards 2.2.3 Principles and techniques in producing a variety of fillings, coatings/icing and decorations. 2.2.4 Quality characteristics of fillings, coatings/icing and decorations.	2.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.2 Social skills to work cooperatively with other team members 2.3 Communication skills to share information with other kitchen and floor service staff. 2.4 Planning and organizational skills to complete preparation of fillings, coatings/icing and decorations within time constraints in a logical sequence 2.5 Initiative and enterprise skills to minimize wastage. 2.6 Problem-solving skills to ensure and control quality, and adjust fillings, coatings/icing and decorations when necessary. 2.7 Literacy skills to write date codes and stock rotation labels
3 Assemble gateaux, tortes and cakes	3.1 Required ingredients and/or preparations are assembled 3.2 Gateaux, tortes and cakes are assembled according to recipe instructions. 3.3 Suitable icings and decorations are used according to	3.1 Preparation of ingredients for assembling gateaux, tortes and cakes. 3.2 Principles of assembling gateaux, tortes and cakes. 3.3 Preparing accompaniments, garnishes and decorations for	3.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 3.2 Social skills to work cooperatively with other team members 3.3 Communication

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	standard recipes, enterprise standards and customer preferences. 3.4 Appropriate equipment are used to assemble cakes for gateaux, tortes and cakes 3.5 Correct techniques are used to assemble cakes for gateaux, tortes and cakes	gateaux, tortes and cakes, including complementing flavors and textures 3.4 Common tools and equipment for assembling gateaux, tortes and cakes. 3.5 Standard techniques and guidelines when assembling gateaux, tortes and cakes: 3.5.1 Standard size and weight per serving 3.5.2 Standard layering and pairing of sponges, fillings and icings.	skills to share information with other kitchen and floor service staff. 3.4 Planning and organizational skills to complete preparation of accompaniments, garnishes and decorations for desserts within time constraints in a logical sequence 3.5 Initiative and enterprise skills to minimize wastage. 3.6 Problem-solving skills to ensure and control quality
4 Decorate and present/ display gateaux, tortes and cakes	4.1 Cakes for gateaux, tortes and cakes are decorated using coating, icing and decorations to according to standard recipes and/or enterprise standards and/or customer requests. 4.2 Gateaux, tortes and cakes are presented/ displayed to enterprise standards using appropriate service equipment and decorations. 4.3 Arrange cakes for display in an appealing manner to meet customer expectations and enterprise standards. 4.4 Display and service temperature of products are verified appropriate for maintaining freshness, appearance and eating qualities.	4.1 Principles of decorating and presenting gateaux, tortes and cakes, including: 4.1.1 Decorative techniques and rules for decorating and garnishing. 4.1.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 4.2 Types of service equipment appropriate for presenting/ displaying gateaux, tortes and cakes 4.3 Different types of cake arrangement and display for cake service.	4.1 Artistic skills in decorating gateaux, cakes and tortes including fillings, coatings and garnishes 4.2 Creative and artistic skills in preparation, decoration and display of desserts 4.3 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 4.4 Social skills to work cooperatively with other team members 4.5 Communication skills to share information with other kitchen and floor service staff. 4.6 Planning and organizational skills to complete decoration and presentation of gateaux, tortes and cakes within time constraints in a

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	4.5 Portion-controlled cakes are marked, scored or cut precisely, according to enterprise specifications and customer preferences, minimizing wastage.	4.4 Principles and practices of hygiene, particularly in relation to display and service of gateaux, tortes and cakes. 4.5 Principles of portion control including influence of yields, weights and sizes on the profitability of an establishment	logical sequence 4.7 Initiative and enterprise skills to minimize wastage. 4.8 Problem-solving skills to ensure and control quality
5 Store gateaux, tortes and cakes	5.1 Storage methods that minimize spoilage and wastage, are identified using methods appropriate to specific products for short and medium-term preservation. 5.2 Gateaux, tortes and cakes are properly labeled and stored at correct temperature and storage conditions are ensured 5.3 Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. 5.4 Economic viability of preparation and holding quantities are ensured.	5.1 Techniques in maintaining maximum eating quality, appearance and freshness including methods appropriate to specific products for short and medium-term preservation. 5.2 Principles of storage of gateaux, tortes and cakes, including: 5.2.1 Labelling requirements for storing food 5.2.2 Optimal storage conditions for different pastry products and optimizing shelf life. Shelf life of different gateaux, tortes and cakes 5.3 Packaging and storage options for hot, cold, and frozen desserts, including: 5.3.1 Suitable containers for storage 5.3.2 Appropriate packaging options and eco-friendly packaging 5.4 Food production	5.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing gateaux, cakes and tortes, and corrective steps to ensure quality control 5.2 Social skills to work cooperatively with other team members 5.3 Communication skills to share information with other kitchen and floor service staff. 5.4 Literacy skills to write date codes and stock rotation labels 5.5 Problem-solving skills to choose appropriate packaging options to ensure and control quality in storage.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		planning and proper calculation of food for future use	

RANGE OF VARIABLES

VARIABLE	RANGE
1. Ingredients	May include: 1.1 Flours and Starches 1.2 Gelling Agents and Gums 1.3 Sugar and Sweeteners 1.4 Fats and Oils 1.5 Milk and Dairy Products 1.6 Fruits and Vegetables 1.7 Nuts and Seeds 1.8 Flavorings and Colors 1.9 Chocolate 1.10 Leavening agents 1.11 Water
2. Variety of sponges and cakes	May include: 2.1 Genoese sponges 2.2 Commercial sponge 2.3 Swiss roll 2.4 Sponge fingers 2.5 Specific to cultural feasts and celebrations 2.6 Health and diet specific items, such as gluten free and fat free.
3. Product characteristics	Related to: 3.1 Color 3.2 Consistency and texture 3.3 Moisture content 3.4 Mouth feel and eating properties 3.5 Appearance.
4. Equipment	May include: 4.1 Ovens 4.2 Trays 4.3 Racks 4.4 Bowls 4.5 Mixing machine 4.6 Scales 4.7 Cake Rings, tins, moulds 4.8 Fridge, freezer 4.9 Blenders 4.10 Dough break 4.11 Rolling pin 4.12 Piping bags and nozzles 4.13 Wooden spoons 4.14 Cutters 4.15 Specialist cake tins, rings and moulds: 14.15.1 D-shape cake log forms 14.15.2 Novelty cake tins and forms 14.15.3 Large and small cake rings 14.15.4 Metal or plastic form cake rings of various shapes for individual petit gateaux 14.15.5 Croquembouche mould

VARIABLE	RANGE
	14.16 Marble slab and silicon mats 14.17 Cake wheels 14.18 Chocolate thermometer and saccharometer 14.19 Icing and decorating equipment, including: 14.19.1 Crimpers of various sizes and designs 14.19.2 Decorative combs 14.19.3 Fine icing sugar sieves 14.19.4 Matfer-type stencils
15 Techniques	Should include: 15.1 Weighing or measuring and sifting dry ingredients 15.2 Chilling ingredients and work surfaces 15.3 Preparing and using types of yeast 15.4 Mixing Techniques: 15.4.1 Beating 15.4.2 Whisking 15.4.3 Folding 15.4.4 Creaming 15.5 Cake Mixing Methods: 15.5.1 High-Fat Cake Mixing Methods 15.5.1.1 One-Stage Method 15.5.1.2 Creaming Method 15.5.1.3 Modified Creaming Method 15.5.1.4 High Ratio Method 15.5.2 Egg Foam Cake Mixing Methods 15.5.2.1 Genoise Sponge 15.5.2.1.1 Butter Sponge/ Genoise Mousseline 15.5.2.1.2 Hot Milk and Butter Sponge 15.5.2.2 Separated Egg Sponge 15.5.2.3 Chiffon Method 15.5.2.4 Angel Food Method 15.6 Selecting and preparing appropriate baking sheets, cake and sponge tins and moulds 15.7 Using required amount of batter according to desired characteristics of finished products 15.8 Baking 15.9 Splitting/Cutting 15.10 Filling and Masking/Crumb Coating 15.11 Spreading, Glazing and Piping 15.12 Preparing and using appropriate fillings and pre-bake finishes and decoration 15.13 Selecting baking conditions and temperatures 15.14 Portioning evenly, accurately and neatly 15.15 Altitude Adjustments

VARIABLE	RANGE
16 Enterprise requirements and standards	Should relate to: 16.1 Scale to correct weight 16.2 Color 16.3 Consistency 16.4 Texture 16.5 Moisture 16.6 Mouth feel 16.7 Appearance 16.8 Salability
17 Oven conditions	May be related to: 17.1 Color 17.2 Shape 17.3 Crust structure 17.4 Temperature 17.5 Rack position 17.6 Cooking times 17.7 Moisture
18 Fillings and coatings/icing	May include: 18.1 Buttercream 18.1.1 American/Continental Buttercream 18.1.2 Swiss Buttercream 18.1.3 Italian Buttercream 18.1.4 French Buttercream 18.1.5 English Buttercream 18.1.6 German Buttercream 18.2 Fondant 18.2.1 Poured Fondant 18.2.2 Rolled Fondant 18.2.3 Marshmallow Fondant 18.3 Chocolate Ganache 18.4 Chocolate Glaze/Glacage 18.5 Fruit Glaze/Nappage 18.6 Fudge 18.7 Royal Icing 18.8 Flat Icing 18.9 Italian Meringue/Boiled Icing 18.10 Swiss Meringue/Marshmallow Icing 18.11 Whipped Topping 18.12 Crème Chantilly 18.13 Fruits 18.14 Chocolate 18.15 Creams such as wine cream and cheese cream 18.16 Fruit sauces 18.17 Frangipane 18.18 Nuts and dried fruits 18.19 Jams 18.20 Mousses 18.21 Custards 18.22 Jellies 18.23 Meringue 18.24 Ready-made and pre-mixed 18.25

VARIABLE	RANGE
19 Decorations	May include: 19.1 Fresh, preserved or crystallized fruits 19.2 Biscuits 19.3 Chocolate 19.4 Flowers and leaves 19.5 Herbs 19.6 Croquant 19.7 Creams 19.8 Glazes 19.9 Icing sugar 19.10 Cocoa powder 19.11 Fruit sauces 19.12 Nuts, seeds, and dried fruits 19.13 Jams 19.14 Meringue 19.15 Ganache 19.16 Flavored and colored sugar
20 Service equipment	May include: 20.1 Baskets 20.2 Ceramics 20.3 Glass 20.4 Crystal 20.5 Mirrors 20.6 Trays 20.7 Croquant stands 20.8 Sugar work stands 20.9 Chocolate stands 20.10 Display cabinets 20.11 Cake stands, including multi-tier and clear cover, platters and mirrors 20.12 Cake boards for individual and large gateaux 20.13 Gateaux serving tongs and trowels 20.14 Doilies 20.15 Refrigerated cake display cases or towers
21 Properly labeled	May include: 21.1 Date (expiry, cooking date) 21.2 Item name 21.3 Handler name 21.4 Time 21.5 Portion (weights, yield) 21.6 Purpose 21.7 Nature (half cooked, puree etc.)
22 Correct temperature and conditions of storage	May relate to: 22.1 Consideration of temperature, light and air exposure 22.2 Away from strong odors 22.3 Appropriate containers 22.4 Labelling 22.5 Cool room temperature 22.6 Cool room placement 22.7 Length of time in cool storage 22.8 Freezer temperature

VARIABLE	RANGE
	22.9 Length of time in freezer storage. 22.10 Use of airtight containers 22.11 display cabinets, including temperature-controlled cabinets to cool or warm
23 Packaging options	May include but are not limited to: 23.1 Polystyrene foam 23.2 Plastic cling wrap 23.3 Bopp films 23.4 Cellophane wrap 23.5 Glassine wrap 23.6 Wax Paper 23.7 Tins 23.8 Cardboard boxes or CBB 23.9 Paper bags 23.10 Polyethylene Bags 23.11 Aluminum foils 23.12 Display boxes 23.13 Shrink wrap 23.14 Tube packaging 23.15 Plastic or foil containers 23.16 Metal or plastic trays.
24 Eco-friendly packaging	May refer to packaging that are produced to improve ecological and environmental impacts using the following methods: 24.1 Lightweighting 24.2 Recycled materials 24.3 Biodegradable plastics 24.4 Post-consumer recycled materials 24.5 Natural packaging 24.6 Reusable materials

EVIDENCE GUIDE

1. Critical Aspects of Competency	Assessment requires evidence that the candidate: 1.1 Prepared and bake a wide variety of sponges for gateaux, tortes and cakes from all categories. 1.2 Prepared fillings, coatings, icing and decorations appropriate for a variety of gateaux, tortes and cakes. 1.3 Assembled a wide variety of gateaux, tortes and cakes using various techniques appropriate for the theme. 1.4 Decorated and presented a range of gateaux, tortes and cakes consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.5 Stored and packaged gateaux, tortes and cakes at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.6 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.7 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of gateaux, tortes and cakes within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PREPARE AND PRESENT PETITS FOURS

UNIT CODE : TRS751307

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, display and store a range of high quality petit fours in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Select, prepare and use ingredients and equipment for petit fours	1.1 Ingredients for <i>petit fours</i> are sorted and assembled according to recipe and <i>production requirements</i> 1.2 Equipment of the correct types and size are selected or the type of production. 1.3 Equipment are used <i>safely</i> and hygienically according to manufacturer's instruction.	1.1 Principles of petite fours production including: 1.1.1 Ingredient selection for petit fours production. 1.1.2 Varieties and characteristics of petit fours, including: 1.1.2.1 Historical and cultural petit fours and their role on the menu and the industry. 1.1.2.2 Classical and modern, size, shape, structure and assembly, according to industry and enterprise standards 1.1.2.3 Quality characteristics of petit fours products, including classical, modern/ contemporary and culturally specific. 1.1.3 Principles and techniques in the production of petit fours, including: 1.1.3.1 Production planning,	1.1 Technical skills to apply: ▪ Basic baking and pastry production skills to produce safe and wholesome variety of petit fours that meet industry standards. ▪ Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of petit fours and work within time constraints in a logical sequence

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		including recipe quantification and following job sheets and work plans 1.1.3.2 Ratio of ingredients required to produce a balanced formula. 1.2 Common tools and equipment for chocolate confectionery production. 1.3 Principles and practices of safety and hygiene, particularly in relation to handling tools and equipment.	1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance
2. Prepare and display petit four glaze	2.1 Petit four bases are prepared. 2.2 Bases for petit four glaze are cut and assembled. 2.3 Fillings are prepared and flavored to required consistency	2.1 Principles of preparing petit fours bases, including: 2.1.1 Baking and pastry techniques in preparing petit fours bases 2.1.2 Different types of petit fours	2.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.2 Artistic skills in decorating petit four glaze including

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	2.4 Petit four glaze for glazing is prepared. 2.5 Petit four glaze are decorated to enhance customer eye appeal 2.6 Petit four glaze are displayed.	bases 2.2 Principles of assembling petit fours, including: 2.2.1 Uniformity of shapes and sizes of petit fours bases 2.2.2 Standard size and weight per serving 2.2.3 Standard layering and pairing of petit fours bases, fillings and icings. 2.3 Varieties and characteristics of fillings for petit fours including standards of quality. 2.4 Varieties and characteristics of glazes for petit fours Including: 2.4.1 Flavoring and adjusting texture of glazes 2.4.2 Quality characteristics 2.5 Principles of decorating and presenting petit four glaze, including: 2.5.1 Decorative techniques and rules for decorating and garnishing. 2.5.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics 2.6 Different types of arrangement and display for presenting petit four glaze	fillings, coatings and garnishes 2.3 Creative and artistic skills in preparation, decoration and display of petit four glaze 2.4 Social skills to work cooperatively with other team members 2.5 Communication skills to share information with other kitchen and floor service staff. 2.6 Planning and organizational skills to complete preparation of petit four glaze within time constraints in a logical sequence 2.7 Initiative and enterprise skills to minimize wastage. 2.8 Problem-solving skills to ensure and control quality, and adjust consistency of petit four glaze when necessary. 2.9 Literacy skills to write notes on recipe requirements and calculation.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
3. Prepare fresh petits fours	3.1 Fresh petits fours are prepared. 3.2 Small choux and sweet paste are prepared and blind baked in small moulds or tins in a variety of shapes. 3.3 Fillings with the required flavors and consistency are prepared and used. 3.4 Appropriate garnishes, glazes and finishes are used to enhance flavor and eye appeal. 3.5 Fresh petit fours are displayed.	3.1 Principles of preparing fresh petit fours. 3.2 Preparing fresh petit fours bases, including: 3.2.1 Baking and pastry techniques in preparing fresh petit fours 3.2.2 Different types of fresh petit fours 3.3 Varieties and characteristics of fillings for petit fours including standards of quality. 3.4 Varieties and characteristics of garnishes and glazes for petit fours including: 3.4.1 Flavoring and adjusting texture of glazes 3.4.2 Quality characteristics 3.5 Principles of decorating and presenting petit four glace, including: 3.5.1 Decorative techniques and rules for decorating and garnishing. 3.5.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics 3.5.3 Different types of arrangement and display for presenting fresh petit four	3.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 3.2 Artistic skills in decorating petit four glace including fillings, coatings and garnishes 3.3 Creative and artistic skills in preparation, decoration and display of petit four glace 3.4 Social skills to work cooperatively with other team members 3.5 Communication skills to share information with other kitchen and floor service staff. 3.6 Planning and organizational skills to complete preparation of petit four glace within time constraints in a logical sequence 3.7 Initiative and enterprise skills to minimize wastage. 3.8 Problem-solving skills to ensure and control quality, and adjust consistency of petit four glace when necessary. 3.9 Literacy skills to write notes on recipe requirements and calculation.

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
4. Prepare and display marzipan based petit fours	4.1 Marzipan is prepared, flavored and colored. 4.2 Marzipan is shaped. 4.3 Marzipan is prepared for glazing with cocoa butter or food lacquer using applied heat to preserve desired eating characteristics 4.4 Marzipan petit fours are decorated to enhance customer eye appeal 4.5 Marzipan petit fours are displayed.	4.1 Principles of preparing marzipan, including: 4.1.1 Flavoring techniques 4.1.2 Coloring techniques 4.2 Shaping techniques for marzipan 4.3 Glazing techniques for marzipan 4.4 Principles of decorating and presenting marzipan petit four, including: 4.4.1 Decorative techniques and rules for decorating and garnishing. 4.4.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics 4.5 Different types of arrangement and display for presenting marzipan petit four	4.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 4.2 Artistic skills in decorating marzipan petit four including fillings, coatings and garnishes 4.3 Creative and artistic skills in preparation, decoration and display of marzipan petit four 4.4 Social skills to work cooperatively with other team members 4.5 Communication skills to share information with other kitchen and floor service staff. 4.6 Planning and organizational skills to complete preparation of marzipan petit four within time constraints in a logical sequence 4.7 Initiative and enterprise skills to minimize wastage. 4.8 Problem-solving skills to ensure and control quality, and adjust consistency of marzipan petit four when necessary. 4.9 Literacy skills to write notes on recipe requirements and calculation.
5. Prepare and display petit four sec	5.1 Selection of petit four sec are prepared and baked 5.2 Fillings are prepared and	5.1 Principles of preparing petit four sec, including: 5.1.1 Baking and pastry techniques in	5.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	flavored to required consistency 5.3 Petit fours sec are prepared for glazing 5.4 Petit fours sec are decorated to enhance customer eye appeal 5.5 Petit fours sec are displayed.	preparing petit four sec 5.1.2 Different types and varieties of petit four sec 5.2 Varieties and characteristics of fillings for petit four sec including standards of quality. 5.3 Varieties and characteristics of glazes for petit four sec including: 5.3.1 Flavoring and adjusting texture of glazes 5.3.2 Quality characteristics 5.4 Principles of decorating and presenting petit four sec, including: 5.4.1 Decorative techniques and rules for decorating and garnishing. 5.4.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics 5.5 Different types of arrangement and display for presenting petit four sec	practices. 5.2 Artistic skills in decorating petit four sec including fillings, coatings and garnishes 5.3 Creative and artistic skills in preparation, decoration and display of petit four sec 5.4 Social skills to work cooperatively with other team members 5.5 Communication skills to share information with other kitchen and floor service staff. 5.6 Planning and organizational skills to complete preparation of petit four sec within time constraints in a logical sequence 5.7 Initiative and enterprise skills to minimize wastage. 5.8 Problem-solving skills to ensure and control quality, and adjust consistency of petit four sec when necessary. 5.9 Literacy skills to write notes on recipe requirements and calculation.
6. Prepare and display caramelized petit fours	6.1 Fruits/nuts are selected 6.2 Products and coating for fruits are prepared . 6.3 Caramelized petit fours are coated 6.4 Caramelized petit fours are displayed.	6.1 Principles of fruit and nut selection for caramelized petit fours. 6.2 Principles of preparing products and coating for caramelized petit fours. 6.3 Principles of coating caramelized petit	6.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 6.2 Artistic skills in decorating caramelized petit fours including

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		fours, including: 6.3.1 Reaching proper caramelization and adjusting consistency 6.3.2 Uniformity of coating of caramelized petit fours 6.4 Different types of arrangement and display for presenting caramelized petit fours	fillings, coatings and garnishes 6.3 Creative and artistic skills in preparation, decoration and display of caramelized petit fours 6.4 Social skills to work cooperatively with other team members 6.5 Communication skills to share information with other kitchen and floor service staff. 6.6 Planning and organizational skills to complete preparation of caramelized petit fours within time constraints in a logical sequence 6.7 Initiative and enterprise skills to minimize wastage. 6.8 Problem-solving skills to ensure and control quality, and adjust consistency of caramelized petit fours when necessary. 6.9 Literacy skills to write notes on recipe requirements and calculation.
7. Store petit fours	7.1 Petit fours are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness 7.2 Appropriate packaging	7.1 Principles of storage of petit fours, including: 7.1.1 Labelling requirements for storing food 7.1.2 Optimal storage conditions for different pastry products and optimizing shelf life. Shelf life of different gateaux, tortes	7.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing petit fours, and corrective steps to ensure quality control 7.2 Social skills to work cooperatively with other team members 7.3 Communication skills to share information with other kitchen and floor

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. 7.3 Economic viability of preparation and holding quantities are ensured.	and cakes 7.2 Packaging and storage options for petit fours, including: 7.2.1 Suitable containers for storage 7.2.2 Appropriate packaging options and eco-friendly packaging 7.3 Food production planning and proper calculation of food for future use	service staff. 7.4 Literacy skills to write date codes and stock rotation labels 7.5 Problem-solving skills to choose appropriate packaging options to ensure and control quality in storage.

RANGE OF VARIABLES

VARIABLE	RANGE
1. Ingredients	May include: 1.1 Flours and Starches 1.2 Gelling Agents and Gums 1.3 Sugar and Sweeteners 1.4 Fats and Oils 1.5 Milk and Dairy Products 1.6 Fruits and Vegetables 1.7 Nuts and Seeds 1.8 Flavorings and Colors 1.9 Chocolate 1.10 Leavening agents 1.11 Water
2. Production requirements	May include: 2.1 Deadlines 2.2 Portion control 2.3 Quantities to be produced 2.4 Special customer requests 2.5 Special dietary needs 2.6 Standard recipes

VARIABLE	RANGE
3 Equipment	May include: 3.1 Bain Marie 3.2 Beaters 3.3 Bowls of different sizes 3.4 Brushes 3.5 Chocolate thermometer 3.6 Chopping boards 3.7 Commercial mixers and attachments 3.8 Cutting implements 3.9 Dipping forks 3.10 Icing and decorating equipment: 3.10.1 Chocolate spray gun 3.10.2 Crimpers 3.10.3 Decorative combs 3.10.4 Fine icing sugar sieves 3.10.5 Fine paint brushes 3.10.6 Fine piping tubes 3.10.7 Matfer-type stencils 3.10.8 Silk screens 3.11 Graters 3.12 Knives including large serrated cake knives 3.13 Ladles in various sizes 3.14 Marble or granite slab 3.15 Measuring spoons and cups 3.16 Microwave 3.17 Ovens 3.18 Petit four cutters 3.19 Petit four dipping racks 3.20 Petit four moulds 3.21 Petit four paper cases. 3.22 Piping bags and tips 3.23 Racks 3.24 Range of saucepans and pots for small and large production 3.25 Rings 3.26 Rolling pins 3.27 Saccharometer 3.28 Scales 3.29 Silicon mats 3.30 Spatulas including rubber/silicon, straight, and offset 3.31 Specialty scrapers 3.32 Spoons, including wooden, solid, and slotted 3.33 Tins 3.34 Trays 3.35 Warming area 3.36 Whisks
4 Petit fours	Must include: 4.1 Caramelized petit fours: 4.1.1 Filled

VARIABLE	RANGE
	4.1.2 Fresh or dried fruit 4.1.3 Fresh or dried nuts 4.1.4 Unfilled 4.2 Fresh petit fours: 4.2.1 Choux paste base 4.2.2 Sweet paste base 4.3 Marzipan-based petit fours: 4.3.1 Colored 4.3.2 Flavored 4.3.3 Modelled by hand 4.3.4 Sealed with cocoa butter or food lacquer 4.3.5 Shaped with the aid of moulds 4.4 Petit fours glacés including sponge bases 4.5 Petit four sec 4.5.1 Biscuits 4.5.2 Tuiles 4.5.3 Piped 4.5.4 Rolled
5 Petit four bases	Will include: 5.1 Sponge bases 5.2 Sweet pastry bases 5.3 Choux pastry
6 Cut and assemble bases	May be related to: 6.1 Size 6.2 Variety of shapes 6.3 Consistency in size and shape.
6. Fillings	May include: 6.1 Custards 6.2 Creams 6.3 Ganache (sweet creamy chocolate filling or icing)
7. Glazing	Should include: 7.1 Jams 7.2 Creams 7.3 Chocolate 7.4 Fondant 7.5 Ganache 7.6 Food lacquer 7.7 Cocoa butter.
8. Decorate	Should relate to: 8.1 Chocolate 8.2 Fondant icing 8.3 Non-pareils 8.4 Glace fruits 8.5 Fresh fruits
9. Display	May include: 9.1 Chocolate 9.2 Tulip paste 9.3 Sugar Lace 9.4 Croquant 9.5 Ceramics 9.6 Glass

VARIABLE	RANGE
	9.7 Crystal 9.8 Mirrors 9.9 Trays 9.10 Croquant stands 9.11 Sugar work stands 9.12 Chocolate stands
10. Shape marzipan	May relate to: 10.1 Modelled by hand 10.2 Modelled using tools 10.3 Modelled using moulds 10.4 Fruits 10.5 Figures 10.6 Animals
11. Select fruits/nuts	Should include: 11.1 Fresh fruits 11.2 Dried fruits 11.3 Nut varieties
12. Prepare products	Should include: 12.1 Wash fruits 12.2 Dry fruits 12.3 Shell nuts 12.4 Fill or sandwich products
13. Coating for fruits	Refers to: Boiling sugar syrup to hard ball
14. Coat	Refers to: Boiling sugar syrup to hard ball/caramel
15. Properly labeled	May include: 15.1 Date (expiry, cooking date) 15.2 Item name 15.3 Handler name 15.4 Time 15.5 Portion (weights, yield) 15.6 Purpose 15.7 Nature (half cooked, puree etc.)
16. Correct temperature and conditions	Relates to: 16.1 As appropriate to each type of petit fours 16.2 Cool 16.3 Dry 16.4 Moisture free 16.5 Low humidity
17. Eco-friendly packaging	May refer to packaging that are produced to improve ecological and environmental impacts using the following methods: 17.1 Lightweighting 17.2 Recycled materials 17.3 Biodegradable plastics 17.4 Post-consumer recycled materials 17.5 Natural packaging 17.6 Reusable materials

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Prepared and produced a wide variety of petit fours including: caramelized petit fours, fresh petit fours, marzipan-based petit fours, petit fours glacés and petit four sec. 1.2 Decorated and presented of a range of petit fours consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.3 Stored and packaged petit fours at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.4 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.5 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of petit fours within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PREPARE CHOCOLATE AND PRODUCE CHOCOLATE PRODUCTS

UNIT CODE : TRS751308

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to prepare, produce, display and store a range of high quality chocolate products in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Select, prepare and use ingredients and equipment for chocolate and chocolate products	1.1 Ingredients for chocolate confectionery are sorted and assembled according to recipe and production requirements 1.2 Equipment of the correct types and size for the type of production are selected 1.3 Equipment are used safely and hygienically according to manufacturer's instruction.	1.1 Principles of chocolate production including: 1.1.1 Ingredient selection for chocolate production, including: 1.1.1.1 Chocolate Types and Market Forms 1.1.1.2 Cocoa and chocolate production 1.1.1.3 Storage of cocoa and chocolate products 1.1.2 Varieties and characteristics of different chocolate confectionery, including: 1.1.2.1 Historical and cultural aspects of chocolate confectionery and their role on the menu and the industry. 1.1.2.2 Classical and modern, size, shape, structure and assembly,	1.1 Technical skills to apply: ▪ Basic baking and pastry production skills to produce safe and wholesome variety of chocolate confectionery that meet industry standards. ▪ Food safety, sanitation and hygiene skills and practices particularly in relation to using cutting implements, appliances, heated surfaces, ovens, manual handling and mixing or kneading equipment 1.2 Social skills to work cooperatively with other team members 1.3 Communication skills to share information with other kitchen and floor service staff. 1.4 Planning and organizational skills to complete preparation (mise-en-place) and organise for the production of chocolate

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
		according to industry and enterprise standards 1.1.2.3 Quality characteristics of bakery products, including classical, modern/ contemporary and culturally specific. 1.1.3 Principles and techniques in the production of chocolate confectionery, including: 1.1.3.1 Production planning, including recipe quantification and following job sheets and work plans 1.1.3.2 Ratio of ingredients required to produce a balanced formula. 1.2 Common tools and equipment for chocolate confectionery production. 1.3 Principles and practices of safety and hygiene, particularly in relation to handling tools and equipment	confectionery and work within time constraints in a logical sequence 1.5 Numerical skills to calculate portions, weights and measure quantities of ingredients, determine baking/cooking times and temperatures, and perform use of mathematical formulas to compute food grade additives 1.6 Literacy skills to read and interpret food preparation lists, stand recipes, standard procedures, date codes and stock rotation labels and manufacturers instruction for equipment, and write notes on recipe requirements and calculation. 1.7 Initiative and enterprise skills to minimize wastage. 1.8 Technology skills in baking and use of mechanical kitchen equipment, including weighing equipment. 1.9 Problem-solving skills to: ▪ Take corrective steps to ensure quality control ▪ Evaluate quality of ingredients, and adjust taste, texture and appearance

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
2. Temper couverture	2.1 Couverture is melted and tempered using correct techniques and temperatures 2.2 Couverture is manipulated to the correct viscosity and desired flow properties to achieve desired product characteristics. 2.3 The temperature of the couverture is controlled to retain workable consistency. 2.4 Tempered couverture is maintained for use	2.1 Melting and tempering techniques, including: 2.1.1 Polymorphism of cocoa butter 2.1.2 Different techniques and their advantages and disadvantages 2.2 Quality characteristics of properly tempered chocolate. 2.3 Controlling working consistency of tempered chocolate. 2.4 Methods in maintaining tempered chocolate.	2.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.2 Social skills to work cooperatively with other team members 2.3 Communication skills to share information with other kitchen and floor service staff. 2.4 Planning and organizational skills to complete preparation of sweet sauces within time constraints in a logical sequence 2.5 Initiative and enterprise skills to minimize wastage. 2.6 Problem-solving skills to ensure and control quality, and adjust consistency of sauces when necessary. 2.7 Literacy skills to write date codes and stock rotation labels
3. Prepare chocolate based fillings/ centers and coatings	3.1 Correct techniques are used to produce chocolate based fillings/centers and coatings to achieve full flavored, interesting and natural characteristics. 3.2 Standard recipes are followed and food quality adjustments are made within scope of responsibility. 3.3 Chocolate based	3.1 Preparing chocolate-based fillings/ centers and coatings, including: 3.1.1 Baking and pastry techniques in preparing chocolate filling/ center and coatings 3.1.2 Different types of chocolate filling/ center and coatings 3.2 Standards of quality for chocolate filling/ center and coatings including:	3.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 3.2 Social skills to work cooperatively with other team members 3.3 Communication skills to share information with other kitchen and floor service staff. 3.4 Planning and organizational skills to complete preparation of

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	fillings/centers, coatings and decorations are produced to enterprise requirements and standards.	3.2.1 Flavoring and adjusting texture of chocolate filling/ center and coatings 3.2.2 Quality characteristics of chocolate filling/ center and coatings 3.3 Maintaining enterprise stands, including: 3.3.1 Uniformity of shapes and sizes of chocolate centers 3.3.2 Standard size and weight per serving 3.3.3 Standard ingredient mix and make-up	chocolate filling/ center and coatings within time constraints in a logical sequence 3.5 Initiative and enterprise skills to minimize wastage. 3.6 Problem-solving skills to ensure and control quality, and adjust consistency of chocolate filling/ center and coatings when necessary. 3.7 Literacy skills to write notes on recipe requirements and calculation.
4. Prepare chocolate moulds	4.1 Moulds are ensured clean 4.2 Moulds are polished ready for use 4.3 Moulds are kept at correct temperature for production	4.1 Proper procedures for cleaning chocolate moulds. 4.2 Proper procedures for polishing chocolate moulds. 4.3 Proper procedures for tempering chocolate moulds.	4.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 4.2 Social skills to work cooperatively with other team members 4.3 Communication skills to share information with other kitchen and floor service staff. 4.4 Planning and organizational skills to complete preparation of chocolate moulds within time constraints in a logical sequence
5. Make moulded chocolates	5.1 Combinations are selected and prepared to be produced 5.2 Tempered	5.1 Principles of complementing flavors and textures. 5.2 Proper procedures for coating chocolate	5.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	couverture is used and set in moulds correctly. 5.3 Moulded chocolates are filled correctly. 5.4 Moulded chocolates are sealed with a layer of chocolate of appropriate thickness. 5.5 Moulded chocolates are set, released and handled appropriately	moulds. 5.3 Proper procedures for filling chocolate moulds. 5.4 Proper procedures for sealing/plugging of chocolate moulds 5.5 Proper procedures for setting, releasing and handling moulded chocolates.	hygiene skills and practices. 5.2 Social skills to work cooperatively with other team members 5.3 Communication skills to share information with other kitchen and floor service staff. 5.4 Planning and organizational skills to complete preparation of moulded chocolates within time constraints in a logical sequence 5.5 Initiative and enterprise skills to minimize wastage. 5.6 Problem-solving skills to ensure and control quality, and adjust consistency of moulded chocolates when necessary. 5.7 Literacy skills to write notes on recipe requirements and calculation.
6. Coat chocolate centers	6.1 Tempered couverture are selected to match centers. 6.2 Centers to be coated are brought to the correct temperature. 6.3 Methods to coat centers are used to achieve an even and appropriate thickness with a uniform quality finish.	6.1 Principles of complementing flavors and textures. 6.2 Proper procedures for tempering chocolate centers. 6.3 Correct methods and procedures for coating chocolate centers.	6.1 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 6.2 Social skills to work cooperatively with other team members 6.3 Communication skills to share information with other kitchen and floor service staff. 6.4 Planning and organizational skills to complete preparation of coated chocolate centers within time constraints in a

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
			logical sequence 6.5 Initiative and enterprise skills to minimize wastage. 6.6 Problem-solving skills to ensure and control quality, and adjust consistency of chocolate centers when necessary. 6.7 Literacy skills to write notes on recipe requirements and calculation.
7. Decorate and present chocolates	7.1 A variety of chocolate coating, glazes and decorations are prepared 7.2 A variety of techniques according to standard recipes and/or enterprise standards and/or customer requests are used in decorating. 7.3 A variety of chocolate products are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	7.1 Common fillings and coating, glazes and decorations for chocolates 7.2 Different techniques for decorating chocolates, including: 7.1.1 Decorative techniques and rules for decorating and garnishing. 7.1.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 7.3 Types of service equipment appropriate for presenting/ displaying chocolates	7.1 Artistic skills in decorating chocolates including fillings, coatings and garnishes 7.2 Creative and artistic skills in preparation, decoration and display of desserts Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 7.3 Social skills to work cooperatively with other team members 7.4 Communication skills to share information with other kitchen and floor service staff. 7.5 Planning and organizational skills to complete decoration and presentation of desserts within time constraints in a logical sequence 7.6 Initiative and enterprise skills to minimize wastage. 7.7 Problem-solving skills to ensure and control quality

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
8. Store chocolate and chocolate products	8.1 Chocolate and chocolate products are <i>properly labeled</i> and stored at <i>correct temperature</i> and <i>storage conditions</i> are ensured to maintain maximum eating quality, appearance and freshness 8.2 Appropriate <i>packaging options</i> and <i>eco-friendly packaging</i> are selected for the preservation of product freshness and eating characteristics. 8.3 Economic viability of preparation and holding quantities are ensured.	8.1 Principles of storage of chocolate and chocolate products, including: 8.1.1 Labelling requirements for storing food 8.1.2 Optimal storage conditions for different pastry products and optimizing shelf life. 8.1.3 Shelf life of different chocolate and chocolate products 8.1.4 Techniques in maintaining maximum eating quality, appearance and freshness. 8.2 Packaging and storage options for hot, cold, and frozen desserts, including: 8.2.1 Suitable containers for storage 8.2.2 Appropriate packaging options and eco-friendly packaging 8.3 Food production planning and proper calculation of food for future use	8.1 Technical skills to apply food safety, sanitation and hygiene skills and practices in storing chocolate and chocolate products, and corrective steps to ensure quality control 8.2 Social skills to work cooperatively with other team members 8.3 Communication skills to share information with other kitchen and floor service staff. 8.4 Literacy skills to write date codes and stock rotation labels 8.5 Problem-solving skills to choose appropriate packaging options to ensure and control quality in storage.

RANGE OF VARIABLES

VARIABLE	RANGE
1. Ingredients	May include: 1.1 Chocolates 1.1.1 Compound 1.1.1.1 Unsweetened 1.1.1.2 Bitter-Sweet 1.1.1.3 Semi-Sweet 1.1.1.4 Dark 1.1.1.5 Milk 1.1.1.6 White 1.1.1.7 Flavored 1.1.2 Couverture 1.1.2.1 Dark 1.1.2.2 Milk 1.1.2.3 White 1.2 Dried fruits or nuts 1.3 Flavourings or essences 1.4 Alcohol-based products 1.5 Cream
2. Chocolate confectionery	May include: 2.1 Chocolates that may be: 2.1.1 Cut or dressed 2.1.2 Hand coated 2.1.3 Machine enrobed 2.1.4 Made using prepared hollow shells 2.1.5 Molded 2.2 Individual chocolates with: 2.2.1 Hard centers 2.2.2 Soft centers 2.2.3 Fillings.
3. Production requirements	May include: 3.1 Deadlines 3.2 Portion control 3.3 Quantities to be produced 3.4 Special customer requests 3.5 Special dietary needs 3.6 Standard recipes
4. Equipment	May include: 4.1 Trays 4.2 Racks 4.3 Brushes 4.4 Beaters 4.5 Chopping boards 4.6 Commercial mixers and attachments 4.7 Cutting implements 4.8 Bain Marie 4.9 Graters 4.10 Bowls 4.11 Scales 4.12 Ladles in various sizes 4.13 Rolling pins 4.14 Chocolate moulds 4.15 Marble or granite slab 4.16 Microwave 4.17 Piping bags and tips

	4.18 Rings 4.19 Range of saucepans and pots for small and large production 4.20 Tins 4.21 Spatulas 4.22 Specialty scrapers 4.23 Warming area 4.24 Whisks 4.25 Chocolate Melter 4.26 Dipping tools and racks. 4.27 Texture and Guitar Sheets
5. Use equipment safely	Relates to: 5.1 Essential features and functions 5.2 Methods used to protect polished chocolate moulds from contamination and damage 5.3 Safe operational practices
6. Melt and temper	Should relate to: 6.1 Type of couverture, such as dark, milk, or white 6.2 Temperature control 6.3 Avoiding contact with moisture 6.4 Controlling the formation of seed crystals 6.5 Properties of tempered couverture: 6.5.1 Flow properties 6.5.2 Setting properties 6.5.3 Viscosity 6.6 Tempering Methods: 6.6.1 Vaccination/Seeding/Addition method 6.6.2 Tabling method 6.6.3 Heated water method 6.6.4 Microwaving
7. Product characteristics	Relates to: 7.1 Color 7.2 Gloss 7.3 Sheen 7.4 Snap
8. Maintain tempered couverture	May relate to: 8.1 Temperature control 8.2 Holding time of tempered couverture.
9. Techniques	May relate to: 9.1 Rubbing 9.2 Beating 9.3 Whisking 9.4 Folding 9.5 Piping 9.6 Flooding 9.7 Stencilling
10. Chocolate based fillings/centers, and coatings	May relate to: 10.1 Nougat 10.2 Ganache 10.3 Flavoured fondants 10.4 Nuts 10.5 Fruits 10.6 Caramels 10.7 Liqueurs 10.8 Marzipan 10.9 Croquant 10.10 Jellies

11. Food quality adjustments	May relate to: 11.1 Ratio of wet to dry ingredients 11.2 Taste 11.2.1 Salty 11.2.2 Spicy 11.2.3 Sweet 11.2.4 Sour 11.2.5 Bitter 11.3 Temperature 11.4 Texture: 11.4.1 A light or heavy mouth feel 11.4.2 Clean 11.4.3 Creamy 11.4.4 Crispy 11.4.5 Crunchy 11.4.6 Intense 11.4.7 Marshmallow like 11.4.8 Mousse 11.4.9 Rich 11.4.10 Slippery 11.4.11 Smooth 11.4.12 Velvety
12. Enterprise requirements and standards	May relate to: 12.1 Scale to correct weight 12.2 Color 12.3 Consistency 12.4 Texture 12.5 Moisture 12.6 Mouth feel 12.7 Appearance 12.8 Sale ability 12.9 Shape
13. Clean	Should include: 13.1 Free of grease 13.2 Free of dust 13.3 Free of water 13.4 Free of chocolate 13.5 Free of residue 13.6 Free of other ingredients.
14. Polish moulds	Should include: 14.1 Free of finger prints 14.2 Free of scratches 14.3 Untouched by objects that may dull, scratch or damage it
15. Correct temperature	Relates to: 15.1 Cool 15.2 Moisture free
16. Combinations	Relates to: 16.1 Type of couverture 16.2 Flavor of filling 16.3 Complementary tastes and textures 16.4 Size 16.5 Shape
17. Set in moulds	Should include: 17.1 Even Thickness 17.2 Free of bubbles 17.3 Free of marks

	17.4 Free of blemishes
18. Fill moulded chocolates	Relates to: 18.1 Quantity of filling 18.2 Level of filling 18.3 Allow space for sealing 18.4 Sealing in filling
19. Methods to coat centers	May include: 19.1 Hand Coating 19.2 Hand Dipping 19.3 Machine enrobed
20. Handle	Relates to: 20.1 Free from finger marks 20.2 Free from bloom 20.3 Free from scratches
21. Coating, glazes and decorations	May relate to: 21.1 Jams 21.2 Creams 21.3 Chocolate 21.4 Fondant 21.5 Ganache 21.6 Food lacquer 21.7 Cocoa butter 21.8 Chocolate 21.9 Fondant icing 21.10 Non-pareils 21.11 Glace fruits 21.12 Fresh fruits
22. Variety of techniques	May include: 22.1 Brushing 22.2 Splashing 22.3 Sprinkling 22.4 Dusting 22.5 Air-Brushing 22.6 Stencilling 22.7 Rubbing 22.8 Stamping 22.9 Texturizing
23. Store	Must include: 23.1 Storage containers 23.2 Labelled 23.3 Temperature and humidity
24. Properly labeled	May include: 24.1 Date (expiry, cooking date) 24.2 Item name 24.3 Handler name 24.4 Time 24.5 Portion (weights, yield) 24.6 Purpose 24.7 Nature (half cooked, puree etc.)
25. Correct temperature and conditions	Relates to: 25.1 Atmosphere 25.2 Cool 25.3 Humidly level 25.4 Ventilation 25.5 Moisture free 25.6 Protection from light and odors

26. Packaging options	May include: 26.1 Cellophane wrap 26.2 Glassine wrap 26.3 Tins 26.4 Cardboard boxes or CBB 26.5 Polypylene Bags 26.6 Aluminum foils 26.7 Display boxes 26.8 Tube packaging 26.9 Plastic or foil containers 26.10 Metal or plastic trays
27. Eco-friendly packaging	May refer to packaging that are produced to improve ecological and environmental impacts using the following methods: 27.1 Lightweighting 27.2 Recycled materials 27.3 Biodegradable plastics 27.4 Post-consumer recycled materials 27.5 Natural packaging 27.6 Reusable materials

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Properly tempered couverture, prepared, moulded and coat a variety of centers and fillings to produce a range of individual chocolates 1.2 Produced a quantity of individual chocolates of the same types that are consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.3 Stored and packaged chocolate and chocolate products at the correct temperature and conditions of storage appropriate for preservation of product freshness and eating characteristics. 1.4 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.5 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of chocolate and chocolate products within typical workplace conditions and timeframes.

UNIT OF COMPETENCY : PRESENT DESSERTS

UNIT CODE : TRS751309

UNIT DESCRIPTOR : This unit deals with performance outcomes, skills and knowledge required by cooks, chefs and patissiers to present or display a range of high quality desserts in commercial food production environments

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
1. Prepare dessert display	1.1 Dessert display appropriate to location, facilities and equipment are prepared 1.2 Appropriate amount and variety for event and or service period are prepared. 1.3 Appropriate saucers and garnishes are prepared.	1.1 Principles of displaying desserts, including facilities and equipment planning 1.2 Principles of dessert production, including: 1.2.1 Varieties of desserts appropriate for the event of function 1.2.2 Principles of quantity production including techniques in achieving standard yields, weights and sizes 1.3 Principles of dessert pairing, including: 1.3.1 Principles of complementing flavors and textures for desserts 1.3.2 Appropriate menu balance including shape, size, design, color combination and complementary characteristics	1.1 Creative and artistic skills in preparation, decoration and display of desserts 1.2 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 1.3 Social skills to work cooperatively with other team members 1.4 Communication skills to share information with other kitchen and floor service staff. 1.5 Planning and organizational skills to complete decoration and presentation of desserts within time constraints in a logical sequence 1.6 Initiative and enterprise skills to minimize wastage. 1.7 Problem-solving skills to ensure and control quality
2. Present plated dessert	2.1 Desserts are portioned .	2.1 Principles of portion control including techniques in achieving standard yields, weights and	2.1 Creative and artistic skills in preparation, decoration and display of desserts 2.2 Technical skills to

ELEMENT	PERFORMANCE CRITERIA <i>Italicized terms are elaborated in the Range of Variables</i>	REQUIRED KNOWLEDGE	REQUIRED SKILLS
	2.2 Desserts are plated and presented and/or decorated 2.3 Service temperature of desserts are controlled.	sizes 2.2 Principles of decorating and presenting plated desserts, including: 2.2.1 Decorative techniques and rules for plating and garnishing desserts. 2.2.2 Appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. 2.3 Principles and practices of safety and hygiene, particularly in relation to handling and service of desserts.	apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 2.3 Social skills to work cooperatively with other team members 2.4 Communication skills to share information with other kitchen and floor service staff. 2.5 Planning and organizational skills to complete decoration and presentation of desserts within time constraints in a logical sequence 2.6 Initiative and enterprise skills to minimize wastage. 2.7 Problem-solving skills to ensure and control quality
3. Present dessert display	3.1 Dessert display are portioned, decorated, and arranged 3.2 Dessert service equipment are prepared 3.3 Volume is controlled for quality during event and/or service period	3.1 Principles of dessert display including: 3.1.1 Principles of portion control including techniques in achieving standard yields, weights and sizes 3.1.2 Principles of dessert decorating and garnishing desserts for a display. 3.2 Types of service equipment appropriate for presenting/ displaying desserts 3.3 Principles and practices of quantity and quality control,	3.1 Creative and artistic skills in preparation, decoration and display of desserts 3.2 Technical skills to apply principles of basic baking and pastry, and food safety, sanitation and hygiene skills and practices. 3.3 Social skills to work cooperatively with other team members 3.4 Communication skills to share information with other kitchen and floor service staff. 3.5 Planning and organizational skills to complete decoration and presentation of

		particularly in relation to the safe holding and maintaining freshness in the service of desserts.	desserts within time constraints in a logical sequence 3.6 Initiative and enterprise skills to minimize wastage. 3.7 Problem-solving skills to ensure and control quality

RANGE OF VARIABLES

VARIABLE	RANGE
1. Dessert display	May be related to: 1.1 Trolley 1.2 Buffet 1.3 Refrigerated display 1.4 Access by staff and customers
2. Variety	May be related to: 2.1 Textures 2.2 Styles 2.3 Shapes 2.4 Colors 2.5 Temperatures 2.6 Puddings 2.7 Pies, tarts and flans 2.8 Fritters 2.9 Custards 2.10 Creams 2.11 Prepared fruits 2.12 Bavarois, mousse and hot/cold soufflés 2.13 Sorbet, ice creams and parfaits.
3. Sauces and garnishes	May include: 3.1 Fruits 3.2 Chocolate 3.3 Creams 3.4 Flowers and leaves 3.5 Herbs 3.6 Croquant
4. Portion	May relate to: 4.1 Ease of service by staff and/or customer 4.2 According to enterprise requirements.
5. Present	May include: 5.1 According to enterprise standards 5.2 According to customer's requests 5.3 According to menu description.
6. Decorate	May include: 6.1 Glazes 6.2 Icings 6.3 Chocolate 6.4 Icing sugar or chocolate powder 6.5 Fresh fruits 6.6 Fruit sauces 6.7 Nuts and dried fruits.
7. Service temperature	Should relate to: 7.1 Hot 7.2 Cold 7.3 Frozen 7.4 Room temperature

VARIABLE	RANGE
8. Service equipment	May include: 8.1 Baskets 8.2 Ceramics 8.3 Glass 8.4 Crystal 8.5 Mirrors 8.6 Trays 8.7 Croquant stands 8.8 Cake stands, including multi-tier and clear cover, platters and mirrors, and cake boards for individual and large gateaux 8.9 Chocolate stands 8.10 Sugar works stands 8.11 Display cabinets. 8.12 Gateaux serving tongs and trowels

EVIDENCE GUIDE

1. Critical aspects of Competency	Assessment requires evidence that the candidate: 1.1 Efficiently planned a display for a wide variety desserts from all categories 1.2 Presented of a variety of desserts using different sauces, garnishes and plating techniques. 1.3 Decorated and presented of a range of desserts consistent in quality, size, shape and appearance, under typical workplace conditions and time constraints. 1.4 Followed workplace safety practices and hygienic procedures in organizing and preparing for food and service. 1.5 Communicated effectively with others to ensure effective work operation
2. Resource Implications	The following resources should be provided: 2.1 Access to a fully-equipped operational commercial/institutional kitchen with modern tools and equipment. 2.2 Access to actual workplace standards, procedures, policies and guidelines 2.3 A variety of ingredients to perform modern methods of baking and presentation
3. Methods of Assessment	Competency in this unit may be assessed through: 3.1 Observation of practical candidate performance 3.2 Oral and written questions 3.3 Portfolio of evidence 3.4 Interview to gain insight on discipline practiced 3.5 Project and assignment work 3.6 Review portfolios of evidence (such as ServSafe™ Certification or its equivalent) and third party workplace reports of on-the-job performance by the candidate 3.7 Sampling of dishes prepared by the student
4. Context for Assessment	4.1 Competency may be assessed in actual workplace or at the designated TESDA accredited assessment center 4.2 Assessment must relate to the individual's work area or area of responsibility 4.3 Demonstration of skills in more than one occasion. 4.4 Preparation, decoration and display of desserts within typical workplace conditions and timeframes.

SECTION 3 TRAINING ARRANGEMENTS

These standards are set to provide technical and vocational education and training (TVET) providers with information and other important requirements to consider when designing training programs for **FOOD PRODUCTION (BREAD AND PATISSERIE) NC II**.

3.1 CURRICULUM DESIGN

TESDA shall provide the training on the development of competency-based curricula to enable training providers develop their own curricula with the components mentioned below.

Delivery of knowledge requirements for the basic, common and core units of competency specifically in the areas of mathematics, science/technology, communication/language and other academic subjects shall be contextualized. To this end, TVET providers shall provide Contextual Learning Matrix (CLM) to accompany their curricula.

Course Title: FOOD PRODUCTION (PATISSERIE)

NC Level: NC II

Nominal Training Duration: 37 Hrs. (Basic)
28 Hrs. (Common)
335 Hrs. (Core)
400 Hrs.

200 Hrs. - Supervised Industry Learning (SIL)

Course Description:

This course is designed to provide the learner with knowledge, practical skills and attitude, applicable in performing work activities involved in preparing, producing, storing and presenting a range of high quality bakery and pastry products in commercial food production environments. This includes classroom learning activities and practical work in actual work site or simulation area.

Upon completion of the course, the learners are expected to demonstrate the above-mentioned competencies to be employed. To obtain this, all units prescribed for this qualification must be achieve.

**BASIC COMPETENCIES
(37 HOURS)**

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
1. Participate in workplace communication	1.1. Obtain and convey workplace information	- Describe Organizational policies - Read: - Effective communication - Written communication - Communication procedures and systems - Identify: - Different modes of communication - Medium of communication - Flow of communication - Available technology relevant to the enterprise and the individual's work responsibilities - Prepare different Types of question - Gather different sources of information - Apply storage system in establishing workplace information - Demonstrate Telephone courtesy	- Group discussion - Lecture - Demonstration	- Oral evaluation - Written examination - Observation	2 hours
	1.2. Perform duties following workplace instructions	- Read: - Written notices and instructions - Workplace interactions and procedures - Read instructions on work related forms/documents - Perform workplace duties scenario following workplace instructions	- Group discussion - Lecture - Demonstration	- Oral evaluation - Written examination - Observation	2 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
	1.3. Complete relevant work related documents	- Describe Communication procedures and systems - Read: - Meeting protocols - Nature of workplace meetings - Workplace interactions - Barriers of communication - Read instructions on work related forms/documents - Practice: - Estimate, calculate and record routine workplace measures - Basic mathematical processes of addition, subtraction, division and multiplication - Demonstrate office activities in: - workplace meetings and discussions scenario - Perform workplace duties scenario following simple written notices - Follow simple spoken language - Identify the different Non-verbal communication - Demonstrate ability to relate to people of social range in the workplace - Gather and provide information in response to workplace requirements - Complete work related documents	- Group discussion - Lecture - Demonstration - Role play	- Oral evaluation - Written examination - Observation	2 hours
2. Work in a team environment	2.1 Describe team role and scope	- Discussion on team roles and scope - Participate in the discussion: - Definition of Team - Difference between team and group - Objectives and goals of team - Locate needed information from the different sources of information	- Lecture/ Discussion - Group Work - Individual Work - Role Play	- Role Play - Case Study - Written Test	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
	2.2 Identify one's role and responsibility within team	• Role play: ◦ individual role and responsibility • Role Play ◦ Understanding Individual differences • Discussion on gender sensitivity	• Role Play • Lecture/ Discussion	• Role Play • Written Test	1 hour
	2.3 Work as a team member	• Participate in group planning activities • Role play: Communication protocols • Participate in the discussion of standard work procedures and practices	• Group work • Role Play • Lecture/ Discussion	• Role Play • Written Test	1 hour
3. Solve/address general workplace problems	3.1 Identify routine problems	• Review of the current industry hardware and software products and services • Identify correctly the industry maintenance, service and helpdesk practices, processes and procedures • Make use of the industry standard diagnostic tools • Share best practices in determining basic malfunctions and resolutions to general problems in the workplace • Analyze routine/procedural problems	• Group discussion • Lecture • Demonstration • Role playing	• Case Formulation • Life Narrative Inquiry (Interview) • Standardized test	1 hour
	3.2 Look for solutions to routine problems	• Review of the current industry hardware and software products and services • Identify correctly the industry maintenance, service and helpdesk practices, processes and procedures • Make use of the industry standard diagnostic tools • Share best practices in determining basic malfunctions and resolutions to general problems in the workplace • Formulate possible solutions to problems and document procedures for reporting	• Group discussion • Lecture • Demonstration • Role playing	• Case Formulation • Life Narrative Inquiry (Interview) • Standardized test	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
	3.1 Recommend solutions to problems	• Discuss standard operating procedures and documentation processes	• Group discussion • Lecture • Demonstration • Role playing	• Case Formulation • Life Narrative Inquiry (Interview) • Standardized test	1 hour
4. Develop career and life decisions	4.1 Manage one's emotion	• Demonstrate self-management strategies that assist in regulating behavior and achieving personal and learning goals • Explain enablers and barriers in achieving personal and career goals • Identify techniques in handling negative emotions and unpleasant situation in the workplace such as frustration, anger, worry, anxiety, etc. • Manage properly one's emotions and recognize situations that cannot be changed and accept them and remain professional • Recall instances that demonstrate self-discipline, working independently and showing initiative to achieve personal and career goals • Share experiences that show confidence, and resilience in the face of setbacks and frustrations and other negative emotions and unpleasant situations in the workplace	• Discussion • Interactive Lecture • Brainstorming • Demonstration • Role-playing	• Demonstration or simulation with oral questioning • Case problems involving workplace diversity issues	1 hour
	4.2 Develop reflective practice	• Enumerate strategies to improve one's attitude in the workplace • Explain Gibbs' Reflective Cycle/Model (Description, Feelings, Evaluation, Analysis, Conclusion, and Action plan) • Use basic SWOT analysis as self-assessment strategy	• Small Group Discussion • Interactive Lecture • Brainstorming • Demonstration • 5 Role-playing	• Demonstration or simulation with oral questioning • Case problems involving workplace	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
		- Develop reflective practice through realization of limitations, likes/ dislikes; through showing of self-confidence - Demonstrate self-acceptance and being able to accept challenges		diversity issues	
	4.3 Boost self-confidence and develop self-regulation	- Describe the components of self-regulation based on Self-Regulation Theory (SRT) - Explain personality development concepts - Cite self-help concepts (e. g., 7 Habits by Stephen Covey, transactional analysis, psycho-spiritual concepts) - Perform effective communication skills – reading, writing, conversing skills - Show affective skills – flexibility, adaptability, etc. - Determine strengths and weaknesses	- Small Group Discussion - Interactive Lecture - Brainstorming - Demonstration - Role-playing	- Demonstration or simulation with oral questioning - Case problems involving workplace diversity issues	1 hour
5. Contribute to workplace innovation	5.1 Identify opportunities to do things better	- Identify different roles of individuals in contributing to doing things better in the workplace - Appreciate positive impacts and challenges in innovation - Show mastery of the different types of changes and levels of participation in the workplace - Discuss 7 habits of highly effective people	- Interactive Lecture - Appreciative Inquiry - Demonstration - Group work	- Psychological and behavioral Interviews - Performance Evaluation - Life Narrative Inquiry - Review of portfolios of evidence and third-party workplace reports of on-the-job performance. - Standardized assessment of	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
				character strengths and virtues applied	
	5.2 Discuss and develop ideas with others	- Identify different roles of individuals in contributing to doing things better in the workplace - Appreciate positive impacts and challenges in innovation - Show mastery of the different types of changes and levels of participation in the workplace - Discuss 7 habits of highly effective people - Communicate ideas through small group discussions and meetings	- Interactive Lecture - Appreciative Inquiry - Demonstration - Group work	- Psychological and behavioral Interviews - Performance Evaluation - Life Narrative Inquiry - Review of portfolios of evidence and third-party workplace reports of on-the-job performance. - Standardized assessment of character strengths and virtues applied	1 hour
	5.3 Integrate ideas for change in the workplace	- Identify different roles of individuals in contributing to doing things better in the workplace - Appreciate positive impacts and challenges in innovation - Show mastery of the different types of changes and levels of participation in the workplace - Discuss 7 habits of highly effective people - Communicate ideas through small group discussions and meetings	- Interactive Lecture - Appreciative Inquiry - Demonstration - Group work	- Psychological and behavioral Interviews - Performance Evaluation - Life Narrative Inquiry - Review of portfolios of evidence and third-party	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
		Demonstrate basic skills in data analysis		workplace reports of on-the-job performance. Standardized assessment of character strengths and virtues applied	
6. Present relevant information	6.1 Gather data/ information	- Lecture and discussion on: - Organisational protocols - Confidentiality and accuracy - Business mathematics and statistics - Legislation, policy and procedures relating to the conduct of evaluations - Reviewing data/ information	- Group discussion - Lecture - Demonstration - Role Play	- Oral evaluation - Written Test - Observation - Presentation	2 Hours
	6.2 Assess gathered data/ information	- Lecture and discussion on: - Data analysis techniques/ procedures - Organisational values, ethics and codes of conduct - Trends and anomalies - Computing business mathematics and statistics - Application of data analysis techniques	- Group discussion - Lecture - Demonstration - Role Play - Practical exercises	- Oral evaluation - Written Test - Observation - Presentation	3 Hours
	6.3 Record and present information	- Lecture and discussion on: - Reporting requirements to a range of audiences - Recommendations for possible improvements - Analysis and comparison of interim and final reports' outcomes - Reporting of data findings	- Group discussion - Lecture - Demonstration - Role Play - Practical exercises	- Oral evaluation - Written Test - Observation - Presentation	3 Hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
7. Practice Occupational Safety and Health Policies and Procedures	7.1 Identify OSH compliance requirements	• Discussion regarding: - Hierarchy of Controls - Hazard Prevention and Controls - Work Standards and Procedures - Personal Protective Equipment	• Lecture • Group Discussion	• Written Exam • Demonstration • Observation • Interviews / • Questioning	1 hour
	7.2 Prepare OSH requirements for compliance	• Identification of required safety materials, tools and equipment • Handling of safety control resources	• Lecture • Group Discussion	• Written Exam • Demonstration • Observation • Interviews / • Questioning	1 hour
	7.3 Perform tasks in accordance with relevant OSH policies and procedures	• Discussion of General OSH Standards and Principles • Performing industry related work activities in accordance with OSH Standards	• Lecture • Group Discussion	• Written Exam • Demonstration • Observation • Interviews / • Questioning	2 hours
8. Exercise efficient and effective sustainable practices in the workplace	8.1 Identify the efficiency and effectiveness of resource utilization	- Discussion on the process how Environmental Policies coherence is achieved • Discussion on Necessary Skills in response to changing environmental policies needs - Waste Skills - Energy Skills - Water Skills - Building Skills - Transport Skills - Material Skills	• Lecture • Group Discussion • Simulation • Demonstration	• Written Exam • Demonstration • Observation • Interviews / • Questioning	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodology	Assessment Approach	Nominal Duration
	8.2 Determine causes of inefficiency of resource utilization	• Discussion of Environmental Protection and Resource Efficiency Targets • Analysis on the Relevant Work Procedure	• Lecture • Group Discussion • Demonstration	• Written Exam • Demonstration • Observation • Interviews / • Questioning	1 hour
	8.3 Convey inefficient and ineffective environmental practices	• Identification of (re)training needs and usage of environment friendly methods and technologies • Identification of environmental corrective actions • Practicing Environment Awareness	• Lecture • Group Discussion • Role Play • Demonstration	• Written Exam • Demonstration • Observation • Interviews / • Questioning	1 hour
9. Practice entrepreneurial skills in the workplace	9.1 Apply entrepreneurial workplace best practices	• Case studies on Best entrepreneurial practices • Discussion on Quality procedures and practices • Case studies on Cost consciousness in resource utilization	• Case Study • Lecture/ Discussion	• Case Study • Written Test • Interview	1 hour
	9.1 Communicate entrepreneurial workplace best practices	• Discussion on communicating entrepreneurial workplace best practices	• Lecture/ • Discussion	• Written Test • Interview	1 hour
	9.2 Implement cost-effective operations	• Case studies on Preservation, optimization and judicious use of workplace resources	• Case Study • Lecture/ • Discussion	• Case Study • Written Test • Interview	2 hours

**COMMON COMPETENCIES
(28 Hours)**

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
1. Develop and update industry knowledge	1.1 Identify and access key sources of information on the industry	• Industry information sources - Media - Reference book - Libraries - Union - Industry association - Internet - Personal observation • Time management • Ready skills needed to access industry information • Basic competency skills needed to access the internet	• Lecture • Group Discussion • Demonstration	• Interview/ Questioning	5 hours
	1.2 Access, apply and share industry information	• Overview of quality assurance in the industry • Role of individual staff members • Industry information sources • Time management • Ready skills needed to access industry information • Basic competency skills needed to access the internet	• Individual/ Group Assignment • Demonstration	• Individual/ Group Project or Report	
	1.3 Update continuously relevant industry knowledge	• Information sources - Media - Libraries/reference book - Union/industry association - Internet • Legislation that affects the industry • Time management • Ready skills needed to access industry	• Individual/ Group Assignment • Demonstration	• Individual/ Group Project or Report	

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		information Basic competency skills needed to access the internet			
2. Observe workplace hygiene procedures	2.1 Practice personal grooming and hygiene	- Typical hygiene and control procedures in the hospitality and tourism industries - Overview of legislation and regulation in relation to food handling, personal and general hygiene - Ability to follow correct procedures and instructions - Application to hygiene principles	- Lecture - Demonstration - Role-play	- Demonstration - Written Examination - Interview/ Questioning	5 hours
	2.2 Practice safe and hygienic handling, storage and disposal of food, beverage and materials	- Knowledge on factors which contribute to workplace hygiene problems - General hazards in handling of food, linen and laundry and garbage, including major causes of contamination and cross-infection - Sources of and reasons for food poisoning - Ability to follow correct procedures and instructions - Ability to handle operating tools/ equipment - Application to hygiene principles	- Lecture - Demonstration - Role-play	- Demonstration - Written Examination - Interview/ Questioning	
3. Perform computer operations	3.1 Identify and explain the functions, general features and capabilities of both hardware and software	- Main types of computers and basic features of different operating systems - Main parts of a computer - Storage devices and basic categories of memory - Reading skills required to interpret work instruction - Communication skills	- Lecture - Group Discussion - Tutorial or self-pace	- Interview/ Questioning - Demonstration - Observation	6 hours
	3.2 Prepare and use appropriate hardware and software according to task requirement	- Basic ergonomics of keyboard and computer use - Relevant types of software - Reading skills required to interpret work	- Lecture - Tutorial or self-pace	- Interview/ Questioning - Demonstration - Observation	

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		instruction • Communication skills • Calculating computer capacity			
	3.3 Use appropriate devices and procedures to transfer files/data	• Procedures/techniques in accessing Information • Desktop Icons • Keyboard techniques based on OHS requirements • Reading skills required to interpret work instruction • Communication skills	• Lecture • Group Discussion • Tutorial or self-space	• Interviews/Questioning • Demonstration • Observation	
	3.4 Produce accurate and complete data according to the requirements	• Software commands • Operation and use of peripheral devices • Procedures in transferring files/data • Reading skills required to interpret work instruction • Communication skills	• Lecture • Group Discussion • Tutorial or self-space	• Interviews/Questioning • Demonstration • Observation	
	3.5 Maintain computer system	• Software commands • Operation and use of peripheral devices • Procedures in transferring files/data • General security • Viruses • OH & S principles and responsibilities • Cleaning, Minor Maintenance and Replacements of Consumables • Creating More Space in the Hard Disk • Reviewing Programs • Deleting Unwanted Files • Checking Hard Disk for Errors • Viruses and Up to Date Anti-Virus Programs	• Lecture • Group Discussion • Tutorial or self-space	• Interviews/Questioning • Demonstration • Observation	
4. Perform workplace and safety practices	4.1 Practice workplace safety, security and hygiene systems,	• Communication - Interactive communication with others - Interpersonal skills	• Lecture • Demonstration • Role-play	• Demonstration • Interviews/Questioning	6 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
	processes and operations	- Good working attitude • Systems, Processes and Operations - Workplace health, safety and security procedures - Emergency procedures - Personal presentation • Safety Practices - Proper disposal of garbage - Practice safety measures - 5S Implementation • Ability to work quietly; with cooperation; patience, carefulness, cleanliness and aesthetic values • Ability to focus on task at hand	• Simulation	• Written Examination	
	4.2 Respond appropriately to faults, problems and emergency situations in line with enterprise guidelines	• Communication - Interactive communication with others - Interpersonal skills - Good working attitude • Systems, Processes and Operations - Workplace health, safety and security procedures - Emergency procedures - Personal presentation • Safety Practices - Proper disposal of garbage - Practice safety measures • 5S Implementation • Ability to make decision • Time management • Ability to offer alternative steps • Care in handling and operating equipment	• Lecture • Demonstration • Role-play • Simulation	• Demonstration • Interviews/ Questioning • Written Examination	
	4.3 Maintain safe personal presentation standards	• Proper use of personal protective equipment • Waste management	• Lecture • Demonstration • Role-play	• Demonstration • Interviews/ Questioning	

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		• Pollution control • Effect of pollution • Types of pollutants • Ability to make decision • Time management • Ability to offer alternative steps • Care in handling and operating equipment	• Simulation	• Written Examination	
5. Provide effective customer service	5.1 Apply effective verbal and non-verbal communication skills to respond to customer needs	• Communication - Interactive communication with others - Interpersonal skills/ social graces with sincerity • Preparing job documentation - Following instructions - Filling-out forms	• Lecture • Demonstration • Role-play • Simulation	• Demonstration • Interviews/ Questioning • Observation	6 hours
	5.2 Provide prompt and quality service to customer	• Attitude - Attentive, patient and cordial - Eye-to-eye contact - Maintain teamwork and cooperation • Communication barriers • Ability to work calmly and unobtrusively effectively	• Lecture • Demonstration • Role-play • Simulation	• Demonstration • Interviews/ Questioning • Observation	
	5.3 Handle queries promptly and correctly in line with enterprise procedures	• Theory - Interview techniques - Communication process • Telephone and electronic mail ethics • Uses of telephone, fax machine, internet and e-mail • Handling queries	• Lecture • Demonstration • Role-play • Simulation	• Demonstration • Interviews/ Questioning • Observation	
	5.4 Handle customer complaints, evaluation and recommendations	• Guidelines in handling complaints • Procedures in responding and resolving complaints • Responding to and resolving complaints	• Lecture • Demonstration • Role-play • Simulation	• Demonstration • Interviews/ Questioning • Observation	

**CORE COMPETENCIES
(335 Hours)**

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
1. Clean and maintain kitchen premises, tools and equipment	1.1. Clean, sanitize and store equipment	Discuss: ▪ Occupational health and safety (OHS) responsibilities ▪ Different equipment, utensils and working surfaces that requires periodic cleaning. ▪ Use of Materials Safety Data Sheet (MSDS) ▪ Proper cleaning procedures and standards for different tools and equipment ▪ Use of Work Instruction or Job Safety Analysis Sheets ▪ Different types of cleaning and sanitizing methods, as well as chemical used and their proper use. ▪ Proper storage of tools, utensils and equipment. ▪ Different cleaning equipment supplies and their use. ▪ Identifying cleaning and sanitizing needs for different tools and equipment ▪ Proper assembling and disassembling of different cleaning equipment. ▪ Basic first aid procedures for chemical or cleaning related incidents Demonstrate how: ▪ Appropriate cleaning tools, supplies and chemicals, including green cleaning chemicals, and clean potable water are selected and used for cleaning and/or sanitizing kitchen equipment utensils, and working surfaces ▪ Cleaning procedures are implemented in accordance with enterprise requirements ▪ Equipment and/or utensils are cleaned and/or	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		sanitized safely using clean/potable water and according to manufacturer's instructions ▪ Clean and sanitized equipment and utensils are stored or stacked safely in the designated place ▪ Cleaning equipment and supplies are used safely in accordance with manufacturer's instructions ▪ Cleaning and sanitizing needs that arises during routines are identified and addressed ▪ Cleaning equipment are assembled and disassembled safely ▪ Emergency first aid procedures are followed in the event of a cleaning-related incident or accident			
	1.2. Clean and sanitize premises	Discuss: ▪ Proper use of cleaning schedules. ▪ Proper labelling, correct and safe use, and secure storage of chemicals and equipment for cleaning and sanitizing ▪ Common work areas in the kitchen that require cleaning and their proper maintenance. Demonstrate how: ▪ Cleaning schedules are followed based on enterprise procedures ▪ Chemicals and equipment for cleaning and/or sanitizing are properly labelled, used correctly and safely, and stored securely after use. ▪ Work areas are cleaned and/or sanitized without causing damage to health or property	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	10 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
	1.3. Dispose of waste	Discuss: - Types of internal wastes - Proper waste disposal for different types of wastes and proper waste segregation - Responsible disposal procedures of cleaning and sanitizing chemicals. - Proper cleaning procedures for waste disposal areas Demonstrate how: - Internal wastes are sorted and disposed according to sanitary regulations, enterprise practices and standard procedures - Cleaning chemicals are disposed safely according to standard procedures - Waste disposal areas are maintained and cleaned in a sanitary condition	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	5 hours
2. Organize and prepare food and service for bakery and pastry production	2.1 Organize and prepare equipment and utensils for use	Discuss: - Identification of tools and equipment, including functions, description and specifications - Tools and equipment selection, including cleaning, choice of correct type and size and assembly - Correct use of equipment, proper use operation, and safety and maintenance Demonstrate how: - Tools and equipment used in mise-en-place and production of bakery products and pastries are identified. - Tools and equipment that are environmentally friendly are selected and assembled for bakery and pastry production	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		Tools and equipment to perform mise-en-place tasks are used.	Training/ Simulation in Laboratory Supervised Industry Training (SIT)	evaluation)	
	2.2 Organize and prepare ingredients for bakery and pastry production.	Discuss: - Commodity knowledge, including quality indications of ingredients for bakery products, properties of ingredients used and their interaction and changes during processing to produce required characteristics, ingredient substitution, different market forms and seasonality and availability of ingredients - Selection and Assembly of ingredients, including: menu referencing, standard recipes, Quality and Safety Assurance and documentation - Preparation techniques for different ingredients, including accurate measuring techniques for different ingredients, mise-en-place, and specific culinary and technical terminologies related to bakery and pastry preparation - Purchasing, receiving and storage procedures for different ingredients. - Waste minimization techniques, including suitable alternative uses, where appropriate, such as for trimmings. - Safety and Quality assurance including hygienic handling of food, prevention of cross-contamination, proper storage of food, and sanitary thawing condition for frozen food and ingredients Demonstrate how: - Ingredients and sustainable ingredients, that may	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	20 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		be used for mise-en-place tasks of bakery and pastry products, and their availability are identified. ▪ Ingredients for required mise-en-place tasks are selected and assembled according to establishment type/style, recipe and production requirements ▪ Ingredients are prepared in accordance with identified need. ▪ Appropriate purchasing, receiving, and storing procedures are established and correctly observed. ▪ Trimmings and wastage are minimized through appropriate preparation and handling. ▪ Conditions of ingredients are ensured to maintain the freshness and quality.			
3. Prepare and present bakery products	3.1 Prepare a variety of bakery products and fillings	Discuss: ▪ Ingredient selection for production ▪ Varieties and characteristics of bakery products, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. ▪ Principles and techniques in the production of bakery products, including production planning, principles of Baker's percentage and Recipe quantification, Calculation of Required Dough Temperature, Dough Yield Calculation, ratio of ingredients required to produce a balanced formula, processes of fermentation and dough development, properties and requirements of yeast and control of yeast action and stages of Yeast Dough Production ▪ Common tools and equipment for bakery products. ▪ Principles and practices of hygiene, particularly in	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	25 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		relation to handling dough, ingredients and products ▪ Bakery production planning and scheduling, including following job sheets and work plans. ▪ Principles of portion control including techniques in achieving standard yields, weights and sizes ▪ Maintaining enterprise stands, including standard size and weight per serving standard ingredient mix and make-up and influence of correct portion control, yields, weights and sizes on the profitability of an establishment ▪ Correct oven condition when baking bakery products ▪ Varieties and characteristics of fillings, coatings/icing and decorations for bakery products Demonstrate how: ▪ Required ingredients are selected according to recipe and production requirements ▪ A variety of bakery products are produced and shaped to desired product characteristics ▪ A variety of bakery products are produced using correct techniques according to standard recipes and enterprise standards ▪ Appropriate equipment are used to prepare and bake bakery products ▪ Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. ▪ Bakery products are prepared in a logical manner and within industry realistic time frame ▪ Portion control is applied to minimize wastage. ▪ Bakery products are baked to enterprise requirements and standards ▪ Correct oven conditions are selected for baking			

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		bakery products A variety of fillings, coatings/icing and decorations are prepared for bakery products			
	3.2 Decorate and present/display bakery products	Discuss: - Principles of decorating bakery products, including complimentary coating, fillings and icings, decorative techniques and rules for decorating and garnishing and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. - Types of service equipment appropriate for presenting/ displaying bakery products. Demonstrate how: - Bakery products are decorated using coating, icing, and decorations to according to standard recipes and/or enterprise standards and/or customer requests - Bakery products are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	10 hours
	3.3 Store bakery products	Discuss: - Principles of storage of bakery products, including labelling requirements for storing food, optimal storage conditions for different bakery products and optimizing shelf life, shelf life of different bakery products, and techniques in maintaining maximum eating quality, appearance and freshness. - Packaging and storage options for bakery products, including suitable containers for storage - Appropriate packaging options and eco-friendly packaging	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		- Food production planning and proper calculation of food for future use Demonstrate how: - Bakery products are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness - Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. - Economic viability of preparation and holding quantities are ensured.	- Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	supervised evaluation (practicum evaluation)	
4. Prepare and present basic pastry products	4.1 Prepare and produce pastries and fillings	Discuss: - Ingredient selection for production - Varieties and characteristics of pastry products, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. - Principles and techniques in the production of pastry products, including production planning, principles of Baker's percentage and Recipe quantification, and ratio of ingredients required to produce a balanced formula. - Common tools and equipment for pastry products. - Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products - Pastry production planning and scheduling, including following job sheets and work plans. - Principles of portion control including techniques in achieving standard yields, weights and sizes - Maintaining enterprise stands, including standard	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	40 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		size and weight per serving standard ingredient mix and make-up and influence of correct portion control, yields, weights and sizes on the profitability of an establishment ▪ Correct oven condition when baking pastry products ▪ Varieties and characteristics of fillings, coatings/icing and decorations for pastry products Demonstrate how: ▪ Required ingredients are selected according to recipe and production requirements ▪ A variety of pastries are prepared to desired product characteristics ▪ A variety of pastries are produced using correct techniques according to standard recipes and enterprise standards ▪ Appropriate equipment are used to prepare and bake pastries. ▪ Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. ▪ Pastry products are prepared in a logical manner and within industry realistic time frame ▪ Portion control to minimize wastage is applied. ▪ Pastries are baked to enterprise requirements and standards ▪ Correct oven conditions for baking pastries are selected. ▪ A variety of fillings coating, icing, glazes and decorations for pastries are prepared.			
	4.2 Decorate and present pastries	Discuss: ▪ Principles of decorating pastry products, including complimentary coating, fillings and icings, decorative techniques and rules for decorating and	• Lecture • Discussion • Demonstration • Power Point	• Written tests • Observation of practical skills exercises	15 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		garnishing and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. - Types of service equipment appropriate for presenting/ displaying pastry products Demonstrate how: - Pastries are decorated using coating, icing and decorations according to standard recipes and/or enterprise standards and/or customer requests. - Pastries are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	
	4.3 Store pastries	Discuss: - Principles of storage of pastry products, including labelling requirements for storing food, optimal storage conditions for different pastry products and optimizing shelf life, shelf life of different pastry products and techniques in maintaining maximum eating quality, appearance and freshness. - Packaging and storage options for pastry products, including suitable containers for storage - Appropriate packaging options and eco-friendly packaging - Food production planning and proper calculation of food for future use Demonstrate how: - Pastries are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		▪ Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. ▪ Economic viability of preparation and holding quantities are ensured.	Industry Training (SIT)		
5. Prepare and present basic hot, cold and frozen desserts	5.1 Prepare and produce a range of hot, cold and frozen desserts	Discuss: ▪ Ingredient selection for production ▪ Varieties and characteristics of hot, cold, and frozen desserts, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. ▪ Principles and techniques in the production of hot, cold, and frozen desserts, including production planning, principles of Baker's percentage and Recipe quantification, and ratio of ingredients required to produce a balanced formula. ▪ Common tools and equipment for hot, cold, and frozen desserts. ▪ Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products ▪ Dessert production planning and scheduling, including following job sheets and work plans. ▪ Principles of portion control including techniques in achieving standard yields, weights and sizes ▪ Maintaining enterprise stands, including standard size and weight per serving standard ingredient mix and make-up and influence of correct portion control, yields, weights and sizes on the profitability of an establishment ▪ Correct oven condition when baking and /or making hot, cold, and frozen desserts	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	25 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		- Varieties and characteristics of fillings, coatings/icing and decorations for hot, cold, and frozen desserts Demonstrate how: - Required ingredients are selected according to recipe and production requirements - A variety of hot, cold and frozen desserts are prepared to desired product characteristics - A variety of hot, cold and frozen desserts are prepared using correct techniques according to standard recipes and enterprise standards - Appropriate equipment are used to prepare hot, cold and frozen desserts - Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. - Hot, cold and frozen desserts are prepared in a logical manner and within industry realistic time frame - Portion control is applied to minimize wastage. - Hot, cold and frozen desserts are produced to enterprise requirements and standards - Correct cooking conditions for hot, cold and frozen desserts are selected.			
	5.2 Prepare and store sweet sauces	Discuss: - Varieties and characteristics of sweet sauces, including: - Sweet sauces and their role on in composing a plated dessert. - Classical and modern sweet sauces according to industry and enterprise standards - Principles and techniques in producing a variety of sweet sauces. - Quality characteristics of sweet sauces.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-	10 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		▪ Different thickening agents suitable for sweet sauces. ▪ Principles of storing sweet sauces, including: ▪ Optimal storage conditions for different sweet sauces ▪ Shelf life of different sweet sauces ▪ Techniques in maintaining maximum eating quality, appearance and freshness. Demonstrate how: ▪ A range of hot and cold sweet sauces are prepared and produced to enterprise requirements and standards ▪ Thickening agents suitable for sweet sauces are used where appropriate. ▪ Sweet sauces for use in a service period or for use at another occasion are stored.	• Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	supervised evaluation (practicum evaluation)	
	5.3 Prepare accompaniments, garnishes and decorations	Discuss: ▪ Common fillings and coatings/icings, accompaniments, garnishes and decorations for hot, cold, and frozen desserts ▪ Principles of preparing accompaniments, garnishes and decorations for desserts ▪ Principles of complementing flavors and textures for desserts Demonstrate how: ▪ Filling and coating/icings, accompaniments, garnishes and decorations for desserts are planned ▪ Accompaniments, garnishes and decorations for desserts are prepared ▪ Flavors and textures of garnishes are ensured to complement desserts.	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
			Industry Training (SIT)		
	5.4 Decorate and present hot, cold and frozen desserts	Discuss: - Principles of decorating hot, cold, and frozen desserts, including decorative techniques and rules for decorating and garnishing and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. - Types of service equipment appropriate for presenting/ displaying hot, cold, and frozen desserts Demonstrate how: - Hot, cold and frozen desserts are decorated using accompaniments, garnishes, decorations and sweet sauces according to standard recipes and/or enterprise standards and/or customer requests - Hot, cold and frozen desserts are presented or displayed to enterprise standards using appropriate service equipment	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	5 hours
	5.5 Store hot, cold and frozen desserts	Discuss: - Principles of storage of pastry products, including labelling requirements for storing food, optimal storage conditions for different pastry products and optimizing shelf life, shelf life of different pastry products and techniques in maintaining maximum eating quality, appearance and freshness. - Packaging and storage options for pastry products, including suitable containers for storage - Appropriate packaging options and eco-friendly packaging - Food production planning and proper calculation of	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		food for future use Demonstrate how: ▪ Desserts are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance freshness and customer appeal ▪ Appropriate packaging options and eco-friendly packaging are selected and used for desserts to ensure taste, appearance and textures are maintained. ▪ Economic viability of preparation and holding quantities are ensured.	exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	evaluation (practicum evaluation)	
6. Prepare and present gateaux, tortes and cakes	6.1 Prepare and bake sponges and cakes for gateaux, tortes and cakes	Discuss: ▪ Ingredient selection for production ▪ Varieties and characteristics of sponges and cakes, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. ▪ Principles and techniques in the production of sponges and cakes, including production planning, principles of Baker's percentage and Recipe quantification, and ratio of ingredients required to produce a balanced formula. ▪ Common tools and equipment for sponges and cakes. ▪ Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products ▪ Cake production planning and scheduling, including following job sheets and work plans. ▪ Principles of portion control including techniques in achieving standard yields, weights and sizes	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	30 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		▪ Maintaining enterprise stands, including standard size and weight per serving standard ingredient mix and make-up and influence of correct portion control, yields, weights and sizes on the profitability of an establishment ▪ Correct oven condition when baking and /or making sponges and cakes ▪ Varieties and characteristics of fillings, coatings/icing and decorations for sponges and cakes Demonstrate how: ▪ Required ingredients are selected according to recipe and production requirements ▪ A variety of sponges and cakes for gateaux, tortes and cakes are prepared to desired product characteristics ▪ A variety of sponges and cakes for gateaux, tortes and cakes are produced using correct techniques according to standard recipes and enterprise standards ▪ Appropriate equipment are used to prepare and bake for gateaux, tortes and cakes ▪ Workplace and food safety, sanitation and hygiene in accordance with HACCP standards are applied. ▪ Sponges and cakes are prepared in a logical manner and within industry realistic time frame ▪ Portion control is applied to minimize wastage. ▪ Sponges and ▪ cakes for gateaux, tortes and cakes are baked to enterprise requirements and standards ▪ Correct oven conditions are selected for baking sponges and cakes for gateaux, tortes and cakes ▪ Sponges and cakes are cooled in conditions that			

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		retain optimum freshness and eating characteristics and appearance.			
	6.2 Prepare fillings, coatings, icing and decorations	Discuss: ▪ Ingredient selection for production of fillings, coatings/icing and decorations for gateaux, tortes and cakes ▪ Varieties and characteristics of fillings, coatings/icing and decorations for gateaux, tortes and cakes, including fillings, coatings/icing and decorations and their role on in composing a gateaux, tortes and cakes; classical and modern fillings, coatings/icing and decorations according to industry and enterprise standards; principles and techniques in producing a variety of fillings, coatings/icing and decorations; and Quality characteristics of fillings, coatings/icing and decorations. Demonstrate how: ▪ Select required ingredients according to recipe and production requirements ▪ A variety of fillings, coatings/icing and decorations are prepared for gateaux, tortes and cakes	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	10 hours
	6.3 Assemble gateaux, tortes and cakes	Discuss: ▪ Preparation of ingredients for assembling gateaux, tortes and cakes. ▪ Principles of assembling gateaux, tortes and cakes. ▪ Preparing accompaniments, garnishes and decorations for gateaux, tortes and cakes, including complementing flavors and textures ▪ Common tools and equipment for assembling gateaux, tortes and cakes. ▪ Standard techniques and guidelines when assembling gateaux, tortes and cakes including	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised	10 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		standard size and weight per serving and standard layering and pairing of sponges, fillings and icings. Demonstrate how: ▪ Required ingredients and/or preparations are assembled ▪ Gateaux, tortes and cakes are assembled according to recipe instructions. ▪ Suitable icings and decorations are used according to standard recipes, enterprise standards and customer preferences. ▪ Appropriate equipment are used to assemble cakes for gateaux, tortes and cakes ▪ Correct techniques are used to assemble cakes for gateaux, tortes and cakes	exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	evaluation (practicum evaluation)	
	6.4 Decorate and present/display gateaux, tortes and cakes	Discuss: ▪ Principles of decorating gateaux, tortes and cakes, including decorative techniques and rules for decorating and garnishing and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. ▪ Types of service equipment appropriate for presenting/ displaying gateaux, tortes and cakes ▪ Different types of cake arrangement and display for cake service. ▪ Principles and practices of hygiene, particularly in relation to display and service of gateaux, tortes and cakes. ▪ Principles of portion control including influence of yields, weights and sizes on the profitability of an establishment Demonstrate how: ▪ Cakes for gateaux, tortes and cakes are decorated	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		using coating, icing and decorations to according to standard recipes and/or enterprise standards and/or customer requests. ▪ Gateaux, tortes and cakes are presented/ displayed to enterprise standards using appropriate service equipment and decorations. ▪ Arrange cakes for display in an appealing manner to meet customer expectations and enterprise standards. ▪ Display and service temperature of products are verified appropriate for maintaining freshness, appearance and eating qualities. ▪ Portion-controlled cakes are marked, scored or cut precisely, according to enterprise specifications and customer preferences, minimizing wastage.			
	6.5 Store gateaux, tortes and cakes	Discuss: ▪ Techniques in maintaining maximum eating quality, appearance and freshness including methods appropriate to specific products for short and medium-term preservation. ▪ Principles of storage of gateaux, tortes and cakes, including labelling requirements for storing food, optimal storage conditions for different gateaux, tortes and cakes and optimizing shelf life, shelf life of different gateaux, tortes and cakes and techniques in maintaining maximum eating quality, appearance and freshness. ▪ Packaging and storage options for pastry products, including suitable containers for storage ▪ Appropriate packaging options and eco-friendly packaging ▪ Food production planning and proper calculation of food for future use	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		Demonstrate how: - Storage methods that minimize spoilage and wastage, are identified using methods appropriate to specific products for short and medium-term preservation. - Gateaux, tortes and cakes are properly labeled and stored at correct temperature and storage conditions are ensured - Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. - Economic viability of preparation and holding quantities are ensured.	Training (SIT)		
7. Prepare and present petits fours	7.1 Select, prepare and use ingredients and equipment for petit fours	Discuss: - Principles of petite fours production including ingredient selection for production, varieties and characteristics of petite fours, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. - Principles and techniques in the production of petite fours, including production planning, principles of Baker's percentage and Recipe quantification, and ratio of ingredients required to produce a balanced formula. - Common tools and equipment for petite fours - Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products Demonstrate how: - Ingredients for petit fours are sorted and assembled according to recipe and production requirements	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		▪ Equipment of the correct types and size are selected for the type of production. ▪ Equipment are used safely and hygienically according to manufacturer's instruction.			
	7.2 Prepare and display petit four glaze	Discuss: ▪ Principles of preparing petit fours bases, including baking and pastry techniques in preparing petit fours bases, and different types of petit fours bases ▪ Principles of assembling petit fours, including uniformity of shapes and sizes of petit fours bases, standard size and weight per serving, and standard layering and pairing of petit fours bases, fillings and icings. ▪ Varieties and characteristics of fillings for petit fours including standards of quality. ▪ Varieties and characteristics of glazes for petit fours including flavoring and adjusting texture of glazes, and quality characteristics ▪ Principles of decorating and presenting petit four glaze, including decorative techniques and rules for decorating and garnishing, and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics ▪ Different types of arrangement and display for presenting petit four glaze Demonstrate how: ▪ Petit four bases are prepared. ▪ Bases for petit four glaze are cut and assembled. ▪ Fillings are prepared and flavored to required consistency ▪ Petit four glaze for glazing is prepared. ▪ Petit four glaze are decorated to enhance customer eye appeal	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		Petit four glaze are displayed.			
	7.3 Prepare fresh petits fours	Discuss: - Principles of preparing fresh petit fours. - Preparing fresh petit fours bases, including baking and pastry techniques in preparing fresh petit fours and different types of fresh petit fours - Varieties and characteristics of fillings for petit fours including standards of quality. - Varieties and characteristics of garnishes and glazes for petit fours including flavoring and adjusting texture of glazes and quality characteristics - Principles of decorating and presenting petit four glaze, including decorative techniques and rules for decorating and garnishing, appropriate quality indicators such as shape, size, design, color combination and complementary characteristics, and different types of arrangement and display for presenting fresh petit four Demonstrate how: - Fresh petits fours are prepared. - Small choux and sweet paste are prepared and blind baked in small moulds or tins in a variety of shapes. - Fillings with the required flavors and consistency are prepared and used. - Appropriate garnishes, glazes and finishes are used to enhance flavor and eye appeal. Fresh petit fours are displayed.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	5 hours
	7.4 Prepare and display marzipan based petit fours	Discuss: - Principles of preparing marzipan, including flavoring techniques and coloring techniques - Shaping techniques for marzipan	- Lecture - Discussion - Demonstration - Power Point	- Written tests - Observation of practical skills exercises	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		▪ Glazing techniques for marzipan ▪ Principles of decorating and presenting marzipan petit four, including decorative techniques and rules for decorating and garnishing, and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics ▪ Different types of arrangement and display for presenting marzipan petit four Demonstrate how: ▪ Marzipan is prepared, flavored and colored. ▪ Marzipan is shaped. ▪ Marzipan is prepared for glazing with cocoa butter or food lacquer using applied heat to preserve desired eating characteristics ▪ Marzipan petit fours are decorated to enhance customer eye appeal ▪ Marzipan petit fours are displayed.	• Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	
	7.5 Prepare and display petit four sec	Discuss: ▪ Principles of preparing petit four sec, including baking and pastry techniques in preparing petit four sec and different types and varieties of petit four sec ▪ Varieties and characteristics of fillings for petit four sec including standards of quality. ▪ Varieties and characteristics of glazes for petit four sec including flavoring and adjusting texture of glazes, and quality characteristics ▪ Principles of decorating and presenting petit four sec, including decorative techniques and rules for decorating and garnishing, and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics ▪ Different types of arrangement and display for	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		presenting petit four sec Demonstrate how: ▪ Selection of petit four sec are prepared and baked ▪ Fillings are prepared and flavored to required consistency ▪ Petit fours sec are prepared for glazing ▪ Petit fours sec are decorated to enhance customer eye appeal ▪ Petit fours sec are displayed.	• Supervised Industry Training (SIT)		
	7.6 Prepare and display caramelized petit fours	Discuss: ▪ Principles of fruit and nut selection for caramelized petit fours. ▪ Principles of preparing products and coating for caramelized petit fours. ▪ Principles of coating caramelized petit fours, including reaching proper caramelization and adjusting consistency, and uniformity of coating of caramelized petit fours ▪ Different types of arrangement and display for presenting caramelized petit fours Demonstrate how: ▪ Fruits/nuts are selected ▪ Products and coating for fruits are prepared. ▪ Caramelized petit fours are coated ▪ Caramelized petit fours are displayed.	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours
	7.7 Store petit fours	Discuss: ▪ Principles of storage of petite fours, including labelling requirements for storing food, optimal storage conditions for different gateaux, tortes and cakes and optimizing shelf life, shelf life of different	• Lecture • Discussion • Demonstration • Power Point	• Written tests • Observation of practical skills exercises • Oral	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		gateaux, tortes and cakes and techniques in maintaining maximum eating quality, appearance and freshness. ▪ Packaging and storage options for petite fours, including suitable containers for storage ▪ Appropriate packaging options and eco-friendly packaging ▪ Food production planning and proper calculation of food for future use Demonstrate how: ▪ Petit fours are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness ▪ Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. ▪ Economic viability of preparation and holding quantities are ensured.	Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	
8. Prepare chocolate and produce chocolate products	8.1 Select, prepare and use ingredients and equipment for chocolate and chocolate products	Discuss: ▪ Principles of chocolate production including ingredient selection for production such as chocolate types and market forms, cocoa and chocolate production and storage of cocoa and chocolate products, varieties and characteristics of chocolate confectionery, including historical and cultural aspects and their role on the menu and the industry; classical and modern, size, shape, structure and assembly, and quality characteristics. ▪ Principles and techniques in the production of chocolate confectionery, including production planning, principles of Baker's percentage and Recipe quantification, and ratio of ingredients	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	1 hour

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		required to produce a balanced formula. - Common tools and equipment for chocolate confectionery production. - Principles and practices of hygiene, particularly in relation to handling dough, ingredients and products Demonstrate how: - Ingredients for chocolate confectionery are sorted and assembled according to recipe and production requirements. - Equipment of the correct types and size for the type of production are selected - Equipment are used safely and hygienically according to manufacturer's instruction.	Simulation in Laboratory Supervised Industry Training (SIT)		
	8.2 Temper couverture	- Melting and tempering techniques, including polymorphism of cocoa butter, and different techniques and their advantages and disadvantages - Quality characteristics of properly tempered chocolate. - Controlling working consistency of tempered chocolate. - Methods in maintaining tempered chocolate. Demonstrate how: - Couverture is melted and tempered using correct techniques and temperatures - Couverture is manipulated to the correct viscosity and desired flow properties to achieve desired product characteristics. - The temperature of the couverture is controlled to retain workable consistency. - Tempered couverture is maintained for use	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	2 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
	8.3 Prepare chocolate based fillings/centers and coatings	Discuss: - Preparing chocolate-based fillings/ centers and coatings, including baking and pastry techniques in preparing chocolate filling/ center and coatings, and different types of chocolate filling/ center and coatings - Standards of quality for chocolate filling/ center and coatings including flavoring and adjusting texture of chocolate filling/ center and coatings, and quality characteristics of chocolate filling/ center and coatings - Maintaining enterprise stands, including uniformity of shapes and sizes of chocolate centers, standard size and weight per serving, and standard ingredient mix and make-up Demonstrate how: - Correct techniques are used to produce chocolate based fillings/centers and coatings to achieve full flavored, interesting and natural characteristics. - Standard recipes are followed and food quality adjustments are made within scope of responsibility. - Chocolate based fillings/centers, coatings and decorations are produced to enterprise requirements and standards.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	2 hours
	8.4 Prepare chocolate moulds	Discuss: - Proper procedures for cleaning chocolate moulds. - Proper procedures for polishing chocolate moulds. - Proper procedures for tempering chocolate moulds. Demonstrate how: - Moulds are ensured clean - Moulds are polished ready for use - Moulds are kept at correct temperature for	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		production	handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Interview • Industry-supervised evaluation (practicum evaluation)	
	8.5 Make moulded chocolates	Discuss: ▪ Principles of complementing flavors and textures. ▪ Proper procedures for coating chocolate moulds. ▪ Proper procedures for filling chocolate moulds. ▪ Proper procedures for sealing/plugging of chocolate moulds. ▪ Proper procedures for setting, releasing and handling moulded chocolates. Demonstrate how: ▪ Combinations are selected and prepared to be produced ▪ Tempered couverture is used and set in moulds correctly. ▪ Moulded chocolates are filled correctly. ▪ Moulded chocolates are sealed with a layer of chocolate of appropriate thickness. ▪ Moulded chocolates are set, released and handled appropriately	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	5 hours
	8.6 Coat chocolate centers	Discuss: ▪ Principles of complementing flavors and textures. ▪ Proper procedures for tempering chocolate	• Lecture • Discussion	• Written tests • Observation of	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		centers. ▪ Correct methods and procedures for coating chocolate centers. Demonstrate how: ▪ Tempered couverture are selected to match centers. ▪ Centers to be coated are brought to the correct temperature. ▪ Methods to coat centers are used to achieve an even and appropriate thickness with a uniform quality finish.	• Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in Laboratory • Supervised Industry Training (SIT)	practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	
	8.7 Decorate and present chocolates	Discuss: ▪ Common fillings and coating, glazes and decorations for chocolates ▪ Different techniques for decorating chocolates, including decorative techniques and rules for decorating and garnishing, and appropriate quality indicators such as shape, size, design, color combination and complementary characteristics to industry and/or enterprise standards. ▪ Types of service equipment appropriate for presenting/ displaying chocolates Demonstrate how: ▪ A variety of chocolate coating, glazes and decorations are prepared ▪ A variety of techniques according to standard recipes and/or enterprise standards and/or	• Lecture • Discussion • Demonstration • Power Point Presentation • Video Presentation • Self-paced handouts or modules • Practical skill exercises • Hands-on Training/ Simulation in	• Written tests • Observation of practical skills exercises • Oral Questioning • Practical examination • Interview • Industry-supervised evaluation (practicum evaluation)	3 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		customer requests are used in decorating. A variety of chocolate products are presented/ displayed to enterprise standards using appropriate service equipment and decorations.	Laboratory Supervised Industry Training (SIT)		
	8.8 Store chocolate and chocolate products	Discuss: - Principles of storage of petite fours, including labelling requirements for storing food, optimal storage conditions for different gateaux, tortes and cakes and optimizing shelf life, shelf life of different gateaux, tortes and cakes and techniques in maintaining maximum eating quality, appearance and freshness. - Packaging and storage options for petite fours, including suitable containers for storage - Appropriate packaging options and eco-friendly packaging - Food production planning and proper calculation of food for future use Demonstrate how: - Chocolate and chocolate products are properly labeled and stored at correct temperature and storage conditions are ensured to maintain maximum eating quality, appearance and freshness - Appropriate packaging options and eco-friendly packaging are selected for the preservation of product freshness and eating characteristics. - Economic viability of preparation and holding quantities are ensured.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	2 hours
9. Present desserts	9.1 Prepare dessert display	Discuss: - Principles of displaying desserts, including facilities and equipment planning - Principles of dessert production, including: varieties	- Lecture - Discussion - Demonstration - Power Point	- Written tests - Observation of practical skills exercises	5 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
		of desserts appropriate for the event of function, principles of quantity production including techniques in achieving standard yields, weights and sizes - Principles of dessert pairing Demonstrate how: - Dessert display appropriate to location, facilities and equipment are prepare - Appropriate amount and variety for event and or service period are prepared. - Appropriate sauces and garnishes are prepared.	Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	
	9.2 Present plated dessert	Discuss: - Principles of portion control including techniques in achieving standard yields, weights and sizes - Principles of decorating and presenting plated desserts - Principles and practices of safety and hygiene, particularly in relation to handling and service of desserts Demonstrate how: - Desserts are portioned. - Desserts are plated and presented and/or decorated - Service temperature of desserts are controlled.	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-supervised evaluation (practicum evaluation)	10 hours

Unit of Competency	Learning Outcomes	Learning Activities	Methodologies	Assessment Methods	Nominal Duration
			Industry Training (SIT)		
	9.3 Present dessert display	Discuss: - Principles of dessert display including principles of portion control and principles of dessert decorating and garnishing desserts for a display. - Types of service equipment appropriate for presenting/ displaying desserts - Principles and practices of quantity and quality control, particularly in relation to the safe holding and maintaining freshness in the service of desserts Demonstrate how: - Dessert display are portioned, decorated, and arranged - Dessert service equipment are prepared - Volume is controlled for quality during event and/or service period	- Lecture - Discussion - Demonstration - Power Point Presentation - Video Presentation - Self-paced handouts or modules - Practical skill exercises - Hands-on Training/ Simulation in Laboratory - Supervised Industry Training (SIT)	- Written tests - Observation of practical skills exercises - Oral Questioning - Practical examination - Interview - Industry-Supervised evaluation (practicum evaluation)	5 hours

3.2 TRAINING DELIVERY

1. The delivery of training shall adhere to the design of the curriculum. Delivery shall be guided by the principles of competency-based TVET.
 - a. Course design is based on competency standards set by the industry or recognized industry sector; (Learning system is driven by competencies written to industry standards)
 - b. Training delivery is learner-centered and should accommodate individualized and self-paced learning strategies;
 - c. Training can be done in an actual workplace setting, simulation of a workplace and/or through adoption of modern technology.
 - d. Assessment is based on the collection of evidence of the performance of work to the industry required standards;
 - e. Assessment of competency takes the trainee's knowledge and attitude into account but requires evidence of actual performance of the competency as the primary source of evidence.
 - f. Training program allows for recognition of prior learning (RPL) of current competencies;
 - g. Training completion is based on satisfactory performance of all specified competencies.
2. The competency-based TVET system recognizes various types of delivery modes, both on-and off-the-job as long as the learning is driven by the competency standards specified by the industry. The following training modalities and their variations/components may be adopted singly or in combination with other modalities when designing and delivering training programs:

2.1. Institution- Based:

- Dual Training System (DTS)/Dualized Training Program (DTP) which contain both in-school and in-industry training or fieldwork components. Details can be referred to the Implementing Rules and Regulations of the DTS Law and the TESDA Guidelines on the DTP;
- Distance learning is a formal education process in which majority of the instruction occurs when the students and instructor are not in the same place. Distance learning may employ correspondence study, audio, video, computer technologies or other modern technology that can be used to facilitate learning and formal and non-formal training. Specific guidelines on this mode shall be issued by the TESDA Secretariat.

- Supervised Industry Training (SIL) or on-the-job training (OJT) is an approach in training designed to enhance the knowledge and skills of the trainee through actual experience in the workplace to acquire specific competencies as prescribed in the training regulations. It is imperative that the deployment of trainees in the workplace is adhered to training programs agreed by the institution and enterprise and status and progress of trainees are closely monitored by the training institutions to prevent opportunity for work exploitation.
- The classroom-based or in-center instruction may be enhanced through use of learner-centered methods as well as laboratory or field-work components.

2.2 Enterprise-Based:

- Formal Apprenticeship - Training within employment involving a contract between an apprentice and an enterprise on an approved apprenticeable occupation.
- Informal Apprenticeship - is based on a training (and working) agreement between an apprentice and a master craft person wherein the agreement may be written or oral and the master crafts person commits to training the apprentice in all the skills relevant to his or her trade over a significant period of time, usually between one-and four years, while the apprentice commits to contributing productively to the work of the business. Training is integrated into the production process and apprentices learn by working alongside the experienced crafts person
- Enterprise-based Training- where training is implemented within the company in accordance with the requirements of the specific company. Specific guidelines on this mode shall be issued by the TESDA Secretariat.

2.3 Community-Based

- Community-Based - short term programs conducted by non-government organizations (NGOs), LGUs, training centers and other TVET providers which are intended to address the specific needs of a community. Such programs can be conducted in informal settings such as barangay hall, basketball courts, etc. These programs can also be mobile training programs (MTP).

3.3 TRAINEE ENTRY REQUIREMENTS

Trainees or students wishing to gain entry into this course should possess the following requirements:

- Must have completed at least Grade 10 of basic education or Holder of Alternative Learning System (ALS) Certificate of Completion with grade 10 equivalent
- Can communicate in basic English in both oral and written form.
- Must be a holder of a Health Certificate issued within one (1) year and stating that the trainee is free of Hepatitis or any communicable disease

3.4 LIST OF TOOLS, EQUIPMENT AND MATERIALS

Recommended list of tools, equipment and materials for the training of a maximum of 25 trainees for **FOOD PRODUCTION (BAKERY AND PATISserie) NC II**.

Up-to-date tools, materials, and equipment of equivalent functions can be used as alternatives. This also applies in consideration of community practices and their availability in the local market.

OFFICE EQUIPMENT	
QTY	
3 units	Computer with Internet Connection
1 unit	Air Conditioner
1 unit	Electric Fan
3 units	First Aid Cabinet with First Aid Kit
1 unit	Fire extinguisher
1 pc	Directional Signage/s for each room
1 unit	Emergency Light
1 unit	Telephone
1 unit	Colored Printer

LABORATORY EQUIPMENT	
QTY	
2 units (4HP)	Air Conditioner,
1 unit	Fire extinguisher – Red
1 unit	Fire extinguisher - Green
1 unit	Emergency light
1 unit	Deck Oven (can fit 8 baking sheets/ Plantsa)
1 unit	Demo Table with Overhead Mirror
1 unit	Proofing Cabinet
3 units	Two-burner gas stove
1 unit	Exhaust hood
1 unit	Reach-in freezer, 8 cu. ft
1 unit	Reach-in refrigerator, 8 cu. ft
5 units	Commercial Mixer, Heavy Duty, 5 qt
1 unit	Planetary or Spiral Mixer, (Heavy Duty, 8kg or higher)
1 unit	Weighing Scale, 25 kgs.
5 units	Digital Weighing scale – 5 kilos, 1g increment
1 pc	Bakery Wall Rack
4 pcs	Bakery Ingredient Bins
4 pcs	Bakery Scoops

HEAVY KITCHEN EQUIPMENT	
QTY	
5 units	Preparation table (Approx. 45X28")
2 units	S/S Working table (fabricated)
1 unit	Handwashing Sink
1 unit	Three Compartment Washing sink
1 unit	Soak sink
1 unit	Twenty-Shelves Sheet Pan Rack
5 unit	Stainless steel rack (5 shelves)

1 unit	Utility cart
2 unit	Utility shelving
2 pcs	Marble Slab, 24" X 16"

SMALL EQUIPMENT	
1 pc	Baker's Peel, 12" X 22" with long handle
1 pc	Airbrush and Compressor
2 pcs	Blowtorch with Butane Gasket
1 units	Cream Whipper with Charger
1 unit	Blender machine
2 pcs.	Food Mill
5 units	Hand Held Mixer with Attachment
1 pc	Heat Gun
1 pc	Ice Cream Maker/Gelato Maker
1 unit	Microwave oven
2 units	Portioning/Fondant Funnel, S/S
2 pcs	Thermometer, Deep Fry/Candy
2 pcs.	Thermometer, Instant Read
2 pcs.	Thermometer, Oven
1 pc	Thermometer, Probe
5 pcs.	Timers

HAND TOOLS	
5 pcs.	Bench Scraper/Dough Cutter, S/S
10 pcs	Bowl Scraper
2 pcs.	Citrus Juicer
2 pcs.	Colander, Medium
2 pcs	Drum Sieve, Large
5 pcs.	Drum Sieve, Medium
10 pcs	Food Pan (Gastro), ¼
5 pcs	Food Pan (Gastro), ½, 2.5"
5 pcs	Food Pan (Gastro), ½, 4"
5 pcs	Food Pan (Gastro), 1/3
20 pcs	Food Pan (Gastro), 1/9, 2.5"
20 pcs	Food Pan (Gastro), 1/9, 4"
3 pcs.	Funnel, Medium
3 pcs.	Funnel, Small
5 pcs.	Kitchen Spoon, Perforated
5 pcs.	Kitchen Spoon, Slotted
5 pcs.	Kitchen Spoon, Solid, Short
3 pcs.	Ladle, 2 oz.
5 pcs.	Ladle, 3 oz.
5 pcs.	Ladle, 4 oz
5 pcs.	Ladle, 6 oz.
5 pcs.	Ladle, 8 oz.
5 pcs	Measuring Cup, Liquid, 1 L
5 pcs	Measuring Cup, Liquid, 500 ml
5 sets	Measuring Cups, Dry, S/S
5 sets	Measuring Spoons, S/S
20 pcs	Mixing Bowl – Stainless St. – 15 cm
20 pcs	Mixing Bowl – S/S – 18 cm
20 pcs	Mixing Bowl – S/S – 20 cm
20 pcs	Mixing Bowl – S/S – 22 cm
5 pcs	Mixing Bowl – S/S – 28 cm
5 pcs	Mixing Bowl – S/S – 30 cm
10 pcs	Mixing Bowl – S/S – 36 cm
5 pcs	Mixing Bowl – S/S – 40 cm
5 pcs	Mixing Bowl – S/S – 45 cm
2 pcs.	Mortar and Pestle
5 pcs.	Parisienne Scoop/Mellon Baller
3 pcs	Pastry Blender
20 pcs.	Pastry Brush, silicon
2 pcs	Powder/Dusting Cans
1 pc	Roller Dough Docker (Pins), S/S
1 pc	Roller Dough Net Cutter, S/S
5 pcs	Rolling Pin, Rod and Bearing
5 pcs	Rolling Pin, French - Straight
2 pcs	Rolling Pin, French - Tapered (Optional)
3 pcs.	Scoop # 6 (4 ⅔ oz.)

3 pcs.	Scoop # 8 (4 oz.)
3 pcs.	Scoop # 10 (3 ¾ oz.)
3 pcs.	Scoop # 12 (3 ¼ oz.)
3 pcs.	Scoop # 16 (2 ¾ oz.)
5 pcs.	Scoop # 20 (2 ½ oz.)
5 pcs.	Scoop # 24 (1 ¾ oz.)
5 pcs.	Scoop # 30 (1 ¼ oz.)
10 pcs.	Spatula, Rubber, 6"
10 pcs.	Spatula, Rubber, 13 ½"
5 pcs.	Spatula, Offset, 6.5"
5 pcs.	Spatula, Offset, 10.5"
5 pcs.	Spatula, Straight /Palette Knife, 6"
5 pcs.	Spatula, Straight /Palette Knife, 8"
5 pcs	Spatula, Straight /Palette Knife, 12"
5 pcs	Squeeze Bottle – 100 ml
5 pcs	Squeeze Bottle – 250 ml
5 pcs	Squeeze Bottle – 500 ml
2 pcs	Strainer, Large
3 pcs	Strainer, Medium
5 pcs	Tongs, Pastry, 9 ½"
2 pcs.	Tongs, Utility, 12"
2 pcs.	Tongs, Utility, 8"
10 pcs	Wire Whisk, Piano Wire/Balloon, 10"
5 pcs	Wire Whisk, Hard, 12"
5 pcs	Wooden Spatula
5 pcs.	Wooden Spoon

CUTTING TOOLS AND IMPLEMENTS	
5 pcs	Chef's Knife
5 pcs	Bread/Serrated knife
5 pcs	Paring knife
2 pcs.	Apple corer
5 pcs	Can opener, Hand Held
1 pc	Chopping Board, Blue
5 pcs	Chopping Board, Green
1 pc	Chopping Board, Red
5 pcs	Chopping Board, White
1 pc	Chopping Board, Yellow
1 pc	Expandable 6-Wheel Cutter
2 pcs	Grater, Box
2 pcs	Grater, Hand Held
1 pc	Honing Steel
1 unit	Mandolin, S/S
2 pcs	Pastry Wheel (Pizza Cutter)
5 pcs	Peelers
1 pc	Potato Ricer
1 pc	Sharpening Stone
2 pcs.	Zester, Microplane

COOKING UTENSILS	
5 pcs	Double boiler - medium
5 pcs	Frying pan
2 pcs	Grill Pan
2 pcs	Non-stick frying pan - medium
2 pcs	Non-stick frying pan - small
5 pcs	Sauce Pan, 7.5"
5 pcs	Sauce Pan, 12"
2 pcs	Steamer - medium
1 pc	Tea Kettle
10 pcs	Utility tray - stainless

BAKING PANS AND MOLDS	
1 pc	Baguette Pan
10 pcs	Baking Sheet/Tray – (60cm x 40cm)
25 pcs	Baking Sheet/Tray – (13" x 16")
5 pcs	Banettons
60 pcs	Barquette/Boat Pans (Flat Side)
60 pcs	Barquette/Boat Pans (Fluted Side)
60 pcs	Brioche/Ensaimada Mold
10 pcs	Cake Pan, Rectangular, 8" X 12" X 2"
10 pcs	Cake Pan, Rectangular, 10" X 14" X 2"
10 pcs	Cake Pan, Rectangular, 12" X 16" X 1"

10 pcs	Cake Pan, Round 6" x 2"
10 pcs	Cake Pan, Round 8"x 2"
10 pcs	Cake Pan, Round 10" x 2"
10 pcs	Cake Pan, Square 8" x 2"
10 pcs	Cake Pan, Square 9" x 2"
20 pcs	Cake Rings, 3"
10 pcs	Cake Rings, 6"
10 pcs	Cake Rings, 8"
10 pcs	Cake Rings, 10"
5 set	Cookie Cutter, S/S, Diamond (Optional)
5 set	Cookie Cutter, S/S, Heart (Optional)
10 set	Cookie Cutter, S/S, Round
5 set	Cookie Cutter, S/S, Rectangle (Optional)
5 set	Cookie Cutter, S/S, Round Fluted (Optional)
5 set	Cookie Cutter, S/S, Square (Optional)
5 set	Cookie Cutter, S/S, Square Fluted (Optional)
5 set	Cookie Cutter, S/S, Star (Optional)
5 set	Cookie Cutter, S/S, Teardrop (Optional)
10 pcs	Cooling Rack, 18 X 20"
50 pcs	Custard Cups
5 pcs	Glazing Rack, 18" X 20"
10 pcs	Loaf Pan, 6" X 3 ½"
5 pcs	Loaf Pan, 8" X 3 ½"
5 pcs	Loaf Pan with Lid, 13" X 4"
10 pcs	Muffin Pan, 1 oz X 12
10 pcs	Muffin Pan, 3 oz. X 12
5 pcs	Perforated Tray, Full Sheet
5 pcs	Perforated Tray, Half Sheet
10 pcs	Pie Pan, 9"
5 pcs	Pizza Pan, 12 X ½"
20 pcs	Ramekin, 2"
20 pcs	Ramekin, 3"
5 pcs	Silicon Baking Mat, ½ sheet (optional)
5 pcs	Silicon Baking Mat, Full sheet (optional)
5 pcs	Silicon Molds, Demi Sphere (1") (optional)
5 pcs	Silicon Molds, Demi Sphere (3") (optional)
5 pcs	Springform Pan, 10"
5 pcs	Tart Pan, 8"
5 pcs	Tart Pan, 10"
60 pcs	Tartlet Pans

CAKE DECORATING TOOLS	
5 sets	Cake and Decorating Combs
2 sets	Fondant Crimper Set
5 sets	Gumpaste and Marzipan Modelling Tools
2 sets	Gumpaste Flower and Leaf Cutter Set
5 sets	Decorating Flower Nail Set

10 pcs	Fondant Smoother
1 pcs	Cake Lifter
5 pcs	Turn Table
10 pcs	Piping Bag, 18 cm
10 pcs	Piping Bag, 20 cm
5 pcs	Coupler
	Piping Tips:
5 pcs each	Round Tips: 1,2, 3, 4,5 6, 8, 10, 12, 1A, 2A
5 pcs each	Petal Tips: 101, 104
5 pcs each	Drop Flower Tips: 224, 2D, 125
5 pcs each	Leaf Tips: 352, 366, 67, 74
5 pcs each	Basketweave Tip: 47
5 pcs each	Special Tips: 8, 230, 233, St. Honore
5 pcs each	Star Tips: 14, 16, 18, 21, 32, 1M

CHOCOLATE TOOLS AND EQUIPMENT	
5 pcs	Chocolate Molds, Polycarbonate
5 pcs	Chocolate Dipping Tools Set
3 pcs	Chocolate Melter/Warmer (optional)

SERVING TOOLS AND EQUIPMENT	
5 pcs	Cake Server
2 pcs	Cake Marker
5 pcs	Cupcake Stand
2 pcs	Cake Pop Stand
5 pcs	Cake Stand/Pillars

DINNERWARE AND CUTLERIES	
10 pcs	Rectangular Platter
10 pcs	Square Platter
10 pcs	Oval Platter
10 pcs	Round Platter
12 pcs	Dessert Plate – 7 to 8 in.
12 pcs	Bread Plate – 6 in.
25 pcs	Dessert Spoon
25 pcs	Dessert Fork
25 pcs	Teaspoon
12 pcs	Water Goblet
12 pcs	Highball Glass
2 pcs	Sauce boat
2 pcs	Glass rack
2 pcs	Plate rack
12 pcs	Serving spoon

TRAINING EQUIPMENT AND MATERIALS	
1 unit	TV
1 units	Multi media device
2 units	LCD Projector
1 unit	Flip chart
1 unit	White board
5 pcs	Marker
5 pcs	Pencil
2 rims	Bond paper

TRAINING RESOURCES	
	Manuals
	Books
	CDs and DVDs
	Charts
	Pictures
	Magazines
MISCELLANEOUS	
	Toothpick
	Aluminum Foil
	Glassine Paper
	Baking Parchment Paper
	Cling Wrap
	Paper Towel
	Liquid Soap
	Cheese cloth
	Butcher's String
	Cake board
	Cake box

NOTE: Implementation of the training program can be made possible through a Memorandum of Agreement (**MOA**) between the **training school** and **industry** for the use of the facilities. This is in response to the resource limitations of the training school due to the high cost of equipment.

3.5 TRAINING FACILITIES

Based on a class intake of 25 students/trainees.

Space Requirement	Size in Meters	Area in Sq. Meters	Total Area in Sq. Meters
Contextual Learning Area (Lecture room)	6.25 x 8 m.	50 sq. m.	50 sq. m.
Distance Learning (Laboratory/Workshop/Activity area)	12 x 10 m.	120 sq. m.	120 sq. m.
Storage Area (Tool room & S storage area)	2 x 5 m.	10 sq. m.	10 sq. m.
Learning Resource Area	2 x 8 m.	16 sq. m.	16 sq. m.
Wash area/comfort room (Male, Female, PWD)	4 x 4 m.	16 sq. m.	16 sq. m.
Circulation Area	5 x 5 m.	25 sq. m.	25 sq. m.
Total workshop area:			237 sq. m.

3.6 TRAINER'S QUALIFICATIONS

- Must be a Holder of National TVET Trainer Certificate (NTTC) Level I in Food Production (Bread and Patisserie) NC II
- Must have at least three (3) years work experience in the bakery and pastry production industry, preferably with relevant trainings/seminars.
- Must be a holder of a Health Certificate issued within one (1) year and stating that the trainer is free of Hepatitis or any communicable disease
- Must have an industry recognized National or International Food Safety and Hygiene Certification (Servsafe™ Certification or its equivalent)

3.7 INSTITUTIONAL ASSESSMENT

Institutional Assessment is gathering of evidences to determine the achievements of the requirements of the qualification to enable the trainer make judgement whether the trainee is competent or not competent.

SECTION 4 ASSESSMENT AND CERTIFICATION ARRANGEMENTS

Competency Assessment is the process of collecting evidence and making judgments whether competency has been achieved. The purpose of assessment is to confirm that an individual can perform to the standards expected at the workplace as expressed in relevant competency standards.

The assessment process is based on evidence or information gathered to prove achievement of competencies. The process may be applied to an employable unit(s) of competency in partial fulfillment of the requirements of the national qualification.

4.1 NATIONAL ASSESSMENT AND CERTIFICATION ARRANGEMENTS

- 4.1.1 A National Certificate (NC) is issued when a candidate has demonstrated competence on all units of competency in a qualification with a promulgated Training Regulations.
- 4.1.2 A Certificate of Competency (COC) is issued by the Authority to individuals who were assessed as competent in a single unit or cluster of related units of competency.

COC 1 Prepare and Present Bakery Products

- Clean and maintain kitchen premises
- Organize and prepare food and service for bakery and pastry production
- Prepare and present bakery products
- Present Desserts

COC 2 Prepare and Present Desserts, Cakes and Pastries

- Clean and maintain kitchen premises
- Organize and prepare food and service for bakery and pastry production
- Prepare and present basic pastries
- Prepare and present gateaux, torte and cakes
- Prepare and display petits fours
- Prepare and present basic hot, cold and frozen desserts
- Prepare chocolate and produce chocolate products
- Present Desserts

- 4.1.3 National Certificate (NC) can be achieved through an assessment which primarily includes accumulation and submission of all COCs acquired. It may include assessment methodologies identified in the evidence plan of the competency assessment tool/s.
- 4.1.4 Individuals wanting to be certified will have to be assessed in accordance with the requirements identified in the relevant unit/s of competency.

- 4.1.5 The industry shall determine assessment and certification requirements for each qualification with promulgated Training Regulations. It includes the following:
- a. Entry requirements for candidates
 - b. Evidence gathering methods
 - c. Qualification requirements of competency assessors
 - d. Specific assessment and certification arrangements as identified by industry
- 4.1.6 Recognition of Prior Learning (RPL). Candidates who have gained competencies through informal training, previous work or life experiences may apply for recognition in a particular qualification through a recognition/ assessment process.
- 4.1.7 The following are qualified to apply for assessment and certification:
- 4.17.1 Candidates and/or graduates of tourism and hospitality degree programs with knowledge of basic bakery and pastry production; or
 - 4.17.2 Graduates of the FOOD PRODUCTION (BREAD AND PATISSERIE) NC II; or
 - 4.17.3 K-12 graduates of Home Economics Strand with FOOD PRODUCTION (BREAD AND PATISSERIE) NC II; or
 - 4.17.4 Industry practitioner specifically in bakery and pastry production with at least two (2) years of work experience.
- 4.1.8 Current holders of valid Bread and Pastry Production NC II are required to undergo assessment on the amended TR.

4.2 COMPETENCY ASSESSMENT REQUISITE

- 4.2.1 **Self-Assessment Guide.** The self-assessment guide (SAG) is accomplished by the candidate prior to actual competency assessment. SAG is a pre-assessment tool to help the candidate and the assessor determine what evidence is available, where gaps exist, including readiness for assessment.

This document can:

- a. Identify the candidate's skills and knowledge
- b. Highlight gaps in candidate's skills and knowledge
- c. Provide critical guidance to the assessor and candidate on the evidence that need to be presented
- d. Assist the candidate to identify key areas in which practice is needed or additional information or skills that should be gained prior `

- 4.2.2 **Accredited Assessment Center.** Only TESDA Accredited Assessment Centers are authorized to conduct competency assessment. Assessment centers undergo a quality assured procedure for accreditation before they are authorized by TESDA to manage the assessment for National Certification.
- 4.2.3 **Accredited Competency Assessor.** Only an accredited competency assessor is authorized to conduct assessment of competence. Competency assessors undergo a quality assured system of accreditation procedure before they are authorized by TESDA to assess the competencies of candidates for National Certification.

**COMPETENCY MAP - TOURISM Sector
(Hotel and Restaurant)
FOOD PRODUCTION (BREAD AND PATISSERIE) NC II**

BASIC COMPETENCIES	Lead workplace communication	Lead small teams	Apply critical thinking and problem-solving techniques in the workplace	Work in a diverse environment	Propose methods of applying learning and innovation in the organization	Use information systematically	Evaluate occupational safety and health work practices	Evaluate environmental work practices	Facilitate entrepreneurial skills for micro-small-medium enterprises (MSMEs)
	Receive and respond to workplace communication	Work with others	Solve/address routine problems	Enhance self-management skills	Support Innovation	Access and maintain information	Follow occupational safety and health policies and procedures	Apply environmental work standards	Adopt entrepreneurial mindset in the workplace
	Participate in workplace communication	Work in Team Environment	Solve/address general workplace problems	Develop career and life decisions	Contribute to workplace innovation	Present relevant information	Practice occupational safety and health policies and procedures	Exercise efficient and effective sustainable practices in the workplace	Practice entrepreneurial skills in the workplace

BASIC COMPETENCIES

Utilize specialize specialized communication skill	Develop and lead teams	Perform higher order thinking processes and apply techniques in the workplace	Contribute to the practice of social justice in the workplace	Manage innovative work instructions	Manage and evaluate usage of information	Lead in improvement of Occupational Safety and Health Program, Policies and Procedures	Lead towards improvement of environmental work programs, policies and procedures	Sustain entrepreneurial skills
Manage and sustain effective communication strategies	Manage and sustain high performing teams	Evaluate higher order thinking skills and adjust problem solving techniques	Advocate strategic thinking for global citizenship	Incorporate innovation into work procedures	Develop systems in managing, and maintaining information	Manage implementation of OSH programs in the workplace	Manage implementation of environmental program in the workplace	Develop and sustain a high-performing enterprise

COMMON COMPETENCIES

Develop and update tourism industry knowledge	Observe workplace hygiene knowledge	Perform computer operations	Perform workplace and safety practices	Provide effective customer service
---	-------------------------------------	-----------------------------	--	------------------------------------

CORE COMPETENCIES

Clean and maintain kitchen premises	Organize and prepare food and service for bakery and pastry production	Prepare and present bakery products	Prepare and present basic pastry products	Prepare and present basic hot, cold and frozen desserts
Prepare and present gateaux, tortes and cakes	Prepare and display petits fours	Prepare chocolate and produce chocolate products	Present desserts	

GLOSSARY OF TERMS

Aeration	The rendering of bakery products more appetizing, palatable and digestible by the incorporation of air and/or gas, in one or more of the stages of production before baking. Air is introduced by the production of carbon dioxide gas (CO ₂) from yeast or baking powder. The internal expansion of air and gas and the pressure of steam during baking, all make a contribution to total aeration.
Albumen	One of the many proteins. Where the term is used in the bakery, it is generally accepted to mean the white of eggs.
All-in Process	All the ingredients are mixed together without any preliminary stages.
Amaretto	A liqueur from Italy, the primary flavour comes from sweet and bitter almond.
Angelica	Young leaf stalks of a plant which are candied and used for decoration.
Anglaise Sauce	Known as custard sauce, vanilla sauce or crème Anglaise.
Arrowroot	A kind of thickener, and it thickens at a lower temperature than either cornstarch or flour
Atomiser	Devices for converting a liquid (colour) into a fine spray under pressure by blowing or depressing an air- filled rubber bulb.
Bain Marie	Water bath used for keeping food warm
Baking	To render bakery products suitable for human consumption and digestion by cooking in an oven at correctly controlled temperatures.
Baking Powder	Any chemical or mixture of chemicals which, when moistened and heated, generates gas (usually CO ₂) which will aerate bread and cakes. Ideally the residual salts of reaction should be tasteless and without odour. The baking powder must comply with the Food and Drugs Act of the country in which it is used.
Baking Sheet	A metal plate on which buns, cakes, pastries and biscuits are baked. Generally they have three upturned sides and an open end. The open end will facilitate cleaning.
Batch	The entire mixing of bread or cakes; the contents of the oven.
Batter	Mixture of flour and liquids used to make pancakes or crepes and for coating for fried desserts like fritters
Batter	A soft, completed cake mixture. A very soft fermented mixture as for crumpets.
Baume	Degrees on the scale of a saccharometer (sugar hydrometer).
Bavarois	Whipped cream and melted gelatine folded to a custard sauce (also known as Bavarian Cream).
Beat	The aeration of fat, sugar, eggs and other materials by beating together. This can be done by hand or by machine.
Beater	A hand-shaped implement which, when fixed to a machine, beats ingredients such as fat, sugar and eggs.
Beignets	Fritters.
Beurre Noisette	Brown butter or hazelnut butter
Blackjack	Dark caramelized sugar syrup used for colouring rich fruit cake mixing.
Blanch	Plunge food into boiling water to partly cook
Blanch	A term used to describe bringing anything to boiling point quickly. Used with vegetables prior to freezing to slow microbial activity. Also used to enable easy removal of skins such as from almond kernels.
Blind Bake	Baking pastry to shape with no filling
Bombe Mixture	Made from egg yolks, sugar, and cream (similar to a parfait)
Bombes	A frozen dessert with a combination of either Ice Cream, Sorbet, Sherbet and Bombe Mixture.

Boulangerie	Bakery department.
Bowl	A rounded metal container used in the bakery for mixing, beating or whipping by hand. A bowl specially made for a machine is known as a machine bowl.
Bun	A small yeast fermented or chemically aerated, sweetened cake.
Buttermilk	Is made from sweet (or sour) milk after it has been churned to remove the Fat.
Cachous/Dragees	Small silver coloured candied sugar balls used for decorating petits fours.
Cake	Refers generally to a baked mixture of fat, sugar, eggs and flour, with or without milk, baking powder, A cake can be of any shape or size.
Cake	Refers generally to a baked mixture of fat, sugar, eggs and flour, with or without milk, baking powder, A cake can be of any shape or size.
Cake Hoop/Cake Ring	A metal ring which supports a cake during baking.
Cake Tins	Small or large metal shapes in which cakes are baked. They may be plain or fluted.
Calvados	Apple brandy from France.
Candied	Super saturated sugar solution is used to immerse product. Product absorbs sugar and when dry it is preserved by the sugar
Candied fruit	Glaze fruits
Caramel	Sugar solution boiled above 150 °C until turns golden brown.
Caramel Fruits	Fruits dipped in Caramel.
Caramelize	Cooking sugar to above 156°C at which point it begins to brown
Cassata	An Ice cream and Parfait specialty.
Centigrade	Divided into 100 degrees, as the centigrade thermometer (first constructed by Celsius, 1701-44), in which the freezing point is zero and boiling point is one hundred.
Charlotte	Moulded desserts typically made in a dome and pail-shaped moulds.
Chemise	To line moulds with gelatine gel or sponge cake
Chocolate	Polished granules of Chocolate used as a decorations.
Vermicelli	
Coagulate	Setting of protein, caused by heat
Coat	To cover a cake or biscuit with almond paste and/or icing, fondant, cream or chocolate.
Cocoa Powder	The finely grown cocoa-press cake still containing a modest amount of cocoa butter
Cointreau	A colourless French liqueur flavoured with peel of curacao oranges.
Compote	Stewed or boiled fruit.
Compound	Cocoa butter is replaced with hardened vegetable fat, which has similar melting characteristics to cocoa butter. The cocoa mass is replaced with a strong defatted cocoa powder
Chocolate	
Condensed Milk	Milk that has had water removed and sugar added. Very thick and sweet
Confiture	Preserve fruits suspended in syrup or jelly
Constituent	A component part of the whole; one ingredient in a formula.
Coulis	Liquidised or pureed fruit sauce
Coulis	Cooked or raw fruit purees that are sweetened, then used or served as sauces.
Coupe	An individual serving bowl.
Couverture	Pure chocolate Product manufactured with cocoa butter, cocoa mass, milk powder, sugar and flavouring. (chocolate)
Cream	To beat fat and sugar or fat and flour together until light and fluffy. To add cream as a decoration of filling to a baked cake.
	A common term used to describe all kinds of creams such as dairy cream, butter cream, marshmallow cream, custard cream, etc.
Poured Fondant	Sugar and glucose with added flavourings

Creaming	Action of blending fat and sugar to incorporate air
Crème de Cacao	A chocolate-flavoured liqueur.
Crème de Cassis	Liqueur made from Black currants.
Crème Fraîche	A cultured cream made by adding an acid-producing bacteria to pasteurized heavy cream.
Crêpes	Thin pancakes
Crimping	Squeezing edges of pastry to impart design
Croquant	Melted sugar with nuts or rice
Crystallization	Formation of crystals deliberately in various sugar boiling operations.
Cup Cakes	Small cakes baked in crimped paper cups or cases.
Curdle	When fat, sugar and eggs are beaten together carefully, an emulsion is formed. If during the beating, the eggs are added too quickly, or are too cold, or the initial creaming of the fat and sugar is not complete, then the mixture will separate and lose its smooth consistency. Some aeration is lost when a mixture curdles.
Curdle	When fat, sugar and eggs are beaten together carefully, an emulsion is formed. If during the beating, the eggs are added too quickly, or are too cold, or the initial creaming of the fat and sugar is not complete, then the mixture will separate and lose its smooth consistency. Some aeration is lost when a mixture curdles.
Curdling	Separation of liquid and solids, Emulsion has failed to form or has separated due to bad technique
Dariole mould	Angle sided mould wider at top than bottom
Dark Chocolate	Chocolate mass, cocoa butter, sugar, lecithin and flavours
Decorate	To add fruits, nuts, sugar, etc. to cakes before baking for the purpose of decorating. This is known as being oven-decorated or oven-finished. To add such decorating materials as the above, almond paste, chocolate, cream or icing after baking, generally to make a pattern or a design. The word is given special significance in describing artistic work in royal icing.
Deposit	The act of putting cake batter into hoops, pans, tins, etc., either by hand or by machine. The machine used is known as a depositor.
Dessert	Finale of a fine meal
Doilley	Paper lace mat used to present product, normally made of paper for desserts and pastry items
Dredge	To coat with flour or sugar
Egg wash	A little milk and a small pinch of salt added to egg yolk.
Emulsifier	A substance that will help the mixing of two products that don't normally mix such as oil and water
Emulsion	An intimate mixture of two fluids that normally would not mix, such as oil and water. This is done by means of an emulsifier, a machine that will break down the oil and water to minute particles while under pressure, for example, homogenized milk. If an emulsifying agent is used then the emulsion may become permanent. Fat, sugar and eggs correctly beaten together form an emulsion, the lecithin in egg yolks being a good emulsifying agent.
Enrobe	Covering completely with substance
Enrobed	A centre is produced first then covered in chocolate
Chocolate	
Entremets	French word for sweet dishes
Essences	Aromatic compounds used for flavouring confectionery. They can be natural or synthetic or blends of both.
Essential Oils	Aromatic oils of fruit s, nuts, flowers extracted and used as flavouring.
Fat	A mixture of triglycerides. Normally solid at room temperature
Fat Bloom	A yellowish to greyish-white coating on the surface of the chocolate
Financiers	A petit four base made by folding fine almonds into beaten egg whites,

	then adding liquid butter.
Fingers	Small finger-shaped rolls, biscuits, meringues, sponge cakes.
Flambee	To set a liqueur or brandy alight during the cooking process.
Folding	Method of gently blending of fragile ingredients
Fondant	A form of icing made by boiling sugar, water, glucose or a weak acid to 115¼C (140¼F), then agitating when it is cool until it forms a mass of minute crystals. It is the reflection of light on the tiny crystals that explains the gloss on correctly prepared fondant.
Fondant	Low moisture content sugar syrup containing a small quantity of invert sugar which has been rapidly cooled so that the sugar crystals are very small in size.
Framboise	A liqueur distilled from raspberry juice
Frangelico	Liqueur derived primarily from hazelnuts but flavoured with berries and flowers as well.
Frangipane	A mixture of butter, sugar, eggs, almonds and flour baked in a sweet paste base.
Frappé	Chilled
Friandise	Petit Fours.
Galette	Round and flaky pastry dough
Ganache	Mixture of fresh cream and couverture
Garnish	Decoration of the meal
Gelatine	Clear protein that is used set liquids. Can be purchased in powder or clear sheets
Gelatinization	When water and starch are heated, the starch grains swell and absorb the liquid holding the liquid in suspension
Gianduja	Chocolate praline filling. Prepared from nuts or almonds, sugar and milk or plain chocolate
Glacé	Ice or Ice Cream.
Glace fruit	Fruit preserved by impregnation with concentrated sugar syrup.
Glaze	To impart a gloss by coating with an agent such as apricot purée/ Caramelizing sugar by the use of the oven, salamander or blow-torch.
Gliadin	Protein in flour that the elasticity
Gluten	Proteins glutenin and gliadin when hydrated bond together to form viscous substance called gluten.
Glutenin	Protein in flour that causes strength
Glycerine	Colourless, odourless syrup with a sweet taste. It is soluble in water and alcohol. Because it is highly hygroscopic it is used in cake mixings to delay staling.
Grand Marnier	Liqueur made with oranges and aged cognac.
Gratinate	Process of browning the surface of foods; predominately sauces, under a salamander
Grease	To brush fat into cake tins or to smear fat over baking sheets.
Gum Arabic	Exudant from Acacia tree ground to powder and when rehydrated is used to impart glaze on confectionary products
High-Ratio Cakes	The name hi-ratio is registered in the USA. The term is used to describe cakes containing high percentages of sugar and liquids based on the weight of flour. Special flour and super glycerinated fats are used for this type of cake.
Hulling	Removing calyx from strawberries
Humidity	Moisture in the air
Hygroscopic	The power of attracting moisture. For instance, glycerine is hygroscopic. Other examples are icing sugar and bi-carb soda.
Icing	The coating and decoration of a cake with royal or plastic icing. The term is also used to describe the decoration of cakes with fondant, water icing, or fudge icing.

Invert Sugar	Mixture of dextrose and fructose in approximately equal proportions, created by treating sucrose with an enzyme – Sucrose +Water = Dextrose +Fructose
Kirsch	Liqueur made from cherries, also known as kirschwasser.
Kneading	Manipulating a dough to develop the gluten and improve texture from sticky mass to smooth dough
Leavening	Incorporating air into dough by manipulating ingredients
Leavening agent	Ingredient that can cause gas within a dough or batter
Lecithin	A phosphorized fatty substance which has a great power as an emulsion stabilizer. Egg yolks and soya beans are both rich in lecithin.
Lemon zest	Referring to the finely grated oily skin of washed untreated lemons
Liqueurs	Spirits with an alcohol content of at least 30% vol. sweetened with sugar and flavoured with essences, essential oils or fruit juices.
Macerate	To steep in a liquid to soften or absorb flavor, generally applied to fruit.
Madiera	A fortified sweet wine.
Maraschino	Liqueur made from cherries and used for flavouring.
Marsala	An Italian dessert wine.
Marshmallow	Confection or sweetmeat made from water, sugar and gelatine aerated and piped to shape. Many uses in pastries and desserts
Marzipan	Paste of sugar and ground blanched almonds
Marzipan paste	A manufactured paste containing 2/3 blanched almonds and 1/3 sugar.
Mascarpone	Made from fresh cream derived from cow's milk
Cheese	
Masking	Coating of a cake or gateau with icing or coating inside of mould with gel
Milk Chocolate	Chocolate mass, cocoa butter, sugar, milk powder, lecithin and flavours
Mise en place	Basic operations prior to the service.
Moulded	A shell is produced first, filled with a liquid, semi liquid or even firm fillings and later back (sealed) with chocolate
Chocolate	
Mouli	Hand operated mill to pulp cooked solids; has been replaced by food processor or stick wands. It is also known as a food mill.
Mousse	A dish which is light in consistency, served either hot or cold.
Mousseline	Sabayon mix fold into a whipped heavy cream.
Sauce	
Nappe	To coat food with a sauce
Nibs	Small fragments, such as almond or sugar nibs.
Nougat	Mixture of melted sugar and almonds/hazelnut ground to a paste and mix with chocolate. Mixture of melted sugar and almonds known as praline – croquant. A confection made from sugar, honey, and egg whites, with added Glacé fruits and nuts.
Palette Knife	A thin, flat knife with a rounded end used for spreading icing and cake batter. An offset or crank-handled palette knife has the blade at a lower level than the handle. It is used for spreading cake or sponge mixtures on to baking sheets.
Pan	A broad, shallow baking tin.
Panada	A thickening agent made from a starch base
Parfait	Frozen cream mixture made from syrup, egg yolks, and cream, and frozen in moulds.
Pectin	Found mainly in citrus fruits and is used as a gelling agent
Pith	In skin wall of citrus fruits just under the white outer coating, the zest
Pound Cakes	A term used at one time to describe cakes made from 1 lb (500 gm) each of butter, sugar, eggs and flour. The term is now often used for cakes baked in a round hoop or oblong tin such as Madeira, Genoa and cherry.
Praline	Almonds and hazelnuts crushed finely and caramelized and mixed with milk chocolate. This paste is used in numerous confections of chocolate

Praline	Croquant which has been coarsely chopped or milled into a smooth paste.
Pre-gelatinised Starch	Pre-gelatinized or soluble starch is produced commercially by blowing a starch suspension onto stem heated rotating rollers. Gelatinization and drying take place and the dried material is then flaked or ground to make a powder. The process ruptures the starch granules, without completely distorting them, so that they swell in cold water to form a viscous paste.
Pudding	A soft mixture bake or steam in a basin or dish.
Purée	Food passed through a sieve to make a thick pulp.
Reaction	A chemical reaction resulting in browning, usually caused by the interaction of proteins and carbohydrates
Recipe	An exact formula which will include the weights of the materials to be used for a particular type of bread or confectionery. All other details such as temperature, times, yields, etc., will also be recorded.
Refresh	Plunge partly cooked food into cold or ice water to stop the cooking process
Rennet	Setting agent derived from the stomach of a calf, used in milk dessert 'junket'
Romanoff Sauce	A mixture of whipped heavy cream and sour cream.
Roux	Mixture of cooked flour and fat that is used to thicken liquids
Royal Icing	Blended eggwhite and fine icing sugar used to decorate cakes. Dries very hard.
Sabayon	Sauce made from the yolks of eggs or either water or wine and sugar, beaten over a double boiler.
Saccharometer	Instrument used to measure sugar density of liquid
Saffron	Dried stigmas of the saffron crocus.
Salamander	A type of grill heated from above.
Piping Bag	A triangular shaped bag made of cloth or a plastic material into which a tube is inserted. It is used for piping meringue, sponge fingers and drops, soft biscuits, choux paste, etc., onto baking sheets. It is also used to pipe cream on, or in, cakes and pastries.
Scraper	A small oblong piece of plastic material, with two corners rounded for scraping down mixing bowls. The straight edge of the scraper can be used to smooth the side of a cake when coating with cream or butter cream. The straight edge can also cut in many ways so that a pattern can be made in the coating, for example, a comb scraper. A metal blade in a wooden handle that is used to scrape the surface of a bench, or for cleaning metal baking trays.
Segments	Fruit that has been sliced or portioned with no skin attached
Sieve	Utensil with a wire or nylon mesh through which dry materials are passed. Sieving removes coarse particles, extraneous materials and also is a means of blending. Coarse sieves are used for the cleaning and draining of fruit. A sieve can also be used for fluids or semifluids.
Sodium Bicarbonate	The constituent of baking powder that liberates CO ₂ . The maximum is liberated when the correct amount of acid is present.
Soft Flour	Flour containing weak gluten.
Sponge sheets	Sponge baked into thin sheets.
Standard Recipes	List of ingredients for any dish and method of process those ingredient to produce a set amount of food; usually for 10 people
Steep	Cover food in hot or cold liquid to soften, extract or induce flavour
Stock syrup	Sugar and water brought to boil and any forming scum removed, then stored in a clean container (five rich confection parts sugar plus 10% glucose in four parts water).
Strong Flour	Flour containing strong stable gluten.
Sugar Bloom	A grey bloom which is generally caused by dampness or condensation dissolving the surface of chocolate which recrystallises on drying

Sugar syrup	See stock syrup: used to carry alcohol or strong flavours into plain sheets of sponge, also to add moisture to old product
Syneresis	Separation of liquid from a gel. Egg custard is overcooked and as protein shrinks, moisture is squeezed out
Syrup	Boiled sugar and water mixture
Tapioca Pearl	Is derived from the root of the South American cassava plant, it is available in several forms. Tapioca must be soaked in water before cooking.
Tempering Kettle	Vessel used for heating chocolate working on the warm air principle where it is protected from water and steam
Texture	Internal structure of baked products cellular walls
Trimmings	Off cuts of fruit and vegetables that can be utilized in other processes or dishes
Truffles	A ganache with added butter
Viscosity	Resistance of a liquid to movement or flow
Wash	To brush with egg, milk, water, before baking. To brush with a glaze after baking.
Water Brush	A soft-haired brush for washing cakes or pastries with water or other liquids before baking, or for glazing after baking.
Whip	To rapidly aerate a sponge, meringue or cream by means of a hand or machine whisk.
Whisk	An implement made of wire used to whip sponges, meringues and cream by hand. A similar implement is specially made to fix to a machine.
White Chocolate	Cocoa butter, sugar, milk powder, lecithin and flavours
Yield	The calculated units from the total baked weight of a particular formula.
Zest	Outer rind of citrus fruits where the volatile oils reside
Zuppa Inglese	Trifle with fresh fruit, served in a glass bowl

TRAINING REGULATIONS (TR) DOCUMENT REVISION HISTORY

Qualification Title : Food Production (Bread and Patisserie) NC II

Qualification Code : TRSF BP222

Revision No.	Document Type	Qualification Title	TESDA Board Resolution No./Date	Deployment (TESDA Circular/Implementing Guidelines)
00	Document Created	Bread and Pastry Production NC II	2009-12 / 7/13/2009	NA
01	Document Amended	Food Production (Bread and Patisserie) NC II	2025-12 / 9/29/2025	039 series of 2026

*Description Types

- Document Created
- Document Amended
- Document Superseded

ACKNOWLEDGMENTS

The Technical Education and Skills Development Authority (TESDA) wishes to extend thanks and appreciation to the many representatives of business, industry, academe and government agencies who donated their time and expertise to the development and validation of these Training Regulations.

The TECHNICAL AND INDUSTRY EXPERT AND REVIEW PANEL

HEINZ PELAYO

National Master Assessor;
Chef Consultant, Peotraco Food, Inc.;
Chair, Culinary Arts
College of International Tourism
and Hospitality Management
Lyceum of the Philippines University
Intramuros, Manila
Pastry Alliance of the Philippines/TIBFI

ARISTEO C. CUETO

National Master Assessor;
Chef Instructor,
College of International Tourism
and Hospitality Management
Lyceum of the Philippines University-
Batangas
TIBFI/COHREP

ABRAM EMANUEL R. PERALTA

National Master Trainer;
Dean/Culinary Director,
College of International Tourism
and Hospitality Management
Lyceum of the Philippines University
- Laguna
TIBFI/PAP/COHREP
/LTB Chefs Association

ANA PATRICIA I. FRAGANTE

National Master Assessor;
Culinary Arts Instructor
Center for Asian Culinary Studies
TIBFI

The Participants in the National Validation of this Training Regulations

JULIE ANN F. MENDOZA
LPU – Manila

PRINCES SARAH E. DIAZ
TESDA Women's Center

CARLA LEOPOLDO VALENCIA
PILMICO Foods Corporation

IMELDA SO FLORENDO
Confectionery Arts Studio

JOHN LESTER F. TUASON
FEU – Manila

ARNOLD C. ZAGUIRRE
Saint Jude College Manila

WILBERT C. WONG
PILMICO Foods Corporation

LUIS CHAVEZ
Tinapayan Festival

KRIS EDISON PAN
Tsiteru

MARY AGNES C. MANALASAM
Pastry Alliance of the Philippines

JOSELITO F. STA. MARIA
LPU – Manila

DOMINIC LORENZO
LPU – Manila
